# Catalog

---

The 2023-24 University of Oregon Catalog contains information about academic programs offered by the university from fall 2023 through summer 2024. Whether you're an enrolled student or you're considering attending the UO, this site will provide the information you need as you consider your academic goals.

# Reader's Guide to the Catalog

---

## Organization

The University of Oregon's largest academic units are its colleges and professional schools. Each consists of smaller units called departments or programs. The academic year is divided into three terms (fall, winter, spring) and one summer session.

## Where to Find It

This catalog has four sections. The first section contains information about admission, registration, academic policies, undergraduate degree requirements, tuition and fees, financial aid and scholarships, employment, and academic and career planning. The second section outlines the majors, minors, and specializations defining the degrees and certificates that may be earned at the University of Oregon, as well as the array of core-education courses available that make up the foundational requirements of those degrees. The third (or curriculum) section describes all the university's academic programs in detail: faculty members, degree and nondegree programs, and course listings. This section includes the College of Arts and Sciences, the honors college, professional schools and colleges, the Division of Graduate Studies and graduate studies information, and ends with a review of undergraduate studies and supplemental academic programs. The final section contains information on academic resources and student services, physical education and recreation, and the academic calendar.

## Definitions

### The academic terms defined in the following list are used throughout this catalog.

**Area-satisfying course.** A course that counts toward partial fulfillment of bachelor's degree requirements in one of the three core-education areas: arts and letters, social science, science.

**Certificate.** A formal document that recognizes academic achievement in a specific discipline—only as an adjunct to an undergraduate degree program and either as an adjunct to or separate from a graduate degree program, and only for students in an admitted status. Stand-alone noncredit certificates are offered through Continuing and Professional Education to all students.

**Colloquium.** An academic meeting or assembly for discussion, sometimes led by a different lecturer speaking on a different topic at each meeting; a seminar with consultation, report, and exchange.

**Competency.** A specific skill in a specific area.

**Concentration.** A subarea of specialized study within an undergraduate or graduate major or undergraduate minor.

**Corequisite.** A course or other educational requirement that must be completed simultaneously with another course.

**Course.** A subject, or an instructional subdivision of a subject, offered through part of a term or a whole term. Each course is assigned a course level. Courses numbered 100–499 are undergraduate courses; 500–299

are lower division, and 300–499 are upper division. Courses numbered 500 and above are graduate or professional.

**1 credit.** Represents approximately three hours of the student's time each week for one term in a lower-division undergraduate course. This frequently means a minimum of one hour in the lecture hall or laboratory in addition to two hours spent in outside preparation. The number of lecture, recitation, laboratory, or other periods required each week for a course is listed in each term's class schedule.

**Cultural Literacy course.** A course that counts toward partial fulfillment of bachelor's degree requirements in one of two categories: Global Perspectives; and US: Difference, Inequality, Agency.

**Curriculum.** An organized program of study arranged to provide integrated cultural or professional education.

**Discipline.** A branch of learning or field of study (e.g., mathematics, history, psychology).

**Dissertation or Thesis.** A written document resulting from study or research and submitted as a major requirement for a degree.

**Electives.** Courses that students may choose to take, as contrasted with courses that are required for an academic program.

**Endorsement.** An affirmation of teaching competency by the Teacher Standards and Practices Commission.

**Experimental course.** A course under development that has not received formal acceptance to the curriculum. Subject matter, instructional materials, and activities are evaluated for effectiveness and long-term value to the discipline. *Experimental courses may not be used to clear core-education requirements.*

**Field studies.** A series of practical experiences on or off campus to understand principles or develop skills in performing selected tasks.

**Generic courses.** Courses numbered 100, 300, 196, 198, 199, 299, 399–410, 503–510, 601–610, and 704–710, for which credit is variable and which may be repeated for credit. Instructor's permission is often required for registration.

**Grade point average (GPA).** The GPA is determined by dividing the total points for all grades by total credits.

**Grading option.** Unless specified otherwise, nonmajors may take courses either graded (A+ through F) or pass/no pass (P/N). The online class schedule identifies courses for which majors are limited to a particular grading option.

**Graduate specialization.** A subdivision of a graduate major or an interdisciplinary track in which a strong graduate-level curriculum is available. For more details, visit the website (<https://gradschool.uoregon.edu/policies-procedures/graduate-specialization/>).

**Interdisciplinary or multidisciplinary.** A course of study from two or more academic disciplines.

**Internship.** Unpaid professional practice in an organization that integrates concepts studied at the university with career-related work experience.

**License.** See Endorsement.

**Major.** A primary undergraduate or graduate field of specialized study.

**Minor.** A secondary undergraduate field of specialized study.

**Multilisted course.** A single course that is listed under more than one subject code; course numbers end with the letter M.

**Option.** A subarea of specialized study within an undergraduate or graduate major or undergraduate minor.

**Preparatory programs.** Undergraduate courses of study taken in preparation for professional or graduate degrees.

**Prerequisite.** A course or other educational requirement that must be completed prior to registering for another course or before proceeding to more advanced study. Prerequisite courses must be passed with C- or better or P for undergraduate courses; B- or better or P for graduate courses; and D or better or P for law courses. Courses may have a higher minimum grade for completing the prerequisite course.

**Practicum.** A series of clinical experiences under academic supervision designed to integrate theory and principles with practice.

**Reading and conference.** A particular selection of material read by a student and discussed in conference with a faculty member.

**Regression.** Occurs when a student takes a course that is at a lower level than a course the student has previously passed. Academic departments have the authority to designate a course as regressive.

**Repeatable for credit.** Only courses designated "repeatable" may be repeated for credit. Except for generic, studio, or performance courses, the circumstances under which a course may be repeated for credit are restricted.

**Research.** Disciplined inquiry of a topic with varying techniques and assignments suited to the nature and conditions of the problem being investigated. Often pursued in relation to a dissertation or thesis.

**Residence credit.** Academic work completed while the student is formally admitted and officially registered at the University of Oregon; this includes courses taken in UO study abroad programs.

**Semester.** One-half the academic year (sixteen weeks), applicable only to the UO School of Law.

**1 semester credit.** One semester credit equals one and one-half quarter (or term) credits.

**Seminar.** A small group of students studying a subject with a faculty member. Although practices vary, students may do original research and exchange results through informal lectures, reports, and discussions.

**Sequence.** Two or three closely related courses that must be taken in specified order.

**Series.** Two or more closely related courses that may be taken in any order.

**Special studies.** A colloquium or experimental course, often taken concurrently with another course as a satellite seminar.

**Specialization.** A graduate-level subdivision of a major or an interdisciplinary track in which a strong graduate-level curriculum is available.

**Subject code.** An abbreviation used with a course number to indicate an academic subject area. See the list of subject codes in this section of the catalog.

**Supervised college teaching.** A student, under faculty supervision and sponsorship, accepts responsibility for teaching a university course.

**Supervised tutoring.** A student, under faculty supervision, accepts responsibility for tutoring other students within the discipline.

**Temporary multilisted course.** Courses numbered 200M, 400M, 500M, and 600M, which may be offered once without formal approval.

**Term.** Approximately one-third of the academic year (eleven weeks), either fall, winter, or spring.

**Terminal project.** A presentation incorporating the knowledge and skills acquired from course work completed for the master's degree.

**Waive.** To set aside without credit certain requirements for a degree or major.

**Workshop.** An intensive experience, limited in scope and time, in which a group of students focus on skills development rather than content mastery.

---

## Courses

### Abbreviations

The following abbreviations are used in course descriptions:

- **Coreq:** corequisite
- **H:** honors content of significant difficulty
- **M:** multilisted courses
- **Prereq:** prerequisite

### Sample Course Listings

The following examples are from Biology (BI):

**BI 122.** *[BI lower-division course number]* **Introduction to Human Genetics.** *[course title]* **4 credits.** *[course credits]* Basic concepts of genetics as they relate to humans. Blood groups, transplantation and immune reaction, prenatal effects, the biology of twinning, selection in humans, and sociological implications. Lectures, discussions. *[course description]*

**BI 523.** *[BI graduate course number]* **Human Molecular Genetics.** *[course title]* **4 credits.** *[course credits]* Advanced topics in genetics that relate to human development and disease. The human genome, sex determination, X-chromosome inactivation, chromosomal abnormalities, trinucleotide repeat expansions, cancer. *[course description]* Prereq: BI 320. *[course prerequisite]*

**BI 607.** *[BI graduate-only course number]* **Seminar: [Topic].** *[course title]* **1–3 credits.** *[course credit range]* Topics may include neurobiology, developmental biology, ecology colloquium, genetics, molecular biology, and neuroscience. *[course description]* Repeatable.

### Subject Codes

The following subject codes are used at the University of Oregon. They appear in University of Oregon catalogs and class schedules, on student schedules, degree audits, transfer articulation reports, and transcripts.

**AAAP** Historic Preservation  
**ACTG** Accounting  
**AEIS** Academic English for International Students  
**AFR** African Studies  
**ANTH** Anthropology  
**ANTM** Museum of Natural and Cultural History  
**ARB** Arabic  
**ARCH** Architecture  
**ARH** Art History  
**ART** General Art  
**ARTC** Art: Ceramics  
**ARTD** Art: Art & Technology  
**ARTF** Art: Fibers  
**ARTM** Art: Metalsmithing and Jewelry  
**ARTO** Art: Photography  
**ARTP** Art: Painting  
**ARTR** Art: Printmaking  
**ARTS** Art: Sculpture  
**ASIA** Asian Studies  
**ASL** American Sign Language  
**ASTR** Astronomy  
**BA** Business Administration  
**BE** Business Environment  
**BEHT** Behavioral Health  
**BI** Biology  
**BIOE** Bioengineering  
**BLST** Black Studies  
**CAS** College Scholars Colloquium  
**CDS** Communication Disorders and Sciences  
**CFT** Couples and Family Therapy  
**CH** Chemistry  
**CHN** Chinese  
**CINE** Cinema Studies  
**CIT** Computer Information Technology  
**CLAS** Classics  
**COLT** Comparative Literature  
**CPSY** Counseling Psychology  
**CRES** Conflict and Dispute Resolution  
**CRWR** Creative Writing  
**CS** Computer Science  
**DAN** Professional Dance  
**DANC** Dance Activity  
**DANE** Danish  
**DSCI** Data Science  
**DSGN** College of Design  
**EALL** East Asian Languages and Literatures  
**EC** Economics  
**EDLD** Educational Leadership  
**EDST** Education Studies  
**EDUC** Education  
**ENG** English  
**ENVS** Environmental Studies  
**ERTH** Earth Sciences  
**ES** Ethnic Studies  
**EURO** European Studies  
**FHS** Family and Human Services  
**FIN** Finance  
**FLR** Folklore and Public Culture  
**FR** French  
**GEOG** Geography  
**GER** German

**GLBL** Global Studies  
**GRK** Greek  
**GRST** Graduate Studies  
**HBRW** Hebrew  
**HC** Honors College  
**HIST** History  
**HPHY** Human Physiology  
**HUM** Humanities  
**IARC** Interior Architecture  
**ICH** Ichishkiin  
**IST** Interdisciplinary Studies  
**ITAL** Italian  
**J** Journalism  
**JC** Joint Campus  
**JDST** Judaic Studies  
**JPN** Japanese  
**KRN** Korean  
**LA** Landscape Architecture  
**LAS** Latin American Studies  
**LAT** Latin  
**LAW** Law  
**LERC** Labor Education and Research Center  
**LIB** Library  
**LING** Linguistics  
**LT** Language Teaching  
**MATH** Mathematics  
**MDVL** Medieval Studies  
**MENA** Middle East/North Africa Studies  
**MGMT** Management  
**MIL** Military Science  
**MKTG** Marketing  
**MUE** Music Education  
**MUJ** Music: Jazz Studies  
**MUP** Music Performance  
**MUS** Music  
**OBA** Operations and Business Analytics  
**PD** Product Design  
**PEAQ** Physical Education: Aquatics  
**PEAS** Physical Education: Aquatics Scuba  
**PEC** Physical Education: Certification  
**PEF** Physical Education: Fitness  
**PEI** Physical Education: Individual Activities  
**PEIA** Physical Education: Intercollegiate Athletics  
**PEL** Physical Education: Leadership  
**PEMA** Physical Education: Martial Arts  
**PEMB** Physical Education: Mind-Body  
**PEO** Physical Education: Outdoor Pursuits  
**PERS** Physical Education: Racquet Sports  
**PERU** Physical Education: Running  
**PETS** Physical Education: Team Sports  
**PEW** Physical Education: Weight Training  
**PHIL** Philosophy  
**PHYS** Physics  
**PORT** Portuguese  
**PPPM** Planning, Public Policy and Management  
**PREV** Prevention Science  
**PS** Political Science  
**PSY** Psychology  
**REES** Russian, East European, and Eurasian Studies  
**REL** Religious Studies  
**RL** Romance Languages  
**RUSS** Russian

**SBUS** Sports Business  
**SCAN** Scandinavian  
**SOC** Sociology  
**SPAN** Spanish  
**SPD** Sports Product Design  
**SPED** Special Education  
**SPM** Sports Product Management  
**SPSY** School Psychology  
**STAT** Statistics  
**SWAH** Swahili  
**SWED** Swedish  
**TA** Theater Arts  
**UGST** Undergraduate Studies  
**WGS** Women's, Gender, and Sexuality Studies  
**WR** Expository Writing

## Study-Abroad Subject Codes

**OAKI** Overseas Studies: Akita International University, Akita, Japan

**OANG** Overseas Studies: Angers, France

**OANU** Overseas Studies: Australian National University, Canberra, Australia

**OATH** Overseas Studies: Athens, Greece

**OBER** Overseas Studies: University of Bergen, Bergen, Norway

**OBK** Overseas Studies: Sustainable Bicycle Transportation Field Seminar, Europe

**OBLN** Overseas Studies: Berlin, Germany

## Course Numbering System

Except at the 500 and 600 levels, courses in University of Oregon catalogs are numbered in accordance with the course-numbering plan of the schools in the Oregon University System. Institutions vary in their treatment of 500- and 600-level courses.

### 1–99

Remedial, terminal, semiprofessional, or noncredit courses that do not apply to degree requirements

### 100–299

Lower-division (freshman- and sophomore-level) courses

### 300–499

Upper-division (junior- and senior-level) courses

### 500–599

Courses that offer graduate-level work in classes that include undergraduate students

### 600–699

Courses for graduate students only

### 700–799

Except in the School of Music and Dance, professional or technical courses that apply toward professional degrees but not toward advanced academic degrees such as the MA, MS, or PhD. Both 600 and 700 numbers in the School of Music and Dance indicate graduate courses only.

## Temporary Multilisted and Area-Satisfying Courses

### 100

Temporary lower-division area-satisfying course

### 200M

Temporary lower-division multilisted course

### 298

Temporary lower-division area-satisfying course

### 300

Temporary upper-division area-satisfying course

### 400M

Temporary upper-division multilisted course

### 500M

Temporary graduate-level multilisted course

### 600M

Temporary graduate-level multilisted course

## Generic Courses

Certain numbers are reserved for generic courses that may be repeated for credit under the same number. Except in the School of Law, courses numbered 503, 601, and 603 are offered pass/no pass only.

Credit is assigned according to the work load in a particular course. Credit ranges indicate minimum and maximum credits available in a

single course for a single term, and departments determine their own credit ranges.

**196 Practicum:** [Topic] or **Field Studies:** [Topic]

**198 Workshop:** [Topic] or **Laboratory Projects:** [Topic]

**199 Special Studies:** [Topic]

**299 Special Studies:** [Topic]

**399 Special Studies:** [Topic]

**401 Research:** [Topic]

**402 Supervised College Teaching**

**403 Thesis**

**404 Internship:** [Topic]

**405 Reading and Conference:** [Topic] or **Special Problems:** [Topic]

**406 Practicum:** [Topic] or **Field Studies:** [Topic]

**407/507 Seminar:** [Topic] or **Colloquium:** [Topic]

**408/508 Workshop:** [Topic] or **Laboratory Projects:** [Topic]

**409 Terminal Project or Capstone**

**410/510 Experimental Course:** [Topic]

**503 Thesis**

**601 Research:** [Topic]

**603 Dissertation**

**604, 704 Internship:** [Topic]

**605, 705 Reading and Conference:** [Topic] or **Special Problems:** [Topic]

**606, 706 Practicum:** [Topic] or **Field Studies:** [Topic]

**607, 707 Seminar:** [Topic] or **Colloquium:** [Topic]

**608, 708 Workshop:** [Topic] or **Laboratory Projects:** [Topic]

**609, 709 Terminal Project or Capstone**

**610, 710 Experimental Course:** [Topic]

## Undergraduate Students

To receive an undergraduate degree, a student must have satisfied, at the time of graduation, all requirements for the degree listed in one of the following:

1. the unexpired catalog in effect when the student was first admitted and enrolled at the University of Oregon, **or**
2. any subsequent catalog that has not yet expired

To fulfill major or minor program requirements, a student must complete the requirements in effect

1. when the student first declared the major or minor, **or**
2. when the student changed to a different major or minor

Exceptions to major or minor requirements may be made by the department or program offering the major or minor.

## Graduate Students

To receive a graduate degree, a continuously enrolled student must have completed, at the time of graduation, all requirements described in the department and **Division of Graduate Studies** sections of the catalog in effect when the student was first admitted and enrolled at the University of Oregon. A student who has not maintained continuous enrollment is subject to the requirements described in the department and **Division of Graduate Studies** sections of the catalog in effect the first term the student was readmitted by the Division of Graduate Studies and reenrolled at the University of Oregon.

Requests for exceptions to graduate degree requirements must be submitted in writing to the Division of Graduate Studies prior to graduation.

**While every effort is made to ensure the accuracy of the information in this catalog, the University of Oregon has the right to make changes at any time without prior notice. This catalog is not a contract between the University of Oregon and current or prospective students.**

---

## Catalog Expiration and Requirements Policies

The *University of Oregon Catalog* lists requirements for active degrees offered by the university.

Each catalog goes into effect at the beginning of fall term the academic year of issue. It expires at the end of summer session the seventh academic year after publication.

Advisors and other university employees are available to help, but students have final responsibility for satisfying degree requirements for graduation.

# About the University of Oregon

---

## Mission Statement

*Serving the state, the nation, and the world since 1876.*

The University of Oregon is a comprehensive public research university committed to exceptional teaching, discovery, and service. The university is a community of scholars, helping members of its community to question critically, think logically, reason effectively, communicate clearly, act creatively, and live ethically.

### Purpose

The university community strives for excellence in teaching, research, artistic expression, and the generation, dissemination, preservation, and application of knowledge, devoted to fostering the next generation of leaders and informed participants in the global community. Through these pursuits, the social, cultural, physical, and economic well-being of the students, the state, the nation, and the world are enhanced.

### Vision

The university community aspires to create a preeminent and innovative public research university encompassing the humanities and arts, the natural and social sciences, and the professions, seeking to enrich the human condition through collaboration, teaching, mentoring, scholarship, creative inquiry, scientific discovery, outreach, and public service.

### Values

The university community values

- the passions, aspirations, individuality, and success of the students and the members of its faculty and staff who work and learn here
- academic freedom, creative expression, and intellectual discourse
- diversity, and seeks to foster equity and inclusion in a welcoming, safe, and respectful community
- the unique geography, history, and culture of Oregon that shapes its identity and spirit
- a shared charge to steward resources sustainably and responsibly

## Inspiration and Discovery

Generations of leaders and citizens have studied at the University of Oregon since it opened in 1876. Today's students, like the more than 250,000 alumni before them, have access to the most current knowledge in lectures, laboratories, and seminars conducted by active researchers. By sharing their research through teaching, faculty members are better able to articulate their findings and to integrate their specialized studies with broader areas of knowledge.

University of Oregon students select courses from departments and programs in the College of Arts and Sciences and from six professional schools and colleges and the Robert Donald Clark Honors College. Some 1,992 faculty members, 44 librarians, and 1,470 graduate and research assistants serve as mentors, colleagues, and friends to the 23,202 undergraduate and graduate students enrolled at the university.

Half of all students are from Oregon, 46 percent are from other states and 4 percent are from other countries. The mix of backgrounds gives

students a chance to know people they might not meet otherwise—a real asset in a world where national and international relations influence everyday life.

Teaching, research, and a spirit of sharing are characteristics of the campus community. Faculty members and students engage in research programs that bring to the university approximately \$180 million in competitive research awards. The university's science departments receive national attention for their work in such areas as computer science, genetics, materials, optics, and neuroscience. Eleven current faculty members belong to the prestigious American Academy of Arts and Sciences, as well as four emeritus faculty. Seven current faculty members have been elected to the National Academy of Sciences, as well as four emeritus faculty. One current faculty member has been elected to the National Academy of Medicine, as well as one emeritus faculty.

## Connection to Community

The sharing of knowledge and the love of learning do not stop at the campus borders. Public service is important to the university.

Members of the UO faculty share their experience and knowledge in community activities that include service in local and state governments. They also serve as consultants for businesses, industries, school districts, and government agencies. Students work as interns in a variety of educational programs in the community and volunteer for service activities.

University programs that serve the public include Academic Extension, which offers for-credit and noncredit activities throughout the state. Planning and technical assistance from the Community Service Center helps Oregon communities solve local problems and improve the quality of life in rural Oregon. For more than four decades, the Oregon Bach Festival has offered an annual program of concerts and master classes to music lovers in the Pacific Northwest. The UO's classical music radio station, KWAX-FM, is an affiliate of the Public Radio International Classical 24. KWAX programs are rebroadcast on translators in several coastal and central Oregon communities and cybercasts entertain listeners around the world. A second radio station, KWVA-FM, serves the Eugene-Springfield metropolitan area and has a live internet stream, playing a varied mix of music in addition to talk shows and live college sports broadcasts. KWVA is a voice for UO students as well as a place for them to gain broadcast, production, and operation experience.

The university's presence is evident at its off-campus facilities—Pine Mountain Observatory in central Oregon near Bend—and its academic programs in Portland and at the coastal Oregon Institute of Marine Biology in Charleston. Access is enabled through several online and hybrid programs.

The university is one of the largest and most stable employers in the state, directly employing 10,033 people. Overall, University of Oregon activity affects more than \$989 million in household earnings and 25,917 jobs in the state.

## The Campus Experience

The university's 295-acre campus is an arboretum of more than 4,000 trees of approximately 500 species, located in the lush Willamette Valley, between the Pacific Ocean and the Cascade Mountains. Campus buildings date from 1876, when the UO's first building opened, to the present, with the recent opening of the Lyllye Reynolds-Parker Black Cultural Center; Willie and Donald Tykeson Hall, the university's hub

for academic and career advising, and home to the College of Arts and Sciences, University Career Center, and Division of Equity and Inclusion; and the Phil and Penny Knight Campus for Accelerating Scientific Impact.

The Museum of Natural and Cultural History is located at East 15th Avenue and Columbia Street. Across campus, the Jordan Schnitzer Museum of Art, a member of the American Alliance of Museums, is noted for its collections of Asian and Northwest art.

The UO Libraries, a member of the Association of Research Libraries, is an important research facility for scholars throughout the Northwest. The free Oregon Card Program allows Oregon residents who are sixteen or older to borrow from the libraries' three-million-volume collection.

Campus athletic facilities include the 54,000-seat Autzen Stadium, the Marcus Mariota Sports Performance Center, the Casanova Athletic Center, the Moshofsky Center, Papé Field, Jane Sanders Stadium, PK Park, Hayward Field, Matthew Knight Arena, and the Student Tennis Center.

Student-guided tours of the university are available Monday through Saturday. Tours may be arranged by calling 541-346-1274. Campus maps and pamphlets describing university programs, answers to questions about services and office locations, and general information about the university are available at the information desk in the main lobby of the Ford Alumni Center.

The university's website has daily news updates and information about programs and events: [www.uoregon.edu](http://www.uoregon.edu) (<http://www.uoregon.edu>).

## Equal Opportunity

The university is committed to equal access to programs, course offerings, facilities, admission, and employment for all of its employees, students, and campus community members. It is the policy of the university to maintain an environment free from harassment and discrimination against any person.

The Office of Investigations and Civil Rights Compliance, formerly the Office of Affirmative Action and Equal Opportunity and the Office of the Title IX Coordinator, offers the UO community a place to discuss and report issues, concerns, and conflicts regarding discriminatory or harassing behavior. The office also helps identify how such concerns and conflicts may best be addressed and resolved. The office supports the university's compliance with federal and state laws regarding discrimination and harassment, affirmative action, and equal employment opportunity.

The office works with students, members of the faculty and staff, and campus community members by:

- Promoting a learning and working environment free from discrimination and harassment.
- Receiving concerns and complaints from any member of the UO community (i.e. students, faculty and staff members, visitors, and program participants) regarding issues of potential discrimination and discriminatory harassment at the university.
- Investigating reports and complaints of discrimination and harassment. As investigators, the office does not act as advocates, but serve in a neutral and impartial capacity.
- Addressing and resolving concerns and complaints of discrimination and harassment through referral and collaboration with stakeholders and partners across campus.

- Explaining and clarifying university policies and procedures as well as federal and state laws and regulations regarding discrimination, harassment, retaliation, and equal opportunity.

Direct related inquiries to the Office of Investigations and Civil Rights Compliance, 677 E. 12th Ave., Suite 452, 5221 University of Oregon, Eugene, Oregon 97403-5221; telephone 541-346-3123.

## Accreditation

The University of Oregon was elected to membership in the Association of American Universities in 1969. The university is accredited by the Northwest Commission on Colleges and Universities. Individual programs in the university's professional schools and colleges are accredited by the following organizations:

Accrediting Council on Education in Journalism and Mass Communications  
 Association to Advance Collegiate Schools of Business  
 American Alliance of Museums  
 American Bar Association  
 American Chemical Society  
 American Psychological Association  
 American Speech-Language-Hearing Association  
 Commission on Accreditation for Marriage and Family Therapy Education  
 Commission on English Language Program Accreditation  
 Council for Interior Design Accreditation  
 Landscape Architecture Accreditation Board  
 National Architectural Accrediting Board  
 National Association of Schools of Art and Design  
 National Association of Schools of Music  
 National Association of Schools of Public Affairs and Administration  
 Network of Schools of Public Policy, Affairs, and Administration  
 Planning Accreditation Board

## University of Oregon Board of Trustees

The University of Oregon is an independent public body governed by the Board of Trustees of the University of Oregon. The trustees have broad authority to supervise and manage the university and may exercise all of the powers, rights, duties, and privileges expressly granted by law or that are incident to the board's powers, rights, duties, and privileges. Except for the university president, who is an ex officio, nonvoting member, the trustees are appointed by the governor and confirmed by the Oregon Senate.

The names of the members follow. The expiration date for each term is June 30 of the year shown.

Ginevra Ralph, BA '83, MA '85, board chair, 2023  
 Steve Holwerda, MBA '91, board vice chair, 2023  
 Marcia Aaron, BA '86, 2025  
 Tim Boyle, BS '71, 2025  
 Renée Evans Jackman, BA '97, 2025  
 Toya Fick, 2025  
 Elisa deCastro Hornecker, BA '82, 2023  
 Ross Kari, BS '80, MBA '83, 2023  
 Julia Lo, student, 2023  
 Ed Madison, PhD '12, faculty member, 2023  
 Lillian Moses, BARCH '09, non-faculty staff member, 2024  
 Connie Seeley, BS '92, 2023  
 John Karl Schulz, ex officio

Jenny Ulum, MA '83, 2026

201 Oregon Hall

*Admission requirements apply to all students seeking to enroll at the University of Oregon.*

### Application Deadlines for Fall Term

| Student Classification                      | Enrollment Deadline                       |
|---------------------------------------------|-------------------------------------------|
| Freshman, early action                      | November 1                                |
| Freshman, standard                          | January 15                                |
| University scholarship                      | January 15                                |
| International freshman                      | January 15                                |
| Transfer, priority                          | March 15                                  |
| Undergraduate reenrollment                  | Friday, 2 weeks before registration opens |
| Transfer, standard                          | June 1                                    |
| International transfer                      | June 1                                    |
| Postbaccalaureate undergraduate or graduate | Thirty days before the start of the term  |
| Graduate                                    | Set by individual departments             |

### Departmental Application Deadlines

The following majors require a separate consideration. Students applying to these majors will receive a separate decision about their acceptance into the major: architecture, art, interior architecture, product design, or music. Be aware of the special admission requirements and application deadlines, and contact that department directly for more information.

Music majors audition for placement and take a musicianship examination scheduled on several dates throughout the spring. Art majors need to declare their major by completing the declaration form available both online (<https://artdesign.uoregon.edu/art/apply/>) and at the art office located at 254 Lawrence Hall.

### Application Deadlines for Winter–Summer Terms

| Student Classification | Enrollment Deadline      |
|------------------------|--------------------------|
|                        | <b>Winter Enrollment</b> |
| Freshmen               | October 15               |
| Transfers              | November 15              |
|                        | <b>Spring Enrollment</b> |
| All classifications    | February 1               |

|          | Summer Enrollment |
|----------|-------------------|
| Freshman | March 1           |
| Transfer | April 15          |

## Freshman Admission

For applicants who are in high school and will graduate prior to enrolling at the University of Oregon or students who have already graduated from high school and will not attempt and college-level coursework after graduation.

### Standard Admission Process

Through the standard admission process, applications are evaluated based on the following criteria:

- Strength of academic course work
- Grades earned
- Grade trends, especially in junior and senior year of high school
- Senior-year course load
- Writing skill, personal characteristics, and special circumstances as shared in the various written and narrative sections of the application
- Extracurricular activities, including community service and employment
- Ability to enhance the diversity of the university community
- Special talents
- Standardized test scores from the ACT or SAT are optional for admission. However, these scores can be used as one option for meeting requirements such as English proficiency, or alternatives requirements for applicants from nonaccredited schools.

### Application Procedure

Freshman applicants must submit the following to the Office of Admissions:

- Completed application for admission, including essays and activities and a nonrefundable application fee, by the standard application deadline. Students can use either the UO's own application, the Common Application, or the Coalition Application, and need to submit only one version of an application. Details are available online (<https://admissions.uoregon.edu/freshmen/>).
- An official high school transcript is not required at the time of applicant in most cases. Instead, students self-report their complete high school record, and official transcripts will be required at the end of the process unless requested sooner by Admissions.
- Test scores from the SAT or ACT are optional for admission. However, official test scores can be considered if submitted officially through the testing agency, or appearing on an official high school transcript. These scores play no specific role in the admission decision, but are sometimes one of a multiple alternatives applicants might use to address a particular situation.

### Standard Admission Requirements

#### Graduation from a Regionally Accredited High School

Applicants who graduate from a nonaccredited high school, were homeschooled, or earned a general equivalency diploma (GED) must meet the alternative admission requirements explained

in more detail online (<http://admissions.uoregon.edu/freshmen/alternativeadmission/>).

## Completion of Required Course Work

Applicants must satisfactorily complete the following high school course work. To meet minimum admission requirements, applicants must complete 15 units in the core areas listed below with a grade of C– or better in each course. Until further notice, during the pandemic, passing or credit-only results will be acceptable if the applicant's school has not provided grades for these courses. These requirements may be in progress at the time of application, provided they are complete by the time the student enrolls at Oregon.

- **English—four years.** All four years should be in preparatory composition and literature, with emphasis on and frequent practice in writing expository prose
- **Mathematics—three years.** Must include first-year algebra and two additional years of college-preparatory mathematics. An advanced mathematics course is highly recommended in the senior year. Algebra and geometry taken prior to ninth grade are acceptable. Regardless of the pattern of mathematics courses or the number of years of mathematics taken, the mathematics course work must include Algebra II (or equivalent) or higher
- **Science—three years.** Must include a year each in two fields of college-preparatory science such as biology, chemistry, physics, or earth and physical science. One year of laboratory science is recommended
- **Social studies—three years.** May include areas such as global studies, history, or social studies electives
- **Second-language proficiency.** Demonstrate with one of the following:
  - Two years of the same second language in high school
  - Two college terms of the same second language
  - Proficiency test (e.g., SAT Subject Test or BYU Foreign Language Assessment)
  - Other options for meeting the second-language requirement, including American Sign Language

Exceptions to this requirement are only considered for students graduating from high schools that do not offer two years of any second language.

College work may be used to complete courses missed in high school. A one-term transferable college course of at least 3 credits (quarter system) is equal to one year of high school work. Applicants are strongly encouraged to contact the UO Office of Admissions to verify that the courses completed will satisfy course pattern deficiencies.

An examination in a second language is strongly recommended to qualify a student for admission by meeting the second-language proficiency requirements. Students who do not take an SAT Subject Test have several other options to prove language proficiency through another approved process.

The UO offers tentative admission based on self-reported record and planned senior schedule. Final admission is granted only after the Office of Admissions has received official transcripts verifying successful completion of all admission requirements and graduation. If an applicant's final record shows a substantial change, or if the applicant does not complete a course that was in progress at the time of application or

admission or completes it with a low grade, the offer of admission may be withdrawn by the university.

## Submission of Scores from Standardized Tests

The University of Oregon accepts scores for the SAT or ACT when reported on official high school transcripts or submitted to the Office of Admissions directly from the testing service. Test scores for applicants planning to participate in intercollegiate athletics must be received directly from the testing service.

When taking the test, applicants should list the University of Oregon as a score recipient. The school code number to use for the SAT is 4846; the code for the ACT is 3498.

## Consideration of Narratives and Essays

Freshman applicants are required to submit an essay that serves as a personal statement to show not only writing ability but insights into the applicant's personal characteristics. Students are also offered a chance to write optional essays for various purposes.

## Consideration of Activities, Work, and Accomplishments

Most applicants are required to share a set number of examples of their activities outside the classroom. Students choose a variety of ways to be involved in activities—lead, volunteer, intern, hold jobs, and achieve special recognition. No type of activity will be valued more highly than another, so students should consider anything they have done as a possibility to share and discuss. However, applicants are limited to a finite number of items, because the selection process does not reward sheer volume of activity. Instead, the university seeks to use this information to better understand who the applicants are, and to learn more about their most meaningful interests and accomplishments.

## Explanation of Special Circumstances (optional)

Applicants whose high school or college performance was affected by any serious illness, diagnosed disability, personal difficulties, or family circumstances should provide a statement to summarize their situation. Dates should be included when applicable. Applicants with D or F grades, especially those grades that make them fall short of course requirements, are strongly encouraged to address the reasons for these grades in this section.

## Alternative Admission

The requirements for standard admission confer no guarantees of admission, and applicants who meet them may or may not be admitted due to the selective, holistic process that takes many academic and personal factors into consideration. Also, students who do not meet these requirements will still be considered for admission. Students who fall short of the standard requirements in any way should never let that deter them from applying; they are strongly encouraged to contact the UO Office of Admissions for further guidance and additional requirements. Students from homeschool settings and those who attend nonaccredited schools may be required to submit additional information and materials. Students who fall short of core subject requirements or those with low grades (especially those who fall below a 3.00 GPA) are encouraged to explain the reasons for their situation in the application.

## Premajor Status

Departments or programs with premajor admission requirements include the Lundquist College of Business, certain majors in the College of Design, the College of Education, the School of Journalism and

Communication, and the Department of International Studies. These units typically only permit newly admitted students to be considered premajors for their majors. A premajor student is eligible to take advantage of the department's advising services and, in most cases, complete lower-division course work required for the major. Each department screens enrolled premajor students who have completed some university study and decides if they may advance to major status.

## Transfer Admission

For applicants who will have attempted any college-level coursework after graduating from high school and will have completed 35 or fewer quarter credits (or 23 or fewer semester credits) by the time of expected enrollment at Oregon, admission will be based on both freshman and transfer admission requirements.

For applicants who have completed 36 or more quarter credits (or 24 or more semester credits) by the time of expected enrollment at Oregon, admission will be based only on the transfer admission requirements.

## Course Requirements

A grade of C– or better is required in the following:

- College-level composition and writing
- College-level mathematics
- Second language: two years in high school or two terms in college

Applicants who will not have completed these courses should still consider applying, and they are encouraged to submit a letter of explanation or include an explanation in the special circumstances statement.

## Required GPA

In college-transferable courses, the following cumulative GPAs are required for admission consideration:

- 2.25 for Oregon residents
- 2.50 for applicants without Oregon residency
- 2.00 for applicants, regardless of residency, who earn an associate of arts Oregon transfer (AAOT) degree from an Oregon community college, an associate of science Oregon transfer (ASOT) degree in business, or an Oregon Transfer Module (OTM) from any public two-year or four-year institution in Oregon

The University of Oregon may recalculate grades for purposes of establishing an admissions GPA. This means that an applicant's admission GPA is not identical to the one presented by the previous institution. These recalculations will be made in regard to transferability of credit, repeat policies, or limits on certain types of credit.

## Second-Language Proficiency

Applicants who graduated from high school or earned a general equivalency diploma (GED) in spring 1997 or later must document second-language proficiency by submitting an official transcript or score report verifying one of the following:

- Two years of the same language at an accredited high school
- Two terms of the same language at a regionally accredited college
- Proficiency test (e.g., SAT Subject Test or Brigham Young University Foreign Language Achievement Test)

Options for meeting the second language requirement, including American Sign Language, are available on the Office of Admissions (<http://admissions.uoregon.edu/apply/secondlanguage.htm>) website. Applicants admitted with an exception to this requirement are required to complete two college terms of the same language before graduating from the University of Oregon, regardless of the major or degree pursued.

## Additional Considerations

Even if an applicant meets the minimum requirements stated above, factors of concern, especially a drop in GPA from recent course work, may still be considered before a decision on admission is made. In addition, when considering applicants who do not meet minimum admission requirements, the Office of Admissions considers additional factors such as whether the applicant holds an associate of arts Oregon transfer degree from an Oregon community college or associate of arts degree from select community colleges in other states; which of the applicant's completed courses fulfill university graduation requirements; the applicant's grade point average (GPA); and the applicant's grade trend throughout his or her academic history. Academic potential and special talents are also considered.

## Application Procedure

Transfer applicants must submit the following to the Office of Admissions:

1. A completed application for admission and a nonrefundable application fee
2. An official transcript from each college and university attended. It is a firm requirement that applicants submit transcripts from any previous institution where credit was attempted, regardless of the grades or amount of credit earned, and regardless of how or whether the applicant intends to apply these credits toward UO requirements. Applicants who omit record of previous work attempted will be denied admission, and admitted students for whom this omission is discovered can have their offer of admission revoked, even if it is after they have begun enrollment at Oregon
3. A high school transcript is not always required, but is often needed—not only for admission but for federal aid eligibility. Students should provide the high school transcript at the time of application whenever possible

Transfer students may submit their applications up to six months before they plan to enroll at the university, but may be asked to provide updated transcripts before final decisions are reached. Applications and official transcripts should be received by the university by the deadlines listed above to allow time for a complete evaluation of the transferred credits.

## Transfer of Credit

The amount of credit transferred depends on the nature of the applicant's college work, which is evaluated according to the academic requirements of the University of Oregon. Only college-level academic course work from regionally accredited two- and four-year colleges or universities will be considered for transfer. Up to 124 credits from regionally accredited community or junior colleges, of which only 90 credits may be transferred from an international junior college, may be applied to the bachelor's degree.

See **Bachelor's Degree Requirements** for requirements that apply to new undergraduates.

## Premajor Status

Departments or programs with premajor admission requirements are the Lundquist College of Business, certain majors in the College of Design, the College of Education, the School of Journalism and Communication, and the Department of International Studies. These units only permit newly admitted students to be considered premajors for their majors.

A premajor student is eligible to take advantage of the department's advising services and, in most cases, complete lower-division course work required for the major. Each department screens enrolled premajor students who have completed some university study and decides if they may advance to major status.

## Dual Enrollment Program

The University of Oregon has dual-enrollment agreements with Lane Community College and Southwestern Oregon Community College. These programs provide students with the academic and administrative advantages of simultaneous enrollment in two institutions. More information and applications for admission are available from the UO Office of Admissions and at either community college. No student can be in the dual enrollment program without first being successfully admitted to the University of Oregon.

## International Admission

Applicants who are not United States citizens or permanent residents are considered for admission to the university as international students.

International applicants, whether freshman or transfer, may apply for admission fall, winter, and spring terms and summer session. All deadlines are the same as for US students in these categories. Applications received after the deadlines are considered on a space-available basis. See the admission requirements for individual countries (<http://admissions.uoregon.edu/international/apply/requirements/>).

A GPA of 2.50 is required for undergraduates who want to transfer from another university or college.

**English Proficiency.** Students whose native language is not English must supply results of a standardized language-proficiency test. The University of Oregon currently accepts the TOEFL, IELTS, or Duolingo English Test (DET) examinations for establishing proficiency, as well as the SAT or ACT. To be considered for full admission without an English placement test upon arriving, applicants must score an 88 on the TOEFL iBT, 6.5 in the IELTS, or a 100 on the DET. An applicant with at least a 61 TOEFL or 6.0 IELTS can be considered for full admission and will take an English language placement test after arriving at the university. Placement test results determine whether students are required to take language support courses in the Academic English for International Students (AEIS) program. Students placed in AEIS courses also concurrently enroll in regular university credit courses.

**Conditional admission.** International applicants who do not meet the proficiency requirements above may be offered conditional admission if their academic record is otherwise strong for admission. Through the conditional admission program, the student can take courses through the Intensive English Program (IEP), then proceed to regular university credit courses once IEP requirements are satisfied.

More information about the American English Institute and AEIS and IEP courses may be found on the institute's website (<http://aei.uoregon.edu>).

## Application Procedure

International applicants for freshman or transfer admission must submit the following to the Office of Admissions:

1. A completed international application for admission and a nonrefundable application fee
2. Official transcripts of all schoolwork taken beyond the eighth year of school (i.e., the equivalent of the American secondary school grades 9–12 and for any college or university work). An official transcript is an original or a certified copy in a sealed envelope. (In most cases, international freshman applicants will instead self-report their high school transcript at the time of application; they will still be required to provide an official final transcript at the end of the process.)
3. An official test score report from one of the English proficiency tests described above
4. Proof of sufficient funds to pay one year's tuition and living expenses while at the University of Oregon, consisting of a bank statement or certificate of balance prepared within the last six months, or a scholarship letter. This proof is a requirement of the US government

## Postbaccalaureate Admission

Students who have earned a bachelor's degree and want to earn a second undergraduate degree or to take additional work without entering a formal degree or certification program may be admitted with postbaccalaureate undergraduate status. These students pay appropriate undergraduate fees. Applications and information are available from the Office of Admissions.

## Graduate Admission

Students planning to pursue graduate study at the university must be admitted to the Division of Graduate Studies and the departments in which they plan to study. General admission requirements for the Division of Graduate Studies are described in that section of this catalog. Each school and department in the university determines its specific requirements and application deadlines for graduate admission. For this reason, inquiries concerning graduate admission should be sent directly to the department or school of interest.

## Notice to Nonresidents of the State of Oregon

### Definitions

*The following words and phrases mean:*

(1) *"Domicile" is a person's true, fixed, and permanent home and place of habitation. It is the place where a person intends to remain and to which the person expects to return when the person leaves without intending to establish a new domicile elsewhere. In order to establish a domicile in Oregon, a person must maintain a predominant physical presence in Oregon for 12 consecutive months after moving to the state.*

(2) *A "financially independent person" is a person who, at the time of application for residency status:*

*(a) declares himself or herself to be financially independent;*

*(b) has not been claimed as a dependent during the immediately preceding tax year, and will not be claimed as a dependent during the current tax year, on the federal or state income tax returns of any other person; and*

(c) has not received in the immediately preceding calendar year, and will not receive during the current calendar year, one-half or more of his or her support, in cash or in kind, from another person or persons, except for support received from his or her spouse.

A "financially dependent person" is a person who, at the time of application for residency status:

(a) has been claimed as a dependent on the federal and state income tax returns of another person during the immediately preceding tax year; or

(b) is eligible to be claimed as a dependent for tax purposes and can provide evidence that one-half or more of the individual's financial support was provided by another person or persons.

## Determination of Residence

(1) For purposes of admission and instruction fee assessment, the University of Oregon shall classify a student as an Oregon resident or nonresident. In determining resident or nonresident classification, the primary issue is a person's intent in coming to Oregon. Intent is inferred from a person's conduct and history as they relate to the requirements of these residency rules. If a person is in Oregon primarily for the purpose of obtaining an education, that person will be considered a nonresident. It is possible for an individual to qualify as a resident of Oregon for purposes of voting or obtaining an Oregon driver's license and not meet the residency requirements established by these rules.

(2) An Oregon resident is a financially independent person who, prior to the term for which Oregon resident classification is requested, has both:

(a) established and maintained a domicile in Oregon for 12 consecutive months; and

(b) during that period, has been primarily engaged in activities other than those of being a college student.

(3) A student may be considered primarily engaged in educational activities regardless of the number of hours for which the student is enrolled. However, a student who is enrolled for more than 8 hours in any semester or quarter during the 12-month period referred to in section (2) of this rule shall be presumed to be in Oregon for primarily educational purposes. Such period of enrollment shall not be counted toward the establishment of a bona fide domicile of 12 consecutive months in this state unless the student proves, in fact, establishment of a bona fide domicile in this state primarily for purposes other than educational.

(4) An Oregon resident is also a financially dependent person who is claimed as a dependent by another person who has both:

(a) established and maintained an Oregon domicile for 12 consecutive months; and

(b) during that period, has been primarily engaged in activities other than those of being a college student.

(5) A financially dependent person who is claimed as a dependent by another person who has not established and maintained an Oregon domicile shall be presumed to be a non-resident. This presumption may be overcome by evidence of the student's long-standing presence in Oregon and demonstration of other factors.

(6) The criteria for determining Oregon resident classification shall also be used to determine whether a person who has moved from Oregon has established a non-Oregon residence.

(7) If institution records show that the residence of a student or the person upon whom the student is dependent is outside of Oregon, the student shall continue to be classified as a nonresident until entitlement to resident classification is shown. The burden of showing that the residence classification should be changed is on the student requesting the change.

(8) Notwithstanding section (4) of this rule, a student who is financially dependent on a non-Oregon resident may nonetheless be considered an Oregon resident if the student resides in Oregon for at least 12 consecutive months with a parent or legal guardian who has both:

(a) established and maintained an Oregon domicile for 12 consecutive months; and

(b) during that period, has been primarily engaged in activities other than those of being a college student.

## Residency Consideration Factors

(1) The following factors, although not necessarily conclusive or exclusive, have probative value in support of a claim for Oregon resident classification:

(a) Reside in Oregon for 12 consecutive months prior to the beginning of the term for which resident classification is sought and during that period be primarily engaged in activities other than those of a college student;

(b) Reliance upon Oregon resources for financial support;

(c) Domicile in Oregon of persons legally responsible for the student;

(d) Acceptance of an offer of permanent employment in Oregon; and

(e) Ownership by the person of his or her living quarters in Oregon.

(2) The following factors, standing alone, do not constitute sufficient evidence to effect classification as an Oregon resident:

(a) Voting or registration to vote;

(b) Employment in any position normally filled by a student;

(c) The lease of living quarters;

(d) Admission to a licensed practicing profession in Oregon;

(e) Automobile registration;

(f) Public records, for example, birth and marriage records, Oregon driver's license;

(g) Continuous presence in Oregon during periods when not enrolled in school;

(h) Ownership of property in Oregon or the payment of Oregon income or other Oregon taxes; or

(i) Domicile in Oregon of the student's spouse.

(3) Reliance upon non-Oregon resources for financial support is an inference of residency in another state.

## Evidence of Financial Dependency

(1) In determining whether a student is financially dependent, a student must provide:

(a) Evidence of established domicile of the person claiming the student as a dependent; and

(b) The identification of the student as a dependent on the federal and state income tax returns of the person claiming the student as a dependent. Additional documentation to substantiate dependency during the current calendar year may be required at a later time if deemed necessary by the institution.

(2) A student who provides evidence that he or she is a financially dependent person under these rules shall not be required to establish a 12-month domicile prior to classification of resident status, provided such a student may not be classified as a resident while receiving financial assistance from another state or state agency for educational purposes.

## Residence Classification of Armed Forces Personnel

(1) For purposes of this rule, members of the armed forces means officers and enlisted personnel of:

(a) The Army, Navy, Air Force, Marine Corps, and Coast Guard of the United States;

(b) Reserve components of the Army, Navy, Air Force, Marine Corps, and Coast Guard of the United States;

(c) The National Guard of the United States and the Oregon National Guard.

(2) Active members of the armed forces and their spouses and dependent children shall be considered residents for purposes of the instructional fee if the members:

(a) Reside in this state while assigned to duty at any base, station, shore establishment, or other facility in this state;

(b) Reside in this state while serving as members of the crew of a ship that has an Oregon port of shore establishment as its home port or permanent station; or

(c) Reside in another state or a foreign country and file Oregon state income taxes no later than 12 months before leaving active duty.

(3) An Oregon resident entering the armed forces retains Oregon residence classification until it is voluntarily relinquished.

(4) An Oregon resident who has been in the armed forces and assigned on duty outside of Oregon, including a person who establishes residency under section (2)(c) of this rule, must, within a reasonable time, demonstrate an intent to retain classification as an Oregon resident. Such intent may be shown by returning to Oregon within six months after completing service in the armed forces.

(5) A person who continues to reside in Oregon after separation from the armed forces may count the time spent in the state while in the armed forces to support a claim for classification as an Oregon resident.

(6) The dependent child and spouse of a person who is a resident under section (2) of this rule shall be considered an Oregon resident. "Dependent child" includes any child of a member of the armed forces who:

(a) Is under 18 years of age and not married, otherwise emancipated or self-supporting; or

(b) Is under 23 years of age, unmarried, enrolled in a full-time course of study in an institution of higher learning, and dependent on the member for over one-half of his/her support.

## Residence Classification of Members of Oregon Tribes

(1) Students who are enrolled members of federally recognized tribes of Oregon or who are enrolled members of a Native American tribe which had traditional and customary tribal boundaries that included parts of the state of Oregon or which had ceded or reserved lands within the state of Oregon shall be assessed resident tuition regardless of their state of residence.

(2) For purposes of this rule, the federally recognized tribes of Oregon are:

(a) Burns Paiute Tribe;

(b) Confederated Tribes of Coos, Lower Umpqua and Siuslaw;

(c) Confederated Tribes of Grand Ronde Community of Oregon;

(d) Confederated Tribes of Siletz Indians of Oregon;

(e) Confederated Tribes of the Umatilla Indian Reservation;

(f) Confederated Tribes of the Warm Springs Indian Reservation;

(g) Coquille Indian Tribe;

(h) Cow Creek Band of Umpqua Indians;

(i) Klamath Tribes.

(3) For purposes of this rule, the Native American tribes which had traditional and customary tribal boundaries that included parts of the state of Oregon or which had ceded or reserved lands within the state of Oregon are:

(a) CALIFORNIA:

(A) Benton Paiute Tribe;

(B) Big Bend Rancheria;

(C) Big Lagoon Rancheria;

(D) Blue Lake Rancheria;

(E) Bridgeport Indian Colony;

(F) Cedarville Rancheria;

(G) Fort Bidwell Indian Tribe;

(H) Hoopa Valley Tribe;

(I) Karuk Tribe of California;

(J) Likely Rancheria;

(K) Lookout Rancheria;

(L) Lytton Rancheria;

(M) Melochundum Band of Tolowa Indians;

(N) Montgomery Creek Rancheria;

(O) Pit River Tribe;

(P) Quartz Valley Indian Community;

(Q) Redding Rancheria;

(R) Roaring Creek Rancheria;

(S) Smith River Rancheria;

(T) Susanville Rancheria;

(U) Tolowa-Tututni Tribe;

(V) Winnemucca Colony;

(W) XL Ranch;

(X) Yurok Tribe.

(b) IDAHO:

(A) Nez Perce Tribe of Idaho;

(B) Shoshone-Bannock Tribes.

(c) NEVADA:

(A) Duck Valley Shoshone-Paiute Tribes;

(B) Fallon Paiute-Shoshone Tribe;

(C) Fort McDermitt Paiute-Shoshone Tribe;

(D) Lovelock Paiute Tribe;

(E) Pyramid Lake Paiute Tribe;

(F) Reno-Sparks Indian Colony;

(G) Summit Lake Paiute Tribe;

(H) Walker River Paiute Tribe;

(I) Winnemucca Indian Colony;

(J) Yerington Paiute Tribe.

(d) OKLAHOMA: Modoc Tribe of Oklahoma.

(e) WASHINGTON:

(A) Chehalis Community Council;

(B) Colville Confederated Tribes;

(C) Quinault Indian Nation;

(D) Shoalwater Bay Tribe;

(E) Yakama Indian Nation.

(4) A student seeking to be assessed resident tuition under the provisions of this rule shall submit, following procedures prescribed by the OUS institution where the student seeks to enroll, a photocopy of tribal enrollment that documents tribal membership.

## Residence Classification of Non-Citizens

A person who is not a citizen of the United States may be considered an Oregon resident if the person qualifies as a resident and is one of the following:

(1) A lawful permanent resident. The date of receipt of an application for lawful permanent residency shall be the earliest date upon which the 12-month residency requirements may begin to accrue.

(2) An immigrant granted refugee or political asylum in the United States, or entering through a special parole program (such as the Haitian Family Reunification Parole Program, the Cuban Family Reunification Parole Program, the Central American Minor Refugee/Parole Program, the Filipino World War II Veterans Parole Program). The date of receipt of an application for political asylum, refugee status, or qualifying special parole program shall be the earliest date upon which the 12-month residency requirements under Section B may begin to accrue.

(3) A person holding one of the following non-immigrant visa classifications: A, E, G, H-1B, H-1C, the spouse or child of a person holding an H-1B or H-1C visa, I, K, L, NATO, O, R, S, T, TN, U, or V. The date of the issuance of a visa for one of these classifications shall be the earliest date upon which the 12-month residency requirements may begin to accrue. A person possessing a non-immigrant or temporary visa that is not identified under this rule shall not be considered an Oregon resident.

(4) A person who is a citizen of an American territory or a sovereign nation that does not require a nonimmigrant visa to travel to the US.

(5) An immigrant granted a federal status leading to the establishment of permanent residency or citizenship in the United States. Documentation of a status that is not explicitly included in this compact will be at the discretion of the Interinstitutional Residency Committee.

## Changes in Residence Classification

(1) If an Oregon resident student enrolls in an institution outside of Oregon and later seeks to re-enroll in a University that applies these residency standards, the residence classification of that student shall be re-examined and determined on the same basis as for any other person.

(2) A student who becomes eligible for resident tuition during a term of enrollment at a University will not qualify for resident tuition until the beginning of the next term.

(3) Once established, classification as a resident continues so long as the student remains in continuous academic year enrollment in the classifying institution.

(4) A person who seeks classification as a resident under these rules shall complete and submit a notarized Residence Information Affidavit. The affidavit and all required supportive documents and materials must be submitted by the last day to register for the term in which resident status is sought.

(5) No other institution is bound by any determination of residency except by duly authorized officials under procedures prescribed by these rules including timely submittal of the notarized affidavit.

## Review of Residence Classification Decisions

An interinstitutional residency committee (IRC) is established consisting of the officers who determine student residence classification at each university that applies this residency procedure. The chair of the committee shall rotate among the universities with no chair serving

*more than two consecutive years. A majority of the members of the committee shall constitute a quorum. A majority of a quorum may make recommendations.*

*Residence cases of unusual complexity, especially where there may be conflict of rules, may be referred to by the originating classification officer to the IRC for its recommendation.*

*Any person who is aggrieved by the originating classification officer's classification decision may, within 10 days of the date of mailing or other service of the classification decision, request that the IRC review the classification and make recommendations to the registrar or designee of the originating university. The appeal must be in writing and shall be filed with the originating university. An aggrieved person may supply written statements to the IRC for consideration in reviewing the case and may also make oral presentation to the IRC on a date to be scheduled by the IRC. The IRC shall make a recommendation to the registrar or designee of the originating university. That registrar or designee shall then issue a decision. The decision of the registrar or designee shall be final unless appealed.*

*A person dissatisfied with the decision of the registrar or designee may, within 10 days of the date of the mailing or other service of the decision, appeal the decision to the president or designee of the originating university. An appeal shall be in writing only. The decision of the president or designee shall be final.*

*A person granted a meritorious hardship exception to residency under the Oregon Administrative Rules regarding residency prior to July 1, 1990, shall not lose the exception solely because of the repeal of the exception authorization.*

## Registration and Academic Policies

### Julia Pomerenk, University Registrar

541-346-2935  
541-346-6682 fax  
234 Oregon Hall  
registrar@uoregon.edu

## Student Records Policy

In compliance with the Family Educational Rights and Privacy Act, the University of Oregon has formulated the Student Records Policy to outline the proper handling and release of student educational records. The following is a summary of that policy.

The university maintains only student records relevant to the educational or related purposes of the university. Students enrolled in the university generally have the right to inspect educational records maintained by the university that directly affect them. Those records are not released to anyone other than the student without the signed, written consent of the student, with the following exceptions:

1. University personnel who have legitimate interests
2. Officials at another school where the student seeks to enroll or is already enrolled
3. At the direction of a court
4. In situations of health or safety emergency
5. The disclosure is information designated as directory information

Upon request, the university releases directory information about the student, but the student may request, in writing, that such information not be released. Contact the Office of the Registrar for details about making a request for nonrelease.

The full text of the Student Records Policy is available from the Office of the Registrar and on the registrar's website.

---

## Academic Year

The university divides the academic year into three terms of approximately 11 weeks each (except for the School of Law, which uses a semester calendar).

The summer session supplements the work of the fall, winter, and spring terms; announcements are issued for that session.

Students may enter the university at the beginning of any term, with the exception of architecture students, who should see Application Deadlines under **Admissions**. The university's new-student orientation, IntroDUCKtion, is held in July and August for freshman and transfer students who enter fall term. All new students are urged to attend; students who do not attend IntroDUCKtion are oriented and register for classes during the Week of Welcome. See the **Academic Calendar** for other important dates during the current academic year.

Students are held responsible for familiarity with university requirements governing such matters as registration, add/drop deadlines, academic standards, student activities, student conduct, and organizations. Academic regulations are listed on the registrar's website.

---

## About the UO Catalog

This publication, the 2023-24 University of Oregon Catalog, is a statement of university rules, regulations, and calendars that goes into effect at the opening of fall term 2023. Changes to the university curriculum that were made through winter term 2023 are reflected in the academic sections of the catalog. **Bachelor's Degree Requirements**, in this section of the catalog, have been updated to reflect curriculum changes that were made through spring term 2023.

A student who is admitted and enrolls at the university during any academic year may graduate under the general requirement provisions of the catalog in effect that year, provided the catalog has not expired. A student may choose to graduate under the general requirements of a subsequent catalog, provided he or she completes all of those requirements. Major requirements are determined by the academic departments and programs; requirements are subject to change for students who are not continuously enrolled. See Catalog Expiration and Requirements Policies in the **Reader's Guide to the Catalog** section for more information.

Undergraduate and graduate degrees and certificates are listed in the **Undergraduate Programs** and **Graduate Programs** section of this catalog. For details about graduate degrees, see the **Division of Graduate Studies** section.

---

## Grading Systems

The university has two grading systems. When regulations permit, a student may elect to be evaluated for a course with a letter grade or pass/no pass (P/N). Letter-graded work is designated A, B, C, D, or F. Pass/no pass work is designated P or N. An asterisk after the P or N indicates that the course is offered P/N only. See Bachelor's Degree Requirements for regulations on graded credits.

Each department, school, or special program establishes regulations on pass/no pass courses for its majors. Before exercising the P/N option, students should confer with advisors.

Students must choose their grading option at the time of registration and are permitted to change it only within the period allowed.

Students who register and never attend or participate in a course and students who attend and participate in part of the course but do not complete the course requirements will receive a grade of F or N, based on the grading option in registration.

### Graded

Student work is graded as follows: A, excellent; B, good; C, satisfactory; D, inferior; F, unsatisfactory (no credit awarded). Instructors may affix + or – to the grades A, B, C, and D.

### Pass/No Pass

Courses that are offered pass/no pass only are assigned P\* or N\* grades. Courses offered for letter grades or pass/no pass use P or N grades without an asterisk.

Student work may be graded as follows: P (pass), satisfactory performance (C– or better for undergraduate course work, B– or better for graduate course work), or N (no pass), unsatisfactory performance, no credit awarded (D+ or worse for undergraduate course work, C+ or worse for graduate course work). The class schedule designates courses that are offered only pass/no pass. Passing credits are also awarded for advanced placement and College-Level Examination Program work and for work taken at another collegiate institution when that institution has already recorded a pass/no pass mark or if the registrar's staff cannot equate the quality of the work to the UO grading system.

## Marks

### AU (Audit)

Student-initiated mark. Audit enrollments are recorded on the student's academic record, but no credit is earned by audit. Audited classes do not satisfy degree requirements, nor do they count toward the Division of Graduate Studies continuous enrollment requirement.

### I (Incomplete)

A mark of "I" represents an agreement between an instructor and a student to extend the deadline for coursework completion. Incompletes shall be granted when the instructor determines that the student meets all the following criteria. The student:

- has been active in the course;
- is unable to complete a portion of the course requirements due to extenuating circumstances beyond their control that occurred after the last day to drop a class (end of week 7 of fall/winter/spring terms; variable dates for summer courses);

- is able to independently complete the remaining requirements without attending additional classes beyond the term or receiving additional instruction; and
- requests an Incomplete by the published deadline

If additional class attendance or instruction is required to complete course requirements, the instructor shall not issue an Incomplete.

Lack of engagement, poor performance, or a desire to repeat the course are unacceptable reasons for issuance of the "I" mark.

Instructors shall provide to the student access to course materials necessary to complete the missing work.

Incomplete grades can only be granted by instructors and instructors are under no obligation to grant students an incomplete grade if in their judgement the criteria stated above are not met.

An Incomplete shall not be recorded by the instructor unless a contract between the instructor and student has been completed and filed appropriately.

### Effective fall 2022 - General Process for Incompletes

- Incompletes are initiated by the student
- Student contacts instructor and requests Incomplete by 5pm on the last day of finals week (fall, winter, and spring terms)
- If the instructor agrees that the student meets the criteria, the instructor and the student complete a contract outlining how the Incomplete can be resolved, the deadline for resolving the incomplete, and the default grade should the student not complete the agreed upon work. The default grade is the grade the student would receive according to the syllabus grade guidelines with no credit for the missing work
- This form is filed
- The missing work indicated on the form must be completed by the earlier of:
  - grading deadline of the term the student applied to graduate, or
  - deadline stated on the Incomplete Request Form (can be extended at the discretion of the instructor), or
  - the day grades are due one academic year later

For students with Incomplete contracts, the instructor will record the "grade" in DuckWeb that indicates an Incomplete has been agreed to. Currently, that is an "I". The instructor will also record, in DuckWeb and/or the contract form, the grade the student would have received in the course if they received no credit for the missing work. This becomes the default grade that replaces the Incomplete mark should the student not complete the work outlined in the contract by the appropriate deadline (either the grading deadline of the term the student applied to graduate or the day grades are due one academic year later).

If the student completes the work defined in the contract by the agreed upon date, the instructor calculates and updates the grade via the grade change process.

This policy applies to all undergraduate and graduate courses.

The Incomplete mark will roll to the default grade even if an incomplete contract is in place if the student has applied to graduate. Degree application status is not directory information; instructors do not have a way to verify.

A mark of I/F will not convert to N as part of First Term Forgiveness. It will instead convert to an F.

### **W (Withdrawal)**

Student-initiated mark. Students may withdraw from a course through web registration. See the online class schedule for deadlines.

### **X (No Grade Reported)**

Registrar-initiated mark. The instructor did not report a grade for the student.

### **Y (No Basis for Grade)**

Instructor-initiated mark used prior to fall 2017. There is no basis for evaluating the student's performance.

Effective fall 2017, the Y mark is no longer used. Instructors issue a grade of F or N, as indicated by the grading option, to students who register and never attend or participate in the course, and to students who attend and participate in part of the course but do not complete all course requirements.

## **First-term Grade Forgiveness**

Effective fall 2020, the grading option for first-term students who receive an F in a course will automatically be converted from graded to pass/no pass. First-term students who receive a D will have until the end of the following term (defined as 11:59 pm PT Friday of the 10th week for Fall, Winter, Spring and 11:59 pm PT Friday of the 11th week of the final 12-week summer session) to request that their grading option be converted from graded to pass/no pass. Students are required to meet with an advisor designated by the Office of Academic Advising before submitting a request to have D grades change to N and are encouraged to connect with a Financial Aid counselor.

Eligible students whose F is converted to N may, at their discretion, opt out of the policy and request that the Office of the Registrar convert the grade back to F by the end of the following term. Academic standing will be based on the F grade.

This policy applies to:

- All matriculated first-term admitted undergraduate students pursuing their first bachelor degree, including transfer students.
- All undergraduate classes taken by those students that allow the Pass/No Pass grading option. Classes where the student's grade is associated with a conduct case where the student was found responsible will not be eligible to change to an N under this policy.

For students who receive a D, academic standing will initially be calculated using the letter grade but will be recalculated using the P/NP grade if the student requests the grading option change before the end of the following term.

For students who receive an F, academic standing will be calculated using the P/NP grading option.

Students who receive an F will have the change to Pass/No Pass made by the Office of the Registrar before calculation of academic standing for the term. Any other changes to grading mode made under this policy will result in a recalculation of academic standing for the term if the Office of the Registrar receives the request from the student prior to the end of the following term. That recalculation will be based on grades recorded for

the student at the time the change takes place irrespective of whether any other grade changes were related to this policy.

F grades that are recorded after the grading deadline will not automatically convert to an N; students who wish to request such a change will need to submit a petition for a late grade option change.

A mark of I/F will not convert to N as part of First Term Forgiveness. It will instead convert to an F.

A student's record (grades, grade option, academic standing) will not be altered under this policy after the end of the following term. A student whose grade changes for other reasons (petitions to change grade option, instructor change, etc.) will not have their academic standing recalculated.

Students whose grade is updated as a result of this policy will be required to meet with an advisor designated by the Office of Academic Advising before the end of the following term. It is strongly recommended that if students are receiving veteran's benefits, they also meet with a veteran's certifying official in the Office of the Registrar.

### **Grade Point Average**

For terms prior to fall 2016, grades for courses taken at the University of Oregon appear on both the official and unofficial transcript and are included in the term and cumulative GPA calculation.

Effective fall 2016 through summer 2019, for undergraduate courses not designated as repeatable for credit, only the second grade earned of a repeated course is calculated into the cumulative GPA.

Effective fall 2019, all graded attempts of courses taken at the University of Oregon are calculated into the term and cumulative GPAs.

Grades for undergraduate courses taken at the University of Oregon appear on both the official and unofficial transcript. However, credit for nonrepeatable courses is given only once.

Grades recorded as a result of sanctions and/or academic misconduct are included in the cumulative GPA and will not be excluded in any event of repetition. Conduct grades may not be petitioned.

Four points are assigned for each credit of A, three points for each credit of B, two points for each credit of C, one point for each credit of D, and zero points for each credit of F. The plus sign increases the points assigned the letter grade by 0.3 per credit, and the minus sign decreases the points assigned the letter grade by 0.3 per credit. The grade point average is calculated by dividing total points by total credits of A, B, C, D, and F. Marks of AU, I, W, X, Y, and the grades of P and N are disregarded in the computation of the grade point average. The grade point average is truncated at two digits after the decimal point.

## **Academic Standing**

When there is evidence of lack of satisfactory progress toward meeting graduation requirements, the Scholastic Review Committee may place students on academic probation or disqualify them from attendance at the university. For information and assistance, students should inquire at the Office of Academic Advising, 101 Oregon Hall.

After grades are processed at the end of each term, term and cumulative UO GPAs are calculated for each undergraduate student, admitted or nonadmitted. A student's academic standing is based on attempted and earned hours and on the term and cumulative UO GPAs.

If a grade change affects the student's term and cumulative UO GPAs and academic standing, the student should ask the instructor to submit the grade change through DuckWeb immediately. Retroactive changes to a term's academic standing are made only to remove probation from the term record and only if grade changes are submitted by the last day to register and add classes for the following term. If grade changes that affect GPAs and academic standing are submitted later than this, the student's probation standing for the previous term is not amended.

## Academic Warning

Students receive an academic warning when the UO term GPA is between 0.00 and 1.99, inclusive, even if the UO cumulative GPA is 2.00 or higher. This notation is not recorded on the student's official academic transcript, but does appear on the unofficial transcript. Terms with marks resulting in no GPA are considered to be below 2.00 unless all attempted credits for that term were passed. Students who completely withdraw from a term with W marks receive a 0.00 term GPA, and are thus subject to academic warning, probation, and/or disqualification.

Academic warning is given as a courtesy to advise students of potential academic difficulty. Academic probation does not depend on the student receiving prior notice of academic warning.

## Academic Probation

Academic probation is earned and the notation "Academic Probation" is recorded on the student's academic transcript whenever the following conditions exist:

1. When the UO cumulative GPA is lower than 2.00. Students who have earned 44 or fewer credits are allowed two terms of probation before they are subject to disqualification. Students with more than 44 credits are only allowed one term of probation before they are subject to disqualification. Students on academic probation whose UO cumulative GPA is lower than 2.00 and whose UO term GPA is 2.00 or higher remain on academic probation.
2. When students have received academic warning for two consecutive terms and their subsequent UO term GPAs are between 0.00 and 1.99, inclusive, even if the UO cumulative GPA is above a 2.00. Terms with marks resulting in no GPA are considered to be below 2.00 unless all attempted credits for that term were passed. Students who completely withdraw from a term with W marks receive a 0.00 term GPA, and are thus subject to academic warning, probation, and/or disqualification.

Students on academic probation are limited to a study load of no more than 15 credits. Incoming students may be admitted on academic probation and are notified when such action has been taken; these students may be subject to disqualification after a single term of probation.

## Academic Disqualification

Academic disqualification is earned and the notation "Disqualification" is recorded on the student's academic transcript whenever the following conditions exist:

1. Students on academic probation for having a UO cumulative GPA lower than 2.00 who earn a UO term GPA lower than 2.00 in their next term.
2. Students on academic probation for having a term GPA below 2.00 after two consecutive terms on academic warning and who earn less than a 2.00 term GPA for the fourth consecutive term. Terms with marks resulting in no GPA are considered to be below 2.00

unless all attempted credits for that term were passed. Students who completely withdraw from a term with W marks receive a 0.00 term GPA, and are thus subject to academic warning, probation, and/or disqualification.

Students may apply for reinstatement after disqualification by contacting the Office of Academic Advising. Petitions are reviewed to determine the probability that a student can satisfactorily complete the requirements of a degree program. The student may enroll during the academic year only if the Scholastic Review Committee allows the student to continue on probationary status. Students may enroll for summer classes without being reinstated. Students who have been disqualified must petition for reinstatement to graduate.

## Exceptions to Academic Regulations

1. Two standing university committees review requests in writing for exceptions to university rules, regulations, deadlines, policies, and requirements: the Academic Requirements Committee and the Scholastic Review Committee. For information about how to submit a petition to the Academic Requirements Committee, inquire at the Office of the Registrar, 234 Oregon Hall; call 541-346-2935. For information about how to submit a petition to the Scholastic Review Committee, inquire at the Office of Academic Advising, 101 Oregon Hall; call 541-346-3211.
2. For information about removal from academic probation and academic reinstatement options, inquire at the Office of Academic Advising.

## Registering for Classes

### Class Schedule

The class schedule is published online two weeks prior to priority registration each term. The schedule lists courses offered for the term. Dates, deadlines, procedures, and information about tuition and fees can be found on the registrar's website.

### Registration

A registration period takes place before the start of classes each term; the dates are published in advance. Students are not officially registered and are not entitled to attend classes until they have completed the prescribed registration procedures. Students must minimally be registered for "audit" to sit in on classes.

Once registered, students are academically and financially responsible for their course enrollments until they officially withdraw. Withdrawal after the term begins results in some financial liability. Appropriate withdrawal procedures are explained on the registrar's website.

## New Student Registration

Entering undergraduate students should plan to attend IntroDUCKtion, offered during the summer. After being notified of admission to the University of Oregon for fall term, new students receive information about this program. Space is limited, so sign up early. IntroDUCKtion is a requirement for all new students. Students admitted in terms other than fall term will attend an orientation session specific to the term for which they are admitted. Additional information is available on the Student Orientation (<https://orientation.uoregon.edu/introducktion/>) website.

### Reenrollment

Admitted undergraduate students who plan to register any time during an academic year after an absence of four or more terms, not including

summer session, must notify the Office of the Registrar by filing a reenrollment form, available on the registrar's website.

Reenrollment procedures for graduate students are described in the **Division of Graduate Studies** section of this catalog.

## Summer Session

- Non-degree seeking (CEP) students planning to register for summer session should file the registration eligibility form, provided on our website (<https://registrar.uoregon.edu/non-degree-seeking/>). Non-degree seeking students who were enrolled within the prior year do not need to submit this form.
- Admitted undergraduate or graduate students may register without making any special request, subject to the normal reenrollment policies for their student level.
- Disqualified undergraduate students must file a reenrollment form if they have not enrolled during the preceding academic year.

## Transcripts

Students are required to send official transcripts to the Office of the Registrar for any academic work taken at other institutions while completing their baccalaureate degree program. A student's official UO academic record must be kept complete at all times. Exceptions are made only for special and provisional students who are formally admitted under individual arrangements, and for summer transient and community education students who are not formally admitted. Failure to file required records can result in the cancellation of admission or registration; disciplinary action may be initiated and sanctions may be imposed by the university.

## Nonrepeatable Courses

Undergraduate students may not (without prior approval by the Academic Requirements Committee) register for nonrepeatable courses in which they are currently enrolled or for which they have already earned a Pass or C or better at the UO or from a transferring institution. Students may register for a nonrepeatable course for which they have already earned a No Pass or C– or less at the UO or from a transferring institution without prior approval, but not more than three times in total. All attempts are counted toward this limit. Credits for nonrepeatable courses are awarded only one time. All graded attempts of repeated courses taken at the UO are calculated into the term and cumulative GPAs. Additional information is available on the registrar's website.

## Regression

Some courses build on one another. Regression occurs when a student takes a course that is at a lower level than a course the student has previously passed. General Limitation number 11 states *Student may not receive credit for courses that are designated by the department as regressive prerequisites for courses in which they are currently enrolled or have already received credit.*

Academic departments have the authority to designate courses as regressive. Information about the specific order in which courses must be taken and about course regression can be found on this website: <https://registrar.uoregon.edu/regression> (<https://registrar.uoregon.edu/regression/>). **Students do not earn credit for regressive courses.**

## Alternate Ways to Earn Credit

The university has established programs through which students may earn credit toward graduation and, at the same time, decrease the cost and time required for standard undergraduate study. Brief descriptions of

these programs appear below. Additional information is available from the Office of the Registrar.

## Advanced Placement

Students who receive satisfactory grades in advanced placement examinations administered by the College Board may, on admission to the university, be granted credit toward a bachelor's degree in comparable university courses. Information about credit awarded and scores required is available from the registrar's website.

## College-Level Examination Program

For some courses, departments have authorized the use of subject examinations prepared by the College-Level Examination Program (CLEP). Examinations are available, for example, in calculus, chemistry, economics, French, German, literature, Spanish, and sociology. Once a student is admitted to the university, it accepts as transfer credit the successful completion of CLEP subject examinations by students. More information is available online on the registrar's website (<http://registrar.uoregon.edu/current-students/alternative-ways-to-earn-credit/>) and at [testing.uoregon.edu](http://testing.uoregon.edu) (<http://testing.uoregon.edu>).

## Community Education Program

Individuals who want to enroll for 8 credits or fewer per term in university courses without formally applying for admission may do so through the Community Education Program. Part-time students of all ages choose from a variety of courses. More information is available at the Academic Extension office located at the Baker Downtown Center, 975 High St., Suite 110, 541-346-5614.

## Credit by Examination

Credit by examination allows formally admitted undergraduate students to challenge undergraduate university courses by successful completion of the exam. Course registration is not needed. Students seeking to receive credit by examination must be registered for the term in which the exam is given. Credit by examination may be earned only in courses whose content is identified by the title in the University of Oregon catalog. Students should first contact their department or advisor to determine the eligibility for credit by examination. Students must obtain faculty and department approvals before the exam can be scheduled. If eligible, the department approval form and instructor results form are available on the Office of the Registrar's website. Students are billed an examination fee of \$25 per credit hour..

Successful credit by examination is shown as transfer credit on the UO transcript and may be recorded as a pass (P) or graded (A, B, C, D), consistent with the options listed in the class schedule. Credit by examination may not be counted toward the satisfaction of the graduation residency requirement or for fulfillment of the requirement to complete 45 credits graded A, B, C, D at the University of Oregon. However, credit by examination may be counted toward the requirement to complete 168 credits graded A, B, C, D, P\* from all institutions attended.

The following are not available for credit by examination:

- Courses numbered 0–99; Field Studies (196); Workshop, Laboratory Projects, or Colloquium (198); Special Studies (199); courses numbered 200 or 399–410
- First-year second-language courses
- 100-level mathematics courses and MATH 211, MATH 212, MATH 213
- English composition courses (WR 121Z, WR 122Z, WR 123)

- An elementary language course taught in the student's native language
- A course for which a CLEP examination is available
- A course that substantially duplicates credit already earned
- A course that is more elementary in nature than credit already earned
- A course in which the student is already enrolled for credit
- A course for which the student has received a grade of A, B, C, D, P, P\*, I, X, or Y
- A course for which the student has already taken and failed an examination for credit

Contact the Office of the Registrar for more information.

