President's Welcome

On behalf of the University of Oregon, I congratulate members of the class of 1977 and extend best wishes to their parents, families and friends here assembled.

The completion of your degree program marks the successful conclusion of one endeavor and the beginning of another. We salute each individual whose accomplishments are recognized during these ceremonies.

William Boyd, President

The University

The University of Oregon opened its doors to 177 students on October 16, 1876. Today the University enrolls some 17,000 students. Its 925 faculty are engaged in teaching, research, and scholarship covering a broad range of humanistic, scientific, and professional knowledge.

The campus houses 35 departments and special programs in the liberal arts; nine professional schools and colleges; 12 research bureaus, institutes, and centers; and a graduate division.

The University's more than 80,000 alumni include two graduates who have won the Nobel Prize: William Parry Murphy, co-winner of the prize in 1934 for a development in the treatment of anemia, and Walter Houser Brattain, who won it in 1956 for the co-invention of the transistor. Seventeen Rhodes Scholars call the University of Oregon their alma mater.

The University is one of only 24 public schools in the nation to be selected for membership in the prestigious Association of American Universities.

Alumni Membership

Congratulations and welcome to the University of Oregon Alumni Association. As graduates you may take part in any of the Association's activities including foreign travel, reunions, vacation learning experiences, or one of the many alumni groups around the world. You also will receive copies of the alumni publications *Old Oregon* and *Oregon Today*. The Alumni Association is a great way to keep in touch with "Oregon." We're here to serve you.

Robert D. Kraus, President
Alumni Association

Academic Costume

The history of academic dress goes back several centuries, to the chilly universities where cap and gown and hood were needed for covering and warmth. Subsequently this has become a ceremonial costume, with certain standardized features. For example, sleeves in the bachelor's gown are pointed, in the master's gown are oblong, in the doctor's gown are bell-shaped. Only the doctor's gown has velvet facing. The hood is lined with the official colors of the degree-conferring institution; for the University of Oregon these are lemon yellow and green. The outside trimming of the hood and the color of the tassel signify the subject in which the degree is conferred, as follows:

Maize/Agriculture
White/Art, Letters, Humanities
Drab/Commerce, Accountancy, Business
Lilac/Dentistry
Copper/Economics
Light Blue/Education
Orange/Engineering
Brown/Fine Arts, including Architecture
Russet/Forestry
Crimson/Journalism
Purple/Law
Lemon/Library Science
Green/Medicine
Pink/Music
Apricot/Nursing
Silver Gray/Oratory, Speech
Olive Green/Pharmacy
Dark Blue/Philosophy
Sage Green/Physical Education
Peacock Blue/Public Administration,
including Foreign Service
Salmon Pink/Public Health
Golden Yellow/Science
Citron/Social Work
Scarlet/Theology
Gray/Veterinary Science

At the University of Oregon it is customary for master's candidates to wear their hoods in the academic procession. Doctoral candidates carry their hoods and are hooded during the ceremony. Traditionally, baccalaureate candidates change tassels on their cap from front right to the front left as the degree is conferred. Caps are removed during prayer, the playing of the National Anthem and the Alma Mater, and during the commencement address if desired.

Awards for Distinguished Service

John Yeon

A native of Oregon, John Yeon through his distinguished and original contributions to architectural design brought widespread recognition to the state and helped to lay the foundation for a regional style of architecture in the Pacific Northwest. His epochal design of the Aubrey Watzek house in Portland, 1937, demonstrated that the spatial character of international modern architecture could be happily blended with local materials and forms. In his sensitive landscape designs he was a pioneer in the use of plant materials native to the region. His long and assiduous devotion to the cause of conservation and preservation of both the natural landscape and historic structures has materially contributed to the legacy of beauty preserved for the delight of future generations of Oregonians.

Eric William Allen, Jr.

One of the most respected journalistic voices in the Northwest is that of the editor of the Medford *Mail-Tribune*, Eric William Allen, Jr. Son of the founding dean of the University's School of Journalism, he has in his own life embodied the finest aspects of the craft his father taught. He has written eloquently and perceptively in defense of our state's schools, its natural resources, and its innovative governmental systems. He is persuasive, never shrill. He writes from knowledge and experience, never in haste or anger. His comments are reprinted throughout Oregon and the nation. He rightly stands among the first citizens of our state and our era.

Ersted Award For Distinguished Teaching

James L. Boren

James L. Boren, whose disciplines are Old English and Middle English, has worked with undergraduate and graduate students at the University for seven years. His students are stimulated by the requirement that they meet with him for individual reading sessions each term in addition to the normal classroom work. Concerned with human values and the need to incorporate the best of the past into the life of the present, his lectures are enriched by this philosophy. His is a total, personal commitment to the teaching art. This year he has chaired the University's Library committee and is an active member of the Friends of the Library. Within the English Department he has served as adviser to graduate students in Old English and as coordinator of the Middle English program.

Francoise Calin

Francoise Calin kindles in the minds of her students of French a new awareness of the challenge of language. She requires of them a superior standard of accomplishment. Her lectures sparkle and inspire students to reach further into the materials presented. She combines human warmth with an ability to communicate her own deep intellectual commitment to liberal education. Professor Calin is responsible for directing all second year French classes and organizes conversation groups for second year students. She has been at Oregon since 1973.
