Updated December 6, 2012

**BEFORE THE BOARD OF COUNTY COMMISSIONERS  
FOR MULTNOMAH COUNTY, OREGON**

**ORDINANCE NO. 1197**

Amending MCC Chapters 11.15, 33-36 and 38 Relating to Home Occupation; and MCC Chapters 33-36 Relating to Design Review and Off-Street Parking Provisions

(Language ~~stricken~~ is deleted; underlined language is new.)

**The Multnomah County Board of Commissioners Finds:**

- a. The Planning Commission is authorized by Multnomah County Code Chapter subsections 33.0140, 34.0140, 35.0140, 36.0140, 37.0710, and 38.0710 and by ORS 215.110 to recommend to the Board of County Commissioners the adoption of Ordinances to implement the Multnomah County Comprehensive Plan.
- b. Periodically there is a need to amend the County Land Use Planning Code (Zoning Code) provisions due to changing circumstances or for general housekeeping purposes such as technical corrections, clarifications and consistency. This ordinance incorporates two groups of amendments recommended by the Planning Commission: PC-2011-1398, *Amendments Relating to Home Occupation and* PC-2011-1399, *Relating to Design Review and Off-Street Parking*.
- c. The home occupation provisions in the zoning code date from 1998, and should be amended to add flexibility to provide for business use of rural properties in order to allow appropriately scaled incubator businesses, to provide services needed in rural areas, and allow more options for residents to work at home. Only one home occupation may utilize a property at a time. The zoning code must also provide adequate safeguards to ensure that home occupation activities do not create off site impacts to nearby properties. The zoning code amendments should contain standards that address potential impacts including significant vehicle trips, loud noises, smells or other environmental impacts. Provision for periodic renewal of permits is needed to help ensure that approved business uses continue to operate within their scope of approval.
- d. The zoning code provisions relating to Home Occupations should be amended for all zones in Chapters 33 – 36 and 11.15 to provide three levels of home occupation activities to ensure that the scope of review is appropriate to the intensity of business operation proposed. Type A home occupations may only occur in an existing dwelling and requires the business operator to register the business with Land Use Planning. Type B home occupations may occur in the dwelling and/or accessory building and requires a land use review procedure. The Type C home occupation involves the greatest level of allowable activity associated with the property and requires the review and approval of a conditional use permit after the holding of a public hearing.
- e. Zoning code provisions relating to Home Occupations and Cottage Industries in Chapter 38, the Columbia River Gorge National Scenic Area, should be amended to establish a Type A home occupation use in the various general districts. The Type A home occupation will allow for a home office use through the Type II land use application process. The current Home Occupations and Cottage Industries uses will continue to require approval of a conditional use permit application.
- f. Zoning code provisions for Design Review and Off-Street Parking and Loading should be amended to set an appropriate level of review and standards for rural development. Two levels of Design Review together with reduced improvement requirements will provide flexibility for small-scaled businesses consistent with Framework Plan Policy 19, Community Design. Simplification of the Design Review

submittal requirements will assist customers in preparing application materials. The streamlining of the Design Review process will better align with the Chapter 37 Administrative and Procedures provisions and should reduce processing timelines.

- g. The Planning Commission conducted three public hearings for PC-2011-1398 on March 5, 2012, April 2, 2012 and November 5, 2012. In addition, notice to individual property owners was mailed ("Ballot Measure 56 notice") on February 14, 2012 as regulations are being proposed for PC 2011-1398 that further restrict the use of property. The Planning Commission conducted a public hearing for PC-2011-1399 on May 7, 2012. All interested persons were given an opportunity to appear and be heard. Notice of the Planning Commission hearings, was published in the "Oregonian" newspaper and on the County Land Use Planning Program website.
- h. As stated in Planning Commission Resolution, for each of these matters, the Planning Commission has found that the proposed amendments and additions to Multnomah County Code Chapters 11.15, 33-36 and 38 in this Ordinance are needed and recommends approval. The Board agrees with the Planning Commission's recommendations.

##### **(A) Surfacing**

(1) All areas used for parking, loading or maneuvering of vehicles shall be surfaced with two inches of blacktop on a four inch crushed rock base or six inches of portland cement or other material providing a durable and dustless surface capable of carrying a wheel load of 4,000 pounds. Parking areas with fewer than four required parking spaces may be surfaced with four inches of gravel.

(2) Alternate porous surfacing systems which provide a durable dustless surface capable of carrying a wheel load of 4,000 pounds may be used instead of the blacktop or cement materials in (1) above when

approved by the County Engineer. However, approaches to public rights-of-way shall be paved for a minimum distance of 21 feet from the fog line, or for a greater distance when required by the County Engineer.

(23) Large parking fields for intermittent uses such as special events associated with farm stands and public parks, sporting events, amusement parks, race tracks, stadiums, and the like may be surfaced with gravel or grass and spaces may be unmarked if the parking of vehicles is supervised.

(B) Curbs and Bumper Rails

(1) All areas used for parking, loading, and maneuvering of vehicles shall be physically separated from public streets or adjoining property by required landscaped strips or yards or in those cases where no landscaped area is required, by curbs, bumper rails or other permanent barrier against unchanneled motor vehicle access or egress.

(2) The outer boundary of a parking or loading area shall be provided with a bumper rail or curbing at least four inches in height and at least three feet from the lot line or any required fence except as provided in (3) below.

(3) Except for development within the BRC, CFU-1, CFU-2 and CFU-5 zones, the outer boundary of a parking or loading area with fewer than four required parking spaces may use a five foot wide landscape strip or yard planted with a near-continuous number of shrubs and/or trees. If the outer boundary of the parking area is within 50 feet of a dwelling on an adjacent parcel, the plant materials shall create a continuous screen of at least four feet in height except at vision clearance areas where it shall be maintained at three feet in height.

(C) Marking – All areas for the parking and maneuvering of vehicles shall be marked in accordance with the approved plan required under MCC 33.4120, and such marking shall be continually maintained. Except for development within the BRC zone, a graveled parking area with fewer than four required parking spaces is exempt from this requirement.