## International Baccalaureate

Students who receive satisfactory grades in International Baccalaureate examinations may, on admission to the university, be granted credit in comparable university courses toward a bachelor's degree. Credit can be earned, for example, in art, biology, business, chemistry, Chinese, computer science, economics, English, French, German, history, geography, Japanese, Chinese, mathematics, music, physics, psychology, social and cultural anthropology, Spanish, Swedish, and theater arts. A complete list of university credit earned by International Baccalaureate examinations is available from the registrar's website.

## Military Credit

The university generally grants credit for military education experiences as recommended by the American Council on Education's *Guide to the Evaluation of Educational Experiences in the Armed Services*, and in accordance with University of Oregon policies regarding transfer credits. Students may request evaluation of credits earned through the Community College of the Air Force, Defense Language Institute, or military education. Students must submit official copies of college transcripts or a Certificate of Completion from the Defense Language Institute. An official copy of the student's DD Form 214, DD Form 295, or a Joint Services Transcript (JST) is required for military credit.

# Bachelor's Degree Requirements

To earn a University of Oregon bachelor's degree, students must satisfy the following requirements.

## University Requirements

### Credits

The bachelor of arts, bachelor of science, bachelor of education, bachelor of fine arts, bachelor of landscape architecture, bachelor of music, and bachelor of music in music education degrees require a total of 180 credits with passing grades. The bachelor of interior architecture requires a total of 225 credits, and the bachelor of architecture requires a total of 231 credits.

## Concurrent Degrees

Concurrent degrees are awarded under the following conditions:

1. The second degree may be offered by the same school or college
2. The student completes the departmental requirements for each major
3. The student completes the core education requirements (formerly the general-education requirements) for each degree

4. The student completes a minimum of 36 credits at the UO beyond those required for the degree that has the highest credit requirement
5. The student applies for the first degree on DuckWeb and submits a request to the Office of the Registrar for the second degree

Students are able to receive concurrent degrees from the same college or school when one of the majors is restricted to one degree.

## Academic Major

All bachelor's degrees must be awarded with a major. Minimum requirements are 36 credits in the major, including 24 in upper-division work. Specific requirements are listed under individual departments.

A student may be awarded a bachelor's degree with more than one major by completing the general university degree requirements for the designated majors and degree and all requirements in each major as specified by the major departments, schools, or colleges.

### Declaring a Major (First-Time, Full-Time Freshman Students)

1. Undergraduates who matriculated into the UO as first-time, full-time freshmen, should declare a major by the end of the fourth week of their sixth term of enrollment (typically spring term of the second year at Oregon)
2. Students who have not declared a major by the end of the fourth week of the sixth term of enrollment will need to see an advisor and receive a personal identification number (PIN) before they can register for the next term's classes. Advisors can either assist students in choosing a major or grant an exception and help students develop a plan to declare a major

### Declaring a Major (Transfer Students)

1. Transfer students should declare a major by the end of the fourth week of the third term of enrollment at Oregon
2. Transfer students who have not declared a major by the end of the fourth week of the third term of enrollment at the UO will need to see an advisor and receive a PIN before they can register for the next term's classes. Advisors can either assist students in choosing a major or grant an exception and help students develop a plan to declare a major

## Academic Minor

Unless specified by a particular department, a minor is not required for a bachelor's degree. Students choosing to complete a minor must earn a minimum of 24 credits, including 12 in upper-division work. Minor requirements, including residency, are listed under department headings. A minor may be awarded only at the time a bachelor's degree is conferred.

## Upper-Division Work

A minimum of 62 credits in upper-division courses (300 level or higher) are required.

## Residency

After completing 120 of the 180 required credits, 165 of the 225 required credits, or 171 of the 231 required credits, each student must complete at least 45 credits of UO courses in residence at the university.

Total Credits of A, B, C, D, P\*

Students must earn 168 transfer or University of Oregon credits with grades of A, B, C, D, or P\*. Credits earned in courses offered only pass/no pass use the P\* designation.

UO Credits of A, B, C, D

A minimum of 45 credits graded A, B, C, or D must be earned at the University of Oregon. Courses required in the major and designated in the class schedule as pass/no pass (P/N) only may be counted toward the 45-credit requirement only if the 168-credit requirement has been satisfied.

Satisfactory Work

Graduation from the university requires a minimum UO cumulative grade point average of 2.00.

Written English

Two courses (Composition I (WR 121Z) and either Composition II (WR 122Z) or College Composition III (WR 123) or equivalents) passed with grades of C– or better or P are required for all undergraduate degrees. For placement, prerequisites, or exemption, see policies in the English section of this catalog.

Requirements for Bachelor of Arts and Bachelor of Science

Students must choose to graduate with a specific degree and major (for example, bachelor of arts with a major in chemistry or bachelor of science with a major in chemistry). See degrees listed in the Undergraduate Programs (p. 41) section of this catalog.

Bachelor of Arts Requirements

The bachelor of arts (BA) degree requires proficiency in a second language. The second-language requirement may be met in one of the following ways:

- 1. Completion of at least the third term, second year of a second-language course taught in the language, with a grade of C– or better or P
- 2. Satisfactory completion of an examination administered by the appropriate language department, showing language proficiency equivalent to that attained at the end of two years of college study
- 3. For students whose native language is not English: provide a final official high school transcript to the Office of the Registrar as evidence of formal training in the native language and completion of Composition I (WR 121Z) and either Composition II (WR 122Z) or College Composition III (WR 123) with grades of C– or better or P. Students who graduate from a US high school are not eligible to receive the BA Language waiver.
- 4. Students may fulfill the UO second-language requirement by taking the all three courses in the year-long sequence in Old English (ENG 428, ENG 429, ENG 430) and by achieving a B- or higher in ENG 430. The sequence must be taken in order, since ENG 428 is a prerequisite for ENG 429, which is a prerequisite for ENG 430.

Bachelor of Science Requirements

The bachelor of science (BS) degree requires proficiency in mathematics or computer science or a combination of the two. The requirement may be satisfied in one of the following ways, depending on the student's

experience in mathematics. Courses must be completed with grades of C– or better or P.

- 1. Students with a limited background in mathematics can complete the requirement with any of the combinations of three courses listed below. Inquire with your advisor for other possible combinations.

| Code                                                 | Title                                           | Credits |
|------------------------------------------------------|-------------------------------------------------|---------|
| Option 1                                             |                                                 |         |
| Select three of the following:                       |                                                 | 12      |
| MATH 105Z                                            | Math in Society                                 |         |
| MATH 106                                             | University Mathematics II                       |         |
| MATH 107                                             | University Mathematics III                      |         |
| MATH 111Z                                            | Precalculus I: Functions                        |         |
| STAT 243Z                                            | Elementary Statistics I                         |         |
| CS 111                                               | Introduction to Web Programming                 |         |
| CS 122                                               | Introduction to Programming and Problem Solving |         |
| Option 2*                                            |                                                 |         |
| MATH 211                                             | Fundamentals of Elementary Mathematics I        | 4       |
| MATH 212                                             | Fundamentals of Elementary Mathematics II       | 4       |
| MATH 213                                             | Fundamentals of Elementary Mathematics III      | 4       |
| *Recommended for Educational Foundations majors only |                                                 |         |

- 2. Students who placed above the Precalculus I: Functions (MATH 111Z) level on the mathematics placement test may complete MATH 112Z or MATH 241 and one of the following:

| Code      | Title                                           | Credits |
|-----------|-------------------------------------------------|---------|
| MATH 105Z | Math in Society                                 | 4       |
| MATH 106  | University Mathematics II                       | 4       |
| MATH 107  | University Mathematics III                      | 4       |
| STAT 243Z | Elementary Statistics I                         | 4       |
| CS 111    | Introduction to Web Programming                 | 4       |
| CS 122    | Introduction to Programming and Problem Solving | 4       |

\*A student can satisfy this requirement by taking both MATH 112Z and MATH 241.

- 3. Students who have Precalculus I: Functions (MATH 111Z) skills and an additional prerequisite course or appropriate skills may complete the requirement with one course chosen from the following:

| Code     | Title                                       | Credits |
|----------|---------------------------------------------|---------|
| MATH 231 | Elements of Discrete Mathematics I          | 4       |
| MATH 242 | Calculus for Business and Social Science II | 4       |
| MATH 246 | Calculus for the Biological Sciences I      | 4       |
| MATH 251 | Calculus I                                  | 4       |
| MATH 261 | Calculus with Theory I                      | 4       |
| MATH 281 | Several-Variable Calculus I                 | 4       |

Areas of Inquiry Requirements

To promote educational breadth, bachelor's degree candidates are required to complete work in each of three areas representing

comprehensive fields of knowledge: arts and letters, social science, and science. Approved area-satisfying courses must be at least 3 credits each.

*The current list of area-satisfying courses are listed in the Core Education Courses (p. 45) section of this catalog.*

## "Double-Dipping" Restriction

Students may not use courses that fulfill the second-language requirement for the bachelor of arts degree to fulfill the arts and letters area requirement. Courses used to demonstrate proficiency in mathematics or in computer science or in a combination of the two for the bachelor of science degree may not also be used to fulfill the science area requirement.

## Areas of Inquiry Requirements for Specific Degrees

1. **Bachelor of Arts or Science.** Students must complete a minimum of 45 credits—15 of those credits in approved area-satisfying courses in each of three general-education areas: arts and letters, social science, and science. Each area must include coursework in two different subject codes. No more than three courses with the same subject code may be used to fulfill the 45-credit requirement. *MUS and MUJ are considered as one subject code; MATH and STAT are considered as one subject code.*
2. **Bachelor of Architecture, Education, Fine Arts, Interior Architecture, Landscape Architecture, Music, or Music in Music Education.** Students must complete a minimum of 36 credits—12 of those credits in approved area-satisfying courses in each of three general-education areas: arts and letters, social science, and science. Each area must include coursework in two different subject codes. No more than three courses with the same subject code may be used to fulfill the total 36-credit requirement. *MUS and MUJ are considered as one subject code; MATH and STAT are considered as one subject code.*

## Substituting a Minor or Second Major

Some minors or second majors may be used to satisfy part of one area requirement. Students should consult their advisors or the Office of the Registrar for more information.

## Cultural Literacy Requirements

### United States: Difference, Inequality and Agency

These courses develop students' analytical and reflective capacities to help them understand and ethically engage with the ongoing (cultural, economic, political, social, etc.) power imbalances that have shaped and continue to shape the United States. In addition to considering the scholarship, cultural production, perspectives, and voices from members of historically marginalized communities, students in DIA courses:

- Inquire into intersecting aspects of identity such as race, gender, gender identity, sexuality, socioeconomic status, indigeneity, national origin, religion, or ability;
- Analyze uses of power to marginalize on the basis of identity, as well as the assertions of agency, resistance, and resilience by marginalized groups; and
- Examine historical and contemporary structures, forms of knowledge, cultural practices, or ideologies that perpetuate or change the distribution of power in society.

and undertake one or more of the following:

- Reflect on one's own multiple social identifications and on how they are formed and located in relation to power.
- Practice respectful listening and ethical dialogue around deeply felt or controversial issues.

## Global Perspectives

These courses foster a student's encounter with and critical reflection upon cultures, identities, and ways of being in global contexts beyond the United States. Students will consider substantial scholarship, cultural production, perspectives, and voices from members of communities under study, as sources permit. Global Perspectives courses, students will do one or more of the following:

- Engage texts, literature, art, testimonies, practices, or other cultural products that reflect systems of meaning or beliefs beyond the U.S. context;
- Analyze power relations involving different nations, peoples, and identity groups or world regions;
- Examine hierarchy, marginality, or discrimination based on race, ethnicity, gender, gender identity, religion, sexuality, nationality, or ability (or some combination of these).

and undertake one or more of the following:

- Discuss possibly unfamiliar topics using critical vocabulary and concepts.
- Practice respectful listening and civil dialogue around controversial issues.

Study-abroad programs that are ten weeks or longer automatically satisfy this requirement. Programs between five and nine weeks in duration may qualify if specific criteria are met. Contact Global Education Oregon (<http://geo.uoregon.edu/>) for further information.

Bachelor's degree candidates must complete one course in each of the two categories listed above; a minimum of 6 credits in approved courses must be earned.

*The current list of courses that satisfy these requirements are listed in the Core Education Courses (p. 45) section of this catalog.*

## General Limitations

1. A total maximum of 124 credits may be transferred from domestic, regionally accredited junior or community colleges and from international junior or technical colleges. Of the total maximum of 124 credits, only 90 credits may be transferred from an international junior or technical college.
2. A maximum of 48 credits in law, medicine, pharmacy, chiropractic medicine, dentistry, technology, or any combination may be used toward fulfilling total credit hours for the BA or BS degree.
3. A maximum of 24 credits may be used toward fulfilling total credits in the following areas with not more than 12 credits in any one area:
  - a. Lower-division professional-technical courses;
  - b. Physical education activity, military science activity (e.g., MIL 131 and 331), and dance activity (DANC) courses, except for dance activity courses for majors in dance;
  - c. Music lessons (in subject MUP), except for majors in music;

- d. Applied and/or experiential courses, academic support skills courses, nonacademic field experience courses, or career and professional development courses.
4. For music majors, a maximum of 24 credits in music lessons (in subject code MUP), may count toward requirements for the BA or BS degree.
5. For dance majors, a maximum of 36 credits of DANC may count toward requirements for the BA or BS degree.
6. University of Oregon academic records are sealed thirty days after the official conferral date of a degree. After this date, changes to majors and minors, addition of departmental honors, removal of incompletes, grade changes, or other changes to an academic record cannot be made.
7. When the University awards credits for Advanced Placement Program (AP), International Baccalaureate Program (IB), Cambridge Examination Program, the College-Level Examination Program (CLEP), and credit by examination (course challenge), these credits are counted toward the satisfaction of bachelor's degree requirements—except residency and the 45 UO credits graded A,B,C,D. When the university grants credit for AP, IB, Cambridge, and CLEP examinations, pass (P\*) credit is granted.
8. For limitations related to repeated courses please refer to *UO Policy on Repeatable and Non-repeatable Undergraduate Courses*.
9. Students may not receive credit for any course assessed as having substantially similar content as a course for which they have already received credit.
10. Students may not receive credit for courses beneath their assessed competency level. Competency level can be assessed by various means such as placement scores, faculty/departmental assessment, etc.
11. Student may not receive credit for courses that are designated by the department as regressive prerequisites for courses in which they are currently enrolled or have already received credit.
12. Students must have degree-seeking status in order to earn an undergraduate major, minor or certificate; undergraduate majors, minors and certificates must be completed at the time the degree is awarded.

## Second Bachelor's Degree

A student who has been awarded a bachelor's degree from an accredited institution may earn an additional bachelor's degree at the University of Oregon. The student must satisfactorily complete all departmental, school, or college requirements for the second degree. Of these requirements, the following must be completed after the prior degree has been awarded:

1. The student must complete an additional 36 credits at the university as a formally admitted student if the prior bachelor's degree was awarded by the University of Oregon, or an additional 45 credits at the university if the prior bachelor's degree was awarded by another institution
2. A minimum cumulative UO GPA of 2.00 in courses taken for the second bachelor's degree is required for the second bachelor's degree
3. A minimum of 18 credits must be graded A, B, C, D if the prior bachelor's degree was earned at the University of Oregon, or 23 credits if at another institution

4. At least 27 credits from coursework within the major must be completed after the conferral of the most recent bachelor's degree
5. The bachelor of Arts degree requires proficiency in a second language. Students whose native language is not English may satisfy this requirement by providing a final official high school transcript to the Office of the Registrar as evidence of formal training in the native language and satisfactorily completing Composition I (WR 121Z) and either Composition II (WR 122Z) or College Composition III (WR 123). The bachelor of science degree requires proficiency in mathematics and/or computer science

## Bachelor's Degree with Honors

Information about Latin honors and academic honors is listed in the **Academic Honors** section of this catalog. Fellowship and scholarship information is in the Student Financial Aid and Scholarships (p. 31) and departmental sections of this catalog.

## Oregon Transfer Module

The Oregon Transfer Module (OTM) provides a one-year curriculum for students who plan to transfer to a state of Oregon community college or another Oregon public university. The module allows students to complete one year of general-education foundation coursework that is academically sound and readily transferable within Oregon. Although the OTM is not a certificate or degree, it documents that students have met a subset of common general-education requirements at all Oregon two- and four-year public institutions of higher education.

Any student holding an Oregon Transfer Module that conforms to the guidelines will have met the requirements for the Transfer Module at any Oregon community college or Oregon public university. Upon transfer, the receiving institution may specify additional coursework that is required for a major, degree requirement, or to make up the difference between the Transfer Module and the institution's total general-education requirements.

## Transferring to the University of Oregon with an OTM

Students transferring to the University of Oregon with an OTM from another institution will have completed 45 credits of the university's core-education requirements.

## Earning an OTM at the University of Oregon

To receive an OTM at the University of Oregon, students must complete a minimum of 45 credits—12 in residence at the UO—in foundational skills (writing, oral communication, and mathematics) and introduction to the disciplines (arts and letters, social sciences, and sciences). All courses must be completed with a grade of C– or better and students must have a minimum cumulative GPA of 2.00 at the time the OTM is posted on the transcript.

## Application for an Undergraduate Degree

Undergraduates who plan to receive a bachelor's degree from the University of Oregon must submit an application through DuckWeb, the university's online information system, by the fourth Sunday of the anticipated term of graduation.

The Office of the Registrar encourages students to apply to graduate the term preceding their graduation term. This allows students to plan

or change their final term's course schedule to ensure completion of all requirements.

Students who have been academically disqualified must petition for reinstatement to the Scholastic Review Committee to graduate. Students who are out of status due to suspension or expulsion cannot be awarded a degree until they are officially back in status with the university.

All grade changes, removals of incompletes, UO study abroad course work, and transfer work necessary for completion of degree requirements must be on file in the Office of the Registrar by the Friday following the end of the term of graduation. Academic records are sealed thirty days after the conferral of a degree; no changes to the record will be made following that date.

Students who do not apply to graduate will not receive retroactive degrees even if degree requirements were completed at an earlier date.

Applications for graduate degrees are available from the Division of Graduate Studies.

## Academic Honors

### Departmental Honors

Many departments at the University of Oregon offer a bachelor's degree with honors in the academic major. Students may graduate with honors in the following majors:

### College of Arts and Sciences

Anthropology; Asian Studies; Biochemistry; Biology; Chemistry; Chinese; Cinema Studies; Classics; Comparative Literature; Computer Science; Earth Sciences; Economics; English; Environmental Science; Environmental Studies; Ethnic Studies; French; General Social Science; Geography; German; Global Studies; History; Humanities; Human Physiology; Italian; Japanese; Judaic Studies; Linguistics; Marine Biology; Mathematics; Medieval Studies; Multidisciplinary Science; Neuroscience; Philosophy; Physics; Political Science; Psychology; Religious Studies; Romance Languages; Russian, East European, and Eurasian Studies; Sociology; Spanish; Spatial Data Science and Technology; Theater Arts; Women's, Gender, and Sexuality Studies.

### Charles H. Lundquist College of Business

Accounting; Business Administration.

### College of Design

Art History; Planning, Public Policy and Management.

### School of Journalism and Communication

Journalism: Advertising; Journalism: Media studies; Journalism: Public Relations.

Specific requirements of departmental honors programs are listed in the departmental sections in this catalog.

## Honors Lists

### Dean's List

The Dean's List is announced after each fall, winter, and spring term. To qualify, a student must be an admitted undergraduate, complete at least 12 credits taken for a letter grade during the term, and have a term GPA of 3.75 or better. Credits deducted do not count toward the minimum number of credits. Grade changes recorded through the second week of

the subsequent term resulting in a change to the term GPA may affect the Dean's List notation (removal or addition).

## Junior Scholars

The 100 undergraduates with 90 to 134 credits, the last 45 taken at the UO, and the highest GPAs are named junior scholars by the Mortar Board senior honor society during winter term.

## Latin Honors

Graduating seniors who have earned at least 90 credits in residence at the University of Oregon and have successfully completed all other university degree requirements are eligible for graduation with Latin honors. These distinctions are based on students' cumulative GPA levels for each academic year, determined by rounding the previous five-year running average to the first decimal point. Post-baccalaureate students are not eligible for Latin honors. The Office of the Registrar computes Latin honors upon graduation.

## Tuition and Fees

**Kelly Wolf, Associate Vice President Business Affairs and Controller**

541-346-3170

Thompson's University Center

## Tuition

Tuition and fees for admitted students are based on residency, student classification (undergraduate, graduate, etc.), major, the number of credits enrolled, and the first term enrolled, with exceptions for students enrolled in joint baccalaureate/graduate programs where tuition is assessed by course level rather than student level.

As of summer 2020, the University of Oregon will transition from a standard undergraduate tuition and fee structure to a Guaranteed Tuition Program under which students will know the cost of their education for at least 5 years. Both tuition and mandatory enrollment fees (other than the Incidental Fee) will be included in the guaranteed structure. The Guaranteed Tuition Program (<https://financialaid.uoregon.edu/oregon-guarantee/>) is mandatory.

The tuition and fee schedule can be found on the Office of the Registrar website (<https://registrar.uoregon.edu/costs/tuition-fees/>).

In the schedule, tuition is specified for one term only. There are three terms in the academic year: fall, winter, and spring (except for the School of Law, which operates on a two-semester system). Summer session operates on a separate tuition schedule that includes course self-support fees.

The University of Oregon reserves the right to make changes in the tuition schedule.

## Mandatory Enrollment Fees

### Building, Health Service, Recreation Center, Student Union, Technology, and Incidental

Students enrolled at the Eugene campus are required to pay all mandatory fees. Students enrolled at the Portland or Charleston campuses, or at an off-campus site, do not pay Recreation Center or EMU fees, and they pay 50% of the Incidental Fee. Students in Portland are required to pay Portland State University's Health Service Fee and students at the Charleston campus pay UO's Health Services Fee. Students at an off-campus site do not pay the Health Services Fee. For

the purpose of assessing fees, student enrolled in only online courses pay the Off-Campus set of fees.

The tuition and fee schedule along with fee descriptions can be found on the Office of the Registrar website (<https://registrar.uoregon.edu/costs/tuition-fees/>).

## Matriculation Fee

This is a one-time fee required by all admitted students and appears on your bill at the beginning of your first term at the UO.

## Course Fees

Certain courses have additional fees which may include lab fees, field trip fees, and material fees. Refer to the Schedule of Classes (<http://classes.uoregon.edu/>) for individual course related fees.

## Tuition Billing

Tuition may be paid in monthly installments. Unpaid balances are assessed a \$6 billing fee and are charged 9 percent annual interest. The university uses an electronic billing process to bill student for charges incurred; payments are due on the first of each month.

## Special Tuition Rates

### Non-degree/Community Education Program

Tuition for non-degree seeking students is determined by residency, course level, and the number of credits enrolled. Non-degree seeking undergraduate students are assessed tuition and administrative mandatory fees at the most recent tuition cohort rate.

### Senior Citizens Auditing a Course

Oregon senior citizens who are neither seeking academic credit nor working toward a degree may attend classes as senior auditors if space is available on the first day of classes and if the department approves, at no cost. Charges may apply for special course materials. Senior citizens who want to audit a self-support course must pay self-support tuition and fees for the course. Incidental fee services are not provided. Registration is handled through the Office of the Registrar, second floor, Oregon Hall.

## Employees and Dependents

Staff tuition provisions are included in the employee benefit program to encourage and assist eligible employees with educational pursuits. Eligible employees may transfer this benefit to a qualified family member each term. For more information see the Human Resources website (<https://hr.uoregon.edu/staff-tuition-benefit/>).

## Special Fees

Special fees, fines, penalties, service charges, and other additional charges for specific courses, services, or supplies not covered in the tuition fee are set forth on the website (<https://brp.uoregon.edu/content/fee-guidelines/>).

| Type of Fee              | Fee Amount      | Information                                                                       |
|--------------------------|-----------------|-----------------------------------------------------------------------------------|
| Credit by Examination    | \$25 per credit | Assessed for taking an examination to challenge undergraduate university courses. |
| Exceptions to Procedures | \$1–\$50        | Approved exceptions to registration deadlines are subject to this fee.            |

Late Registration \$100

A \$100 fee is charged for registration after the eighth day of class.

|             |                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|-------------|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Testing     | \$3–\$50                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Transcripts | \$15, other costs may apply | Instructions and delivery options are available at <a href="https://registrar.uoregon.edu/transcripts">https://registrar.uoregon.edu/transcripts</a> ( <a href="https://registrar.uoregon.edu/transcripts/">https://registrar.uoregon.edu/transcripts/</a> ). The university reserves the right to withhold transcripts of students who have unpaid financial obligations to the institution. Debtors contesting their accounts should contact the collections department for counseling and instructions for a written appeal. The collections department is located in the Office of Business Affairs in the Thompson University Center. The mailing address is Collections Department, Office of Business Affairs, PO Box 3237, University of Oregon, Eugene, Oregon 97403-0237; call 541-346-3215 |

## Tuition and Fee Refunds

In the event of complete withdrawal from the university or a reduction in course load, refunds may be granted to students in accordance with the refund schedule (<https://registrar.uoregon.edu/calendars/refund-schedules/>).

1. Refunds are calculated from the date the student officially withdraws from the university, not from the date the student ceased attending classes, except in unusual cases when formal withdrawal has been delayed through causes largely beyond the student's control
2. No refunds are made for any amount less than \$1.00 unless a written request is made
3. In case of complete withdrawal, students who received financial aid are responsible for repayment of that aid in accordance with the university's financial aid repayment policy and schedule. See the class schedule for details

For complete withdrawal see instructions on the Office of the Registrar website (<https://registrar.uoregon.edu/current-students/duckweb/complete-withdrawal/>). For questions concerning complete withdrawal please contact the Office of Academic Advising (<https://advising.uoregon.edu/>).

The university has an appeal process for students or parents contending that individual circumstances warrant exceptions to published policy if circumstances of withdrawal or course-load reduction are beyond the student's control. Petitions for exception to the refund policy may be obtained from the Office of the Registrar (<https://registrar.uoregon.edu/forms/>) or from the Office of Academic Advising (<https://advising.uoregon.edu/questions-about-petitions/>).

## Veterans Access, Choice, and Accountability Act of 2014

## Veterans Health Care and Benefits Improvement Act of 2016

## Department of Veterans Affairs Expiring Authorities Act of 2018

## Isakson and Roe Veterans Health Care and Benefits Improvement Act of 2020

## Colonel John M. McHugh Tuition Fairness for Survivors Act of 2021

The following individuals shall be charged the in-state rate, or otherwise considered a resident, for tuition and fees purposes:

- A veteran using educational assistance under either Chapter 30 (Montgomery GI Bill®—Active Duty Program) or Chapter 33 (Post-9/11 GI Bill®), of Title 38, United States Code, who lives in the state of Oregon while attending the University of Oregon (regardless of his or her formal state of residence).
- Anyone using transferred post-9/11 GI Bill® benefits (38 U.S.C. § 3319) who lives in the state of Oregon while attending the University of Oregon (regardless of his or her formal state of residence).
- Anyone using benefits under the Marine Gunnery Sergeant John David Fry Scholarship [38 U.S.C. § 3311(b)(9)] who lives in the state of Oregon while attending the University of Oregon (regardless of his or her formal state of residence).
- Anyone using educational assistance under Chapter 31, Veteran Readiness and Employment, who lives in the state of Oregon while attending the University of Oregon (regardless of his or her formal state of residence).
- Anyone using educational assistance under Chapter 35, Dependents Educational Assistance, who lives in the state of Oregon while attending the University of Oregon (regardless of his or her formal state of residence).
- Anyone described above while he or she remains continuously enrolled (other than during regularly scheduled breaks between courses, semesters, or terms) at the University of Oregon.

## Student Financial Aid and Scholarships

### Jim Brooks, Director

541-346-3221  
541-346-1175 fax  
260 Oregon Hall  
1278 University of Oregon  
Eugene OR 97403-3221  
[financialaid@uoregon.edu](mailto:financialaid@uoregon.edu)

Financial aid in the form of scholarships, grants, loans, and employment is available to eligible students who need assistance to attend school. The Office of Student Financial Aid and Scholarships provides counseling and information services to students and parents and administers a comprehensive program of financial assistance. Office hours are

8:00am–5:00 pm, Monday, Tuesday, Thursday, and Friday, and 9:00 a.m.–5:00 pm on Wednesday. Drop-in counselors are available Monday through Friday, 9:00 am–11:45am and 1pm–3:45pm. Phone hours are also Monday through Friday, 9:00 am–11:45am and 1pm–3:45pm.

Federal and state regulations are subject to change and may affect current policies, procedures, and programs.

## Estimated Student Expenses

The following information is provided to help students estimate the total cost of attending the University of Oregon.

Budgets established for financial aid purposes are based on average expenses. Some students have higher costs in a few categories. For example, students in various academic departments may have additional expenses for equipment, supplies, and field trips in addition to books. Students living alone in an apartment or in university housing may spend more than the budgeted amount for meals and housing, based on personal choice.

Residence hall room and board rates for 2023–24 range from \$9,840 to \$25,004. Cooperative housing costs are generally less than the minimum residence hall rate. Sorority and fraternity costs are typically higher.

Although the university does not require proof of health insurance for domestic students, the provisions of the Affordable Care Act may apply. International students are required to purchase health insurance. For more information about health services and coverage, please visit the University Health Services website. (<https://health.uoregon.edu/>)

Personal expenses are governed by individual preference but may include such items as transportation, health care, apparel, and entertainment.

The figures in the following table are the 2023-24 tuition and fees for an incoming undergraduate student enrolled in 15 credits and a graduate student enrolled in 9 credits. Due to Guaranteed Tuition (<https://financialaid.uoregon.edu/oregon-guarantee/>), rates and charges may vary by each individual student's cohort year. UO charges by the credit hour. To view tuition and fees by residency and credit hour, please see the **Tuition and Fees** section of this catalog.

### Tuition and Fees

| Student Classification                                                  | One Term or Semester | Three Terms or Semesters |
|-------------------------------------------------------------------------|----------------------|--------------------------|
| Undergraduate resident                                                  | \$5,223              | \$15,669                 |
| Undergraduate nonresident                                               | \$14,434             | \$43,302                 |
| Graduate tuition varies by program. A base tuition would be as follows: |                      |                          |
| Graduate resident                                                       | \$6,412              | \$19,236                 |
| Graduate nonresident                                                    | \$10,903             | \$32,709                 |
| Law resident (semester)                                                 | \$23,132             | \$46,264                 |
| Law nonresident (semester)                                              | \$28,793             | \$57,586                 |

The Office of Student Financial Aid and Scholarships used the expenses in the following tables to estimate a student's educational costs for the 2023-24 academic year.

Housing and Food

|                                         | One Term | Three Terms |
|-----------------------------------------|----------|-------------|
| Student commuter living with parents    | \$1,260  | \$3,780     |
| Undergraduate student living off campus | \$4,126  | \$12,378    |
| Undergraduate student living on campus  | \$5,280  | \$15,840    |
| Graduates                               | \$5,118  | \$15,354    |
| Law (semester)                          | \$7,677  | \$15,354    |

A dependent child-care allowance may be added to the budget for each child less than 12 years of age who is living with a student and for whom the student is paying child-care expenses.

Books, Supplies and Equipment

|                              | One Term | Three Terms |
|------------------------------|----------|-------------|
| Graduates and undergraduates | \$440    | \$1,320     |
| Law (semester)               | \$660    | \$1,320     |

Transportation

|                                       | One Term | Three Terms |
|---------------------------------------|----------|-------------|
| Resident undergraduate or graduate    | \$144    | \$432       |
| Nonresident undergraduate or graduate | \$460    | \$1,380     |
| Law resident (semester)               | \$216    | \$432       |
| Law nonresident (semester)            | \$690    | \$1,380     |

Miscellaneous Personal Expenses

|                | One Term | Three Terms |
|----------------|----------|-------------|
| Undergraduates | \$820    | \$2,460     |
| Graduates      | \$820    | \$2,460     |
| Law (semester) | \$1,230  | \$2,460     |

Applying for Financial Aid

Undergraduate, graduate, and law students use the following procedure to apply for financial aid:

1. Complete the Free Application for Federal Student Aid (FAFSA) online. The official website is <https://studentaid.gov/h/apply-for-aid/fafsa> (<https://studentaid.gov/h/apply-for-aid/fafsa/>)
2. List the University of Oregon (using code number 003223) on the FAFSA application as a school to receive the application information
3. Apply for admission to the University of Oregon

Deadlines

To be given priority consideration for the Federal Supplemental Educational Opportunity Grant, Federal Work-Study Program, and tuition waivers for all or part of any given academic year, a valid FAFSA must be received by the federal processor on or before March 1 prior to the academic year for which the student is applying. To meet this deadline, submit the FAFSA no later than February 15. The FAFSA is available on October 1 prior to the academic year for which the student is applying. Signing the FAFSA electronically is the recommended method for submission. If applicable, online applicants should mail the FAFSA signature page, obtained from the FAFSA website, in early February to meet the priority deadline.

Eligibility

Financial aid eligibility for any student is determined by the difference between the estimated cost of education at the University of Oregon and the expected family contribution (as determined by the FAFSA) from the student's family, the student and parents if the student is a dependent, or the student and spouse if the student is married. Students (and their families if appropriate) are expected to bear the primary responsibility for meeting educational costs. When a student's expected family contribution is less than the cost of education, the university attempts to meet the difference with need-based financial aid first, then attempts to fill the remaining difference with non-need based loans.

Assessing Financial Aid Eligibility

The university uses a method prescribed by law to determine an expected contribution from the student and family toward the cost of the student's education. The expected family contribution, derived from using the federal formula, is based on income and asset information as well as certain variables such as family size and number of family members attending college. This system ensures that students receive consistent and equitable treatment. Financial aid counselors review unique circumstances on a case-by-case basis, at the request of the student.

Satisfactory Academic Progress

To be eligible for financial aid, students must make satisfactory academic progress toward their degrees, maintain a minimum cumulative grade point average (GPA) and acceptable pace of completion, and graduate within the maximum time frame. Progress is reviewed annually at the end of spring term.

The minimum cumulative GPA needed to meet satisfactory academic progress is 2.00 for an undergraduate and 3.00 for a graduate student (except for law students seeking a JD or LLM degree, who require a 2.00 GPA). For more information on how your cumulative UO GPA is calculated, including how incompletes, withdrawals, or repetitions may affect your GPA, please visit the [GPA calculator \(https://registrar.uoregon.edu/current-students/grading-system/#calculating-a-grade-point-average\)](https://registrar.uoregon.edu/current-students/grading-system/#calculating-a-grade-point-average). If a student's cumulative GPA drops below the required minimum at the time of the evaluation, eligibility for financial aid will be suspended unless the student appeals and is approved for reinstatement. Students may also reestablish eligibility for the subsequent term after raising their GPA to the minimum requirement.

Pace of completion toward a degree is a further requirement, determined by dividing the number of credits attempted by the number of credits earned. Students are expected to earn credit for at least 67 percent of the credits attempted on an aggregate basis. Credit is earned for grades

A, B, C, D, and P. Credit is not earned for grades of F, W, I, Y, N, and X. A [pace calculator](https://financialaid.uoregon.edu/pace_calculator/) ([https://financialaid.uoregon.edu/pace\\_calculator/](https://financialaid.uoregon.edu/pace_calculator/)) is located online.

Students must also complete their degrees within a maximum time frame. A student must graduate before accumulating 150 percent of the attempted credits required for completing his or her major. Most majors at the University of Oregon require 180 credits; 270 would be 150 percent of that. If a student is unable to fulfill the requirements for his or her degree before reaching this maximum time frame or the financial aid office determines that it is mathematically impossible to graduate within the maximum time frame, financial aid will be suspended.

Visit the Office of Student Financial Aid and Scholarship [website](http://financialaid.uoregon.edu/satisfactory_academic_progress/) ([http://financialaid.uoregon.edu/satisfactory\\_academic\\_progress/](http://financialaid.uoregon.edu/satisfactory_academic_progress/)) for information on the appeals process.

Completely withdrawing from (or not passing any) courses during a student's first term at the University of Oregon, or during any two consecutive terms, constitutes failure to meet satisfactory academic progress standards regardless of GPA, pace, or time frame.

For additional information, visit the Office of Student Financial Aid and Scholarship [website](http://financialaid.uoregon.edu/satisfactory_academic_progress/) ([http://financialaid.uoregon.edu/satisfactory\\_academic\\_progress/](http://financialaid.uoregon.edu/satisfactory_academic_progress/)).

## Financial Aid Packages

Students will receive notification of their offer after their financial aid eligibility has been established. The Office of Student Financial Aid and Scholarships attempts to offer financial aid to students up to their estimated cost of education, which could include scholarship and grant money, work-study, and loan eligibility.

A student may not receive assistance from any financial aid (Title IV) program if:

1. The student is in default on any educational (Title IV) loan
2. The student has borrowed in excess of federal (Title IV) loan limits
3. The student owes a refund on federal or state grants or a Federal Perkins Loan due to an overpayment

A parent may not borrow from the Federal Direct Parent Loan for Undergraduate Students (Parent PLUS) if the parent or student is in default on any educational loan or owes a refund on an educational grant as described above.

There may be other conditions when a student would be ineligible for financial aid—for example, when a student is not maintaining satisfactory academic progress or when not enrolled in an eligible program.

## Undergraduates

Federal Pell Grants, Oregon Opportunity Grants, and university scholarships are considered to be part of the student's financial aid package, even though the Office of Student Financial Aid and Scholarships may not determine eligibility for these programs.

The office determines the student's eligibility for and the amount of assistance from the Federal Supplemental Educational Opportunity Grant and the Federal Work-Study Program.

Financial aid offers are made in accordance with federal and state regulations, as well as university policies. Some offers are tentative if

selected for verification and may be revised after verification has been completed.

## Graduate and Law Students

The Office of Student Financial Aid and Scholarships determines eligibility and the amount of assistance that may be received from the Federal Work-Study Program, Federal Direct Unsubsidized Loan, and Federal Direct Graduate PLUS Loan. Offers are made in accordance with federal regulations and university policies.

## Refunds and Repayment

Students who withdraw from school may be required to repay all, or a portion of, their financial aid. According to a formula prescribed by federal and state regulations, any refundable amount used to pay tuition and fees or for university housing is returned to the appropriate financial aid sources. Students may also be required to pay the unearned portion of assistance that was directly disbursed to them.

Additional information concerning the institution's refund policy may be found on the website for the Office of the Registrar. (<https://registrar.uoregon.edu/calendars/refund-schedules/>)

Additional information concerning return of financial aid ([http://financialaid.uoregon.edu/return\\_of\\_financial\\_aid/](http://financialaid.uoregon.edu/return_of_financial_aid/)) and participation requirements (<http://financialaid.uoregon.edu/participation/>) may be found on the website for the Office of Student Financial Aid and Scholarships.

## Notification of Financial Aid

Beginning in March, financial aid offers are mailed to first-year students who have supplied the necessary information to the Office of Student Financial Aid and Scholarships and the Office of Admissions. Financial aid offers are then mailed on a continuing basis to those entering students who supply the necessary information to the offices after the March 1 priority deadline.

When aid is accepted, the student (and spouse if married) and the student's parents (if applicable) may be asked to provide documents, such as federal income tax returns (IRS Form 1040), to verify the information on the application.

Students should read the financial aid offer and instructions carefully.

An explanation of revision and appeal policies and procedures may be found on the financial aid website. A financial aid package may be revised when a student's eligibility changes. The student receives a revised notification and, if necessary, is advised of any repayment of aid. The federal regulations covering financial aid programs, the explanation of the federal method of determining student and family contributions, and the university policies and procedures for offering financial aid are available in the Office of Student Financial Aid and Scholarships. Students are welcome to review them during office hours or on the financial aid website.

## Financial Aid Programs

To be eligible for certain financial aid programs that depend on federal or state funding, the student must be a citizen of the United States or in the United States for other than a temporary purpose and with the intention of becoming a permanent resident. Students who are citizens of the Freely Associated States (the Republic of the Marshall Islands, the Federated

States of Micronesia, or the Republic of Palau) may be eligible for certain types of federal (Title IV) aid.

Financial aid is typically disbursed to students near the beginning of a term based on their enrollment at that time. However, financial aid is actually earned over the course of a term. Therefore, if a student completes a term at a different enrollment status than he or she began the term, some or all of the student's financial aid may need to be returned.

## Federal Pell Grant

This program provides grants (funds that do not require repayment, provided you meet the terms of the award) to eligible undergraduates who do not have a bachelor's degree.

To be eligible for a Federal Pell Grant, a student must be admitted to the university in a program leading to a degree and enrolled in good standing. The amount of Federal Pell Grant funds a student may receive over their lifetime is limited to the equivalent of six years of Pell Grant funding.

The grant is reduced proportionately if the student is enrolled less than full time (12 credits a term).

The Free Application for Federal Student Aid (FAFSA) determines eligibility based on the student's and parents' income and assets, or the student's and spouse's, if applicable. The university disburses the money.

## Federal Supplemental Educational Opportunity Grant (FSEOG)

Federal supplemental grants, which do not need to be repaid, provided you meet the terms of the award, are for undergraduates with exceptional need. To be eligible, a student must be admitted to the university in a program leading to a degree and enrolled in good standing. The amount a student receives is determined by university policy and fund availability.

Funds are granted to the university by the federal government to award to eligible students.

## Iraq and Afghanistan Service Grants

The Iraq and Afghanistan Service Grant is a federal grant that, although it does not need to be repaid, provided you meet the terms of the award, has special eligibility criteria. This grant is for undergraduates who

- are not eligible for the Federal Pell Grant on the basis of their expected family contribution but meet the remaining Federal Pell Grant eligibility requirements
- have a parent or guardian who was a member of the US armed forces and died as a result of military service performed in Iraq or Afghanistan after the events of September 11, 2001
- were under 24 years old or enrolled in college at least part-time at the time of their parent's or guardian's death

## State of Oregon Opportunity Grants

Oregon Opportunity Grants are awarded to eligible undergraduate Oregon residents who complete the FAFSA or the Oregon Student Aid Application (ORSAA).

A grant may be renewed for a total of 12 terms if the student applies each year, demonstrates financial need, is enrolled at least half time (6 credits a term) in a program leading to a degree, and has not completed a bachelor's degree. In addition, the State of Oregon Office of Student

Access and Completion (OSAC) may require that a student receive the Oregon Opportunity Grant during the fall term in order to have any eligibility for the remainder of the year.

OSAC determines eligibility and notifies the university. The funds are provided by the state and disbursed by the university.

## University of Oregon Tuition Waiver (Grant)

The UO Tuition Waiver may remit (reduce) a portion of a full-time Oregon resident's tuition charges, for undergraduates who demonstrate financial need and complete their FAFSA application by the published priority deadline. Funding is limited and the amount a student receives is determined by university policy and fund availability.

## Teacher Education Assistance for College and Higher Education Grant (TEACH)

The TEACH program provides up to \$4,000 a year to students enrolled in an eligible education program and who agree to teach in a high-need field at a low-income school for at least four years within eight years of completing the program for which the grant was awarded. If these requirements are not met, the grant converts to a loan, interest is assessed retroactively, and the loan must be repaid.

## Federal Work-Study Program

The Federal Work-Study Program allows students with financial need the opportunity to pursue a part-time job. Work-study students must be in good academic standing in an eligible program leading to a degree or certificate.

The amount of work-study a student may earn is determined by university policy and fund availability. Students earn an hourly wage based on the type of work, their skills, and their experience. Students may work a maximum of 25 hours a week while school is in session. Monthly timesheets are completed with the employer and pay is generated at the end of each month.

Students earn work-study funds by working on-campus or off-campus at approved governmental or non-profit agencies that perform services in the public interest. Information on available job opportunities and assistance locating a position can be found at the University Career Center website (<https://career.uoregon.edu/>).

## William D. Ford Federal Direct Student Loan Program

### Federal Direct Subsidized Loan

Students must demonstrate need to qualify for a Federal Direct Subsidized Loan. The university determines the amount the student may borrow within federal limits: \$3,500 for the first academic year of undergraduate study (up to 44 credits); \$4,500 for the second academic year (45–89 credits); and \$5,500 an academic year for the remaining years of undergraduate study. Not all students are eligible for the maximums. The Federal Direct Subsidized Loan is for undergraduate students with financial need. The US Department of Education pays the interest on (subsidizes) a Direct Subsidized Loan while the student is enrolled, during a student's grace period, and during a period of deferment.

Student borrowers must be enrolled at least half-time, in good academic standing and have been accepted for admission to an eligible program leading to a degree or certificate. Once repayment begins, borrowers are charged a fixed interest rate. The fixed interest rate is set every July

1. For loans first disbursed on or after July 1, 2022 and before July 1, 2023, the interest rate is fixed at 4.99%. For loans first disbursed on or after July 1, 2023 and before July 1, 2024, the interest rate is fixed at 5.49%. There is an origination fee of 1.057% for loans first disbursed on or after October 1, 2020 and before October 1, 2023.

### Federal Direct Unsubsidized Loan

Direct Unsubsidized Loans are available to students who do not qualify, in whole or in part, for the Direct Subsidized Loan. The university determines the amount the student may borrow within federal limits: \$5,500 for the first academic year of undergraduate study (up to 44 credits); \$6,500 for the second academic year (45–89 credits); and \$7,500 per year for the remaining years of undergraduate study. The amount of Direct Subsidized Loan eligibility is subtracted from the Direct Unsubsidized Loan maximum amounts listed. Not all students are eligible for the maximums.

Direct Unsubsidized Loans are available to undergraduate and graduate students. There is no requirement to demonstrate financial need. The student is responsible for paying the interest on a Direct Unsubsidized Loan during all periods. If the student chooses not to pay the interest while in school and during grace periods and deferment or forbearance periods, the interest will accrue (accumulate) and be capitalized (that is, interest will be added to the principal amount of the loan).

A student's financial need and dependency status determines the amount of the loan offered. Independent students, as defined by answers on the FAFSA, may borrow up to an additional \$4,000 in their freshman and sophomore years and up to an additional \$5,000 in their junior and senior years.

For loans first disbursed on or after July 1, 2022 and before July 1, 2023, the interest rate is fixed at 4.99%. For loans first disbursed on or after July 1, 2023 and before July 1, 2024, the interest rate is fixed at 5.49%. There is an origination fee of 1.057% for loans first disbursed on or after October 1, 2020 and before October 1, 2023. Interest that accrues during in-school, grace, and authorized deferment periods will be added to the principal when repayment begins. The interest rate for the Direct Unsubsidized Loan is a fixed rate set every July 1.

Graduate and law students may borrow up to \$20,500 a year depending on their financial need. For graduate and law students with loans first disbursed on or after July 1, 2022 and before July 1, 2023, the interest rate is fixed at 6.54%. For loans first disbursed on or after July 1, 2023 and before July 1, 2024, the interest rate is fixed at 7.05%. There is an origination fee of 1.057% for loans first disbursed on or after October 1, 2020 and before October 1, 2023.

### Additional Federal Direct Unsubsidized Loan

Dependent undergraduate students whose parents are denied access to the Federal Direct Parent Loan for Undergraduate Students (Parent PLUS) program may be eligible for additional Direct Unsubsidized Loan funds. Students with fewer than 90 credits may borrow a maximum of \$4,000 per award year in additional funds above the maximum Federal Direct Loan limits. Students who have earned 90 credits or more may borrow a maximum of an additional \$5,000 per award year. Not all applicants qualify for the maximums. The Federal Direct Unsubsidized Loan may be used to replace expected family contribution, but the total borrowing for combined Direct Subsidized Loans and Direct Unsubsidized Loans cannot exceed the cost of education.

Generally, the cumulative amount a student can borrow from all Federal Direct Loans is as follows:

- \$31,000 (only \$23,000 may be subsidized) as a dependent undergraduate
- \$57,500 as an independent undergraduate (only \$23,000 of this amount may be subsidized)
- \$138,500 as a graduate or professional student

### Federal Direct Parent Loan for Undergraduate Students (Parent PLUS)

This program provides loans to parents of dependent undergraduate students. Parents may borrow up to an annual amount that is equal to the cost of education minus any estimated financial assistance the student receives during the periods of enrollment. The borrower may use the amount of the Federal Direct PLUS to replace the expected family contribution for the loan period.

The Federal Direct PLUS is limited to parents who do not have an adverse credit history or who have obtained an endorser who does not have an adverse credit history or in default on federal loans. A direct loan servicer, contracted by the federal government, performs the required credit check. The interest on the Federal Direct PLUS is a fixed rate set every July 1. For loans first disbursed on or after July 1, 2022 and before July 1, 2023, the interest rate is fixed at 7.54%. For loans first disbursed on or after July 1, 2023 and before July 1, 2024, the interest rate is fixed at 8.05%. There is an origination fee of 4.228% for loans first disbursed on or after October 1, 2020 and before October 1, 2023.

Parents interested in participating in the Federal Direct PLUS program may apply for the loan by visiting the Federal Student Aid (<https://studentaid.gov/plus-app/parent/landing/>).

### Federal PLUS Loan for Graduate and Professional Students (Graduate PLUS)

This program is offered to qualified students with or without financial need, but the student must have financial aid eligibility. Like other direct loans for students, the US Department of Education is the direct lender of the Graduate PLUS. Typically, repayment must begin within 60 days after the Graduate PLUS is fully disbursed. However, students who meet the requirements may obtain an in-school deferment from the US Department of Education. There is no grace period for this loan. Interest begins to accrue at the time the first disbursement is made at a fixed rate set every July 1. For loans first disbursed on or after July 1, 2022 and before July 1, 2023, the interest rate is fixed at 7.54%. For loans first disbursed on or after July 1, 2023 and before July 1, 2024, the interest rate is fixed at 8.05%. There is an origination fee of 4.228% for loans first disbursed on or after October 1, 2020 and before October 1, 2023.

### Repayment

Payment of all Direct Loans are handled through an assigned direct loan servicer. To locate the appropriate direct loan servicer, the student may sign in to Federal Student Aid (<https://studentaid.gov/>).

Repayment of Federal Direct Loans (subsidized and unsubsidized) begins six months after termination of at least half-time enrollment. Repayment of Federal PLUS loans typically begins within 60 days of the last disbursement of the loan. A deferment may be requested after loan approval. Borrowers have the right to prepay their loans without penalty. Furthermore, they may choose from the following repayment plans:

- A standard repayment plan with a fixed payment amount (at least \$50 a month) over a fixed period of time, not to exceed 10 years
- A graduated repayment schedule in which payments are lower at first and then increase, usually every two years, over a period of as much as 10 years
- An extended repayment plan with a fixed or graduated annual repayment of at least \$50 a month over a period of up to 25 years, depending on the total amount owed
- The pay as you earn (PAYE) plan is designed for new borrowers (since October 1, 2017) with at least a partial financial hardship. Payment amounts change as the borrower's income changes, with a repayment period of as much as 20 years. Borrowers must update income and family size each year. Parent PLUS Loans are not eligible for this plan
- The revised pay as you earn plan (REPAYE) has similar conditions to the plan listed above, but there is no requirement to be a new borrower
- An income-based repayment plan designed to make repaying federal loans easier for students who intend to pursue jobs with lower salaries such as careers in public service. Monthly payments are capped at a percentage of the borrower's discretionary income, which is based on family size and income rather than total amount borrowed. Payments change as the borrower's income changes and are made over a period of up to 25 years. Borrowers must update income and family size each year. Parent PLUS Loans are not eligible for this plan
- An income-contingent repayment plan with varying annual repayment amounts based on the total amount owed and the annual income of the borrower (and that of the borrower's spouse, if a joint return is filed) paid over a period not to exceed 25 years. Parent PLUS Loans may be eligible for this plan, if part of a Direct Consolidation Loan. Borrowers must update income and family size each year
- An income-sensitive repayment plan in which monthly payments are based on annual income. Loan must be paid in full within 15 years.
- unemployment (up to three years)
- economic hardship or serving in the Peace Corps (up to three years)
- active duty military service in connection with a war, military operation, or national emergency or post-active duty service grace period
- a Parent PLUS Loan if parent borrower is enrolled at least half-time at an eligible college, in an eligible program
- cancer treatment

During periods of approved deferment, a Federal Direct Subsidized Loan borrower does not need to make payments of principal, and the interest is paid by the federal government. For the Federal Direct Unsubsidized or PLUS borrower, principal repayment may be deferred, but interest continues to accrue and is capitalized or paid by the borrower during that time.

## Forbearance

A direct loan borrower or endorser may receive forbearance (<https://studentaid.gov/manage-loans/lower-payments/get-temporary-relief/forbearance/>) from the federal government if the borrower or endorser is willing but unable to make scheduled loan payments. Forbearance is the temporary cessation of payments, an extension of time for making payments, or the temporary acceptance of smaller payments than previously scheduled. Forbearance may be granted for up to 12 months for reasons such as:

- financial difficulties
- medical expenses
- change in employment
- serving in a medical or dental internship or residency program
- the total amount a borrower owes each month for all student loans is 20 percent or more than the borrower's monthly gross income (up to three years)
- serving in an AmeriCorps position for which the borrower received a national service award
- qualifying for partial repayment of loans under the U.S. Department of Defense Student Loan Repayment Program
- performing teaching service that would qualify the borrower for teacher loan forgiveness
- a member of the National Guard and has been activated by a governor, but not eligible for military deferment
- other reasons acceptable to your direct loan servicer

During forbearance, interest will continue to accrue on the principal balance. If you do not pay the interest as it accrues, the unpaid interest will be capitalized, added to the principal balance of the loan.

Deferments and forbearance are handled by the assigned direct loan servicer. To locate the appropriate direct loan servicer, sign in to Federal Student Aid (<https://studentaid.gov/>).

If the borrower does not select one of these repayment plans, the Department of Education assigns the standard repayment plan. Visit the [website \(https://studentaid.gov/manage-loans/repayment/plans/\)](https://studentaid.gov/manage-loans/repayment/plans/) for details on all repayment plans.

The borrower's repayment liability is discharged if the borrower becomes permanently and totally disabled or dies or if the student for whom a parent has borrowed dies. Federal Direct Student Loans are generally not dischargeable in bankruptcy.

## Deferring Repayment

Repayment of a Federal Direct Student Loan that is not in default may be temporarily deferred for: (<https://studentaid.gov/manage-loans/lower-payments/get-temporary-relief/deferment/>)

- at least half-time enrollment in an eligible program at an eligible school
- an approved graduate fellowship program
- enrollment in an approved rehabilitation training program

## Public Service Loan Forgiveness

The Public Service Loan Forgiveness Program (PSLF) forgives the remaining balance on your direct loans after you have made 120 qualifying monthly payments under a qualifying repayment plan while working full-time for a qualified employer. More information about the PSLF program may be found on the Federal Student Aid (<https://studentaid.gov/manage-loans/forgiveness-cancellation/public-service/>).

## Federal Direct Consolidation Loan

Loan consolidation is a way of lowering monthly payments by combining several federal loans into one loan at the time of repayment. Borrowers may consolidate any amount of eligible loans including those borrowed under the Federal Family Education Loan program, the Federal Perkins Loan program, and the Direct Loan Program. The interest rate is fixed at the time of consolidation based on the weighted average of the loans being consolidated. Repayment of Consolidation loans may extend to 30 years depending on the repayment plan selected and the amount borrowed. The result of a longer repayment term, however, is an increase in the total cost of the loan. More information about Direct Loan Consolidation can be found on the Federal Student Aid (<https://studentaid.gov/app/launchConsolidation.action/>).

## Entrance and Exit Counseling

First-time Direct Subsidized, Unsubsidized, and Graduate PLUS Loan borrowers must complete entrance counseling before a loan disbursement can be made.

Shortly before graduating from or terminating enrollment at the University of Oregon, borrowers must also complete exit loan counseling.

Both entrance and exit counseling sessions are completed at Federal Student Aid (<https://studentaid.gov/>).

Federal bankruptcy law generally prohibits student loan borrowers from the routine discharge of their federal student loan debt.

## Alternative Loans

Privately funded loans are not based on need and no federal formula is applied to determine eligibility. However, the amount borrowed cannot exceed the cost of education minus other financial aid. Interest rates and repayment terms vary, but may be less favorable than those provided through the federal direct lending program. Private loans may be used to supplement the federal programs when the cost of education minus federal aid still leaves unmet need. Information is available in the Office of Student Financial Aid and Scholarships or on its website under Alternative Student Loans. ([http://financialaid.uoregon.edu/alternative\\_loans/](http://financialaid.uoregon.edu/alternative_loans/))

## Debt Management and Default Reduction

The University of Oregon is committed to helping students achieve sound financial planning and debt management. Information about loans, repayment options, and debt management strategies are available in the Office of Student Financial Aid and Scholarships, on its website (<https://financialaid.uoregon.edu/>), and additional resources are available through the UO Financial Wellness Center (<https://financialwellness.uoregon.edu/>).

## Scholarships

### Scholarships Awarded by a Department or School

Undergraduate and graduate students who have selected a major field of study should consult the appropriate school or department about possible scholarships and application procedures and requirements.

Many departments offer assistantships and fellowships—which include an instructional fee waiver, a monthly salary, and health insurance benefits—to outstanding graduate students.

### National ROTC Scholarships

The Army Reserve Officers Training Corps (ROTC) Scholarship Program sponsors two-, three-, and four-year scholarship options based on the time remaining to complete a degree. These scholarships include full tuition and fees or the option for room and board in place of tuition and fees. It also provides an additional book allowance of \$1,200 per year, and a monthly living allowance of \$420 per month. The University of Oregon also provides an additional subsidy for a portion of the housing cost to qualifying students. For more information, contact the Department of Military Science at 541-346-3102 or email [mcmahond@uoregon.edu](mailto:mcmahond@uoregon.edu). High school seniors may also apply online (<https://www.goarmy.com/rotc.html/>) for a four-year Army ROTC National Scholarship or contact their school's career counselor.

### National and Community Service Trust Act

This legislation created Americorps, which gives citizens the opportunity to perform community service in the United States and, for that service, receive an education award. This award can be used to pay for postsecondary education or to repay qualified student loans. Information about Americorps is available online.

### Scholarships Awarded through the Office of Student Financial Aid and Scholarships

#### Stamps Scholarship

The Stamps Scholarship is awarded competitively to outstanding incoming domestic freshman students. Oregon resident Stamps Scholars receive UO resident tuition and fees with room and board for four years of undergraduate study. Out-of-state recipients receive nonresident tuition and fees. Approximately 10 students per year are awarded this merit-based scholarship by the University of Oregon in partnership with the Stamps Scholars Program. Recipients also benefit from as much as \$12,000 in enrichment funds to be used over four years to help them pursue study abroad, unpaid internships, or other experiences. In addition, students who receive a Stamps Scholarship are automatically granted admission to the University of Oregon's Robert Donald Clark Honors College.

#### Eligibility Requirements

To apply and compete for this scholarship for the 2023-24 school year, a student must:

- be an incoming domestic freshman
- have a minimum 3.85 cumulative high school grade point average on a 4.00 scale
- exemplify leadership, perseverance, scholarship, service, and innovation

Interested students may apply online. Students must apply for admission by November 1 and submit their Stamps application by November 15.

Scholarship applications will be evaluated along with the Self Reported Academic Record included in the applicant's UO Undergraduate Admissions Application.

The University of Oregon interviews as many as 36 semifinalists in on-campus interviews; finalists will also be interviewed by the Stamps Scholars Program. The Stamps Scholars Program will make the final selection of the recipients, who are notified by March 15.

### Scholarship Renewal

Stamps Scholarships are available for up to 12 terms, renewed annually, provided recipients meet the following requirements:

- Enroll in and complete a minimum of 12 UO credits per term
- Maintain a 3.25 UO grade point average

See the [financial aid website \(http://financialaid.uoregon.edu/stamps\\_scholarship/\)](http://financialaid.uoregon.edu/stamps_scholarship/) for applications and filing deadlines.

### Presidential Scholarship

In 1983, the university established the Presidential Scholarship Program to recognize and reward outstanding Oregon high school graduates. Presidential Scholarships awarded in 2023-24 will be \$9,000 a year for four years (12 terms).

For the 2023-24 year, incoming resident freshman students must submit the Presidential Scholarship application on our website by Feb 1 in addition to applying for admission by January 15.

Selection is based on academic achievement and leadership. To retain the scholarships for four years, recipients are expected to maintain a 3.25 grade point average at the university.

### Diversity Excellence Scholarship

The University of Oregon Diversity Excellence Scholarship recognizes undergraduate and graduate students who enhance the educational experience of all students by sharing diverse cultural experiences. These tuition-remission scholarships are an integral part of the university's effort to meet the educational-diversity needs of its students, and they complement other programs in the UO diversity plan.

Diversity Excellence Scholarships awarded to undergraduates in 2023-24 will be \$7,500. Scholarships are renewable for up to 12 terms for entering freshmen, and are prorated for transfer and continuing students. Recipients must meet specific scholarship renewal requirements to retain their scholarships.

**Scholarship Criteria.** To be considered for this scholarship for the 2023-24 school year, an applicant must be a currently enrolled UO student with at least a 3.00 GPA, or apply for admission and meet standard UO admission requirements and have a 3.00 high school GPA. Scholarship recipients are selected competitively by the UO Diversity Excellence Scholarship Selection Committee, based on the following:

- Past academic performance
- Participation in campus or community activities
- An individual's ability to contribute to diversity
- Preference given to students with financial need as defined by federal and state guidelines

- Preference given to first generation of the family to attend college
- Preference given to Oregon residents

**Application.** The application is electronic and the submission deadline for the 2023-24 Diversity Excellence Scholarship is February 1 for incoming freshman and March 1 for continuing UO students. The application deadline for transfer students is April 1. Applications are available within the UO Scholarship Dashboard on the Office of Student Financial Aid and Scholarships website.

### General University Scholarships

This group of university scholarships is not attached to a particular department or school. Detailed information is available on the financial aid website. All of these scholarships require academic achievement (merit). Some of them require financial need. Scholarships administered by this office are governed by the University Scholarship Committee, whose members are drawn from the faculty, the staff, and the student body. This committee reviews and formulates policies and evaluates applicants' academic qualifications.

A single application form is used for all the scholarships in this group. The application portal is available on the financial aid website for returning students. Applicants must provide copies of academic transcripts from schools they have attended.

For the 2023-24 year, prospective students entering from high school need only to apply for admission by the January 15 deadline to be considered for scholarships in this group. For students transferring from another college, the deadline to apply for admission is March 15 and the deadline to submit a scholarship application and supporting documents is April 1. Incoming graduate, law, and continuing UO students must apply by March 1.

When awarding financial assistance, the university does not discriminate on the basis of race, sex, religion, disability, age, national origin, veteran or marital status, or sexual orientation.

### National Merit Scholarships

The University of Oregon participates with the National Merit Scholarship Corporation to award merit-based scholarships to incoming freshman students. Interested high school students should consult with their counselors and arrange to take the Preliminary Scholastic Assessment Test (PSAT) in their junior year. This test is usually offered during October.

### UO Excellence Scholarship

The UO Excellence Scholarship for incoming freshman students in 2023-24 is awarded only to out-of-state scholars, with a \$60,000 payout over four years.

Out-of-state freshmen with exceptional admissions applications and stellar academic records will automatically be considered for the UO Excellence Scholarship. A limited number of these most prestigious awards are available.

**Award Information.** Out-of-state students receive \$15,000 per year for four years. The UO Excellence Scholarship may be combined with other scholarships, including the Diversity Excellence and General University Scholarships. The UO Excellence Scholarships may not be combined with the Summit Scholarship or the Apex Scholarship.

**Application Procedures.** Students who apply for admission by January 15 and meet the criteria are automatically considered for the UO Excellence Scholarship. No separate application is required.

**Scholarship Renewal.** UO Excellence Scholarships are renewable for up to 12 academic terms (excluding summer session) within a five-year period. Renewal awards require a minimum 3.00 cumulative UO GPA and completion of 36 credits per year.

## Summit Scholarship

The Summit Scholarship for incoming freshman students in 2023-24 is awarded to Oregon resident scholars with a \$20,000 payout over four years, and to out-of-state scholars with a \$40,000 payout over four years.

### Scholarship Criteria for 2023-24

- minimum 3.90 high school GPA on a 4.00 scale

Students who fail to meet the above criteria may qualify instead for the Apex Scholarship.

**Award Information.** Oregon residents receive \$5,000 per year for four years. Out-of-state students receive \$10,000 per year for four years. The Summit Scholarship may be combined with other scholarships, including the Presidential, Diversity Excellence, and General University Scholarships. Summit Scholarships may not be combined with the UO Excellence Scholarship or the Apex Scholarship.

**Application Procedures.** Students who apply for admission by January 15 and meet the criteria are automatically awarded the Summit Scholarship. No separate application is required. Application materials must be received by the February 15 document deadline.

Students whose high school GPA improves sufficiently to make them eligible for the Summit Scholarship by the February 15 document deadline should update their Self Reported Academic Record via the Admissions Portal. They will be notified of changes by April 1. New scholarship awards will not be made based on materials received after February 15.

**Scholarship Renewal.** Summit Scholarships are renewable for up to 12 academic terms (excluding summer session) within a five-year period. Renewal awards require a minimum 3.00 cumulative UO GPA and completion of 36 credits per year.

## Apex Scholarship

The Apex Scholarship for incoming freshman in 2023-24 is awarded to Oregon resident scholars with a \$8,000 payout over four years, and to out-of-state scholars with \$30,000 over four years.

### Scholarship Criteria for 2023-24

- minimum 3.70 high school GPA on a 4.00 scale

Students whose GPA and test scores are higher than the above criteria may instead qualify for the Summit Scholarship.

**Award Information.** Oregon residents receive \$2,000 per year for four years. Out-of-state students receive \$7,500 per year for four years. The Apex Scholarship may be combined with other scholarships, including the Presidential, Diversity Excellence, and General University Scholarships. Apex Scholarships may not be combined with the UO Excellence Scholarship or the Summit Scholarship.

**Application Procedures.** Students who apply for admission by January 15 and meet the criteria are automatically awarded the Apex Scholarship. No separate application is required. Application materials, must be received by the February 15 document deadline.

Students whose high school GPA improves sufficiently to make them eligible for the Summit Scholarship by the February 15 document deadline should update their Self Reported Academic Record via the Admissions Portal. They will be notified of changes by April 1. New scholarship awards will not be made based materials received after February 15.

**Scholarship Renewal.** Apex Scholarships are renewable for up to 12 academic terms (excluding summer session) within a five-year period. Renewal awards require a minimum 3.00 cumulative UO GPA and completion of 36 credits per year.

## Pathway Oregon

PathwayOregon is the University's promise of full tuition and fees for Oregon residents who are academically qualified and eligible for the Federal Pell Grant. Eligible students will have their tuition and fees covered by a combination of federal, state, and university grants and scholarships for up to four years. Students also receive the academic and personal support that enable them to succeed and graduate from the UO within 12 terms.

To be automatically eligible for PathwayOregon, students must:

- be Oregon residents, have graduated from an Oregon high school in the last two years, and be admitted to the UO as first-time freshmen
- complete a UO admissions application by January 15
- establish Federal Pell Grant eligibility by filing the Free Application for Federal Student Aid (FAFSA) by the March 1 deadline (include the UO code **003223** as a college choice)
- earn a minimum 3.40 high school GPA

Students who earn less than a 3.40 high school GPA but meet all other program eligibility criteria will be considered for the program on a space and funding-available basis.

### Renewal Criteria

- Remain eligible for a Federal Pell Grant
- File the FAFSA by March 1
- Enroll for and maintain full-time attendance
- Make satisfactory academic progress

# Academic and Career Planning

## Advising

Office of Academic Advising (<http://advising.uoregon.edu>)

101 Oregon Hall

The University of Oregon offers undergraduate students a choice of more than 2,000 courses. Out of these courses individualized programs emerge, reflecting each student's special interests, goals, and aspirations. Translating these goals and interests into courses, majors, and minors requires careful planning with an academic advisor. University

of Oregon advisors collaborate with students to help them achieve their personal goals, academic potential, and professional success.

Advisors provide students with a declared major a framework in which planning and decision-making may be efficiently completed. Exploring students should work with advisors early and often to explore interests.

Students are strongly urged to consult advisors regularly each term. Students are also encouraged to speak with faculty members regularly.

Faculty can provide insight, guidance and mentorship within their areas of discipline and research.

The Office of Academic Advising supports new students in their transition to the university, as well as any student seeking guidance to achieve academic success. The office works closely with students in academic distress who may need particular assistance around navigating campus resources.

### General Principles in Program Planning

1. To earn a degree in four years (12 terms), students should average 15 credits a term. In planning a term's studies, students should anticipate that each credit requires at least three hours a week for class meetings or homework
2. Each term's schedule should be planned to include the university bachelor's degree requirements and requirements for the major. Major requirements are listed in this catalog under the academic department headings. Students who have not selected a major should spend some time exploring possible majors
3. Students should read the course descriptions in this catalog and the notes in the class schedule to learn course pre- or corequisites
4. Many university major disciplines and courses require competence in mathematics. Mathematics should be started in the first year
5. A second language, whether required or elective, should also be started in the first year if possible. Students planning to study abroad on an international exchange program during the sophomore or junior year should achieve competence in a language early
6. Each student should prepare a four-year model program of courses and discuss the program with an advisor
7. New students might want to explore some special curricular programs such as Freshman Interest Groups and Academic Residential Communities, and should be investigated prior to or during orientation
8. Sound planning is necessary to design a program that combines courses demanding extensive reading, daily exercises, laboratory work, and lengthy papers
9. Planning might also include the use of university resources for improving skills in reading, computation, note-taking, test-taking, and writing.

### Academic Majors, Minors, and Careers

University of Oregon undergraduate students must complete at least one academic major to graduate. A minor is another way to focus studies toward career and interest areas. Inquiries about minors should be directed to specific departments.

### Willie and Donald Tykeson Hall (<https://advising.uoregon.edu/tykeson/>)

Willie and Donald Tykeson Hall, the college and careers building, offers students an integrated academic and career service model within the Tykeson College and Career Advising (TCCA) office. TCCA serves students pursuing, or interested in, a degree within the College of Arts and Sciences. Tykeson advisors help students plan their academic

course of study to align with academic and career goals, as well as each student's values, skills, and interests

## Career Planning

### University Career Center (<https://career.uoregon.edu/>)

Willie and Donald Tykeson Hall

The University Career Center, a unit of the Division of Student Life, exists to support the career readiness, preparation, and professional development of UO students. Students have an opportunity to learn about career options and paths, develop strategies to find and prepare for part-time jobs, internships, and full-time career opportunities, and meet potential employers. See also University Career Center in the Academic Resources and Student Services (p. 656) section of this catalog.

# Undergraduate Programs

---

University of Oregon undergraduate students must complete an academic major to graduate; they may also complete additional majors, minors, or both.

Minimum requirements are 36 credits in the major, including 24 in upper-division work. Specific requirements are listed under individual departments. Concentrations within majors are additional ways of focusing academic interests, but they do not appear on academic transcripts.

Students choosing to complete a minor must earn a minimum of 24 credits, including 12 in upper-division work. Minor requirements are listed under individual departments. A minor will be awarded only at the time a bachelor's degree is conferred.

Students choosing to complete an undergraduate certificate must earn a minimum of 36 credits, including 24 upper-division with 12 minimum at the 400-level. A certificate will be awarded only at the time a bachelor's degree is conferred.

 Writing, Public Speaking, and Critical Reasoning (p. 111)

# Graduate Programs

The University of Oregon offers graduate level study in a wide range of subjects. There are no minors in graduate degree and certificate programs, but students may pursue a graduate certificate or specialization alongside their degree program. Graduate Microcredentials are only available as standalone programs for non-degree students. For information about law degrees, see the School of Law section of this catalog.

*Those programs through which a master's degree is only attainable en route to a doctoral degree are marked with an asterisk (\*).*

## Graduate Certificate

Communication Ethics (p. 557)  
 Early Intervention—Early Childhood Special Education (p. 541)  
 Ecological Design (p. 453)  
 Environmental Humanities (p. 330)  
 Indigenous, Race, and Ethnic Studies (p. 394)  
 Institutional and Organizational Conflict Management (p. 567)  
 Museum Studies (p. 487)  
 Music Performance (p. 630)  
 New Media and Culture (p. 488)  
 Nonprofit Management (p. 501)  
 Russian, East European, and Eurasian Studies (p. 187)  
 School Psychology (p. 541)

Technical Teaching in Architecture (p. 454)  
Women's, Gender, and Sexuality Studies (p. 417)

## Graduate Specializations

Advanced Strategy and Leadership (p. 436)  
African Studies (p. 297)  
Architectural Technology (p. 454)  
Asian Studies (p. 311)  
Collaborative Piano (p. 630)  
Educational Data Science (p. 528)  
Environmental Conflicts: Climate Change (p. 568)  
Environmental Conflicts: Land Use (p. 568)  
Environmental Conflicts: Water (p. 568)  
Ethnomusicology (p. 630)  
Finance and Securities Analysis (p. 437)  
Folklore and Public Culture (p. 117)  
Food Studies (p. 334)  
Historical Performance Practice (p. 631)  
Housing (p. 454)  
Innovation and Entrepreneurship (p. 437)  
Interior Architecture (p. 454)  
Jazz Pedagogy (p. 631)  
Music Theory Pedagogy (p. 631)  
Neuroscience (p. 279)  
Piano Pedagogy (p. 631)  
Politics, Culture, and Identity (p. 112)  
Prevention Science (p. 518)  
Quantitative Research Methods (p. 528)  
Regional and International Conflict (p. 568)  
Spanish Language Psychological Service and Research (p. 518)  
Sports Business (p. 437)  
Sustainable Business Practices (p. 438)  
Translation Studies (p. 182)  
Urban Architecture and Urban Design (p. 454)  
Urban Historic Preservation (p. 454)  
Violin/Viola Pedagogy (p. 631)

## Graduate Microcredential

Child Behavioral Health (p. 634)

# Core Education Courses

**Area of Inquiry** and **Cultural Literacy** courses count toward partial fulfillment of bachelor's degree requirements under the groups and categories listed in each section.

## Arts and Letters

Arts & Letters (A&L) courses will create meaningful opportunities for students to engage actively in the modes of inquiry that define a discipline. Courses will be broad in scope and demonstrably liberal in nature (that is, courses that promote open inquiry from a variety of perspectives). Though some courses may focus on specialized subjects or approaches, there will be a substantial course content locating that subject in the broader context of the major issues of the discipline. Qualifying courses will not focus on teaching basic skills but will require the application or engagement of those skills through analysis and interpretation.

Courses that count towards either the Arts and Letters Area or fulfill the 2nd language requirement for the Bachelor of Arts degree can be found in the list at the bottom of this page. [Click here to see that list.](#) (p. 47)

| Code     | Title                                   | Credits |
|----------|-----------------------------------------|---------|
| ARB 331  | Reading Classical Arabic                | 4       |
| ARB 353  | Arab Cinema                             | 4       |
| ARH 150  | Introduction to Visual Culture          | 4       |
| ARH 204  | History of Western Art I                | 4       |

## Social Science

Social Science (SSC) courses will be liberal in nature rather than being professionally oriented or limited to the performance of professional skills. They will cover a representative cross-section of key issues, perspectives, and modes of analysis employed by scholars working on the subject matter addressed by the course. The subject matter of the course will be relatively broad, e.g., involving more than one issue, place, or time.

| Code     | Title                                                  | Credits |
|----------|--------------------------------------------------------|---------|
| AFR 215  | Introduction to African Studies                        | 4       |
| ANTH 114 | Anthropology of Pirates and Piracy                     | 4       |
| ANTH 119 | Anthropology and Aliens                                | 4       |
| ANTH 150 | World Archaeology                                      | 4       |
| ANTH 161 | Introduction to Cultural Anthropology                  | 4       |
| ANTH 165 | Sexuality and Culture                                  | 4       |
| ANTH 209 | Business Anthropology                                  | 4       |
| ANTH 223 | Anthropology of Chocolate                              | 4       |
| ANTH 311 | Anthropology of Globalization                          | 4       |
| ANTH 315 | Gender, Folklore, Inequality                           | 4       |
| ANTH 320 | Native North Americans                                 | 4       |
| ANTH 322 | Anthropology of the United States                      | 4       |
| ANTH 329 | Immigration and Farmworkers                            | 4       |
| ANTH 330 | Hunters and Gatherers                                  | 4       |
| ANTH 331 | Cultures of India and South Asia                       | 4       |
| ANTH 342 | Archaeology of Egypt and Near East                     | 4       |
| ANTH 343 | Pacific Islands Archaeology                            | 4       |
| ANTH 344 | Oregon Archaeology                                     | 4       |
| ANTH 345 | Archaeology of East Asia                               | 4       |
| ANTH 346 | Archaeology of Southeast Asia                          | 4       |
| ANTH 373 | Psychoactive Substances in Ancient Societies           | 4       |

## Science

Science (SC) area-satisfying courses will introduce students to the foundations of one or more scientific disciplines, or should provide an

introduction to fundamental methods (such as mathematics) that are widely used in scientific disciplines. Courses will introduce students to the process of scientific reasoning.

