

The Millennium Electronic Resource Management Module

What It Is, and
What It Can Do For You

Dave Fowler
May 3, 2007

What is the Electronic Resources Management Module?

- **A library utility created by Innovative Interfaces, Inc. (III)**
- **Part of the overall Millennium Integrated Library System (ILS)**
- **A resource that responds to staff needs, including:**
 - 1) Storage of licensing metadata
 - 2) Educating patrons on the terms of licenses
 - 3) Management of the electronic resources and licensing workflow
 - 4) Management of vendor and licensing contact information
 - 5) Management of current and archival product trial information

What is the Electronic Resources Management Module?

- **A resource that responds to patron needs, including:**
 - 1) Providing information of what is, and what is not allowed when using our electronic resources
 - 2) Providing information on which platform a resource is accessible on at UO
 - 3) Providing information holdings available to the UO community
 - 4) Providing information on what titles are available from an aggregator platform (Synergy, Safari, etc.)

Other Advantages of ERM in Millennium

- Millennium integrates information from other modules (Acquisitions, Serials, Cataloging)
- Can transfer license records from one resource to another, when same license is used, or product changes
- Allows batch loading of resource records (coverage loads)
- Allows previous loads to be updated with title changes / additions / deletions

A typical ERM record for a resource that has been added to the catalog:

Millennium Electronic Resource Management · University of Oregon Library · Dave Fowler, CDA · e10002388

...then the user clicks on Nature --
Nature Journals Online, and sees:

The screenshot shows the Nature Journals Online website as it appeared in the early 2000s. The browser window is titled "Journal home : Nature - Windows Internet Explorer" and the address bar shows "http://0-www.nature.com.janus.uoregon.edu/nature/index.html". The website has a red header with the "nature" logo and the tagline "International weekly journal of science". Navigation links include "PUBLICATIONS A-Z INDEX", "BROWSE BY SUBJECT", and a search bar. A central banner reads "Now there are 3 more reasons to mouse on over" with a mouse icon. The left sidebar contains a "Journal home" menu with links like "Advance online publication", "Current issue", and "Archive", as well as "Gateways and databases". The main content area features the "CURRENT ISSUE" (Volume 446 Number 7138 pp831-948) with a "Table of Contents" and "Archive" link. Below this is a "naturepodcast" section and a "French election" article. The right sidebar includes a "More to it than meets the eye" section with a "Subscribe to Nature" button, a "naturejobs" section with "Research Scientist" and "Biostatistician" listings, and a "natureproducts" section with a "search buyers guide" button. The Windows taskbar at the bottom shows various open applications and the system clock at 1:41 PM.

...Or click on Package and License to see other titles in the package:

The screenshot shows a Windows Internet Explorer browser window displaying the University of Oregon Library website. The address bar shows a URL from janus.uoregon.edu. The page features a green header with the 'UO Libraries' logo. Below the header, there are navigation links like 'Start Over' and 'Previous Page'. A search bar contains the word 'nature'. The search results are displayed in a table-like format with three columns: 'Resource Name', 'Alternate Resource Name', and 'Description'. The results list various journals and reports available in the 'Nature' package, including 'Cell death and differentiation', 'EMBO journal', 'EMBO reports', 'Heredity', 'Nature biotechnology', 'Nature cell biology', 'Nature genetics', 'Nature', 'Nature medicine', 'Nature materials', 'Nature neuroscience', and 'Nature photonics'. Each entry includes a 'Full text from' date range and a 'Connect to full text' link. At the bottom, there are more navigation links and a status bar showing the system clock and taskbar.

We're still working on how we can best display licensing information to the reference staff and to the public.

- At present, we're using a static referral page to inform patrons of the general dos and don'ts of electronic resource licensing.

