UNIVERSITY OF OREGON YEAR SCHEDULE, 1928-29

EXPLANATORY NOTES

In conformity with faculty legislation affecting lower division curricula and the number of courses, this year's schedule has been arranged in a different way and numbers assigned to courses in accordance with the new system of numbering adopted at the June meeting. Numbers assigned to courses *do not* correspond to those carried in the catalogue for 1927-28 which was issued prior to the faculty legislation referred to above. Catalogue numbers should be disregarded in registering students and referring to courses.

In the College of Literature, Science, and the Arts all lower division courses, except in Household Arts and Military Science, are listed by groups and departments. Freshman survey and elective courses are listed under group divisions and sophomore option courses by departments arranged in alphabetical order within the group. The upper division work is then listed as usual by departments arranged in alphabetical order for the entire College.

The curricula of the several schools are then listed in alphabetical order. For the first time the schedule of the Law School is printed along with the other schools and departments.

It is believed that the new scheme of numbering courses will simplify the process of registration as soon as the faculty is familiar with the notations. Numbers 1 to 99 indicate beginning language and sub-survey courses. The new type of survey courses are designated by numbers ranging from 100 to 110 and freshman elective courses by numbers from 111 to 199. Sophomore option courses bear numbers from 200 to 210. Upper division courses are numbered from 300 to 499. Those in the three hundred group are not intended to carry graduate credit while those in the four hundred group may carry graduate credit when proper quality and quantity of work is done. Numbers from 500 up indicate courses reserved for graduate students only.

An a,b,c course indicates that all three terms must be completed before credit can be obtained. The hyphenated course (1-2-3) indicates that it is desirable for students to take the three successive terms since they are closely related parts of a year series. Credit may, however, be obtained for one or two terms completed, *provided the student registers at the beginning of the fall term*. A number unaccompanied by a letter or a hyphen indicates a term course more or less a unit in itself and for which credit may be obtained term by term.

Course and laboratory fees given below are payable each term. For registration fees and deposits see pages 3-4.

** Signifies "to be arranged."

Figures in parenthesis after the name of the course indicate the credit hours.

All classes begin on the hour, and dismiss at ten minutes before the hour.