Courses that count towards either the Science Area or the Bachelor of Science can be found listed at the bottom of this page. Click here to see that list. (p. 52)

| Code     | Title                                                | Credits |
|----------|------------------------------------------------------|---------|
| ANTH 110 | Introduction to Traditional Ecological Knowledge     | 4       |
| ANTH 145 | Principles of Archaeology                            | 4       |
| ANTH 163 | Origins of Storytelling                              | 4       |
| ANTH 170 | Introduction to Human Origins                        | 4       |
| ANTH 171 | Introduction to Monkeys and Apes                     | 4       |
| ANTH 173 | Evolution of Human Sexuality                         | 4       |
| ANTH 175 | Evolutionary Medicine                                | 4       |
| ANTH 176 | Introduction to Forensic Anthropology                | 4       |
| ANTH 220 | Introduction to Nutritional Anthropology             | 4       |
| ANTH 225 | Evolution of Play                                    | 4       |
| ANTH 248 | Archaeology of Wild Foods                            | 4       |
| ANTH 255 | Atlantis, Aliens, and Archaeology                    | 4       |
| ANTH 260 | Domestic Animals                                     | 4       |
| ANTH 270 | Introduction to Biological Anthropology              | 4       |
| ANTH 274 | Animals and People                                   | 4       |
| ANTH 278 | Science, Race, and Society                           | 4       |
| ANTH 332 | Human Attraction and Mating Strategies               | 4       |
| ANTH 340 | Fundamentals of Archaeology                          | 4       |
| ANTH 341 | Food Origins                                         | 4       |
| ANTH 349 | Origins of Art                                       | 4       |
| ANTH 361 | Human Evolution                                      | 4       |
| ANTH 362 | Human Biological Variation                           | 4       |
| ANTH 369 | Human Growth and Development                         | 4       |
| ANTH 376 | Decoding Your Genome                                 | 4       |
| ASTR 121 | The Solar System                                     | 4       |
| ASTR 122 | Birth and Death of Stars                             | 4       |

## Bachelor of Science Mathematics and Science Area Requirements

*Courses that are used to demonstrate proficiency in mathematics or in computer science or in a combination of the two for the bachelor of science degree may not also be used to fulfill the science area requirement.*

| Code      | Title                                           | Credits |

## United States: Difference, Inequality, and Agency

These courses fulfill the *United States: Difference, Inequality, and Agency* category of the Cultural Literacy Core Education requirement, a requirement informed by UO student activism. It is meant to develop students' analytical and reflective capacities to help them understand and ethically engage with the ongoing (cultural, economic, political, social, etc.) power imbalances that have shaped and continue to shape the United States. In addition to considering the scholarship, cultural production, perspectives, and voices from members of historically marginalized communities, students in DIA courses:

1. **Inquire** into intersecting aspects of identity such as race, gender, gender identity, sexuality, socioeconomic status, indigeneity, national origin, religion, or ability;
2. **Analyze** uses of power to marginalize on the basis of identity, as well as the assertions of agency, resistance, and resilience by marginalized groups; and
3. **Examine** historical and contemporary structures, forms of knowledge, cultural practices, or ideologies that perpetuate or change the distribution of power in society.

and undertake one or more of the following:

- **Reflect** on one's own multiple social identifications and on how they are formed and located in relation to power.
- **Practice respectful listening and ethical dialogue** around deeply felt or controversial issues.

| Code     | Title                                          | Credits |

## Global Perspectives

These courses fulfill the *Global Perspectives* category of the Cultural Literacy Core Education requirement. A Global Perspectives course aims to foster student encounter with and critical reflection upon cultures, identities, and ways of being in global contexts beyond the United States.

Students will consider substantial scholarship, cultural production, perspectives, and voices from members of communities under study, as sources permit. In Global Perspectives courses, students will do one or more of the following:

1. **Engage** texts, literature, art testimonies, practices, or other cultural products that reflect systems of meaning or beliefs beyond the U.S. context;
2. **Analyze** power relations involving different nations, peoples, and identity groups or world regions;
3. **Examine** hierarchy, marginality, or discrimination based on race, ethnicity, gender, gender identity, religion, sexuality, nationality, or ability (or some combination of these).

and undertake one or more of the following:

- **Discuss** possibly unfamiliar topics using critical vocabulary and concepts.
- **Practice respectful listening and civil dialogue** around controversial issues.

| Code     | Title                                            | Credits |
|----------|--------------------------------------------------|---------|
| AFR 215  | Introduction to African Studies                  | 4       |

# College of Arts and Sciences

**Christopher J. Poulsen, Dean**

541-346-3902

401 Tykeson Hall

The College of Arts and Sciences is the academic and intellectual hub of the University of Oregon, providing a core liberal arts curriculum to the vast majority of UO undergraduates—including those who will go on to earn a degree in one of the professional schools such as journalism or business.

The University of Oregon was founded in 1876 on a liberal arts curriculum, which has evolved over time to meet the needs of contemporary students. The fundamental academic mission of the College of Arts and Sciences is to foster a solid and broad general education, which includes the cultivation of quantitative, analytical, and communication skills; an understanding of social and intellectual history; an appreciation of literary and artistic expression; and habits of creative and critical thinking.

Building on its foundational undergraduate curriculum, the college offers 50 major degree programs in the humanities, social sciences, and natural sciences. Moreover, the College of Arts and Sciences is the heart of the university's research enterprise. The college has almost 900 faculty members, including teaching specialists and research scholars who are engaged in active research programs and make original contributions to their respective fields of knowledge. Because of this, students have the opportunity to learn from leading researchers while receiving a liberal arts education that prepares them to be successful global citizens in the 21st century.

Students in the College of Arts and Sciences can take advantage of integrated academic and career advising to help them set their path forward, through a full set of services located in Willie and Donald Tykeson Hall. See "Advising" below for details.

## Liberal Education

Social, political, and economic change is accelerating at a phenomenal pace, and career paths are evolving in response to these changes. When surveyed, employers say they place high value on critical thinking and problem solving; oral and written communication; teamwork and collaboration; adaptability to new and emerging technologies; leadership skills to guide, motivate, prioritize, and delegate work; and global and intercultural fluency. These are the very skills and knowledge that students gain from a liberal arts education.

No matter what their specific career paths, all UO students benefit from an educational foundation that emphasizes how values, history, and context combine with creative thought and informed inquiry to determine the best way forward, in both professional and civic life. A liberal arts education provides an essential framework for a lifetime of learning, work and growth in a world where many professions are undergoing profound, sweeping transformations.

## Humanities

The departments and programs of the Humanities Division are committed to the study of human meaning as it is expressed in diverse languages,

explained in diverse literatures, and reflected upon from diverse philosophical and religious perspectives. Students seek to understand the values and purposes that make practices and systems worthwhile. In an increasingly interconnected world, the ability to critically consider how individuals and communities make sense of their world is an essential skill.

[aei@uoregon.edu](mailto:aei@uoregon.edu)

Since 1978, the American English Institute (AEI) has been a leader in English language teaching, research, and service on the University of Oregon campus and around the world. The American English Institute, as a unit of the College of Arts and Sciences, serves the educational mission of the University of Oregon through scholarship, English language instruction, and English language professional training. The AEI champions the University's mission of internationalization and is a leader in helping achieve the University's goals for diversity and student success. The AEI supports the University in the integration of international students into all aspects of campus life and collaborates with faculty across campus toward creating a successful academic experience for all international students. The AEI offers:

- English language training
  - General English and culture
  - English for specific purposes
  - English for academic purposes
- In-country program development
- Online, in person, and hybrid teacher training programs
- Professional services related to teaching English and professional development

## Faculty

Edward Adamson, instructor (academic vocabulary, writing and grammar). BA, 1997, Wisconsin, Madison; MEd, 2006, Minnesota, Twin Cities. (2011)

John Busch, instructor (English linguistics, reading and vocabulary). BA 1982, Minnesota, Twin Cities; MA, 2007, Oregon. (2013)

Thomas Delaney, senior instructor (Teaching English to speakers of other languages, testing and assessment, differences in language learning); Academic English for International Speakers coordinator. BA, 1994, Loyola Marymount; MA, 1998, Monterey Institute of International Studies; PhD, 2009, Auckland. (2006)

Nancy C. Elliott, senior instructor (oral communication skills, English dialectology and sociolinguistics). BA, 1982, MA, 1986, Kansas; PhD, 2000, Indiana, Bloomington. (2010)

Robert K. Elliott, instructor (pronunciation and intonation, international GE training, distance education). BA, 1988, California, Los Angeles; MA, 1994, San Francisco State. (2007)

Alicia R. Going, senior instructor II. BA, 1987, Seattle; MA, 1995, School for International Training. (2003)

Monica Hatch, instructor (academic English for international students). BA, 1994, Georgia; MA, 2011, Georgia State. (2011)

Char Heitman, senior instructor (teacher training, cross-cultural communication, oral skills and fluency). BA, 1988, Northern Iowa; MA, 1993, Iowa. (1997)

Jessica Lynch, senior instructor (intensive English instruction, academic English for international students, assessments). BA, 2006, Oregon; MA, 2008, New Mexico State. (2011)

Tonya Mildon, instructor (academic writing, academic oral communication, academic success). BA, 1990, Washington (Seattle); MA, 2000, Central Washington. (2011)

Sueanne Parker, senior Instructor (grammar, critical reading, test preparation). BA, 2001, Western Washington; MA, 2005, Seattle Pacific. (2006)

Patricia Pashby, senior instructor (second-language teaching, teacher training, vocabulary acquisition); coordinator, international graduate teaching fellow program. BA, 1987, MA, 1990, San Francisco State; EdD, 2002, San Francisco. (2001)

Lara M. Ravitch, senior instructor (curriculum design, assessment, content-based instruction). BA, 1998, Connecticut College; MA, 2002, Monterey Institute of International Studies. (2011)

Jennifer Rice, senior instructor II (English as a second language oral-aural skills, curriculum and materials design, objectives-based course assessment). BS, 2000, Ashland; MA, 2002, Western Oregon. (2010)

Korey Rice, senior instructor (discussion skills assessment, curriculum development). BA, 1999, Ashland; MS, 2004, Shenandoah. (2004)

Robin Rogers, senior instructor (curriculum development, materials writing, assessment procedures). BS, 2001, George Fox; MA, 2006, Seattle Pacific. (2010)

Janine Sepulveda, senior instructor II (reading, writing, grammar). BA, 1991, Oregon; MA, 1995, Monterey Institute of International Studies. (1995)

Beth Sheppard, senior instructor II (speaking and listening instruction). BA, 2002, California, Berkeley; MA, 2008, Oregon. (2008)

Thomas Tasker, senior instructor (academic reading and writing, curriculum development). MA, 1992, Illinois, Chicago. (2013)

Misti Williamsen, senior instructor (academic reading and writing, curriculum development, listening and speaking instruction). BA, 2005, MA, 2010, Oregon. (2010)

*The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.*

## Emerti

Laura G. Holland, senior instructor (intensive English-language teaching, teacher training, online distance education). BS, 1981, Wheelock College; MA, 1991, Columbia. (2010)

## Cinema Studies

### Priscilla Peña Ovalle, Department Head

541-346-8104  
541-346-8144 fax  
201 McKenzie Hall  
6223 University of Oregon  
Eugene, Oregon 97403-6223  
cinema@uoregon.edu

The UO's Department of Cinema Studies offers a one-of-a-kind opportunity to explore every facet of the world of moving images. Students become skilled producers of images as well as responsible consumers and thoughtful critics. While traditional film schools teach students how to make movies, UO cinema students approach film, television and new media from a variety of disciplinary angles and perspectives. Our interdisciplinary department teaches the creative and technical aspects of storytelling as well as the broader historical, philosophical, and geopolitical contexts of this industrial art form.

Because cinema is inherently multidisciplinary, students take a diverse array of courses in history, theory, criticism, and aesthetics as well as in digital production. Students take classes across campus from a variety of departments and programs in the College of Arts and Sciences, the School of Journalism and Communication, and the College of Design.

## Faculty

Peter Alilunas, associate professor (cinema studies). BA, 2006, Oregon; MA, 2008, Texas, Austin; PhD, 2013, Michigan. (2014)

Michael G. Aronson, associate professor (cinema studies). BA, 1994, Pennsylvania; MA, 1997, PhD, 2002, Pittsburgh. (2003)

Michael Bray, instructor (digital arts, cinema). BA, 1997, Illinois, Urbana-Champaign; MFA, 2008, Oregon. (2008)

Sangita Gopal, associate professor (cinema studies). BA, 1990, Calcutta; MA, 1995, PhD, 2000, Rochester. (2004)

Erin Hanna, associate professor (cinema studies). BA, 2004, MA 2007 York (Toronto); PhD, 2014, Michigan. (2014)

Masami Kawai, assistant professor (cinema studies). BA, 2003, Hampshire College; MFA, 2013, California, Los Angeles. (2014)

Dong Hoon Kim, associate professor (cinema studies). BA, 1998, Yonsei; MA, 2002, PhD, 2008, Southern California. (2011)

Kevin May, instructor (cinema studies); multimedia assistant. BA, 2006, MEd, 2010, Oregon (2016)

HyeRyoung Ok, instructor (cinema studies). BA, 1996, MA, 2000, Seoul National; MA, 2002, New York; PhD, 2008, Southern California. (2011)

Priscilla Peña Ovalle, associate professor (cinema studies, ethnic studies). BS, 1998, Emerson College; MA, 2001, PhD, 2006, Southern California. (2006)

Ari Purnama, assistant professor (cinema studies). BA, 2007, Padjajaran; MA, 2011, PhD, 2019, Groningen. (2020)

Andre Sirois, senior instructor (cinema studies); multimedia supervisor. BA, 2002, Central Connecticut State; MA, 2005, Maine; PhD, 2011, Oregon. (2012)

Daniel Gómez Steinhart, associate professor (cinema studies). BA, 2000, Wesleyan; MA, 2006, PhD, 2013, California, Los Angeles. (2014)

*The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.*

## Appointed Faculty

Michael Allan, comparative literature

Gabriela Martinez, journalism and communication

## Affiliated Faculty

Kenneth S. Calhoon, comparative literature

Daniel L. Miller, journalism and communication

Kate Mondloch, history of art and architecture

Elizabeth M. Peterson, library

Stephen Rust, English

Biswarup "Bish" Sen, journalism and communication

Rick Silva, art

Janet Wasko, journalism and communication

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Identify, define, and apply the vocabulary used to describe and analyze the aesthetics of media. This vocabulary anchors the analytical (ideological, historical, etc.) and artistic work of the Cinema Studies curriculum.
- Historically and contextually analyze a broad range of media from newspapers to newer media to think critically about its intersections, institutions, functions, and social impacts.
- Show a basic knowledge of cinema which includes film, television, and newer media by identifying and describing the technological,

artistic, and cultural histories of media in various national contexts while building researching and writing skills.

- Create, present, and constructively critique narrative films, documentaries, or video art pieces. Students will learn the basics of pre-production, production, and post-production to gain an overview of the film and art making process. Using critical thinking skills, students will develop and refine their creative and technical choices while navigating workflow standards.
- Develop artistic skills in specific areas such as screenwriting, directing, lighting, sound recording, and editing to enhance their creative, theoretical, and technical understanding of moving image production. Students will specialize in a craft that enhances their personal creative voice and critical thinking skills.
- Identify and analyze important structures including economic, industrial, legal, political, or regulatory forces that shape the production, distribution, or exhibition of cinema. Students use critical and creative thinking, writing, and/or research skills to develop analytical projects about cinema.
- Perform critical, formal, and cultural analyses of cinematic texts. Using theories specific to cinema studies, students may identify change and continuities in discourses of the auteur, star, genre, etc., or situate texts within intersectional contexts. Students will use critical and creative thinking, writing, and/or research skills to develop analytical projects about cinema.
- Identify and analyze international/transnational/global modes of production, circulation, and aesthetics, then contextualize them broadly or more specifically according to the nation or region. Students will use critical and creative thinking, writing, and/or research skills to develop analytical projects about cinema.
- Exhibit specialized skills in writing, critical thinking, and/or creative practice through capstone seminars, workshops, and/or professionalization courses. Students may also apply the methods of other disciplines to complement cinematic analyses.

## Undergraduate Studies

The department offers bachelor of arts (BA) and bachelor of science (BS) degree programs, consisting of 56 credits divided among four categories: fundamentals, production, core courses, and electives. The major includes the option of graduating with honors.

Courses in the major must be taken for a letter grade, and students must earn a grade of mid-C or better for credit toward the major. At least 28 credits must be taken in residence at the University of Oregon.

## Cinema Studies Major Requirements

- 1 Fundamentals courses (16 credits) introduce majors to three central approaches to cinema studies: historical, social-institutional, and aesthetic. These must be completed before entry into production courses.
  - Students must complete Media and Society (J 201), Media Aesthetics (CINE 260M), and two of the three courses in the history sequence, History of the Motion Picture I (CINE 265), History of the Motion Picture II (CINE 266), and History of the Motion Picture III (CINE 267)], which may be taken in any order. Completion of all fundamentals courses is required before taking any production courses.
- 2 Production courses (8 credits: 4 from Production A and 4 from Production B) give majors a chance to learn the essentials of media production.
  - After completing the fundamentals requirements, students may enroll in a Production A course [Introduction to Production (ARTD 256), Introduction to Narrative Cinema Production (CINE 270), or Introduction to Documentary Production (J 208)].
  - After successful completion of a Production A course, students are eligible to register for Production B courses [various topics in production; please see term course list (<http://cinema.uoregon.edu/term-course-lists/>) (<http://cinema.uoregon.edu/term-course-lists/>) for offerings].
- 3 Core courses (24 credits) strengthen students' understanding of cinema as a dynamic, multicultural, and transnational phenomenon. Please see term course list (<http://cinema.uoregon.edu/term-course-lists/>) for offerings.
  - Students must complete six core courses, with at least one from each subcategory: Core A (cinema industries); Core B (theory and criticism); and Core C (national, regional, and transnational cinema).
  - Two courses in the core with the CINE subject code (8 credits out of the required 24) are required.
- 4 Electives (8 credits) allow students to broaden their exposure to cinema and media studies. These courses are not focused exclusively on cinema but instead study it in relation to other modes of inquiry, including (but not limited to) Asian studies, comparative literature, ethnic studies, folklore and public culture, philosophy, journalism, literary studies, music, Romance languages, and women's, gender, and sexuality studies. A wide variety of elective courses from a range of departments and programs are available. Additional fundamentals, production, and core courses may also count as elective courses. Elective credit for the major may also be derived from internship and/or independent study.

## Honors

The department provides qualified undergraduate majors with options for participating in the honors program. Students arriving in the 2018–19 academic year or earlier may receive program honors at graduation if they have a final cumulative grade point average (GPA) of at least 3.75 in cinema studies course work. Beginning in 2019–20, incoming students must meet this GPA and, in addition, complete a scholarly or screenwriting project that originates from a cinema studies course and is then expanded in a faculty-led project development seminar. An honors college thesis also fulfills program honors requirements.

For more information, contact [cinema@uoregon.edu](mailto:cinema@uoregon.edu)

## Four-Year Degree Plan

*The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.*

## Classics

**P. Lowell Bowditch, Department Head**

311 Susan Campbell Hall  
1267 University of Oregon  
Eugene, Oregon 97403-1267  
541-346-4306  
541-346-4118 fax  
classics@uoregon.edu

The field of Classics embraces all aspects of Greek and Roman culture from the prehistoric to the medieval period.

Through the study of classical literature, history, philosophy, art history, and archaeology, students gain an understanding of the culture and ideals of the Greco-Roman world. Students who study classics at the undergraduate and graduate level have notable success in acceptance into graduate schools and in the job market. By studying the primary languages students engage with the Greeks and Romans in a direct and scholarly manner.

Students may also study the archaeology of the ancient Mediterranean world. Through the study of classical archaeology, students acquire a broad understanding of Greek and Roman sites and material culture. Although grounded in the study of Greek and Roman buildings, tools, and objects, the courses stress the cross-cultural influences and interactions that informed how people produced, used, and valued these materials as well.

Through the study of classical literature in the original language and in English translation, and through the study of other areas encompassed by the classics, such as ancient history, philosophy, art history, mythology, and rhetoric, a student gains an understanding of the culture and ideals of the classical world and their influence on the languages and institutions of Western civilization.

Members of the classics faculty have a broad range of research and teaching specialties and foster close interdisciplinary ties with the faculty of several departments, including anthropology, art history, comparative literature, English, history, and philosophy.

## Faculty

P. Lowell Bowditch, professor (Latin literature, comparative literature, literary theory). BA, 1984, California, Berkeley; MA, 1989, PhD, 1992, Brown. (1993)

Cristina Calhoon, senior instructor (Latin literature, women in antiquity, Romans and barbarians). Laurea, 1978, Torino; MA, 1983, PhD, 1994, California, Irvine. (1988)

David Chamberlain, instructor (Greek literature, Latin literature). BA, 1989, Oxford; MA, 1991, PhD, 1997, California, Berkeley. (1997)

Kevin D. Dicus, associate professor (classical archaeology, Latin literature) BA, 1992, MA, 2002, Arizona; PhD, 2012, Michigan, Ann Arbor. (2015)

Christopher Eckerman, professor (Greek literature, lyric poetry, social history). BA, 2000, California, Davis; MA, 2002, PhD, 2007, California, Los Angeles. (2008)

Mary K. Jaeger, professor (Latin literature, historiography, food in antiquity). BA, 1982, Gustavus Adolphus; MA, 1984, PhD, 1990, California, Berkeley. (1990)

Steven Shankman, professor. See **English**

Malcolm Wilson, professor (ancient philosophy, history of science). BA, 1985, Western Ontario; MA, 1986, Toronto; PhD, 1993, California, Berkeley. (1990)

*The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.*

- Latin (p. 74)

## Graduate Program

### Major - Master's Degree

- Classics (MA) (p. 75)

## Classics (BA)

The field of classics embraces Greek and Roman culture from the prehistoric to the medieval periods.

One of the undergraduate's primary aims in studying classics at the university is to learn Greek or Latin (or both) well enough to read the ancient authors in their original languages.

Students may also study the archaeology of the ancient Mediterranean world. Through the study of classical archaeology, students acquire a

broad understanding of Greek and Roman sites and material culture. Although grounded in the study of Greek and Roman buildings, tools, and objects, the courses stress the cross-cultural influences and interactions that informed how people produced, used, and valued these materials as well.

Through the study of classical literature in the original language and in English translation, and through the study of other areas encompassed by the classics, such as ancient history, philosophy, art history, mythology and rhetoric, a student gains an understanding of the culture and ideals of the classical world and their influence on the languages and institutions of Western civilization.

Members of the classics faculty have a broad range of research and teaching specialties, including Greek poetry and prose, Roman poetry and prose, ancient philosophy and science, and classical archaeology, and foster close interdisciplinary ties with the faculty of several departments, including anthropology, art history, comparative literature, English, history, and philosophy.

Students who intend to major in classics should begin the study of one or both of the classical languages as early as possible in their undergraduate careers.

Students earning a BA in Classics at the University of Oregon will be expected to demonstrate the following learning outcomes, with proportionate emphasis given to the outcomes focused on the particular content area of the chosen concentration in Classics (Classics; Greek; Latin; Classical Civilization; and Classical Archaeology and Material Culture):

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Have acquired Ancient Greek / Latin, including competencies in reading and translating, and a socio-linguistic understanding of the language(s).
- Understand literature, art, and other artifacts from the cultures of the Greco-Roman world, and the capacity to situate them in their sociohistorical context, to identify, interpret, and discuss them, and to describe their later influence. Key aspects of these cultures include philosophy, political theory, rhetoric, theatre, art, archaeology, historiography, poetry, and religion.
- Understand ancient Greco-Roman society as a complex and changing organism shaped by a range of factors such as demography, political organization, class, gender roles, education, economy, and values; the capacity to analyze and synthesize evidence to draw valid conclusions about social phenomena.
- Understand the archaeology and material culture of Ancient Greek and Roman civilizations; the development of practical and analytical skills that allow students to critically interpret disparate bodies of material evidence, as well as to recognize and construct well-reasoned interpretations of ancient material culture. Key themes include methods and theory of archaeological excavation and survey, mortuary practices, social organization, the ancient economy, and the materiality of religious practice.
- Have mastery of transferable skills including skills in critical thinking, analysis of documentary evidence, ability to conduct independent research, and effective oral and verbal communication.

- Classical Archeology (p. 65)
- Classical Civilization (p. 65)

- Greek (p. 66)
- Greek and Latin (p. 67)
- Latin (p. 67)

Courses used to satisfy major requirements must be taken for letter grades and passed with grades of mid-C or better.

At least four upper-division courses (normally 16 credits) must be taken at the University of Oregon.

## Classics (Classical Archaeology) Major Requirements

<sup>1</sup> Complete the introductory language courses with grades of mid-C or better or demonstrate proficiency at the introductory level. Students whose Greek or Latin language courses were taken in high school must take one year of second- or third-year Greek or Latin (301, 302, 303 or 411) at the University of Oregon in works not read in their high school courses. All language courses at the second- or third-year level may count toward the 20 credits of electives.

<sup>2</sup> Department head approval required.

<sup>3</sup> Choose electives in consultation with a classics department advisor.

<sup>4</sup> Please consult your undergraduate advisor for appropriate alternatives if HIST 412 and HIST 414 are unavailable.

## Approved Elective Courses

| Code     | Title                                 | Credits |

<sup>1</sup> Complete the introductory language courses or demonstrate proficiency at the introductory level.

<sup>2</sup> Repeated with departmental approval.

<sup>3</sup> A list of approved courses is available from the department.

<sup>4</sup> Please consult your undergraduate advisor for appropriate alternatives if HIST 412 and HIST 414 are unavailable.

Students are encouraged to take electives in ancient literature in translation and in ancient art, religion, mythology, or philosophy. They are also urged to take course work in Greek.

Approved Elective Courses

| Code     | Title                                 | Credits |

Honors

The honors program in classics provides an opportunity for a student to focus on an area of concentration in a written thesis. The requirements for a bachelor's degree with honors in classics are as follows:

- 1. Satisfaction of the requirements for the major
- 2. A grade point average (GPA) of 3.50 or better in courses taken to meet the requirements of both the major and the university
- 3. A senior thesis of substantial quality, approved by the thesis director and at least one member of the program committee

Four-Year Degree Plan

*The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.*

- Greek Concentration (p. 68)
- **Latin Concentration**
- **Greek and Latin Concentration**
- **Classical Civilization Concentration**
- **Classical Archaeology Concentration**

Bachelor of Arts in Classics: Greek Concentration

## Classical Civilization Minor

The field of Classics embraces Greek and Roman culture from the prehistoric to the medieval periods. Through the study of classical

archaeology, students acquire a broad understanding of Greek and Roman sites and material culture. Although grounded in the study of Greek and Roman buildings, tools, and objects, the courses stress the cross-cultural influences and interactions that informed how people produced, used, and valued these materials as well. Through the study of classical literature in the original language and in English translation, and through the study of other areas encompassed by the classics, such as ancient history, philosophy, art history, mythology, and rhetoric, a student gains an understanding of the culture and ideals of the classical world and their influence on the languages and institutions of Western civilization.

## Classical Civilization Minor Requirements

| Code                                                | Title | Credits   |
|-----------------------------------------------------|-------|-----------|
| Lower- or upper-division courses from approved list |       | 8         |
| Upper-division courses from approved list           |       | 16        |
| <b>Total Credits</b>                                |       | <b>24</b> |

Students must have a grade point average of 2.50 or better in courses applied to the minor. At least four courses (typically 16 credits) must be taken at the University of Oregon.

## Greek Minor

The minor in Greek at the UO introduces students to the study of the ancient language and its literatures. After a year of introduction, students can expect to read and study closely such authors as Plato, Lysias, Euripides and Homer in the original Greek.

### Greek Minor Requirements

| Code                                              | Title | Credits   |
|---------------------------------------------------|-------|-----------|
| Upper-division Greek (GRK) courses <sup>1</sup>   |       | 16        |
| Upper-division elective courses (see table below) |       | 8         |
| <b>Total Credits</b>                              |       | <b>24</b> |

<sup>1</sup> Four credits of first-year Greek may be applied to this total.

Students must have a grade point average of 2.50 or better in courses applied to the minor. At least four courses (typically 16 credits) must be taken at the University of Oregon.

### Approved Elective Courses

| Code     | Title                                 | Credits |
|----------|---------------------------------------|---------|
| ANTH 342 | Archaeology of Egypt and Near East    |         |
| ANTH 349 | Origins of Art                        |         |

## Latin Minor

The UO Department of Classics introduces students to foundational concepts of Western culture and literature through the study of Roman history and culture. Undergraduate students can minor in Latin, giving them the opportunity to explore Roman history and culture through concentrated study on Latin language as well as related courses. Students read literature, philosophy, and history texts both in the original Latin and in translation.

### Latin Minor Requirements

| Code                                              | Title | Credits   |
|---------------------------------------------------|-------|-----------|
| Upper-division Latin (LAT) courses <sup>1</sup>   |       | 16        |
| Upper-division elective courses (see table below) |       | 8         |
| <b>Total Credits</b>                              |       | <b>24</b> |

<sup>1</sup> Four credits of first-year Latin may be applied to this total.

Students must have a grade point average of 2.50 or better in courses applied to the minor. At least four courses (typically 16 credits) must be taken at the University of Oregon.

### Approved Elective Courses

| Code     | Title                                 | Credits |
|----------|---------------------------------------|---------|
| ANTH 342 | Archaeology of Egypt and Near East    |         |
| ANTH 349 | Origins of Art                        |         |

## Classics (MA)

The Department of Classics currently offers the master of arts (MA) in classics with a focus on ancient languages and literatures. Students may focus their coursework on Greek, Latin, or Greek and Latin. In addition, the department offers a master of arts degree with a focus on classical archaeology and material culture.

Programs of study are arranged in consultation with two advisors, at least one of whom is a member of the Department of Classics, and comprise graduate courses selected from Anthropology (subject code ANTH), art history (ARH), Classics (CLAS), English (ENG), Latin (LAT), Greek (GRK), History (HIST), Philosophy (PHIL), and Religious Studies (REL).

### Program's Admission Requirements

Please visit the program's website (<https://cas.uoregon.edu/classics/apply/graduate-admissions/>).

Students earning a MA in Classics will be expected to demonstrate the following learning outcomes with proportionate emphasis given to the outcomes focused on the particular content area of the chosen concentration in Classics (Language and Literature; Classical Archaeology and Material Culture):

### Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Advanced proficiency in Latin and/or Greek, including competencies in reading and translating, and a socio-linguistic understanding of the language(s).
- Advanced understanding of the archaeology and material culture of Ancient Greek and Roman civilizations; the development of practical and analytical skills that allow students to critically interpret disparate bodies of material evidence, as well as to recognize and construct well-reasoned interpretations of ancient material culture.
- Advanced understanding of literature, art, and other artifacts from the cultures of the Greco-Roman world, and the capacity to situate them in their sociohistorical context, to identify, interpret, and discuss them, and to describe their later influence.
- Proficiency in a modern European language, which is a major carrier of secondary literature and research, usually French or German.
- Ability to write research papers, requiring advanced knowledge of a range of bibliographic resources.
- Classical Archaeology and Material Culture (p. 75)
- Languages and Literatures (p. 75)

- 1 Choose from Archaeology and Anthropology (ANTH 681), Professional Writing (ANTH 685), Archaeology and Anthropology (ANTH 681), Social Theory I (ANTH 688), Social Theory II (ANTH 689), Graduate Studies in Art History (ARH 611), Seminar: [Topic] (CLAS 607), Practicum: [Topic] (CLAS 606), Historical Methods and Writings (HIST 612).
- 2 Choose from Seminar: [Topic] (ARH 507) (when on relevant topics).
- 3 Practical Archaeobotany (ANTH 546).
- 4 The credits may be counted toward the 45-credit minimum. Satisfactory completion of the thesis includes an oral defense.
- 5 The candidate must, in consultation with his or her advisors, define a reading list for the translation part of the examination.

### Additional Requirements

- Complete the general MA requirements stipulated by the Division of Graduate Studies
- Pass with a grade of mid-B or better five courses in Greek and/or Latin authors

## Master of Arts in Classics: Languages and Literatures

| <b>Total Credits</b>                                                   |                                                                        | <b>51</b> |

- 1 Equivalent courses taken as an undergraduate may fulfill this requirement.
- 2 The credits may be counted toward the 45-credit minimum. Satisfactory completion of the thesis includes an oral defense.
- 3 The candidate must, in consultation with his or her advisors, define a reading list for the translation part of the examination.

### Additional Requirements

- Complete the general MA requirements stipulated by the Division of Graduate Studies

- Pass with a grade of mid-B or better five courses in Greek and/or Latin authors
- Pass a translation examination in one modern language, usually French or German. This requirement may be fulfilled with a standardized examination offered by the university or by the successful translation of a significant scholarly text

Additional information may be obtained from the classics department and is included with the letter of admission.

## Comparative Literature

### Katya Hokanson, Department Head

247 PLC

1415 Kincaid St. University of Oregon

Eugene, OR 97403-5242

541-346-3947

complit@uoregon.edu

The University of Oregon offers major programs in comparative literature leading to the bachelor of arts (BA), bachelor of sciences (BS), and doctor of philosophy (PhD) degrees. In addition, comparative literature offers a compact minor program.

Interdisciplinary at its core, comparative literary study begins with the insistence that any artifact—whether from the realm of literature, cinema, the visual arts, or graphic and digital platforms—requires active attention and probing engagement. While the national literatures designate their subjects by language or cultural area, comparative literature provides for a pluralistic approach that bridges divides between languages and cultures, not to mention media.

Closely allied with critical theory, philosophy, and media studies, comparative literature is defined by an open-ended spirit of inquiry rather than a specific methodology or a preestablished canon of materials. Students of comparative literature develop a sense of their subject matter as they discover the meaning and method of their approach.

Oregon's graduate program, established in 1962, has an international reputation. It is the home of the founding journal in the field, *Comparative Literature*, and is closely involved with the leading national organization, the American Comparative Literature Association.

The department maintains an active schedule of lecture series, seminars, and workshops. In addition, comparative literature is the home of the Nomad Mentorship Program and *Nomad*, the journal of undergraduate criticism. Library holdings, which are strong in all areas of research in literature and other media, include an outstanding collection of journals and are augmented by an extensive interlibrary resources.

## Faculty

Michael Allan, associate professor (Arabic and Francophone literature, postcolonial studies, cinema). BA, 2000, Brown; PhD, 2008, California, Berkeley. (2008)

Monique Balbuena, associate professor (Jewish Studies, Sephardic Languages, Ladino, Poetry, French and Francophone Literatures, Latin American Studies). BA, 1988, MA, 1993, Federal University of Rio de Janeiro; PhD, 2003, California, Berkeley. (2004)

Steven T. Brown, professor (Japanese film, comparative film, popular culture). BA, 1987, Illinois, Urbana-Champaign; MA, 1988, PhD, 1993, Stanford. (1993)

Katherine "Katy" Brundan, senior instructor (18th- and 19th-century English and European literature, novel, media and popular culture). BA 1992, MA, 1996, Cambridge; PhD, 2006, Oregon (2013)

Kenneth S. Calhoon, professor (18th- and 19th-century German and European literature and thought, psychoanalysis, cinema). BA, 1979, Louisville; MA, 1981, PhD, 1984, California, Irvine. (1987)

Roy Chan, associate professor. See **East Asian Languages and Literatures**.

Katya E. Hokanson, associate professor (Russian literature, travel literature, cultural studies). BA, 1984, Williams; MA, 1988, PhD, 1994, Stanford. (1995)

Sangita Gopal, associate professor (cinema studies). BA, 1990, Calcutta; MA, 1995, PhD, 2000, Rochester. (2004)

Dawn Marlan, senior lecturer (history of the novel, gender studies, cinema). BA, 1989, Bennington; MA, 1992, PhD, 2000, Chicago. (2004)

Leah Middlebrook, associate professor (16th-century Spanish and French lyric, court culture, theories of the subject). BA, 1989, Columbia; MA, 1991, PhD, 1998, California, Berkeley. (2002)

Lanie Millar, associate professor (20th- and 21st-century Caribbean and Latin American literature, Luso-African literature, global south studies). BA, 2002, Baylor; MA, 2003, Middlebury College; PhD, 2011, Texas, Austin. (2013)

Jenifer Presto, associate professor (Russian literature, poetry, modernism). AB, 1985, Smith; MA, 1988, Middlebury; MA, 1989, PhD, 1996, Wisconsin, Madison. (2003)

Tze-Yin Teo, assistant professor (comparative, global, and transnational modernism; translation studies; literary theory). BA, 2009, National University of Singapore; PhD, 2015, Emory. (2015)

*The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.*

## Participating

Stacy Alaimo, English

P. Lowell Bowditch, classics

Anita Chari, political science

Joyce Cheng, history of art and architecture

James R. Crosswhite, English

Dianne M. Dugaw, English

Cecilia Enjuto Rangel, Romance languages

Pedro García-Caro, Romance languages

D. Gantt Gurley, German and Scandinavian

Michael Hames-García, ethnic studies

Lamia Karim, anthropology

Martin Klebes, German and Scandinavian

Colin Koopman, Philosophy

Jeffrey S. Librett, German and Scandinavian

Massimo Lollini, Romance languages

Fabienne Moore, Romance languages

Dorothee Ostmeier, German and Scandinavian

Paul W. Peppis, English

F. Regina Psaki, Romance languages

Forest Pyle, English

Judith Raiskin, women's and gender studies

Sergio Rigoletto, Romance languages

Daniel Rosenberg, honors college

Gordon M. Sayre, English

Steven Shankman, English

Carol Silverman, anthropology

Beata Stawarska, philosophy

Michael Stern, German and Scandinavian

Analisa Taylor, Romance languages

Alejandro Vallega, philosophy

Daniela Vallega-Neu, philosophy

Yugen Wang, East Asian languages and literatures

Elizabeth A. Wheeler, English

Daniel N. Wojcik, English

## Undergraduate Programs

### Major - Bachelor's Degree

- Comparative Literature (BA/BS) (p. 77)

### Minor

- Comparative Literature (p. 80)

## Graduate Program

### Major - Doctoral Degree

- Comparative Literature (PhD) (p. 80)

## Comparative Literature (BA/BS)

The undergraduate program offers a unique major that cuts across disciplines, teaches critical skills, and provides an intellectually challenging curriculum that trains students to analyze, critique and contribute to culture while preparing them for possible careers in the

public humanities, media and multi-media, law, government, non-profit work, political activism and organization, public relations, advertising, or teaching. Students with a good background in one or more languages other than English find that the program gives them the opportunity to study literature and related cultural productions in a variety of historical and theoretical perspectives.

The program combines flexibility with a rigorous grounding in the basics of literary theory, cultural studies, and critical writing. Based on their interests, majors choose one of two tracks: language and culture or disciplines in dialogue. In the first, students develop proficiency in two linguistic traditions. In the second, students explore links between a single linguistic tradition and a nonliterary field. Both tracks are ideally suited to students considering either a double-major or a major and a minor, as students can combine their multiple interests into a single program of study.

A carefully designed core curriculum takes students through the basics of comparative literature as a discipline. Course work culminates with Capstone Seminar (COLT 415). This small seminar, capped at fifteen, offers both personalized attention and the sorts of pedagogical experiences that a small course enables, from workshop style formats to lengthier, individualized final projects. In addition, the Capstone allows students to work closely and collaboratively with other advanced students in their cohort.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Foreign-language proficiency: Majors are required to develop reading proficiency in at least one language other than English (many of our majors work in two). This requirement is fulfilled by the completion of three upper division courses in that language.
- National-Linguistic Fields: Majors are required to develop a familiarity with the literature and culture (including non-literary media and related cultural forms) in at least one national-linguistic tradition other than English (many of our majors work in two such traditions, though British or American literature is also fully acceptable as one of their two required fields). This requirement is satisfied by the completion of four upper-division courses in which materials are studied in the original language.
- Critical and Interpretive Reading: We endeavor to teach our students to read, not for merely plot or comprehension but with a heightened sensitivity to the ways in which literary works and related materials are informed by myriad linguistic ambiguities and shadings, by rhetorical and generic traditions, as well as by contexts that are themselves not "given" but are often only fully manifest in the texts they envelop.
- Theoretical Preparation: Comparative Literature has been defined historically not only by its multi-linguistic, cross-national habit but also by its emphasis on theoretical approaches—doubly important within a field in which students working in a variety of traditions cannot be expected to have a common textual base. We expect our majors to become familiar with a range of literary-theoretical orientations and to be able to apply them in the analysis of literary, cinematic or related works.
- Analytical Writing: Students are expected to be able to write probingly analytical essays that demonstrate not only a facility with various critical registers, but which also demonstrate an ability to read carefully and closely.

- Interdisciplinarity: Comparative analyses of literary and other works often hew closely to approaches developed in disciplines such as philosophy, linguistics, political thought, cultural history, religious studies, and more. Our students are expected to demonstrate a working awareness of the inherent interdisciplinarity of our field. This is more explicit in the “disciplines in dialogue” track of our major, but it is true also of our “literature and culture track.”
- Diversity: Diversity is “built in” to the structure of a field that, by definition, places different cultures in dialogue. Our program endeavors to extend our students’ awareness of diversity along multi-cultural axes.

Note: The courses that satisfy the learning outcome one and two requirements may overlap. Because these courses are taken under prefixes other than COLT, for example FR, IT, GER, SPAN, RUSS, JPN, success in these courses will reflect the learning outcomes developed by the home departments.

Comparative Literature Major Requirements

The comparative literature major offers two tracks, language and culture and disciplines in dialogue. In order to complete a bachelor’s degree in comparative literature in the language and culture track, it is necessary to complete the language and culture language requirement. Students may demonstrate language proficiency in any one of the following ways: 1) The student is a native speaker of a language other than English. 2) One of the upper-division courses used to complete the Primary Linguistic Tradition was taught in the target language; that is, the course must be a full-fledged literature or cinema course, not a course whose primary focus is language acquisition. 3) Three, 300-level (or higher) language courses in the same language (not English).

In order to complete a bachelor’s degree in comparative literature in the disciplines in dialogue track, it is necessary to complete at least the third term of the second year of a second-language course taught in the language (i.e., the language requirement for the Bachelor of Arts degree). Note that this requirement applies to students who seek both the Bachelor of Arts and the Bachelor of Science degree.

All coursework required for the comparative literature major and minor must be taken for a letter grade and passed with grades of mid-C or better. Online courses do not count toward the comparative literature major.

|---------------|----|

- <sup>1</sup> With the approval of the director of undergraduate studies, courses taken abroad may be used to fulfill this requirement.
- <sup>2</sup> One of these courses may be on a non-literary topic relevant to the field such as history or philosophy.

Honors in Comparative Literature

Comparative literature students may apply to enter the honors track during spring of their junior year. Admission to the honors track is based on the recommendation of a comparative literature faculty member, instructor, or a participating faculty member; a writing sample; and the student’s transcript. Materials should be submitted by week 2 of spring term of the junior year. Completion of the honors track requires the successful completion of a bachelor of arts honors thesis. Students invited to participate in the Honors Track will develop and present a thesis prospectus in the fall term of their senior year. The thesis must be comparative in nature, and should entail work in both of the student’s focus fields. If the prospectus is approved by the director of undergraduate studies, then the student enrolls in Thesis (COLT 403) during winter of the senior year. The full draft of the thesis is due by the end of week 10 of winter term. The thesis is completed under the supervision of the thesis advisor, and must be submitted to both the advisor and a second reader by the fifth week of spring term. The thesis must then be approved by the advisor and second faculty member after a formal presentation and defense, which will be held in spring term. The thesis advisor and the second reader should be chosen from the comparative literature faculty or participating faculty. With approval of the director of undergraduate studies, a second reader who is not a participating member may be chosen from another department.

Tracks within the Major

Because there are many different ways of thinking about literature from a comparative perspective, two emphases within the major are offered. One track, language and culture, features comparative study across different linguistic traditions. This track is recommended for students who want to study abroad, attend graduate school in comparative literature, or want to gain an in-depth understanding of linguistic cultures in addition to their own. A second track, disciplines in dialogue, requires less formal language study and allows students to combine the critical study of literature with work in another field. This emphasis offers a manageable path for students considering a double major in literature and another discipline. It is also well-suited to students who want to combine literary and cinema studies with creative writing, performance, the visual arts, philosophy, history, and journalism.

Language and Culture Track

Students in this track designate two linguistic traditions, a primary linguistic tradition and a second linguistic tradition. In addition, the language chosen to fulfill the language requirement should coincide with one of these national-linguistic traditions. The linguistic traditions commonly studied for the comparative literature major are listed below. Other traditions may be chosen, but must be approved by the department.

- Arabic
- Chinese

- Classics
- English
- French
- German
- Greek
- Italian
- Japanese
- Korean
- Romance Languages
- Russian
- Scandinavian
- Spanish

## Disciplines in Dialogue Track

Students in this track designate one linguistic tradition and one additional disciplinary field. Courses taken in this disciplinary field may be spread out across several subject codes, with the approval of the director of undergraduate studies. The disciplinary focus fields commonly studied for the comparative literature major are listed below. An individualized course of study may be chosen, but must be approved by the department:

- African Studies
- Anthropology
- Art
- Art History
- Asian Studies
- Black Studies
- Business
- Cinema Studies
- Computer Science
- Comics and Cartoon Studies
- Creative Writing
- Dance
- Economics
- Environmental Studies
- Folklore
- Global Studies
- History
- Indigenous, Race, and Ethnic Studies
- Journalism
- Judaic Studies
- Latin American Studies
- Linguistics
- Music
- Philosophy
- Planning, Public Policy, and Management
- Political Science
- Psychology
- Religious Studies
- Sociology
- Theater Arts
- Women and Gender Studies

Students are strongly advised to complete their language requirement in a language relevant either to their linguistic tradition or to their disciplinary field.

## Languages

The study of comparative literature entails advanced interdisciplinary work. Students who pursue the languages and culture track work across and between languages, and develop proficiencies beyond the two years required for the UO Bachelor's of Arts Degree. This proficiency can be

demonstrated in a number of ways (see below). Students who pursue the disciplines in dialogue track develop the language proficiency required for the UO Bachelor of Arts Degree.

## Four-Year Degree Plan

*The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.*

## Comparative Literature Minor

Comparative Literature students have a passion for words, images, and ideas. They are drawn to stories, and they understand the power of representation. They think across disciplines and challenge existing frameworks. They are creative, critical, and committed to imagining a more just world.

The Comparative Literature minor offers an opportunity for students to pursue an interest in world literature and film without advanced language study.

## Minor Requirements

The comparative literature minor offers an opportunity for students to pursue an interest in world literature and film without advanced language study.

<sup>1</sup> Courses may be taught within the Department of Comparative Literature or in other departments and may be taken abroad or away from the University of Oregon

## Comparative Literature (PhD)

The graduate program in comparative literature is founded on the conviction that literary traditions are best understood when contextualized across national and cultural boundaries. To thrive professionally, every scholar in the discipline must be closely trained in a primary national literature, proficient in at least three languages, and attuned to the importance of philology, bibliography, and linguistic training. At the same time, a commitment to comparative study requires a firm grasp of translation among languages and media and the history of reading practices, as well as aesthetic and cultural theory.

Students are admitted to the graduate program with the expectation that they will work toward the PhD degree. At present the Department of Comparative Literature does not offer a terminal master's degree. Instead, students become eligible for the MA on passing their PhD qualifying exams.

### Program's Admission Requirements

Please visit the program's website (<https://complit.uoregon.edu/admissions/>).

The component parts of the doctoral program in Comparative Literature constitute an apprenticeship to a profession that requires the learning outcomes listed below.

### Program Learning Outcomes

- Upon successful completion of this program, students will be able to:
- Publish as a means to establish oneself as a part of a professional community.
  - Become conversant with the principal texts, discussions and problems in and across at least two fields of study (thus, "comparative").
  - Be proficient in multiple languages, such that advanced research and analysis can be carried out in a chosen field or fields of study.

#### The key benchmarks in this apprenticeship are:

- The successful completion of coursework and/or examination in languages relevant to a doctoral student's area of research.
- The Third-Year article.
- The successful completion of a written exam.

- The successful completion of a comprehensive oral exam.
- The successful completion and defense of a doctoral dissertation.

## Overview of Requirements

Within their first three years of graduate study, students must complete the language requirement, six foundation courses, at least five courses in the primary field, and at least four courses in the secondary field. In addition, students select at least three elective courses in consultation with their faculty advisors; these courses may be tangential to their main research interests or distributed according to those interests. The foundation courses include Graduate Studies in Translation (COLT 613), Graduate Studies in Comparative Literature (COLT 614), Graduate Studies in Comparative Literature (COLT 615), Transmedial Aesthetics (COLT 616), and at least two other graduate-level COLT courses. Courses applied to the degree must be passed with a grade of B+ or better, and students must maintain a grade point average of at least 3.50 in all graduate-level courses in order to remain in good standing in the program.

After completing all course work and language requirements, students are eligible to take their written and oral PhD qualifying examinations. Following successful completion of the exams, students submit a prospectus and meet with their committees for the prospectus conversation. A satisfactory prospectus conversation is required for advancement to candidacy. The approximate time from completion of course work to advancement is one year. Typically, the dissertation is completed within two years of advancing to candidacy.

## Foundation Courses

The graduate program provides a solid foundation in theoretical and historical methods integral to comparative literature and relevant to working across national literary traditions, historical periods, theoretical paradigms, and media. Through these courses, students are expected to acquire a comprehensive understanding of scholarly method, encountering not only contemporary texts and theorists but also the history of the field, including the central controversies, crucial debates, and cultural contexts that have shaped its development. The student must complete six graduate-level foundation courses; these courses are Graduate Studies in Translation (COLT 613), Graduate Studies in Comparative Literature (COLT 614), Graduate Studies in Comparative Literature (COLT 615), Transmedial Aesthetics (COLT 616), and two others selected from among the COLT graduate course offerings.

## Primary Field

The majority of comparative literature graduates are hired to teach in national literature departments and not in interdisciplinary programs. For this reason it is crucial that students develop a primary research field that is based either in a single national literature (e.g., Japanese literature) or in a single linguistic-cultural tradition that crosses national boundaries (e.g., Latin American literature). Depending on the relative breadth of a student's prior training, the primary field may be further delimited according to a period (e.g., postwar Japan) or a genre (e.g., German drama) or even an artistic movement (e.g., French postmodernism).

The student must complete five graduate-level courses in the primary field; at least three of the courses should share the same department subject code.

## Secondary Field

This field complements the research within the primary field, either by providing counterpoint or a needed context. There are three ways to

define one's secondary field. Most commonly, it represents a second national literature (e.g., Spanish literature) or a linguistic-cultural tradition that crosses national boundaries (e.g., Latin American literature). In addition, where two or more national-linguistic traditions share a common literary history—for example, within a given region or artistic movement—the secondary field may be defined in comparative terms (e.g., the Continental Renaissance, Caribbean literature, or East Asian film). Finally, the secondary field can eschew literary categories altogether in order to represent an alternative disciplinary focus (e.g., religious studies).

At least four graduate-level courses must be taken in the secondary field. Three of them should share the same department subject code. At the discretion of the director of graduate studies, the three courses with shared subject code may be spread out over the secondary, foundation, and elective fields.

## Electives

Three of the program's required 18 graduate-level courses are electives and should be chosen in consultation with an advisor. The electives may cover a wide range of interests or may be carefully distributed among the three research fields to fill gaps or achieve greater depth. Some students may wish to devote their electives to a fourth field of research (e.g., a third national literature). Students hoping to pursue this option are urged to meet with the director of graduate studies as soon as possible.

## Language Requirement

Work in at least three languages is expected at all phases of the program, from course work to the dissertation. The language requirement addresses this expectation by ensuring both linguistic proficiency and a minimum level of graduate course work in all three languages. Students are required to complete graduate-level work in their languages. The following guidelines apply: (1) at least two graduate courses must be taken in each language to meet this requirement and should ideally be taught by a specialist in the target language; (2) the seminar paper for each course should demonstrate competency dealing with the target language and should be suitable for publication in the national literature field. The seminar paper for each of the two non-English languages must be submitted to the department at the end of the course for approval. The language requirement must be satisfied by the end of the third year.

## Timetable from Entrance to Examinations

### Advisors

During their first two terms of study (fall and winter), students are advised by the director of graduate studies. By Monday of week two of the third term, each student formally identifies an interim advisor—a faculty member who agrees to mentor the student through the completion of the first-year conversation and the first two terms of the second year.

By Monday of week two of the spring term of the second year, the student will have chosen his or her advisor of record. This advisor, who will be competent in the student's primary research interests, will mentor the student through the second-year review and the third year of study.

## First Year

### First-Year Statement

By Friday of week four of spring term, first-year students, in consultation with their interim advisors, submit a two- to three-page statement of purpose. It should identify and justify the primary and secondary fields the student intends to pursue—the general fields of study that form the backbone of a scholar's research profile. It should also clarify the

relationship between the students’ research languages and research fields, and indicate what linguistic study is necessary to complete the proposed course of study.

First-Year Conversation

In week six or seven of spring term, the first-year student, his or her interim advisor, the director of graduate studies, and one other comparative literature faculty member meet for a conversation about the first-year statement. They evaluate the student’s progress to date, including course work and language examinations, discuss the intended fields, and offer guidance for the remaining two years leading to the qualifying examination. With their approval of the statement and the student’s general plan, as well as successful completion of all first-year course work with a GPA of 3.50, the student may proceed to the second year. A brief memo written by the student that summarizes the conversation is due to the department by Wednesday of week eight.

Second Year

Third-Year Article

During the second year, as part of preparation for publication in the field, students are required to begin expanding a seminar paper into an article for submission to a journal. Workshops are held to prepare students to write an article and select an appropriate publication venue. This process is meant to provide step-by-step guidance in publishing before the student advances to candidacy.

Second-Year Review

By Monday of week two in spring term of the second year, a student will have chosen the advisor of record. In consultation with that advisor, the student must write a careful self-review of his or her progress to date. The review should revisit both the first-year statement and the report of the first-year conversation. In particular, any recommendations made by the first-year conversation committee should be assessed: how were these recommendations pursued and with what result? The designation of the three research fields should also be addressed, along with any shifts in focus that have proved necessary or desirable. The review should explain what course work remains to be completed, and, where appropriate, should outline a plan for the completion of that work. Any problems in performance or concerns about timely progress should also be addressed. The second-year review must be approved by the advisor of record and submitted by Monday of week eight of spring term. The graduate committee reviews these reports, and small revisions and clarifications may be required before they approve the document. With approval of the review and completion of all second-year course work with a GPA of 3.50, the student may proceed to the third year.

Third Year

Third-Year Article

During the first term of the third year, the student will finalize the third-year article in consultation with an advisor in preparation for submitting it for peer review. By Friday of week five of spring term of the third year, the student will submit this article to the department along with a cover letter addressed to an appropriate journal.

Completion of Course Work and Language Requirement

The program is designed so that students may complete all course work and language requirements by the end of their third year. By Friday of week nine of spring term of the third year, students submit the course work and language requirement completion form for approval by the director of graduate studies and the graduate committee.

PhD Degree Requirements

| COLT 615                                                                           | Graduate Studies in Comparative Literature | 5       |
| COLT 616                                                                           | Transmedial Aesthetics                     | 5       |

Primary Field Courses

At least five graduate courses <sup>1</sup>

Secondary Field Courses

At least four graduate courses <sup>2</sup>

Electives

At least three graduate courses <sup>3</sup>

- <sup>1</sup> At least three of the courses should share the same departmental subject code.
- <sup>2</sup> Three courses should share the same departmental subject code. At the discretion of the director of graduate studies, the three courses with shared subject code may be spread out over the secondary, foundation, and elective fields.
- <sup>3</sup> Choose electives in consultation with an advisor.

Additional Requirements

- Successfully passing the PhD qualifying exams
- Writing dissertation prospectus
- Dissertation

Examination Committee

By the beginning of spring term of the third year, each student selects an examination committee consisting of the advisor of record and two additional faculty members. Of these three, one represents the student’s primary field of research (commonly the advisor of record), another represents the secondary field, and a third member is designated the committee chair. The third member also serves as chief mentor for the student’s foundation field, advising him or her on the reading list inclusions from that field. All members must sign an agreement form to participate in the exam committee, and all must approve the exam statement and reading list. By Monday of week two in spring term of the third year, students must submit their examination committee membership to the department. Students who have chosen an additional fourth field of research may choose to be tested in that field as well. The logistics of this option should be pursued with the director of graduate studies as early in the process as possible. The examination committee membership must be approved by the director of graduate studies.

Examination Statement and Reading List

In consultation with the exam committee members, each student determines his or her examination fields. These fields correspond to the primary, secondary, and foundation research fields, but are usually narrower and more specialized in scope. Students then devise a reading list covering each field. Each list should include approximately fifteen to twenty primary items (an item is an author and a work or works that represent the author’s perspective as a whole). Each field list should also include a separate sublist of pertinent critical-secondary works. Exam

committee members can provide assistance in choosing the works on this list.

Students must also compose a six- to eight-page statement that defines the student's core interests, defends the examination fields, clarifies the scope of the reading list, and offers some indication of the future dissertation project and career aspirations for which this reading list provides the necessary comprehensive background and preparation. After being approved by all the examiners, the exam statement and reading list are submitted to the department by the end of week nine in spring term of the third year. Prior to final approval, the exam statement and reading list are reviewed by the graduate committee, which may have additional recommendations and queries. Occasionally, these recommendations may be substantive enough to require additions to or deletions from the list and a resubmission process. Changes to the statement and list may be made no later than four weeks prior to the first written exam and must be approved by both the director of graduate studies and the examination committee members.

When the graduate committee and director of graduate studies have approved the Course Work and Language Requirements Completion Form and the exam statement and reading list, the student may proceed with the examination process.

## Overview of Fourth Year

The fourth year is dedicated to completing the doctoral examinations and writing the dissertation prospectus. Typically, students prepare for the exams over the summer and early fall, sit for the written and oral exams by the end of fall term, and complete the prospectus by the middle of spring term. The prospectus conversation must be held by the beginning of week 10 of spring term in the fourth year, so that students may advance to candidacy in a timely manner at the end of spring term.

## Written Examination

In this phase, students compose three essays over three 24-hour periods spread out over three weeks (weeks five, six, and seven of fall term in the fourth year). The first essay covers the primary field, with questions submitted by the examiner representing that field; the second covers the secondary field in the same manner; the third essay is comparative, addressing texts from both the primary and secondary fields, with questions submitted by all three examiners. For the primary and secondary field exams, students choose between two questions; for the comparative exam, they choose one of three questions. No exam will cover the foundation field. Instead, the examiners will explore the full gamut of the student's reading list with questions designed to ascertain the student's mastery of his or her methods as applied to the primary and secondary fields.

The three examiners all grade and comment on the comparative essay and read the field exams. The two field exams are graded separately and commented upon by the responsible examiners, except in the case of a failing grade. In this circumstance, the student's essay is graded by the other two examiners, as well. If two out of three examiners fail an essay, the student may retake the exam in that area in the following term. The exam may be retaken no more than once. If more than one of the student's essays fails, or if the student fails a retake exam, he or she does not proceed to candidacy, but may be eligible for a terminal master's degree. Grades for these exams are high pass, pass, or no pass. Students learn their exam results in week nine of fall term—that is, two weeks after completion of the final essay.

## Oral Examination

The oral examination is scheduled during week 10 or 11 of fall term; it is proctored by the exam committee chair and is usually two hours in length. The committee and the student revisit the written examinations, discussing areas of strength and weakness. In addition, the examiners may explore the student's expertise more deeply by asking questions about reading list materials not covered during the written exams.

While no grade is assigned for performance on the oral exam, the committee may determine recommendations and even requirements for future study, including retaking the oral examination. Recommendations are communicated in person to the student at the conclusion of the exam and in writing to the director of graduate studies as part of the committee chair's report on the exam. If substantive requirements or concerns have been articulated, the director of graduate studies will determine any official course of action to be taken.

For students who have failed one or more parts of the written exam, no oral examination will be held; instead, the time designated for the oral exam will be dedicated to a meeting with the student, the exam committee, and the director of graduate studies. Participants review the exam performance, discuss a possible retake exam, and/or review the advisability of a terminal master's degree.

## Prospectus and Doctoral Candidacy

By Friday of week five of winter term in the fourth year, the student must designate a dissertation committee, including the dissertation chair and outside reader. The director of graduate studies must approve this committee. For details concerning faculty eligibility, students should refer to the Division of Graduate Studies' Dissertation Committee Policy at [gradschool.uoregon.edu/committee-policy](http://gradschool.uoregon.edu/committee-policy).

Committee members should be consulted during the process of writing the dissertation prospectus. A first draft of the prospectus should be submitted to the members of the dissertation committee by Friday of week 10 of winter term. A completed draft of the prospectus, approved by all four committee members, must be submitted by Friday of week five of spring term in the fourth year. After final approval from the director of graduate studies, the prospectus conversation is scheduled between weeks seven and nine of spring term.

A prospectus is not a first dissertation chapter; it is a snapshot of the dissertation project as envisioned by the student, prior to the completion of the bulk of his or her research. The prospectus is typically 10 to 15 pages in length. It should include a clear, concise examination of the problem to be studied, along with a compelling sense of the larger issues at stake in the project, both for the immediate topic and for the field at large. In addition, the prospectus should provide a clear vision of the project's trajectory: a narrative account of the dissertation's structure, an outline of chapters, and a justification for the particular authors and texts to be examined. A substantial research bibliography should be appended.

## Prospectus Conversation

The prospectus conversation is scheduled between weeks seven and nine of spring term in the fourth year. This conversation, which includes the members of the dissertation committee, is facilitated by the committee chair and helps to develop the student's plans for the dissertation. Areas of strength and weakness in the project are discussed, and specific recommendations about structure, bibliography, and method are presented. After successful completion of this conversation, and with

approval of the director of graduate studies and the graduate committee, the student advances to candidacy.

Dissertation

The dissertation, which is defended in a final oral presentation, is typically completed within two years of advancement to candidacy. Dissertations in a discipline such as comparative literature can hardly be said to follow exact specifications, but as a general principle any such project should involve at least two authors, works, and national literatures, and an explicit methodological orientation.

Creative Writing Minor

Students who elect to minor in Creative Writing represent a variety of majors from across the University of Oregon campus. Architecture, Psychology, English, Biology, Journalism, Art History, Classics, Ethnic Studies, Sociology, and Public Relations are just a few of the fields of studies of our past minors. All Creative Writing students enjoy small classes with a highly dedicated faculty.

Imagination and creative are certainly points of emphasis in our courses, but they are in equal balance with an emphasis on critical inquiry and the concise articulation of ideas in the workshop process. Our conversations may be about our art, but they are not *just* about our art. They require compassion and clarity, kindness and honesty. We believe the skills a successful Creative Writing student develops transcend any given workshop in Poetry, Fiction, or Nonfiction. The skills we foster in the Creative Writing Program will serve the aspiring English teacher, medical student, entrepreneur, and computer scientist alike.

For those students interested in pursuing the M.F.A. degree, the Creative Writing Minor signals a serious commitment to craft, and will provide students significant and refined portfolio materials for their applications.

Undergraduate Studies

The Creative Writing Program offers two formal courses of study for University of Oregon undergraduates:

Minor in Creative Writing

The creative writing minor offers courses in which students study matters of craft by reading and writing creative works, develop critical thinking and interpretive skills, hone their ability to articulate complex ideas with subtlety and clarity, and gain instruction in the mechanics of writing. Students must take courses for letter grades. Course work required for the minor must be passed with grades of B– or better.

Of the 24 required credits, a maximum of 8 credits at the 200 or 300 level may be transferred. All courses at the 400 level must be taken in residence at the University of Oregon.

<sup>1</sup> Nontransferable. Kidd Tutorial courses are by application only.

<sup>2</sup> Repeatable for credit.

Questions regarding the minor should be addressed to the program director. Students must apply for the minor through the program's office well in advance of graduation for transcript evaluation. In order to be eligible for the minor, students must complete all degree requirements and a major in another academic department.

## Kidd Tutorial Program

Implemented through the generosity of the Walter P. Kidd family, this yearlong tutorial offers the chance to study writing and literary craft using literary models. The program, which requires a three-term commitment from participants, accommodates a highly flexible and individualized study of fiction, poetry, and literary nonfiction writing. Each section matches one graduate employee—a poet or fiction writer—with as many as 10 students and is overseen by the director of the Kidd Tutorial Program. Participants earn 12 credits in Kidd Workshop I (CRWR 225), Kidd Workshop II Poetry (CRWR 235), Kidd Workshop III: Poetry (CRWR 335) or Kidd Workshop I (CRWR 225), Kidd Workshop II: Fiction (CRWR 245), Kidd Workshop III: Fiction (CRWR 345). Information about application procedures is available on the program's website.

## Creative Writing (MFA)

The Creative Writing Program at the University of Oregon is a two-year residency in which **Master of Fine Arts (MFA)** students concentrate in either poetry or fiction. The Program emphasizes the workshop, integrating concentrated time for writing with craft seminars and individualized reading tutorials.

You'll hear our program is not for the faint of heart. It isn't—and we're proud of that. We hope to offer our students the rigorous apprenticeship we undertook with our own teachers.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Proficiency in close reading. We expect our MFA candidates to read widely and meticulously while pursuing their studies. Our aim is for each student to encounter a variety of historical periods, aesthetic styles, and critical approaches. Any student graduating from our program should be capable of examining a single text for its many formal conventions and the style or styles with which it is conversant.
- Development of vocabularies for assessing literature, with an emphasis on craft. Our graduate students are expected to acquire the clear and sophisticated language that enables them to speak at length about a range of craft considerations for any single piece of literature. This applies to the published works they encounter in our craft seminars, but it is equally essential in the Creative Writing Workshop, when they comprehensively critique the works of their peers.
- Application of the formal elements of craft in either genre. We expect our apprentice poets and fiction writers to be able to identify, assess, and deploy many of the formal conventions they encounter in the

Creative Writing workshop and craft seminar. We believe that the practice of exploring formal challenges is necessary for the MFA student in order to build on his or her own resources as an artist. We especially believe that a knowledge of such conventions is a responsibility of any writer in our MFA program.

- Familiarity with fundamental concepts, forms, modes, and traditions in literary fiction and/or poetry. At the graduate level, this outcome is particularly geared toward and measured by the MFA exam that all of our graduating students take at the end of their second year. Our expectation is that our students will demonstrate a command of the texts they have encountered while earning their degrees, along with the multitude of aesthetic concepts, compositional possibilities, and artistic concerns to which they have been exposed.

NOTE: The list of outcomes above builds on the basic expectations we also hold for our undergraduate students in the Creative Writing Program. Because our pedagogical goals are continuously fundamental in nature, both at the undergraduate and graduate level of study, we view our curriculum and the varietal redundancies below as a cumulative process, one through which our poets and fiction writers build a portfolio of knowledge whose components are interactive. This is to say we view historical periods, critical modalities, and aesthetic movements to be in constant conversation with one another.

Additionally, what distinguishes the outcomes below from their undergraduate counterparts is that we expect all our MFA candidates to wear two hats simultaneously: that of the apprentice writer and that of the apprentice teacher, given that all of the people enrolled in our program teach Creative Writing classes in their first year and Composition in their second. The following outcomes should be considered very much in this context, in that our graduate students are expected to both pursue these goals as scholars then contemplate the many ways these skills translate to their own pedagogical experience.

The entirety of our curriculum is structured with the expectation that we enable our MFA graduates to continue to grow intellectually and develop as writers and masters of the craft once they have received their degrees, long after they have left the University of Oregon.

## Master of Fine Arts Degree Requirements

The candidate must complete the graduate work during six consecutive terms in residence at the university. The candidate must pass a written examination on a reading list of works of fiction or poetry.

| Code     | Title                           | Credits |
|----------|---------------------------------|---------|
| CRWR 605 | Writing and Conference: [Topic] | 9       |

## East Asian Languages and Literatures

### Yugen Wang, Department Head

304 Friendly Hall  
1248 University of Oregon  
Eugene, Oregon 97403-1248  
ygwang@uoregon.edu (ygwant@uoregon.edu)

The Department of East Asian Languages and Literatures presents a wide range of courses in several programs, from introductory courses in the languages and literatures of East Asia (Chinese, Japanese, and Korean) to advanced graduate-level study of linguistics and literature. Undergraduate degrees include a bachelor of arts (BA) degree in Chinese or Japanese and minors in Chinese, Japanese, or Korean. The department also offers master's (MA) and doctoral (PhD) degrees in East Asian languages and literatures. At all levels, students may choose to focus on either language or literature, though all degree programs require course work from both areas.

The department typically supports dozens of students in graduate-level study while 100 undergraduate BA majors graduate each year. Faculty members are strongly committed to promoting a rich immersion in Chinese, Japanese, and Korean, and undergraduates and graduate students alike are encouraged to study abroad and conduct research throughout East Asia.

### Preparation

The department recommends the following preparation for study leading to an undergraduate major or minor in Chinese, Japanese, or Korean:

As much work as possible in the student's major language, focusing on oral and written communication and reading comprehension  
Knowledge of the history, culture, and geography of the area in which that language is spoken

Course work in literary analysis and cultural studies

### Careers

Students with an undergraduate degree in Chinese, Japanese, or Korean are well prepared for graduate-level study in the humanities, social sciences, and professions (e.g., law or business). They are also suited to a range of jobs in many different sectors, including business, education, and journalism as well as government agencies and nonprofit organizations. Recent graduates have found jobs in all of these areas.

## Faculty

Roy Chan, associate professor (modern Chinese and Russian literature). BA, 2002, Washington (Seattle); PhD, 2009, California, Berkeley. (2013)

Weijun Chen, senior instructor (Chinese). BA, 1997, Anhui; MA, 2000, Nanjing. (2008)

Rachel DiNitto, professor (modern Japanese literature, cultural studies). BA, 1988, Pennsylvania; MA, 1996, PhD, 2000, Washington (Seattle). (2015)

Maram Epstein, professor (Ming-Qing vernacular fiction). BA, 1983, MA, 1987, PhD, 1992, Princeton. (1994)

Alisa D. Freedman, professor (modern Japanese literature and film). BA, 1991, Wesleyan; MA, 1995, PhD, 2002, Chicago. (2005)

Yukari Furikado-Koranda, senior instructor (Japanese). BA, 2002, Kobe College; MA, 2010, Oregon. (2010)

Denise Gigliotti, senior instructor (Chinese). BA, 1995, National Taiwan; MA, 1998, California, Los Angeles. (2002)

Alison Groppe, associate professor (Chinese culture). BA, 1989, Wellesley College; MA, 1995, PhD, 2006, Harvard. (2008)

Luke Habberstad, associate professor (early Chinese literature). BA, 2003, Yale; MA, 2007, PhD, 2014, California, Berkeley. (2014)

Reiko Hashimoto, senior instructor (Japanese). BA, 1982, Chukyo; MA, 1992, Minnesota State, Mankato; PhD, 2000, Indiana, Bloomington. (2000)

Kaori Idemaru, professor (linguistics). BA, 1990, Osaka; MA, 1992, Northern Iowa; PhD, 2005, Oregon. (2008)

Rika Ikei, senior instructor (Japanese). BA, 1992, Kyoto University of Foreign Studies; MA, 1998, West Chester. (2003)

Zhuo Jing-Schmidt, professor (Chinese linguistics). BA, 1992, MA, 1995, Peking; MA, 1997, California, Los Angeles; PhD, 2005, Cologne. (2010)

Boyoung Kim, instructor (Korean). B.A. with Honors, University of Iowa; M.A., Ph.D., University of California, San Diego

Jina Kim, associate professor (Korean literature). BA, 1993, University of Chicago; MA, 2002, University of Washington; MA, 2009, Cornell; PhD, 2006, University of Washington. (2018)

Nayoung Kwon, associate professor (Korean linguistics). BA, 1997, Korea; MA, 1999, Korea; MA, 2003, California (San Diego); PhD, 2008, California (San Diego). (2020)

Fengjun Mao, senior instructor (Chinese). BA, 2000, MA, 2003, East China Normal. (2008).

Naoko Nakadate, senior instructor (Japanese). BA, 1988, Tokyo University of Foreign Studies; MA, 1992, Oregon. (1993)

Yoko O'Brien, senior instructor (Japanese). BA, 1996, Washington State; MA, 2000, Oregon. (2007)

Thomas Glynne Walley, associate professor (early modern Japanese literature). BA, 1996, Brigham Young; MA, 2001, Washington (St. Louis); PhD, 2009, Harvard. (2012)

Yugen Wang, professor (classical Chinese poetry and poetics). BA, 1992, Anhui Normal; MA, 1995, Peking; PhD, 2005, Harvard. (2005)

Sunhee Woo, instructor (Korean). BA, 2004; M.Ed, 2012, Graduate School of Education, Hanyang University. (2021)

Jean Yuanpeng Wu, senior instructor (Chinese). BA, 1982, China University of Geosciences; MA, 1990, West Virginia; PhD, 1998, Michigan State. (1996)

## Emeriti

Stephen W. Durrant, professor emeritus. BA, 1968, Brigham Young; PhD, 1975, Washington (Seattle). (1990)

Michael B. Fishlen, associate professor emeritus. BA, 1965, Knox College; MA, 1968, PhD, 1973, Indiana; JD, 1987, Oregon. (1970)

Angela Jung-Palandri, professor emerita. BA, 1946, Catholic University, Peking; MA, 1949, MLS, 1954, PhD, 1955, Washington (Seattle). (1962)

Stephen W. Kohl, associate professor emeritus. BA, 1967, PhD, 1974, Washington (Seattle). (1972)

Wendy Larson, professor emerita. BA, 1974, Oregon; MA, 1978, PhD, 1984, California, Berkley. (1985)

*The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.*

## Undergraduate Programs

### Majors - Bachelor's Degree

- Chinese (BA) (p. 87)
- Japanese (BA) (p. 91)

### Minors

- Chinese (p. 95)
- Japanese (p. 96)
- Korean (p. 96)

## Graduate Programs

### Major - Master's Degree

- East Asian Languages and Literatures (MA) (p. 96)

### Major - Doctoral Degree

- East Asian Languages and Literatures (PhD) (p. 99)

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate mastery of subject content knowledge.
- Demonstrate effective oral and written communication skills.
- Conduct independent research and analysis in their discipline and contribute original and substantive work in their field.
- Demonstrate independent critical thinking and advanced knowledge in their current discipline and in related areas of their discipline.
- Demonstrate professionalization in the field of study in the form of publications, presentations, conference attendance, funded fellowships received, and other professional association activities.

## Chinese (BA)

Achieve a high level of proficiency in Chinese language through friendly, activity-filled, intensive classes. You will learn Chinese culture, society, literature, and linguistics from historical and contemporary perspectives.

Students have the option of three different tracks in the Chinese major: language, culture, or linguistics. In consultation with department advisors, you can select a track that allows you to study and master the aspects of

Chinese that interest you most. Chinese is one of several majors taught within the Department of East Asian Languages and Literatures.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Content objectives: for culture and language intensive: Identify, describe, and explain materials, terminologies, methodologies, and theories in Chinese literature, film and media. For linguistics intensive: Describe, analyze and explain language structure and usage using terminologies, methodologies, and theories in Chinese linguistics.
- Critical thinking/Analytical skills: for culture and language intensive: Read, discuss, and evaluate texts from both historical sources and contemporary works in literature, film and media, and linguistics, employing methodologies and criteria. For linguistics focus: Discuss and evaluate descriptive grammars of Chinese, as well as studies on various levels of Chinese linguistics including, phonetics, phonology, semantics, syntax, pragmatics, sociolinguistics and the relationship between language, cognition and culture.
- Argumentation: Formulate original arguments, anticipating objections and responding in conscientious fashion.
- Communication: Communicate knowledge, ideas, and reasoning in written, oral, or other forms, in English or Chinese. Reach intermediate/advanced proficiency level in written and spoken modern Chinese. For CHN language intensive: Acquire introductory to intermediate reading skills in classical Chinese.
- Culture Intensive (p. 87)
- Language Intensive (p. 88)
- Linguistics Intensive (p. 88)

## Bachelor of Arts in Chinese: Culture-Intensive Option

At least five of the required courses must be completed within the Department of East Asian Languages and Literatures.

| Code                                                                                                                                                                                  | Title                                              | Credits   |

<sup>1</sup> Courses must be in Chinese language, culture, literature, linguistics, film, or other advisor-approved areas taken from this or other departments. Of these, at least three must be from the Department of East Asian Languages and Literatures, with two having the CHN subject code. A third non-Chinese course chosen from within the department may also count toward the culture-intensive option.

Bachelor of Arts in Chinese: Language-Intensive Option

At least five of the required courses must be completed within the Department of East Asian Languages and Literatures.

| Code                           | Title                                              | Credits |
|--------------------------------|----------------------------------------------------|---------|
| CHN 301                        | Third-Year Chinese                                 | 5       |

## Japanese (BA)

Learn Japanese language in friendly, activity-based, intensive classes designed to achieve high-level proficiency. You will learn the basics of Japanese culture, society, literature and linguistics from historical and contemporary perspectives. Japanese is one of several majors taught within the Department of East Asian Languages and Literatures including Korean and Chinese.

Students have the option of three different tracks in the Japanese major: language, culture, or linguistics. In consultation with department advisors,

## Japanese (BA)

Learn Japanese language in friendly, activity-based, intensive classes designed to achieve high-level proficiency. You will learn the basics of Japanese culture, society, literature and linguistics from historical and contemporary perspectives. Japanese is one of several majors taught within the Department of East Asian Languages and Literatures including Korean and Chinese.

