## Gourses of Instruction.

I. THE CLASSICAL COURSE.

This course affords opportunity for a careful study of the Latiu and Greek languages, rich in the accumulated wisdom of the most intellectual nations in the past history of our race. It also gives the student access to much of the garnered intellectual wealth of our own English tongue.

## il. the scientific course.

This course differs from the preceding in giving special attention to the French or German languages, instead of the Greek, and in giving a wider range to the study of mathematics and some of the physical sciences.

## III. THE LITERARY COURSE.

This course differs from the preceding courses in giving an opportunity for the study of the English and AngloSaron languages, in place of the Greek of the Classical, or the French or German of the Scientific course, and is an attempt to meet the wants of those who think that a higher discipline of the mind can be obtained from the study of the English language than from the study of Greek, Germán or French.

Each of these three courses extends through four years of study and leads to the same degree of Bachelor of Arts.

## General Information.

The University of Oregon, by an Act of the State Leg. islature, was founded and located at Eugene in 1872, and it was opened for the reception of students and giving instruction in 1876.

The management of its affairs is placed in a Board of Regents, appointed for a term of twelve years, by the Governor of the State and confirmed by the State Senate. The Board of Regents confers such degrees and grants such diplomas as other universities are wont to confer and grant.

The permanent endowment of the University consists of eighty thousand dollars, realized from the sale of the land granted to the State by the General Government for the purpose of establishing a University, and a fund of fifty thousand dollars generously donated the University ly Mr. Henry Villard, and an annual income from the State of one-seventh of a mill on all taxable property.

## LOCATION.

The University is located at Eugene, Lane county, Oregon, one hundred and twenty miles south of Portland, on the Oregon \& California Railroad. Eugene is the county seat of Lane county, has four thousand inhabitants, and is situated amidst scenery of much natural beauty. The University campus lies southeast of Eugene, about one mile from the city postoffice, and contains some eighteen acres of land.

## BUILDINGS.

The University has on its campus three brick buildings. One was erected in part by the citizens of Lane county and finished by the State. It is one hundred and fifteen feet long, fifty-four feet wide, and three stories high, besides the basement. The second building, named by the Regents "Villard Hall," is made of brick, and has a concrete finish on the outside. It is one hundred and fifteen feet in length, sixty nine feet wide and two stories high above basement. The third brick building was erected by the Regents in 1889, at a cost of about four thousand five hundred dollars, for a gymnasium. It contains the most approved apparatus for exercise.

A brick observatory, on an eminence convenient to the University, has been erected by the Regents at a cost of about four thousand dollars.

## IIBRARY.

The University Library occupies a room in Villard Hall and contains at present about three thousand volumes. A part of the books was bought at a cost of one thousand dollars, by Mr. Henry Villard. Another part has since been bought at a cost of seven hundred dollars, out of the income from the Villard endowment fund. The annual sum coming from the Villard fund for the purchase of books for the library is four hundred dollars. This money is now spent in buying books of reference for the use of the University.

Through the influence of the Hon. J. N. Dolph, Oregon's United States Senator, the library has been made the depository of all documents published by the general government at Washington. In the library room may
also be found a large number of magazines, reviews and other periodicals published in England and America. There is no charge for the use of all these books and periodicals.

Much might he done towards preparing this Univer. sity for the place it ought and must fill in the future growth of the intellectual power of our State, if some man or men would, out of their abundance, give the Univer. sity a library endowment fund.

## APPARATUS.

The University has about two thousand dollars' worth of mathematical instruments. Students in surveying and engineuring, by means of the solar compass and engineer's transit, can become acquainted with practical field work in their department, and by means of the sextant and other instruments they can learn the methods of finding the latitude and longitude of any place.

Students in Astronomy will have access for observatory practice to the sidereal clock, the forty-two-inch astronomical transit and the sextant, and with these instruments will he able to find the latitude and longitude, as well as the exact solar time, of the University building by the methods used by astronomers and navigators.

The apparatus belonging to the department of Physics and Chemistry has cost the University more than three thousand dollars, and though such a collection of instru. ments can never be complete, it affords greater facilities for class illustrations than can be found elsewhere in the "Greit Northwest."

The departments of Geology, Mineralogy and Natural History are provided with large and valuable collections to illustrate their teachings. Professor Condon's cabinet is already widely known on this coast, and is justly noted for its wonderful record of Oregon's former history.