This is an example of what public licensing information will look like, although we are still making some adjustments:

The screenshot shows a web browser window titled "University of Oregon Library / All Locations - Windows Internet Explorer". The address bar displays a URL: <http://janus.uoregon.edu/search/y=a/ya/13%2C59%2C59%2CB/eresource&FF=yamerican+institute+of+physics&1%2C1%2C>. The page header includes the University of Oregon logo and "UO Libraries". Below the header, there are navigation buttons: "Start Over", "Return to Results List", and a "(Search History)" dropdown. A search bar contains the text "a", and there are buttons for "View Entire Collection", "System Sorted", and "Search". Below the search bar, there are "Previous" and "Next" buttons. The main content area displays the following information:

Resource Name American Institute of Physics
Alternate Resource Name AIP

Authorized users	UO faculty, staff, students, and walk-in users
Remote access	Remote access is permitted by secure means
Terms of Use (Patron)	Acceptable use
Authentication method	IP authentication
Special terms	Course packs are allowed; E-reserves are allowed.
Terms of use (Staff)	ILL permitted in hard copy print form only; electronic files must be deleted immediately after printing. May not remove or obscure the copyright notice.
Notice requirement	UO must make reasonable efforts to educate/notify patrons
Site definition	University of Oregon (no restrictions)

Connect to catalog record for	Full text from	Connect to full text
American journal of physics	Jan. 01, 1933-	American Journal of Physics -- American Institute of Physics
Applied physics letters	Jan. 01, 1962-	Applied Physics Letters -- American Institute of Physics
Geochemical transactions [electronic resource]	Jan. 01, 2000-	Geochemical Transactions -- American Institute of Physics
Journal of applied physics	Jan. 01, 1931-	Journal of Applied Physics -- American Institute of Physics
Journal of physical and chemical reference data	Jan. 01, 1999-	Journal of Physical and Chemical Reference Data -- American Institute of Physics
Journal of mathematical physics	Jan. 01, 1960-	Journal of Mathematical Physics -- American Institute of Physics
The Journal of chemical physics	Jan. 01, 1933-	Journal of Chemical Physics -- American Institute of Physics
The Journal of the Acoustical Society of America	Jan. 01, 1929-	Journal of the Acoustical Society of America -- American Institute of Physics
Review of scientific instruments	Jan. 01, 1930-	Review of Scientific Instruments -- American Institute of Physics

Below the table, there are "Previous" and "Next" buttons. At the bottom, there are navigation buttons: "Start Over", "Return to Results List", and a "(Search History)" dropdown. The browser's taskbar at the bottom shows the Start button, several open applications (Microsoft Word, AIM, Internet Explorer, iTunes, Millennium, Millennium EL, Microsoft PowerPoint, Document1), and the system clock showing 3:54 PM on 6/3.

Important Licensing Fields That We Want to be Able to Display in Public Mode:

- **Special Terms (Examples):**

- 1) Course packs
- 2) E-Reserve
- 3) Archival/back-up copies

- **Authorized Users:**

- 1) UO faculty/staff
- 2) UO students
- 3) Walk-in users

Important Licensing Fields That We Want to be Able to Display in Public Mode:

- **Remote Access:**

- 1) Remote access permitted by secure means
- 2) Remote access permitted via proxy server
- 3) Proxy server prohibited

- **Notice requirement:**

- UO must make reasonable efforts to educate/notify patrons

Important Licensing Fields That We Want to be Able to Display in Public Mode:

- **Terms of Use (For Patrons):**

- 1) Licensed materials may be downloaded by patrons, but within reasonable limits
- 2) Patrons may use licensed materials, but should not share them with non-authorized users
- 3) Licensed materials may be used in projects created by patrons, but proper attributions must be made
- 4) Materials must be used only for educational, research or non-commercial purposes

Important Licensing Fields That We Want to be Able to Display in Public Mode:

- **Terms of Use (For Staff):**

- 1) Staff must take reasonable measures to ensure only authorized users can utilize the licensed materials.
- 2) Licensed materials may only be modified with proper permission from the publisher
- 3) Licensed materials may only be used for commercial purposes with proper permission from the publisher.
- 4) The copyright notice must remain intact, and not be removed or obscured.
- 5) We must maintain confidentiality of any passwords.
- 6) We must maintain confidentiality of user data.

Coming Soon...

- **WebPAC Pro to be implemented Summer 2007:**
 - Will enable enhanced and customizable display functionality
 - Will enable us to display the public notes that we want to display, and not display information that we don't (vendor phone numbers, financial info.)
- **ERM Release 2007:**
 - Using the statistics feature, a tool to calculate cost-per-use, at the resource and subject level
 - Will upgrade support of SUSHI

The Millennium Electronic Resources Module

- ❑ Keep in mind, that while the ERM facilitates the e-resources cataloging and access process, it does take time for the coverage loads to be placed into the catalog.
- ❑ Questions?