Students have the option of three different tracks in the Japanese major: language, culture, or linguistics. In consultation with department advisors, you can choose a track that will allow you to study and master those aspects of Japanese that interest you most.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Content objectives (literature/film/culture): for culture and language intensive: Identify, describe, and explain materials, terminologies, methodologies, and theories in Japanese literature, film, media, or linguistics. For linguistics intensive: Identify, describe, and explain materials, terminologies, methodologies, and theories in Japanese linguistics.
- Critical thinking/Analytical skills: for culture and literature intensive: Read, discuss, and evaluate texts from both historical sources and contemporary works in literature, film and media, and linguistics, employing methodologies and criteria. For linguistics intensive: Discuss and evaluate descriptive grammars of Japanese, as well as studies on various levels of Japanese linguistics including, phonetics, phonology, semantics, syntax, pragmatics, sociolinguistics and the relationship between language, cognition and culture.
- Argumentation: Formulate original arguments, anticipating objections and responding in conscientious fashion.
- Communication: Communicate knowledge, ideas, and reasoning in written, oral, or other forms of languages, in English or Japanese. Reach intermediate/advanced proficiency level in written and spoken modern Japanese.
- Culture Intensive (p. 92)
- Language Intensive (p. 92)
- Linguistics Intensive (p. 92)

## Bachelor of Arts in Japanese: Culture-Intensive Option

At least five of the required courses must be completed within the Department of East Asian Languages and Literatures.

## Chinese Minor

Learn Chinese language, culture, society, literature, and linguistics from historical and contemporary perspectives. Our classes encourage active participation and communication in a friendly and supportive environment. The Chinese minor combines language courses with culture, literature, and linguistics courses. Chinese is one of several minors taught within the Department of East Asian Languages and Literatures.

### Minor in Chinese

The Chinese minor requires a minimum of six upper-division courses (24 graded credits), which must consist of at least three language courses, two courses in literature, linguistics, and/or culture, and a sixth course with a CHN or EALL subject code. At least three of the six courses must be taken in residence on the University of Oregon campus from the Department of East Asian Languages and Literatures.

| Code                                                                                                          | Title                         | Credits |
|---------------------------------------------------------------------------------------------------------------|-------------------------------|---------|
| Modern Chinese language—a minimum of three courses, at third-year level or higher, chosen from the following: |                               |         |
| CHN 301                                                                                                       | Third-Year Chinese            |         |
| CHN 302                                                                                                       | Third-Year Chinese            |         |
| CHN 303                                                                                                       | Third-Year Chinese            |         |
| CHN 411                                                                                                       |                               |         |
| CHN 412                                                                                                       |                               |         |
| CHN 413                                                                                                       | Modern Chinese Texts: [Topic] |         |
| Culture, literature, film, linguistics—a minimum of two courses chosen from the following                     |                               |         |

|         |                                                    |
|---------|----------------------------------------------------|
| CHN 305 | History of Chinese Literature                      |
| CHN 306 | History of Chinese Literature II, The Imperial Age |
| CHN 307 | History of Chinese Literature                      |
| CHN 308 | Literature of Modern Taiwan                        |
| CHN 480 | Chinese Linguistics                                |

Upper-division language courses must be taken at the University of Oregon or through an Oregon University System program in China. Lower-division courses must be passed with grades of C– or better or P; upper-division courses must be passed with grades of C– or better.

## Japanese Minor

Learn Japanese language, culture, society, literature, and linguistics from historical and contemporary perspectives. Our classes encourage active participation and communication in a friendly and supportive environment. The Japanese minor combines language courses with culture, literature, and linguistics courses. Japanese is one of several minors taught within the Department of East Asian Languages and Literatures.

### Minor in Japanese

The Japanese minor requires a minimum of 6 upper-division courses (a minimum of 24 graded credits), which must consist of at least 3 language courses, 2 courses in literature, linguistics, and/or culture, and a sixth course that has any JPN or EALL subject code. At least three of the six courses must be taken in residence on the University of Oregon campus from the Department of East Asian Languages and Literatures.

| Code                                                                                                    | Title                                    | Credits |
|---------------------------------------------------------------------------------------------------------|------------------------------------------|---------|
| Japanese language—a minimum of three courses, at third-year level or higher, chosen from the following: |                                          |         |

| JPN 437                                                                                                 | Classical Japanese Literary Language     |         |
| JPN 455                                                                                                 | Japanese Business Culture and Language   |         |
| Culture, literature, film, linguistics—a minimum of two courses chosen from the following               |                                          |         |
| JPN 305                                                                                                 | Introduction to Japanese Literature      |         |
| JPN 306                                                                                                 | Introduction to Japanese Literature      |         |
| JPN 307                                                                                                 | Introduction to Japanese Literature      |         |
| JPN 315                                                                                                 | Introduction to Japanese Linguistics     |         |

Upper-division language courses must be taken at the University of Oregon or through an Oregon University System program in Japan. Lower-division courses must be passed with grades of C– or better or P; upper-division courses must be passed with grades of C– or better.

## Korean Minor

Learn Korean language, culture, society, literature, and linguistics from historical and contemporary perspectives. Our classes encourage active participation and communication in a friendly and supportive environment. The Korean minor combines language courses with culture, literature, and linguistics courses. Korean is one of several minors taught within the Department of East Asian Languages and Literatures.

### Minor in Korean

The Korean minor requires a minimum of six upper-division courses (24 graded credits), which must consist of at least three language courses, two courses in literature, linguistics, and/or culture, and a sixth course with a KRN or EALL subject code. At least three of the six courses must be taken in residence on the University of Oregon campus from the Department of East Asian Languages and Literatures.

| Code                                                                                                  | Title                                       | Credits |
|-------------------------------------------------------------------------------------------------------|---------------------------------------------|---------|
| Korean language—a minimum of three courses, at third-year level or higher, chosen from the following: |                                             |         |
| KRN 301                                                                                               | Third Year Korean                           | 5       |
| KRN 302                                                                                               | Third-Year Korean                           | 5       |
| KRN 303                                                                                               | Third-Year Korean                           | 5       |
| KRN 411                                                                                               |                                             | 4       |
| KRN 412                                                                                               |                                             | 4       |
| KRN 413                                                                                               |                                             | 4       |
| Culture, literature, film, linguistics—a minimum of two courses chosen from the following:            |                                             |         |
| KRN 309                                                                                               | Languages and Cultural Formation in Korea   | 4       |
| KRN 315                                                                                               | Introduction to Korean Linguistics          | 4       |
| KRN 361                                                                                               | Korean Popular Culture and Transnationalism | 4       |

Upper-division language courses must be taken at the University of Oregon or through an Oregon University System program in Korea. Lower-division courses must be passed with grades of C– or better or P; upper-division courses must be passed with grades of C– or better.

## East Asian Languages and Literatures (MA)

<https://eall.uoregon.edu/>

The Department of East Asian Languages and Literatures offers programs of study leading to the degrees of master of arts (MA) in East Asian Languages and Literatures. Students may choose to specialize in Chinese Studies, Japanese Studies, Korean Studies, or Linguistics.

In addition to departmental requirements, graduate students must fulfill the general requirements of the Division of Graduate Studies listed in that section of this catalog.

The Chinese, Japanese, and Korean studies programs, which prepare students to work in a variety of professional and academic fields, provide intensive training in linguistic and textual analysis and an extensive exposure to literary theory, film studies, and comparative and cultural studies. The department encourages students to develop their specialization in East Asian literatures and films in broader, more

comparative, and more interdisciplinary and transnational perspectives than has been the case in traditional programs. The faculty's research and teaching interests cover the major fields, genres, and chronological divisions of Chinese, Japanese and Korean literature and film. They encourage creative connections and challenges to conventional disciplinary boundaries by exploring the relationships between literature-cinema and such areas as history, law, linguistics, politics, religion, philosophy, sociology, theater and the performing arts, and women's, gender, and sexuality studies.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Coursework Master's Students: Demonstrate mastery of subject content knowledge.
- Coursework Master's Students: Demonstrate effective oral and written communication skills.
- Thesis Master's Students: Demonstrate mastery of subject content knowledge.
- Thesis Master's Students: Demonstrate effective oral and written communication skills.
- Thesis Master's Students: Conduct independent research and analysis in their discipline and contribute substantive work in their field.
- Chinese Studies (p. 97)
- Japanese Studies (p. 97)
- Korean Studies (p. 98)
- Linguistics and Language Pedagogy (p. 98)

## Master of Arts in East Asian Languages and Literatures, Chinese Studies: Option One

This is the usual option for students seeking the MA degree in East Asian languages and literatures with a specialization in Chinese studies. It prepares students for study at the doctoral level.

| Code                                                                                                                                                                                                    | Title                                         | Credits   |

<sup>1</sup> Reading and Conference: [Topic] (CHN 605) may be counted toward the fourteen required courses, with advisor approval.

<sup>2</sup> Students who elect to write a thesis must register for this course.

Students must pass a comprehensive written examination at the end of study or write a master of arts thesis.

## Master of Arts in East Asian Languages and Literatures, Chinese Studies: Option Two

A master's student may, in consultation with the student's advisor, apply for early entry to the PhD program. Such applications are typically made spring term but, in any event, after at least two terms at the university. Applications must include transcripts, three recommendations, and a statement of the student's prospective course of study. Students who elect this option are awarded the master's degree upon completion of the course work for the PhD degree. Students must pass a comprehensive oral examination that covers the student's primary areas of study.

| Code                                                                                                                                                                                                    | Title                                         | Credits   |

<sup>1</sup> For nonnative speakers of Japanese; native speakers of Japanese take an additional course in Japanese studies in place of this requirement.

In addition to the completion of the required courses, students must pass a comprehensive examination at the end of study or complete a master of arts thesis. The examination and degree-granting process differs for

terminal MA students and for students who apply for continued study in the university's PhD program (see below).

Terminal MA Students in Japanese Studies

Those students who are not planning to go on to the PhD must successfully pass a **two-part written examination** based on the following reading list:

- 1. Approximately 20 works of Japanese literature and/or Japanese film, which should provide comprehensive coverage of major periods, writers, and genres of Japanese literature and/or film. The student's advisor will provide a model reading list.
- 2. Approximately 10 works of general theory and criticism, based on the student's specialized area, which can be outside the area of Japanese studies.
- 3. Approximately 10 works in a specialized area of the student's own choosing.

The first part of the exam shall include questions pertaining to broad issues in the field of Japanese literature and film deriving from section one of the student's reading list. The second part of the exam, to be administered a week later, shall cover more specialized questions deriving from sections two and three of the student's reading list. The student shall have forty-eight hours for each part to produce the final typed, double-spaced exams of approximately ten to twelve pages each.

The faculty committee administering the examination shall determine whether the student has successfully fulfilled the requirements for the MA degree, and shall confer one of the following grades: *distinction*, *clear pass*, *marginal pass*, or *failure*. Should the advisor determine that the candidate has not been successful, he or she may recommend that the student be given one additional opportunity to pass the exam during the next academic term.

Consulting the advisor, the student can complete an MA thesis instead of passing a comprehensive examination at the end of study. Students who elect to write a thesis must register for 9 credits of Thesis (JPN 503). As in the case of students who take comprehensive examinations, the faculty committee shall determine whether the student has successfully fulfilled the requirements of the MA degree, and shall confer one of the following grades: *distinction*, *clear pass*, *marginal pass*, or *failure*. Should the committee determine that the candidate has not been successful, its members may recommend that the student be given additional time to revise the thesis or to pass the exam during the next academic term.

Master of Arts in East Asian Languages and Literatures, Korean Studies

The MA degree in East Asian Languages and Literatures with a specialization in Korean literature, film, and culture requires successful completion of a minimum of 12 graduate-level courses (at least 4 credits each). These courses must be chosen in consultation with the student's advisor.

| Code                                                                   | Title | Credits |
|------------------------------------------------------------------------|-------|---------|
| Three courses in the Korean sector                                     |       | 12      |
| Four Korea-related courses, which may be taught outside the department |       | 16      |
| Five advisor-approved electives with the subject code EALL             |       | 20      |
| Total Credits                                                          |       | 48      |

In addition to completion of the required courses, students must pass a comprehensive examination at the end of study or write and defend a MA thesis.

Option 1: MA Comprehensive Exam

Students who choose to take a comprehensive exam must successfully pass a two-part written examination based on the following reading list:

- 1. Approximately 20 works of Korean literature and/or film, which should provide comprehensive coverage of major periods, writers, and genres of Korean literature and/or film. The student's advisor will provide a model reading list.
- 2. Approximately 10 works of general theory and criticism, based on the student's specialized area, which can be outside of the area of Korean studies.
- 3. Approximately 10 works of a specialized area of the student's own choosing.

The first part of the exam shall include questions pertaining to broad issues in the field of Korean literature and/or film deriving from section one of the students' reading list. The second part of the exam, to be administered a week later, shall cover more specialized questions deriving from sections two and three of the student's reading list. The student shall have 48 hours for each part to produce the final typed, double-spaced exams of approximately 10 to 12 pages each.

Option 2: MA Thesis

Students who elect to write a thesis must register for 9 credits of Thesis (KRN 503).

Two terms before graduation, the student meets with the advisor during the first week of the term to set up a two-member committee and a schedule for submitting thesis or project drafts (e.g., the first week of winter term if planning to graduate spring term).

At least six weeks before the date of the thesis or project defense, the student submits a draft to the main advisor for approval. The advisor is expected to return comments within two weeks. Then, a continuing dialogue ensues between the student and advisor until the manuscript is considered complete. If approval is not obtained at this point, there is no guarantee that the student will be able to graduate that term.

The student submits a clean copy of the thesis or project to the advisor and committee members either two weeks before defense or four weeks before the filing date for an approved thesis as published by the Graduate School.

East Asian Languages and Literatures Major - Linguistics and Language Pedagogy

This MA program offers a complete East Asian linguistics and pedagogy program, covering Chinese, Japanese, and Korean. Students may elect to specialize in Chinese, Japanese, or Korean linguistics and pedagogy.

| Code                            | Title                          | Credits |

| EALL 542 | Second-Language Acquisition            |
| EALL 543 | Chinese, Japanese, and Korean Pedagogy |
| EALL 680 | Linguistics Research and Bibliography  |

One course in Korean pedagogical grammar

**Linguistics Electives**

Choose at least four of the following: 16

|          |                                                              |
|----------|--------------------------------------------------------------|
| CHN 582  | History of the Chinese Language                              |
| CHN 507  | Seminar: [Topic] (Figurative Language)                       |
| EALL 507 | Seminar: [Topic] (Sociophonetics)                            |
| EALL 507 | Seminar: [Topic] (Phonetics and Second-Language Acquisition) |

**Open Electives**

Four advisor-approved courses in linguistics, literature, and languages with an EALL subject code 16

<sup>1</sup> Must be taken by all graduate students during first term.**Additional Requirements**

Nonnative speakers are required to complete a course (or receive credit by examination) in the language in which they specialize at the fourth-year level. For Japanese, this would be a Global Scholars course.

The Graduate School requires all MA students to take a total of 9 credits in 600-level courses.

**MA Comprehensive Exam, MA Project, or MA Thesis (4–9 credits).**

Students are required to either pass an MA comprehensive exam or successfully complete an MA project or thesis.

## East Asian Languages and Literatures (PhD)

<https://eall.uoregon.edu/>

The Department of East Asian Languages and Literatures offers the doctor of philosophy (PhD) in East Asian Languages and Literatures. Students may choose to specialize in Chinese Studies, Japanese Studies, Korean Studies, or Linguistics.

In addition to departmental requirements, graduate students must fulfill the general requirements of the Division of Graduate Studies listed in that section of this catalog.

The Chinese, Japanese, and Korean studies programs, which prepare students to work in a variety of professional and academic fields, provide intensive training in linguistic and textual analysis and an

extensive exposure to literary theory, film studies, and comparative and cultural studies. The department encourages students to develop their specialization in East Asian literatures and films in broader, more comparative, and more interdisciplinary and transnational perspectives than has been the case in traditional programs. The faculty's research and teaching interests cover the major fields, genres, and chronological divisions of Chinese, Japanese and Korean literature and film. They encourage creative connections and challenges to conventional disciplinary boundaries by exploring the relationships between literature-cinema and such areas as history, law, linguistics, politics, religion, philosophy, sociology, theater and the performing arts, and women's, gender, and sexuality studies.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate mastery of subject content knowledge.
- Demonstrate effective oral and written communication skills.
- Conduct independent research and analysis in their discipline and contribute original and substantive work in their field.
- Demonstrate independent critical thinking and advanced knowledge in their current discipline and in related areas of their discipline.
- Demonstrate professionalization in the field of study in the form of publications, presentations, conference attendance, funded fellowships received, and other professional association activities.
- Chinese Studies (p. 99)
- Japanese Studies (p. 100)
- Korean Studies (p. 100)
- Linguistics (p. 100)

## PhD in East Asian Languages and Literatures, Chinese Studies

The PhD degree in East Asian languages and literatures with a specialization in Chinese studies requires completion of a minimum of six 4-credit graduate-level courses beyond those required for the MA degree. Depending on the student's background or preparation at the time of admission to the PhD program, the number of required courses may be nine or twelve. Courses must be chosen in consultation with the student's advisor.

| Code                                                    | Title                                         | Credits |
|---------------------------------------------------------|-----------------------------------------------|---------|
| Six courses in Chinese literature, linguistics, or film |                                               |         |
| CHN 623                                                 | Early Chinese Literature                      | 5       |
| CHN 624                                                 | Medieval and Late Imperial Chinese Literature | 5       |
| CHN 625                                                 | Modern Chinese Literature                     | 5       |

Select one of the following:

Demonstrate the ability to use a second foreign language substantively in research or pass a translation examination in the language

Demonstrate advanced knowledge of a particular methodology or theory by taking three graduate-level courses, including one course in CHN 605 for which the student writes a paper applying the methodology to Chinese literature

Complete three courses in a secondary literature

<sup>1</sup> Or equivalents—unless the student has already taken these courses.

## PhD in East Asian Languages and Literatures, Japanese Studies

The PhD with a specialization in Japanese studies requires students to successfully complete nine graduate courses beyond the number required for the MA degree. These courses must be chosen in consultation with the student's advisor. Appropriate courses in related fields (e.g., Japanese history, religion) may be substituted with the advisor's approval.

| Code                                                                           | Title | Credits |
|--------------------------------------------------------------------------------|-------|---------|
| Four courses in Japanese studies                                               |       |         |
| Two courses in methodology-theory, preferably in Japanese studies <sup>1</sup> |       |         |
| Japanese linguistics or teaching methodology course                            |       |         |
| Two courses chosen in consultation with advisor <sup>1</sup>                   |       |         |

<sup>1</sup> At least one of the two must be in EALL

## PhD in East Asian Languages and Literatures, Korean Studies

The PhD degree in East Asian languages and literatures with a specialization in Korean studies requires nine to twelve graduate-level courses depending on the student's background or preparation at the time of admission to the PhD program. The program will be customized in consultation with the student's advisor.

## PhD in East Asian Languages and Literatures, Linguistics

The PhD with a specialization in East Asian linguistics is designed to build a high level of competence in linguistics research in Chinese, Japanese, or Korean. The program has four components:

- Course work
- Comprehensive exam
- Qualifying paper
- Dissertation

A total of nine graduate courses beyond those at the MA level is required. Courses must be chosen in consultation with a doctoral advisor.

| Code                                                         | Title                                  | Credits |
|--------------------------------------------------------------|----------------------------------------|---------|
| Choose three or more core courses in East Asian linguistics: |                                        |         |
| CHN 580                                                      | Chinese Linguistics                    |         |
| EALL 540                                                     |                                        |         |
| EALL 541                                                     |                                        |         |
| EALL 680                                                     | Linguistics Research and Bibliography  |         |
| Choose three or more electives in East Asian linguistics:    |                                        |         |
| CHN 581                                                      | Pedagogical Grammar of Chinese         |         |
| CHN 582                                                      | History of the Chinese Language        |         |
| EALL 543                                                     | Chinese, Japanese, and Korean Pedagogy |         |
| KRN 510                                                      | Experimental Course: [Topic]           |         |
| EALL 542                                                     | Second-Language Acquisition            |         |

| CHN 603 | Dissertation |
| JPN 603 | Dissertation |

Other electives may be taken in linguistics, language teaching specialization, or psychology in consultation with an advisor.

Students in the PhD track must successfully complete a comprehensive examination and prospectus defense (culture students) or qualifying paper (linguistics students) to advance to candidacy (all but dissertation) status. By the end of their second year in the program (at the very latest), each student should identify a committee of three faculty members who will oversee their training for the comprehensive examination. Since each person's needs and interests may be different, students are expected to work closely with their primary advisor at all stages of the process.

## Comprehensive Examination

The goal of the comprehensive examination is to ensure that students have received training broad enough to qualify as a teacher beyond the narrow research focus of their dissertation. The comprehensive examination is composed of a written and an oral component.

In conjunction with their primary advisor, students choose three fields, a major field and two minor fields, each to be advised by a faculty member in that area. Cultural fields may be determined by genre, time period, or methodology; linguistic fields may be determined by theoretical orientation, language orientation, and methodology. In conjunction with their advisors, students develop a reading list of twenty to forty items for each field. For culture students, these items may include both primary and secondary texts; the composition of each reading list will be tailored to the individual student's needs. It is expected that reading lists will develop organically from graduate seminars and readings and conferences.

For each field, the student will submit a comprehensive examination paper. The papers may be developed from a term paper written for a seminar or written for the sake of the examination, as determined by the advisor. These comprehensive examination papers should demonstrate the student's broad knowledge of a field. Ideally, for the major field, this paper will be the basis for a dissertation chapter. In some instances, students may be asked to develop a syllabus rather than write a research paper.

Advisors have two weeks to read and approve each comprehensive examination paper. After the three comprehensive examination papers have been approved by the field examiner and the primary advisor, the student schedules an oral examination. The oral examination (one to two hours in duration) is an opportunity for the three examiners to engage the student in an in-depth conversation about the items on the reading lists. The goal of the oral examination is to ensure that students have enough familiarity with both the critical and primary works in the field to teach at the postsecondary level. The oral examination is not open to the public.

Both parts of the comprehensive examination should be completed by the end of the student's third year in the program. It is at the discretion of the committee to determine if students should have a second opportunity to sit for an oral examination if the first attempt is not successful. At the discretion of the committee, those students whose performance is deemed unsatisfactory may be granted a terminal MA.

## Prospectus (Culture Track)

Before scheduling the prospectus defense, students need to notify the graduate secretary of the membership of their dissertation committee (three faculty members from the department and one from another

department). The prospectus defense is the first meeting of the entire dissertation committee to provide feedback on the dissertation research project. The prospectus, a document of twenty to thirty pages, should introduce the research question, the methodology, and a basic outline of the dissertation; a bibliography is required. Once the advisors approve a draft of the dissertation prospectus, certifying that in their opinion the project is well-conceived and viable, the student schedules a meeting of the entire committee. A defense is an opportunity for the committee to ask questions and provide advice and direction for the research project. The prospectus defense is public.

In order to leave enough time for the dissertation research and writing, the prospectus defense should take place during the third year of study and no later than the winter term of the fourth year. Students who are unable to complete a viable prospectus by spring of their fourth year in the program will be granted a terminal MA.

### Qualifying Paper (Linguistics Track)

As the equivalent of the prospectus defense for culture track students, linguistics students are expected to produce an original publishable paper, of substantial length and quality, in a subfield of linguistics. This qualifying paper should demonstrate the student's ability to carry out an empirical study and write an analytical research paper. The unmodified MA thesis cannot serve this purpose.

A committee consisting of the advisor and a second faculty member familiar with the subfield will referee the qualifying paper. The student may be asked to revise the qualifying paper before it is accepted as satisfactory work. Upon documented completion of the paper, the student needs to identify a dissertation committee (three faculty members from the department and one from another department) and notify the graduate secretary. The student then confirms the dissertation topic and presents a prospectus constituting a short abstract detailing their research topic. This should be done within one term of completing the qualifying paper. After the prospectus has been approved, the student will advance to candidacy.

To leave enough time for the dissertation research and writing, the qualifying paper and prospectus should be completed during the third year of study and no later than the winter term of the fourth year. Students who are unable to complete a viable qualifying paper by spring of their fourth year in the program will be granted a terminal MA.

### Program Goals

The comprehensive examination is distinct from the dissertation prospectus or qualifying paper. The comprehensive examination papers and oral examination involve general preparation and give the student an opportunity to show broad knowledge of a field. The prospectus defense for culture-track students is more narrowly focused on the dissertation project and demonstrates the student's ability to identify and define a research project. Similarly, the qualifying paper for linguistics students is focused on the student's main research area and demonstrates the ability to undertake a research project. The comprehensive examination and prospectus defense or qualifying paper enable students to demonstrate that they can be successful as teachers and researchers. Students will advance to ABD (all but dissertation) status after the successful completion of both the comprehensive examination and the prospectus defense or qualifying paper, in addition to the completion of all required course work.

## Dissertation

A dissertation committee is formed at least one month before the prospectus is presented for review and approval. This committee advises the student on writing the dissertation and approves the completed dissertation.

Students who have taken an MA comprehensive exam in Japanese studies do not need to take a PhD comprehensive exam. However, they need to defend their dissertation prospectus within one academic term after the completion of doctoral course work.

## English

### Mark Whalan, Department Head

118 Prince Lucien Campbell Hall  
1286 University of Oregon  
Eugene, Oregon 97403-1286

541-346-1509 fax  
engl@uoregon.edu

With nearly 50 full-time faculty members, the Department of English offers students a broad foundation in traditional British, American, and Anglophone literary studies, as well as intensive course work in interdisciplinary studies, emerging media, and current critical methodologies. Its lower-division courses provide training in writing and introduce the student to literature as a humanistic discipline. Its upper-division courses emphasize the humanistic values that emerge from studying literature and allied disciplines analytically and in depth.

We teach exciting courses in argumentative writing, critical thinking, and ethical dialogue—all skills employers and professional schools desire from new graduates. Our major, minors, and graduate programs include distinctive offerings in environmental humanities, comics and cartoon studies, medical humanities, disability studies, digital humanities, and the study of race and ethnicity.

The study of English opens doors to many careers. All fields of endeavor place high value on the ability to read intelligently and to write clearly. A major in English, with judiciously selected electives, prepares students not only to find that essential first job but also to possess the breadth of outlook and depth of perspective that become increasingly important in subsequent phases of their careers. A student preparing for graduate study in English should construct an appropriate course of undergraduate study in consultation with a faculty advisor.

## Expository Writing

The English department offers required and elective courses in expository writing for all university students to help them improve their ability to write clearly and effectively. Students must fulfill the university writing requirement of two composition courses or be cleared according to established waiver and exemption policies. The requirement is Composition I (WR 121Z) and either Composition II (WR 122Z) or College Composition III (WR 123), or their approved equivalents. Students should complete the writing requirement—with course work, by exemption, or by waiver examination—early in their studies.

## Exemptions

Scores of 37 or better on the new College Board SAT Reading and Writing tests waive the need to take Composition I (WR 121Z). No credit is given for this waiver. A score of 710 or better on the old SAT Critical

Reading test (650 prior to 1995) or 32 or better on the ACT English test will also waive WR 121Z (without credit). A score of 3, 4, or 5 on the Advanced Placement (AP) Language and Composition Examination produces credit for WR 121Z.

## Waiver Examinations

Waiver examinations for Composition I (WR 121Z) and Composition II (WR 122Z) are offered during the first week of classes, fall through spring terms, at the UO Testing Office, 238 University Health, Counseling, and Testing Center Building; call 541-346-3230. Visit the Testing Office website (<https://testing.uoregon.edu/>) to sign up for an examination. No credit is awarded for waiver examinations, and students may not take waiver examinations for both courses in the same term. The essay exams are graded pass/no pass by three members of the Department of English composition committee. Students who do not pass may not retake the examination and should register for the appropriate writing course as soon as possible. Students who pass the exam have an "exemption by exam" notation for either Composition I (WR 121Z) or Composition II (WR 122Z) placed on their degree audit. Waiver exams are not returned to students, nor are they used as a teaching device. Additional help and special tutoring are available to students through the University Teaching and Learning Center.

## Placement

Students for whom English is the native language are placed in their first writing course based on their SAT or ACT verbal scores. Students whose scores fall below 26 on the new SAT Reading and Writing tests, below 480 on the old SAT Verbal, or below 19 on the ACT are eligible for concurrent enrollment in Writing Tutorial (WR 195) with Composition I (WR 121Z).

## Nonnative Speakers

Students for whom English is not the native or primary language are placed in their first writing course on the basis of a placement test. These may include Introductory Academic Writing (AEIS 110), Intermediate Academic Writing (AEIS 111), and Advanced Academic Writing (AEIS 112) (taught in the Department of Linguistics). Placement tests are administered before registration. Nonnative speakers should inquire at the American English Institute, 107 Pacific Hall, for placement test dates.

## Transfer Students

Transfer students in doubt about the equivalency of courses taken elsewhere should bring transcripts and catalog descriptions to the composition office, Department of English, for evaluation.

## Faculty

Faith Barter, assistant professor (19th-century African American literature). AB, 2001, Dartmouth College; JD, 2007, American; MA, 2012, PhD, 2016, Vanderbilt. (2018)

Martha J. Bayless, professor (medieval literature). BA, 1980, Bryn Mawr; MA, 1984, PhD, 1990, Cambridge. (1989)

Carolyn Bergquist, senior lecturer (Renaissance literature; rhetoric and composition). BA, 1994, California State, Stanislaus; MA, 1996, PhD, 2003, Oregon. (2003)

Elizabeth A. Bohls, professor (18th-century literature), associate department head. BA, 1979, Mount Holyoke College; PhD, 1989, Stanford. (1998)

Tina Boscha, senior instructor (composition). BA, 1995, Calvin College; MFA, 2003, Oregon. (2003)

Lara Bovilsky, associate professor (Renaissance literature and culture; graduate professionalism). BA, 1995, Brown; MA, 1998, PhD, 2001, Duke. (2008)

Kirby Brown, associate professor (Native and ethnic American literatures). BA, 1997, Texas, Austin; MA, 2005, Texas, San Antonio. (2011)

Kristy Bryant-Berg, senior instructor (composition). BA, 2002, Colorado, Boulder; MA, 2004, Oregon; PhD, 2009, Oregon. (2014)

Mattie Burkert, assistant professor (digital humanities). BA 2009, New York, NY; MA 2011, Wisconsin, Madison; PhD, 2016, Wisconsin, Madison. (2020)

Anna Carroll, instructor (composition). BA, 2007, MA, 2010, West Florida; PhD, 2015, Oregon. (2018)

Ulrick Casimir, instructor (composition). BA, 1995, North Carolina State; MFA, 2000, North Carolina; MA, 2005, PhD, 2008, Oregon. (2018)

Stephanie Clark, associate professor (medieval literature). BA, 2002, Texas, Dallas; MA, 2004, PhD, 2011, Illinois, Urbana-Champaign. (2011)

Kara Clevinger, senior instructor. BA, 2000, Temple University; MA, 2006, Temple University; PhD, 2015, Temple University. (2014)

José Cortez, assistant professor (rhetoric and composition). BA, 2009, MA, 2011, Eastern Washington; PhD, 2017, Arizona. (2018)

James R. Crosswhite, professor (rhetoric, writing, critical theory). BA, 1975, California, Santa Cruz; MA, 1979, PhD, 1987, California, San Diego. (1989)

Rachel Eccleston, instructor (composition). BA, 2007, Texas, Austin; PhD, 2017, Oregon. (2018)

Karen J. Ford, professor (poetry and poetics, modern poetry, American literature). BA, 1978, California State, Sacramento; MA, 1981, California, Davis; PhD, 1989, Illinois, Urbana-Champaign. (1992)

Miriam Gershow, senior instructor (composition); associate director, composition. BS, 1992, Michigan, Ann Arbor; MFA, 2002, Oregon. (2004)

Helen Huang, instructor (composition). BA, 2002, National Chengchi; MA, 2007, National Taiwan; PhD, 2018, Oregon. (2018)

Michael Jarvis, instructor (composition). BA, 2008, North Carolina, Chapel Hill; MA, 2012, PhD, 2018, California, Riverside. (2018)

Heidi N. Kaufman, Sherl K. Coleman and Margaret E. Guitteau Teaching Professor in the Humanities; associate professor (19th-century British literature). BA, 1991, Drew; MA, 1994, Boston; PhD, 2011, New Hampshire. (2013)

Katherine Kelp-Stebbins, assistant professor (comic studies). BA, 2003, Wesleyan; MA, 2009, PhD, 2014, California, Santa Barbara. (2018)

Anna Kovalchuk, instructor (composition). BA, 2007, California, San Diego; PhD, Oregon, 2017. (2018)

C. Anne Laskaya, associate professor (medieval literature, women writers, rhetoric). BA, 1976, Lawrence; BMus, Lawrence Conservatory of Music; MA, 1978, PhD, 1989, Rochester. (1983)

Stephanie LeMenager, Barbara and Carlisle Moore Distinguished Professor in English and American Literature (environmental literature). BA, 1991, Stanford; MA, 1994, PhD, 1999, Harvard. (2013)

Quinn Miller, associate professor (film and media studies). BA, 2003, Chicago; MA, 2005, PhD, 2010, Northwestern. (2012)

Ross Odell, instructor

Brendan O'Kelly, instructor (composition). BA, 2002, MA, 2004, Colorado, Boulder; PhD, 2016, California, Los Angeles. (2015)

Paul W. Peppis, professor (modern British literature); director, Oregon Humanities Center. BA, 1984, Williams; MA, 1987, PhD, 1993, Chicago. (1995)

Ana Zalyubovskiy, instructor (composition). BA, 1992, MA, 1994, Minnesota State; MFA, 1996, Vermont College. (2018)

Forest Pyle, professor (romanticism, literary theory). BA, 1980, MA, 1983, PhD, 1988, Texas, Austin. (1988)

Mark Quigley, associate professor (Irish literature, 20th-century literature). BA, 1992, Stanford; MA, 1997, PhD, 2003, California, Los Angeles. (2006)

Stephen Rust, senior instructor (composition). BS, 1999, Idaho State; MA, 2006, Oregon State; PhD, 2011, Oregon. (2015)

Benjamin D. Saunders, professor (Renaissance literature, comics studies). BA, 1991, East Anglia; MPhil, 1992, Cambridge; PhD, 2000, Duke. (2000)

Gordon M. Sayre, professor (early American literature, 18th-century literature, folklore), director of undergraduate studies. BA, 1988, Brown; PhD, 1993, State University of New York, Buffalo. (1993)

Emily Simnitt, senior instructor (composition). BA, 1995, Brigham Young; MA, 2005, Idaho State. (2015)

Helen Southworth, professor (modernism, digital humanities). BA, 1989 London; PhD, 1999, California, Los Angeles. (2001)

Thomas Tasker, senior instructor (academic reading and writing, curriculum development). MA, 1992, Illinois, Chicago. (2013)

Courtney Thorsson, associate professor (African American literature, 19th- and 20th-century American literature, food studies). BA, 2000, Virginia; MA, 2004, MPhil, 2006, PhD, 2009, Columbia. (2009)

Avinnash Tiwari, instructor (composition). BA, 2010, Pennsylvania; MA, 2013, Oregon. (2016)

Corbett Upton, senior instructor (Central American poetry); associate director, undergraduate studies. BA, 2001, Arizona State; MA, 2006, PhD, 2010, Oregon. (2010)

Angela Waddell, instructor

Eleanor Wakefield, instructor (composition). BA, 2007, Gonzaga; MA, 2011, PhD, 2017, Oregon, 2017. (2018)

Mark Whalan, professor (modern and 20th-century literature); Robert D. and Eve D. Horn Chair in English and American Literature. BA, 1995, Warwick; MA, 1996, Durham; PhD, 2002, Exeter. (2011)

Elizabeth A. Wheeler, professor (post-1945 literature, cultural studies, disability studies). BA, 1982, Bowdoin; MA, 1988, City University of New York; PhD, 1996, California, Berkeley. (1996)

Jenée Wilde, instructor (composition). BA, 1994, Boise State; MFA, 2003, Goddard College; PhD, 2015, Oregon (2016)

Daniel N. Wojcik, professor (folklore, popular culture). BA, 1978, California, Santa Barbara; MA, 1986, PhD, 1992, California, Los Angeles. (1991)

Henry B. Wonham, professor (19th- and 20th-century American literature). BA, 1983, Princeton; PhD, 1991, Virginia. (1995)

Mary E. Wood, professor (19th-century American literature, gender studies). BA, 1978, Yale; MA, 1980, PhD, 1987, Stanford. (1987)

## Emeriti

James L. Boren, professor emeritus. BA, 1965, San Francisco State; MA, 1967, PhD, 1970, Iowa. (1970)

William Cadbury, professor emeritus. BA, 1956, Harvard; MS, 1957, PhD, 1961, Wisconsin, Madison. (1961)

Suzanne Clark, professor emerita. BA, 1961, MA, 1965, Oregon; PhD, 1980, California, Irvine. (1990)

Dianne M. Dugaw, professor emerita. BA, 1971, Portland; MA, 1976, PhD, 1982, California, Los Angeles. (1990)

James W. Earl, professor emeritus. BA, 1967, Bucknell; PhD, 1971, Cornell. (1987)

Marilyn Farwell, professor emerita. BA, 1963, MacMurray; MA, 1966, PhD, 1971, Illinois. (1971)

John T. Gage, professor emeritus. BA, 1969, MA, 1971, PhD, 1976, California, Berkeley. (1980)

Warren Ginsberg, professor emeritus, Philip H. Knight Professor. MA, 1971, State University of New York, Stony Brook; PhD, 1975, Yale. (2000)

Thelma Greenfield, professor emerita. BA, 1944, MA, 1947, Oregon; PhD, 1952, Wisconsin, Madison. (1963)

Robert Grudin, professor emeritus. BA, 1960, Harvard; MA, 1963, PhD, 1969, California, Berkeley. (1971)

Ruth F. Jackson, senior instructor emerita. BA, 1929, MA, 1933, Oregon. (1955)

Kathleen Rowe Karlyn, professor emerita. BA, 1969, Connecticut; MLA, 1973, Johns Hopkins; PhD, 1992, Oregon. (1994)

Linda Kintz, professor emerita. BA, 1967, Texas Tech; MA, 1969, Southern Methodist; PhD, 1982, Oregon. (1988)

Julia Lesage, professor emerita. MA, 1962, PhD, 1972, Indiana. (1988)

David Leiwei Li, Collins professor of the humanities emeritus. BA, 1982, Shanghai Foreign Languages Institute; MA, 1986, Indiana University of Pennsylvania; PhD, 1991, Texas, Austin. (1999).

Glen A. Love, professor emeritus. BA, 1954, MA, 1959, PhD, 1964, Washington (Seattle). (1965)

William Rockett, associate professor emeritus. BA, 1961, MA, 1963, Oklahoma; PhD, 1969, Wisconsin, Madison. (1966)

William Rossi, professor emeritus. BA, 1972, MA, 1979, Missouri; PhD, 1986, Minnesota. (1989)

George Rowe, professor emeritus; editor, *Comparative Literature*. BA, 1969, Brandeis; MA, 1971, PhD, 1973, Johns Hopkins. (1985)

Steven Shankman, professor emeritus. BA, 1969, Texas, Austin; BA, 1971, MA, 1976, Cambridge; PhD, 1977, Stanford. (1984)

Sharon R. Sherman, professor emerita. PhD, 1965, Wayne State; MA, 1971, California, Los Angeles; PhD, 1978, Indiana. (1976)

Richard L. Stein, professor emeritus. BA, 1965, Amherst; AM, 1966, PhD, 1970, California, Berkeley. (1976)

Richard C. Stevenson, professor emeritus. AB, 1961, AM, 1963, PhD, 1969, Harvard. (1968)

Nathaniel Teich, professor emeritus. BS, 1960, Carnegie-Mellon; MA, 1962, Columbia; PhD, 1970, California, Riverside. (1969)

Louise Westling, professor emerita. BA, 1964, Randolph-Macon Woman's; MA, 1965, Iowa; PhD, 1974, Oregon. (1985)

George Wickes, professor emeritus. BA, 1944, Toronto; MA, 1949, Columbia; PhD, 1954, California, Berkeley. (1970)

*The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.*

## Participating

David A. Frank, honors college

Michael Hames-García, ethnic studies

Mat Johnson, creative writing

Sharon Luk, ethnic studies

Sarah Wald, environmental studies

## Undergraduate Programs

### Major - Bachelor's Degree

- English (BA) (p. 104)

### Minors

- Comics and Cartoon Studies (p. 107)
- English (p. 106)
- Digital Humanities (p. 107)
- Disability Studies (p. 108)
- Writing, Public Speaking, and Critical Reasoning (p. 109)

## Certificate

- Writing, Public Speaking, and Critical Reasoning (p. 111)

## Graduate Programs

### Major - Master's Degree

- English (MA) (p. 109)

### Major - Doctoral Degree

- English (PhD) (p. 110)

### Specialization

- Politics, Culture, and Identity (p. 112)

## English (BA)

The Department of English expects its majors to acquire knowledge of English and American literature. In addition, it expects them to gain a sense of history and a reading knowledge of at least one second language. Majors should construct their programs in consultation with an advisor.

An English major offers skills in reading, writing, researching, organizing, responding, arguing, and most importantly, analysis – abilities we need now more than ever. The skills you learn as an English major never grow obsolete, as the ability to understand and shape language is one of the most essential parts of being human.

The Department of English expects its majors to acquire knowledge of English and American literature. In addition, it expects them to gain a sense of history and a reading knowledge of at least one second language. Majors should construct their programs in consultation with an advisor

UO English offers several ways to pursue your passion for stories. These include a major leading to a bachelor's degree and several minors that range from traditional studies in literature and rhetoric to more interdisciplinary programs in a wide range of texts, cultural artifacts, and new media, such as comics and cartoon studies.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Read literary and cultural texts with discernment and comprehension and with an understanding of their conventions.
- Draw on relevant cultural and/or historical information to situate texts within their cultural, political, and historical contexts.
- Perform critical, formal analyses of literary, cinematic, and other cultural texts.
- Write focused, analytical essays in clear, grammatical prose.
- Employ logic, creativity, and interpretive skills to produce original, persuasive arguments.
- Employ primary and/or secondary sources, with proper acknowledgment and citation, as they contribute to a critical essay's thesis.

## Composition Program Learning Outcomes

Upon completion of either WR 122 or WR 123, students should be able to achieve the following outcomes:

- Write essays that develop and respond to a significant question that is relevant to the context in which it is written and appropriate for the audience to which it is addressed.
- Provide logical answers to questions at issue and develop lines of reasoning in support of those answers, while taking into account and responding to objections or competing answers and lines of reasoning.
- Write an essay that is unified around a main claim, proceeds in a logical way, and consists of cohesive paragraphs that separate and connect ideas effectively.
- Produce written work that displays adherence to the conventions of academic writing, including control of grammar, spelling, word usage, syntax, and punctuation; appropriate tone, style, diction, and register; proper formatting, use, and documentation of sources.
- Improve the content and organization of an essay draft in a revision process, both by reevaluating the reasoning and context of the essay and by responding to critiques from peers and instructors.
- Faculty in all programs and departments can build on this preparation by helping students learn:
  - The reasons behind conventions of usage, specialized vocabulary, format, and citation systems in their fields or disciplines
  - Strategies for controlling conventions in their fields or disciplines
  - Factors that influence the ways work is designed, documented, and disseminated in their fields
  - Ways to make informed decisions about intellectual property issues connected to common genres and modalities in their fields

The Department of English expects its majors to acquire knowledge of English and American literature. In addition, it expects them to gain a sense of history and a reading knowledge of at least one second language. Majors should construct their programs in consultation with an advisor.

Gender, ability, queer studies, or sexuality course

Empire, race, or ethnicity course

Additional upper-division course work in literature, media, folklore, or writing <sup>5</sup>

**Total Credits** **52-60**

- <sup>1</sup> May include only one of the following: Introduction to Literature: Fiction (ENG 104), Introduction to Literature: Drama (ENG 105), Introduction to Literature: Poetry (ENG 106), and may include no courses with a WR subject code. ENG 209 counts for writing requirement and lower-division elective.
- <sup>2</sup> Completion of at least one Genre: [Topic] (ENG 205) topics course is a prerequisite or co-requisite for enrolling in ENG 303. Completion of ENG 303 is a pre-requisite for enrolling in ENG 304 or ENG 305.
- <sup>3</sup> May be fulfilled using (a) (ENG 209) The Craft of the Sentence, (b) The Art of the Sentence (ENG 420), or (c) any upper-division WR course.
- <sup>4</sup> One course may satisfy a maximum of two upper-division area requirements at once, as indicated on the current advising supplement.
- <sup>5</sup> No more than 8 credits of Research: [Topic] (ENG 401), Thesis (ENG 403), Reading and Conference: [Topic] (ENG 405), or Writing and Conference: [Topic] (CRWR 405). Upper-division CRWR courses may also be used to fulfill this requirement.

## Additional Requirements

Coursework required for the English major, both lower division and upper division, must be passed with grades of mid-C or better. Majors must complete the university second-language requirement for the BA degree. At least 28 of the required 36 upper-division credits must be taken at the University of Oregon.

## Residency Requirements

The English major allows for 8 of the 32 additional upper division credits to be completed by transfer courses. All of the lower-division credits can be completed at Community Colleges or another school and transferred to the UO.

## Honors Program in English

The program provides qualified undergraduate majors with special options for fulfilling departmental requirements. Honors students interested in the intensive study of literature in small discussion seminars independently explore a special topic of their own choosing, under the guidance of a faculty member. Typically, students spend a major portion of the senior year writing their honors thesis.

## Requirements

1. Completion of all English department requirements
2. Minimum of two terms of Seminar: [Topic] (ENG 407) (Capstone).
3. Two terms of Thesis (ENG 403), a directed program of study or creative writing under the guidance of an appropriate advisor.
4. Senior thesis—either a critical essay of thirty-five to fifty pages or a substantial piece of creative writing. The thesis must be approved by the advisor and a second reader (typically both faculty members in English) after an oral defense.

Four-Year Degree Plan

The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.

Bachelor of Arts in English

| Course                                                              | Title                              | Credits | Milestones                             |

English Minor

The Department of English offers several distinctive minors that range from traditional studies in literature and rhetoric to more interdisciplinary

studies that explore a wide range of texts, cultural materials, and new media.

Our minors are ideal for students who want to think creatively, hone their critical thinking, and become versatile writers. The skills gained in our programs provide vital preparation for business and professional careers, as well as for further academic work or artistic endeavors. The experience of our graduates has proven that studies in literature, rhetoric, and culture are an excellent background for law, medicine, teaching, management, publishing, advertising and advanced technology fields.

## Minor in English

The English minor requires 24 credits of approved course work selected from the documents titled *University of Oregon English Major Requirements* and *Advising Supplement*, which are updated each year. Both documents are available in the English department and on our [website \(https://english.uoregon.edu/undergraduate/explore-our-minors/english-minor/\)](https://english.uoregon.edu/undergraduate/explore-our-minors/english-minor/).

- Of the total 24 credits, a maximum of 8 credits may be taken in lower-division courses.
- All upper-division courses must be taken in residence at the University of Oregon
- Course work must be taken for letter grades and passed with grades of mid-C or better.
- Courses with the prefixes ENG, FLR, HC and writing (WR) courses Principles of Tutoring Writing (WR 312) WR 320, WR 321, Laboratory Projects: [Topic] (WR 408) or WR 423 may be used for the minor.
- Only one of the three Introduction to Literature courses (ENG 104, ENG 105, ENG 106) and transfer equivalents may be used to satisfy minor requirements.
- Research: [Topic] (ENG 401), Thesis (ENG 403), Reading and Conference: [Topic] (ENG 405) and Composition I (WR 121Z), Composition II (WR 122Z), College Composition III (WR 123) may not be used to satisfy minor requirements.

## Comics and Cartoon Studies Minor

### Ben Saunders, Program Director

273 PLC  
1267 University of Oregon  
Eugene, Oregon 97403-1267  
Phone: 541-346-0062  
[ben@uoregon.edu](mailto:ben@uoregon.edu)

Comics are one of the most powerful forms of communication ever devised. Whether students are interested in the humanities or the sciences, finance or philosophy, marketing or medicine, they can learn from the ways that the greatest comics creators have told stories, sold characters, and conveyed messages.

Comics studies draws upon the established fields of art history, literary studies, and cultural studies, while also tapping into the professional traditions of commercial design and advertising. The program's goal is to foster creative thought by encouraging a deeper and more profound understanding of how words and images work together, how they affect us, and how they shape the world in which we live.

## Minor in Comics and Cartoon Studies

This interdisciplinary minor in comics and cartoon studies presents students with an international, historical, and critical perspective on the art of comics, from editorial cartoons to comic books to graphic novels. In taking courses for this minor, students will be required to think beyond accustomed disciplinary boundaries and to analyze and experiment with the interaction of visual and linguistic systems of meaning.

To qualify for the minor, students must take 24 credits of approved courses, including one required course, Introduction to Comic Studies (ENG 280). The remaining courses may be selected from the range of comics-related courses offered through the Departments of Art, Comparative Literature, East Asian Languages and Literatures, English, Ethnic Studies, History of Art and Architecture, and Romance Languages, the Arts and Administration Program, and the School of Journalism and Communication. For details regarding these courses, students should consult the list of offerings available in the Department of English office or online at [comics.uoregon.edu](http://comics.uoregon.edu) (<http://comics.uoregon.edu>).

No more than 12 credits may be taken in lower-division courses, and course work must be passed with grades of mid-C or better.

## Digital Humanities Minor

The way we approach humanities subjects, such as English, history, philosophy, and religious studies, began to change with the advent of the internet. Over past decades, new digital tools and techniques have expanded our subjects and practices of studying these fields. The minor in digital humanities prepares students to enter this new world, equipping them with skills in digital text analysis, data visualization, mapping and geospatial studies, the creation of multimedia archives, and forms of digital storytelling. While learning how to create digital humanities projects, students will have opportunities to study global cultural expressions that emerge through new forms of digital reading, writing, and gaming.

### Program's Admission Requirements

Students wishing to declare the Digital Humanities minor complete a brief form ([https://oregon.qualtrics.com/jfe/form/SV\\_80W3vviWTgPoUBw/](https://oregon.qualtrics.com/jfe/form/SV_80W3vviWTgPoUBw/)) and then connected with the Director of the Digital Humanities Minor (currently Assistant Professor Mattie Burkert) for further advising.

All courses must be taken for a grade and passed with a mid-C or better.

| Total Credits |                                                 | 24 |

<sup>1</sup> This requirement may also be fulfilled by LIB 410 (Spring 2023).

<sup>2</sup> At least one class must be at the upper division level. To ensure interdisciplinary, these three courses must come from at least two different departments.

ENG 470/570 (capstone course) must be taken in residence. All other courses can be taken as traditional, hybrid, or online courses at UO or at other universities offering comparable courses. Transfer credits from other institutions must be approved by the DH coordinator in order to count for credit in the minor.

## Disability Studies Minor

**Elizabeth Wheeler, Director**

541-346-3929

238 Prince Lucien Campbell Hall

ewheeler@uoregon.edu

Disability studies is a dynamic interdisciplinary minor that considers disability as a civil and human rights issue, an identity, a community, a history, and a form of critical analysis. Disability studies investigates how different cultures define normality and abnormality in terms of bodies and minds, and how the resultant distinctions impact peoples' everyday lives. Rather than approaching disability as a problem in need of a cure, disability studies as a field understands disability as a defining human experience that offers unique perspectives on culture and society. It

explores issues and histories from the viewpoints of disabled people and communities, in intersection with other identities like race, class, gender, and sexuality.

## Minor in Disability Studies

The minor in disability studies prepares students for a growing range of careers through study of disability and deaf cultures, politics, and histories in fields such as international development, health, design, sign language interpreting, education, and nonprofit management. The interdisciplinary program of study ranges across the university, and many courses fulfill university general-education, multicultural, and second-language requirements.

Course work required for the minor must be passed with grades of mid-C or better. At least 12 of the required 24 credits must be taken at the University of Oregon; at least 12 must be upper-division credits.

| Code                                                                           | Title                                        | Credits |

**Total Credits** 24

- <sup>1</sup> Visit [disability.uoregon.edu](https://disability.uoregon.edu) for a full list of options.
- <sup>2</sup> Fieldwork gives students direct contact with disability and deaf communities, and ranges from self-designed internships to such options as adaptive skiing, community theater, and consultation with international advocates.

All courses must be taken for a letter grade (except for internships associated with Fieldwork) and passed with a C- or better to count toward the minor.

## Writing, Public Speaking, and Critical Reasoning Minor

**Emily Simnitt, Director**  
 301E Tykeson Hall  
 1267 University of Oregon  
 Eugene, Oregon 97403 - 1267  
 541-346-3517  
[esimnitt@uoregon.edu](mailto:esimnitt@uoregon.edu)

Do you believe that reasoned discourse is foundational to democracy and to social change to build a better, more just society? Are you passionate about citizenship and the art of argument? Do you see yourself engaging your listeners through the power of dialogic reasoning? If your answers to these questions are yes, you will thrive with a minor in writing, public speaking, and critical reasoning.

The UO's innovative program will help you to develop your ability to write well, speak effectively in public, and think critically—some of the most valuable skills for life in a globalized world.

## Minor in Writing, Public Speaking, and Critical Reasoning

The minor in writing, public speaking, and critical reasoning prepares undergraduates for active and effective participation in the complex, diverse, and ever-changing communicative situations they will face after graduation.

| Code                                                                                                               | Title                                         | Credits |
|--------------------------------------------------------------------------------------------------------------------|-----------------------------------------------|---------|
| Select two courses in writing from the following: <sup>1</sup>                                                     |                                               | 8       |
| WR 123                                                                                                             | College Composition III                       |         |
| WR 320                                                                                                             | Scientific and Technical Writing              |         |
| WR 321                                                                                                             | Business Communications                       |         |
| ENG 413                                                                                                            | Theories of Literacy                          |         |
| ENG 420                                                                                                            | The Art of the Sentence                       |         |
| WR 423                                                                                                             | Advanced Composition                          |         |
| Select two courses in rhetoric from the following (at least one of which must be ENG 200 or ENG 330): <sup>1</sup> |                                               | 8       |
| ENG 200                                                                                                            | Public Speaking as a Liberal Art <sup>2</sup> |         |
|                                                                                                                    | or ENG 330 Oral Controversy and Advocacy      |         |
| ENG 492                                                                                                            | History of Rhetoric and Composition           |         |

|                                                                  |                             |           |
|------------------------------------------------------------------|-----------------------------|-----------|
| ENG 493                                                          | Modern Rhetorical Criticism |           |
| Select two courses in reasoning from the following: <sup>1</sup> |                             | 8         |
| PHIL 103                                                         | Critical Reasoning          |           |
| ENG 335                                                          | Inventing Arguments         |           |
| <b>Total Credits</b>                                             |                             | <b>24</b> |

- <sup>1</sup> Reasoning, Speaking, Writing (ENG 494), Internship: [Topic] (ENG 404) or Laboratory Projects: [Topic] (WR 198) may be taken to satisfy one course requirement.
- <sup>2</sup> If not already taken.

## English (MA)

The Department of English offers graduate study in English and American literature, film and television studies, folklore, critical theory, rhetoric and composition, cultural studies, popular culture, ecocriticism, ethnic literatures, gender studies, postcolonial studies, comic studies, disability studies. It offers the master of arts (MA) and doctor of philosophy (PhD) degrees in English.

The Department of English offers an MA for students who want to study beyond the BA but who do not plan to complete a PhD. Students whose goal is a doctorate should apply for admission to the department's doctoral program. Students who complete the MA program at the University of Oregon and want to enter the PhD program must reapply to the department for admission into that program. The number of seats in the MA program is limited, and admission is competitive.

### Program's Admission Requirements

Please visit the program's website (<https://cas.uoregon.edu/english/apply/graduate-admissions/>).

### Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate broad knowledge of literary texts (which may also include film, media, folklore, and/or other objects of study covered in English Department areas of emphasis) in English as well as a general understanding of English and American literary history.
- Demonstrate ability to write to a professional standard within the field of literary studies.
- Demonstrate ability to analyze literary texts (which may include film, media, and/or folklore) using theoretically informed methods as well as skills in close reading.
- Demonstrate ability to speak coherently and professionally about literature (which may also include film, media, and/or folklore), including literary form and genre, literary history, and literary scholarship.
- Demonstrate ability to conduct original research and writing on literature, film, and media, as well as other cultural expressions related to literature, film, and media.
- Demonstrate mastery of a specialized subject area within literary and/or film/media and/or folklore studies, including mastery of both primary sources and scholarship within that area.

## Master of Arts Degree Requirements

| Code    | Title                                       | Credits |
|---------|---------------------------------------------|---------|
| ENG 690 | Introduction to Graduate Studies in English | 5       |

Select one of the following:

Pre-1500 course

1500-1660 course

1660-1800 course

Select one of the following:

19th-century course

20th-century course

Rhetoric or advanced theory course

Nine formal 600-level seminars

A master's thesis may be substituted for one elective seminar with the prior approval of the director of graduate studies in consultation with the faculty thesis advisor. The MA thesis is a substantial scholarly essay researched and written over two terms during the second year of study.

Graduate course work should be completed at the 600 level. Exceptions to this policy must be made in advance by the director of graduate studies in consultation with the individual faculty advisor.

A minimum cumulative GPA of 3.50 in all graduate course work at the UO is required for completion of the MA degree. At least nine courses must be taken in residence at the University of Oregon.

Students who have completed 12 graduate-level English courses (nine taken at the university), attained reading knowledge of one foreign language, and maintained a cumulative GPA of 3.30 or better may apply for the MA degree with a specialty in English or American literature.

## English (PhD)

The Department of English offers graduate study in English and American literature, film and television studies, folklore, critical theory, rhetoric and composition, cultural studies, popular culture, ecocriticism, ethnic literatures, gender studies, postcolonial studies, comic studies, disability studies. It offers the master of arts (MA) and doctor of philosophy (PhD) degrees in English.

In the English PhD program, students take courses exploring a variety of fields and theoretical approaches in years one and two and then focus on their special area of study in years three through five. After fulfilling a limited number of distribution requirements, each student fashions an Individual Program of Study with the assistance of their faculty advisor, who is a specialist in the appropriate field. The number of places in the PhD program is limited, and admission is competitive.

### Program's Admission Requirements

Please visit the program's website (<https://cas.uoregon.edu/english/apply/graduate-admissions/#doctoral>).

### Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate knowledge of literary texts (which may also include film, media, folklore, and/or other objects of study covered in English Department areas of emphasis, hereafter understood as included in literature literary texts) in English as well as a general understanding of English and American literary history.

- Demonstrate ability to write to a professional standard within the field of literary studies.
- Demonstrate ability to analyze literary texts using theoretically informed methods as well as skills in close reading.
- Demonstrate ability to speak coherently and professionally about literature, including literary form and genre, literary history, and literary scholarship.
- Demonstrate ability to conduct original research and writing on literature, film, and media, as well as other cultural expressions related to literature, film, and media.
- Demonstrate mastery of a specialized subject area within literary and/or film/media studies, including mastery of both primary sources and scholarship within that area.
- Demonstrate ability to write an in-depth, original work of scholarship.
- Demonstrate ability to teach undergraduate composition and/or literature courses to a professional standard.

## Doctor of Philosophy Degree Requirements

| Code    | Title                                        | Credits |
|---------|----------------------------------------------|---------|
| ENG 614 | Introduction to Literary and Cultural Theory | 5       |
| ENG 690 | Introduction to Graduate Studies in English  | 5       |

Select two of the following: <sup>1</sup>

Pre-1500 course

1500-1660 course

1660-1800 course

Select two of the following: <sup>1</sup>

19th century course

20th century course

Rhetoric or advanced theory course

Twelve seminars <sup>2</sup>

<sup>1</sup> Film and folklore courses are included under the appropriate time period.

<sup>2</sup> The seminars, constituting the individual plan of study, may be distributed among any areas, and the plan must be approved by the student's graduate faculty advisor and the director of graduate studies before the second year of study.

Graduate course work should be completed at the 600 level. Exceptions to this policy must be made in advance by the director of graduate studies in consultation with the individual faculty advisor.

A cumulative GPA of 3.50 or better in all graduate work at the UO is the minimum requirement for satisfactory progress toward the PhD.

### Second Language

The graduate language requirement for the doctoral degree is reading competence in two non-English languages or high proficiency in one. Reading competence may be demonstrated in each of two foreign languages as specified under the language requirement for the MA degree. High proficiency may be demonstrated by a grade of A- or better in an approved 400-, 500-, or 600-level literature course, with readings in the target language; scoring at the required levels on the College Level Examination Program (CLEP) test; or passing the Toronto Medieval Latin examination at the PhD level.

Students may petition the graduate committee to test in languages that don't fit the above criteria.

## Teaching

Doctoral candidates must have experience as classroom teachers in the department before they receive the degree.

## Structured Emphasis

Students may define their individual plan of study according to one of seven structured emphasis options: ethnic literary studies, film studies, folklore, literature and the environment, medieval studies, poetry and poetics, or rhetoric and composition. Each emphasis has a focused set of courses and a special section.

## Breadth Examination

Doctoral candidates must take the PhD breadth examination at the beginning of the third year of study, or, if they enter with 6 or more transfer credits, at the beginning of the second year of study. The student and the student's advisor select two examination fields chosen for proximity to and/or importance for the separate, primary research field and project. These fields may provide broad familiarity with readings, texts, or methods that will inform dissertation research, and may also develop areas of relevant professional or teaching competence. They may include historical fields adjacent to the primary research field; genres; or areas of critical theory. The examination includes written (take-home) and oral components based on reading lists generated by the student in consultation with faculty examiners and approved by the Graduate Committee. A student must pass the breadth examination in order to take the PhD major field examination, administered the following year. Students who fail either written portion of the breadth examination do not take the oral portion until they have retaken and passed the failed written part; retakes will occur at the end of that term, postponing the PhD major field examination to the following term.

## Major Field Examination

After students in the PhD program have completed their course work, they must take a two-and-a-half-hour major field examination. Typically taken fall term following completion of all course work and the language requirement, the major field examination provides each student with the opportunity to present and defend a short paper on a topic related to the dissertation. The examination also allows the student to demonstrate expertise in his or her field of specialization. It is divided into two parts:

1. A discussion of a relatively broad field of study that provides a context for the topic or problem examined in part two
2. A prepared presentation by the student on a topic or problem of the student's choice that is related to the dissertation, followed by a discussion of that topic

The topic and areas covered by the major field examination are defined, in the form of a project description and reading list, by the student in consultation with an advisor or advisors and must be approved by the English department graduate committee. As a supplement to the major field examination, a student may choose to complete a one- to two-hour written examination on part two. The major field examination may be retaken only once.

## PhD Dissertation

After completing all other degree requirements, the candidate should consult with a faculty advisor willing to work in the area of the student's interest and submit a dissertation prospectus for approval by the student's dissertation committee. Once the prospectus is approved by the committee and the director of graduate studies, the student is advanced to candidacy. A three-year period for completion of the dissertation

begins when the Division of Graduate Studies approves the advancement to candidacy.

The dissertation may be a work of literary, film, folklore, or linguistic scholarship or, with the approval of the committee, a collection of three substantial essays exhibiting internal coherence though not necessarily treating a single subject. The candidate gives an oral presentation or defense of the dissertation when it is completed and found acceptable by the committee.

## Residency Requirements

The Division of Graduate Studies requires at least three years of full-time work beyond the bachelor's degree for the doctorate with at least one year spent in continuous residence on the Eugene campus. The Division of Graduate Studies requires three consecutive terms (fall, winter, spring) with a minimum of 9 graduate credits of formal course work per term for the PhD year of residency; graduate employees (GEs) must also enroll for a minimum of 9 graduate credits each term they hold a GE appointment.

## Writing, Public Speaking, and Critical Reasoning Certificate

To leave college with the ability to write well, to speak in public, and to think critically is one of the most valuable outcomes of a college education. The minor in writing, public speaking, and critical reasoning offers students a coherent program of courses that will strengthen their abilities in all three essential areas. This interdisciplinary minor is built on courses in English, Writing, and Philosophy, and is taught by professors from English, Philosophy, and the Honors College. The minor is open to all University of Oregon undergraduates in any major. Undergraduates who want even more concentrated work in this area may enroll in the Certificate program, which requires 36 credits (9 courses, including a senior capstone course).

Through coursework in Writing, English, Philosophy, and more, students develop written and speaking skills about how to be effective culturally responsive communicators in career and civic life.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Describe the role of language, identity, and power in community/public communication contexts.
- Examine one's own critical communication process, including reading, writing, listening, and speaking.
- Practice culturally responsive deliberation with others on contemporary issues in the public sphere.
- Examine writing, speaking, and other critical communication forms in a variety of disciplines and public contexts using ethical rhetorical analysis.
- Compose and deliver relevant, purpose-driven documents, speeches, and other forms/genres for audiences beyond the classroom.

## Writing, Public Speaking, and Critical Reasoning Certificate

A certificate in writing, public speaking, and critical reasoning requires 36 credits as follows:

| Code                                                                                 | Title                                                                        | Credits   |
|--------------------------------------------------------------------------------------|------------------------------------------------------------------------------|-----------|
| Select three courses in writing (at least one at the 400 level):                     |                                                                              | 12        |
| ENG 413                                                                              | Theories of Literacy                                                         |           |
| ENG 420                                                                              | The Art of the Sentence                                                      |           |
| WR 123                                                                               | College Composition III                                                      |           |
| WR 320                                                                               | Scientific and Technical Writing                                             |           |
| WR 321                                                                               | Business Communications                                                      |           |
| WR 423                                                                               | Advanced Composition                                                         |           |

flr@uoregon.edu

The Folklore and Public Culture Program is one of a few major centers of folkloristic research in the United States. With more than thirty core and participating faculty, the program provides an interdisciplinary approach to an undergraduate major and minor as well as a Master's Degree, allowing students to create a focused course of study in their areas of interest. Participants in the Folklore and Public Culture Program use theoretical analyses, research methods, and fieldwork

techniques to study the ways tradition continues to enrich human behavior throughout the world. Participants examine the historical, cultural, social, and psychological dimensions of expressive forms such as mythology, legend, folktale, music, dance, art, belief, food, ritual, and ceremony. Students will gain fresh perspectives on the ethnic, regional, occupational, gender, and other identities of individuals in specific communities.

The Folklore and Public Culture Program offers bachelor of arts, master of arts, and master of science degrees in folklore and public culture. An undergraduate minor is also available. Folklore and public culture courses cover an extensive range of interdisciplinary topics: cultural heritage, ethnicity, subcultures, popular culture, performance, gender, film, religion, public folklore, and issues of diversity and globalization. Folklore and public culture graduates work in public and private agencies as educators, archivists, editors, arts and humanities consultants, museum curators, and festival planners.

## Faculty

Martha J. Bayless, professor (Britain, Welsh, Old and Middle English medieval literature and culture). See **English**.

D. Gantt Gurley, associate professor (Scandinavian literature and folklore, Jewish literature and folklore, Old Norse literature). See **German and Scandinavian**.

Habib Iddrisu, assistant professor (Africa, dance, performance). See **Dance**.

Leah Lowthorp, assistant professor (folklore and gender, fieldwork methods and theory, social justice). See **Anthropology**.

Dorothee Ostmeier, professor (18th- and 20th-century literature, culture, philosophy). See **German and Scandinavian**.

Whitney Phillips, assistant professor (digital cultures, media ecologies, media ethics, narrative and identity). See **Journalism and Communication**.

Riki H. Saltzman, instructor (public folklore, foodways, ethnicity-identity). See **Anthropology**.

Gordon M. Sayre, professor (early American literature, 18th-century literature, folklore). See **English**.

Philip W. Scher, professor (Caribbean, politics of culture, transnationalism). See **Anthropology**.

Daniel N. Wojcik, professor (alternative religions, subcultures, vernacular arts). See **English**.

Juan Eduardo Wolf, associate professor (ethnomusicology, folklore, Latin American studies). See **Music**.

## Participating

Ina Asim, history

Mokaya Bosire, linguistics

Bob Bussel, Labor Education and Research Center

Carl R. Bybee, journalism and communication

Matthew Dennis, history

Keith Eggener, history of art and architecture

Maria Fernanda Escallón, anthropology

Kenneth I. Helphand, landscape architecture

Lamia Karim, anthropology

Patricia Lambert, planning, public policy and management

Ana Lara, anthropology

Gabriela Martinez, journalism and communication

Debra L. Merskin, journalism and communication

Julianne H. Newton, journalism and communication

Jeffrey Ostler, history

Eleonora Redaelli, School of Planning, Public Policy and Management

Ben Saunders, English

Janet Wasko, journalism and communication

Stephanie Wood, College of Education

Stephen R. Wooten, global studies

## Undergraduate Programs

### Major - Bachelor's Degree

- Folklore and Public Culture (BA) (p. 113)

### Minor

- Folklore and Public Culture (p. 115)

## Graduate Programs

### Major - Master's Degree

- Folklore and Public Culture (MA/MS) (p. 116)

### Specialization

- Folklore and Public Culture (p. 117)

## Folklore and Public Culture (BA)

Students studying folklore and public culture at the UO receive comprehensive training in scholarly approaches and methods for researching, documenting, and presenting traditional arts and cultural practices within the United States and abroad.

Courses cover an extensive range of interdisciplinary topics: cultural heritage, ethnicity, subcultures, popular culture, performance, gender, film, religion, public folklore, and issues of diversity and globalization. Folklore and Public Culture graduates work in public and private agencies as educators, archivists, editors, arts and humanities consultants, museum curators, and festival planners.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Identify and explain key concepts in academic and public folklore.
- Demonstrate knowledge of the research methods associated with academic and public folklore.
- Understand and apply fieldwork methods and proper documentation techniques necessary for submission of fieldwork for archival preservation.
- Demonstrate knowledge of the multiple theoretical orientations contributing to an understanding and analysis of academic and public folklore.
- Demonstrate an understanding of the types of folkloric expression and various types of folk groups in relationship to historical, cultural, and social contexts.
- Understand and give examples of what academic and public folklorists do.
- Evaluate how academic and public folklore contributes to understanding contemporary issues requiring decision making and policy development.

## Folklore and Public Culture Major

Students studying folklore and public culture at the UO receive comprehensive training in scholarly approaches and methods for researching, documenting, and presenting traditional arts and cultural practices within the United States and abroad. Students majoring in folklore and public culture must earn a minimum of 48 credits, of which 32 must be upper division, and 20 of the 48 must be Folklore (FLR) credits.

| Code                          | Title                    | Credits   |

Students may substitute courses to fulfill requirements with the approval of their major advisor. Programs from other departments or programs offering folklore-related courses include anthropology, arts and administration, classics, dance, English, ethnic studies, German and Scandinavian, historic preservation, humanities, international studies, journalism and communication, Judaic studies, music, religious studies, Romance languages, theater arts, and women's, gender, and sexuality studies.

## Minimum Grade

Course work required for the folklore and public culture major, both lower division and upper division, must be passed with grades of C– or better. No more than 8 pass/no pass credits may be applied to the major.

## Foreign Language Requirement

Majors must complete the university foreign-language requirement for the BA degree.

## Residency Requirement

Twenty-eight credits of upper-division coursework for the major must be completed at the University of Oregon.

## Four-Year Degree Plan

*The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.*

## Bachelor of Arts in Folklore and Public Culture

## Folklore and Public Culture Minor

The interdisciplinary Folklore Program offers perspectives on ethnic, regional, occupational, gender, and other traditional identities of individuals in specific societies and cultures. Students in the program study how traditions enrich and express the dynamics of human behavior throughout the world. Folklore courses examine the historical, cultural, social, political, and economic dimensions of such expressive forms as mythology, legend, art, music, dance, culinary practices, religion, ritual, and ceremony. Folklore and Public Culture minors go on to work as educators, archivists, editors, arts and humanities consultants, museum curators, and festival planners.

### Minor in Folklore and Public Culture Courses

The minor requires the completion of 24 credits. Introduction to Folklore (FLR 250) is required of all minors. A maximum of 8 credits may be taken in lower-division courses. A minimum of 12 credits must be "FLR" courses. Remaining courses are selected from the list of courses on the program website. Students may substitute courses from other departments to fulfill this requirement with the approval of their minor advisor. Programs from other departments and programs offering folklore-related courses include anthropology, arts and administration, classics, dance, English, ethnic studies, German and Scandinavian, historic preservation, humanities, international studies, journalism and communication, Judaic studies, music, religious studies, Romance languages, theater arts, and women's and gender studies.

### Minimum Grade

Course work required for the folklore and public culture minor, both lower division and upper division, must be passed with grades of C– or better. No more than 4 pass/no pass credits may be applied to the minor.

### Residency Requirement

Sixteen credits of course work for the minor must be completed at the University of Oregon.

# Folklore and Public Culture (MA/MS)

The master of arts (MA) or master of science (MS) degree in folklore and public culture is interdisciplinary. In consultation with an advising committee, students take designated courses from faculty members in anthropology, arts and administration, English, folklore and public culture, German, Scandinavian, and music in addition to elective courses that strengthen their areas of expertise. A public folklore track is available to students preparing for careers in the public sector. A thesis or terminal project is required for completion of the degree. Students working toward an MA degree must demonstrate competence in a second language.

Students in the masters degree program in Folklore and Public Culture may choose from two tracks with differing emphases. The General Folklore Track provides students with a strong foundation in folklore studies while also allowing students to take elective courses in their areas of focus. The General Folklore Track requires students to take specific classes from Folklore and Public Culture program faculty in a variety of subjects including anthropology, arts and administration, English, and music, among other disciplines. The Public Folklore Track prepares students who plan to work in the public sphere by building professional skills such as ethnographic research, documentation, grant writing, administration and programming. The program also focuses on building scholarly fundamentals of folklore and establishing relationships within the folklore field.

## Program's Admission Requirements

Please visit the program's website (<https://folklore.uoregon.edu/admission-requirements/>).

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- General Folklore (p. 116)
- Public Folklore (p. 116)

## General Folklore Track (62 credits)

- 1
- Or other fieldwork course approved by advising committee.
- 2
- 12 of the 28 credits must be earned in folklore (FLR) courses.
- 3
- Students complete a thesis or terminal project based on original research. The number of thesis or terminal project credits that a candidate may complete has no maximum, although only 9 credits count toward the degree.

Courses are chosen in consultation with the student's advising committee. Students may substitute courses not listed above to fulfill requirements with the approval of their advising committee.

| Thesis or Terminal Project                                                         |                                        |                  |
| FLR 503                                                                            | Thesis <sup>4</sup>                    | 9                |
|                                                                                    | or FLR 609                             | Terminal Project |

- <sup>1</sup> Or other fieldwork course approved by advising committee.
- <sup>2</sup> Students may substitute other courses not listed to fulfill requirements with the approval of their advising committee.
- <sup>3</sup> An internship related to public folklore amounting to 120 clock hours of service on-site, organized through the Folklore Program or the Oregon Folklife Network.
- <sup>4</sup> The number of thesis or terminal project credits that a candidate may complete has no maximum, although only 9 credits count toward the degree.

## Language Requirement for the MA Degree

The master of arts degree requires the satisfactory completion of a second-year level of proficiency in a second language, as required for the B.A. degree (see Bachelor's Degree Requirements (p. 25) in the catalog for details). Competency may be demonstrated by either a standardized test or with adequate undergraduate course work. Language competence must be demonstrated within the overall seven-year limit for completion of a master's degree.

## Additional Courses

Consult the program's website or members of its faculty each term for special offerings that fulfill degree requirements. Visit the program website for a list of additional approved courses.

Other undergraduate and graduate courses with related subject matter may be applied to folklore and public culture certificate programs by arrangement with the instructors and the folklore and public culture director. For a list of these courses, visit the program website.

# Folklore and Public Culture Graduate Specialization

| FLR 605 | Reading and Conference: [Topic] |
| FLR 606 | Field Studies: [Topic]          |

**Total Credits** **16**

- <sup>1</sup> One fieldwork/public folklore course, chosen from FLR 550 (*Public Folklore*), FLR 684 (*Fieldwork*) or another Folklore course or a course taught by core faculty approved by the Director of Graduate Studies in the Folklore and Public Culture Program.
- <sup>2</sup> FLR 550 and FLR 684 are also applicable if not taken to satisfy the fieldwork and public folklore section.
- <sup>3</sup> Courses must be taken for a letter grade and grade must be a B- or better to count for the specialization. An overlap maximum of 4 credits may be permitted with permission of the Folklore Director of Graduate Studies.

See [https://folklore.uoregon.edu/welcome/course\\_descriptions/](https://folklore.uoregon.edu/welcome/course_descriptions/) for course descriptions

## Additional Requirements

A statement of interest and a transcript of higher education to date are required. Contact information for recommenders is required, but recommendations are not required at this stage. Send application, including statement of purpose, transcripts, and list of recommenders, to Folklore administrative staff at [flr@uoregon.edu](mailto:flr@uoregon.edu) ([emagee@uoregon.edu](mailto:emagee@uoregon.edu)). Applications are accepted on a rolling basis. Students must be matriculated students at the University of Oregon.