To this collection, large additions of eastern and foreign minerals are yearly made, and the whole is freely used in illustrating truth to the classes taught in these departments.

## MUSEUM.

All the Express Companies doing business in the State have generously proposed to transport articles to the Mu seum free of charge; weight of any one shipment not to exceed twenty-five pounds.

Address: University of Oregon,
Eugene.
[FOR MUSEUM.]
People in all parts of the State are respectfully requested to aid in building up the Museum by sending specimens that are interesting and instructive.

The articles received will be classified, labeled with the names of the contributors and carefully preserved.

## EXAMINATIONS.

An examination of new students is made in order to ascertain their scholarships, and assign them to the classes for which they are qualified. An examination of all students is also made at the end of each term for the purpose of ascertaining their progress and deciding what students shall graduate, or be promoted to higher classes.

## GRADUATING STUDENTS.

In marking or grading, a scale of one hundred shall be used, and sixty (60) shall be the minimum.

A student who, in any one study, falls below sixty (60) is thereby conditioned as to his class standing, and in order to be restored to full standing he must pass in a reexamination some time before the regular examinations of the following term; when, however, a student falls below sixty in more than one study of the same term, or in one study in two consecutive terms, especially in the first and second terms of the year, he shall thereby forfeit or lose his class standing.

## DEGREES.

The degree of Bachelor of Arts will be conferred on all students who have completed the Classical, the Scientific, or the Literary course as laid down in this catalogue.

A Bachelor of Arts of three years' standing may receive the degree of Master of Arts, provided, since graduation, he has sustained a good moral character and pursued some literary or scientific calling. Graduates of three years' standing, who wish to obtain this degree, should send their request to the Faculty on or before the first'day of June.

## PRIZES.

In consideration of the gift of Mr. Henry Failing, of Portland, Oregon, of the sum of twenty-five bundred dollars, and the gift of Mr. C. C. Beekman, of Jacksonville, Oregon, of the sum of sixteen hundred dollars, to the Regents of the University of Oregon, and their successors in office, in trust for the uses and purposes hereinafter specified, the said Regents, for themselves and their successors
in office, do accept the same, and do covenant and agree with the said Henry Failing and C. C. Beekman, respectively, as follows:

First. The respective sums given in trust shall constitute a single fund of forty-one hundred dollars, which shall be known as the Failing and Beekman Prize Fund of the University of Oregon.

Second. The said Regents and their successors shall accept and keep said fund as a permanent and irreducible one, invested in a safe and profitable manner, and apply the income thereof as hereinafter provided.

Third. The annual income from said fund shall be divided into two parts, the one to be known as the "First, or Failing Prize," and the other as the "Second, or Beekman Prize," and that part which bears the same proportion to the income for any year that the sum of twentyfive hundred dollars hears to the whole amount of said fund, shall constitute the Failing prize, and the remaining part the Beekman prize.

Fourth. Said prizes shall be awarded at the close of each school year, as follows: The Failing prize to that member of the class of graduates in the Classical, the Scientific, or the Literary course prescribed by the University, or such course as may, at the time, be substituted for either of said courses, who shall pronounce the best original oration at the time of his or ler graduation. And the Beekman prize to that member of said class who shall at the time pronounce the second best original oration.

Fifth. The Failing prize shall not exceed one hundred and fifty dollars, nor the Beekman prize one hundred dol-
lars. And should the annual income of said fund at any time during the first ten years from the date hereof exceed the sum of two hundred and fifty dollars, such excess shall be added to the fund and become a part thereof and kept invested accordingly; but thereafter, any such excess may be added to the fund or to the prizes from time to time, as the Regents may determine.

Sixth. The Faculty of the aforesaid University shall select at each commencement exercise, three disinterested persons from different portions of the State of Oregon if possible, or from other States, or from this State and other States, excluding all persons connected with said University, excepting members of the said Board of Regents; and said three persons selected by the said Faculty shall act as judges, who, after hearing the orations pronounced by the members of the graduating class, shall determine what member thereof has pronounced the best oration, and also what member thereof has pronounced the second best oration, and to these members shall be awarded respectively the above named Failing and Beekman prizes. The judges, in deciding what members have pronounced the best and second best orations, shall take iuto consideration the originality of the subject matter, the style of treatment, rhetorical excellence and the manner of delivery. And no oration shall be considered in the award of said prizes unless delivered withont the aid of manuscript.

