** The M groups include all patterns of days involving Monday. The T groups include all patterns of days not involving Monday. The schedule by subjects takes precedence over the schedule by hours, by special approval. No examination may be given ahead of the regularly scheduled time. Only in case of conflicts may there be deviations from the approved schedule of examinations.

Course Lists

Courses are listed in the same order as in the Catalog, which should be consulted for additional information. Any course in the current Catalog (whether or not listed in this Time Schedule) may be offered in case of sufficient demand, and any course may be withdrawn in case there is not sufficient demand. Course titles have been systematically abbreviated to the length which can be recorded on students' permanent record sheets.

Prerequisites for enrolling in courses are stated in footnotes, with these standard exceptions:

gG, graduate credit for certain 400 courses;

h, honors privileges;

H, Honors College students;

i, instructor's consent;

N, no-grade course;

R, same number may be repeated without duplication;

s, sequence requiring that course be taken from the beginning;

\$, additional fee.

Class meetings normally begin on the hour and dismiss ten minutes before the terminal hour; thus an 8 o'clock class meets 8:00-8:50, an 8-10 class meets 8:00-9:50. The symbol ** means "to be arranged" by the instructor. If a course includes a discussion or a laboratory section in addition to a classroom section, students must arrange with the department for that assignment also, but it is not needed on the Registration Card.

Academic Regulations

AUTHORITY AND RESPONSIBILITY

STUDENT RESPONSIBILITY. Each student is held responsible for knowing and obeying the published rules and regulations of the University. If the University is obliged to make any changes, they will be considered to be effective from the date of their publication. A student is required to be a good citizen of the campus at all times.

ADMINISTRATION. The maintenance of students' academic records is the responsibility of the Registrar's Office; petitions for special action are filed in this office and referred to the Academic Requirements or the Scholastic Deficiency Committee. The administration of students' non-academic interests and the correlation of these with academic situations, and the preparation of petitions to the Scholastic Deficiency Committee, are responsibilities of the Office of Student Affairs. Academic deans and schools are responsible for advising, instructing, and grading students' academic work. These and other University officials are responsible to the President, who derives his authority from the Board of Higher Education and ultimately from the people of the State of Oregon.

ADMISSION

CREDENTIALS AND PROCEDURE. A student is admitted to the University after he has filed the proper documents to establish his satisfactory academic standing; consideration is given also to health and moral character. The required documents include an official Application for Admission and (for undergraduates) complete records of all school work beyond the eighth grade; they should be filed several weeks in advance of the anticipated registration date, and when filed become the permanent property of the University. When these and other credentials such as entrance examination results (see Catalog) have been examined and found satisfactory, a Notice of Admission and further instructions are sent to the applicant. *Entrance is not fully cleared until all required information has been filed and all required examinations and procedures completed; any student's registration may be cancelled if these requirements are not promptly and adequately cleared.*

CLASSIFICATION. Detailed requirements for entrance classification as freshman, undergraduate transfer, special, or graduate student are described in the Catalog.

ATTENDANCE WITHOUT ADMISSION. Formal admission is not at present required for attendance in summer sessions of the University. (Credit may not be earned in regular sessions except after the completion of the appropriate admission procedures as described above. Attendance without credit may be permitted on payment of the auditor's fee.)

REGISTRATION AND CLASSIFICATION

PROCEDURE. To register for University work for credit, a student obtains certain prepared documents from the Registrar (having filed adequate advance notice of intent to register). He then consults a faculty member (appointed by his major dean or other authority) who serves as academic adviser and approves his study program. He is accepted by the respective department concerned for enrollment in each of his chosen courses. Finally he is checked by Student Affairs and Registrar's clerks for various purposes, and pays registration fees to the Cashier. Registration is regularly scheduled for New-Student Week preceding the fall term, and for the first day of the winter and spring terms. *Late registration carries a penalty fee, and may not be allowed after Monday of the third week of each term. Detailed dates and instructions are published before each registration period. Each student must register in person, not in proxy or by mail.*

STUDY LOAD. The normal undergraduate study load averages 15 or 16 hours per term. An average graduate study load is about 12 hours per term. Exceptional loads may be carried with the adviser's consent.

CHANGE OF STUDY PROGRAM. *Any change from the original term study program filed at registration must be properly endorsed and filed with the Registrar, before it becomes effective and a matter of record.* Changes are freely allowed until Monday of the third week of a term. Thereafter a change fee is charged, and any course addition must be approved by the instructor and by the department head or dean of the instructional department or school. *No withdrawal from a course is permitted within the last thirty days before term examinations.* Complete withdrawal from the University may be allowed by the Dean of Men or Dean of Women, for good cause.

CHANGE OF MAJOR. A student is classified by the Registrar in the major indicated by the student. (Change of advisor, not also involving change of major, is controlled by the major dean or other authority.)