# German and Scandinavian

## Jeffrey S. Librett

327 Friendly Hall  
1250 University of Oregon  
Eugene, Oregon 97403-1250  
541-346-4051  
[jlibrett@uoregon.edu](mailto:jlibrett@uoregon.edu)

The Department of German and Scandinavian offers a range of courses and degree programs, from instruction in beginning German and Swedish through a wealth of general-education and advanced undergraduate and graduate offerings in the literatures and cultures of German-speaking and Scandinavian Europe. Students may earn a bachelor of arts (BA) or a bachelor of science (BS) degree with a focus on German language, literature, and culture; interdisciplinary German and Scandinavian studies; or Scandinavian. Minors in all three of these focuses are also possible, and many undergraduates pursue concurrent degrees with second majors or minors in other departments and programs. At the graduate level, the department offers the master of arts (MA) and doctor of philosophy (PhD) degrees in German. Our five-year combined BA/MA program is an excellent option for motivated students. Ours is the only program in the state of Oregon that grants a PhD in German.

## Preparation

Nor prior knowledge of German is required to major or minor in German.

The beginning is simply curiosity about the language and culture of Germany, Austria, Switzerland, and Central Europe. With some prior knowledge, of course, one will be able to proceed more quickly through the major or minor by placing into a higher level.

## Careers

Our alumni have found positions in media and communications, government and public service, international business and law, education and teaching, social services, and the travel and tourism industry. Many go on to graduate school in education, law, the humanities, and other fields. Proficiency in a second language opens career opportunities in any number of fields that demand superior skills in oral and written communication, critical thinking and analysis, and intercultural understanding. Particularly in combination with another major or minor, the career possibilities are limitless. Students who graduate with a degree in German or Scandinavian enter a great variety of occupations, including but by no means limited to those with a direct connection to the languages and countries of Europe.

## Major Requirements

Students intending to major with a focus in German language, literature, and culture or interdisciplinary German studies must first acquire proficiency in the German language, typically demonstrated by satisfactory completion of the third term of Second-Year German III (GER 203 (<https://catalog.uoregon.edu/search/?P=GER%20203>)) or a placement exam. Thereafter, students may begin to take upper-division courses taught in German.

The department does not accept a grade of C– or lower in any course used to fulfill requirements for a major in German.

## Faculty

Corinne Bayerl, senior instructor (16th- to early 18th-century French and German literature and philosophy; gender questions; history of pedagogy). Currently in the Clark Honors College. See **Comparative Literature**.

Sonja Boos (†), associate professor (19th- through 21st-century German literature, culture, and film; critical thought). MA, 1997, Heinrich-Heine Universität Düsseldorf; MA, 2004, PhD, 2008, Princeton. (2013)

D. Gantt Gurley, associate professor (Scandinavian literature and folklore, Old Norse literature, Jewish studies). Currently in the Clark Honors College. BA, 1994, Bard College; MA, 2002, PhD, 2007, California, Berkeley. (2009)

Martin Klebes, associate professor (18th- to 21st- century literature, philosophy, critical thought). PhD, 2003, Northwestern. (2007)

Jeffrey S. Librett, professor (literature since 1750, theoretical discourses, Jewish studies). BA, 1979, Yale; MA, 1981, Columbia; PhD, 1989, Cornell. (2004)

Dawn A. Marlan, senior lecturer (German and European literature and culture from 1700 forward; modernist novel). BA, 1989, Bennington College; MA, 1991, PhD, 2000, Chicago. (2004)

Dorothee Ostmeier, professor (18th- and 20th-century literature, culture, philosophy). Staatsexamen, 1984, MA, 1985, Ruhr; PhD, 1993, Johns Hopkins. (2001)

Michael Stern, associate professor (Nietzsche, Kierkegaard, 19th-century Scandinavian literature). BA, 1993, MA, 1995, PhD, 2000, California, Berkeley. (2001)

Matthias Vogel, senior instructor (second-language acquisition); language coordinator, German language programs; coordinator, German Global

Scholars. BA, 1993, Johannes Gutenberg, Mainz; MA, 1996, Oregon. (2011)

## Emeriti

Susan C. Anderson, professor emeritus. BA, 1978, North Carolina, Asheville; MA, 1981, PhD, 1985, North Carolina, Chapel Hill. (1986)

Kenneth S. Calhoon, professor emeritus. BA, 1979, Louisville; MA, 1981, PhD, 1984, California, Irvine. (1987)

Alexander Mathäs, professor emeritus. Staatsexamen, 1981, Tübingen; MA, 1984, Oregon; PhD, 1990, Texas, Austin. (1996)

James R. McWilliams, associate professor emeritus. BA, 1951, MA, 1957, PhD, 1963, California, Berkeley. (1960)

Helmut R. Plant, associate professor emeritus. BA, 1957, Fairmont; MA, 1961, PhD, 1964, Cincinnati. (1966)

Karla L. Schultz, professor emerita. BA, 1967, Alma; MA, 1968, Washington (Seattle); MA, 1980, PhD, 1984, Oregon. (1987)

Ingrid A. Weatherhead, senior instructor emerita. BA, 1950, MA, 1951, Puget Sound. (1962)

Virpi Zuck, professor emerita. BA, 1964, MA, 1965, University of Helsinki; PhD, 1977, Wisconsin, Madison. (1974)

*The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.*

## German Studies Participating Faculty

Nina Amstutz, history of art and architecture

Jack Boss, music

Anita Chari, political science

Joyce Cheng, history of art and architecture

James Conran, political science

Colin Koopman, philosophy

David M. Luebke, history

John McCole, history

Nicolae Morar, environmental studies

Barbara Muraca, philosophy

Craig Parsons, political science

Daniel Rosenberg, history

Emily Scott, history of art and architecture

Barbara Stawarska, philosophy

Alejandro Vallega, philosophy

Daniela Vallega-Neu, philosophy

Peter Warnek, philosophy

## German (BA/BS)

Learning another language fulfills the primary purpose of a university education: It prepares you to reason, analyze, solve problems, and communicate in a world of widely differing cultures. Within the Department of German and Scandinavian, students can choose a major focus in German Literature and Language, German Studies, or Scandinavian. Language instruction includes both German and Swedish.

More than 100 million people speak German as a first language, and it is the official language of six countries. More than one thousand companies based in German-speaking countries have subsidiaries in the U.S. In all of these firms there is a need for employees with an understanding of German language and culture.

Approximately 20 million people's mother tongue is a Scandinavian language, and notable Scandinavian literature spans a broad range from the beloved children's stories of Hans Christian Andersen to the modern crime novels by Stieg Larsson.

The UO Department of German and Scandinavian ranks among the top 10 colleges and universities in the number of students majoring in German. The UO also has the only program in Oregon in which students can get a major or a minor in Scandinavian. Classes are discussion-based with engaging activities designed to involve and engross students, with both group and individual writing assignments.

Many students choose to study abroad, (<https://pages.uoregon.edu/gerscan/german/studyabroad.htm>) some with awards from The Fulbright Program (<https://eca.state.gov/fulbright/>) and the German Academic Exchange Service (<https://www.daad.org/en/>) (DAAD). The UO offers a local internship program for advanced students of German to teach German in an elementary or middle school. Or you might take advantage of an opportunity to intern in a German-speaking or Scandinavian country.

## German Focus

### Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Language: Students should attain the point where they can discuss literature and culture in German fluently in an advanced academic

environment. In addition, they should be able to write a fluent 20-30 page essay in German on an academic literary topic.

- Literature: Students should be able to provide a general characterization of the history and shapes of all major genres (lyric, drama, and narrative) in the literature of the German language from the early Enlightenment through the post-World War II period. Students should also possess an overview of all major interpretive paradigms in literary studies since World War I. Beyond this general knowledge, students must be able to demonstrate mastery of the stakes of one genre across several periods of German literary history, mastery of the literature of one period in all genres, and mastery of at least one philosophical movement or interpretive paradigm. Mastery here includes broad knowledge and significant comprehension, as well as a basic overview of the scholarly literature on the subject.
- Demonstrate mastery of the broader contours of German literary history in terms of genres, periods, as well as of relevant theoretical paradigms and critical traditions.
- Demonstrate effective oral and written scholarly communication skills in English and German.
- Demonstrate ability to conduct independent research and analysis in German studies, following professional standards of writing and citation.
- Present research in a professional setting, such as a colloquium or a conference.

## German and Scandinavian Studies Focus Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Language: Students should master skills in listening, speaking, reading, and writing up to an advanced level, and become proficient users (C1-level) of German or Swedish according to the internationally recognized standards and proficiency levels determined in the Common European Frame of Reference for language learning (CEFR).
- Literature: Students should be able to identify, define, and contextualize works of literature from diverse populations in German and Scandinavian societies. Students should be familiar with the main concepts of literary analysis specific to the German or Scandinavian language traditions, including the major periods/movements (and their social-historical conditions), genres, and interpretive paradigms, as well as several main themes. This includes an awareness of the demographic changes in Germany and Scandinavia which open up the notion of these literatures to a more global analysis. Cultural change as a result of a changing population is also of central concern. Diversity in Germany and Scandinavia both historically and of late is stressed as an important component of a changing field of study.
- Culture: Students should be able to describe and provide examples of several main aspects of contemporary German and Scandinavian cultures, including governmental structures, demographic changes and the corresponding cultural implications, major news media and periodical publications, and contemporary cinema, literature, and arts. The dynamic aspect of culture is stressed so that the students become aware of the changes happening due to global population and informational flows.
- Critical Thought and Writing: Students should be able to write essays of 5-7 pages that argue fluently in a coherent, logical, and persuasive manner for independently developed interpretive positions on cultural

artifacts. Of late, we are stressing views from both the inside and outside of dominant cultures in Germany and Scandinavia.

## Scandinavian Focus

### Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- **Language:** Students should master skills in listening, speaking, reading, and writing up to an advanced level, and become proficient users (C1-level) of German or Swedish according to the internationally recognized standards and proficiency levels determined in the Common European Frame of Reference for language learning (CEFR).
- **Literature:** Students should be able to identify, define, and contextualize works of literature from diverse populations in German and Scandinavian societies. Students should be familiar with the main concepts of literary analysis specific to the German or Scandinavian language traditions, including the major periods/movements (and their social-historical conditions), genres, and interpretive paradigms, as well as several main themes. This includes an awareness of the demographic changes in Germany and Scandinavia which open up the notion of these literatures to a more global analysis. Cultural change as a result of a changing population is also of central concern. Diversity in Germany and Scandinavia both historically and of late is stressed as an important component of a changing field of study.
- **Culture:** Students should be able to describe and provide examples of several main aspects of contemporary German and Scandinavian cultures, including governmental structures, demographic changes and the corresponding cultural implications, major news media and periodical publications, and contemporary cinema, literature, and arts. The dynamic aspect of culture is stressed so that the students become aware of the changes happening due to global population and informational flows.
- **Critical Thought and Writing:** Students should be able to write essays of 5-7 pages that argue fluently in a coherent, logical, and persuasive manner for independently developed interpretive positions on cultural artifacts. Of late, we are stressing views from both the inside and outside of dominant cultures in Germany and Scandinavia.

The department does not accept a grade of D+ or lower in any course used to fulfill requirements for a major in German.

| GER 313                      | Intermediate Language Training |           |
| GER 411                      | Advanced Language Training     |           |

|                                                                  |           |
|------------------------------------------------------------------|-----------|
| <b>Five German literature and culture courses</b> <sup>123</sup> | <b>20</b> |
| <b>Total Credits</b>                                             | <b>48</b> |

- <sup>1</sup> All GER subject code courses except language courses listed above.
- <sup>2</sup> At least three of the five German literature and culture courses must be upper division courses with the GER subject code, taught in the German language, and must be taken at the University of Oregon.
- <sup>3</sup> Of the remaining two literature and culture courses, up to two may be courses taught in English (GER 200-level courses, GER 345, GER 350-359). One or both of these may be at the 200 level and both must be courses with the GER subject code.

Of the requirements listed above, the following rules apply:

- Six courses must be taken in the UO Department of German and Scandinavian.
- One course may be taken pass/no pass.

The following courses may not be used to satisfy major requirements:

| Code    | Title                           | Credits |
|---------|---------------------------------|---------|
| GER 199 | Special Studies: [Topic]        |         |
| GER 405 | Reading and Conference: [Topic] |         |
| GER 406 | Practicum: [Topic] <sup>1</sup> |         |
| GER 408 | Workshop: [Topic]               |         |
| GER 409 | Terminal Project                |         |

- <sup>1</sup> 4 credits of Practicum: Teaching Internship (GER 406) will satisfy a requirement for the major.

Since all courses are not offered every year, plans should be made well in advance so that students can take prerequisites for 300-level literature and culture courses and 400-level courses. Specific questions should be addressed to departmental undergraduate German advisors.

## German and Scandinavian Studies Focus

German and Scandinavian studies is a focus for the German major offered by the Department of German and Scandinavian.

### Requirements

The German and Scandinavian studies focus requires second-year language proficiency. Of the 48 credits beyond second-year language, at least 24 must be in courses taught by the UO Department of German and Scandinavian; at least 44 must be taken for a letter grade.

| Code                                                                                          | Title | Credits   |
|-----------------------------------------------------------------------------------------------|-------|-----------|
| 16 upper-division credits in courses taught in German or a Scandinavian language <sup>1</sup> |       | 16        |
| 16 additional upper-division credits in approved courses                                      |       | 16        |
| 16 additional lower- or upper-division credits in approved courses                            |       | 16        |
| Completion of an approved capstone project                                                    |       |           |
| <b>Total Credits</b>                                                                          |       | <b>48</b> |

- <sup>1</sup> Eligible courses in this category include GER 311–313, GER 340–341, GER 360–499, and SWED 405.

### Approved Courses

- German (GER) and Scandinavian (SCAN) courses numbered 210–499
- Courses taken at a European university taught in German or a Scandinavian language above the second-year level
- Courses from the preapproved list, which count automatically toward the major and the minor: European Union History (EURO 415), German History: [Topic] (HIST 342), Europe in the 20th Century: [Topic] (HIST 428), Medieval Central Europe: [Topic] (HIST 436), 16th-Century European Reformations (HIST 441), , Modern Germany: [Topic] (HIST 443), , The Jewish Encounter with Modernity (JDST 213), The Music of Bach and Handel (MUS 351), History of Philosophy: 19th Century (PHIL 312), 19th-Century Philosophers: [Topic] (PHIL 453), Shadows of Modernity (PS 312), European Politics (PS 324)
- Other courses taken as part of an approved thematic pathway

**Thematic Pathways.** These are recommended course lists that include a significant number of approved course options beyond those on the preapproved list. Students are strongly encouraged to follow a thematic pathway, culminating in a capstone project, in consultation with a faculty advisor. Details are posted on the department's website and are also available from the director of undergraduate studies.

**Capstone Project.** This is a piece of guided independent scholarly or creative work integrating knowledge acquired in courses for the major, typically as the culmination of a thematic pathway. It must be preapproved and either supervised or cosupervised by a faculty member in the department. This requirement typically will be met by a research paper of at least 15 pages or by a comparable scholarly or creative project in a 400-level course in an appropriate department, or through at least one credit of GER 401, 403, or 405; SCAN 401, 403, or 405; or SWED 401, 403, or 405. Work with non-English materials is strongly encouraged.

**Double-Counting.** Majors who seek an additional minor in either German or Scandinavian may count all credits for both. The same rule applies to minors who seek an additional major in either German or Scandinavian. Majors may not seek an additional major in either German or Scandinavian. The department encourages, and imposes no restrictions on, major or minor combinations with other programs.

## Scandinavian Focus

| Code                 | Title                                                                   | Credits   |
|----------------------|-------------------------------------------------------------------------|-----------|
|                      | One topical upper-division course from related field (advisor approved) | 4         |
| SWED 201–203         | Second-Year Swedish (or the equivalent)                                 | 12        |
|                      | Eight Scandinavian literature or culture courses                        | 32        |
| <b>Total Credits</b> |                                                                         | <b>48</b> |

Of the requirements listed above, the following rules apply:

- Three courses must be taken in the UO Department of German and Scandinavian
- One literature or culture course may be taken pass/no pass

Majors in Scandinavian must be proficient in Swedish at the third-year level, demonstrated either by evaluation by the Scandinavian advisor or by successful completion of work beyond Second-Year Swedish (SWED 203). Typically, this will occur through independent study in Reading and Conference: [Topic] (SWED 405), work with supplementary

texts in advanced Swedish as extra requirements in the department's Scandinavian courses, and/or through study abroad in Scandinavia. Students should plan their course work carefully in consultation with a departmental undergraduate advisor in Scandinavian. They may also satisfy this requirement in Danish or Norwegian.

## Honors

To earn a bachelor's degree with departmental honors, a student must maintain at least a 3.50 grade point average (GPA) and write an honors essay or thesis approved by the departmental honors committee for 4 credits in Thesis (GER 403).

## Four-Year Degree Plan

*The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.*

| <b>Total Credits</b>                                                                                         |  | <b>36</b> |

- <sup>1</sup> Beyond the German major and general-education requirements, this example includes 15 further courses for a second major and/or electives for a total of 180 credits, with only three courses each term senior year. With a full load of four courses per term, which would add up to 192 credits, there would room for 18 further courses.
- <sup>2</sup> The first of eight upper-division German literature and culture courses for the major, and the one that may be taken in English language. For this and subsequently listed upper-division literature and culture courses in the Department of German and Scandinavian, any other 300- or 400-level courses could be substituted.
- <sup>3</sup> Advanced German grammar review completed (for increased fluency). Four upper-division German language courses now complete (including 300-level language courses).

<sup>1</sup> Beyond the German major and general-education requirements, this example includes 15 further courses for a second major and/or electives for a total of 180 credits, with only three courses each term senior year. With a full load of four courses per term, which would add up to 192 credits, there would room for 18 further courses.

<sup>2</sup> Advanced German grammar review completed (for increased fluency).

<sup>3</sup> For this course and subsequently listed 300- or 400-level literature and culture courses in the department, others may be substituted that are at the same level or higher. In addition, courses from outside the Department of German and Scandinavian that are on the list of eligible courses for this major may be substituted.

## German Minor

The German minor correlates well with studies that have an international or European concentration. It is particularly useful for students of international studies, international business, European history, medieval studies, sociology, political science, journalism, linguistics, art history, music history, other languages, theater, and related fields.

## German Minor Requirements

The German minor correlates well with studies that have an international or European concentration. It is particularly useful for students of Global Studies, international business, European history, medieval studies, sociology, political science, journalism, linguistics, art history, music history, other languages, theater, and related fields.

| Code                                            | Title                  | Credits   |
|-------------------------------------------------|------------------------|-----------|
| Four upper-division German courses <sup>1</sup> |                        | 16        |
| GER 201                                         | Second-Year German I   | 4         |

| GER 203                                         | Second-Year German III | 4         |
| <b>Total Credits</b>                            |                        | <b>28</b> |

<sup>1</sup> May include courses in language, literature, or culture. Two courses taught in English may be applied to the minor in German. Grades of at least C- or P (pass) must be earned in all courses used to satisfy requirements for the minor. One course may be taken pass/no pass. At least 12 credits must be taken in the UO Department of German and Scandinavian.

The following courses may not be used to satisfy minor requirements:

| Code    | Title                           | Credits |
|---------|---------------------------------|---------|
| GER 199 | Special Studies: [Topic]        |         |

| GER 408 | Workshop: [Topic]               |         |
| GER 470 | German for Reading Knowledge I  |         |

## German and Scandinavian Studies Minor

A minor in German and Scandinavian studies is a great choice for students interested in German and Scandinavian culture and history. Faculty members from the humanities, music, and social sciences who share a common interest in German and Scandinavian culture, letters, history, and society administer this program.

The influence of German and Scandinavian culture and letters on modern life is incalculable. In philosophy and religion; in sociology and psychology; in music; law; political science; and history, German-speaking thinkers have helped define our perception of the world.

German and Scandinavian studies is an interdisciplinary program offering undergraduates the opportunity to study these influences in context with the society and cultures that produced them. It combines advanced language training with an interdisciplinary program of literature courses offered in the Department of German and Scandinavian.

### Minor in German and Scandinavian Studies

The German and Scandinavian studies minor requires second-year language proficiency. Of the 24 credits beyond second-year language, at least 12 must be in courses taught by the UO Department of German and Scandinavian; at least 20 must be taken for a letter grade.

| Code                                                                                          | Title | Credits |
|-----------------------------------------------------------------------------------------------|-------|---------|
| 12 upper-division credits in courses taught in German or a Scandinavian language <sup>1</sup> |       | 12      |

|                                                                   |           |
|-------------------------------------------------------------------|-----------|
| 8 additional upper-division credits in approved courses           | 8         |
| 4 additional lower- or upper-division credits in approved courses | 4         |
| Completion of an approved capstone project                        |           |
| <b>Total Credits</b>                                              | <b>24</b> |

<sup>1</sup> Eligible courses in this category include GER 311–313, GER 340–341, GER 360–499, and SWED 405.

Approved courses are described in the Bachelor of Arts in German: German and Scandinavian Studies Focus section above.

## Scandinavian Minor

You might want to study Scandinavian culture or learn Swedish to get in touch with your roots. Maybe your grandparents sang Nordic folk songs, baked delicious Danish pastries, or told tales about the old country. Maybe you've already traveled in Europe or want to learn about cultural differences and immerse yourself before doing so. Or you may want to build a career in a global business environment.

Approximately 20 million people's mother tongue is a Scandinavian language, and notable Scandinavian literature spans a broad range from the beloved children's stories of Hans Christian Andersen to modern crime novels by Stieg Larsson. Scandinavian heritage permeates Western society, particularly in the areas of classical music, literature, science, philosophy, and theology.

Learning about other cultures fulfills the primary purpose of a university education—it will prepare you to reason, analyze, solve problems, and communicate in a world of widely differing cultures. The UO offers the only minor program in Scandinavian in Oregon. Classes are small and discussion-based with engaging activities designed to involve and engross students, with both group and individual writing assignments.

Assistant Professor **Gantt Gurley** says, "College is a time to learn to explore, to set boundaries and jump over boundaries that you won't have the luxury to do later on. Scandinavian studies sets up a larger configuration of European and cultural studies. It is about the life of the mind."

### Minor in Scandinavian

The Scandinavian minor correlates well with studies that have an international or European concentration. It is particularly useful for students of international business, European history, sociology, political science, theater arts, and art history.

| Code                                                       | Title | Credits   |
|------------------------------------------------------------|-------|-----------|
| Successful completion of one year of Swedish or equivalent |       | 12        |
| Six Scandinavian literature or culture courses             |       | 24        |
| <b>Total Credits</b>                                       |       | <b>36</b> |

Of the requirements listed above, the following rules apply:

- Three courses must be taken in the UO Department of German and Scandinavian
- One literature or culture course may be taken pass/no pass

Minors in Scandinavian must demonstrate basic aptitude in Swedish, demonstrated either by evaluation by the Scandinavian advisor or by

successful completion of First-Year Swedish (SWED 103) with a grade of mid-C or better.

Specific questions about the Scandinavian minor should be addressed to departmental undergraduate advisors in Scandinavian.

## German (MA)

The graduate program in German offers the master of arts (MA) in German, either through a regular two-year program or through a combined BA-MA program that enables students to complete the requirements for both the BA and the MA in German in five years. The program also offers the doctor of philosophy (PhD) degree in German, for which applicants may apply either with a BA or an MA already earned. The requirements for the PhD include one year of graded course work past the MA level and a written dissertation. The MA degree prepares students for teaching German language and culture up through the secondary-school level (in conjunction with teacher certification), while the PhD degree, as the highest degree in the field, is generally expected for an academic career involving both research and teaching.

The graduate curriculum acquaints students with the history of German letters (with a primary focus on modernity since the enlightenment), places this history in a European context, and provides tools for a critical analysis of the literary, theoretical, and cinematic discourses involved. The program encourages comparative, theoretically oriented work.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- **Language:** Students should attain the point where they can discuss literature and culture in German fluently in an advanced academic environment. In addition, they should be able to write a fluent 20-30 page essay in German on an academic literary topic.
- **Literature:** Students should be able to provide a general characterization of the history and shapes of all major genres (lyric, drama, and narrative) in the literature of the German language from the early Enlightenment through the post-World War II period. Students should also possess an overview of all major interpretive paradigms in literary studies since World War I. Beyond this general knowledge, students must be able to demonstrate mastery of the stakes of one genre across several periods of German literary history, mastery of the literature of one period in all genres, and mastery of at least one philosophical movement or interpretive paradigm. Mastery here includes broad knowledge and significant comprehension, as well as a basic overview of the scholarly literature on the subject.
- **Demonstrate mastery of the broader contours of German literary history in terms of genres, periods, as well as of relevant theoretical paradigms and critical traditions.**
- **Demonstrate effective oral and written scholarly communication skills in English and German.**
- **Demonstrate ability to conduct independent research and analysis in German studies, following professional standards of writing and citation.**
- **Present research in a professional setting, such as a colloquium or a conference.**

## Core Curriculum

Students take one course each term. These courses are grouped according to common themes to give the program a topical and critical coherence. Core courses are paired with seminars of related

or complementary content, and students are encouraged to explore connections between courses.

In the first year, core courses address a specific genre (narrative, drama, and lyric). While their content may vary with the instructor, they are intended to present in general terms the history of the genre itself and of critical thinking about that genre. In the second year, core courses have less traditional themes and present a broader concept of textuality.

| Code    | Title                                     | Credits |
|---------|-------------------------------------------|---------|
| GER 621 |                                           |         |
| GER 622 |                                           |         |
| GER 623 |                                           |         |
| GER 624 | 1                                         |         |
| GER 625 | Translations-Transformations <sup>2</sup> | 4       |
| GER 690 | Literary Studies: [Topic] <sup>3</sup>    | 4       |

- 1 Acquaints students with important aspects of German philosophical discourse since Kant.
- 2 Presents the theory and practice of translation. "Transformations" is added to suggest that translation is not limited to written texts (e.g., the sister arts, literature into film).
- 3 Various topics in research methods, literary theory, history of German literature, and advanced methodology.

Beyond course work, the program features close mentoring, including guidance for developing portfolio papers that expand on writing done for courses, and, at the PhD level, a dissertation-writing colloquium in which students and faculty members join in responding to ongoing dissertation work by students in the program.

## German (PhD)

The graduate program in German offers the doctor of philosophy (PhD) degree in German, for which applicants may apply either with a BA or an MA already earned. The requirements for the PhD include one year of graded course work past the MA level and a written dissertation. The PhD degree, as the highest degree in the field, is generally expected for an academic career involving both research and teaching.

The graduate curriculum acquaints students with the history of German letters (with a primary focus on modernity since the enlightenment), places this history in a European context, and provides tools for a critical analysis of the literary, theoretical, and cinematic discourses involved. The program encourages comparative, theoretically oriented work.

## Program's Admission Requirements

Please visit the program's website (<https://graduatestudies.uoregon.edu/academics/programs/german/>).

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- **Literature and Culture -- Range:** Students should demonstrate the capacity to master a range of different specific topics within the field of German literary and cultural studies, by writing at least three essays on diverse topics during their period of study.
- **Literature and Culture -- Field Definition:** Students should demonstrate a professional-level mastery of three literary-historical or literary-critical categories. This should include coverage of

the primary literature, a strong knowledge base in the secondary literature, and a capacity to argue persuasively in written form for a given position on the category under consideration. Students should be able to design courses as well as answer questions in oral form on their chosen categories, so as to demonstrate their readiness to teach on the university level in the subfields defined by these categories.

- Literature and Culture -- Specialization: Students should demonstrate the capacity to develop a book-length argument of persuasively innovative character on a topic within the field of German literary and cultural studies (and related to at least one of the categories of focus under point 1 above). In addition, they should demonstrate the capacity to defend their written work orally--justifying the legitimacy of its argumentation in professional terms--in response to, and dialogue with, specific reasoned challenges and questioning.
- Demonstrate mastery of the full range of German literary history in terms of genres, periods, as well as of relevant theoretical paradigms and critical traditions.
- Demonstrate effective oral and written scholarly communication skills in English and German, as well as working knowledge in at least one additional language for research purposes.
- Demonstrate ability to conduct independent advanced research and analysis in German studies, following professional standards of writing and citation.
- Develop a professional profile through conference presentations and the submission of at least one article for publication.
- Contribute substantive and original work in the field in the form of a dissertation.

## German Major Requirements - Entering with a B.A. Degree

| Code                                 | Title                        | Credits   |

## Humanities

### Martha Bayless, Program Director

118 Prince Lucien Campbell Hall  
1287 University of Oregon  
Eugene, OR 97403-1287  
541-346-3911  
humanities@uoregon.edu

The Humanities Program offers general-education courses to students across the University. It also provides the opportunity for motivated and independently minded students to craft an individualized major with a humanistic orientation. Students working toward a Humanities major, which is designed in consultation with the program advisor, pursue their interests in a systematic and coherent way across several disciplines.

The curriculum of the Humanities Program provides opportunities for the student seeking intellectual coherence and integration, awareness of cultural contexts and traditions, and the connection of humanistic theory to practice. The program is pluralistic and multicultural in its vision and interdisciplinary in its approach. It is designed to provide essential skills and understanding for intelligent action and preparation for a wide range of careers.

The Humanities Program is committed to fostering an inclusive and diverse campus. Study of the humanities draws upon the many voices of the world in all their diversity, in time, in place, in gender, race, class, and age. The program welcomes all students and encourages the rational analysis of works of art and literature, and the reasoned expression of diverse points of view.

### Program Committee

Katya E. Hokanson, comparative literature

Mary Jaeger, classics

Jeffrey S. Librett, German and Scandinavian

F. Regina Psaki, Romance languages

George J. Sheridan Jr., history

Michael Stern, German and Scandinavian

Lisa Wolverton, history

Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Read critically and analyze texts from a variety of periods and cultures.
- Analyze critically a variety of cultural artifacts such as paintings, sculpture, architecture, and music.
- Show familiarity with the cultures that produced these texts and artifacts.
- Do research, write clearly, develop a coherent argument, and substantiate that argument with relevant evidence (citations of texts, references to cultural artifacts, etc.).
- Identify ideas that unite different disciplines.
- Understand issues of historical contingency and enculturation and, accordingly, be able to reflect critically on the thought systems (e.g. economic, political, religious) inculcated in our own culture.

Bachelor of Arts in Humanities

The humanities major is an interdisciplinary bachelor of arts (BA) degree program. Proficiency in at least one second language, a requirement for the BA degree, is central to the humanities major. Although majors are not required to do more than meet the BA requirement, it is strongly recommended that they continue language study in upper-division courses.

Grades of mid-C or better must be earned in courses taken to satisfy major requirements. For graduation, humanities majors must maintain at least a 2.00 grade point average (GPA) in required courses. No upper-division course may be used to satisfy more than one major requirement.

Humanities Major Requirements

| Code                                                                                         | Title                                 | Credits |
|----------------------------------------------------------------------------------------------|---------------------------------------|---------|
| Introductory Courses                                                                         |                                       |         |
| Option 1                                                                                     |                                       | 8       |
| Select two of the following:                                                                 |                                       |         |
| HUM 101                                                                                      | Introduction to the Humanities I      |         |
| HUM 102                                                                                      | Introduction to the Humanities II     |         |
| HUM 103                                                                                      | Introduction to the Humanities III    |         |
| Option 2                                                                                     |                                       |         |
| HUM 300                                                                                      | Themes in the Humanities <sup>1</sup> | 4       |
| Breadth Requirement <sup>2</sup>                                                             |                                       |         |
| Arts (music history, theater history, art history) (see Courses from Other Department below) |                                       | 4       |

| Total Credits                                                                                |                                       | 48-52   |

<sup>1</sup> Recommended for students who declare the major in the junior or senior year.

<sup>2</sup> At least two breadth requirement courses must be in the upper division.

<sup>3</sup> Students must submit a brief essay defending the coherence of the concentration and outlining the seven courses they plan to take. No more than three of the seven courses may be taken in any one department. Students should choose at least one Seminar (407) as part of their concentration.

Courses from Other Departments

- Arts:** Any course with an ARH, ART, MUP, MUS, or TA prefix.
- Philosophy:** Any course with a PHIL prefix excluding course(s) applied to Ancient World.
- Ancient World:** Any course with a CLAS prefix, (HIST 101), World History (HIST 104), Foundations of East Asian Civilizations (HIST 190), Precolonial Africa (HIST 325), History of Philosophy: Ancient and Medieval (PHIL 310), Early Judaism (REL 211).
- History:** Any course with a HIST prefix excluding course(s) applied to Ancient World.

Honors

- Honors in humanities allows a student to focus on an area of concentration in a written thesis. Requirements are as follows:
1. Satisfaction of the requirements for the major
  2. A grade point average of 3.50 or better in courses taken to meet the upper-division requirements of the major
  3. A senior thesis of substantial quality, approved by the thesis director and at least one member of the program committee

Four-Year Degree Plan

The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.

Bachelor of Arts in Humanities

| Course                                                                   | Title                              | Credits | Milestones |

## Judaic Studies

### D. Gantt Gurley, Program Director

319 Friendly Hall  
1233 University of Oregon  
Eugene, Oregon 97403-5273  
541-346-5288  
gantt@uoregon.edu

The interdisciplinary Harold Schnitzer Family Program in Judaic Studies provides a comprehensive undergraduate curriculum in the history, religion, and cultural traditions of the Jewish people and offers instruction in Hebrew language and literature. The program offers a major leading to a bachelor of arts (BA) degree and a minor. It sponsors courses, lectures, and other events of interest to the general student population and the wider community.

## Faculty

Gantt Gurley, associate professor. See **German and Scandinavian**.

Bassem Hosny, Career Instructor (Modern Hebrew and Hebrew literature and film)

Meir Goldstein, Senior Jewish Educator

## Emerita

Judith R. Baskin, professor emerita. See **Religious Studies**.

## Executive Committee

Gantt Gurley (chair), German and Scandinavian

Bassem Hosny, Judaic and Hebrew Studies

Meir Goldstein, Judaic and Hebrew Studies

## Undergraduate Programs

### Major - Bachelor's Degree

- Judaic Studies (BA) (p. 130)

### Minor

- Judaic Studies (p. 131)

# Judaic Studies (BA)

Students from many different backgrounds and diverse interests benefit from learning more about the history of Western civilization through the perspective of Judaic studies. The Harold Schnitzer Family Program in Judaic Studies offers both a major and a minor for students. The program emphasizes the history, religion, and civilization of the Jewish people, as well as two years' proficiency in Hebrew language and literature. The major is interdisciplinary, meaning undergraduates can take courses from a variety of departments that appeal to their unique interests. Students graduate with both advanced language skills and an increased awareness of diverse cultures and traditions.

The Judaic studies program consists of core courses taught under the HBRW, JDST, and REL subject codes and related courses taught in the disciplines of participating faculty members—anthropology, art history, comparative literature, conflict and dispute resolution, English, geography, folklore and public culture, German and Scandinavian, history, landscape architecture, music, philosophy, political science, religious studies, Romance languages, and women's and gender studies.

The focus on Jewish cultures and experience as a lens to study the world provides a liberal arts background suitable to careers in a range of professional fields (law, education, rabbinate, social service, public policy) and prepares students for graduate work in Judaic studies, religious studies, and related fields.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Identify, describe and explain Jewish experiences, achievements, and challenges in various historical, social, religious, political, and cultural contexts.
- Explain how Jewish communities have transformed throughout time and in different places.
- Demonstrate at least 2nd-year language competence in Modern Hebrew; identify and explain the significance of language in assessing Jewish culture(s).
- Read and critically analyze primary sources and current scholarly literature, applying appropriate theoretical and methodological tools in the academic study of Judaism and Jewish culture.
- Make an effective and valid argument in speech and writing: one that successfully establishes a premise and critically supports that premise with appropriate and persuasive scholarly evidence.

| <b>Total Credits</b>                       |                          | <b>69-80</b> |

<sup>1</sup> Courses must focus on significant issues in Judaic studies from the perspective of the instructor's academic discipline. See Electives table for a list of recently offered courses.

## Electives

| Code     | Title                               | Credits |
|----------|-------------------------------------|---------|
| ANTH 429 | Jewish Folklore and Ethnology       | 4       |
| ENG 340  | Jewish Writers                      | 4       |
| FLR 411  | Folklore and Religion               | 4       |
| GER 368  | Themes in German Literature         | 4       |
| HIST 415 | Advanced World History: [Topic]     | 4       |
| HIST 428 | Europe in the 20th Century: [Topic] | 4       |
| JDST 330 | American Jewish Cultures            | 4       |
| PHIL 320 | Philosophy of Religion              | 4       |
| REL 414  | Biblical Book: [Topic]              | 4       |

A list of approved courses is available from the program director preceding each term; it also appears in the online class schedule and the program website.

## Honors in Judaic Studies

A degree with honors in Judaic studies requires the following:

1. Satisfaction of the requirements of the major
2. A cumulative grade point average of 3.50 in courses taken to satisfy the major requirements
3. Satisfactory completion of an honors thesis

The candidate for honors must register for 4 credits in Research: [Topic] (JDST 401) winter term of the senior year in order to prepare for writing the thesis, and for 4 credits in Thesis (JDST 403) spring term for its completion. A faculty committee of two supervises the project. A first draft of the thesis must be submitted six weeks before the end of the term in which the student expects to graduate and the final draft two weeks before the end of the term.

## Four-Year Degree Plan

*The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.*

## Bachelor of Arts in Judaic Studies

| Course                                       | Title         | Credits   | Milestones |

## Judaic Studies Minor

The Judaic Studies Minor provides a comprehensive undergraduate curriculum in the history, religion, and cultural traditions of the Jewish people and offers instruction in Hebrew language and literature. The focus on Jewish cultures and experience as a lens to study the world provides a liberal arts background suitable to careers in a range of professional fields (law, education, rabbinate, social service, public policy, among others) and prepares students for graduate work in Judaic studies, religious studies, and related fields.

### Minor in Judaic Studies

| Code                                                                         | Title                               | Credits   |
|------------------------------------------------------------------------------|-------------------------------------|-----------|

| <b>Total Credits</b>                                                         |                                     | <b>28</b> |

<sup>1</sup> As many as 4 credits in Internship: [Topic] (JDST 404) or Terminal Project (JDST 409) or Terminal Project (HBRW 409) may be used to satisfy minor requirements.

## Linguistics

**Melissa Redford, Department Head**

541-346-3906  
161 Straub Hall  
1290 University of Oregon

Eugene, Oregon 97403-1290

Students and Faculty in the Department of Linguistics engage with language acquisition, use, and change at the intersection of human cognition, culture, and computation. We offer course work and research experiences that combine language with culture and society; action and cognition; and computation and learning.

We offer a major or minor in Linguistics that combines coursework in the discipline with language courses from at least two languages other than your first language. We also offer a minor in Interdisciplinary Cognitive Science and provide special emphasis courses for the Data Science major. As an interdisciplinary field, Linguistics combines well with majors or minors from a variety of other disciplines from Romance Languages to Data Science, Psychology to Computer Science, and Sociology to Communication Disorders and Sciences, to name but a few.

Students can also earn a certificate in Second Language Acquisition and Teaching (SLAT) as a starting point for careers in language teaching.

## Faculty

Melissa Michaud Baese-Berk, professor (second-language acquisition, phonetics, laboratory phonology, psycholinguistics). BA, 2004, Boston; PhD, 2010, Northwestern. (2013)

B. Mokaya Bosire, senior instructor (Swahili). BA, 1991, MA, 1993, Nairobi; PhD, 2008, State University of New York, Albany. (2012)

Don Daniels, associate professor (languages of Papua New Guinea, language change and reconstruction, linguistic fieldwork, morphosyntax). BA, 2006, Dartmouth College; PhD, 2015, California, Santa Barbara. (2018)

Spike Gildea, professor (language description, diachronic syntax, typology, phonology, comparative linguistics, field methods and ethics, Cariban and other South American languages). BA, 1983, MA, 1989, PhD, 1992, Oregon. (2000)

Vsevolod M. Kapatsinski, professor (psycholinguistics, corpus linguistics, experimental morphology and phonology, language learning in the lab). BA, 2003, MA, 2005, New Mexico; PhD, 2009, Indiana. (2009)

Tyler S. Kendall, professor (sociolinguistics, corpus linguistics, phonetics, language and law). BA, 1998, Cornell; PhD, 2009, Duke. (2010)

Kristopher Kyle, associate professor (second language acquisition, language assessment, natural language processing, second language writing). BA, 2005, Harding; MA, 2011, Colorado State; PhD, 2016, Georgia State. (2019)

Eric W. Pederson, associate professor, retired (cognitive and psycholinguistics, language and culture; South Indian languages). BA, 1982, MA, 1985, PhD, 1991, California, Berkeley. (1997)

Gabriela Pérez Báez, associate professor (language documentation and description, language revitalization, semantic typology, language and cognition, Zapotec languages). BFA, 1997, MA, 2005, PhD 2009, State University of New York, Buffalo. (2018)

Melissa Redford, professor (phonetics, laboratory phonology, psycholinguistics, cognitive science). BA, 1992, California, Berkeley; MA, 1995, PhD, 1999, Texas, Austin. (2002)

Julie M. Sykes, professor (second language acquisition, interlanguage pragmatics, transformative pedagogy). BA, 2001, MA, 2005, Arizona State; PhD, 2008, Minnesota. (2016)

Charlotte R. Vaughn, instructor (speech perception, psycholinguistics, talker variability, sociophonetics). BA, 2005, Duke; MA, 2011, PhD, 2014, Northwestern. (2014)

Keli D. Yerien, senior lecturer II (language teacher education, curriculum development, gesture in discourse); director, Language Teaching Specialization MA Program. BA, 1991, North Carolina, Chapel Hill; MS, 1994, PhD, 2000, Georgetown. (2007)

## Emeriti

Scott DeLancey, professor emeritus. BA, 1972, Cornell; PhD, 1980, Indiana. (1982)

T. Givón, professor emeritus. BSc, 1959, Jerusalem; MS, 1962, MA, 1966, PhD, 1969, California, Los Angeles. (1981)

Doris L. Payne, professor emerita (morphology, syntax, semantics, discourse; Amerindian and African languages). BS, 1974, Wheaton; MA, 1976, Texas, Arlington; PhD, 1985, California, Los Angeles. (1987)

Cynthia M. Vakareliyska, professor emerita. BA, 1973, Princeton; JD, 1976, Columbia; PhD, 1990, Harvard. (1994)

## Participating

Gregory D. Anderson, linguistics

Dare A. Baldwin, psychology

Marjorie S. Barker, linguistics

Robert L. Davis, Romance languages

Tom Delaney, American English Institute

Robert Elliott, Northwest Indian Language Institute

Andrew Halvorsen, American English Institute

Laura G. Holland, American English Institute

Kaori Idemaru, East Asian languages and literatures

Zhuo Jing-Schmidt, East Asian languages and literatures

Mark Johnson, philosophy

Sarah Klinghammer, linguistics

Jeffrey Magoto, Yamada Language Center

Thomas E. Payne, linguistics

Trish Pashby, American English Institute

Janne Underriner, Northwest Indian Language Institute

*The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.*

## Undergraduate Programs

### Major - Bachelor's Degree

- Linguistics (BA/BS) (p. 133)

### Minors

- Interdisciplinary Cognitive Sciences (p. 135)
- Linguistics (p. 134)

### Certificate

- Second-Language Acquisition and Teaching (p. 135)

## Graduate Programs

### Major - Master's Degree

- Language Teaching Studies (MA) (p. 136)

### Major - Doctoral Degree

- Linguistics (PhD) (p. 137)

## Linguistics (BA/BS)

Language is with you all day, every day of your life—it is central to the human experience. You use language to think, to learn new things, to get things done, to share your heart, and to engage with others more generally. In the Linguistics Department, you will be introduced to the science of language in a high-powered and welcoming research community. You will learn all about how language works, how it is learned, how it varies from society to society, and how it changes over time.

Work in linguistics cultivates key intellectual abilities: analytical skills, data analysis skills, reasoning and argumentation, and written and oral communication skills. A degree in linguistics prepares students for professions and/or further training in any number of areas that value these abilities. Those who pursue degrees in linguistics frequently go on to pursue careers in teaching (e.g., foreign language or ESL teaching in the US or abroad), the high-tech industry (e.g., software development and testing, speech analysis and synthesis), health sciences (e.g., speech-language pathology), or national security.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Perform basic acoustic analyses of recorded speech sounds.
- Discover the phoneme inventory and basic phonotactic structure in a sufficiently large set of phonetically transcribed words.
- Analyze the morphological and syntactic constructions in a sample of glossed linguistic data.
- Design a laboratory or field research project in some area of linguistics.
- Read and demonstrate an understanding of current research literature in areas of linguistics taught in our program.

## Linguistics Major Requirements

| Code                | Title                                | Credits |

<sup>1</sup> LING 410 may be accepted with advisor approval.

## Additional Requirements

Two years of one second language and one year of another.

Courses applied to the major in linguistics must be taken for letter grades. A course in which a grade of D+ or lower is earned cannot count toward the major.

The study program of undergraduate linguistics majors must be approved by a departmental undergraduate advisor.

## Honors in Linguistics

By fulfilling the following requirements, any linguistics major may graduate with honors.

## Grade Point Average

On entry to the honors program at the end of the junior year, a grade point average (GPA) of 3.75 or better in linguistics courses and at least 3.50 overall is required. At the end of the senior year, a GPA of 3.75 or better in linguistics courses is required.

## Senior Thesis

Write an original honors thesis under the guidance of a thesis advisor from the linguistics faculty, chosen in consultation with the undergraduate advisor. The thesis must be a substantial piece of work; it may be a revised and expanded term paper. The thesis advisor determines whether the thesis is acceptable; the student is required to register for at least 6 credits in Thesis (LING 403), taken pass/no pass, over the course of at least two terms.

## Four-Year Degree Plan

*The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.*

## Bachelor of Arts in Linguistics

| Course                                            | Title         | Credits      | Milestones |

## Linguistics Minor

Linguists study how languages are used and structured by societies, how they are learned and processed by individuals, and how they change over time in society and the individual. Faculty in the UO Department of Linguistics have research interests that extend into the areas of speech-language pathology, psychology, anthropology, and the maintenance and revitalization of endangered languages. The Department offers a minor in linguistics which gives the student both a grounding in the basis of linguistic analysis and the opportunity to pursue areas of special interest.

The undergraduate minor requirements changed in Fall of 2020. Students admitted to the minor before Fall of 2020 can choose to follow the current degree requirements or the previous minor requirements. The Linguistics Department website provides more information.

## Linguistics Minor

| Code                   | Title                                | Credits   |
|------------------------|--------------------------------------|-----------|
| Required Courses:      |                                      | 16        |
| LING 301               | Introduction to Linguistics Analysis |           |
| LING 302               | Introduction to Linguistic Behavior  |           |
| LING 311               | Phonetics and Phonology              |           |
| LING 312               | Morphosyntax                         |           |
| Electives <sup>1</sup> |                                      | 12        |
| <b>Total Credits</b>   |                                      | <b>28</b> |

<sup>1</sup> Two electives must be at the 400+ level with a third elective at the 200+ level.

## Language Requirement

The language requirement for the minor is the same as the language requirement that is required for the Bachelor of Arts at the UO. See the UO Academic Policies (<http://uocatalog.uoregon.edu/admissiontograduation/bachelorrequirements/>); scroll down to the "Bachelor of Arts Requirements" for an explanation of the BA second language requirement.

## Interdisciplinary Cognitive Science Minor

The Interdisciplinary Cognitive Science minor culminates with a capstone course that provides students with the an opportunity to synthesize the content they have learned across multiple disciplines and then to explore an independent research project in cognitive science. The first section of the course highlights existing interdisciplinary collaborations between the minor's core departments (i.e., Linguistics, Psychology, Computer Science) and supplemental departments and programs (e.g., Biology, Philosophy, Anthropology, Sociology, Economics, Neuroscience, Human Physiology, and others). The second section of the course highlights students own research interests and allows students to develop their "minor thesis" by the end of the term.

### Minor in Interdisciplinary Cognitive Sciences

- One additional course from one of the aforementioned disciplines (depth requirement). Note: If majoring on one of the three disciplines, this depth course must be in one of the disciplines outside of the major.
- Another department/course in consultation with advisor.
- At least 12 credits must be upper division.

### Additional Requirements

At least 16 credits must be taken in residence, including the upper division capstone course and 8 other upper division course credits.

## Second Language Acquisition and Teaching Certificate

In collaboration with several UO departments, the Department of Linguistics offers an undergraduate certificate that focuses on the theory of second-language acquisition and teaching and its application in pedagogical settings. The certificate complements any other major.

### Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate knowledge of current linguistic and educational research and theory in the fields of Second Language Acquisition (SLA) and Second Language Teaching (SLT).
- Demonstrate critical understanding of influential current and historical methodological frameworks in language teaching.
- Successfully review, organize, synthesize, and critically evaluate appropriate scholarly sources, as well as demonstrate the ability to apply these to the development of their teaching materials.
- Demonstrate the ability to evaluate, adapt, and apply pedagogical techniques in principled and innovative lesson planning according to varied contextual and learner factors.
- Demonstrate sensitivity to the needs of culturally and linguistically diverse learners through differentiation and universal design of materials and practices.

- Demonstrate the ability to apply research and analysis of specific linguistic and cultural phenomena (i.e. of the chosen target language) to their own design of materials and practices.
- Demonstrate the ability to put key principles derived from current SLA/SLT research into embodied practice within actual teaching contexts, including the appropriate use of classroom management and leadership skills.

Students must complete a total of 36 credits (must include 24 upper-division credits) with 12 credits at the 400 level.

### Other Languages <sup>2</sup>

<sup>1</sup> A substitute course may be accepted with advisor's approval

<sup>2</sup> If you would like to compose a SLAT certificate for other languages taught at UO, contact the SLAT Director, Dr. Keli Yerian at [yerian@uoregon.edu](mailto:yerian@uoregon.edu)

## Language Teaching Studies (MA)

The University of Oregon Master of Arts (MA) degree program in Language Teaching Studies is a 15-month intensive graduate degree designed to prepare leaders in the field of language teaching and learning. A unique feature of this program is that participants are able to specialize in more than one language, including majority languages such as English and minoritized languages such as the indigenous languages of the Pacific Northwest.

The MA in Language Teaching Studies focuses on transformational approaches to language instruction through innovation in curriculum, pedagogy, materials development, digital technologies, and assessment, including how evidence-based principles and practices can be adapted across a wide range of language learning contexts. The program is particularly sensitive to the evolving needs of both majority and minority language learners in this era of globalization and internationalization.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate knowledge of current linguistic and educational research and theory in the fields of Second Language Acquisition (SLA) and Second Language Teaching (SLT). Students demonstrate understanding of how this research and theory applies to their own areas of focus in second language, world language, or indigenous language teaching and learning.
- Demonstrate critical understanding of influential current and historical methodological frameworks in language teaching, as well as demonstrate the ability to evaluate, adapt, and apply pedagogical techniques drawn from these frameworks in principled and innovative lesson planning, according to contextual need.
- Recognize, value, and integrate instructional, curricular, and learner initiated elements related to culture, interaction, and pragmatics within their teaching practices. Students will be able to value and integrate elements of text and performance as they pertain to literature and multiliteracies.
- Demonstrate ability to apply key principles derived from current SLA and SLT research, standards, and practice to curriculum design, course design, materials design, and assessment design in empirically grounded and innovative ways.
- Demonstrate the ability to apply key principles derived from current SLA/SLT research and practice to effective incorporation of digital technologies into their plans and teaching.
- Demonstrate the ability to put key principles derived from current SLA/SLT research into embodied practice within actual teaching contexts, including the appropriate use of classroom management and leadership skills.
- Successfully review, organize, synthesize, and critically evaluate appropriate scholarly sources, as well as demonstrate the ability to apply principled small-scale needs analysis research methods and appropriate data collection techniques for the development of their teaching and curriculum materials.
- Demonstrate sensitivity to the needs of culturally and linguistically diverse learners through differentiation of curricula and practice.
- Demonstrate flexibility and innovation in the face of the various sociocultural and contextual factors impacting language instruction.
- Demonstrate autonomy and initiative in their own professional development, including welcoming peer and faculty mentoring, engaging in teamwork, and adapting to the dynamic nature of the language-teaching field.

Only graded courses may be used to satisfy degree requirements. Exceptions must be approved by the department. No course with a grade lower than B- may be used to satisfy degree requirements.

## Master of Arts in Language Teaching Studies

| Code     | Title                                      | Credits |
|----------|--------------------------------------------|---------|
| LING 520 | Language, Mind and Society                 | 4       |
| LING 530 | Research Methods for Applied Linguistics   | 4       |
| LING 544 | Second-Language Acquisition                | 4       |
| LT 534   | Language Learning in Context               | 4       |
| LT 535   | Language Learning Design                   | 4       |
| LT 536   | Design for Learning Language Systems       | 4       |
| LT 537   | Second-Language Teaching Practice          | 4       |
| LT 538   | Design for Language Learning Pragmatics    | 4       |
| LT 539   | Design for Language Learning Pronunciation | 4       |
| LT 548   | Curriculum and Materials Development       | 5       |

|        |                                                          |   |
|--------|----------------------------------------------------------|---|
| LT 549 | Measuring Language Ability                               | 5 |
| LT 611 | Terminal Project                                         | 7 |
| LT 608 | Workshop: [Topic] (Digitally Mediated Language Learning) | 1 |
| LT 608 | Workshop: [Topic] (Microteaching & Materials )           | 3 |

**Total Credits** **57**

Students who choose to take 2 years to complete the program can delay some coursework to the 2nd year but must take LT 535 before LT 536 or LT 548. Electives credits are described after the required courses.

### Electives

Students may take additional elective coursework, which may include any number of language or education related coursework, internships, or supervised tutoring or teaching opportunities.

Students who have already taken any of the required courses or their equivalents previous to entering LTS should replace them with elective credits in consultation with the LTS Director. Students who already have two years or more of language teaching experience can choose to focus on additional coursework for their elective credit, while students with less than two years are advised to gain additional practical experience through the many supervised teaching opportunities noted below.

Courses that can count as electives include additional LT seminars and any graduate Linguistics course (e.g. LING 507 Heritage Language Acquisition; LING 507 Bilingualism, and LING 507 Speech Perception and Production; LING 591 Sociolinguistics; or LING 644 Advanced Second Language Acquisition), as well as graduate level courses in other language departments, the School of Education, International Studies, Psychology, and others. Any course that relates to topics in education, language, or both is a potential elective choice, with Director approval. A few examples of the many possible electives courses are EDLD 530 Comparative Education, CHN 581 Chinese Pedagogical Grammar, GLBL 534 Language Issues in International Studies, and PSY 533 Learning and Memory.

Internships and Practica are arranged on an individual basis in a range of language teaching or curriculum development contexts. Students can assist in language classrooms at the American English Institute (AEI) at all proficiency levels, at Lane Community College, in various Foreign Language classes at the UO or LCC, at the Center for Applied Second Language Studies (CASLS), and in K-12 classrooms, such as in the local Japanese, Spanish, or French immersion programs. Classroom internships involve observation, assisting, and some teaching under the supervision of a cooperating teacher.

### Master's Project

Students working toward the Language Teaching Studies MA degree must complete a master's project over two consecutive terms. The project topic must be approved by the faculty advisor, and be presented in a LT 611 class session during the final term.

## Linguistics (PhD)

The doctor of philosophy (PhD) program in linguistics is individually tailored to meet the needs and professional goals of the student, drawing strong interdisciplinary support from related fields at the university. These fields may include—but are not limited to—anthropological linguistics, cognitive science, communication disorders and sciences, discourse and

text analysis, English linguistics, first- and second-language acquisition, language-data processing, neurolinguistics, and sociolinguistics.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Conduct independent research and advance knowledge in area of specialization.
- Write technical papers that are of sufficiently high-quality to merit publication in scholarly journals.
- Demonstrate mastery in at least 2 core areas of linguistics sufficient to teach lower division courses in linguistics.
- Demonstrate mastery of current theory, literature, research methods, and data management in area of specialization sufficient to teach upper-division and graduate-level courses in linguistics.
- Demonstrate clear understanding of the principles of ethical research in area of specialization and adhere to these principles when conducting research.

### Required Courses

| Code                                          | Title                                    | Credits   |
|-----------------------------------------------|------------------------------------------|-----------|
| Select two of the following:                  |                                          | 8         |
| LING 616                                      | Linguistic Theory: Semantics             |           |
| LING 615                                      | Linguistic Theory: Syntax                |           |
| LING 614                                      | Linguistic Theory: Phonology             |           |
| Select two courses out of the following:      |                                          | 8         |
| LING 507                                      | Seminar: [Topic]                         |           |
| LING 607                                      | Seminar: [Topic]                         |           |
| Equivalent seminar courses                    |                                          |           |
| Select three courses out of the following:    |                                          | 12        |
| LING 617–619                                  | Field Methods I-III                      |           |
| LING 531                                      | Statistical Methods in Linguistics       |           |
| LING 593                                      | Corpus Linguistics                       |           |
| and other courses in quantitative methods     |                                          |           |
| LING 530                                      | Research Methods for Applied Linguistics |           |
| and other courses in applied research methods |                                          |           |
| Combination of courses from these areas       |                                          |           |
| <b>Total Credits</b>                          |                                          | <b>28</b> |

The course work must be approved by the student's doctoral advisor. Even those students who have already earned an MA degree are typically expected to complete all of the MA degree course work requirements at Oregon as part of the normal progress toward the PhD.

For each student, the specific courses are to be determined by the student's advisor and the department's director of graduate studies, as are all other courses required for the PhD. No course with a grade lower than B– may be used to satisfy degree requirements. Candidates for the PhD must demonstrate proficiency equivalent to two years of college-level study of a second language and either proficiency equivalent to one year in a third research-related language or proficiency in programming or statistics in order to be advanced to candidacy.

### Residency Requirement

The Division of Graduate Studies requires at least three years of full-time work beyond the bachelor's degree for the doctorate, with at least one year spent in continuous residence on the Eugene campus. The Department of Linguistics interprets the latter requirement to mean that at

least six courses, including seminars, must be taken in the program while the student is in continuous residence for three academic terms.

### Doctoral Advisor

The department head appoints a doctoral advisor for each student upon admission to the PhD program.

### Second-Year Review

By the end of a doctoral student's second year, he or she shall be given a review by the faculty members at a department meeting. Materials submitted by the student to the department for this review must include the following:

1. A report that includes a research plan for the next year's course work, potential topics for the two qualifying papers, a statement about the student's career plans beyond the doctoral degree (and how the specific qualifying paper and thesis topics are relevant), and any other details worked out in consultation with the student's advisor
2. A curriculum vitae (CV)
3. Written evidence of research progress and scholarly potential, such as a substantive term paper or revision of a term paper that demonstrates excellence of original research or a linguistics master's thesis; the materials must be submitted to the Department by April 15

Following review of these materials, the faculty members decides either to *accept* or *deny* the student for continued study in the PhD program. In some cases, a probation year may be granted for a student's third year of study; the review process is repeated at the end of the third year with an *accept* outcome the only possibility for continued study.

As soon as possible after completion of the review, a letter to each graduate student under review is issued by the director of graduate studies informing the student of his or her status and, in the case of a one-year probation, specifying the conditions that must be met for a successful outcome during the additional third-year review. The language of the probation conditions is drafted by the student's doctoral advisor and the director of graduate studies. The director may also meet with any students who are denied continued study or who are granted probation.

### Annual review

Beginning in the third year of the program, each graduate student must submit an annual report and CV to his or her advisor by April 15 of each year. The report should be no more than one page in length and should detail what the student has accomplished over the past year in the program.

### Doctoral Examination and Advancement to Candidacy

#### Requirements for the Qualifying Paper

The doctoral examination consists of two original publishable papers (QPs) in different subfields of linguistics. The term "different subfields" may include two different methodological approaches to a single broad topic. Acceptance of a QP indicates that the review committee has deemed the paper to constitute sufficient evidence for the student's readiness to perform PhD-level research and write a dissertation. Submission of both QPs for publication is required before the student can advance to candidacy. The publishing venue may be a refereed journal, a refereed or nonrefereed conference proceedings volume, an online publication, or another venue. While submission of

each qualifying paper to a publishing venue is required for advancement to candidacy, acceptance for publication is not a requirement.

An unmodified MA thesis cannot serve as one of the qualifying papers. A qualifying paper may be, however, a publishable expansion or revision of an MA thesis or publishable term paper written for a course conducted by any faculty member in the department or, where deemed reasonable, for a course conducted by a faculty member outside the department. The paper may be written under the supervision of either the student's advisor or another faculty member in consultation with the student's advisor, who approves the topic and the final version before submission to the QP Coordinator.

### Composition of the Qualifying Paper Committee

A committee of three faculty members is drawn up to review each qualifying paper. The committee is composed of two faculty member reviewers and the student's doctoral advisor. In cases where the qualifying paper supervisor is not the student's doctoral advisor, the doctoral advisor will be one of the two reviewers and the supervisor will be the third member of the committee. The advisor sits on both of an individual student's committees, whereas at least one of the two faculty reviewers serves on only one of the two committees. One of the two faculty members on the committee may be from another department, where appropriate.

Upon completion and documented submission to a publisher of both qualifying papers and completion of all required course work and the research language requirement, the student advances to candidacy for the PhD degree. The student and the department must electronically submit the advancement to candidacy to the Division of Graduate Studies for approval.

At least one of the QP reviewers must not be a co-author of the QP at the time of the QP's submission to the committee. One QP reviewer may be a co-author of the QP as long as they have not contributed to the writing of the manuscript prior to its submission for review.

### Qualifying Paper Coordinator and Reviewers

The qualifying paper coordinator is a member of the faculty who

- receives papers submitted by the graduate student (after approval of the qualifying paper by the student's doctoral advisor and the QP supervisor)
- selects reviewers for the paper in consultation with the doctoral advisor and the QP supervisor
- sends the paper to the reviewers and sets a deadline for review (typically four weeks)
- receives the reviewers' comments and decisions
- sends a summary of the comments and decisions, together with the reviewers' specific comments, to the doctoral advisor and the student
- notifies the department when the qualifying paper is submitted and when it is accepted by the reviewers
- resolves disputes in cases of intractable disagreement among members of the QP committee

In the event that one or both of the reviewers requests revisions, the student (after the QP supervisor approves the revised version of the paper) submits the revision to the coordinator. A reviewer may choose whether or not to review the revised version. If a reviewer chooses to review the revision, the coordinator sends the revised version to the reviewer and sets a deadline for review (typically four weeks). Any further comments or revision requirements from the reviewer or reviewers are

sent by the coordinator to the student, the QP supervisor and the student (with copies to the student's doctoral advisor). In the event that both reviewers reject a qualifying paper, the student may submit a substitute paper with the approval of the doctoral advisor. Except by petition to the faculty and subsequent faculty approval, there may be no third submission of a qualifying paper.

### Doctoral Dissertation

A doctoral committee must include at least three linguistics faculty members and one outside member, and must be either chaired or cochaired by the student's doctoral advisor in linguistics. A dissertation prospectus must be submitted to and approved by the doctoral committee before the writing of the dissertation commences. The PhD will be granted upon completion of the preceding requirements, the writing of an original dissertation acceptable to the doctoral committee, and an oral examination on the dissertation.

## Medieval Studies

### Stephanie Clark, Director

118 Prince Lucien Campbell Hall  
1287 University of Oregon  
Eugene, Oregon 97403-1287  
541-346-3960  
medieval@uoregon.edu

Medieval studies, an interdisciplinary undergraduate program, integrates various approaches to the Middle Ages by medievalists in several departments. Medieval studies provides an excellent general education or a solid base for graduate work in a more specialized area. Study abroad is strongly encouraged.

Medieval studies concentrates on the period from 300 to 1500, combining courses in art and architecture, history, language, literature, music, philosophy, and religion. A typical course of study includes diverse topics such as the Bible, the early Church, Byzantium, Islam, the Vikings, the Crusades, women in the Middle Ages, mysticism, romance, the Gothic cathedral, Chaucer, Dante, and medieval China and Japan. The program aims to provide a comprehensive introduction to the medieval worldview in Europe and beyond, and the origins of the modern world.

### Participating Faculty

Ina Asim, history

Martha J. Bayless, English

Louise M. Bishop, honors college, EMERITA

Stephanie Clark, English

Frederick Colby, religious studies

Stephen Dueppen, Anthropology

Andrew E. Goble, history

Deborah A. Green, Judaic studies

D. Gantt Gurley, German and Scandinavian

David Hollenberg, religious studies

Maile Hutterer, history of art and architecture

Mary Jaeger, classics

Lori Kruckenberg, music

Charles H. Lachman, history of art and architecture, EMERITUS

C. Anne Laskaya, English

Eric Mentzel, music

Stephen J. Shoemaker, religious studies

Mark T. Unno, religious studies

Cynthia M. Vakareliyska, linguistics, EMERITA

David Wacks, Romance languages

Lisa Wolverton, history

Undergraduate Programs

Major - Bachelor's Degree

- Medieval Studies (BA) (p. 140)

Minor

- Medieval Studies (p. 141)

Medieval Studies (BA)

Medieval studies, an interdisciplinary undergraduate program, integrates various approaches to the Middle Ages by medievalists in several departments. Medieval studies provides an excellent general education or a solid base for graduate work in a more specialized area. Study abroad is strongly encouraged.

Medieval studies concentrates on the period from 300 to 1500, combining courses in art and architecture, history, language, literature, music, philosophy, and religion. A typical course of study includes diverse topics such as the Bible, the early Church, Byzantium, Islam, the Vikings, the Crusades, women in the Middle Ages, mysticism, romance, the Gothic cathedral, Chaucer, Dante, and medieval China and Japan. The program aims to provide a comprehensive introduction to the medieval worldview in Europe and beyond, and the origins of the modern world.

Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Identify materials, terminologies, and methodologies within one or more following areas of study focused on the Middle Ages: art history; languages and literatures; history; religious studies and religious backgrounds to medieval culture; music history and performance; cross-cultural contacts and borrowings; classical backgrounds for medieval culture.
- Analyze primary material from the Middle Ages, explaining what specific features in the primary text/object carry medieval cultural content. (This can include focus, meaning, formal features, aims, assumptions, and purposes evident in the primary material.)
- Critically assess and interpret primary and secondary sources.
- Recognize and evaluate the cultural phenomena of the medieval world and their relationship to the modern world.

- Synthesize an argument from textual or other evidence and express it in formal prose. (Write organized, well-structured, clear essays that make use of evidence to advance assertions and a main thesis.)

Bachelor of Arts Degree Requirements

Medieval studies majors must complete twelve medieval courses in at least three departments with a grade of mid-C or better. At least 24 credits must be in upper-division work. Two years of Latin are recommended for those who want to do graduate work in medieval studies. See the program website for more information.

Honors in Medieval Studies

A degree with honors in medieval studies allows a student to focus on an area of concentration in a written thesis. Requirements are as follows:

1. Satisfaction of the requirements for the major
2. A grade point average of 3.50 or better in courses taken to meet the upper-division requirements of the major. A minimum cumulative UO grade point average of 3.00
3. A prospectus for the thesis approved by both the thesis director and the program director. The prospectus must be submitted no later than week seven of the term before the student plans to complete the honors project. When the prospectus has been approved, the student and thesis director will agree on a schedule of submission of work
4. A senior thesis of substantial quality, representing new or substantially new work beyond any project or paper submitted within other university courses, approved by the thesis director and at least one other member of the medieval studies participating faculty. The thesis must be complete and ready for public presentation no later than week seven of the fall, winter, or spring term
5. **A presentation of the project.** The student presents the honors project to students and faculty members and participates in an open discussion of the project with the audience. Presentations typically occur in weeks seven through ten of fall, winter, or spring terms and are arranged in consultation with both the director of the Medieval Studies Program and the student's thesis advisor
6. Honors in medieval studies are not given for substantially the same project or paper submitted for honors to any other unit in the university. Departmental honors theses shall be written exclusively for honors in medieval studies
7. Students normally enroll in at least one but no more than two terms of Thesis (MDVL 403). Enrollment in Thesis is not required but is recommended. Thesis credits cannot serve to fulfill the minimum major requirements

Four-Year Degree Plan

*The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.*

Bachelor of Arts in Medieval Studies

| Course                     | Title            | Credits | Milestones |
|----------------------------|------------------|---------|------------|
| First Year                 |                  |         |            |
| Fall                       |                  |         |            |

| <b>Total Credits</b>           | <b>36</b> |

## Medieval Studies Minor

The Medieval Studies minor offers students an extensive curriculum which includes the Christian, Judaic, and Islamic Middle Ages, as well as courses in feudal Japanese culture and East Asian Art and religious traditions. Students gain deeper historical and cultural knowledge that contextualizes modern political and cultural developments and encourages cross-cultural connections. Courses are offered via a variety of departments, from philosophy, literature, and history to art, architecture, and music, grounding students' learning in a variety of disciplinary approaches.

### Minor Requirements

Students who want a minor in medieval studies must complete seven medieval courses in at least two departments.

### Suggested Courses

Students should plan their programs as early as possible with the aid of a medieval studies faculty advisor. With the advisor's consent, courses numbered 199, 399, 405, 407, 408, or 410 may be substituted for suggested courses. At least five of the courses must be taken at the University of Oregon. More information is available from the medieval studies office or from the Medieval Studies Program director.

| Code          | Title                    | Credits |
|---------------|--------------------------|---------|
| <b>Arabic</b> |                          |         |
| ARB 331       | Reading Classical Arabic | 4       |

## Philosophy

**Scott Pratt, Department Head**

239 Susan Campbell Hall  
1295 University of Oregon  
Eugene, Oregon 97403-1295  
541-346-5549  
uophil@uoregon.edu

Philosophy asks fundamental questions about human identity, the nature of knowledge and reality, moral virtue and responsibility, the nature of community and political authority, aesthetic judgments and values, and other concepts central to the meaning and value of human existence. Through the study of primary texts and concrete issues, drawn from various historical periods and cultures, philosophy provides a means for reflection on actions, beliefs, and values while developing critical thinking, reading, and writing skills. Philosophy also strengthens the ability to reason, enlarges the imagination, and refines aesthetic sensitivity. A philosophical education thus offers excellent preparation for a broad range of careers that require critical intelligence and creative problem-solving as well as oral and written communication skills.

Offering both graduate (Ph.D. and M.A.) and undergraduate (B.A., B.S. and minors in Philosophy and in Ethics) degrees, the department is home to ongoing dialogues and inquiries across philosophical perspectives and academic disciplines.

Our graduate program produces first-rate scholars and teachers with a strong foundation in the history of philosophy, a well-rounded preparation in the diverse concerns of contemporary philosophy, and the skills to communicate effectively across different traditions and schools of thought.

Our thriving undergraduate program includes a major and minor in Philosophy as well as a minor in Ethics. Throughout our undergraduate curriculum, we encourage our students to become engaged, reflective citizens and lifelong learners while preparing them for careers in government, law, the non-profit sector, business, or higher education.

## Faculty

Ramón Alvarado, assistant professor of philosophy (data ethics, philosophy of computation, philosophy of technology). BA, 2011, University of Texas at El Paso; MA, 2014, University of Texas at El Paso; MA, 2017, University of Kansas; PhD, 2019, University of Kansas. (2019)

Steven Brence, senior instructor (social and political philosophy, philosophy of film, ethics). BS, 1989, MA, 1993, PhD, 2001, Oregon. (2001)

Miguel Gualdrón Ramírez, assistant professor (decolonial philosophy, gender-race constructions, resistance). BA, 2005, MA, 2009, Universidad Nacional de Colombia; PhD, 2019, DePaul. (2023)

Colin Koopman, professor (political philosophy, data politics, pragmatism, genealogy). BA, 1997, Evergreen State College; MA, 1999, Leeds; PhD, 2006, McMaster. (2010)

Bonnie Mann, professor (feminist, Continental). BA, 1983, Portland State; PhD, 2002, State University of New York, Stony Brook. (2003)

Cintia Martinez Velasco, assistant professor (Feminist philosophy, Gender theory, Decolonial philosophy, Latinx philosophy, Critical theory in Latin America). BA, 2010, MA, 2013, PhD, 2019, University of Mexico. (2022)

Nicolae Morar, associate professor (bioethics, philosophy of biology, ecology). BA, 2004, MA, 2005, Université Jean Moulin Lyon 3; PhD, 2011, Purdue. (2015)

Barbara Muraca, associate professor (environmental and social philosophy, process philosophy, feminist philosophy). MA, 1998, Turin; PhD, 2008, Greifswald. (2019)

Jacob P. Neal, assistant professor (epistemological, methodological, historical issues in the molecular life sciences). BA, BS, ???? , University of Richmond; MA, MS ???? , Maryland, Baltimore County; PhD, 2021, Pittsburgh. (2023)

Scott L. Pratt, professor of philosophy (American philosophy, history of philosophy, education). BA, 1981, Beloit; PhD, 1995, Minnesota. (1995)

Camisha Russell, associate professor (critical philosophy of race, bioethics, African American philosophy). BA, 2000, American; MA, 2008, Memphis; PhD, 2013, Penn State. (2017)

Beata Stawarska, professor (phenomenology, Continental, philosophical psychology). BA, 1992, MA, 1994, PhD, 2000, Louvain. (2003)

Alejandro Vallega, professor (Latin American philosophy, Continental philosophy, aesthetics). BA, 1993, Saint John's College; MA, 1996, Boston; PhD, 1999, Vienna. (2010)

Daniela Vallega-Neu, professor (19th- and 20th-century European philosophy, history of philosophy, phenomenology). BA, 1984, European School, Varese; MA, 1992, PhD, 1995, Universitat Freiburg. (2010)

Peter Warnek, associate professor (ancient philosophy, 19th- and 20th-century Continental philosophy, Kant). BA, 1986, Seattle; MA, 1990, Villanova; PhD, 1998, Vanderbilt. (1999)

## Emeriti

William E. Davie, associate professor emeritus. BA, 1964, Washington (Seattle); PhD, 1969, California, Irvine. (1968)

Mark Johnson, professor emeritus (cognitive science, metaphor theory, pragmatism). BA, 1971, Kansas; MA, 1972, PhD, 1977, Chicago. (1994)

Naomi Zack, professor (race, feminism, disaster). BA, 1966, New York University; PhD, 1970, Columbia. (2001)

*The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.*

## Participating

Kristen Bell, Knight Law School

Joyce Cheng, history of art and architecture

Jeffrey S. Librett, German and Scandinavian

Lisa Mazzei, education studies

Jerry L. Rosiek, education studies

Steven Shankman, English

Michael Stern, German and Scandinavian

Mark T. Unno, religious studies

Malcolm Wilson, classics

## Undergraduate Programs

### Major - Bachelor's Degree

- Philosophy (BA/BS) (p. 143)

### Minors

- Ethics (p. 146)
- Philosophy (p. 146)

## Graduate Programs

### Major - Master's Degree

- Philosophy (MA) (p. 147)

### Major - Doctoral Degree

- Philosophy (PhD) (p. 148)

## Philosophy (BA/BS)

Philosophy engages fundamental questions concerning human identity, the nature of knowledge and reality, moral virtue and responsibility, the nature of community and political authority, aesthetic judgments and values, and other concepts central to the meaning and value of human existence.

Through the study of primary texts and concrete issues drawn from various historical periods and cultures, philosophy facilitates reflection on actions, beliefs, and values while developing critical thinking, reading, and writing skills. Philosophy also strengthens the ability to reason, enlarges the imagination, and refines aesthetic sensitivity.

With over 200 undergraduate majors and minors, the Philosophy major at the University of Oregon is one of the most vibrant in the country. Our program emphasizes the study of ethics, social and political philosophy, American philosophy, continental philosophy, feminist philosophy, philosophy of mind, the philosophy of race, the history of philosophy, and environmental philosophy.

The philosophy department provides a wide range of opportunities for majors outside the classroom. These include public lectures by prominent visiting philosophers as well as an undergraduate philosophy club. The department also routinely hosts regional, national, and international

conferences, and all undergraduates are invited and encouraged to participate in these events.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Delineate the history of Western philosophy and differentiate the main schools of thought, key authors, debates, terms, and methods, that emerged in the history of philosophy.
- Demonstrate critical thinking, reading, and writing skills through use of a broad range of research methods, including collaborative projects and scholarly essays that deal with primary and secondary sources in the literature and are written in an academic format.
- Present and assess views that differ from one's own, particularly perspectives relative to gender, race, class, and culture, including non-Western philosophical perspectives, within an inclusive classroom environment.
- Compare, contrast, and critique representative authors from various philosophical traditions and historical periods.
- Engage in philosophical inquiry that examines a broad range of topics such as human nature, the self and the community, political authority, morality, knowledge and reality, the arts, literature, film, the internet.
- Define and explain the various sub-disciplines within the field of philosophy, such as ethics, metaphysics, epistemology, aesthetics, philosophy of language, philosophical psychology, philosophy of law, environmental philosophy, social and political philosophy, and others, such as they are approached in within various philosophical fields of focus: Continental European, American and Latin American, Asian, feminist, critical race theory, and analytic.

Coursework for the major in philosophy must be passed with grades of C- or better or P (pass). No more than 8 credits may be taken pass/no pass.