Seventh. Prior to the delivery of the orations for said prizes, the President of the Faculty, or some one under his direction, shall publicly announce to the judges the terms and conditions upon which the awards are to be made, and the majority of the judges shall be sufficient to award either of said prizes.

Eighth. The Faculty of the University may, in their discretion, select at the beginning of each College year, subjects not less than six nor more than twelve in number; and upon selecting said subjects, they shall make known the same as the subjects of the Failing and Beekman orations for the said year; but, if the Faculty shall select and announce such list of subjects, no oration upon any other subject shall be considered in the award of said prizes.

Ninth. The Valedictory and Salutatory addresses shall not be regarded in the award of said prizes; but the Valedictorian and Salutatorian shall be entitled to deliver other orations in competition for said prizes.

Tenth. The best studies are selected from the standard "methods" for reed organs by W. H. Clark and others.

Easy preludes and postludes for chürch use; simple arrangements from scores of the best writers for pipe organ; art of accompanying hymns, anthems, motetts, choruses.

Students intending to graduate will be required to take one year's course in Harmony and Theory.

Students who complete the course in pianoforte, voice or organ, are entitled to a testimonial certifying the same.

All pupils are graded and classed, and a pupils' recital will be held once each month, to which no one but pupils and teachers will be admitted-the object being to give abundant opportunity for the cultivation of the ability to play before critical audiences, and prepare for public recitals to which the friends are invited.

These last will consist of a high order of music, and no student will take part except those who have attained the most progress.

In the University library there is a number of valuable musical works, including dictionaries, histories, biographies, and other works of reference for the student in music.

Students attending the University will be allowed the use of the piano free, and the weekly theory class is also free to pupils in music.

## TERMS OF TUITION.

For one hour private lesson in voice, piano or organ, \$1. Arrangements can be made with the instructor to study by the term or year, in private or in classes of from two to four.

The lessons vary in length, from thirty to sixty minutes each, and are given from one to four times a week, according to the needs of the pupil. Rates of tuition will therefore be according to length, frequency and regularity of lessons.

## Requirements for Admission.

Before matriculation the student must give satisfactory evidence of knowledge of the common English branches, including reading, writing, spelling, grammar, geography, arithmetic, etc.

Candidates having a degree in arts or science, or presenting a certificate from a high school or other institution in good standing, and matriculants of regular medical colleges, requiring preliminary examination, will be admitted without examination.

Before admission every student is required to obtain the Dean's receipt for the payment of the matriculation fee. It will, therefore, be necessary for the applicant to present himself at the office of the Dean, register his name as a student in the Department of Medicine and Surgery, and pay his fee.

## EXAMINATIONS.

Examinations for the Degree of Doctor of Medicine are held only once annually, during the last week of the ses sion.

Students, however, who will enter the College for at least three full winter terms of study may receive their final examinations in Descriptive Anatomy, Physiology, Chemistry, Materia Medica and Therapeutics at the close of the second term. This will enable them to devote special attention to clinics and the practical branches during the third winter session. Students who take the three winter courses and desire to be examined in the elementary branches, as above indicated, will be required to advance one-half of the examination fee.

The School of Medicine is held in the city of Portland, and, on account of members of its Faculty being connected with the principal hospitals, offers advantages for clinical, as well as didactic, instruction, unsurpassed in the State.

Didactic lectures are delivered at the college building (on Good Samaritan Hospital grounds) and clinics held regularly at Good Samaritan and St. Vincent's Hospitals, while material from the county hospital is utilized whenever the advantage of the student lemands. With an earnest desire to elevate the standard of medical education in this state, the faculty has resolved that hereafter matriculates who wish to obtain the degree, will be required to attend three courses of lectures (the last in this college) instead of two as has heretofore been the requirement of Oregon medical colleges, before coming up for final examination.

Each course consists of a winter session from October to March first inclusive.

The degree of Doctor of Medicine is conferred by the University upon all students who are recommended for the same by the faculty of medicine, after having pursued the required course of study and passed satisfactory examinations.

The diploma issued by the University is signed by the President of the Regents and the President of the Faculty. together with members of the Faculty of the Department of Medicine.