## Philosophy Major Requirements

| Code                                                                                                                      | Title                                        | Credits |
|---------------------------------------------------------------------------------------------------------------------------|----------------------------------------------|---------|
| PHIL 225                                                                                                                  | Introduction to Formal Logic                 | 4       |
| Select two of the following:                                                                                              |                                              | 8       |
| PHIL 310                                                                                                                  | History of Philosophy: Ancient and Medieval  |         |
| PHIL 311                                                                                                                  | History of Philosophy: Modern                |         |
| PHIL 312                                                                                                                  | History of Philosophy: 19th Century          |         |
| In addition to two of the three history of philosophy courses above, select two additional history or traditions courses: |                                              | 8       |
| PHIL 310                                                                                                                  | History of Philosophy: Ancient and Medieval  |         |
| PHIL 311                                                                                                                  | History of Philosophy: Modern                |         |
| PHIL 312                                                                                                                  | History of Philosophy: 19th Century          |         |
| PHIL 342                                                                                                                  | Introduction to Latin American Philosophy    |         |
| PHIL 415                                                                                                                  | Continental Philosophy: [Topic]              |         |
| PHIL 420                                                                                                                  | American Philosophy: [Topic]                 |         |
| Select two of the following:                                                                                              |                                              | 8       |
| PHIL 421                                                                                                                  | Ancient Philosophers: [Topic]                |         |
| PHIL 433                                                                                                                  | 17th- and 18th-Century Philosophers: [Topic] |         |
| PHIL 453                                                                                                                  | 19th-Century Philosophers: [Topic]           |         |
| PHIL 463                                                                                                                  | 20th-Century Philosophers: [Topic]           |         |
| Select one of the following:                                                                                              |                                              | 4       |

|                               |                                           |           |

| Additional philosophy courses |                                           | 20        |
| <b>Total Credits</b>          |                                           | <b>52</b> |

## Additional Requirements

- At least 40 credits must be upper-division (300- or 400-level)
- At least 20 upper-division credits must be from courses taken at the University of Oregon

## Honors in Philosophy

The philosophy honors program is designed to provide outstanding, highly motivated philosophy majors with the opportunity to develop their skills during the senior year through the independent exploration of a special topic of their own choosing under the guidance of a faculty mentor. To be eligible for admission to the honors program, students must have completed at least 24 credits in philosophy, at least 12 of which have been taken at the University of Oregon. The honors candidate's grade point average (GPA) in philosophy must be at least 3.50, maintained through graduation. To graduate with honors, the candidate must fulfill the following requirements:

## Courses

Besides the courses required of majors, a candidate for departmental honors must take at least 16 of the 52 credits in philosophy at the 400 level.

## Senior Thesis

The candidate must write an honors thesis under the guidance of a member of the philosophy faculty chosen as thesis advisor. The thesis must demonstrate the student's ability to formulate a significant research problem, research primary resources, interpret sources with imagination and technical skill, and present the finished work in a form meeting professional standards in philosophy. The thesis must be approved by a thesis committee consisting of two faculty members from the philosophy department. Approval of the thesis depends in part on a public defense attended by the committee.

Upon fulfilling these requirements, the candidate is approved to receive a bachelor's degree with honors in philosophy.

## Four-Year Degree Plan

*The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.*

## Philosophy Minor

Philosophy engages fundamental questions concerning human identity, the nature of knowledge and reality, moral virtue and responsibility, the nature of community and political authority, aesthetic judgments and values, and other concepts central to the meaning and value of human existence. Our program emphasizes the study of ethics, social and political philosophy, American philosophy, continental philosophy, feminist philosophy, philosophy of mind, the philosophy of race, the history of philosophy, and environmental philosophy.

ethicsminor@uoregon.edu

The minor in ethics gives students tools for critically reflecting on moral questions. Students choose ethics-related courses from the Department of Philosophy, in topics such as medical ethics, internet ethics, and moral theory. Students who complete the minor in ethics will have skills in critical thinking and social engagement and be prepared to take on the major moral challenges of the 21st century.

| <b>Total Credits</b>                                                                                |                                           | <b>24</b> |

- Philosophy majors are allowed to complete the Ethics minor with a maximum of a two-course overlap.

Courses must be passed with grades of C– or better or P (pass). No more than 8 credits may be taken pass/no pass. Twelve credits must be taken at the upper-division level, 4 credits of which must be at the 400 level.

A minimum of 12 upper-division credits must be taken in residence at the University of Oregon.

Students minoring in ethics and also pursuing either a minor in philosophy or a major in philosophy may have a maximum two-course overlap between their ethics minor courses and their philosophy major/minor courses.

## Philosophy (MA)

The department offers a graduate program leading to the master of arts (MA) and the doctor of philosophy (PhD) degrees. The program, which is pluralistic in orientation, requires students to develop a broad knowledge of the history of philosophy, major fields, and various approaches and methods. Students are urged to concentrate in a specific area at the advanced level. Specializations are supported in American philosophy, Continental philosophy, feminist philosophy, Latin American philosophy, philosophy of race, philosophical psychology, and environmental philosophy.

Our program is known for its pluralism, close mentoring relationships between graduate students and faculty, a faculty committed to teaching excellence as well as research, supportive rather than competitive relationships among graduate students, and professionally active and successful graduate students.

The department and faculty have particular strengths in a range of traditions and fields of focus. The program requires students to develop a broad knowledge of the history of philosophy, major fields, and various approaches and methods. We also welcome interdisciplinary approaches. Students are expected to concentrate in a specific area at the advanced level.

Each student designs a program in consultation with a faculty adviser. Two or more years are typically required to complete the master's degree and five or six years for the doctorate.

## Program's Admission Requirements

Please visit the program's website ([https://philosophy.uoregon.edu/graduate/how\\_to\\_apply/](https://philosophy.uoregon.edu/graduate/how_to_apply/)).

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Represent the pluralistic orientation of philosophy including the four major traditions of inquiry: Continental European, American, Feminist, and Analytic.
- Delineate the history of Western philosophy, including the main eras: Ancient, Modern, 19th C., 20th and 21st C.
- Develop expertise in any combination of the sub-disciplines within the field of philosophy, such as ethics, data ethics, bioethics, metaphysics, epistemology, aesthetics, philosophy of language, philosophy of race, decolonial philosophy, social and political philosophy, critical theory, philosophical psychology, environmental philosophy, and others.
- Deepen an understanding of the three disciplinary fields: Society and Value; Knowledge, Rationality and Inquiry; Metaphysics.
- Develop familiarity with non-western and non-hegemonic philosophies, such as Native American and Latin American Philosophy, and Philosophy of Race.
- Develop proficiency in a second language relevant to their area of research.
- Develop proficiency in logic.
- Specialize in specific philosophical areas at an advanced research level by researching relevant primary and secondary literature, designing, and writing a doctoral dissertation or a master's thesis.

## Philosophy Major

There are two paths to earning a master's degree. The first requires completion of the second-language requirement and 48 credit hours of graduate course work including the distribution requirements (listed below). The second requires satisfaction of the second-language requirement, completing 45 credits of graduate course work—9 of which are taken in Thesis (PHIL 503)—and the writing of a master's thesis under the direction of a thesis advisor with a second faculty reader.

The distribution requirements may be satisfied by receiving a mid-B or better.

- History Requirements (3 courses)
- Traditions Requirements (4 courses)
- Emerging and Engaged Philosophies Requirements (3 courses)

## Coursework Track

| Code                                                               | Title                                                        | Credits   |

| Two courses in Emerging Philosophies                               |                                                              | 8         |
| PHIL 551                                                           | Native American Philosophy                                   |           |
| PHIL 643                                                           | Feminist Philosophy: [Topic]                                 |           |
| PHIL 657                                                           | Philosophy and Race: Contemporary Issues                     |           |
| One course in Engaged Philosophies                                 |                                                              | 4         |
| PHIL 623                                                           | Data Ethics                                                  |           |
| PHIL 645                                                           | Environmental Philosophy: [Topic]                            |           |
| <b>Electives</b>                                                   |                                                              | 8         |
| <b>Total Credits</b>                                               |                                                              | <b>48</b> |

<sup>1</sup> Usually satisfied by taking the Advanced Introduction in each area (571, 572, 573, 574).

\* May be filled by topics courses.

## Note on criteria for multiple fulfillment:

Graduate courses may be listed as counting toward the simultaneous fulfillment of multiple categories of distribution simultaneously, though this is possible for only some of the categories. A course may count toward one Historical Period while also fulfilling a Philosophical Tradition or a course in Emerging and Engaged Philosophies. Courses may count toward either a Philosophical Tradition or the Emerging and Engaged requirement, but no course may count toward both of these requirements at once. For example, a course in nineteenth-century feminist philosophy can count toward either the requirement in the Feminist Tradition or in Emerging and Engaged Philosophies (but not both) and at the same time fulfill a requirement for Historical Periods. When a course is listed so as

to provide an option for fulfillment of either the Traditions or Emergent & Engaged requirements, students must choose which requirement the course is to fulfill.

## Thesis Track

| Code                                                      | Title  | Credits   |
|-----------------------------------------------------------|--------|-----------|
| PHIL 503                                                  | Thesis | 9         |
| Additional graduate-level philosophy courses <sup>1</sup> |        | 36        |
| <b>Total Credits</b>                                      |        | <b>45</b> |

<sup>1</sup> The Thesis track must still follow the Distribution Requirements above.

The student asks two faculty members to serve as his or her master's committee, with one agreeing to serve as chair. The student prepares a short (maximum five pages) description of the proposed thesis topic. Once both committee members have approved the thesis proposal, the student registers for as many as 9 credits of Thesis (PHIL 503) during the one or two terms over which the thesis is written. Typically, the committee chair meets periodically with the student to assess progress and to oversee the writing of the thesis. When both members of the thesis committee agree that the thesis is suitable for a final defense, the candidate schedules a one-hour oral examination, during which the committee members ask questions about the argument and make suggestions for further revision, if necessary. The thesis is completed when it is given final approval by both members of the committee and is accepted by the Division of Graduate Studies as satisfying its requirements for thesis preparation.

## Philosophy (PhD)

The department offers a graduate program leading to the master of arts (MA) and the doctor of philosophy (PhD) degrees. The program, which is pluralistic in orientation, requires students to develop a broad knowledge of the history of philosophy, major fields, and various approaches and methods. Students are urged to concentrate in a specific area at the advanced level. Specializations are supported in American philosophy, Continental philosophy, feminist philosophy, Latin American philosophy, philosophy of race, philosophical psychology, and environmental philosophy.

Our program is known for its pluralism, close mentoring relationships between graduate students and faculty, a faculty committed to teaching excellence as well as research, supportive rather than competitive relationships among graduate students, and professionally active and successful graduate students.

The department and faculty have particular strengths in a range of traditions and fields of focus. The program requires students to develop a broad knowledge of the history of philosophy, major fields, and various approaches and methods. We also welcome interdisciplinary approaches. Students are expected to concentrate in a specific area at the advanced level.

Each student designs a program in consultation with a faculty adviser. Two or more years are typically required to complete the master's degree and five or six years for the doctorate.

## Program's Admission Requirements

Please visit the program's website ([https://philosophy.uoregon.edu/graduate/how\\_to\\_apply/](https://philosophy.uoregon.edu/graduate/how_to_apply/)).

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Represent the pluralistic orientation of philosophy including the four major traditions of inquiry: Continental European, American, Feminist, and Analytic.
- Delineate the history of Western philosophy, including the main eras: Ancient, Modern, 19th C., 20th and 21st C.
- Develop expertise in any combination of the sub-disciplines within the field of philosophy, such as ethics, data ethics, bioethics, metaphysics, epistemology, aesthetics, philosophy of language, philosophy of race, decolonial philosophy, social and political philosophy, critical theory, philosophical psychology, environmental philosophy, and others.
- Deepen an understanding of the three disciplinary fields: Society and Value; Knowledge, Rationality and Inquiry; Metaphysics.
- Develop familiarity with non-western and non-hegemonic philosophies, such as Native American and Latin American Philosophy, and Philosophy of Race.
- Develop proficiency in a second language relevant to their area of research.
- Develop proficiency in logic.
- Deepen the knowledge of main topics in the history of philosophy by producing an independent research paper (PhD students).
- Specialize in specific philosophical areas at an advanced research level by researching relevant primary and secondary literature, designing, and writing a doctoral dissertation or a master's thesis.

## Doctor of Philosophy in Philosophy

Students must complete at least 81 graduate credits, of which at least 18 must be dissertation research credits. As part of the requirements for completing the PhD, students must also take at least *twelve* 4-credit graduate courses within the department of philosophy. Students must complete the course distribution requirements, demonstrate proficiency in a second language and pass two comprehensive examinations, which in our program are extensive research projects — one in the history of philosophy (the 'history paper') and one in the student's intended area of research specialization (the literature review). Most students finish their doctoral degrees within five to six years. The Division of Graduate Studies imposes a limit of seven years for completion of the PhD degree.

The distribution requirements may be satisfied by receiving a mid-B or better in

- History Requirements (3 courses)
- Traditions Requirements (4 courses)
- Emerging and Engaged Philosophies Requirements (3 courses total)
- Logic Requirement (1 course)
- In the first year of employment as a GE, graduate students must also complete a total of 3 credits by enrolling in a one-credit professionalization pro-seminar on teaching for all three terms of the regular academic year.

| Code                                   | Title | Credits   |
|----------------------------------------|-------|-----------|
| <b>History Requirements *</b>          |       | <b>12</b> |
| One course from each of the following: |       |           |
| Course from ancient period (PHIL 521)  |       |           |

Course from modern (16th-18th centuries) period (PHIL 533)

Course from 19th century (PHIL 553)

### Traditions Requirements

|                                                                     |   |
|---------------------------------------------------------------------|---|
| One courses about continental philosophical traditions <sup>1</sup> | 4 |
| One courses about analytic philosophic traditions <sup>1</sup>      | 4 |
| One courses about American philosophical traditions <sup>1</sup>    | 4 |
| One courses about feminist philosophical traditions <sup>1</sup>    | 4 |

### Engaged and Emerging Philosophy \*

|                                                   |   |
|---------------------------------------------------|---|
| Two courses in Emerging Philosophies              | 8 |
| PHIL 551 Native American Philosophy               |   |
| PHIL 643 Feminist Philosophy: [Topic]             |   |
| PHIL 657 Philosophy and Race: Contemporary Issues |   |
| One course in Engaged Philosophies                | 4 |
| PHIL 623 Data Ethics                              |   |
| PHIL 645 Environmental Philosophy: [Topic]        |   |

### Logic

|                                                  |   |
|--------------------------------------------------|---|
| One course in advanced symbolic logic (PHIL 526) | 4 |
|--------------------------------------------------|---|

### Teaching Seminar

|                                    |   |
|------------------------------------|---|
| Three one-credit teaching seminars | 3 |
|------------------------------------|---|

### Dissertation

|                       |    |
|-----------------------|----|
| PHIL 603 Dissertation | 18 |
|-----------------------|----|

|                  |           |
|------------------|-----------|
| <b>Electives</b> | <b>16</b> |
|------------------|-----------|

|                      |           |
|----------------------|-----------|
| <b>Total Credits</b> | <b>81</b> |
|----------------------|-----------|

<sup>1</sup> The traditions requirement is usually fulfilled by completing the Advanced Introductory course in the area (571, 572, 573, 574).

\* May be filled by topics courses.

## Note on criteria for multiple fulfillment:

Graduate courses may be listed as counting toward the simultaneous fulfillment of multiple categories of distribution simultaneously, though this is possible for only *some* of the categories. A course may count toward one Historical Period while also fulfilling a Philosophical Tradition or a course in Emerging and Engaged Philosophies. Courses may count toward *either* a Philosophical Tradition *or* the Emerging and Engaged requirement, but no course may count toward both of these requirements at once. For example, a course in nineteenth-century feminist philosophy can count toward either the requirement in the Feminist Tradition or in Emerging and Engaged Philosophies (but not both) and at the same time fulfill a requirement for Historical Periods. When a course is listed so as to provide an option for fulfillment of either the Traditions or Emergent & Engaged requirements, students must choose which requirement the course is to fulfill.

## Additional Requirements

The comprehensive examinations are passed by completing two substantial research papers under the supervision of faculty members. Students are advanced to candidacy upon completion of the comprehensives. A dissertation prospectus must be accepted by the candidate's committee after a preliminary oral examination. The written dissertation must receive the approval of the dissertation committee after a final oral examination.

## Religious Studies

### Mark Unno, Department Head

311 Susan Campbell Hall  
1294 University of Oregon  
Eugene, Oregon 97403-1294  
541-346-4971  
541-346-4118 fax  
religion@uoregon.edu

The Department of Religious Studies offers courses about the teachings and practices of the world's religions from an academic perspective. Courses focus on the history of religions including their origins, sacred texts, rituals and practices, beliefs, and subgroups. These courses provide a broad understanding of the nature and role of religion in the world's many cultures, present and past, for students in all fields, as well as integrated programs for majors in religious studies.

From antiquity to the present, religion has provided a vocabulary for individuals to confront ultimate questions about the meaning of life. At the societal level, religion drives the formation of community and conflict. The rise of militant Buddhism in Myanmar, the role of Evangelicals in US politics, and the struggle for legitimacy among contemporary Muslims are only a few contemporary examples of the relevance of religious studies. Understanding the role of religion is critical for analyzing socio-political forces shaping the world today.

An undergraduate major in religious studies can lead to graduate programs in religious studies—either academic or professional—as well as other related areas of graduate studies such as history, sociology, folklore, and various area studies (e.g., Middle East studies, East Asian languages and literatures).

Students with a bachelor of arts in religious studies have had success in various professional fields such as religion, journalism, social work, education, business, and law.

## Faculty

Frederick Colby, associate professor (Islam). BA, 1991, Haverford College; MA, 1995, Chicago; PhD, 2002, Duke. (2008)

Hanan Elsherif, senior instructor (Arabic). BA, 1993, MA, 2002, PhD, 2009, Minia. (2011)

Deborah A. Green, associate professor (history and literature of Judaism, biblical studies). BA 1984, Brandeis University; MA 1997, University of Chicago; PhD 2003, University of Chicago. (2003)

Luke Habberstad, assistant professor. BA, 2003, Yale; MA, 2007, PhD, 2014, California, Berkeley. (2014)

David Hollenberg, associate professor (Arabic). BA, 1990, Wesleyan; MA, 1996, California, Santa Barbara; PhD, 2006, Pennsylvania. (2010)

Jeffrey Schroeder, assistant professor (religion and modern Asia). BA, 2005, MA, 2009, Reed; MA, 2009, Duke; PhD, 2015, Duke. (2017)

Stephen J. Shoemaker, professor (history of Christianity). BA, 1991, Emory; MA, 1994, PhD, 1997, Duke. (2000)

Mark T. Unno, associate professor (East Asian religions, Buddhism). BA, 1987, Oberlin; MA, 1991, PhD, 1994, Stanford. (2000)

## Emeriti

Judith R. Baskin, professor emerita. BA, 1971, Antioch; PhD, 1976, Yale. (2000)

Hee-Jin Kim, professor emeritus. BA, 1957, MA, 1958, California, Berkeley; PhD, 1966, Claremont. (1973)

*The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.*

- Religious Studies (p. 153)

## Religious Studies (BA/BS)

From antiquity to the present, religion has provided a vocabulary for individuals to confront ultimate questions about the meaning of life. Understanding the role of religion is critical for analyzing socio-political forces shaping the world. A major in religious studies provides training for any humanitarian profession. Recent graduates have gone on to study law, medicine, and journalism; work in social service organizations; and pursue graduate study in a variety of disciplines. The skills students hone as majors—critical reading, analytical thinking, and writing—along with knowledge of global religious traditions, serves them well in whatever career path they choose.

The Department of Religious Studies offers courses about the teachings and practices of the world's major religions from an academic perspective. Courses focus on the history and philosophy of religions including their origins, sacred texts, rituals and practices, beliefs, and subgroups. The courses provide a broad understanding of the nature and role of religion in the world's many cultures, present and past, for students in all fields, as well as integrated programs for majors in religious studies.

The religious studies department offers courses that reflect the research expertise of the faculty. Students can enroll in classes ranging from "Early Judaism," to "The Dark Self: East and West," and "War, Terrorism, and Religion." Many religious studies seminars are small, limited to fifteen students, allowing for deep exploration of the material and low student to professor ratios. For a full list of regular course offerings, follow the "courses" link on the right.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Identify, describe, and explain a wide diversity of religious phenomena in their historical, social, political, and cultural contexts.
- Discuss diverse religious phenomena with others in a well-informed, critical, and respectful manner.
- Read and critically evaluate current scholarly literature on method and theory in the academic study of religion.
- Read and critically analyze primary and secondary sources from and about diverse religious traditions, applying appropriate theoretical and methodological tools in the academic study of religion.
- In speech and writing, make an effective and valid argument about religion: one that successfully establishes a premise and supports the premise with appropriate and persuasive evidence.

Courses used to satisfy major requirements must be taken for letter grades and passed with a mid-C or better.

## Honors in Religious Studies

Requirements for a degree with honors in religious studies typically include the following:

1. Satisfaction of the requirements for a major
2. A cumulative grade point average of 3.80 in courses taken to satisfy the major requirements
3. Formal approval of the department

The candidate for honors shall request approval no later than the second week of fall term in the senior year. Students are strongly encouraged to meet with the undergraduate advisor before applying. Application forms are available in the department office.

A faculty committee supervises the honors thesis project. Candidates typically register for 3 credits of Research: [Topic] (REL 401) for both fall and winter terms of the senior year to prepare for writing the thesis. Contingent on satisfactory progress, the candidate then enrolls for 4 credits of Thesis (REL 403) spring term. A first draft of the thesis must be submitted six weeks before the end of spring term and the final draft two weeks after that.

## Four-Year Degree Plan

*The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.*

## Religious Studies Minor

From antiquity to the present, religion has provided a vocabulary for individuals to confront ultimate questions about the meaning of life. Understanding the role of religion is critical for analyzing socio-political forces shaping the world today. The Religious Studies Department at the University of Oregon offers courses that reflect the research expertise of the faculty. Most seminars are small, allowing for deep exploration of the material. The critical reading, analytical thinking, and writing skills students hone as a Religious Studies minor, along with knowledge of global religious traditions, will serve them well in whatever career path they choose.

Courses used to satisfy minor requirements must be taken for letter grades and passed with a mid-C or better.

## Arabic Studies Minor

### David Hollenberg, Director of Arabic Studies

349 Susan Campbell Hall

541-346-8096

religion@uoregon.edu

The minor in Arabic Studies facilitates proficiency in the Arabic language, familiarizes students with the cultures of the Arabic-speaking world, provides facility with the Arabic textual tradition, and affords a foundation for professional and graduate work using the Arabic language. Coursework trains students to read, interpret, and contextualize “texts,” broadly construed as written, oral, and audio-visual. This is accomplished through mastering the Arabic language, increasing knowledge of Arab cultural themes, and engaging apposite scholarly literature necessary to understand Arabic texts in an informed, relevant way.

Courses used to satisfy minor requirements must be taken for letter grades and passed with a mid-C or better.

## Modified Requirements for Students with Prior Literacy in Arabic

Students who already have skills that satisfy the equivalent of the ARB 301–303 third-year sequence—whether from native proficiency, study abroad, or courses from another university—may choose to test out of one or more of these courses by passing a proficiency examination, administered by the UO Testing Center, designed to demonstrate basic literacy in Arabic. If students wish to transfer their third-year Arabic courses from other universities or from overseas study, they may do so contingent on the successful completion of an examination at the appropriate level, to ensure proper placement.

Students who pass the proficiency exam must still complete 24 credits for the minor in Arabic studies, including at least 12 from among Category II courses and up to 12 from among Category III electives.

## Romance Languages

### David Wacks, Department Head

rlhead@uoregon.edu  
119 Friendly Hall  
1233 University of Oregon  
Eugene, Oregon 97403-1233  
541-346-4021  
541-346-4030 fax

The Department of Romance Languages offers an extensive range of courses and degree programs, from instruction in beginning languages through the study of the literatures and cultures of French-, Italian-, Portuguese-, and Spanish-speaking countries. Students can earn a bachelor of arts (BA) degree in French, Italian, Spanish, or Romance languages; the master of arts (MA) is also available in these areas. The doctor of philosophy (PhD), is awarded in either Spanish or Romance languages (RL). The RL PhD encompasses a primary language and literature and a supporting area. Romance languages is a liberal-arts major, providing a valuable background for students interested in graduate work, teaching, and a wide array of other professional and international careers that require strong analytical and communication skills.

## Preparation

The department recommends the following preparation for study leading to a major in any of the Romance languages:

- As much work as possible in the student's major language. Knowledge of a second Romance language is helpful but not required
- Knowledge of the history, geography, and politics of the areas where the student's major language is spoken

- Communication skills, speech, and essay writing that help the student convey ideas logically. In literature and film courses, papers or essay examinations are generally required
- Experience in literary and cultural studies and linguistics

## Careers

Students who graduate with a bachelor of arts degree in Romance languages typically enter a variety of occupations. Language teaching is an obvious possibility. Proficiency in a second language and knowledge of other cultures enhances study and career opportunities in other areas as well. Romance languages majors, especially those who have a second major in another discipline (e.g., art history, business administration, economics, family and human services, history, international studies, journalism, music, or political science) find positions in communications media, government foreign service, international business and law, libraries, social service organizations, and travel and tourist-related agencies, among others.

## Faculty

Faculty members in the Department of Romance Languages actively participate in other UO interdisciplinary programs and departments (e.g., African studies, cinema studies, comparative literature, European studies, Latin American studies, linguistics, medieval studies, and women's and gender studies). For descriptions, see those sections of this catalog.

## Scholarships

The department administers scholarships for undergraduate and graduate students of Romance languages:

- The Beall Graduate Dissertation Scholarship is awarded to doctoral students to support dissertation writing
- The Françoise Calin scholarship is awarded every year to a French major or minor
- The Giustina Family Italian Fund provides a one-time scholarship to Italian major/minors and RL majors with a 3.0 GPA or higher.
- The Leona M. Kail Scholarship supports studies in the Department of Romance Languages (Offered on alternate years.)
- Wayne Andre Gottshall Fund supports undergraduate students in studies in the Department of Romance Languages
- The Emmanuel Hatzantonis Scholarship is awarded every year to a Romance languages major or minor who is studying in Italy with the university's overseas study program
- Dr. Carl L. Johnson Scholarship supports studies in the Department of Romance Languages with preference to French majors.
- The Helen Fe Jones Spanish Student Fellowship supports study abroad in a Spanish-speaking country
- The Perry J. Powers Scholarship is awarded annually to an outstanding Romance languages student
- The Charles Stickles Endowment Scholarship is awarded for study in a Spanish-speaking country
- Nicolette B. Weicker Memorial Scholarship is awarded with preference to students specializing in French or Italian.
- The James T. and Mary Alice Wetzel Graduate Scholarship is awarded every year to an outstanding graduate student in the Department of Romance Languages

More information may be obtained from the department office in early January or on the department website, Scholarships (RL) | RL:

Romance Languages Major (uoregon.edu) (<https://romance.uoregon.edu/undergraduates/scholarships-rl/>)

## Study Abroad

One of the best ways to learn a language and its culture is the experience of immersion in it. The Department of Romance Languages strongly encourages students to participate in one of the numerous study-abroad programs that the UO offers. Visit the GEO website for more information. Home | Global Education Oregon (uoregon.edu) (<https://geo.uoregon.edu/>)

The department sponsors programs for the study of French, Italian, Portuguese, and Spanish languages and cultures. Students live, study, and travel in Europe, Africa, and the Americas, in countries such as Argentina, Bolivia, Brazil, Ecuador, France, Italy, Mexico, Morocco, Peru, Senegal, and Spain. Cosponsoring programs include IE<sub>3</sub> Global, the Council on International Educational Exchange, the School for International Training, and the National Student Exchange.

To ensure success in goals of language and cultural study, majors and minors in the department need to identify the program that best fits their academic requirements, financial situation, and personal interests. The list of programs posted on the department website is recommended based on their outstanding academic, linguistic, and cultural opportunities and strong on-site support.

Before traveling abroad, students should consult their assigned major or minor advisor about the selection of a program and the courses to be taken within that program.

### Tips for Selecting a Study-Abroad Program

- Choose a program that offers a maximum of immersion (e.g., living with host families or local students, course work entirely in the target language, direct university enrollment opportunities)
- Longer programs offer you more opportunity to acclimate to the language, to be more fully immersed in the local culture, and to form meaningful relationships with people from the host country
- Courses in which the readings and lectures are in English **do not** count toward majors or minors in the Department of Romance Languages or the UO bachelor of arts second-language requirement
- Students in all UO overseas study programs enroll in courses with subject codes that are unique to individual programs. Special course numbers are reserved for overseas study. Advisors can help students determine course equivalencies to maximize the credits applied to requirements for the degree
- The department offers scholarships to help students with travel expenses for language learning and research projects. For more information, visit the scholarships page (<http://rl.uoregon.edu/scholarships/>).

For additional information and to obtain applications for specific programs, contact the Office of International Affairs at (541) 346-3206. For questions on applying study-abroad credit to majors or minors, students should visit their assigned departmental advisor.

## Cultural Ambassador Program in Spain

The Ministry of Education of Spain offers more than 1,200 openings for U.S. and Canadian language and culture assistants (termed “cultural ambassadors”). The positions are offered in Spain’s equivalent of the K–12 school system of public education.

## Teaching Assistant Program in France

This program is coordinated by the French Embassy and offers 1,500 positions for native English speakers with a demonstrated knowledge of French to teach and its overseas department in France, to assist French teachers with English courses for a period of six to nine months, or both. The positions are offered in elementary and high schools (*écoles primaire, collèges, and lycées*). This is an excellent opportunity for graduating seniors with interest in education and experience abroad. It is open to United States citizens or permanent residents under 29 years of age with a demonstrated knowledge of French—not just majors or minors. The Department of Romance Languages does not administer the program, but simply offers guidance to interested students, and gives information and advice on the application process and on the program itself.

## Faculty

Maria Licia Aldana Rogers, instructor I (Spanish). BA

Rafael Arias, senior instructor II (Spanish). BA, 2009, MA, 2011, Oregon (2011)

Grecia Chirinos, Career Instructor (Spanish) BA 2010, Pontificia Universidad Católica del Perú; MA 2017, Middlebury College (2023)

Amy Costales, senior instructor II (Spanish). BA, 1993, State University of New York, Cortland; MA, 2009, Oregon. (2007)

Liliana Darwin Lopez, senior instructor II (Spanish). BA, 2001, MA, 2007, Oregon. (2007)

Robert L. Davis, professor (methodology and pedagogy, Spanish and Romance linguistics). BA, 1983, Southern Mississippi; MA, 1987, PhD, 1991, North Carolina, Chapel Hill. (1991)

Lauretta De Renzo-Huter, senior instructor II (Italian); supervisor and coordinator, first-year Italian programs. Laurea in Lingue e Letterature Starniere Moderne, 1988, Torino; MA, 1992, PhD, 2001, Oregon. (2019)

Juanita Devereaux, senior instructor II (Spanish). BA, 1999, MA, 2001, Oregon. (2001)

Connie Dickey, senior instructor I (French); supervisor-coordinator, first-year French program. BA, 1979, Portland; MA, 1981, Seattle; PhD, 1991, California, Berkeley. (2014)

André Djiffack, associate professor (Francophone literatures, 20th-century French literature, colonial and postcolonial studies). BA, 1987, Maîtrise, 1988, Doctorat de 3e Cycle, 1992, Yaoundé; PhD, 1998, Cape Town. (2000)

Paula Ellister, senior instructor II (Spanish); supervisor and coordinator, first-year Spanish program. BA, 1992, MA, 1994, Oregon. (1994)

Cecilia Enjuto Rangel, associate professor (Spanish and Latin American poetry, transatlantic studies, gender and literary theory); director of undergraduate studies. BA, 1998, Universidad de Puerto Rico; MA, 2002, PhD, 2005, Yale. (2005)

Pedro García-Caro, associate professor (19th- and 20th-century literatures of the Americas, postcolonial studies, literary theory). Licenciatura, 1995, Murcia; BA, 1996, Roehampton; MA, 1997, PhD, 2004, University College, London. (2006)

Diana Garvin, assistant professor (Mediterranean studies). AB, 2006, Harvard; PhD, 2016, Cornell. (2019)

Amalia Gladhart, professor (20th-century Latin American literature, theater, feminist studies). BA, 1989, Michigan State; PhD, 1995, Cornell. (1995)

Devin Grammon, assistant professor (Spanish socio-linguistics). BA, 2010; University of Northern Colorado; MA, 2012, University of Colorado, Boulder; PhD 2018, The Ohio State University, Columbus (2018)

Paulo Henriquez, instructor (Spanish); licenciado en castellano, 2000, Universidad Austral de Chile; MA, 2005, PhD, 2012, Oregon. (2012)

Gina Herrmann, associate professor (contemporary Spanish literature, politics and culture, autobiographical studies, gender studies). BA, 1990, Cornell; MA, 1993, Columbia; PhD, 1998, Cornell. (2002)

Nathalie Hester, associate professor (French and Italian Renaissance and baroque literature and culture, travel literature). BA, 1992; MA 1993; PhD, 2001, Chicago. (2001)

Jon Jaramillo, Career Instructor (Spanish) BA, 2013, MA 2015, Ph.D. 2023 Oregon (2023)

Harinder Kaur Khalsa, senior instructor (Italian). BA, 1991, Istanbul; MA, 1996 and 1998, Oregon. (1999)

Kelley León Howarth, senior instructor II (Spanish). BA, 1995, Wisconsin, Eau Claire; MA, 2002, Oregon. (2002)

Sergio Loza, Assistant professor (Spanish heritage language education, Spanish socio-linguistics) BA, 2013, Arizona State University; PhD, 2019, Arizona State University. (2019)

Leah Middlebrook, associate professor (early modern Spanish and French literature and culture, lyric poetry, comparative literature). See **Comparative Literature**.

Lanie Millar, associate professor (20th- and 21st-century Caribbean and Latin American literature, Luso-African literature, global south studies). BA, 2002, Baylor; MA, 2003, Middlebury College; PhD, 2011, Texas, Austin. (2013)

Fabienne Moore, associate professor (French Enlightenment, prose poetry, contemporary France). License, 1987, Toulouse—Le Mirail; PhD, 2001, New York University. (2000)

Heather Quarles, senior instructor II (Spanish). BA, 2000, MA, 2003, Oregon. (2001)

Sergio Rigoletto, associate professor (European cinema, popular culture, gender studies). Laurea, 2002, Catania; MA, 2004, Birkbeck, London; PhD, 2010, Reading. (2012)

Andrew Rothgery, senior instructor II (Spanish); head undergraduate advisor. BA 1991, MA, 1994, Oregon. (1994)

Mariana Sabino Salazar, Career Instructor (Spanish) BS 2007 Universidad Iberoamericana; MA 2014 Benemérita Universidad Autónoma de Puebla; MA 2017, Ph.D. 2023, University of Texas at Austin (2023)

Maria Benedita Santos, senior instructor I (Portuguese). BA, 1974, Federal University of Maranhão; MA, 2007, Oregon. (2012)

Jésus Sepúlveda, senior instructor I (Spanish). BA, 1995, Universidad Metropolitana de Ciencias de la Educación; MA, 1997, PhD, 2003, Oregon. (2008)

Analisa Taylor, associate professor (Mexican literary and social history). BA, 1992, Oregon; MA, 1996, PhD, 2002, Duke. (2002)

Claudia Ventura, senior instructor II (Italian); supervisor and coordinator, second-year Italian. Laurea, 1995, Bologna; MA, 2006, Ca' Foscari, Venice. (2005)

David Wacks, professor (medieval Iberian literature and culture, Sephardic studies). BA, 1991, Columbia; MA, 1997, Boston College; PhD, 2003, California, Berkeley. (2003)

Nathan Whalen, senior instructor II (Spanish). BA, 1999, MA, 2001, Oregon. (2001)

Latifa Zoulagh, Career Instructor (French) BA, 1997, DESA, 1999 University of Sidi Mohammed Ben Abdallah; MA 2009, North Carolina State University; Ph.D. 2014 University of Oklahoma 2014 (2023)

Alex Zunterstein, senior instructor II (Spanish); assistant department head; Spanish heritage language undergrad program coordinator. BA, 2000, MA, 2002, Oregon. (2002)

## Emeriti

Alexandre Albert-Galtier, associate professor emeritus. Licence, 1981, DEA, 1983, PhD, 1988, Lyon II. (1994)

Randi M. Brox, professor emerita. Cand. Philol., 1960, Oslo; PhD, 1965, Illinois. (1965)

Françoise G. Calin, professor emerita. Licence, 1963, Diplôme d'Études Supérieures, 1964, CAPES, 1966, Sorbonne; PhD, 1972, Stanford. (1973)

Nadia Ceccacci, senior instructor emerita (Italian). Corso di laurea in Lingue e Letterature Straniere, 1981, Università degli Studi di Perugia; MA, 1986, Oregon. (1989)

Richard H. Desroches, associate professor emeritus. BA, 1947, Clark; PhD, 1962, Yale. (1957)

Juan A. Eppe, professor emeritus. Licenciante, 1971, Chile; MA, 1977, PhD, 1980, Harvard. (1980)

Leonardo García-Pabón, professor emeritus (colonial Latin American literature, contemporary Latin American poetry, literary theory). BS, 1980, Universidad Mayor de San Andrés; MA, 1981, Université Catholique de Louvain; PhD, 1990, Minnesota, Twin Cities. (1990)

Sylvia Giustina, senior instructor emerita. BA, 1956, Marylhurst; MA, 1966, Oregon. (1968)

Evlyn Gould, professor emerita. BA, 1975, California, Irvine; MA, 1977, PhD, 1983, California, Berkeley. (1983)

Mónica Lara, senior instructor emerita (Spanish). BA, 1982, MA, 1992, Oregon. (1992) Massimo Lolli, professor emeritus. Laurea, 1978, Bologna; PhD, 1992, Yale. (1992)

Elisabeth A. Marlow, associate professor emerita. Diplôme, 1953, Hautes Études Commerciales, Paris; MA, 1958, PhD, 1966, Oregon. (1958)

Karen McPherson, professor emerita. BA, 1970, Oregon; MA, 1983, PhD, 1987, Yale. (1998)

Rosario Murcia, senior instructor emerita (Spanish); supervisor-coordinator, second-year Spanish program. BA, 1984, Alicante; MA, 1988, Oregon. (1988) Barbara D. May, associate professor emerita. BA, 1972, MA, 1973, PhD, 1975, Utah. (1976)

Amanda W. Powell, senior lecturer emerita. BA, 1977, Yale; MA, 1983, Boston University. (1991)

F. Regina Psaki, professor emerita. BA, 1980, Dickinson; MA, 1986, PhD, 1989, Cornell. (1989)

Steven Rendall, professor emeritus. BA, 1961, Colorado; PhD, 1967, Johns Hopkins. (1967)

Wolfgang F. Sohlich, associate professor emeritus. BA, 1959, Johns Hopkins; MA, 1970, PhD, 1971, Emory. (1970)

Gloria Zabala, senior instructor emerita (Spanish). BA, 1983, MA, 1989, Oregon. (1989)

*The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.*

## Undergraduate Programs

### Majors - Bachelor's Degree

- French (BA) (p. 157)
- Italian (BA) (p. 160)
- Romance Languages (BA) (p. 163)
- Spanish (BA) (p. 164)

### Minors

- French (p. 159)
- Italian (p. 162)
- Spanish (p. 167)

## Graduate Programs

### Majors - Master's Degree

- French (MA) (p. 167)
- Italian (MA) (p. 169)
- Romance Languages (MA) (p. 172)
- Spanish (MA) (p. 176)

### Majors - Doctoral Degree

- Romance Languages (PhD) (p. 174)
- Spanish (PhD) (p. 178)

### Specialization

- Translation Studies (p. 182)

## French (BA)

In the eighth century, the emperor Charlemagne, “the father of Europe,” declared that, “to speak another language is to possess a second soul.” There’s something wonderful about studying another language, being able to think and express yourself in a new way. Using that skill to

communicate with people whose culture and life experiences are very different from your own can be very exciting.

More than 250 million people in more than 50 countries speak French. It is an official language in 29 countries and maintains its status as a major language of culture, diplomacy, and economics. The Organisation Internationale de la Francophonie (<https://www.francophonie.org/>), established in 1970 and usually referred to as “La Francophonie,” includes 57 member states on four continents. French is a passport to much of the world!

You may want to study French language and culture to get in touch with your family’s history or to learn about the rich cultural legacies of France in Europe and across the globe. Perhaps you’re looking forward to traveling through some of the countries and regions of Europe, Africa, North America, or Asia, where French is spoken and you want to build your language skills. Or, maybe you’re interested in a diplomatic or global business career that involves multinational companies. Whatever the basis of your interest, a major in French in the University of Oregon’s Department of Romance Languages will help you to expand your knowledge and horizons.

The Department of Romance Languages is a diverse multicultural and multilingual unit with a first-rate faculty from around the world. As a major or minor, you will gain an extensive knowledge of languages and cultures and will have invaluable opportunities for intellectual growth. You’ll also be able to engage in a wide variety of extracurricular activities, including lectures and film festivals, language conversation groups, study abroad programs, and internships.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Language proficiency: French majors should reach at least a level of Intermediate-High (speaking) and Advanced (writing) in the primary target language according to ACTFL proficiency standards.
- Analytical skills related to the field/target language (research and writing): French majors should be able to: a) use basic tools/methods of analysis in either literary studies or linguistics; b) use technical vocabulary for literary analysis and criticism or linguistic analysis; c) demonstrate understanding of academic writing (manage and cite bibliographic resources, document all sources, including in-line citations in writing, etc.)
- Content objectives (literature/culture): Demonstrate familiarity with examples of the cultural/artistic production in the target language from different historical periods. Identify authors, texts, themes, and literary/artistic/intellectual movements in the periods studied. Relate cultural artifacts (literature, film, fine arts) to the historical, cultural, and social contexts in which they were produced.
- Discipline (humanities or social science): identify basic disciplinary questions that define literary analysis/cultural studies or sociolinguistics; apply or relate disciplinary questions to current debates in the arts, politics, social conflicts, etc.

Courses for the major are principally taught in the language of study and immerse students in a diversity of cultures and variations spoken. Cultural, linguistic and literary production – writing, film and other media – studied in RL courses reflect variations of race, gender, social class, climate, religion, and historical and artistic movements and counter-movements.

All courses for Romance Languages majors and minors must be *upper-division*, with the exception of one approved lower-division class within certain majors and minors. Courses used to fulfill the major requirements must be taken for a letter grade and passed with a grade of C- or better. Coursework transferred in from Advanced Placement or International Baccalaureate exams are acceptable with a mark of P\*.

## French Major

FR 319 French Survey: 19th and 20th Centuries  
330-level or higher French literature, film, or translation courses

- <sup>1</sup> French-English Translation (FR 425) may count for the writing requirement OR this Literature, Film, or Translation category.
- <sup>2</sup> Seminar: [Topic] (RL 407) is allowed if coursework is completed in French.

## Departmental Honors

Approval for graduation with honors is granted to any student who meets one of the following requirements:

1. Maintains at least a 4.00 grade point average (GPA) in all upper-division department course work and at least a 3.50 GPA overall, **or**
2. Maintains at least a 3.75 GPA in all upper-division department course work and at least a 3.50 GPA overall, and submits an honors thesis written under the guidance of a Romance languages faculty thesis advisor. The thesis adviser determines whether the thesis is acceptable and may require the student to register for up to 6 pass/no pass (P/N) credits in Thesis (FR, ITAL, SPAN 403)

If a student wishes to apply for honors by submitting an honors thesis, the application for graduation with honors must be submitted by the end of the term that immediately precedes the term of graduation. If a student is planning on graduating in the spring term, they must apply for graduation through their departmental advisor during the winter term.

Transfer credits and overseas-study work used to fulfill major graduation requirements are typically included in determining the major GPA.

## Four-Year Degree Plan

*The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.*

**French Minor**

As one of the major languages of world governance, diplomacy, commerce, and culture, French opens up a world of opportunities. In addition to gaining real-world proficiency and mastering communication skills across languages and cultures, students of French learn essential critical thinking skills, analytical reasoning, and adaptability. No matter the career and life path you choose, studying French will prepare you to face the challenges and opportunities both of the job market and of an increasingly globalized world.

Courses used to fulfill the minor requirements must be taken for a letter grade and passed with a grade of C- or better. Coursework transferred in from Advanced Placement or International Baccalaureate exams

are acceptable with a mark of P\*. Further details are available on the department website.

## Minor in French

| Code                                                                                 | Title | Credits   |
|--------------------------------------------------------------------------------------|-------|-----------|
| Upper-division language courses                                                      |       | 12        |
| Upper-division courses in literature, linguistics, translation, or film <sup>1</sup> |       | 12        |
| Upper-division electives taught in French <sup>2</sup>                               |       | 4         |
| <b>Total Credits</b>                                                                 |       | <b>28</b> |

<sup>1</sup> Must be taught on the Eugene campus.

<sup>2</sup> Courses must be upper-division, taught in French and address the cultures of the French-speaking world (e.g. courses in literature, linguistics, language, culture, film, etc.)

## Italian (BA)

Leonardo da Vinci said, "The noblest pleasure is the joy of understanding." There's something especially wonderful about understanding another language. It enables you to think and express yourself in a new way. Using that newfound skill to communicate with people whose culture and life experiences are very different from yours can bring you much joy.

An estimated 180 million people worldwide speak Italian as their primary or secondary language. Almost 20 million North Americans identify as having Italian ancestry. Italy is internationally recognized for its rich contributions to art, architecture, music, literature, and philosophy. Today Italy attracts interest in a wide variety of areas, including tourism, emigrant heritage, filmmaking, fashion and design, and gastronomy.

You might want to study Italian to get in touch with your family's history, or with Italy's incomparable artistic heritage. Or maybe you're looking forward to traveling in a famously beautiful country, and you want to take some language skills with you. Perhaps you're interested in a global business career that involves multinational companies. Whatever the basis of your interest, the University of Oregon's Department of Romance Languages will help you to expand your knowledge and horizons.

Romance Languages is a diverse, multicultural and multilingual unit that offers a first-rate faculty from around the world. As a major or minor, you will gain an extensive knowledge of languages and cultures and will have invaluable opportunities for intellectual growth. You'll also be able to engage in a wide variety of extracurricular activities, including lectures and film festivals, language conversation groups, study abroad programs, and internships.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Language proficiency: Italian majors should reach at least a level of Intermediate-High (speaking) and Advanced (writing) in the primary target language according to ACTFL proficiency standards.
- Analytical skills related to the field/target language (research and writing): Italian majors should be able to a) use basic tools/methods of analysis in either literary studies or linguistics; b) use technical vocabulary for literary analysis and criticism or linguistic analysis; c) demonstrate mastery of technical aspects of professional writing

(manage bibliographic resources, document ideas using MLA or APA style, include in-line citations in writing, etc.)

- Content objectives (literature/culture): Demonstrate familiarity with examples of the cultural/artistic production in the target language from different historical periods. Identify authors, texts, themes, and literary/artistic/intellectual movements in the periods studied. Relate cultural artifacts (literature, film, fine arts) to the historical, cultural, and social contexts in which they were produced.
- Discipline (humanities or social science): identify basic disciplinary questions that define literary analysis/cultural studies or sociolinguistics; apply or relate disciplinary questions to current debates in the arts, politics, social conflicts, etc.

Courses for the major are principally taught in the language of study and immerse students in a diversity of cultures and variations spoken. Cultural, linguistic and literary production – writing, film and other media – studied in RL courses reflect variations of race, gender, social class, climate, religion, and historical and artistic movements and counter-movements.

- Language and Culture Concentration (p. 160)
- Italian Studies Concentration (p. 161)

## Italian Major - Language and Culture Concentration

Courses used to fulfill the major requirements must be taken for a letter grade and passed with a grade of C- or better. Coursework transferred in from Advanced Placement or International Baccalaureate exams are acceptable with a mark of P\*.

40 of the 48 credits must be courses taught in Italian. Students may apply a maximum of 2 courses (8 credits) taught in English to this major concentration.

- <sup>1</sup> At least one course (4 credits) taught in Italian.
- <sup>2</sup> Two courses (8 credits) must be at the 400-level; can include RL 407 if coursework is completed in Italian.
- <sup>3</sup> A maximum of 2 lower-division courses may be used.

## Additional Requirement

Students must take at least 24 of the 48 credits in upper-division Italian for this major concentration

## Departmental Honors

Approval for graduation with honors is granted to any student who meets one of the following requirements:

1. Maintains at least a 4.00 grade point average (GPA) in all upper-division department course work and at least a 3.50 GPA overall, **or**
2. Maintains at least a 3.75 GPA in all upper-division department course work and at least a 3.50 GPA overall, and submits an honors thesis written under the guidance of a Romance languages faculty thesis advisor. The thesis adviser determines whether the thesis is acceptable and may require the student to register for up to 6 pass/no pass (P/N) credits in Thesis (FR, ITAL, SPAN 403)

If a student wishes to apply for honors by submitting an honors thesis, the application for graduation with honors must be submitted by the end of the term that immediately precedes the term of graduation. If a student is planning on graduating in the spring term, they must apply for graduation through their departmental advisor during the winter term.

Transfer credits and overseas-study work used to fulfill major graduation requirements are typically included in determining the major GPA.

## Four-Year Degree Plan

*The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.*

## Bachelor of Arts in Italian (Focus in Italian Studies)

## Italian Minor

An estimated 180 million people worldwide speak Italian as their primary or secondary language. Almost 17 million North Americans identify as having Italian ancestry. Italian culture is traditionally recognized for its rich contributions to art, architecture, music, literature, and philosophy. Today Italy attracts interest in a wide variety of areas, including tourism, its emigrant heritage, filmmaking, fashion industry, and gastronomy.

Courses used to fulfill the minor requirements must be taken for a letter grade and passed with a grade of C- or better. Coursework transferred in from Advanced Placement or International Baccalaureate exams are acceptable with a mark of P\*. Further details are available on the department website.

## Minor in Italian

| <b>Total Credits</b> |                                                                                      | <b>28</b> |

<sup>1</sup> Must be taught on the Eugene campus.

<sup>2</sup> Courses must be upper-division, taught in Italian and address the cultures of the Italian-speaking world (e.g. courses in literature, linguistics, language, culture, film, etc.)

## Romance Languages (BA)

Students who major in Romance languages intensively study two Romance languages (French, Italian, Portuguese, or Spanish). Advanced knowledge of two languages opens up a world of travel, study, and job opportunities.

Our students explore not only the languages but also the literature and cultures of the modern and historical Romance world. Courses in the program focus on prose, poetry, theater, and film, as well as history and language. Romance languages students are encouraged to travel and study abroad.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Language proficiency: RL majors should reach at least a level of Intermediate-High (speaking) and Advanced (writing) in the primary target language and for the second language at least a level of Intermediate-Mid in all skills according to ACTFL proficiency standards.
- Analytical skills related to the field/target languages (research and writing): Romance Languages majors should be able to: a) use basic tools/methods of analysis in either literary studies or linguistics, b) use technical vocabulary for literary analysis and criticism or linguistic analysis, c) demonstrate mastery of technical aspects of professional writing (manage bibliographic resources, document ideas using appropriate stylesheet, include in-line citations in writing, etc.)
- Content objectives (literature/culture): Demonstrate familiarity with examples of the cultural/artistic production in the target languages from different historical periods. Identify authors, texts, themes, and literary/artistic/intellectual movements in the periods studied. Relate cultural artifacts (literature, film, fine arts) to the historical, cultural, and social contexts in which they were produced.
- Discipline (humanities or social science): identify basic disciplinary questions that define literary analysis/cultural studies or sociolinguistics; apply or relate disciplinary questions to current debates in the arts, politics, social conflicts, etc.

## Romance Languages Major Requirements

Romance languages majors must complete a minimum of 12 credits in literature, film, translation, and/or linguistics courses on the Eugene campus. At least 8 credits of these 12 must be in courses numbered 407 or higher.

Courses used to fulfill the major requirements must be taken for a letter grade and passed with a grade of C- or better. Coursework transferred in from Advanced Placement or International Baccalaureate exams are acceptable with a mark of P\*.

**Departmental Honors**

Approval for graduation with honors is granted to any student who meets one of the following requirements:

1. Maintains at least a 4.00 grade point average (GPA) in all upper-division department course work and at least a 3.50 GPA overall, **or**
2. Maintains at least a 3.75 GPA in all upper-division department course work and at least a 3.50 GPA overall, and submits an honors

thesis written under the guidance of a Romance languages faculty thesis advisor. The thesis adviser determines whether the thesis is acceptable and may require the student to register for up to 6 pass/no pass (P/N) credits in Thesis (FR, ITAL, SPAN 403)

If a student wishes to apply for honors by submitting an honors thesis, the application for graduation with honors must be submitted by the end of the term that immediately precedes the term of graduation. If a student is planning on graduating in the spring term, they must apply for graduation through their departmental advisor during the winter term.

Transfer credits and overseas-study work used to fulfill major graduation requirements are typically included in determining the major GPA.

**Spanish (BA)**

Spanish majors explore the language, literature, and cultures of the modern and historical Spanish-speaking world.

Students choose one of two concentrations. The literature and culture concentration offers classes in literature, film, visual arts, and other media from many different periods. This gives students the chance to explore the breadth and depth of the cultures of the Spanish-speaking world. The language and society concentration exposes students to the historical and social contexts of Spanish-speaking communities. Students gain knowledge of the linguistic structure of the language and its different varieties, which highlights the social characteristics of communities where Spanish is used.

**Program Learning Outcomes**

Upon successful completion of this program, students will be able to:

- Language proficiency: RL majors should reach at least a level of Intermediate-High (speaking) and Advanced (writing) in the primary target language according to ACTFL proficiency standards.
- Analytical skills related to the field/target language (research and writing): RL majors should be able to: a) use basic tools/methods of analysis in either literary studies or linguistics, b) use technical vocabulary for literary analysis and criticism or linguistic analysis, c) demonstrate mastery of technical aspects of professional writing (manage bibliographic resources, document ideas using MLA or APA style, include in-line citations in writing, etc.)
- Content objectives (literature/culture): Demonstrate familiarity with examples of the cultural/artistic production in the target language from different historical periods. Identify authors, texts, themes, and literary/artistic/intellectual movements in the periods studied. Relate cultural artifacts (literature, film, fine arts) to the historical, cultural, and social contexts in which they were produced. Content objectives (language in society-Spanish): Identify the geographical distribution and historical origins of varieties of Spanish; recognize variation as a fundamental part of language, and explain the kinds of sociolinguistic variation (historical, social, geographic) that can occur in languages; explain the relationship between language and identity; demonstrate understanding of methods of linguistic data collection and analysis.
- Discipline (humanities or social science): identify basic disciplinary questions that define literary analysis/cultural studies or sociolinguistics; apply or relate disciplinary questions to current debates in the arts, politics, social conflicts, etc.

Courses for the major are principally taught in the language of study and immerse students in a diversity of cultures and variations spoken.

Cultural, linguistic and literary production – writing, film and other media – studied in RL courses reflect variations of race, gender, social class, climate, religion, and historical and artistic movements and counter-movements.

All courses for Romance Languages majors and minors must be *upper-division*, with the exception of one approved lower-division class within certain majors and minors. Courses used to fulfill the major requirements must be taken for a letter grade and passed with a grade of C- or better. Coursework transferred in from Advanced Placement or International Baccalaureate exams are acceptable with a mark of P\*.

- Language and Society (p. 165)
- Literature and Culture (p. 165)

## Spanish Major - Language and Society Concentration

| LAS 200            | Introduction to Latin American Studies <sup>1</sup> |         |
| LAS 407            | Seminar: [Topic] <sup>2</sup>                       |         |
| RL 407             | Seminar: [Topic] <sup>2</sup>                       |         |

- <sup>1</sup> Only one course may be applied toward the Electives.  
<sup>2</sup> Seminar: [Topic] (LAS 407) and Seminar: [Topic] (RL 407) count if coursework is completed in Spanish.

## Departmental Honors

Approval for graduation with honors is granted to any student who meets one of the following requirements:

1. Maintains at least a 4.00 grade point average (GPA) in all upper-division department course work and at least a 3.50 GPA overall, **or**
2. Maintains at least a 3.75 GPA in all upper-division department course work and at least a 3.50 GPA overall, and submits an honors thesis written under the guidance of a Romance languages faculty thesis advisor. The thesis adviser determines whether the thesis is acceptable and may require the student to register for up to 6 pass/no pass (P/N) credits in Thesis (FR, ITAL, SPAN 403)

If a student wishes to apply for honors by submitting an honors thesis, the application for graduation with honors must be submitted by the end of the term that immediately precedes the term of graduation. If a student is planning on graduating in the spring term, they must apply for graduation through their departmental advisor during the winter term.

Transfer credits and overseas-study work used to fulfill major graduation requirements are typically included in determining the major GPA.

## Four-Year Degree Plan

*The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.*

## Bachelor of Arts in Spanish (Focus in Language and Society)

## Spanish Minor

Spanish is the official language of twenty-one countries in the world, and it is the second most spoken language in the United States. We provide classes in Spanish that help students develop linguistic abilities with an emphasis on real-world proficiency, as well as introduce students to the major historical and cultural phenomena that characterize the Spanish-speaking world.

Courses used to fulfill the minor requirements must be taken for a letter grade and passed with a grade of C- or better. Coursework transferred in from Advanced Placement or International Baccalaureate exams are acceptable with a mark of P\*. Further details are available on the department website.

### Minor in Spanish

| Code                                                       | Title | Credits   |
|------------------------------------------------------------|-------|-----------|
| Upper-division SPAN courses taught in Spanish <sup>1</sup> |       | 24        |
| Elective <sup>2</sup>                                      |       | 4         |
| <b>Total Credits</b>                                       |       | <b>28</b> |

<sup>1</sup> 12 credits must be taught by UO faculty (in-residence or on approved study abroad/away)

<sup>2</sup> Electives may include SPAN 150, 203, 228, 238, 248, LAS 200, HIST 248, or any upper-division SPAN course taught in Spanish.

Upper-division SPAN courses taught in Spanish:

- 300-level SPAN courses (301-399)
- 400-level SPAN courses (407, 410-499)

## French (MA)

As one of the major languages of world governance, diplomacy, commerce, and culture, French opens up a world of opportunities. In addition to gaining real-world proficiency and mastering communication skills across languages and cultures, students of French learn essential critical thinking skills, analytical reasoning, and adaptability. No matter the career and life path you choose, studying French will prepare you to face the challenges and opportunities both of the job market and of an increasingly globalized world.

The Department of Romance Languages offers an MA program in French. Our graduate students have the opportunity to study with leading

scholars whose research interests range from modern and contemporary French studies in fields ranging from Francophone Africa and the French Enlightenment to terror studies and translation studies.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

All courses must be taken on a graded basis. Coursework must be completed with grades of B– or better, and a grade point average (GPA) of 3.00 or better must be maintained.

A student whose knowledge of the language or languages is found to be deficient must take remedial work—an advanced writing class, additional study abroad, or some form of language immersion.

### Master of Arts: French

<sup>1</sup> Taken fall term of first year.

<sup>2</sup> Taken winter term of first year.

<sup>3</sup> Taken in preparation for second-year fall forum.

### Master of Arts Research Project

The degree requires a research project (either a master's essay or a pedagogy portfolio) that allows a student to expand his or her expertise in literary and cultural studies or in teaching language, literature, and culture. A faculty member oversees the development of the final product and evaluates it. The student must identify a faculty member willing to serve as director and secure his or her signature of approval for the project by the ninth week of spring term of the first year.

The research project should be between 6,000 and 9,000 words. In consultation with the research project director, the student chooses whether to write the project in a Romance language or in English.

Research projects are approved by the director and are referred to the student's MA examination committee (see below) for remediation if the work is found to be deficient or in need of revision. The director submits a final copy of the approved essay or portfolio to the department office by the last day of classes in spring term of the second year.

### Essay in Literary and Cultural Studies

This essay allows students to widen their knowledge in one or more Romance languages, literatures, and cultures. In addition, the essay permits students to focus in greater depth on writing formal academic prose, presenting an interpretation, constructing an argument,

documenting sources and references, and honing persuasive strategies. At the end of the first year of study, the student chooses one of the seminar papers that he or she submitted during the first three terms of course work. During the summer session immediately following, the student expands and polishes the paper.

Students who plan to apply for the PhD program in Romance languages at the University of Oregon must complete an essay in literary and cultural studies.

### MA Pedagogy Portfolio in Teaching Language, Literature, and Culture

This project allows students to explore in depth specific issues of teaching a Romance language, its literature and cultures. The portfolio is designed in consultation with the director and serves to demonstrate the student's professional expertise. The portfolio may include the following documents: a coherent collection of teaching materials supported by a theoretical rationale; a description, personal assessment, and third-party evaluation of an internship experience (e.g., a participatory learning experience at the UO); a formal "philosophy of teaching" statement; documentation of participation in a professional conference; and other components as recommended by the director.

Students who plan to apply for the doctoral program in Romance languages at the University of Oregon must complete a master of arts essay in literary and cultural studies.

### Examinations

The master of arts examination comprises two four-hour exams taken in the seventh week of spring term in the second year.

For students studying for the MA in French, Italian, or Spanish, the first exam consists of one specific question in each of the four literary periods. The second exam consists of a detailed analysis of a short text in two parts: a close reading of the text and a consideration of the text in its social, historical, cultural, and/or literary contexts. The student, in consultation with the examination committee, chooses in which of the four periods this second exam is done.

The exams for the Romance languages MA are similar to those for French, Italian and Spanish. However, in the first exam students are asked to draw on examples from both their major and minor literatures in their answer to at least one of the questions. They are encouraged (but not required) to refer to both literatures in their answers to the other three short questions.

The graduate secretary informs the students and the examination committee members of the scheduled exam date.

### Examination Committee

By the sixth week of fall term in the second year, students submit to their advisors and to the director of graduate studies an MA Examination Committee form with the names of faculty members suggested to cover other examination periods and signed by the committee chair.

By the end of the tenth week of fall term in the second year, students submit a preliminary examination reading list of literary works on which to be examined to the members of their exam committees and to the director of graduate studies.

### Examination Reading List

Students construct a reading list, drawn up in consultation with the exam committee, using the departmental reading list and the syllabuses and

bibliographies of the seminars they have taken, as well as the summer reading done in preparation for the fall forum.

For students studying for the MA in French, Italian, or Spanish, the reading list consists of at least ten items in each of the four periods, drawn up in consultation with the exam committee. Of the ten works in each period, at least five must be chosen from the departmental reading list. The other works can be suggested by the student, based on his or her own interests and readings.

For students studying for the MA in Romance languages, the reading list consists of at least twelve items in each of the four periods: eight in the major language and four in the minor. Of the eight works in the major language, at least four must be chosen from the departmental reading list; all texts in the minor language must be chosen from the departmental reading list.

The examination reading list also contains two additional secondary readings (usually literary histories or general literary surveys) that cover the four periods, also drawn from the departmental reading list.

The final version of the examination reading list must be approved and signed by the student's exam committee and filed with the graduate secretary by the end of winter term of the second year. Students are responsible for distributing the approved reading list to the MA committee members as soon as the list is approved.

### Examination Questions

In all fields, one of the two exams must be answered in the candidate's major language; the other can be written in the major language or in English. Choice of language is to be determined in consultation with the committee chair.

The four members of the MA exam committee work together to prepare the questions for the candidate. The exam committee chair is responsible for collecting questions from the committee members and submitting them to the graduate secretary. On the first exam, the candidate answers four questions, choosing between two questions in each of four periods. On the second exam, the candidate chooses between two possible selections for the close reading analysis. The four members read and grade both exams and come to an agreement on the final grade to be submitted for each exam. The committee chair moderates this discussion, submits the grades to the graduate secretary, and communicates the results to the candidate. The student passes when the average grade for each exam is satisfactory (*low pass*, *pass* or *high pass*).

The master's examination is a closed book exam and therefore without footnotes or a bibliography. The exam must be typed using a twelve-point font, double-spaced.

Students who fail the master of arts examination in whole or in part will be allowed to take it over (in whole or in part) once. They are encouraged to do so during the course of the following term (usually the summer session) and no later than six months after failing. If they fail again, they are disqualified.

**Research: [Topic] (FR 601), Research: [Topic] (ITAL 601), or Research: [Topic] (SPAN 601) and Practicum: [Topic] (FR 606), Practicum: [Topic] (ITAL 606), or Practicum: [Topic] (SPAN 606).**

Students who hold a GTF appointment may register for 2 credits of Practicum or one credit of Research in order to complete the nine credits per term required by the Division of Graduate Studies (two graduate courses constitute 8 credits). During the first quarter of their first year, students holding a GTF appointment use Practicum to develop their

teaching skills in practical application. Students not holding a GTF appointment are encouraged to take a third course (for a total of 12 credits) or 1 credit of Research to work on an independent research project.

**Reading and Conference: [Topic] (FR 605), Reading and Conference: [Topic] (ITAL 605), or Reading and Conference: [Topic] (SPAN 605).**

Students may request to do a Reading and Conference course to address a specific problem on which no course currently exists. Before the end of the term preceding the Reading and Conference course, the student prepares a project proposal and submits it to the faculty member with whom he or she wants to work. The project proposal should include a statement of the problem the student wants to explore and a tentative reading list of primary and secondary sources. Only one 4-credit Reading and Conference course may be used to satisfy requirements for the MA degree.

**Reading and Conference: [Topic] (RL 605).** The purpose of this required independent reading course is to motivate students to begin reading during the summer following their first year in the MA program in preparation for the exams that will take place in the spring term of their second year.

During the spring term of the first year of the MA program, students present to their advisors a reading list of eight to ten works to be studied during the summer. The books must belong to no more than two of the periods defined by the MA program, and five of the books must be taken from the departmental reading list. At least one of the texts should be a literary history or a similar text about the period. This approved list (signed by the faculty advisor) will be submitted to the director of graduate studies before the end of the spring term.

In fall term, students will register for a 2-credit, graded Reading and Conference course with the director of graduate studies as the instructor of record.

In the third week of the fall term of the second year, students present the findings of their summer study in a public forum. This one-day forum is organized as a professional meeting, with a chair for each session, a discussion following the presentations, and refreshments. Most Romance language faculty members are present during these presentations, as well as all MA students.

Presentations are fifteen minutes long and delivered in English. Presentations focus on the main themes that students have explored in their readings. Students should be able to discuss both literary techniques and historical context of the period selected, providing examples from the books they have read. Plot summaries should be avoided.

At the end of the presentations, the faculty members meet to evaluate the presentations. On satisfactory completion of this exercise, students receive 2 graded credits for the course. If the faculty members find that a presentation was deficient, they recommend that the student do supervised reading with the faculty specialist in the period before being assigned a grade and receiving course credit.

## Italian (MA)

An estimated 180 million people worldwide speak Italian as their primary or secondary language. Almost 17 million North Americans identify as having Italian ancestry.

Italian culture is traditionally recognized for its rich contributions to art, architecture, music, literature, and philosophy. Today Italy attracts interest in a wide variety of areas, including tourism, its emigrant heritage, filmmaking, fashion industry, and gastronomy.

We offer an MA in Italian. The Master of Arts program consists of:

- Coursework (<https://italian.uoregon.edu/coursework-0/>)
- Fall Forum Presentation and Paper (<https://italian.uoregon.edu/fall-forum/>)
- Written Examinations (<https://italian.uoregon.edu/examinations/>)
- M.A. Research Project (<https://italian.uoregon.edu/ma-research-project/>)

The program is designed to be completed in two years.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

All courses must be taken on a graded basis. Coursework must be completed with grades of B– or better, and a grade point average (GPA) of 3.00 or better must be maintained.

A student whose knowledge of the language or languages is found to be deficient must take remedial work—an advanced writing class, additional study abroad, or some form of language immersion.

### Master of Arts Research Project

The degree requires a research project (either a master's essay or a pedagogy portfolio) that allows a student to expand his or her expertise in literary and cultural studies or in teaching language, literature, and culture. A faculty member oversees the development of the final product and evaluates it. The student must identify a faculty member willing to serve as director and secure his or her signature of approval for the project by the ninth week of spring term of the first year.

The research project should be between 6,000 and 9,000 words. In consultation with the research project director, the student chooses whether to write the project in a Romance language or in English.

Research projects are approved by the director and are referred to the student's MA examination committee (see below) for remediation if the work is found to be deficient or in need of revision. The director submits a final copy of the approved essay or portfolio to the department office by the last day of classes in spring term of the second year.

### Essay in Literary and Cultural Studies

This essay allows students to widen their knowledge in one or more Romance languages, literatures, and cultures. In addition, the essay permits students to focus in greater depth on writing formal academic prose, presenting an interpretation, constructing an argument, documenting sources and references, and honing persuasive strategies. At the end of the first year of study, the student chooses one of the seminar papers that he or she submitted during the first three terms of course work. During the summer session immediately following, the student expands and polishes the paper.

Students who plan to apply for the PhD program in Romance languages at the University of Oregon must complete an essay in literary and cultural studies.

### MA Pedagogy Portfolio in Teaching Language, Literature, and Culture

This project allows students to explore in depth specific issues of teaching a Romance language, its literature and cultures. The portfolio is designed in consultation with the director and serves to demonstrate the student's professional expertise. The portfolio may include the following documents: a coherent collection of teaching materials supported by a theoretical rationale; a description, personal assessment, and third-party evaluation of an internship experience (e.g., a participatory learning experience at the UO); a formal "philosophy of teaching" statement; documentation of participation in a professional conference; and other components as recommended by the director.

Students who plan to apply for the doctoral program in Romance languages at the University of Oregon must complete a master of arts essay in literary and cultural studies.

### Examinations

The master of arts examination comprises two four-hour exams taken in the seventh week of spring term in the second year.

For students studying for the MA in French, Italian, or Spanish, the first exam consists of one specific question in each of the four literary periods. The second exam consists of a detailed analysis of a short text in two parts: a close reading of the text and a consideration of the text in its social, historical, cultural, and/or literary contexts. The student, in consultation with the examination committee, chooses in which of the four periods this second exam is done.

The exams for the Romance languages MA are similar to those for French, Italian and Spanish. However, in the first exam students are asked to draw on examples from both their major and minor literatures in their answer to at least one of the questions. They are encouraged (but not required) to refer to both literatures in their answers to the other three short questions.

The graduate secretary informs the students and the examination committee members of the scheduled exam date.

### Examination Committee

By the sixth week of fall term in the second year, students submit to their advisors and to the director of graduate studies an MA Examination

Committee form with the names of faculty members suggested to cover other examination periods and signed by the committee chair.

By the end of the tenth week of fall term in the second year, students submit a preliminary examination reading list of literary works on which to be examined to the members of their exam committees and to the director of graduate studies.

### Examination Reading List

Students construct a reading list, drawn up in consultation with the exam committee, using the departmental reading list and the syllabuses and bibliographies of the seminars they have taken, as well as the summer reading done in preparation for the fall forum.

For students studying for the MA in French, Italian, or Spanish, the reading list consists of at least ten items in each of the four periods, drawn up in consultation with the exam committee. Of the ten works in each period, at least five must be chosen from the departmental reading list. The other works can be suggested by the student, based on his or her own interests and readings.

For students studying for the MA in Romance languages, the reading list consists of at least twelve items in each of the four periods: eight in the major language and four in the minor. Of the eight works in the major language, at least four must be chosen from the departmental reading list; all texts in the minor language must be chosen from the departmental reading list.

The examination reading list also contains two additional secondary readings (usually literary histories or general literary surveys) that cover the four periods, also drawn from the departmental reading list.

The final version of the examination reading list must be approved and signed by the student's exam committee and filed with the graduate secretary by the end of winter term of the second year. Students are responsible for distributing the approved reading list to the MA committee members as soon as the list is approved.

### Examination Questions

In all fields, one of the two exams must be answered in the candidate's major language; the other can be written in the major language or in English. Choice of language is to be determined in consultation with the committee chair.

The four members of the MA exam committee work together to prepare the questions for the candidate. The exam committee chair is responsible for collecting questions from the committee members and submitting them to the graduate secretary. On the first exam, the candidate answers four questions, choosing between two questions in each of four periods. On the second exam, the candidate chooses between two possible selections for the close reading analysis. The four members read and grade both exams and come to an agreement on the final grade to be submitted for each exam. The committee chair moderates this discussion, submits the grades to the graduate secretary, and communicates the results to the candidate. The student passes when the average grade for each exam is satisfactory (*low pass*, *pass* or *high pass*).

The master's examination is a closed book exam and therefore without footnotes or a bibliography. The exam must be typed using a twelve-point font, double-spaced.

Students who fail the master of arts examination in whole or in part will be allowed to take it over (in whole or in part) once. They are encouraged to do so during the course of the following term (usually the summer

session) and no later than six months after failing. If they fail again, they are disqualified.

**Research: [Topic] (FR 601), Research: [Topic] (ITAL 601), or Research: [Topic] (SPAN 601) and Practicum: [Topic] (FR 606), Practicum: [Topic] (ITAL 606), or Practicum: [Topic] (SPAN 606).**

Students who hold a GTF appointment may register for 2 credits of Practicum or one credit of Research in order to complete the nine credits per term required by the Division of Graduate Studies (two graduate courses constitute 8 credits). During the first quarter of their first year, students holding a GTF appointment use Practicum to develop their teaching skills in practical application. Students not holding a GTF appointment are encouraged to take a third course (for a total of 12 credits) or 1 credit of Research to work on an independent research project.

**Reading and Conference: [Topic] (FR 605), Reading and Conference: [Topic] (ITAL 605), or Reading and Conference: [Topic] (SPAN 605).**

Students may request to do a Reading and Conference course to address a specific problem on which no course currently exists. Before the end of the term preceding the Reading and Conference course, the student prepares a project proposal and submits it to the faculty member with whom he or she wants to work. The project proposal should include a statement of the problem the student wants to explore and a tentative reading list of primary and secondary sources. Only one 4-credit Reading and Conference course may be used to satisfy requirements for the MA degree.

**Reading and Conference: [Topic] (RL 605).** The purpose of this required independent reading course is to motivate students to begin reading during the summer following their first year in the MA program in preparation for the exams that will take place in the spring term of their second year.

During the spring term of the first year of the MA program, students present to their advisors a reading list of eight to ten works to be studied during the summer. The books must belong to no more than two of the periods defined by the MA program, and five of the books must be taken from the departmental reading list. At least one of the texts should be a literary history or a similar text about the period. This approved list (signed by the faculty advisor) will be submitted to the director of graduate studies before the end of the spring term.

In fall term, students will register for a 2-credit, graded Reading and Conference course with the director of graduate studies as the instructor of record.

In the third week of the fall term of the second year, students present the findings of their summer study in a public forum. This one-day forum is organized as a professional meeting, with a chair for each session, a discussion following the presentations, and refreshments. Most Romance language faculty members are present during these presentations, as well as all MA students.

Presentations are fifteen minutes long and delivered in English. Presentations focus on the main themes that students have explored in their readings. Students should be able to discuss both literary techniques and historical context of the period selected, providing examples from the books they have read. Plot summaries should be avoided.

At the end of the presentations, the faculty members meet to evaluate the presentations. On satisfactory completion of this exercise, students receive 2 graded credits for the course. If the faculty members find

that a presentation was deficient, they recommend that the student do supervised reading with the faculty specialist in the period before being assigned a grade and receiving course credit.

## Romance Languages (MA)

The Department of Romance Languages offers an extensive range of courses and degree programs, from instruction in beginning languages through the study of the literatures and cultures of French-, Italian-, Portuguese-, and Spanish-speaking countries. Students can earn a bachelor of arts (BA) degree in French, Italian, Spanish, or Romance languages; the master of arts (MA) is also available in these areas. The doctor of philosophy (PhD), is awarded in either Spanish or Romance languages (RL). The RL PhD encompasses a primary language and literature and a supporting area. Romance languages is a liberal-arts major, providing a valuable background for students interested in graduate work, teaching, and a wide array of other professional and international careers that require strong analytical and communication skills.

### Preparation

The department recommends the following preparation for study leading to a major in any of the Romance languages:

1. As much work as possible in the student's major language. Knowledge of a second Romance language is helpful but not required
2. Knowledge of the history, geography, and politics of the areas where the student's major language is spoken
3. Communication skills, speech, and essay writing that help the student convey ideas logically. In literature and film courses, papers or essay examinations are generally required
4. Experience in literary and cultural studies and linguistics

### Careers

Students who graduate with a bachelor of arts degree in Romance languages typically enter a variety of occupations. Language teaching is an obvious possibility. Proficiency in a second language and knowledge of other cultures enhances study and career opportunities in other areas as well. Romance languages majors, especially those who have a second major in another discipline (e.g., art history, business administration, economics, family and human services, history, international studies, journalism, music, or political science) find positions in communications media, government foreign service, international business and law, libraries, social service organizations, and travel and tourist-related agencies, among others.

### Faculty

Faculty members in the Department of Romance Languages actively participate in other UO interdisciplinary programs and departments (e.g., African studies, cinema studies, comparative literature, European studies, Latin American studies, linguistics, medieval studies, and women's and gender studies). For descriptions, see those sections of this catalog.

### Scholarships

The department administers scholarships for undergraduate and graduate students of Romance languages:

- The Beall Graduate Dissertation Scholarship is awarded to doctoral students to support dissertation writing

- The Françoise Calin scholarship is awarded every year to a French major or minor
- The Leona M. Kail Scholarship supports studies in the Department of Romance Languages (Offered on alternate years.)
- Wayne Andre Gottshall Fund supports undergraduate students in studies in the Department of Romance Languages
- The Emmanuel Hatzantonis Scholarship is awarded every year to a Romance languages major or minor who is studying in Italy with the university's overseas study program
- Dr. Carl L. Johnson Scholarship supports studies in the Department of Romance Languages with preference to French majors.
- The Helen Fe Jones Spanish Student Fellowship supports study abroad in a Spanish-speaking country
- The Perry J. Powers Scholarship is awarded annually to an outstanding Romance languages student
- The Charles Stickles Endowment Scholarship is awarded for study in a Spanish-speaking country
- Nicolette B. Weicker Memorial Scholarship is awarded with preference to students specializing in French or Italian.
- The James T. and Mary Alice Wetzel Graduate Scholarship is awarded every year to an outstanding graduate student in the Department of Romance Languages

More information may be obtained from the department office in early January or on the department website, [rl.uoregon.edu/scholarships](http://rl.uoregon.edu/scholarships) (<http://rl.uoregon.edu/scholarships/>).

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

All courses must be taken on a graded basis. Coursework must be completed with grades of B– or better, and a grade point average (GPA) of 3.00 or better must be maintained.

A student whose knowledge of the language or languages is found to be deficient must take remedial work—an advanced writing class, additional study abroad, or some form of language immersion.

| Total Credits                                                                               |                                                    | 48-54   |

## Literary Periods

- French
  - medieval and Renaissance
  - 17th–18th centuries
  - 1830–1945
  - 1945 to the present
- Italian
  - medieval
  - Renaissance
  - 17th–19th centuries
  - 20th century to the present
- Spanish
  - 11th century–1605
  - 1605–1810
  - 1810–1939
  - 1939 to the present

## Master of Arts Research Project

The degree requires a research project (either a master's essay or a pedagogy portfolio) that allows a student to expand his or her expertise in literary and cultural studies or in teaching language, literature, and culture. A faculty member oversees the development of the final product and evaluates it. The student must identify a faculty member willing to serve as director and secure his or her signature of approval for the project by the ninth week of spring term of the first year.

The research project should be between 6,000 and 9,000 words. In consultation with the research project director, the student chooses whether to write the project in a Romance language or in English.

Research projects are approved by the director and are referred to the student's MA examination committee (see below) for remediation if the work is found to be deficient or in need of revision. The director submits a final copy of the approved essay or portfolio to the department office by the last day of classes in spring term of the second year.

### Essay in Literary and Cultural Studies

This essay allows students to widen their knowledge in one or more Romance languages, literatures, and cultures. In addition, the essay permits students to focus in greater depth on writing formal academic prose, presenting an interpretation, constructing an argument, documenting sources and references, and honing persuasive strategies. At the end of the first year of study, the student chooses one of the seminar papers that he or she submitted during the first three terms of course work. During the summer session immediately following, the student expands and polishes the paper.

Students who plan to apply for the PhD program in Romance languages at the University of Oregon must complete an essay in literary and cultural studies.

### MA Pedagogy Portfolio in Teaching Language, Literature, and Culture

This project allows students to explore in depth specific issues of teaching a Romance language, its literature and cultures. The portfolio is designed in consultation with the director and serves to demonstrate the student's professional expertise. The portfolio may include the following documents: a coherent collection of teaching materials supported by a theoretical rationale; a description, personal assessment, and third-party evaluation of an internship experience (e.g., a participatory learning

experience at the UO); a formal "philosophy of teaching" statement; documentation of participation in a professional conference; and other components as recommended by the director.

Students who plan to apply for the doctoral program in Romance languages at the University of Oregon must complete a master of arts essay in literary and cultural studies.

## Examinations

The master of arts examination comprises two four-hour exams taken in the seventh week of spring term in the second year.

For students studying for the MA in French, Italian, or Spanish, the first exam consists of one specific question in each of the four literary periods. The second exam consists of a detailed analysis of a short text in two parts: a close reading of the text and a consideration of the text in its social, historical, cultural, and/or literary contexts. The student, in consultation with the examination committee, chooses in which of the four periods this second exam is done.

The exams for the Romance languages MA are similar to those for French, Italian and Spanish. However, in the first exam students are asked to draw on examples from both their major and minor literatures in their answer to at least one of the questions. They are encouraged (but not required) to refer to both literatures in their answers to the other three short questions.

The graduate secretary informs the students and the examination committee members of the scheduled exam date.

## Examination Committee

By the sixth week of fall term in the second year, students submit to their advisors and to the director of graduate studies an MA Examination Committee form with the names of faculty members suggested to cover other examination periods and signed by the committee chair.

By the end of the tenth week of fall term in the second year, students submit a preliminary examination reading list of literary works on which to be examined to the members of their exam committees and to the director of graduate studies.

### Examination Reading List

Students construct a reading list, drawn up in consultation with the exam committee, using the departmental reading list and the syllabuses and bibliographies of the seminars they have taken, as well as the summer reading done in preparation for the fall forum.

For students studying for the MA in French, Italian, or Spanish, the reading list consists of at least ten items in each of the four periods, drawn up in consultation with the exam committee. Of the ten works in each period, at least five must be chosen from the departmental reading list. The other works can be suggested by the student, based on his or her own interests and readings.

For students studying for the MA in Romance languages, the reading list consists of at least twelve items in each of the four periods: eight in the major language and four in the minor. Of the eight works in the major language, at least four must be chosen from the departmental reading list; all texts in the minor language must be chosen from the departmental reading list.

The examination reading list also contains two additional secondary readings (usually literary histories or general literary surveys) that cover the four periods, also drawn from the departmental reading list.

The final version of the examination reading list must be approved and signed by the student's exam committee and filed with the graduate secretary by the end of winter term of the second year. Students are responsible for distributing the approved reading list to the MA committee members as soon as the list is approved.

### Examination Questions

In all fields, one of the two exams must be answered in the candidate's major language; the other can be written in the major language or in English. Choice of language is to be determined in consultation with the committee chair.

The four members of the MA exam committee work together to prepare the questions for the candidate. The exam committee chair is responsible for collecting questions from the committee members and submitting them to the graduate secretary. On the first exam, the candidate answers four questions, choosing between two questions in each of four periods. On the second exam, the candidate chooses between two possible selections for the close reading analysis. The four members read and grade both exams and come to an agreement on the final grade to be submitted for each exam. The committee chair moderates this discussion, submits the grades to the graduate secretary, and communicates the results to the candidate. The student passes when the average grade for each exam is satisfactory (*low pass*, *pass* or *high pass*).

The master's examination is a closed book exam and therefore without footnotes or a bibliography. The exam must be typed using a twelve-point font, double-spaced.

Students who fail the master of arts examination in whole or in part will be allowed to take it over (in whole or in part) once. They are encouraged to do so during the course of the following term (usually the summer session) and no later than six months after failing. If they fail again, they are disqualified.

**Research: [Topic] (FR 601), Research: [Topic] (ITAL 601), or Research: [Topic] (SPAN 601) and Practicum: [Topic] (FR 606), Practicum: [Topic] (ITAL 606), or Practicum: [Topic] (SPAN 606).**

Students who hold a GTF appointment may register for 2 credits of Practicum or one credit of Research in order to complete the nine credits per term required by the Division of Graduate Studies (two graduate courses constitute 8 credits). During the first quarter of their first year, students holding a GTF appointment use Practicum to develop their teaching skills in practical application. Students not holding a GTF appointment are encouraged to take a third course (for a total of 12 credits) or 1 credit of Research to work on an independent research project.

**Reading and Conference: [Topic] (FR 605), Reading and Conference: [Topic] (ITAL 605), or Reading and Conference: [Topic] (SPAN 605).**

Students may request to do a Reading and Conference course to address a specific problem on which no course currently exists. Before the end of the term preceding the Reading and Conference course, the student prepares a project proposal and submits it to the faculty member with whom he or she wants to work. The project proposal should include a statement of the problem the student wants to explore and a tentative reading list of primary and secondary sources. Only one 4-credit Reading and Conference course may be used to satisfy requirements for the MA degree.

**Reading and Conference: [Topic] (RL 605).** The purpose of this required independent reading course is to motivate students to begin reading during the summer following their first year in the MA program in preparation for the exams that will take place in the spring term of their second year.

During the spring term of the first year of the MA program, students present to their advisors a reading list of eight to ten works to be studied during the summer. The books must belong to no more than two of the periods defined by the MA program, and five of the books must be taken from the departmental reading list. At least one of the texts should be a literary history or a similar text about the period. This approved list (signed by the faculty advisor) will be submitted to the director of graduate studies before the end of the spring term.

In fall term, students will register for a 2-credit, graded Reading and Conference course with the director of graduate studies as the instructor of record.

In the third week of the fall term of the second year, students present the findings of their summer study in a public forum. This one-day forum is organized as a professional meeting, with a chair for each session, a discussion following the presentations, and refreshments. Most Romance language faculty members are present during these presentations, as well as all MA students.

Presentations are fifteen minutes long and delivered in English. Presentations focus on the main themes that students have explored in their readings. Students should be able to discuss both literary techniques and historical context of the period selected, providing examples from the books they have read. Plot summaries should be avoided.

At the end of the presentations, the faculty members meet to evaluate the presentations. On satisfactory completion of this exercise, students receive 2 graded credits for the course. If the faculty members find that a presentation was deficient, they recommend that the student do supervised reading with the faculty specialist in the period before being assigned a grade and receiving course credit.

## Romance Languages (PhD)

<http://rl.uoregon.edu> (<http://rl.uoregon.edu/>)

**David Wacks, Department Head**

541-346-4021

541-346-4030 fax

119 Friendly Hall

1233 University of Oregon

Eugene, Oregon 97403-1233

The Department of Romance Languages the degree of doctor of philosophy (PhD) in Romance languages.

The PhD program allows students to focus on a specific literary and/or cultural field of interest.

Students follow these degree programs in an intellectually stimulating and supportive environment, characterized by close personal supervision, interdisciplinary approaches to literary and cultural studies, and professional training in both research methods and foreign-language pedagogy.

The university's library resources for research in French, Italian, and Spanish support the department's graduate programs; in some fields they are outstanding. The library's holdings of learned periodicals are extensive.

The PhD program in Romance languages is designed to provide

- a thorough familiarity with several fields (e.g., a movement, a genre, a period, or a literary problem)
- the opportunity to situate the student's special interests in the wider context of Romance languages and literatures as well as in the context of trends inside and outside Western European culture
- the tools necessary to engage literary issues at a high level
- the ability to examine new and challenging literary or theoretical perspectives

Students who enter the PhD program with no knowledge of a second Romance language are required to start learning one as soon as possible during their graduate studies.

The PhD program has five components: course work, comprehensive examination, dissertation prospectus, original dissertation, and final oral defense.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate mastery of subject content knowledge.
- Demonstrate effective oral and written communication skills in discipline-specific genres.
- Conduct independent research and analysis in their discipline.
- Demonstrate independent scientific thinking and advanced knowledge in their current discipline and in related areas of their discipline.
- Understand ethical issues and responsibilities especially in matters related to professionalism, field work, and in writing and publishing theses, dissertations and academic papers.
- Professionalization into the field of study: publications, presentations, attended conferences, funded fellowships, and professional association activities.

## Course Work

The PhD degree requires a total of 84 graduate-level credits—32 credits in addition to the 52 required for the master's degree. Course work applied to the degree must be taken for letter grades, and a grade point average (GPA) of 3.00 or better must be maintained.

Students must complete at least 21 graduate seminars in the department (at least 84 credits in all) beyond the bachelor's degree. PhD students must thus take at least 8 graduate courses (32 credits) beyond the 13 courses (52 credits) required for the master's. Only one of these 8 courses (4 credits) may be satisfied in the form of a Reading and Conference course (Reading and Conference: [Topic] (FR 605), Reading and Conference: [Topic] (ITAL 605), or Reading and Conference: [Topic] (SPAN 605)).

Of the twenty-one courses (84 credits), three (12 credits) must be taken in a second Romance language.

As many as three of the twenty-one courses (12 of the 84 credits) may be taken outside the department, with the authorization of the advisor, and provided that the courses bear directly on the student's program of study.

Doctoral students are also strongly encouraged to take Romance Languages Colloquium: [Topic] (RL 623) for at least two credits. Colloquium may either be taken as a 2-credit pass/no pass course (in which case it does not count toward the 52 credits required for the degree) or as a 4-credit graded course.

Students with an MA in French, Italian, Spanish, or Romance languages from the University of Oregon may count a maximum of two graduate courses completed during the MA program toward PhD course requirements, provided that these courses were not used to fulfill MA requirements.

Graduate students with an MA in French, Italian, Spanish, or Romance languages from another institution must take a minimum of 40 credits in the Department of Romance Languages. The department's graduate committee evaluates previous graduate course work and determines whether additional work is necessary to fill any gaps in a student's preparation. This may result in a student having to take more than 40 credits at the University of Oregon—up to a maximum of 68 credits. If the candidate is found to be seriously deficient or if the master's degree is in a field other than Romance languages, the graduate committee may admit the student into the master's program. In this case, the student may submit a petition to the committee to transfer a maximum of three courses toward the twelve courses required for the MA. This petition may be submitted after the student has completed four graduate-level courses with grades of mid-B or better in the Romance languages master's program.

\*Students typically will register for RL 601 or RL 605 during the terms that they are preparing for exams or writing their prospectus, and will register RL 603 Dissertation (18 credits) while writing their dissertation.

## Comprehensive Examination

Students entering the PhD program should develop, as soon as possible but no later than the third term of course work beyond the master's degree, a field of interest that forms the basis of their research for the PhD comprehensive examination and ideally for the dissertation. This field of interest usually emerges from the selected courses and shapes the areas of concentration represented on the comprehensive examination.

The comprehensive examination consists of two written examinations and an oral examination. Each written examination covers a subfield that pertains to the student's field of interest. The subfields should be defined and prepared with three members of the Romance languages faculty who constitute the PhD examination committee. One of these faculty members should represent the student's second Romance language. A fourth member may be added from another department. In consultation with the members of the examination committee, the student creates a reading list for each of the subfields. The reading list must be approved by the examination committee no later than four weeks before the date of the exam. Students are responsible for distributing the reading list to the committee members of the examination committee as soon as the list is approved.

The written examinations take the form of two essays that respond to questions formulated by members of the PhD examination committee. Each written examination covers one of the subfields and is a maximum

of twenty double-spaced, typed pages in length. The student has two weeks to write each of the two essays.

Two weeks after the successful completion of the written essays, the student takes an oral examination. The oral examination attempts to integrate the subfields addressed in the written examinations with the other facets of the student's declared field of interest. In a two-hour conversation, the candidate and the committee members examine and elaborate on ways in which the written essays help to define a project within the student's field of interest.

Typically undertaken during the fifth term of study following the master's degree, the comprehensive examination should result in clarification of the dissertation's subject matter and possible approaches to it. The exam should, in other words, yield at least a tentative dissertation topic.

A student who fails the PhD examination in whole or in part will be allowed to take it over (in whole or in part) once. The student is encouraged to do so no later than six months after failing. A second failure results in disqualification.

It is the student's responsibility to schedule both the written and oral portions of the comprehensive examination.

With the successful completion of the PhD comprehensive exam, the student will advance to candidacy and begin preparing the dissertation prospectus.

## Dissertation Prospectus

The prospectus, typically completed during the sixth term of study following the master's degree, defines the scope of the dissertation and demonstrates the originality of the project. It consists of an eight- to ten-page description of the proposed dissertation project and a substantial research bibliography of primary and secondary material.

Students are responsible for putting together a dissertation committee, which typically consists of four members: one director and two readers from the Department of Romance Languages, and one reader from another department. A student may also choose to have two codirectors in the Department of Romance Languages (plus two further members of the department).

When the student has a solid draft of the prospectus, she or he schedules a meeting with the dissertation committee members for a presentation and discussion of the prospectus. Following this conversation, the student will make final revisions to the prospectus. Once the committee has given its final approval, the student submits the prospectus to the department for filing.

Students are reminded that they must have a dissertation committee in place and proper documents filed with the Division of Graduate Studies six months before the dissertation defense.

Any student making significant changes to the dissertation project after the final approval of the prospectus must schedule a meeting with the dissertation committee before proceeding.

## Dissertation

The dissertation constitutes an original and valuable contribution to scholarship in the student's field of interest. It should be characterized by mature literary interpretation, informed and reasoned argument, and an awareness of the means and goals of research.

It is the student's responsibility to ascertain the rules and deadlines of the Division of Graduate Studies for proper filing of the dissertation. Students are strongly encouraged to familiarize themselves with the stringent formatting and structure guidelines for the dissertation provided by the Division of Graduate Studies (available online).

A final copy of the dissertation must be distributed to the dissertation committee for final approval at least three weeks before the dissertation defense.

## Final Oral Defense

When all members of the dissertation committee have approved the dissertation, a final public oral presentation and defense of the work is held.

## Spanish (MA)

<http://rl.uoregon.edu> (<http://rl.uoregon.edu/>)

### David Wacks, Department Head

541-346-4021  
541-346-4030 fax  
119 Friendly Hall  
1233 University of Oregon  
Eugene, Oregon 97403-1233

Spanish is the official language of twenty-one countries in the world, and it is the second most spoken language in the United States. Our department pioneers the teaching of Spanish as a Heritage Language. (<https://shl.uoregon.edu/>)

We provide classes in Spanish that help students develop linguistic abilities with an emphasis on real-world proficiency, as well as introduce students to the major historical and cultural phenomena that characterize the Spanish-speaking world.

We offer both MA and PhD programs in Spanish. Most of our graduate students have a Graduate Employee (GE) position that provides a tuition waiver, health insurance, and a stipend to cover living expenses. We also offer scholarships and support for travel to professional meetings.

The master's degree program provides solid grounding and broad coverage in the literatures and cultures of each of the language areas. The university's library resources for research in Spanish support the department's graduate programs; in some fields they are outstanding. The library's holdings of learned periodicals are extensive.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

All courses must be taken on a graded basis. Coursework must be completed with grades of B– or better, and a grade point average (GPA) of 3.00 or better must be maintained.

A student whose knowledge of the language or languages is found to be deficient must take remedial work—an advanced writing class, additional study abroad, or some form of language immersion.

## Master of Arts: Spanish

| Code   | Title                                            | Credits |

<sup>2</sup> Taken winter term of first year.

<sup>3</sup> Taken in preparation for second-year fall forum.

## Master of Arts Research Project

The degree requires a research project (either a master's essay or a pedagogy portfolio) that allows a student to expand his or her expertise in literary and cultural studies or in teaching language, literature, and culture. A faculty member oversees the development of the final product and evaluates it. The student must identify a faculty member willing to serve as director and secure his or her signature of approval for the project by the ninth week of spring term of the first year.

The research project should be between 6,000 and 9,000 words. In consultation with the research project director, the student chooses whether to write the project in a Romance language or in English.

Research projects are approved by the director and are referred to the student's MA examination committee (see below) for remediation if the work is found to be deficient or in need of revision. The director submits a final copy of the approved essay or portfolio to the department office by the last day of classes in spring term of the second year.

## Essay in Literary and Cultural Studies

This essay allows students to widen their knowledge in one or more Romance languages, literatures, and cultures. In addition, the essay permits students to focus in greater depth on writing formal academic prose, presenting an interpretation, constructing an argument, documenting sources and references, and honing persuasive strategies. At the end of the first year of study, the student chooses one of the seminar papers that he or she submitted during the first three terms of course work. During the summer session immediately following, the student expands and polishes the paper.

Students who plan to apply for the PhD program in Romance languages at the University of Oregon must complete an essay in literary and cultural studies.

## MA Pedagogy Portfolio in Teaching Language, Literature, and Culture

This project allows students to explore in depth specific issues of teaching a Romance language, its literature and cultures. The portfolio is designed in consultation with the director and serves to demonstrate the student's professional expertise. The portfolio may include the following documents: a coherent collection of teaching materials supported by a theoretical rationale; a description, personal assessment, and third-party evaluation of an internship experience (e.g., a participatory learning experience at the UO); a formal "philosophy of teaching" statement;

documentation of participation in a professional conference; and other components as recommended by the director.

Students who plan to apply for the doctoral program in Romance languages at the University of Oregon must complete a master of arts essay in literary and cultural studies.

## Examinations

The master of arts examination comprises two four-hour exams taken in the seventh week of spring term in the second year.

For students studying for the MA in French, Italian, or Spanish, the first exam consists of one specific question in each of the four literary periods. The second exam consists of a detailed analysis of a short text in two parts: a close reading of the text and a consideration of the text in its social, historical, cultural, and/or literary contexts. The student, in consultation with the examination committee, chooses in which of the four periods this second exam is done.

The exams for the Romance languages MA are similar to those for French, Italian and Spanish. However, in the first exam students are asked to draw on examples from both their major and minor literatures in their answer to at least one of the questions. They are encouraged (but not required) to refer to both literatures in their answers to the other three short questions.

The graduate secretary informs the students and the examination committee members of the scheduled exam date.

## Examination Committee

By the sixth week of fall term in the second year, students submit to their advisors and to the director of graduate studies an MA Examination Committee form with the names of faculty members suggested to cover other examination periods and signed by the committee chair.

By the end of the tenth week of fall term in the second year, students submit a preliminary examination reading list of literary works on which to be examined to the members of their exam committees and to the director of graduate studies.

## Examination Reading List

Students construct a reading list, drawn up in consultation with the exam committee, using the departmental reading list and the syllabuses and bibliographies of the seminars they have taken, as well as the summer reading done in preparation for the fall forum.

For students studying for the MA in French, Italian, or Spanish, the reading list consists of at least ten items in each of the four periods, drawn up in consultation with the exam committee. Of the ten works in each period, at least five must be chosen from the departmental reading list. The other works can be suggested by the student, based on his or her own interests and readings.

For students studying for the MA in Romance languages, the reading list consists of at least twelve items in each of the four periods: eight in the major language and four in the minor. Of the eight works in the major language, at least four must be chosen from the departmental reading list; all texts in the minor language must be chosen from the departmental reading list.

The examination reading list also contains two additional secondary readings (usually literary histories or general literary surveys) that cover the four periods, also drawn from the departmental reading list.

The final version of the examination reading list must be approved and signed by the student's exam committee and filed with the graduate secretary by the end of winter term of the second year. Students are responsible for distributing the approved reading list to the MA committee members as soon as the list is approved.

### Examination Questions

In all fields, one of the two exams must be answered in the candidate's major language; the other can be written in the major language or in English. Choice of language is to be determined in consultation with the committee chair.

The four members of the MA exam committee work together to prepare the questions for the candidate. The exam committee chair is responsible for collecting questions from the committee members and submitting them to the graduate secretary. On the first exam, the candidate answers four questions, choosing between two questions in each of four periods. On the second exam, the candidate chooses between two possible selections for the close reading analysis. The four members read and grade both exams and come to an agreement on the final grade to be submitted for each exam. The committee chair moderates this discussion, submits the grades to the graduate secretary, and communicates the results to the candidate. The student passes when the average grade for each exam is satisfactory (*low pass*, *pass* or *high pass*).

The master's examination is a closed book exam and therefore without footnotes or a bibliography. The exam must be typed using a twelve-point font, double-spaced.

Students who fail the master of arts examination in whole or in part will be allowed to take it over (in whole or in part) once. They are encouraged to do so during the course of the following term (usually the summer session) and no later than six months after failing. If they fail again, they are disqualified.

**Research: [Topic] (FR 601), Research: [Topic] (ITAL 601), or Research: [Topic] (SPAN 601) and Practicum: [Topic] (FR 606), Practicum: [Topic] (ITAL 606), or Practicum: [Topic] (SPAN 606).**

Students who hold a GTF appointment may register for 2 credits of Practicum or one credit of Research in order to complete the nine credits per term required by the Division of Graduate Studies (two graduate courses constitute 8 credits). During the first quarter of their first year, students holding a GTF appointment use Practicum to develop their teaching skills in practical application. Students not holding a GTF appointment are encouraged to take a third course (for a total of 12 credits) or 1 credit of Research to work on an independent research project.

**Reading and Conference: [Topic] (FR 605), Reading and Conference: [Topic] (ITAL 605), or Reading and Conference: [Topic] (SPAN 605).**

Students may request to do a Reading and Conference course to address a specific problem on which no course currently exists. Before the end of the term preceding the Reading and Conference course, the student prepares a project proposal and submits it to the faculty member with whom he or she wants to work. The project proposal should include a statement of the problem the student wants to explore and a tentative reading list of primary and secondary sources. Only one 4-credit Reading and Conference course may be used to satisfy requirements for the MA degree.

**Reading and Conference: [Topic] (RL 605).** The purpose of this required independent reading course is to motivate students to begin reading during the summer following their first year in the MA program in

preparation for the exams that will take place in the spring term of their second year.

During the spring term of the first year of the MA program, students present to their advisors a reading list of eight to ten works to be studied during the summer. The books must belong to no more than two of the periods defined by the MA program, and five of the books must be taken from the departmental reading list. At least one of the texts should be a literary history or a similar text about the period. This approved list (signed by the faculty advisor) will be submitted to the director of graduate studies before the end of the spring term.

In fall term, students will register for a 2-credit, graded Reading and Conference course with the director of graduate studies as the instructor of record.

In the third week of the fall term of the second year, students present the findings of their summer study in a public forum. This one-day forum is organized as a professional meeting, with a chair for each session, a discussion following the presentations, and refreshments. Most Romance language faculty members are present during these presentations, as well as all MA students.

Presentations are fifteen minutes long and delivered in English. Presentations focus on the main themes that students have explored in their readings. Students should be able to discuss both literary techniques and historical context of the period selected, providing examples from the books they have read. Plot summaries should be avoided.

At the end of the presentations, the faculty members meet to evaluate the presentations. On satisfactory completion of this exercise, students receive 2 graded credits for the course. If the faculty members find that a presentation was deficient, they recommend that the student do supervised reading with the faculty specialist in the period before being assigned a grade and receiving course credit.

## Spanish (PhD)

Spanish is the official language of twenty-one countries in the world, and it is the second most spoken language in the United States. Our department pioneers the teaching of Spanish as a Heritage Language. (<https://shl.uoregon.edu/>)

We provide classes in Spanish that help students develop linguistic abilities with an emphasis on real-world proficiency, as well as introduce students to the major historical and cultural phenomena that characterize the Spanish-speaking world.

We offer both MA and PhD programs in Spanish. Most of our graduate students have a Graduate Employee (GE) position that provides a tuition waiver, health insurance, and a stipend to cover living expenses. We also offer scholarships and support for travel to professional meetings.

Coursework for the PhD in Spanish allows students to:

- acquire exposure to a broad range of theoretical perspectives and methodological approaches
- develop expertise in a primary and secondary field
- broaden and deepen their conception of the Ph.D. Scholarly Project/ dissertation
- acquire exposure to interdisciplinary comparative approaches, transnational connections, and minority languages and cultures

- join and/or establish professional networks in their chosen discipline(s)

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate mastery of subject content knowledge.
- Demonstrate effective oral and written communication skills in discipline-specific genres.
- Conduct independent research and analysis in their discipline.
- Demonstrate independent scientific thinking and advanced knowledge in their current discipline and in related areas of their discipline.
- Understand ethical issues and responsibilities especially in matters related to professionalism, field work, and in writing and publishing theses, dissertations and academic papers.
- Professionalization into the field of study: publications, presentations, attended conferences, funded fellowships, and professional association activities.

Course requirements depend on students' credentials when admitted. Students entering with a B.A must complete 80 credits; students holding an M.A. degree in an appropriate field (see Admissions section) must complete 40 credits. All credits must be taken graded and at the graduate level (500-600). Distribution of course requirements for the PhD is as follows:

1. RL 616 Language teaching methods (4 credits)
2. RL 620 Graduate Study in RL (4 credits)
3. RL 623 RL Colloquium (4 credits)
4. 4 courses in primary area (16 credits)
5. 3 courses in secondary area (12 credits)
6. RL 603 Dissertation (18 credits)

Students typically will register for RL 601 or RL 605 during the terms that they are preparing for exams, and for RL 603 when writing their prospectus.

PhD students who are teaching take Span 609 1st year Pedagogy or Span 609 2nd year Pedagogy (2 credits), which requires weekly meetings with their teaching supervisor and provides training that prepares them further to teach their classes successfully.

ourses should come primarily from the Romance Languages department, but this distribution can be met with courses from any department on campus, with approval from the student's advisor(s). Of the 6 courses taken in Primary and Secondary areas, at least 4 of them should be in Spanish. For courses taken outside RL, research papers should deal with the Spanish language and/or the communities where it is used, and serve to prepare the student for the Scholarly Project and/or dissertation (see below).

### Second-language requirement

In addition to Spanish, students must demonstrate proficiency in a second language that is relevant to their research interests and that will allow them to participate in additional academic discourse communities.

This may be another Romance language taught in the department (French, Italian, or Portuguese) or another language relevant to their research (Latin, Arabic, or Ladino; Basque, Catalan, or Galician; Nahuatl, Quechua, or Yucatec Maya; Caló or Spanglish, etc.). Students will justify their choice of second language and how they will evidence competency in the annual review at the end of their first year.

Students can fulfill the second-language requirement in several ways, as follows:

- Completing one graduate course (4 graded credits) in a second Romance language: French, Italian, Spanish or Portuguese or RL-prefix course structured around readings in one of these languages.
- Completing one graduate course (4 graded credits) in an approved language outside the Romance Languages department.

With the approval of the adviser(s) and the Director of Graduate Studies, students may design a program of study or language experience on or off campus (e.g., a study abroad program) that evidences/results in a proficiency level appropriate for research.

The students' faculty adviser(s) will indicate that the second-language requirement has been satisfied through one of the options above by submitting an email to the Director of Graduate Studies and the Graduate Program Coordinator.

---

**Students entering the SPAN PhD program with a BA** will need take a total of 20 courses (80 credits) to complete their PhD requirements:

1. 3 courses (12 credits) of RL required courses (RL 636, 620, 623)
2. 11 courses (40 credits) in the Romance Languages department. At least 9 courses must have a SPAN prefix; up to two courses may have an RL prefix when the written coursework is completed in Spanish.
3. 3 courses (12 credits) outside the department in fields related to their research (i.e.: Linguistics, Philosophy, History, English, Anthropology, Ethnic Studies, Women and Gender Studies, Education Studies, Comparative Literature).
4. 3 courses (12 credits) with the RL prefix (RL, ITAL, PORT or FR), or in other departments if the courses are related to their primary and secondary fields. (One of these courses may also satisfy the second language requirement).

**Students entering the SPAN PhD with an MA** will complete a total of 10 courses (40 credits), with their Primary and Secondary Field-satisfying courses drawn from any of the categories below:

1. 3 graduate courses (12 credits) of RL required courses (RL 636, 620, 623)
2. 4 graduate courses (16 credits) in the Romance Languages Department with SPAN prefix
3. 3 graduate courses (12 credits) in Romance Languages, SPAN, FR, PORT, ITAL, or outside the department. (One of these courses may also satisfy the second language requirement).

\*Students who have taken RL 636, RL 620, and RL 623 in the course of completing an MA in the Romance Languages department at UO will be considered to have met these requirements.

### Benchmarks

**Graduate Portfolio:** Students will file the materials they create throughout their progress in the program (Coursework essays, Pre-professional Experience Internship, Prospectus, publications, and their dissertation) in a Portfolio that will allow their committees to track their academic progress and their intellectual commitment to the field.

### Professional Development Experience

Students interested in exploring alternative careers as future professional opportunities are encouraged to undertake an internship or a comparable experience in the community in Eugene in the summer or during the year, or in another state or any other Latin American country or Spain, in a place where they can use their Spanish linguistic skills while developing administrative skills. This is not a mandatory professional experience. Faculty advisors or/and the Career Center will work with students to locate appropriate opportunities. This professional development experience is envisioned to train further our graduate students for a career paths outside the academia. The experience does not have to be local; students can contemplate diverse options nationally or internationally. For example, some options would be to work as a volunteer interpreters in a court of law or in a hospital, as assistant teacher in a public school, internship in a government facility, administrative assistant or Public relations in a business, assistant or interpreter in an NGO such as Centro Latinoamericano in Eugene, or another NGO related to their field in the US, Latin America or the Iberian peninsula. The internship or voluntary work could range from 15 hours to 30 hours. It may be completed at any time during their years of study; it is an optional experience, not a requirement. Students must submit a brief reflection (500-1000 words) on their experience to their graduate advisor; the reflection should address how the experience has been formative, and how it affected their thinking about future career option once they finish their PhD. The reflection should also speak to how it may connect to their course of study and enrich their preparation as graduate students. The reflection should be shared with the contact person in the institution they worked with, who should also send a brief letter certifying that the student did the voluntary work.

**Annual Meeting:** Students provide a progress report, a future plan of study term by term, and meet with their advisor annually during the spring term. We will have a template for the progress report with an advising checklist to assure consistency.

**DISSERTATION PROGRESS MEETING** In the fall term of the first full year of dissertation writing, the student meets with the advisor and one other member of the dissertation committee to discuss the progress, status and trajectory of the dissertation, potential publications associated with it, and any factors impeding the work or troubling the student. The student will submit all drafted work to the advisor and second committee member at least one week before the meeting takes place. After this meeting, the advisor will submit a brief description of the student's qualitative and quantitative progress to the Director of Graduate Studies. Please use the First Year Dissertation Status Meeting form to document the meeting. Students may find it useful to have a fall term progress meeting with two members of their committee during each year of dissertation writing. Advisors should submit a Progress Meeting form to the Director of Graduate Studies.

**FIRST CHAPTER REQUIREMENT** By the last day of classes of winter term of the first full year of dissertation writing, the student must submit a fully drafted chapter of the dissertation to the Dissertation Advisor and the Graduate Coordinator. "Fully drafted" implies a chapter whose argumentative structure is complete, and which has been proofread and includes references, but which might not be considered "polished" or final text. Students who do not meet this milestone work must meet

with the Director of Graduate Studies to discuss available resources and strategies to support their progress and to craft and execute a writing plan. (Such meetings are available to all students at any point of the degree.) As per the GDRS, graduate students must be making satisfactory progress toward degree. Students who fail to submit a fully drafted chapter of the dissertation to the Graduate Coordinator by the end of winter term of the first full year of dissertation writing risk losing their GE appointments, unless the advisor or the DGS can provide and document the reasons for an extension of this submission. Note: It is worth emphasizing that the first fully drafted chapter may be submitted as part of the dissertation progress meeting during the fall term and that, ideally, students will have progressed well beyond a single chapter draft at the end of the first full year of dissertation writing. At the same time, individual paths and timelines to a complete dissertation vary widely among students.

**Guided Readings:** Taken in the final term of coursework before the Ph.D. exams, these readings have two objectives: (1) to help students prepare for the Ph.D. exams and to reinforce coverage of the areas of expertise students will need as they begin preparing for the dissertation project and (2) to acquire knowledge in areas not covered in their coursework. By the completion of the guided readings (2-4 credits) as Span 605, students should submit two **Annotated Bibliographies** of Primary Works in the Primary Field (15 works; one page per work); and Annotated Bibliography of Primary Works in their Secondary Field(s) (10 works; one page per work).

**Ph.D. Statement & Plan of Study:** Students work with their primary adviser to compose a one-page statement that explains their interests, the connections among their fields of study, the beginnings of their primary project, and a term-by-term plan of work. The statement is approved by the primary adviser and shared with the members of the Ph.D. exam committee. The statement should be completed by the beginning of the term when students will take their Ph.D. exams. The statement should serve as another academic tool to prepare for the Exams.

### Ph.D. Comprehensive Examinations

The comprehensive examination consists of two written exams and an oral defense. Students will submit two **Annotated Bibliographies** the term before their Ph.D. exams (after completing their Guided Readings), which will then serve as the basis for their Ph.D. exam reading lists. Each written examination covers a subfield that pertains to the student's primary fields of interest. The subfields should be defined and prepared with three RL faculty members who will constitute the Ph.D. exam committee. Students will be encouraged to include a fourth member from another UO department. By week 2 of the term of their Ph.D. exams, students submit a form with the signature of each member of the committee, verifying that they have received the final reading list for exams and that they are prepared to participate in the examination committee. The exam committee is selected by the student and the advisor, according to the student's fields of research and in consultation with the faculty members the student has been working with throughout their graduate studies.

In consultation with the members of this committee, students create a reading list for their designated primary field and secondary field. In consultation with their adviser, they may opt to add a third subfield. Students will prepare a list of critical, methodological, and/or theoretical works that support their primary and secondary fields, which they will then incorporate into their preparation for the second exam. This reading list must be approved by the exam committee no later than week 2 of the

term of the exams. Students are responsible for distributing the reading list to each of the committee members as these members sign the exam form. Each written exam will take the form of an essay (maximum 25 pages, double-spaced) that responds to one of two questions formulated by members of the Ph.D. exam committee, and will cover one or more of the subfields. Students will have two weeks to write each of these essays. Two weeks after the successful completion of these written essays, students will then take an oral examination. The oral exam will allow students to integrate the areas addressed in the written exams with the other facets of their declared fields of interest. In this two-hour conversation, the committee members help students to articulate how their written essays will best lead to the development of the dissertation project. Exam 1 should be received in Week 4, turned in in Week 6; Exam 2 should be received in Week 6 and submitted in Week 8; the oral defense should be in Week 10.

Undertaken by the sixth term of study following the M.A., the comprehensive examination should result in clarification of both the subject matter of the dissertation and possible approaches to it. The exam should, in other words, yield a dissertation topic. It is the responsibility of the students to initiate the scheduling of both the written and the oral portions of the comprehensive examination. Upon successful completion of the Ph.D. comprehensive exam, students are formally advanced to candidacy and may begin preparing the dissertation prospectus. Students who fail one or both components of the Ph.D. exam will be allowed to retake it (in whole or in part) once. The Graduate Coordinator and the DGS will make sure that the student retakes the exams no later than 6 months after their first attempt. If their second attempt is deemed unsatisfactory, they are disqualified from Ph.D. candidacy and must withdraw from the graduate program, the department will award them a terminal MA.

During the term the students are taking the Ph.D. Exams they would not be taking courses, but 8 credits RL 600 Exam course.

### Prospectus

Students are responsible for putting together their dissertation committee, which normally consists of four members: one director and two readers from the Department of Romance Languages, and one reader from another department. Students must submit a form—either digitally or on paper—two weeks before the defense of the prospectus or by week 7 at the latest—with the signature of each member of this committee, verifying that they have received the final draft of the prospectus and agree to serve on the committee.

Students will submit a ten- to fourteen-page prospectus accompanied by a substantial research bibliography of primary and secondary material to the dissertation committee members in the term following successful completion of their PhD Exam. This prospectus should define the scope of the dissertation; demonstrate the significance and originality of the project; explain the methodology and theoretical grounding; and provide a short summary of each chapter and its main arguments. Occasionally, a student may choose to have two co-directors in the Department of Romance Languages (plus two additional members, one from the department and one from another department).

Students are responsible for putting together their dissertation committee, which normally consists of four members: one director and two readers from the Department of Romance Languages, and one reader from another UO department. Students are expected to consult with each of their committee members while drafting the prospectus. The defense of the Prospectus must be scheduled by week 2 of that term, and it must

occur by week 10. Students must submit a form - either digitally or on paper - two weeks before the defense of the prospectus or by week 7 at the latest -- with the signature of each member of this committee, verifying that they have received the final draft of the prospectus and agree to serve on the committee.

Once the dissertation director notifies the Ph.D. candidate in writing that all members of the committee have approved the prospectus, the candidate will schedule a meeting with the dissertation committee members for a presentation and discussion of the prospectus. Following this conversation, the candidate will make final revisions to the prospectus. Once the committee has given its final approval, the student will file the prospectus with the department.

It is the candidate's responsibility to have a dissertation committee in place and to have filed all necessary documents with the Division of Graduate Studies six months before the dissertation defense. Upon completion of the Prospectus Defense, the student will be advanced to candidacy.

Any student making significant changes to the dissertation project after the final approval of the prospectus must schedule a meeting with the dissertation committee before proceeding.

**Scholarly Project or Versatile Ph.D. Project:** The student chooses a seminar paper or project to develop into an article or other scholarly project that complements the student's chosen professional goals and plan of study. Students preparing for an academic job are strongly encouraged to pursue publication of one scholarly articles or a Translation project. Working with their adviser or in the context of a graduate course, they prepare the article or text, choose a publication venue, and submit the article or translation for publication by the end of the fourth year. Students may propose and prepare other versatile Ph.D. projects, however, in consultation with their advisers and the DGS. Students will also be encouraged to develop an Individual Development Plan (IDP) to actively prepare for jobs outside the academia.

### Dissertation/Thesis

Students must form a dissertation committee (at least 4 members; 3 from Romance Languages and one UO faculty member from outside the RL department), defend their dissertation proposal to their committee, must take a minimum of 18 dissertation credits while writing the dissertation, submit at 6-3 weeks in advance the final dissertation to the committee (if the committee does not receive the dissertation 3 weeks in advance the defense has to be postponed) and give an oral defense of their dissertation. All UO Division of Graduate Studies dissertation requirements must be adhered to.

**RL 607 Professionalization and Dissertation Workshop** This course will be offered every other year for students who have submitted their prospectus, and before or while they enter the job market. While the course will allow students to examine the range of career opportunities within and outside the academic job market, the focus will be on drafting cover letters, teaching statements, CVs, and grant proposals; throughout the term, workshop participants will draft a journal article, most likely from a dissertation chapter in progress, and identify an appropriate journal for submission and peer review. As part of this course requirements the students will be developing **Professional Portfolio**, and an **Individual Development Plan (IDP)** to explore professional, career opportunities outside the academia, and how to prepare for them competitively.

### Original Dissertation/Oral Defense

Students must complete a PhD Thesis Progress form at least 6 weeks before the defense of their dissertation with the signature of each member of the committee, verifying that they have received the final draft of the dissertation and that they will participate in the defense.

The dissertation should constitute an original and significant contribution to scholarship in the student's field of expertise. It should be characterized by mature literary, cinematic, linguistic, and/or cultural interpretation; by informed and reasoned argument; and by an awareness of the means and goals of research. In the context of a PhD in Spanish this means that their dissertation will be showing the new paths of Latin American and/or Iberian Studies, for example in dialogue with African Studies, Mediterranean Studies, Caribbean Studies. Dissertations might be written in Spanish or in English, making its contribution in a wide range of fields such as Translation Studies, Linguistics, Gender Studies, Holocaust or Memory Studies, and Visual Culture, among many others.

Students must also, of course, familiarize themselves with the stringent formatting and structure guidelines for the dissertation (the information is provided by the Division of Graduate Studies and is available online or in pamphlet form). A final copy of the dissertation must be distributed to the dissertation committee for final approval at least six weeks before the dissertation defense.

#### Final Oral Dissertation Defense

When all members of the dissertation committee have agreed that it is a defensible the dissertation, a public oral presentation and defense of the work is held. If a member of the committee does not think that the dissertation can be defended then they must notify the advisor three weeks in advance of the defense.

## Translation Studies Graduate Specialization

### Graduate Specialization in Translation Studies

The Oregon Center for Translation Studies, supported by the UO Global Studies Institute, draws together a diverse group of faculty, graduate students, and active professional community members and emeriti who work across languages and disciplines in the area of Translation Studies. We pursue research, teaching, and practice related to multiple forms of translation. As a group we are committed to exploring interdisciplinary aspects of these endeavors.

The Graduate Specialization in Translation Studies aims to strengthen and enrich opportunities for UO students by drawing on existing offerings across disciplines and, where possible, adding to the current curriculum, in Languages, Literatures, Anthropology, International Studies, and Folklore at UO. In this way, the Specialization contributes to strengthening graduate offerings in this vital and complex field.

## Russian, East European, and Eurasian Studies

#### Katya Hokanson, Program Director

114 Friendly Hall  
541-346-4065

The Russian, East European, and Eurasian Studies Program is devoted to the study of the peoples living in the eastern third of Europe,

throughout the northern steppes of Central Asia, and across Siberia to the Pacific Ocean. Settled over a territory that spans half the earth's time zones, these peoples have created a complex mosaic of cultures, expressed in literature and art as well as in institutions and social forms. Over the centuries, these lands have come under the sway of several great world-historical civilizations and empires: the Byzantine, Mongolian, Ottoman Turkish, Holy Roman, Austro-Hungarian, Russian, and Soviet. These lands have felt the influence of Orthodox Christianity, Catholicism, Protestantism, Judaism, Islam, Buddhism and Communism. At the intersection of many powerful forces, these lands experience the historical drama of what some call "modernization" with its challenge to customary ways of life. Yet, after centuries of massive transplantation and transformation, national and ethnic heritages survive. Customary ways and native self-consciousness, more diverse than anywhere else on the globe, express themselves with new vigor.

REEES offers a bachelor of arts degree (BA) and a minor.

#### Fields of Concentration

The program offers the following concentrations for the undergraduate major and minor:

- Russian language, literature, and culture (humanities emphasis/field of concentration)
- Russian and East European history, politics, and society (social science emphasis/field of concentration)

Courses with these focus areas are offered by the program and such participating departments as anthropology, geography, history, political science, religious studies and sociology. Any course taken that includes instruction on one of these focus areas and has at least 40 percent Russian, East European, former Soviet Eurasian, or Slavic content, including independent research undertaken by the student, may be applied to the field of concentration requirement with administrative approval.

Students can view sample programs of study in the various concentrations on the program website.

The **major** requires 36 graded credits; courses must be passed with grades of C– or better. Credits used to fulfill the language requirement (students must complete three years of Russian or show they have attained third-year proficiency) may not be applied to the 36-credit requirement.

The **minor** requires 24 graded credits; courses must be passed with a grade of C– or better, and also requires third-year proficiency. Courses taken to fulfill the language requirement may not be used to fulfill the 24-credit requirement.

#### Overseas Study

Qualified students of Russian may spend a summer, semester, or academic year studying the language. While study in Russia is not currently supported, a direct exchange program with the University of Latvia is available, as well as Russian language study programs organized by SRAS in Armenia, Georgia, Latvia and Kyrgyzstan. American Councils offers Russian language programs in Kazakhstan, Armenia, and Georgia. Opportunities also exist for study in the Czech Republic, Hungary, and Poland. Limited fellowship aid is available for these programs.

Students in University of Oregon overseas study programs enroll in courses with subject codes that are unique to individual programs.

Special course numbers are reserved for overseas study. See International Affairs in the **Academic Resources** section of this catalog. Students interested in study in the Commonwealth of Independent States or in Eastern Europe should write or call the Overseas Program Coordinator, Office of International Affairs, 5209 University of Oregon, Eugene, Oregon 97403-5209; 541-346-3206.

Students may also wish to study Russian domestically at Middlebury College or the University of California, Los Angeles. Students with advanced proficiency are encouraged to apply for relevant internships and career development opportunities, such as working at *Lesnoe Ozero*, Concordia Language Villages' summer Russian immersion program for children ages 7-18

### Cultural Programs

The program sponsors lectures, panel discussions, symposiums, films, plays, exhibitions, concerts, and festivals. These presentations involve scholars from other institutions in the United States and Europe as well as specialists at the university. In addition, the program faculty engages in outreach activities with local schools, community groups, and other organizations. Students in the program typically run a REEES club, focusing on cultural activities and the practice of Russian language skills.

### Visiting Faculty Members

The program sponsors extended stays by visiting Fulbright and International Research and Exchange Board scholars from Russia and Eastern Europe.

### Resources

The University of Oregon's library has more than 130,000 volumes in Russian and other Slavic and East European languages, more than 60,000 on Russia and Eastern Europe in Western languages; and subscribes to more than 100 serial titles. The library also has a large collection of Russian and East European films. The bulk of the collection is in the humanities and social sciences.

Facilities at the well-known Yamada Language Center enhance the learning of Slavic and East European languages. For more information, visit the website (<https://babel.uoregon.edu/>).

## Faculty

Heghine Hakobyan, instructor (Slavic librarian). BA, 1983, Kurgan College of Culture and Enlightenment; MA, 1988, Tyuman State; MLIS, 2003, City University of New York, Queens College. (2007)

Katya E. Hokanson, associate professor (Russian literature, travel literature, cultural studies). B.A., 1984, Williams; M.A., 1988, Ph.D., 1994, Stanford. (1995)

Susanna Soojung Lim, associate professor (19th- and 20th-century Russian literature). BA, 1996, MA, 1998, Korea; MA, 1999, PhD, 2006, California, Los Angeles. (2007)

Julia Nemirovskaya, senior instructor (Russian literature and theater). MA, 1986, PhD, 1991, Moscow State. (2002)

Jenifer Presto, associate professor (Russian literature, modernism, environmental criticism). A.B., 1985, Smith; M.A., 1988, Middlebury; M.A., 1989, Ph.D., 1996, Wisconsin, Madison. (2003)

Lara Ravitch, Senior Instructor (Russian language). B.A., 1998, Connecticut College; M.A., 2002, Monterey (Middlebury) Institute of International Studies. (2012)

*The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.*

## Participating

Roy Bing Chan, East Asian languages and literatures (Chinese literature)

Julie Hessler, history (20th-century Russia, Europe)

Ryan Tucker Jones, history (Russian and environmental history)

Mikhail Myagkov, political science (comparative politics, formal political theory)

Steven Shankman, English (comparative literature, Russian novel)

## Courtesy

Amanda Bird, courtesy instructor (folklore, translation, Persian literature). BA, 1994, Baylor; MA, 2006, Oregon. (2013)

Alexander Kashirin, courtesy professor. BA, 2002, Eastern New Mexico University; MA, 2005, Oregon; Ph.D., 2010, Oregon. (2003)

Tamara Morris, courtesy professor (Russian language, culture of "Old Believers"). Baccalaureate, D. Banzarov; MA, 1984, Krasnoyarsky State Pedagogical Institute; PhD, 1986, Institute of Russian Language. (2013)

## Emeriti

Esther Jacobson-Tepfer, history of art and architecture

R. Alan Kimball, history (modern Russia)

Yelaina Kripkov, Russian Language

Stephen J. Shoemaker, religious studies (history of Eastern Christianity)

Carol T. Silverman, anthropology (performance, eastern Europe, gender)

Sherwin Simmons, history of art and architecture

Ronald Wixman, geography

Cynthia Vakareliyska, linguistics

## Associated

John E. Bonine, law

Lisa Wolverton, history

### Minor

- Russian, East European, and Eurasian Studies (p. 186)

Graduate Programs

Major - Master's Degree

- Russian, East European, and Eurasian Studies (MA) (p. 187)

Certificate

- Russian, East European, and Eurasian Studies (p. 187)

Russian, East European, and Eurasian Studies (BA)

The Russian, East European, and Eurasian Studies Program is devoted to the study of the peoples living in the eastern third of Europe, throughout the northern steppes of Central Asia, and across Siberia to the Pacific Ocean. Settled over a territory that spans half the earth's time zones, these peoples have created a complex mosaic of cultures, expressed in literature and art as well as in institutions and social forms. Over the centuries, these lands have come under the sway of several great world-historical civilizations and empires: the Byzantine, Mongolian, Ottoman Turkish, Holy Roman, Austro-Hungarian, Russian, and Soviet. These lands have felt the influence of Orthodox Christianity, Catholicism, Protestantism, Judaism, Islam, Buddhism and Communism. At the intersection of many powerful forces, these lands experience the historical drama of what some call "modernization" with its challenge to customary ways of life. Yet, after centuries of massive transplantation and transformation, national and ethnic heritages survive. Customary ways and native self-consciousness, more diverse than anywhere else on the globe, express themselves with new vigor.

Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Humanities Track: Be proficient in reading, writing, and speaking Russian (or other language of the region) consistent with completion of at least a third-year level (from novice high to intermediate high).
- Humanities Track: Have a broad general understanding of the region of Russia, Eastern Europe, and Eurasia including its history and culture, and ability to communicate about that culture in both Russian (or other language of the region) and English. Knowledge of major historical figures, writers and other cultural figures of the region and ability to evaluate and discuss them/their work.
- Humanities Track: Identify, describe and explain materials, terminologies, and methodologies in literature, film and media of the region.
- Social Science Track: Be proficient in reading, writing, and speaking Russian consistent with completion of at least a third-year level (from novice high to intermediate high).
- Social Science Track: Have a broad general understanding of the region of Russia, Eastern Europe, and Eurasia including its history and culture, and ability to communicate about that culture in both Russian (or other language of the region) and English. Knowledge of major historical figures, writers and other cultural figures of the region and ability to evaluate and discuss them/their work.
- Social Science Track: Identify, describe and explain important movements, terminologies, and methodologies in history, politics and religion of the region.

Fields of Concentration

The program offers the following concentrations for the undergraduate major and minor:

- Russian language, literature, and culture (humanities emphasis/field of concentration)
- Russian and East European history, politics, and society (social science emphasis/field of concentration)

Courses with these focus areas are offered by the program and such participating departments as anthropology, geography, history, political science, and sociology. Any course taken that includes instruction on one of these focus areas and has at least 40 percent Russian, East European, former Soviet Eurasian, or Slavic content, including independent research undertaken by the student, may be applied to the field of concentration requirement with administrative approval. Students may petition to the REEES Director of Undergraduate Studies to have courses taken in other disciplines count toward the concentration or elective requirement if the content of these courses meets the 40 percent standard. This applies to regularly scheduled courses and to independent reading and conference courses.

Students can view sample programs of study in the various concentrations on the program website.

Major Requirements

The major requires 36 graded credits; courses must be passed with grades of C– or better. Credits used to fulfill the language requirement may not be applied to the 36-credit requirement.

Bachelor of Arts Degree Requirements

| Code                                                                        | Title                            | Credits |
|-----------------------------------------------------------------------------|----------------------------------|---------|
| Language Courses                                                            |                                  |         |
| RUSS 101–103                                                                | First-Year Russian <sup>1</sup>  | 15      |
| RUSS 201–203                                                                | Second-Year Russian <sup>1</sup> | 15      |
| RUSS 316–318                                                                | Third-Year Russian <sup>1</sup>  | 15      |
| Field of Concentration Courses                                              |                                  | 20      |
| At least four upper-division courses in a chosen concentration <sup>2</sup> |                                  |         |
| Elective Courses <sup>3</sup>                                               |                                  | 16      |
| Total Credits                                                               |                                  | 36      |

<sup>1</sup> Three years of college-level Slavic language study is usually fulfilled by taking Russian language courses. Students may petition to substitute one year of a second Slavic language for one year of the primary Slavic language. The language option is chosen in consultation with program advisors.

<sup>2</sup> Two courses must be at the 400 level.

<sup>3</sup> At least two 4-credit courses should be outside of the field of concentration.

Honors in Russian, East European, and Eurasian Studies

Majors who have an overall GPA of 3.50 by the end of the junior year and who are interested in honors should meet with the REEES Director of Undergraduate Studies, then submit a thesis proposal to the program's director for approval. If approved, the student registers for a minimum of 4 credits in Thesis (403) under the supervision of a program faculty

member. The thesis must be completed at least one term before the term of graduation.

## Four-Year Degree Plan

The degree plan shown is only a sample of how students may complete their degrees in four years (Below is a sample for a Russian, East European, and Eurasian studies major with a concentration in Russian language, literature, and culture). There are alternative ways. Students should consult their advisor to determine the best path for them.

## Russian, East European, and Eurasian Studies Minor

Students interact with native Russian speakers, perform in bilingual plays, and learn about the unique political foundations of the Russian Federation. REEES covers a wide array of subjects, allowing you to choose an emphasis in humanities or social science. Whether your interests in Russia, Eastern Europe, or Eurasia have roots in the literature of Dostoevsky and Pushkin or stem from a fascination with Russian zombie cinema, there is a place for you in REEES.

### Minor Requirements

The minor requires 24 graded credits; courses must be passed with a grade of C– or better. Courses taken to fulfill the language requirement may not be used to fulfill the 24-credit requirement.

**Code Title Credits**

#### Language Courses

RUSS 101–103 First-Year Russian <sup>1</sup> 15

RUSS 201–203 Second-Year Russian <sup>1</sup> 15

RUSS 316–318 Third-Year Russian <sup>1</sup> 15

**Field of Concentration Courses 12**

Three upper-division courses in a chosen concentration <sup>2</sup>

**Elective Courses 12**

**Total Credits 24**

<sup>1</sup> Three years of college-level Slavic language study is usually fulfilled by taking Russian language courses. Students may petition to substitute one year of a second Slavic language for one year of the primary Slavic language. The language option is chosen in consultation with program advisors.

<sup>2</sup> One course in the field of concentration must be at the 400 level.

### Additional Requirements

There is no limit on the number of language courses taken at other universities, including courses taken abroad, that may be used to satisfy the language requirement for the major or minor, subject to an equivalency assessment by the Russian language coordinator. With respect to concentration and elective requirements, undergraduate majors may apply as many as 16 transfer credits to the major, but no more than 8 of these credits can be applied to the field of concentration.

Undergraduate minors may apply up to 8 transfer credits to the minor, but no more than 4 of them can be applied to the field of concentration.

## Russian, East European, and Eurasian Studies (MA)

The Russian, East European, and Eurasian Studies Program is devoted to the study of the peoples living in the eastern third of Europe, throughout the northern steppes of Central Asia, and across Siberia to the Pacific Ocean.

Settled over a territory that spans half the earth's time zones, these peoples have created a complex mosaic of cultures, expressed in literature and art as well as in institutions and social forms.

Over the centuries, these lands have come under the sway of several great world-historical civilizations and empires:

- Byzantine
- Mongolian
- Ottoman Turkish
- Holy Roman
- Austro-Hungarian
- Russian
- Soviet

These lands have felt the influence of Orthodox Christianity, Catholicism, Protestantism, Judaism, Islam, and Communism.

At the intersection of many powerful forces, these lands experience the historical drama of what some call "modernization" with its challenge to customary ways of life. Yet, after centuries of massive transplantation and transformation, national and ethnic heritages survive.

Customary ways and native self-consciousness, more diverse than anywhere else on the globe, express themselves with new vigor.

The program offers an MA in Russian, East European, and Eurasian studies. The center is affiliated with the master's and PhD programs in comparative literature and linguistics, and students in the center have also successfully applied to PhD programs in history, geography, and other fields.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Be proficient in reading, writing, and speaking Russian consistent with completion of at least the fourth-year level.
- Translate specialized texts from the field of concentration into good professional English.
- Have a broad general understanding of the region of Russian, Eastern Europe, and Eurasia including its history and culture.
- Have in-depth competency in the field of concentration, its methodology, and foundational scholarship.
- Produce an extended piece of scholarship that is based on relevant primary and secondary materials and that makes a contribution to the field of study.

A written comprehensive examination on the field of concentration is typically taken the term prior to submission of the thesis. The thesis is

defended before the candidate's committee. The defense may include discussion of the comprehensive exam.

## Master of Arts Degree Requirements

The MA in Russian, East European, and Eurasian studies requires 40 graded graduate-level credits passed with a grade of B– or better and 9 thesis credits (taken pass/no pass), for a total of 49 graduate credits. Credits used to fulfill the language requirement may not be applied to the 49-credit requirement. The MA typically takes two years (six terms) to complete.

| Code                                                                                                                                                                             | Title  | Credits |

| or RUSS 503                                                                                                                                                                      | Thesis |         |
| Elective Courses                                                                                                                                                                 |        |         |
| Six graded graduate-level courses <sup>2</sup>                                                                                                                                   |        | 24      |
| Total Credits                                                                                                                                                                    |        | 49      |

<sup>1</sup> In exceptional cases, a student may petition to substitute one year of a second Slavic language or equivalent mastery for one of the years of the primary language, but must pass the reading exam. Native speakers of a Slavic language may petition to substitute an appropriate alternative measure of English competency to the translation exam.

<sup>2</sup> Two courses may be in the field of concentration. The electives must include courses in at least two fields outside the student's concentration.

## Additional Requirements

A written comprehensive examination on the field of concentration is typically taken the term prior to submission of the thesis. The thesis is defended before the candidate's committee. The defense may include discussion of the comprehensive exam.

## Fields of Concentration

- Russian literature
- Russian and East European history
- Contemporary Russia, East Europe, and Eurasia

## Russian, East European, and Eurasian Studies Graduate Certificate

The Russian, East European, and Eurasian Studies Program is devoted to the study of the peoples living in the eastern third of Europe, throughout the northern steppes of Central Asia, and across Siberia to the Pacific Ocean.

Settled over a territory that spans half the earth’s time zones, these peoples have created a complex mosaic of cultures, expressed in literature and art as well as in institutions and social forms.

Over the centuries, these lands have come under the sway of several great world-historical civilizations and empires:

- Byzantine
- Mongolian
- Ottoman Turkish
- Holy Roman
- Austro-Hungarian
- Russian
- Soviet

These lands have felt the influence of Orthodox Christianity, Catholicism, Protestantism, Judaism, Islam, and Communism.

At the intersection of many powerful forces, these lands experience the historical drama of what some call "modernization" with its challenge to customary ways of life. Yet, after centuries of massive transplantation and transformation, national and ethnic heritages survive.

Customary ways and native self-consciousness, more diverse than anywhere else on the globe, express themselves with new vigor.

The program offers a graduate certificate in Russian, East European, and Eurasian studies. The center is affiliated with the master’s and PhD programs in comparative literature and linguistics, and students in the center have also successfully applied to PhD programs in history, geography, and other fields.

Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Be proficient in reading, writing, and speaking Russian consistent with completion of at least the fourth-year level.
- Translate specialized texts from the field of concentration into good professional English.
- Have a broad general understanding of the region of Russian, Eastern Europe, and Eurasia including its history and culture.
- Complete a significant (e.g. 25-page) research paper written in conjunction with a course, or written as part of an individualized reading course.

Graduate Certificate

The graduate certificate in Russian, East European, and Eurasian studies requires 32 graded graduate-level credits; courses must be passed with grades of B– or better. Credits used to fulfill the language requirement may not be applied to the 32-credit requirement.

| Code                                                 | Title                                                               | Credits |
|------------------------------------------------------|---------------------------------------------------------------------|---------|

| Select one of the following:                         |                                                                     |         |
|                                                      | Four years of college study or equivalent in one Slavic language    |         |
|                                                      | Total of four years of college study in two languages of the region |         |
| Field of Concentration Courses                       |                                                                     |         |
| Three graduate-level courses in chosen concentration |                                                                     | 12      |

|                                          |    |
|------------------------------------------|----|
| Elective Courses                         |    |
| Four graduate-level courses <sup>1</sup> | 16 |
| Total Credits                            | 28 |

<sup>1</sup> One elective may be in the field of concentration.

Additional Requirements

A research paper written in conjunction with a course or as a separate reading course in the field of concentration.

Fields of Concentration

- Russian literature
- Russian and East European history
- Contemporary Russia, East Europe, and Eurasia

The certificate may be earned in conjunction with any MA or PhD degree. Courses taken to fulfill the graduate degree may also be used to fulfill certificate requirements. Master’s candidates in the program may earn the graduate certificate if the field of concentration chosen for the certificate is not the same as the one for the master’s degree.

Theatre Arts

**Dorothee Ostmeier, Department Head**  
541-346-4145  
541-346-1978 fax  
216 Villard Hall  
1231 University of Oregon  
Eugene, Oregon 97403-1231  
ostmeier@uoregon.edu

The Department of Theater Arts offers major curricula leading to the Bachelor of Arts (BA), Bachelor of Science (BS), Master of Arts (MA), Master of Fine arts (MFA) with a specialization in design and technology, and Doctor of Philosophy (PhD) degrees. The Master of Science (MS) degree program is currently inactive.

Courses in Theater Arts are available for all students who want to develop their communication skills, explore lighting, scenic design and costume technology, practice leadership in collaborative teamwork, or study diverse Histories of Theater (including Middle Eastern American and Arab American Theater, Native and Latinx Theatre, Eco Dramaturgy, Ethnic and Communal Engagements). Students can also gain practical theater experience through involvement with our University Theater productions as actors, designers, technicians, dramaturgs and stage managers.

The Department offers a cross-disciplinary and liberal-arts education. Upper division courses provide vocational competence in many aspects of commercial theater. Students seek careers in professional, educational, and community theaters as designers, actors, technicians, stage managers, or theater managers, or continue specialized training in MFA degree programs or non-degree professional training schools. Other students use the Theater Arts’ background to pursue vocational opportunities that require advanced skills in communication and organization.

At the graduate level, the department offers intensive study and practical work toward the MFA degree focus areas of costume design, scenic design, lighting design, and technical theater, with opportunities to also emphasize projection design, sound design, or both. The MFA also provides training and experience in teaching theatre. The MA and PhD

programs offer an in-depth study of theater and performance through contemporary critical and cultural theories as well as historiography and performance praxis.

## Theaters

The James F. Miller Theatre Complex includes the renovated Robinson Theatre, a proscenium theater seating 300, and the Hope Theatre, a flexible venue that can seat 100–150. The complex includes a large lobby and costume and scene shops. The Pocket Playhouse, in Villard Hall, is a small proscenium stage and seats 75 people.

## Technical Facilities

The scene shop is well equipped with power tools for wood and metal fabrication. Lighting equipment includes computerized controls and up-to-date instruments. The costume shop has power sewing and serging machines and a laundry and crafts area. Students are encouraged to sign up for production workshop classes or to practice their crafts as volunteers. Those who qualify for work-study financial aid are hired to assist in the shops. The shops are open every day.

## Pocket Playhouse

Pocket Playhouse is the site for a series of productions presented by an elected student board.

## University Theatre

The department's season is composed of productions in two venues: the Robinson Theatre and the Hope Theatre. Faculty members and graduate students direct and design as many as six shows a year. Auditions are open to UO students, and admission for UO students is free.

## Faculty

Bradley Branam, associate professor (technical direction, media design). BA, 2000, Luther College; MFA, 2009, Missouri, Kansas City. (2012)

Bair, Heather, instructor, (costume shop). BFA, 1995, Southwest Missouri State University; MFA, 1999 Temple University. (2021)

Jeanette De Jong, associate professor. BA, 1982, Puget Sound; MFA, 1984, Oregon. (2015)

Jerry Hooker, associate professor (scene designer). BA, 1978, Puget Sound; MFA, 1985, Utah State. (2001)

Theresa May, professor (acting, embodiment, Native American theater); director, graduate studies. BA, 1980, California, Irvine; MFA, 1983, Southern California; PhD, 2000, Washington (Seattle). (2007)

Michael Malek Najjar, associate professor (Arab American theater and performance, playwriting, performance theory). BA, 1993, New Mexico; MFA, 1999, York; PhD, 2011, California, Los Angeles. (2011)

Tricia Rodley, instructor (acting, voice and dialect) BA, 1992, Oregon; MA, 2005, Royal Central School of Speech and Drama (London); PhD, 2014, Oregon. (2015)

Janet Rose, senior instructor (technical director, lighting designer). BFA, 1977, Florida Atlantic; MFA, 1979, Ohio. (1987)

John Schmor, associate professor (theory, history, acting). BA, 1984, Willamette; MA, 1989, PhD, 1991, Oregon. (1999)

## Emeriti

Alexandra Bonds, professor emerita. BS, 1972, Syracuse; MA, 1974, Denver. (1979)

Robert Barton, professor emeritus. BA, 1967, Western Michigan; MA, 1968, PhD, 1977, Bowling Green State. (1980)

Jerry R. Williams, professor emeritus. BFA, 1964, Carnegie-Mellon; MA, 1965, Washington (Seattle). (1973)

*The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.*

- Theater Arts (MFA) (p. 193)

### Major - Doctoral Degree

- Theater Arts (PhD) (p. 194)

## Theater Arts (BA/BS)

The Department of Theatre Arts combines a broad liberal arts education with practical experience through University Theatre (<https://blogs.uoregon.edu/theatre/>) productions and studio coursework.

Create purposeful works of art and use your voice to change the world. With outstanding facilities, knowledgeable faculty members, and a supportive theatre community, the University of Oregon's Department of Theatre Arts provides everything you need to hone your craft and achieve your goals.

You'll be given the opportunity to write, direct, and manage your own performances through classes and the Pocket Playhouse, a fully operational theater for undergraduates. In addition, you'll study the history, literature, and cultural aspects of theater across the globe, providing you with a valuable liberal arts background. Learn practical skills such as playwriting, acting, wood construction, sewing, and stage management. Take risks and gain insight in a nurturing and engaging environment. An adventure awaits you, whether your focus is on acting, stage production, or designing dazzling costumes.

For its undergraduate major program, the Department of Theater Arts has three principal objectives:

1. The attainment, by all of its majors, of a broad liberal arts education
2. Sufficient instruction to provide an appreciation of the different areas of theater
3. Direct experience in several aspects of theater production

Students study acting, directing, design, costume, lighting, stagecraft, history, dramatic literature, and theory. Courses in these fields are available to both majors and nonmajors.

Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate knowledge, research, and analysis of theatre history, dramatic literature and critical theory across time and cultures, employing effective written and oral communication.
- Demonstrate the comprehension of form and content in theatre through production-related practice, applying skillsets of design, technology, management, and performance.
- Demonstrate personal theatrical aesthetic and artistic vision through script analysis and interpretation, integrating the visual and material/ physical in collaborative practice.
- Demonstrate understanding of degree requirements and production expectations for the major, and chart prospective internship and other educational or professional opportunities in current theatre and related fields during and especially after college.

Theater Arts Major Requirements

Grading Options

Some courses in theater arts are offered pass/no pass (P/N) only. Work counts toward fulfillment of the 180-credit requirement for a BA or BS only if satisfactorily completed.

Transfer Students

Transfer students must complete six 4-credit, upper-division courses and two of the production courses listed in the course list in residence at the University of Oregon.

Honors in Theater Arts

At the end of each academic year, the department's faculty selects certain graduating seniors and confers on them departmental honors. Criteria include academic performance as well as the quality of participation in the production program.

Four-Year Degree Plan

The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.

## Theater Arts Minor

The purpose of the Minor degree in Theatre is to expose the student to a variety of the disciplines within Theatre and to allow for some specialization.

### Theater Arts Minor Requirements

Coursework for the minor must be completed with letter grades of mid-C or better. At least 16 credits must be taken at the university. One course in each of the following areas must be included:

- literature and criticism
- performance
- technical theater
- theater history

| Code                 | Title                               | Credits   |
|----------------------|-------------------------------------|-----------|
|                      | Theater arts courses                | 8         |
|                      | Upper-division theater arts courses | 16        |
| <b>Total Credits</b> |                                     | <b>24</b> |

## Approved Courses

## Theater Arts (MA)

Each graduate student is expected to show ability in both academic and production areas. During residence at the university, a student is expected to make a significant contribution in three areas out of the following seven: acting, directing, technical theater, management, playwriting, teaching, and design.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate mastery of subject content through course work.
- Demonstrate effective oral and written communication skills.
- Acquire research skills necessary to carry out a significant independent research project (i.e. an M.A. Thesis as described in the Graduate Handbook).
- Demonstrate pedagogic ability in teaching undergraduates.
- Complete requirements for foreign language proficiency (equivalent to completion of two years of college-level foreign language study in one foreign language).

## Master of Arts in Theater Arts

| Code                 | Title                                               | Credits   |
|----------------------|-----------------------------------------------------|-----------|
|                      | Graduate credits in graded theater arts course work | 28        |
| TA 503               | Thesis                                              | 12        |
| TA 607               | Seminar: [Topic] <sup>1</sup>                       | 16        |
| <b>Total Credits</b> |                                                     | <b>56</b> |

<sup>1</sup> Course topic changes every term. The master of arts requires at least 16 credits (four seminars). The student may also take approved 600-level course work.

## Additional Requirements

- A minimum grade point average of 3.00
- Language proficiency (course work or examination)
- Completion of approved thesis
- Faculty-guided artistic production in design, acting, directing, technical production, dramaturgy, and playwriting

## Theater Arts (MFA)

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate mastery of subject content and technical skills through course work.
- Demonstrate effective artistic, oral, and written communication skills.
- Demonstrate pedagogic ability in teaching and/or supervising undergraduates.
- Develop technical and artistic skills necessary to carry out and report on a significant "Final Project" (as outlined in the Graduate Handbook).

## Master of Fine Arts Degree Requirements

The following are minimum requirements, all of which must be taken for a letter grade with the exception of Research: [Topic] (TA 601) and Terminal Project (TA 609).

| Code                                                                        | Title                         | Credits   |
|-----------------------------------------------------------------------------|-------------------------------|-----------|
| TA 601                                                                      | Research: [Topic]             | 4         |

<sup>1</sup> Course topics change every term. The MFA requires at least 8 credits. Students may also take approved and graded 600-level course work.

- <sup>2</sup> Must include at least one course each in lighting, scenery, and costumes.
- <sup>3</sup> With advisor approval, undergraduate courses at the 300 level may apply.

### Additional Requirements

- A minimum grade point average of 3.00
- Completion and approval of a final project and written document

The master of fine arts degree does **not** require proficiency in a second language. Coursework is substantially completed during the first years; the MFA program typically takes three years to complete.

## Theater Arts (PhD)

### Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate mastery of subject content knowledge through course work.
- Demonstrate effective oral and written communication skills.
- Demonstrate acquisition of Secondary Expertise consistent with guidelines stated in the Graduate Handbook.
- Demonstrate skills necessary to participate in at least one University Theatre production through faculty-guided artistic contributions, including (but not limited to): directing, assistant directing, acting, dramaturgy, or playwriting.
- Develop research skills necessary to carry out a significant independent research project (i.e. the Ph.D. Dissertation).
- Demonstrate pedagogic ability in teaching undergraduates.
- Complete requirements for foreign language proficiency (equivalent to completion of two years of college-level foreign language study in one foreign language).

The PhD in theater arts requires nine courses in the first year and seven courses in the second year, which may include as much as 6 credits of independent reading toward the qualifying examinations in winter or spring terms of the second year. Students seeking the PhD must have demonstrated proficiency in a foreign language, either from two years of successful college course work or by passing a basic translation-comprehension exam, such as the College-Level Examination Program (CLEP) test.

Following completion of course work, students wishing to pass to doctoral candidacy must pass qualifying examinations. Within one month after advancement to doctoral candidacy, students must deliver a dissertation prospectus for committee approval. Candidacy may be granted only after an approved dissertation prospectus. The degree is granted only with successful completion and full approval of a dissertation under Division of Graduate Studies rules and deadlines.

### Requirements Summary

- A minimum of 20 graded credits in 600-level graduate seminars
- At least 12 graded credits (or three 500- to 600-level courses) in a related field outside of theater arts
- Proof of reading comprehension in a foreign language (transcript credits or examination)

- Involvement in a faculty-guided artistic production in design, acting, directing, technical production, dramaturgy, and playwriting
- Qualifying examinations, oral defense, and approved prospectus
- At least 18 credits of Dissertation (TA 603)
- Completion of dissertation and approval of oral defense

## Natural Sciences

Our science departments are committed to creating and disseminating new knowledge in their fields by combining research and teaching. Our 200 faculty members — including fellows of many learned societies and academies — are engaged in research that spans a broad range, from questions about the foundations of quantum mechanics, to the development of cancer cells and the workings of the brain, to work resulting in the spin-off of high-technology companies. Faculty share their excitement about their research with their students, training them to become part of the next generation of scientists who will push the frontiers of human knowledge.

## Biology

### Bruce A. Bowerman, Department Head

77 Klamath Hall  
1210 University of Oregon  
Eugene, Oregon 97403-1210  
541-346-4502

Biologists investigate a broad spectrum of questions about living organisms and life processes—the physical and chemical bases of life, how organisms and their component parts are structured, how they function, how they interact with their environment, and how they have evolved.

Departmental teaching and research emphases in cellular and molecular biology, developmental biology, ecology and evolution, human biology, marine biology, neuroscience and behavior, and bioinformatics offer students opportunities to learn and work with scientists who are making important contributions to knowledge in these areas.

## Faculty

Matthew F. Barber, associate professor (evolutionary genetics, host-microbe interactions, and biochemistry). BA, 2006, Colgate; PhD, 2012, Stanford. (2016)

Nicola C. Barber, senior instructor (molecular biology, science education). BA, 2006, Colgate; PhD, 2011, California, Berkeley. (2016)

Brendan J. M. Bohannon, Alec and Kay Keith Professor (microbial ecology and evolution). BS, 1991, Humboldt State; PhD, 1997, Michigan State. (2006)

Bruce A. Bowerman, professor (developmental genetics, regulation of the cytoskeleton in *C. elegans*). BA, 1981, Kansas State; PhD, 1989, California, San Francisco. (1992)

William E. Bradshaw, professor (evolutionary genetics, population biology, evolutionary physiology). BA, 1964, Princeton; MS, 1965, PhD, 1969, Michigan. (1971)

Mark C. Carrier, senior instructor (developmental biology and physiology). BS, BA, 1987, Massachusetts; MS, 1998, California, Berkeley. (2000)

Amy A. Connolly, instructor (genetics, cell biology, cell division). BS, 2008, Kansas; PhD, 2014, Oregon. (2018)

William A. Cresko, professor (evolutionary developmental genetics). BA, 1992, Pennsylvania; PhD, 2000, Clark. (2005)

Jeffrey M. Diez, associate professor (community ecology, phenology, climate change ecology). BA, MA, 1998, University of Pennsylvania; PhD, 2005, University of Georgia. (2020)

Chris Q. Doe, professor (development of the nervous system, neural stem cells, asymmetric cell division). BA, 1981, New College, Sarasota; PhD, 1987, Stanford. (1998)

Judith S. Eisen, professor (development and function of the nervous system). BS, 1973, MS, 1977, Utah State; PhD, 1982, Brandeis. (1985)

Richard B. Emlet, professor (evolution and development of marine invertebrates). BS, 1977, Duke; PhD, 1985, Washington (Seattle). (1992)

Aaron W. E. Galloway, associate professor (marine trophic ecology, fatty acids). BA, 1999, Evergreen State College; MS, 2004, Central Washington; PhD, 2013, Washington (Seattle). (2015)

David M. Garcia, assistant professor (molecular biology and epigenetics, prions that regulate RNA). BS, 2004, California, Santa Cruz; PhD, 2012, Massachusetts Institute of Technology. (2018)

Daniel T. Grimes, assistant professor (developmental biology, zebrafish genetics, human disease models). MBiochem, 2008, DPhil, 2013, Oxford. (2019)

Lauren M. Hallett, associate professor (plant community ecology, restoration ecology). BS, 2008, Yale; MSc, 2010, Western Australia; PhD, 2015, California, Berkeley. (2017)

Victoria Herman, associate professor (development and function of nervous system in *Drosophila*). BA, 1989, Harvard-Radcliffe; PhD, 1998, Massachusetts Institute of Technology. (2003)

Cristin L. Hulslander, senior instructor (behavioral ecology). BA, 1992, Bryn Mawr; PhD, 2003, Clark. (2003)

Santiago Jaramillo, associate professor (neuronal circuits underlying behavioral flexibility). BS, 1998, Universidad Pontificia Bolivariana; MS, 2002, New Mexico; PhD, 2007, National University of Ireland. (2013)

Eric A. Johnson, associate professor (*Drosophila* genetics, genomics and cellular physiology). BA, 1990, Grinnell; PhD, 1996, Iowa. (2001)

Andrew D. Kern, associate professor (population genetics, computational biology). ScB, 1999, Brown; PhD, 2005, California, Davis. (2017)

Diana E. Libuda, associate professor (molecular genetics, DNA repair, chromosome dynamics during meiosis). BS, 2003, California, Los Angeles; PhD, 2008, Harvard. (2014)

Shawn R. Lockery, professor (invertebrate neurobiology and neural networks). BA, 1981, Yale; PhD, 1989, California, San Diego. (1993)

V. Pateson Lombardi, senior instructor with title of research assistant professor (human biology, medical physiology); director, undergraduate advising. BA, 1977, MAT, 1979, North Carolina, Chapel Hill; PhD, 1984, Oregon. (1984)

Stilianos Louca, assistant professor (microbial ecology and evolution, bioinformatics, mathematical modeling). BSc, 2010, Diplom, 2012, Friedrich Schiller; PhD, 2016, British Columbia. (2019)

Svetlana Maslakova, associate professor (evolution, development and systematics of marine invertebrates). BA, 1998, MS, 1999, Moscow State; PhD, 2005, George Washington. (2008)

Luca Mazzucato, assistant professor (neural basis sensory perception, neurostatistical analysis). MSci, 2002, Padua; PhD, 2005, Scuola Internazionale Superiore di Studi Avanzati. (2017)

David A. McCormick, professor (cellular mechanisms of cortical function); Presidential Chair. BA, BS, 1979, Purdue; PhD, 1983, Stanford. (2017)

Krista McGuire, associate professor (microbial ecology). BS, 2000, Muhlenberg College; PhD, 2007, Michigan, Ann Arbor. (2017)

Adam C. Miller, associate professor (neural circuit formation and function). BS, 2001, PhD, 2008, Oregon. (2016)

James M. Murray, assistant professor (theoretical neuroscience, learning in neural circuits). BS, 2006, Montana State University; PhD, 2013, Johns Hopkins University. (2020)

Cristopher M. Niell, associate professor (development and function of neural circuits for visual processing). BS, 1995, PhD, 2004, Stanford. (2011)

Ken-ichi Noma, professor (3D genome organization in yeast and human systems). BS, 1995, Nagaoka University; PhD, 2000, University of Tokyo. (2018)

Laurel E. Pfeifer-Meister, senior instructor (ecology, climate change, biodiversity). BA, BS, 2000, Westmont College; PhD, 2008, Oregon. (2016)

Patrick C. Phillips, professor (evolution, genetics, complex traits). BA, 1986, Reed; PhD, 1991, Chicago. (2000)

Tobias J. Policha, senior instructor (plant community ecology, pollination, tropical orchid conservation). BS, 2007, MS, 2011, PhD, 2014, Oregon. (2017)

Lauren C. Ponisio, assistant professor (community ecology, species interactions, data science). BS, 2010, Stanford University; MS, 2011, Stanford University; PhD, 2017, UC Berkeley (2020)

Jana Prikryl, senior instructor (molecular genetics). BS, 1999, Colorado, Boulder; PhD, 2009, Oregon. (2010)

Peter L. Ralph, associate professor (evolution and population genetics, data analysis, stochastic processes). AB, 2002, PhD, 2009, California, Berkeley. (2016)

Eric Selker, professor (epigenetic mechanisms). BA, 1975, Reed; PhD, 1980, Stanford. (1985)

Lucas Silva, associate professor (terrestrial ecology, biogeochemistry, biogeography) BS 2005, Forest Engineering, University of Brasilia; MS 2007, Ecosystem Ecology, University of Miami/University of Brasilia; PhD, 2011, Environmental Biology, University of Guelph (2016)

Nadia D. Singh, associate professor (evolutionary genetics, genomics). BA, 1999, Harvard; PhD, 2006, Stanford. (2016)

Kryn Stankunas, associate professor (chromatin and regulators as dynamic sources of epigenetic information during heart development). BS, 1997, British Columbia; PhD, 2003, Stanford. (2009)

Matthew A. Streisfeld, associate professor (adaptation in natural plant populations). BS, 1998, Emory; PhD, 2005, California, San Diego. (2009)

Kelly Sutherland, associate professor (marine biology). BS, 1999, Tufts; MSc, 2004, South Alabama; PhD, 2009, Massachusetts Institute of Technology. (2011)

Emily L. Sylwestrak, assistant professor (neural circuits of behavior, motivation, synaptic physiology). BS, 2006, Illinois Urbana-Champaign; PhD, 2011, California, San Diego. (2019)

George R. von Dassow, associate professor (cell biology of development). PhD, 2000, Washington (Seattle). (2014)

Philip E. Washbourne, associate professor (molecular neurobiology, synapse formation). BS, 1995, Imperial College; PhD, 2000, Padua. (2004)

Maya W. Watts, instructor/education coordinator (invertebrate zoology, parasitology). BS, 2004, College of Charleston; PhD, 2010, University of Oregon. (2018)

Monte Westerfield, professor (molecular genetics of nervous system development). AB, 1973, Princeton; PhD, 1977, Duke. (1981)

A. Michelle Wood, professor (microbial ecology and evolution, biological oceanography). BA, 1973, Corpus Christi; PhD, 1980, Georgia. (1990)

Craig M. Young, professor (marine ecology, deep-sea biology, invertebrate embryology); director, Oregon Institute of Marine Biology. BS, 1975, MS, 1978, Brigham Young. PhD, 1982, Alberta. (2002)

Anne Zemper, assistant professor (intestinal stem cell biology, adult homeostasis disease states). BA, 2003, Concordia; PhD, 2010, Oregon Health and Science. (2014)

## Courtesy

Steven S. Rumrill, courtesy research associate (estuarine ecology and management, larval biology of marine invertebrates). BA, 1981, MS, 1983, California, Santa Cruz; PhD, 1987, Alberta. (1991)

Carl A. Stiefbold, courtesy senior instructor (science laboratory education). BS, 1971, Portland State. (1987)

David H. Wagner, courtesy associate professor (plant taxonomy, ecology, evolution of bryophytes and pteridophytes). BA, 1968, Puget Sound; MS, 1974, PhD, 1976, Washington State. (1976)

## Emeriti

Andrew S. Bajer, professor emeritus. PhD, 1950, DSc, 1956, Cracow. (1964)

Alice Barkan, professor emerita (molecular genetics). BS, 1978, Massachusetts Institute of Technology; PhD, 1983, Wisconsin, Madison. (1991)

Howard T. Bonnett Jr., professor emeritus. BA, 1958, Amherst; PhD, 1964, Harvard. (1965)

Scott D. Bridgman, professor emeritus (ecosystem ecology, plant community dynamics). BA, 1980, BA, 1982, Maine; MS, 1986, Minnesota; PhD, 1991, Duke. (2002)

Roderick A. Capaldi, professor emeritus. BS, 1967, London; PhD, 1970, York. (1973)

George C. Carroll, professor emeritus. BA, 1962, Swarthmore; PhD, 1966, Texas. (1967)

John S. Conery, professor emeritus. BA, 1976, California, San Diego; PhD, 1983, California, Irvine. (1983)

David. O. Conover, professor emeritus (fisheries science, marine ecology, evolutionary biology). BS, 1975, Eckerd College; MS, 1979, PhD, 1981, University of Massachusetts, Amherst. (2016)

Alan Dickman, professor emeritus. BA, 1976, California, Santa Cruz; PhD, 1984, Oregon. (1986)

Janet Hodder, senior lecturer (ecology of marine birds and mammals, science education). BS, 1977, Liverpool; PhD, 1986, Oregon. (1986)

Charles B. Kimmel, professor emeritus. BA, 1962, Swarthmore; PhD, 1966, Johns Hopkins. (1969)

John H. Postlethwait, professor emeritus. BS, 1966, Purdue; PhD, 1970, Case Western Reserve. (1971)

William Roberts, professor emeritus. BA, 1970, Harvard; PhD, 1979, California, San Diego. (1989)

Bitty A. Roy, professor emerita. BS, 1982, Evergreen State; MS, 1985, Southern Illinois; PhD 1992, Claremont Graduate School. (2001)

Paul P. Rudy, professor emeritus. BA, 1955, MA, 1959, PhD, 1966, California, Davis. (1968)

Eric Schabtach, senior instructor emeritus. BS, 1963, McGill. (1969)

Alan Shanks, professor emeritus (marine and intertidal ecology, larval biology, zooplankton). BA, 1977, California, Santa Cruz; PhD, 1985, California, San Diego. (1993)

Lynda P. Shapiro, professor emerita. BA, 1960, MS, 1963, Arkansas; PhD, 1974, Duke. (1990)

George F. Sprague Jr., professor emeritus. BS, 1969, North Carolina State; PhD, 1977, Yale. (1981)

Karen U. Sprague, professor emerita. BA, 1964, Bryn Mawr; PhD, 1970, Yale. (1977)

Franklin W. Stahl, professor emeritus. AB, 1951, Harvard; PhD, 1956, Rochester. (1959)

Terry Takahashi, professor (analysis of neural circuitry). BS, 1975, California, Irvine; PhD, 1981, State University of New York, Downstate Medical Center. (1988)

Nora B. Terwilliger, professor emerita. BS, 1963, Vermont; MS, 1965, Wisconsin, Madison; PhD, 1981, Oregon. (1972)

Nathan J. Tublitz, professor emeritus (peptidergic regulation of behavior in insects and cephalopod mollusks). BA, 1975, Reed; PhD, 1984, Washington (Seattle). (1986)

Daniel Udovic, professor emeritus. BA, 1970, Texas; PhD, 1973, Cornell. (1973)

Janis C. Weeks, professor emerita. BS, 1975, Massachusetts Institute of Technology; PhD, 1980, California, San Diego. (1989)

Norman K. Wessells, professor emeritus; provost emeritus, academic affairs. BS, 1954, PhD, 1960, Yale. (1988)

James A. Weston, professor emeritus. BA, 1958, Cornell; PhD, 1963, Yale. (1970)

Peter B. Wetherwax, senior instructor emeritus with title of research assistant professor (pollination ecology, tropical ecology, science education). BA, 1980, California, Los Angeles; MA, 1985, Humboldt State; PhD, 1993, Oregon State. (1991)

Herbert P. Wisner, senior instructor emeritus. BA, 1949, MA, 1950, Syracuse. (1966)

*The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.*

## Undergraduate Programs

### Majors - Bachelor's Degree

- Biology (BA/BS) (p. 197)
- Marine Biology (BA/BS) (p. 201)

### Minor

- Biology (p. 206)

## Graduate Programs

### Major - Master's Degree

- Biology (MS) (p. 206)

### Major - Doctoral Degree

- Biology (PhD) (p. 207)

## Biology (BA/BS)

Thank you sincerely for your interest in studying Biology at the University of Oregon, a member of the Association of American Universities, that includes 65 Universities (63 in the US and 2 in Canada) recognized throughout the world for their leading research and teaching. We have developed an outstanding major that will prepare you for a multitude of options including graduate schools and careers in biomedicine and research, allied health, private industry, and education. Our nationally and internationally recognized graduates have completed top MD, PhD, MD-PhD, MS programs and internships all over the world. Emphasis Areas for the Biology major include Ecology & Evolution, Human Biology,

Marine Biology, Molecular Cellular & Developmental Biology and Neuroscience & Behavior.

Biology faculty who conduct research and teach specialize in cellular and molecular biology, developmental biology, ecology and evolution, human biology, marine biology, neuroscience and behavior, and bioinformatics. Our students learn and work alongside scientists making important contributions in their field of expertise. We foster collaboration among students, staff and faculty across Biology, Chemistry and Biochemistry, Human Physiology, Physics and Psychology Departments. The interdisciplinary nature of our department creates many opportunities for students post-graduation. Our graduates have secured jobs in a number of fields including:

- Biotechnology companies
- Clinics and hospitals
- Pharmaceutical companies
- Public health departments
- Colleges and universities
- Industry and laboratories
- Inspection agencies and control boards
- Private research institutions
- State and federal government agencies
- Zoos and aquariums

We are excited that you have considered Biology as a major and look forward to meeting with you soon here on campus in Eugene.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

### Fundamental Concepts:

- Evolution and biological diversity: all living organisms are genetically related; the diversity of life evolved over time by processes of mutation and selection.
- Structure and function: Basic units of structure give rise to the function of all living things.
- Information flow, exchange, and storage: Properties of organisms emerge from the flow, exchange, expression, and storage of genetic information.
- Pathways and transformations of energy and matter: Biological systems grow and change by processes based on chemical transformation pathways and are governed by the laws of thermodynamics.
- Systems: Living systems are interconnected and interacting.

<sup>1</sup> A course in statistics is required if an ecology and evolution or neuroscience and behavior emphasis area is selected.

<sup>2</sup> Graduate programs in medicine and allied health typically require an additional organic chemistry lecture, Organic Chemistry III (CH 336), and laboratories (CH 337, 338) beyond that required by the biology major. Often, course work in biochemistry and genetics as well as other additional courses are typically required or preferred. Please consult the Health Professions Program (<https://healthprofessions.uoregon.edu/>) for further details.

<sup>3</sup> Graduate programs in medicine and allied health typically require additional laboratories (PHYS 204, 205, 206) or three terms of Foundations of Physics Laboratory (PHYS 290) beyond that required by the biology major. Please consult the Health Professions Program (<https://healthprofessions.uoregon.edu/>) for further details.

- <sup>4</sup> Students must complete a minimum of 44 upper-division biology credits. For a complete list of approved courses and other details about upper-division requirements, see the online requirements for the biology major (<https://biology.uoregon.edu/undergraduate-program/requirements/>).
- <sup>5</sup> Visit the Biology Advising Center for a list of approved courses.

## Emphasis Areas for the Biology Major

Fulfilling the requirements for an undergraduate degree in biology provides a solid, general foundation in the discipline. Some biology majors choose to concentrate their upper-division course work in one of five emphasis areas:

- ecology and evolution
- human biology
- marine biology
- molecular, cellular, and developmental biology
- neuroscience and behavior

The requirements listed for each emphasis may be fulfilled as the student completes the upper-division course work for the biology major. Though not required, emphasis areas are designed to guide students, based on their specific interests, through upper-division course work. Upon graduation, students who complete the requirements for an emphasis area receive a written recognition from the department.

Visit [biology.uoregon.edu/undergraduate-program/requirements](http://biology.uoregon.edu/undergraduate-program/requirements/) (<http://biology.uoregon.edu/undergraduate-program/requirements/>) for the current requirements for each emphasis area, or contact the Biology Advising Center at 541-346-4525 for more information.

## Honors Program in Biology

The honors program requires substantial laboratory or field research supervised by a faculty member. Biology majors who satisfy the following requirements are eligible to graduate with honors:

1. Registration for the honors program through the Biology Advising Center, which includes obtaining an acceptance signature from the faculty research advisor, *before* beginning research
2. Completion of all requirements for the major in biology
3. Attainment of a minimum 3.30 GPA in all upper-division biology courses (including 300- and 400-level approved courses outside the department; see a biology advisor for a list). The GPA will be calculated for **all** courses in this category, regardless of the total number of credits.
4. Completion of a minimum of three terms of intensive research (summer session counts as a term); at least four terms and summer research experience are strongly encouraged
5. Completion of a minimum of 4 credits in Research: [Topic] (BI 401) under the supervision of a single faculty advisor. Up to 4 credits may be applied towards the 44 upper-division elective Biology credits. (See #7 for Honors College students.)
6. Completion of a thesis, with the following requirements:
  - a. Oversight by a thesis committee comprising two faculty members—a primary advisor and one faculty member on the Biology Undergraduate Affairs Committee
  - b. A final version of the thesis must be provided to the committee one week prior to the thesis defense

- c. Both committee members must sign the thesis within one week of the thesis defense, and a final signed copy must be submitted to the Biology Advising Center

### 7. Thesis defense

- a. Thesis committee must attend the thesis defense.
- b. Defense must happen at least one week prior to the end of the term in which the student is graduating.
- c. The thesis defense will be an open seminar. Other faculty, students, and staff will be encouraged to attend.

The chair of the Biology Undergraduate Affairs Committee will notify students during their senior year with the name of the committee member who will serve as their second thesis committee member. Students should contact both committee members via email sometime during the term before the defense to start working on a range of possible defense dates. For more information, contact the committee chair.

## Four-Year Degree Plan

*The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.*

## Marine Biology (BA/BS)

### Maya Watts, Education Program Coordinator

Oregon Institute of Marine Biology  
(541)346-7277  
mwolf1@uoregon.edu

What if your classrooms were tidepools and mudflats? Situated on 130 acres of coastal property along Coos Bay, the Oregon Institute of Marine Biology (OIMB) is a vast, living classroom where students in biology, marine biology, general science, and environmental science study marine organisms in their natural habitat.

Marine biology majors study physiology, ecology, biology, chemistry, mathematics, and physics on campus in Eugene. During junior or senior year, undergraduates immerse themselves in three terms of intensive field and lab classes at OIMB covering diverse topics of marine biology, with opportunities for independent research and internships. With courses such as Invertebrate Zoology, Oceanography, Marine Birds and Mammals, and Tropical Marine Biology in Panama, it is little wonder our majors consider their time at OIMB to be the highlight of their college experience.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Understand the process and application of scientific inquiry; the ability to develop well-reasoned hypotheses and to design experiments by which to test them.
- Apply mathematical and statistical approaches to understanding biological information; an ability to interpret graphical representations of biological information.
- Have a broad-based knowledge of biology at multiple levels and in interdisciplinary contexts; competency in reading, understanding, and

critically evaluating scientific information across major areas of the curriculum, from molecules to ecosystems.

- Communicate scientific ideas clearly, both orally and in writing to both general and professional audiences.
- Understand the relationship between science and modern society as well as the potential impact of scientific discovery on the future.
- Be aware of biological diversity in the marine environment and the mechanisms that shape this diversity.
- Understand the mechanisms that influence the structure and function of marine communities and ecosystems, and an appreciation for the bathymetric and biogeographic distributions of organisms in the sea.
- Be aware of both global and local environmental challenges in the marine environment.

#### Fundamental Concepts:

- Evolution and biological diversity: all living organisms are genetically related; the diversity of life evolved over time by processes of mutation and selection.
- Structure and function: Basic units of structure give rise to the function of all living things.
- Information flow, exchange, and storage: Properties of organisms emerge from the flow, exchange, expression, and storage of genetic information.
- Pathways and transformations of energy and matter: Biological systems grow and change by processes based on chemical transformation pathways and are governed by the laws of thermodynamics.
- Systems: Living systems are interconnected and interacting.

## Marine Biology Major Requirements

| Code              | Title                                     | Credits |

#### Upper-Division Biology<sup>2</sup>

At least one course needs to be completed from each area (I, II, and III)

Area I: 300-level molecular, cellular, and developmental biology course

Area II: 300-level systems and organisms course

Area III: 300-level ecology and evolution course

Three terms of full-time enrollment in courses at OIMB (at least 12 credits)<sup>3</sup>

12 credits of courses numbered BI 420–499

One course in modeling, analysis, programming, and statistics (MAPS)<sup>4</sup>

**Total Credits** **101-106**

- <sup>1</sup> A course in statistics is required if an ecology and evolution or neuroscience and behavior emphasis area is selected.
- <sup>2</sup> Students must complete a minimum of 44 upper-division biology credits. For a complete list of approved courses and other details about upper-division requirements, see the online requirements for the marine biology major (<https://biology.uoregon.edu/undergraduate-program/requirements/>).
- <sup>3</sup> Courses at the Oregon Institute of Marine Biology (OIMB) are offered summer session, fall, and spring terms. See [oimb.uoregon.edu](http://oimb.uoregon.edu) (<http://oimb.uoregon.edu>) for details of OIMB courses.
- <sup>4</sup> Visit the Biology Advising Center for a list of approved courses.

Students are required to spend three terms completing upper-division course work (taking at least 12 credits per term) at the Oregon Institute of Marine Biology. A program plan for the marine biology major is available in the Biology Advising Center, on the OIMB website, or Tykeson College and Career Advising.

## Area I Courses

| Code   | Title                             | Credits |
|--------|-----------------------------------|---------|
| BI 320 | Molecular Genetics                | 4       |
| BI 322 | Cell Biology                      | 4       |
| BI 326 | Immunology and Infectious Disease | 4       |
| BI 328 | Developmental Biology             | 4       |
| BI 360 | Neurobiology                      | 4       |
| BI 457 | Marine Biology: [Topic]           | 1-8     |

## Area II Courses

| Code               | Title                                                    | Credits |
|--------------------|----------------------------------------------------------|---------|
| BI 330<br>& BI 331 | Microbiology<br>and Microbiology Laboratory <sup>1</sup> | 6       |
| BI 353             | Sensory Physiology                                       | 4       |
| BI 356             | Animal Physiology                                        | 5       |
| BI 358             | Investigations in Medical Physiology                     | 4       |
| BI 359             | Plant Biology                                            | 4       |
| BI 451             | Invertebrate Zoology                                     | 1-8     |

<sup>1</sup> Both BI 330 and BI 331 must be taken to satisfy the Area II requirement.

## Area III Courses

| Code   | Title                | Credits |
|--------|----------------------|---------|
| BI 357 | Marine Biology       | 4       |
| BI 370 | Ecology              | 5       |
| BI 374 | Conservation Biology | 4       |
| BI 380 | Evolution            | 4       |
| BI 390 | Animal Behavior      | 4       |
| BI 395 | Tropical Ecology     | 4       |
| BI 474 | Marine Ecology       | 1-8     |

## Modeling, Analysis, Programming, and Statistics (MAPS) Courses

| Code     | Title                                           | Credits |
|----------|-------------------------------------------------|---------|
| BI 471   | Population Ecology                              | 4       |
| BI 485   |                                                 | 4       |
| ANTH 470 | Statistical Analysis of Biological Anthropology | 4       |
| ERTH 418 | Earth and Environmental Data Analysis           | 4       |
| MATH 425 | Statistical Methods I                           | 4       |

## Animal Use in Teaching Laboratories

Students should be aware that the biology and marine biology majors require courses in which a variety of organisms, including vertebrate animals, are used in laboratory dissections and experiments.

Prospective majors who are concerned about this should discuss it with their advisors before beginning either program. Students are encouraged to review the syllabuses for laboratory courses before enrolling. Syllabuses are available on the department's website.

Department and university policies require that the use of live vertebrate animals be minimized in teaching laboratories and be approved by the curriculum committee of the Department of Biology and by the Institutional Animal Care and Use Committee of the University of Oregon. Students who have ethical objections to animal use in a course that requires it should consult the instructor of record before enrolling.

## Oregon Institute of Marine Biology

Located in Charleston on Coos Bay, the Oregon Institute of Marine Biology (OIMB), in conjunction with the biology department, offers an undergraduate marine biology major and a coordinated program of study for undergraduates in biology, general science, and environmental science or environmental studies. During fall and spring terms and the

summer session, 300- and 400-level courses take advantage of the institute's unique coastal setting. Typical offerings include the following:

| Code   | Title                                                                                                                                                                        | Credits |
|--------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|
| BI 322 | Cell Biology                                                                                                                                                                 | 4       |
| BI 390 | Animal Behavior                                                                                                                                                              | 4       |
| BI 451 | Invertebrate Zoology                                                                                                                                                         | 8       |
| BI 454 | Estuarine Biology                                                                                                                                                            | 5       |
| BI 455 | Marine Birds and Mammals                                                                                                                                                     | 1-6     |
| BI 457 | Marine Biology: [Topic] (Biology of Fishes, Comparative Embryology and Larval Biology, Marine Conservation Biology, Molecular Marine Biology, Subtidal and Deep Sea Ecology) | 4-5     |
| BI 458 | Biological Oceanography                                                                                                                                                      | 5       |
| BI 474 | Marine Ecology                                                                                                                                                               | 1-8     |

A seminar series, Seminar: [Topic] (BI 407), features weekly invited speakers who are active researchers in the marine sciences. Undergraduate research is encouraged.

The summer program offers additional 400-level courses emphasizing field studies and includes a variety of eight- and two-week courses as well as weekend workshops. Information and applications are available from the Biology Advising Center, from the director of the institute, or from the OIMB website (<https://oimb.uoregon.edu>).

## Malheur Field Station

The University of Oregon is a member of the Malheur Field Station consortium. Located in southeastern Oregon in the heart of the Great Basin desert, the field station provides an excellent opportunity for students to study terrestrial and aquatic systems. Credits earned in courses at the field station may be transferred to the university and are included in the total credits required for a University of Oregon degree. Courses that have been preapproved by the department may be counted for the biology major. Detailed course information and applications may be obtained from the field station website.

## Honors Program in Marine Biology

To graduate with honors in marine biology, students must meet the following requirements:

1. Completion of all the requirements for the major in marine biology
2. A minimum cumulative GPA of 3.30 for all upper-division biology courses required for the major
3. Biology courses used to satisfy the marine biology degree requirements must be taken for letter grades
4. Registration for the honors program before research begins. This requires approval of the honors thesis topic by the faculty sponsor and the selection of a second member of the marine biology faculty to serve on the thesis approval committee
5. A minimum of 4 credits of research over at least three terms of research. One of these terms can be accomplished on the main campus while the thesis is being written. That term may, however, require periodic visits to the Oregon Institute of Marine Biology (OIMB)
6. Completion of a thesis, based on laboratory and/or field research that is approved by the OIMB faculty advisor and one other member of the OIMB faculty. Included at the front of the thesis should be a title page

- and the thesis defense committee approval. A final copy of the thesis is to be submitted to the OIMB library
7. A public defense of the thesis at OIMB

Students in residence on the main campus while enrolled in the marine biology honors program should consider enrolling in Thesis (BI 403). Contact the instructor of record for information on this course.

Four-Year Degree Plan

The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.

Bachelor of Arts in Marine Biology

| Course                                                         | Title                                                                         | Credits | Milestones |

## Biology Minor

The Department of Biology at the University of Oregon offers expertise and research opportunities in a wide range of disciplines including

cell and developmental biology, ecology, evolution, genetics, marine biology, and neuroscience. Our undergraduate curriculum provides an introductory overview in each of these areas and provides the opportunity for advanced training and specialization in particular areas through coursework and research experience.

| Select three of the following:                     |                                                      |           |
| BI 211                                             | General Biology I: Cells                             |           |
| BI 212                                             | General Biology II: Organisms                        |           |
| BI 213                                             | General Biology III: Ecology and Evolution           |           |
| BI 214                                             | General Biology IV: Biochemistry and Genetics        |           |
| Or all three of the following:                     |                                                      |           |
| BI 281H                                            | Honors Biology I: Cells, Biochemistry and Physiology |           |
| BI 282H                                            | Honors Biology II: Genetics and Molecular Biology    |           |
| BI 283H                                            | Honors Biology III: Evolution, Diversity and Ecology |           |
| <b>Upper-Division Biology Courses <sup>1</sup></b> |                                                      | <b>16</b> |
| <b>Total Credits</b>                               |                                                      | <b>31</b> |

<sup>1</sup> No more than 4 credits from BI 401–409.

Students interested in a minor in biology should develop a plan for the minor in consultation with an advisor in the Biology Advising Center. Students completing the minor in biology must provide the biology advisor with an electronic submission of a transcript or transfer evaluation that shows any transfer courses that may be applied to the minor.

At least 16 credits of biology applied to the minor must be taken at the University of Oregon.

Course work must be completed with grades of P or C– or better.

## Biology (MS)

Master’s degrees in biology may be earned in the following programs:

- Ecology and Evolution - this degree is typically completed on the UO campus and emphasizes ecology and evolution and can involve research on terrestrial, aquatic, or marine organisms.
- Marine Biology - this degree is typically completed at the Oregon Institute of Marine Biology campus location at Charleston Oregon (110 miles, 2.5 hours from Eugene) and provides training for a variety of careers in aquatic or marine biology.

Two years are typically required for completion of the master’s degree. More information is available on the biology department website (<https://naturalsciences.uoregon.edu/biology/graduate-programs/masters-requirements/>).

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Achieve fluency in the scholarly literature, compelling questions, and research methods in the student's primary field of research.
- Acquire demonstrable and autonomous research skills, in field or laboratory, as befits specialty.
- Learn to process and present scientific data in compelling, credible formats.

## Biology Major

| Code                                   | Title  | Credits   |
|----------------------------------------|--------|-----------|
| Graduate-level Coursework <sup>1</sup> |        | 36        |
| BI 503                                 | Thesis | 9         |
| <b>Total Credits</b>                   |        | <b>45</b> |

<sup>1</sup> Minimum 30 hours of Graduate-Level Biology Coursework. 24 credits must be completed in residence and graded. Minimum of 9 credits must be at the 600 level.

Nearly all master's candidates are admitted into the 'thesis' program. In very rare circumstances a student may complete a 'course only' program which would necessitate completing 60 graduate level credits

## Biology (PhD)

PhD students will be considered for one or more Institute-tracks depending on the research interests indicated on their application. Course requirements for individual students vary based on the recommendation of their committees and advisors, but in general, there are very few required courses.

During the first year, students take courses in their area of interest and participate in a laboratory rotation program. The rotations provide direct exposure to research activities in three laboratories and therefore invaluable in helping students select a laboratory in which to carry out dissertation research. After the first year in the program, students devote nearly all of their efforts to research. These activities culminate in the public defense of a dissertation.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Achieve fluency in the scholarly literature, compelling questions, and research methods in the student's primary field of research.
- Acquire demonstrable and autonomous research skills, in field or laboratory, as befits specialty.
- Learn to process and present scientific data in compelling, credible formats.
- Gain experience and skills in pedagogy and teaching.
- Develop and execute an original research project that would be judged credible by peers and has or will result in one or more peer-reviewed publications appropriate to the field of study.

## Doctor of Philosophy Degree in Biology

### Requirements for Doctoral Students

PhD students will be considered for one or more Institute-tracks depending on the research interests indicated on their application.

Course requirements for individual students vary based on the recommendation of their committees and advisors, but in general, there are very few required courses.

During the first year, students take courses in their area of interest and participate in a laboratory rotation program. The rotations provide direct exposure to research activities in three laboratories and therefore invaluable in helping students select a laboratory in which to carry out dissertation research. After the first year in the program, students devote nearly all of their efforts to research. These activities culminate in the public defense of a dissertation.

## Chemistry and Biochemistry

### Vicki DeRose, Department Head

91 Klamath Hall  
541-346-4603

The Department of Chemistry and Biochemistry offers bachelor of arts and bachelor of science degrees with majors in chemistry or biochemistry. The department enjoys a strong national reputation.

The curriculum in chemistry provides broad knowledge of the field as a part of the liberal education offered by the College of Arts and Sciences. Chemistry course work is a sound foundation for students interested in advanced work in chemistry or related sciences, particularly such fields as biochemistry, geochemistry, materials science, and molecular biology.

## Faculty

Shannon W. Boettcher, professor (inorganic, materials science). BA, 2003, Oregon; PhD, 2008, California, Santa Barbara. (2010)

Carl Brozek, assistant professor (physical inorganic, materials science). SB, 2010, Chicago; PhD, 2015, Massachusetts Institute of Technology. (2018)

Jeffrey A. Cina, professor (physical). BS, 1979, Wisconsin, Madison; PhD, 1985, California, Berkeley. (1995)

Donald Clayton, instructor. BS, 2010, Central Washington; MS, 2013, PhD, 2017, Oregon. (2022)

Amanda Cook, assistant professor (organic, inorganic materials science). BS, 2010, California State, Fullerton; PhD, 2015, Michigan, Ann Arbor. (2018)

Victoria J. De Rose, professor (bioinorganic). BA, 1983, Chicago; PhD, 1990, California, Berkeley. (2006)

Deborah B. Exton, senior instructor. BS, 1987, Metropolitan State College of Denver; PhD, 1992, Denver. (1993)

Adam Glass, instructor. BS, 2006, Pacific; PhD, 2011, Oregon. (2021)

Marina G. Guenza, professor (physical). Laurea, 1985, Università degli Studi di Genova; PhD, 1989, degree granted by consortium of universities of Torino, Genova, and Pavia. (1998)

Tanya Gupta, instructor. BS, 1998, Beneras Hindu University; MS, 2000, Lunkow; M.Ed., 2007, PhD, 2012, Iowa State. (2021)

Michael M. Haley, Richard M. and Patricia H. Noyes Professor in Chemistry (organic, materials science). BA, 1987, PhD, 1991, Rice. (1993)

Scott Hansen, assistant professor (biochemistry, molecular biology and biophysics). BS, 2004, California, Davis; PhD, 2012, California, San Francisco. (2017)

Michael Harms, associate professor (biochemistry, molecular biology and biophysics). BS, 2004, Oregon State; PhD, 2008, Johns Hopkins. (2013)

Diane K. Hawley, professor (biochemistry). BA, 1976, Kansas; PhD, 1982, Harvard. (1986)

Christopher Hendon, assistant professor (computational materials). BSc, 2011, Monash; PhD, 2015, Bath. (2018)

James E. Hutchison, professor (organic, materials science); Lokey-Harrington Chair in the Department of Chemistry. BS, 1986, Oregon; PhD, 1991, Stanford. (1994)

Ramesh Jasti, professor (organic, inorganic, supramolecular). BS, 1998, North Carolina, Chapel Hill; PhD., 2006, California, Irvine. (2014)

Darren W. Johnson, Bradshaw and Holzapfel Research Professor in Transformational Science and Mathematics (organic). BS, 1996, Texas, Austin; PhD, 2000, California, Berkeley. (2003)

David C. Johnson, professor (inorganic, materials science); Rosaria P. Haugland Foundation Chair in Pure and Applied Chemistry. BA, 1978, Rutgers; MS, 1980, PhD, 1983, Cornell. (1986)

Michael E. Kellman, professor (physical). BS, 1971, California, Berkeley; PhD, 1977, Chicago. (1989)

Paul Kempler, research assistant professor. BS, 2015, Vanderbilt; PhD, 2020, California Institute of Technology. (2020)

Michael Koscho, senior instructor (organic). BS, 1993, Purdue; PhD, 1999, Illinois, Urbana-Champaign. (2006)

Mark Lonergan, professor (physical, materials science); director, Materials Science Institute. BS, 1990, Oregon; PhD, 1994, Northwestern. (1996)

Andrew H. Marcus, professor (physical, materials science). BA, 1987, California, San Diego; PhD, 1993, Stanford. (1996)

George V. Nazin, associate professor (physical). MS, 1999, Moscow Institute of Physics and Technology; PhD, 2007, California, Irvine. (2010)

Brad J. Nolen, professor (biochemistry). BA, 1997, Missouri State; PhD, 2003, California, San Diego. (2008)

Catherine J. Page, associate professor (inorganic, materials science). BA, 1980, Oberlin; PhD, 1984, Cornell. (1986)

Michael D. Pluth, professor (organic). BS, 2004, Oregon; PhD, 2008, California, Berkeley. (2011)

Kenneth E. Prehoda, professor (biochemistry). BA, 1991, California State, Sacramento; PhD, 1997, Wisconsin, Madison. (2001)

James Prell, associate professor (physical). BA, 2005, Washington (St. Louis); PhD, 2011, California, Berkeley. (2014)

Geraldine L. Richmond, professor (physical, materials science); Presidential Chair. BS, 1975, Kansas State; PhD, 1980, California, Berkeley. (1985)

Julia Widom, assistant professor (physical, biochemistry). BA, 2009, Northwestern; PhD, 2013, Oregon. (2018)

Cathy Wong, associate professor (physical). BSc, 2004, McMaster; PhD, 2011, Toronto. (2015)

## Emeriti

Bruce P. Branchaud, professor emeritus. BS, 1976, Massachusetts; MA, 1981, Dartmouth College; PhD, 1981, Harvard. (1983)

Frederick W. Dahlquist, professor emeritus. BA, 1964, Wabash; PhD, 1969, California Institute of Technology. (1971)

Kenneth M. Doxsee, professor (organic, materials science). BS, 1978, MS, 1979, Stanford; PhD, 1983, California Institute of Technology. (1989)

Thomas R. Dyke, professor emeritus. BA, 1966, Wooster; PhD, 1972, Harvard. (1974)

Thomas Greenbowe, senior instructor. BA, 1972, William Paterson College of New Jersey; MS, 1974, Indiana State University; MS, 1979, Purdue University; PhD, 1982, Purdue University. (2015)

O. Hayes Griffith, professor emeritus. AB, 1960, California, Riverside; PhD, 1964, California Institute of Technology. (1965)

Julie A. Haack, senior instructor. BS, 1986, Oregon; PhD, 1991, Utah. (2000)

John F. W. Keana, professor emeritus. BA, 1961, Kalamazoo; PhD, 1965, Stanford. (1965)

James W. Long, senior instructor emeritus. BS, 1965, Washington (Seattle); PhD, 1969, California, Berkeley. (1978)

Robert M. Mazo, professor emeritus. AB, 1952, Harvard; MS, 1953, PhD, 1955, Yale. (1962)

Tom H. Stevens, Philip H. Knight Professor (biochemistry). BA, 1974, MS, 1976, San Francisco State; PhD, 1980, California Institute of Technology. (1982)

David R. "Randy" Sullivan, senior instructor. BS, 1982, MS, 1989, North Texas. (2001)

David R. Tyler, Charles J. and M. Monteith Jacobs Professor in Chemistry (inorganic, materials science). BS, 1975, Purdue; PhD, 1979, California Institute of Technology. (1985)

Peter H. von Hippel, professor emeritus. BS, 1952, MS, 1953, PhD, 1955, Massachusetts Institute of Technology. (1967)

*The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.*

## Undergraduate Programs

### Majors - Bachelor's Degree

- Biochemistry (BA/BS) (p. 209)
- Chemistry (BA/BS) (p. 213)

### Minors

- Biochemistry (p. 217)
- Chemistry (p. 218)

## Graduate Programs

### Major - Master's Degree

- Chemistry (MS) (p. 218)

### Major - Doctoral Degree

- Chemistry (PhD) (p. 219)

## Biochemistry (BA/BS)

The Department of Chemistry and Biochemistry offers majors in chemistry and biochemistry. Biochemistry majors complete an integrated, rigorous program that includes foundational course work in chemistry and biochemistry and additional course work in related fields. Undergraduate majors benefit from taking graduate courses in synthetic modeling, physical chemistry, materials, computational chemistry, biochemistry, molecular biology, and modern instrumental techniques.

The American Chemistry Society-certified degree emphasizes laboratory experience and the development of professional skills. A unique strength of the department is the opportunity for undergraduates to participate in the activities of a dynamic research group that considers problems extending well beyond textbook instruction.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- **Coursework:** Students will demonstrate an understanding of the fundamental concepts in the basic areas of the discipline (organic, inorganic, analytical, physical, and biochemical). Students will demonstrate a firm foundation in the conceptual, quantitative, and computational thinking that underlies the theories and models that form the basis for reasoning about molecular systems. Students will be able to connect this theoretical understanding to the experimental methods used to test those theories and models. Students will also have opportunities to obtain in-depth knowledge in multiple areas of the discipline. The foundational and in-depth coursework will be aligned with the most recent American Chemical Society Guidelines for Chemistry Programs (<https://www.acs.org/education/policies/acs-approval-program.html>).
- **Instructional Laboratory:** Students will demonstrate proficiency in laboratory techniques and the use of modern instrumentation. Students will be able to carry out experiments in the laboratory, accurately record data and observations, and be able to analyze the results of experiments. Students will be able to handle, synthesize, purify, and characterize new and existing substances. This includes knowing the proper procedures and regulations for the safe handling, use and disposal of chemicals.

- **Research:** Students will employ critical thinking and the scientific method to design, carry out, record, analyze and communicate the results of chemical/biochemical experiments. This includes the ability to identify, or create an appropriate model, formulate a hypothesis, choose an appropriate set of tools and techniques, and design an experiment that tests the hypothesis and analyze the results from that experiment drawing sound scientific conclusions from the results obtained. Students must be able to locate, identify and critically evaluate the chemical/biochemical literature.
- **Communication:** Students will demonstrate effective scientific communication skills, both orally and in writing, to a range of audience levels and for a variety of purposes. Students will understand how scientific information is shared between peers in modern science, including responsible conduct for acknowledging prior and current contributions.
- **Professional Skills:** Students will develop the interpersonal skills to function cooperatively in a team setting. Students will successfully pursue their career objectives in advanced education in professional and/or graduate schools, in a scientific career in government or industry, in a teaching career in the school systems, or in a related career following graduation
- **Ethics:** Students will be able to understand and apply ethics and values to all professional activities. Students will demonstrate an awareness of the benefits and impacts of chemistry related to the environment, society, and other disciplines outside the scientific community. Students will be prepared to contribute solutions to society's challenges at the intersection of science and society.

Courses taken to satisfy major requirements must be passed with grades of C– or better. Variations in courses and order may be worked out in consultation with an advisor.

Students who plan to attend graduate school should include research in their advanced work. If chemical research is included as part of the advanced work, at least 6 credits of CH 401 Research: [Topic] must be completed. Students who plan to apply to medical schools should investigate the need for a physics laboratory course that is not included in this curriculum.

<sup>1</sup> See advisor for complete list. Courses used to satisfy the physical and advanced laboratory requirements cannot also be used as an advanced elective.

Honors Program

The criteria used for the selection of students who graduate with departmental honors in chemistry or biochemistry are as follows:

- 1. Grade point average (GPA) of at least 3.50 in all graded courses
- 2. Suitable accomplishment in undergraduate chemical or related research. Specifically, the student must pursue a research problem for one academic year or longer and be recommended as worthy of honors by the faculty supervisor. Positive accomplishment and publishable results are expected but not required
- 3. Endorsement for a major with honors by a member of the university faculty
- 4. Completion of all course requirements for the BS degree in chemistry (waivers or substitutions allowed with approval)

Four-Year Degree Plan

The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.

| Multicultural courses | 8 |
|-----------------------|---|

Apply for degree in DuckWeb by end of fourth week of spring term

|                |           |
|----------------|-----------|
| <b>Credits</b> | <b>16</b> |
|----------------|-----------|

|                      |              |
|----------------------|--------------|
| <b>Total Credits</b> | <b>49-69</b> |
|----------------------|--------------|

## Chemistry (BA/BS)

The Department of Chemistry and Biochemistry offers majors in chemistry and biochemistry. Biochemistry majors complete an integrated, rigorous program that includes foundational course work in chemistry and biochemistry and additional course work in related fields. Undergraduate majors benefit from taking graduate courses in synthetic modeling, physical chemistry, materials, computational chemistry, biochemistry, molecular biology, and modern instrumental techniques.

The American Chemistry Society-certified degree emphasizes laboratory experience and the development of professional skills. A unique strength of the department is the opportunity for undergraduates to participate in the activities of a dynamic research group that considers problems extending well beyond textbook instruction.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- **Coursework:** Students will demonstrate an understanding of the fundamental concepts in the basic areas of the discipline (organic, inorganic, analytical, physical, and biochemical). Students will demonstrate a firm foundation in the conceptual, quantitative, and computational thinking that underlies the theories and models that form the basis for reasoning about molecular systems. Students will be able to connect this theoretical understanding to the experimental methods used to test those theories and models. Students will also have opportunities to obtain in-depth knowledge in multiple areas of the discipline. The foundational and in-depth coursework will be aligned with the most recent American Chemical Society Guidelines for Chemistry Programs (<https://www.acs.org/education/policies/acs-approval-program.html>).
- **Instructional Laboratory:** Students will demonstrate proficiency in laboratory techniques and the use of modern instrumentation. Students will be able to carry out experiments in the laboratory, accurately record data and observations, and be able to analyze the results of experiments. Students will be able to handle, synthesize, purify, and characterize new and existing substances. This includes knowing the proper procedures and regulations for the safe handling, use and disposal of chemicals.
- **Research:** Students will employ critical thinking and the scientific method to design, carry out, record, analyze and communicate the results of chemical/biochemical experiments. This includes the ability to identify, or create an appropriate model, formulate a hypothesis, choose an appropriate set of tools and techniques, and design an experiment that tests the hypothesis and analyze the results from that experiment drawing sound scientific conclusions from the results

obtained. Students must be able to locate, identify and critically evaluate the chemical/biochemical literature.

- **Communication:** Students will demonstrate effective scientific communication skills, both orally and in writing, to a range of audience levels and for a variety of purposes. Students will understand how scientific information is shared between peers in modern science, including responsible conduct for acknowledging prior and current contributions.
- **Professional Skills:** Students will develop the interpersonal skills to function cooperatively in a team setting. Students will successfully pursue their career objectives in advanced education in professional and/or graduate schools, in a scientific career in government or industry, in a teaching career in the school systems, or in a related career following graduation.
- **Ethics:** Students will be able to understand and apply ethics and values to all professional activities. Students will demonstrate an awareness of the benefits and impacts of chemistry related to the environment, society, and other disciplines outside the scientific community. Students will be prepared to contribute solutions to society's challenges at the intersection of science and society.

The program described below is the recommended curriculum for chemistry majors. It includes courses in chemistry and related fields. Courses taken to satisfy major requirements must be passed with grades of C– or better. Variations in courses and order may be worked out in consultation with an advisor. Advisors can also provide lists of substitute courses and courses that are recommended but not required.

Students are encouraged to participate in CH 401 Research: [Topic].

<sup>1</sup> Other courses may be included with advisor approval.

## Honors Program

The criteria used for the selection of students who graduate with departmental honors in chemistry or biochemistry are as follows:

1. Grade point average (GPA) of at least 3.50 in all graded courses
2. Suitable accomplishment in undergraduate chemical or related research. Specifically, the student must pursue a research problem for one academic year or longer and be recommended as worthy of honors by the faculty supervisor. Positive accomplishment and publishable results are expected but not required
3. Endorsement for a major with honors by a member of the university faculty

4. Completion of all course requirements for the BS degree in chemistry (waivers or substitutions allowed with approval)

## Four-Year Degree Plan

The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.

## Bachelor of Arts in Chemistry

| Course                                                                              | Title                                                                    | Credits   | Milestones |

Other courses may be submitted for consideration and approval by the department. At least 12 credits for the biochemistry minor must be completed at the University of Oregon. All courses applied to the minor must be completed with grades of C– or better. Credits earned in CH 407 Seminar: [Topic], CH 405 Reading and Conference: [Topic], and CH 409 Terminal Project may not be applied to required coursework for the biochemistry minor.

## Chemistry Minor

Biochemistry majors cannot minor in Chemistry minor.

### Chemistry Minor

A minor in chemistry may be designed from course work in general chemistry, including the laboratory sequence, and at least four additional upper-division courses. University requirements for the minor include a total of 24 credits in chemistry, 15 of which must be in upper-division courses and 12 of which must be completed at the University of Oregon. All courses for the minor must be completed with grades of C– or better. Credits earned in CH 407 Seminar: [Topic], CH 405 Reading and Conference: [Topic], and CH 409 Terminal Project may not be applied as required course work for the minor.

## Chemistry (MS)

Research at the University of Oregon is designed to keep student researchers at the forefront of chemical science. Our programs in the traditional areas of biochemistry, inorganic, organic, and physical chemistry lay the foundation for new discoveries in materials science, molecular biology, optics, and theoretical chemistry. Though our department is medium in size, we are a leading innovator in chemistry.

A unique strength of our program is its interdisciplinary approach to research and teaching. Chemical scientists may be interested in the Institute of Molecular Biology, the Institute for Fundamental Science, the Materials Science Institute, the Oregon Center for Optical, Molecular, and Quantum Science (OMQ), and the programs in cell biology and molecular synthesis, structure, and dynamics.

We offer a traditional Master's as well as several internship-based Master's programs. Internship salaries can help offset the cost of tuition for students in an internship program; the traditional Master's program does not include financial support.

### Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Have in-depth knowledge in a main subfield of chemistry. Students will acquire this knowledge by doing advanced course work in the field, reading scientific papers, and optionally performing original research in the lab.

- Students pursuing a research master's degree will learn how to carry out independent chemistry research. Students will learn literature comprehension skills, will properly cite and reference techniques and methods, will be able to place one's research in context of the field, and will be able to communicate research results through scientific publications and presentations. Students will be able to formulate scientific hypotheses, understand the scientific method and apply it to research design, will become proficient at data gathering and interpretation, and will be able to write a research proposal. Students will pursue a research problem culminating in a written thesis that makes a significant and original contribution to the understanding of chemistry.
- Have professional development skills and knowledge. Students will attend professional meetings and make oral or poster presentations. Students will learn how to get internships in governmental labs, in industry, or in teaching. Students will learn soft skills, such as leadership, problem-solving, teamwork, communication.
- Understand and have awareness of professional, ethical and safety applications of their knowledge. Students will develop and understand the ethical and social dimension of science and the role and responsibility of chemistry for the advancement of the society. Students will learn and put into practice the expectations of responsible conduct in the professional field. Students will learn about laboratory safety and best safety practices.

## Admission Process

Students apply to program during their junior year.

- (1) GPA and course of study to date
- (2) resume including volunteer and paid work, and previous experiences
- (3) personal statement including experiences, career goals and discussion of contributions to diversity, equity, and inclusion
- (5) interview including technical, experience, and behavioral components

## Chemistry (PhD)

Research at the University of Oregon is designed to keep student researchers at the forefront of chemical science. Our programs in the traditional areas of biochemistry, inorganic, organic, and physical chemistry lay the foundation for new discoveries in materials science, molecular biology, optics, and theoretical chemistry. Though our department is medium in size, we are a leading innovator in chemistry.

At the University of Oregon, we recognize the importance of diversity and breadth in graduate education and continue to respond to the shifts and changes in career opportunities available to our graduates. In pursuit of this goal, we take a cross-disciplinary, interdepartmental approach to research and graduate training. Institutes and centers facilitate scientific investigation at the boundaries of traditional fields and foster collaboration and cooperation between researchers in different departments. Faculty members and students are actively involved in collaborative research efforts in the department and in the interdepartmental research institutes, providing unique opportunities for defining and solving scientific problems. Students pursuing a Ph.D. in chemistry may choose to complete thesis projects under the guidance of faculty in other departments, such as biology or physics.

While we de-emphasize the boundaries of traditional disciplines, the classic areas of chemistry do provide a convenient and familiar way to describe the department's educational activities and research. They include: biochemistry, molecular biology and biophysical chemistry; organic-inorganic chemistry; and physical chemistry.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Acquire in-depth knowledge in a main subfield of chemistry. Students will acquire this knowledge by doing advanced course work in the field, reading scientific papers, performing original research in the lab, and passing an advancement exam in the student's research area.
- Acquire a breadth of knowledge in other subfields of chemistry. Students will acquire this knowledge by doing course work and taking cumulative exams.
- Learn how to carry out independent chemistry research. Students will learn literature comprehension skills, will properly cite and reference techniques and methods, will be able to place one's research in context of the field, and will be able to communicate research results through scientific publications and presentations. Students will be able to formulate scientific hypotheses, understand the scientific method and apply it to research design, will become proficient at data gathering and interpretation, and will be able to write a research

proposal. Students will pursue a research problem culminating in a written thesis that makes a significant and original contribution to the understanding of chemistry.

- Acquire professional development skills and knowledge. Students will attend professional meetings and make oral or poster presentations. Students will learn how to obtain internships in governmental labs, in industry, or in teaching. Students will learn soft skills, such as leadership, problem-solving, teamwork, communication.
- Understand and apply ethics and values to all professional activities. Students will demonstrate an awareness of the benefits and impacts of chemistry related to the environment, society, and other disciplines outside the scientific community. Students will learn and put into practice the expectations of responsible conduct in the professional field. Students will learn about laboratory safety and best safety practices. Students will be prepared to contribute solutions to society's challenges at the intersection of science and society.

## Chemistry Major Requirements

### Requirements for all students

- Participate in the undergraduate teaching program for at least 3 terms
- Rotate through 3 different labs during the first year
- Identify and join a research group by the end of the first year
- 4th term review is usually in the fall of 2nd year with a written and an oral report
- Annual review each year after advancement to candidacy with a written and an oral report

### Biochemistry Requirements

- Advancement to Candidacy
- Satisfactory completion of BI 620, CH 662
- Seminars and Journal Club

### Organic/Inorganic/Material Requirements

- Advancement to Candidacy Exam
- Six graded graduate-level courses of 3 or 4 credits each
- Seminars and Journal Club (CH 607, CH 623)

### Physical Chemistry Requirements

- Advancement to Candidacy Exam; 3rd-year research presentation
- Six graded graduate-level courses of 3 or 4 credits each
- Seminars and Journal Club (CH 607, CH 624)

## Computer Science

### Reza Rejaie, Department Head

Computer science, the study of computation, offers students the challenge and excitement of a dynamically evolving science whose discoveries and applications affect every aspect of modern life. Computer science is a rich intellectual field where practitioners apply a computational approach to address a wide variety of interesting and challenging problems. Computer scientists are engaged in research in core areas of theoretical computer science, computer systems design,

algorithms, and programming languages, as well as more application-oriented areas such as databases and networking.

## Faculty

Zena M. Ariola, professor (programming languages, lambda calculus, logic). BS, 1980, Pisa; PhD, 1992, Harvard. (1992)

Hank Childs, professor (scientific visualization, high-performance computing, computer graphics). BS, 1999, PhD, 2006, California, Davis. (2013)

Jeon W. Choi, assistant professor (high-performance computing, scientific computation, data analytics). BS, 2000, PhD, 2015, Georgia Institute of Technology. (2019)

Phil Colbert, instructor (education, healthcare, environmental sciences, IoT, full stack development, CIT Minor). BS, 1990 CSU Chico; MS, 2008, CSU Chico. (2014)

Dejing Dou, professor (artificial intelligence, data mining, natural language processing). BE, 1996, Tsinghua; MS, 2000, PhD, 2004, Yale. (2004)

Brittany Erickson, assistant professor (scientific computing, computational seismology, high performance computing). BS, 2004, MS, 2006, PhD, 2010, California, Santa Barbara. (2018)

Ramakrishnan Durairajan, assistant professor (computer networking, multi-cloud computing, Internet data science, programmable optics, cybersecurity). BS, 2010, College of Engineering, Guindy; MS, 2014, PhD, 2017, Wisconsin, Madison. (2017)

Stephen F. Fickas, professor (software engineering, formal modeling of distributed systems, digital humanities). BS, 1971, Oregon State; MS, 1973, Massachusetts; PhD, 1983, California, Irvine. (1983)

Kathleen Freeman Hennessy, senior instructor; director of undergraduate studies. BS, 1982, Bucknell; PhD, 1993, Oregon. (2011)

Anthony J. Hornof, professor (human-computer interaction, assistive technology, cognitive modeling). BA, 1988, Columbia; MS, 1996, PhD, 1999, Michigan. (1999)

Lei Jiao, assistant professor (networking and distributed computing, performance modeling and evaluation, algorithm design and application). BS, 2007, MS, 2010, Northwestern Polytechnical; PhD, 2014, Göttingen. (2016)

Jun Li, professor (computer and network security, network architectures and protocols, distributed systems). BS, 1992, Peking; ME, 1995, Chinese Academy of Sciences; MS, 1998, PhD, 2002, California, Los Angeles. (2002)

Yingjiu (Joe) Li, professor (cyber security and privacy). BS, 1990, Dalian University of Technology; PhD, 2003, George Mason University. (2019)

Daniel Lowd, associate professor (machine learning, data mining, artificial intelligence). BS, 2003, Harvey Mudd College; MS, 2005, PhD, 2010, Washington (Seattle). (2009)

Allen D. Malony, professor (parallel processing, performance evaluation, neuroinformatics). BS, 1980, MS, 1982, California, Los Angeles; PhD, 1990, Illinois, Urbana-Champaign. (1991)

Thanh H. Nguyen, assistant professor (artificial intelligence, multi-agent systems, machine learning ). BS, 2010, Hanoi University of Science and Technology; PhD, 2016, University of Southern California. (2018)

Thien Huu Nguyen, assistant professor (natural language processing, data mining, machine learning, artificial intelligence). BE, 2011, HUST, Hanoi; MS, 2014, PhD, 2018, NYU, New York. (2018)

Boyana Norris, associate professor (high-performance computing, compilers, performance analysis and optimization, software engineering, data science). BS, 1995, Wake Forest; PhD, 2000, Illinois, Urbana-Champaign. (2013)

Reza Rejaie, professor (computer networks, networked systems, Internet measurement). BS, 1991, Sharif University of Technology; MS, 1996, PhD 1999, Southern California. (2002)

Humphrey Shi, assistant professor (Computer Vision, Machine Learning, AI Systems & Applications). BS, 2005, Tsinghua University; PhD, 2017, University of Illinois at Urbana-Champaign. (2019)

Joseph Sventek, professor (complex event processing, Internet of Things). BS, 1973, Rochester; PhD, 1979, California, Berkeley. (2014)

Dave Wilkins, instructor. BA, 1965, Whitman College; MS, 1971, Oregon. (2010)

Eric D. Wills, senior instructor. BS, 2000, MS, 2002, PhD, 2008, Oregon. (2010)

Christopher B. Wilson, associate professor (computational complexity, models of computation). BS, 1978, Oregon; MS, 1980, PhD, 1984, Toronto. (1984)

Michal Young, associate professor (software engineering, software test and analysis). BA, 1983, Oregon; MS, 1985, PhD, 1989, California, Irvine. (1997)

## Emeriti

Sarah A. Douglas, professor emerita. AB, 1966, California, Berkeley; MS, 1979, PhD, 1983, Stanford. (1983)

Arthur M. Farley, professor emeritus. BS, 1968, Rensselaer Polytechnic Institute; PhD, 1974, Carnegie-Mellon. (1974)

Michael Hennessy, senior instructor. BS, 1982, MS, 1984, Oregon. (1984)

Virginia M. Lo, associate professor emerita. BA, 1969, Michigan; MS, 1977, Pennsylvania State; PhD, 1983, Illinois, Urbana-Champaign. (1984)

Eugene M. Luks, professor emeritus. BS, 1960, City University of New York, City College; PhD, 1966, Massachusetts Institute of Technology. (1983)

Andrzej Proskurowski, professor emeritus. MS, 1967, Warsaw University of Technology; PhD, 1974, Royal Institute of Technology, Stockholm. (1975)

Kent A. Stevens, professor emeritus. BS, 1969, MS, 1971, California, Los Angeles; PhD, 1979, Massachusetts Institute of Technology. (1982)

*The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.*

## Affiliated Faculty

Sameer Shende, research associate professor and director, Performance Research Laboratory (performance evaluation tools, programming models, software stack for HPC and AI/ML). BTech, 1991, IIT Bombay; MS, 1996, PhD 2001, University of Oregon. (2001)

## Participating

Heidi Kaufman, English

Amy K. Lobben, geography

Marc Schlossberg, planning, public policy and management

McKay M. Sohlberg, special education and clinical sciences

Sanjay Srivastava, psychology

Jeffrey Stolet, music

Don M. Tucker, psychology

## Undergraduate Programs

### Major - Bachelor's Degree

- Computer Science (BA/BS) (p. 221)
- Cybersecurity (BS) (p. 226)
- Mathematics and Computer Science (BA/BS) (p. 264)

### Minors

- Computer Information Technology (p. 227)
- Computer Science (p. 227)

## Graduate Programs

### Major - Master's Degree

- Computer Science (MS) (p. 227)

### Major - Doctoral Degree

- Computer Science (PhD) (p. 230)

## Computer Science (BA/BS)

As a computer science major, you'll study the computer as a machine—both concrete and abstract—and as a powerful tool for solving problems and exploring in a wide variety of areas. Through your computer science courses, you will learn how to design, analyze, and implement algorithms and programs, computer systems, and programming languages. You will have the opportunity to take classes in topics such as data science, artificial intelligence, networks and security, graphics and visualization, and more. From research and web design to data mining and software engineering, students in this field are on the cutting edge of prospective careers.

As computer science becomes increasingly intrinsic to countless aspects of daily life, the spectrum of career opportunities in this field continues to expand. By the time you graduate with a degree in computer science, you'll be a computational thinker prepared to flourish in any profession you choose.

Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate technical competency in the main areas of computer science, including theoretical foundations, computer systems, programming languages, and software development.
- Draw on a broad knowledge of computer science to design, implement, and test software solutions to significant problems in a variety of areas.
- Understand the broad applicability and impacts of computing; be proficient in one or more subareas of computer science or applied computer science.
- Adapt and extend fundamental knowledge and skills to new problem domains and emerging technologies.
- Communicate and collaborate with others as part of a project team, and express ideas orally and in writing.
- Recognize professional responsibilities and make informed judgments in computing practice based on ethical principles.

Computer Science Major Requirements

Computer science majors must complete at least 60 credits of CS courses, of which 24, including 12 upper-division credits, must be earned in residence at the University of Oregon. In addition, majors must complete 28 credits in mathematics, 12 credits in the sciences, and 4 credits of technical or business writing. The specific requirements for the CS major fall into five categories: core courses, concentration and elective courses, mathematics, writing, and science.

Computer Science I (CS 210), Computer Science II (CS 211), Computer Science III (CS 212), Elements of Discrete Mathematics I (MATH 231), and Elements of Discrete Mathematics II (MATH 232) must be passed with grades of B– or better before students can take the upper-division core courses. Courses required for the major must be taken for a letter grade; upper-division electives in CS courses numbered 410 or higher (12 credits) must also be taken for a letter grade. Upper-division courses must be passed with a grade of C– or better.

| Code                         | Title                                     | Credits |
|------------------------------|-------------------------------------------|---------|
| Core Courses: Lower Division |                                           |         |
| CS 210–212                   | Computer Science I-III                    | 12      |
| MATH 231–232                 | Elements of Discrete Mathematics I-II     | 8       |
| Core Courses: Upper Division |                                           |         |
| CS 313                       | Intermediate Data Structures              | 4       |
| CS 314                       | Computer Organization                     | 4       |
| CS 315                       | Intermediate Algorithms                   | 4       |
| CS 330                       | C/C++ and Unix                            | 4       |
| CS 415                       | Operating Systems                         | 4       |
| CS 422                       | Software Methodology I                    | 4       |
| CS 425                       | Principles of Programming Languages       | 4       |
| Core Courses: Mathematics    |                                           |         |
| Select one of the following: |                                           | 8       |
| MATH 251–252                 | Calculus I-II                             |         |
| MATH 261–262                 | Calculus with Theory I-II                 |         |
| MATH 246–247                 | Calculus for the Biological Sciences I-II |         |

|                                                                                               |                                     |    |
|-----------------------------------------------------------------------------------------------|-------------------------------------|----|
| Select two of the following:                                                                  |                                     | 8  |
| MATH 347                                                                                      | Fundamentals of Number Theory I     |    |
| or MATH 353Elementary Numerical Analysis II                                                   |                                     |    |

|----------------------------------------------------------------------------------------------------------------------------------------------|------------|
| Upper-division CS courses in student's chosen concentration, honors thesis, capstone project, or other upper-division courses <sup>4,5</sup> | 8          |
| Upper-division mathematics or theoretical computer science course <sup>6</sup>                                                               | 4          |
| <b>Total Credits</b>                                                                                                                         | <b>104</b> |

- <sup>1</sup> To support interdisciplinary study, students in any concentration are encouraged to complete a minor (typically 24–32 credits) or major in a computing-related field. Students who complete a minor (other than computer information technology or mathematics) or another major (including mathematics) in a computing-related field may, with the approval of the Undergraduate Education Committee, replace the CS laboratory science requirement with the completed minor or major.
- <sup>2</sup> Students are encouraged to complete the accompanying lab courses.
- <sup>3</sup> Physics is recommended for networks concentration students.
- <sup>4</sup> If Experimental Course: [Topic] (CS 410) courses are applied, they must have different topic subtitles to satisfy this requirement.
- <sup>5</sup> A maximum of 8 credits in upper-division courses numbered less than 410, or DSCI 311. CS courses numbered 400–499 may be taken for a maximum of 4 credits when used to satisfy this requirement. Special Studies: [Topic] (CS 399), Seminar: [Topic] (CS 407), and Experimental Course: [Topic] (CS 410) courses must have different topic subtitles to satisfy this requirement. CS 399 and CS 410 courses must have a prerequisite of CS 313 and have regular weekly class meetings and homework assignments.
- <sup>6</sup> The mathematics elective is selected from upper-division mathematics courses with a prerequisite of Calculus II (MATH 252) or higher, or from theoretical computer science courses. A list of theoretical computer science courses is available in the computer science office or the department website.

## Major Progress Review and Major in Good Standing

Each major must meet with a computer science advisor and file the Major Progress Review form while taking Intermediate Data Structures (CS 313) or Computer Organization (CS 314). Mathematics and CS core courses and at least 12 credits of CS upper division elective courses numbered 410 or higher must be taken for letter grades and passed with grades of C– or better. Other courses used to satisfy the major requirements may be taken for letter grades or pass/no pass. Grades of C– or better or P must be earned in these courses. At least 12 of the CS upper-division credits applied to the degree must be taken in residence at the university.

## Concentrations

Concentrations, or focus areas, highlight areas of specialization within the department and guide student elective choices. Each concentration has an approved list of CS courses, available from the Computer Science office or the department website. Concentrations may also include recommended science or mathematics courses or a recommended minor in another field.

### AI and Machine Learning Concentration

The artificial intelligence and machine learning concentration prepares students to develop computational solutions to problems that require emerging problem solving techniques, often involving inference from

large collections of noisy data. Course work focuses on neural and statistical approaches to inference as well as search.

### Computer Networks Concentration

The Computer Networks concentration prepares students for careers as network systems administrators, network protocol developer-programmers, or network security specialists in a wide range of environments, including educational institutions, business enterprises, and government agencies, as well as for advanced graduate studies and research in the field of computer networks. Course work encompasses most aspects of network theory and practice.

### High Performance Computing/Computational Science Concentration

The High Performance Computing/Computational science concentration prepares students to apply computational and mathematical techniques to the analysis and management of scientific data. Course work in this concentration combines depth in applied and formal aspects of Computer Science.

### Security Concentration

The Security concentration provides a foundation in topics and concepts relating to the security of computer systems and networks. It prepares students to work as security analysts and provides a highly desirable skill set for all employers, ranging from software engineers to administrators, in both the private and government sectors. It also provides a foundation for further graduate study and research in security. Course work encompasses a strong understanding of computer systems and networks and their security, and can be tailored to a more theoretical or more applied focus.

### Software Development Concentration

The Software Development concentration prepares students for careers in software engineering, software project management, software quality assurance, and other areas involving the creation of software. Course work focuses on solving problems related to the cost of development as well as the quality of the software delivered in complex software projects.

## Honors Program

Students with a GPA of 3.50 or higher in computer science and a cumulative GPA of 3.50 or higher, or a GPA of 3.75 or higher in computer science and a cumulative GPA of 3.25 or higher, are encouraged to apply to the department honors program after completing Intermediate Data Structures (CS 313), Computer Organization (CS 314), Intermediate Algorithms (CS 315), and C/C++ and Unix (CS 330). The application form is available in the department office. To graduate with departmental honors, a student must write and present a thesis under the supervision of a faculty member. Honors students will take 4 credits of CS 403 Thesis and up to 4 credits of CS 401 Research to satisfy this requirement.

## Computer Science Accelerated Master's Program

Computer Science undergraduate majors at the UO have the opportunity to graduate with B.S. and M.S. Computer Science degrees in a five-year program. See Computer Science Graduate Program (MS) (p. 228).

## Four-Year Degree Plan

The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them. Additional information may be found at the department website (<https://cs.uoregon.edu>).

## Bachelor of Arts in Computer Science

| Course                                                                                      | Title                                                         | Credits   | Milestones |

## Cybersecurity (BS)

Students may be admitted to the major after consultation with an adviser in the Department of Computer Science or with an advisor in Tykeson Hall. Students should seek admission to this major early in their career at the university as the requirements have a number of course dependencies.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Learn essential knowledge and up-to-date techniques in cybersecurity, including those in the main areas of fundamental security concepts and principles, applied cryptography, program security, and system and network security.
- Hone hands-on skills in cybersecurity via computer and network security lab courses and field studies.
- Be able to draw on a broad knowledge and hands-on skills of cybersecurity to design, implement, and test solutions to cybersecurity tasks.
- Understand the wide-ranging effects and interdisciplinary aspects of cybersecurity while attaining proficiency in one or multiple subdomains within the field of cybersecurity.
- Apply and expand foundational knowledge and skills to new problem domains and emerging technologies.
- Possess effective communication and collaboration abilities and express ideas clearly and concisely both orally and in written form.
- Adhere to ethical principles and make well-informed decisions in the field of cybersecurity.

## Cybersecurity Major Requirements

| Code                                                            | Title                                                                        | Credits |

| <b>Total Credits</b>                                                                                                         |                                                                  | <b>104</b> |

24 credits from the Computer Science department must be earned in residence at the University of Oregon.

## Computer Science Minor

The minor in computer science introduces the theories and techniques of computer science and develops programming skills that are applicable to the student's major. It is a strong complement to a major in any of the sciences and in other related fields such as multimedia, economics, digital humanities, data science, and more. Students from all majors have found their career opportunities enhanced through the CS minor.

Before enrolling in upper-division courses, students planning a minor in computer science must file an application form with the department. Each student should consult with a CS faculty advisor to plan the minor program.

### Computer Science Minor Requirements

Computer Science I (CS 210), Computer Science II (CS 211), Computer Science III (CS 212), Elements of Discrete Mathematics I (MATH 231), and Elements of Discrete Mathematics II (MATH 232) must be passed with grades of B- or better before students can take the upper-division core courses.

| Code                          | Title                                 | Credits |
|-------------------------------|---------------------------------------|---------|

## Computer Information Technology Minor

The minor in computer information technology (CIT) teaches students about the development and management of business databases, computer networks, web applications, and software systems.

### Computer Information Technology Minor

The minor in computer information technology (CIT) prepares students to work with evolving technologies for work environments that require development and management of web applications, databases, computer networks, open-source platforms, and cloud computing. It provides practical experience in understanding the tools and technologies of the computing field. It goes well with majors in the professional schools such as business and journalism and is an excellent match with almost any major on campus.

Before enrolling in CIT upper-division courses, students planning a minor in computer information technology must file an application form with the department. Each student should consult with an assigned CIT faculty advisor to plan the minor program.

Lower-division courses must be completed with grades of B– or better. Upper-division courses must be taken in sequence and are offered only once a year. Upper-division courses must be completed with grades of C– or better.

| Code                          | Title                               | Credits   |
|-------------------------------|-------------------------------------|-----------|
| <b>Lower-Division Courses</b> |                                     |           |

## Computer Science (MS)

### Program's Admission Requirements

Please visit the program's website (<https://scds.uoregon.edu/cs/graduate-programs/masters/>).

### Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Core Knowledge Breadth: Demonstrate a working knowledge of fundamental theories, research findings, and methodological approaches within Computer Science (Foundations, Systems, Data Science).

- **Core Knowledge Depth:** Demonstrate a deep working knowledge of advanced theories, research findings, and methodological approaches within one of the Computer Science areas of Foundations, Systems, and Data Science.
- **Software Engineering:** Demonstrate a working knowledge of software engineering and development techniques and related hands-on skills.
- **Thesis Option Additional Outcome - Scientific Inquiry:** Achieve a fluency in the scientific literature and the ability to pursue compelling questions within a primary field of research, and (for empirical research studies) achieve proficiency in relevant experimental design, methodology, and data analysis/statistical methods.
- **Thesis Option Additional Outcome - Scientific Communication:** Demonstrate effective written scientific communication skills.

## Master of Science in Computer Science Requirements

| Code                                                                | Title                                             | Credits   |
|---------------------------------------------------------------------|---------------------------------------------------|-----------|
| <b>Breadth Requirement: 12 credits total <sup>1</sup></b>           |                                                   | <b>12</b> |
| CS 621                                                              | Algorithms and Complexity                         |           |
| CS 670                                                              | Data Science                                      |           |
| And one of the following:                                           |                                                   |           |

| CS 640                                                              | Writing in Computer Research                      |           |
| <b>Elective Options: 28 credits total <sup>4</sup></b>              |                                                   | <b>28</b> |

Up to twelve credits in courses outside department in area closely related to professional goals may be used <sup>5</sup>

### Thesis Option <sup>6</sup>

CS 503 Thesis

CS 5XX and CS 6XX: Minimum of 8 graded credits, maximum of 11 P/NP credits

### Non-Thesis Option

CS 609 Terminal Project

CS 5XX and CS 6XX: Minimum of 18 graded credits, maximum of 10 P/NP credits

### DRP Option <sup>8</sup>

CS 601 Research: [Topic]

CS 5XX and CS 6XX: Minimum of 8 graded credits

Completion of the directed research project (DRP) milestone in the CS PhD program and approval from the DRP committee that the project meets the standards of an MS thesis.

|                      |           |
|----------------------|-----------|
| <b>Total Credits</b> | <b>54</b> |
|----------------------|-----------|

<sup>1</sup> A grade of B- or better is required

<sup>2</sup> Cannot duplicate Depth course used

<sup>3</sup> Cannot duplicate Breadth course used

<sup>4</sup> A grade of C or better is required in graded elective credits

<sup>5</sup> Courses must be approved by petition to the CS GEC; options include courses in linguistics, mathematics, physics, and psychology.

<sup>6</sup> Cannot include CS 609 Final Project

<sup>7</sup> CS 609 Final Project requirements: 8-12 credits; graded or P/NP

<sup>8</sup> No credit of CS 503 (Thesis) or CS 609 (Final Project) may count toward the elective credit requirements

## Grade Requirements

The 24 credits in the breadth courses and the depth courses must be passed with grades of B- or better. Graded elective courses must be passed with grades of C or better. A 3.00 GPA must be maintained for courses taken in the program.

## Master's Thesis

The research option requires a written thesis and 9 to 12 credits in Thesis (CS 503). Thesis research is supervised by a faculty advisor; this advisor and other faculty members constitute the thesis committee. The master's thesis is expected to be scholarly and to demonstrate mastery of the practices of computer science. This option is recommended for students who plan subsequent PhD research.

## Master's Project

The project option requires a minimum of 9 credits, and as many as 12, in Final Project Terminal Project (CS 609).

Under the supervision of a faculty member, the project may entail a group effort involving several master's degree students.

## Computer Science Accelerated Master's Program

Computer Science undergraduate majors at the UO have the opportunity to graduate with B.S. and M.S. Computer Science degrees in a five-year program.

Students with junior or senior status in the Computer Science major who have completed the 300-level required courses and CS 415 (with a grade of A- or better), and have a GPA of 3.50 or higher in computer science and a cumulative GPA of 3.50 or higher, or a GPA of 3.75 or higher in computer science and a cumulative GPA of 3.25 or higher may apply to the Accelerated Master's Program in Computer Science (AMP-CS). This application form is available in the department office.

Interested students should schedule an appointment with the CS Director of Undergraduate Studies before applying. Upon acceptance to AMP-CS, students may take graduate courses to fulfill major requirements that will also fulfill Master's degree requirements, according to UO AMP guidelines, for students admitted to the Computer Science Master's degree program.

AMP-CS students will work closely with undergraduate and graduate advisors to ensure that they are on track to graduate with both degrees. Students who do not maintain satisfactory progress or who choose not to continue to a master's degree can still graduate with a B.S. degree in Computer Science in four years.

## Computer Science Early Start Master's Program

This program is open to students who earn a BS or BA degree in computer science at the University of Oregon and who want to enter the master's degree program.

If a UO undergraduate takes one or two 400-level electives that also are offered as 500-level courses, the student can petition the department to have 4 or 8 credits deducted from the total number of elective credits required for the master's degree. The student must earn an A- or better in the 400-level course and have an overall GPA of 3.50 in upper-division CS courses to participate in this Computer Science Early Start Master's program. Note that all admission procedures, as outlined in the Master's Degree Program section, are also applicable. Applications are available in the department office. This program may be combined with the Computer Science Accelerated Master's Program (described above).

|--------|---------------------------|
| CS 503 | Thesis (9-12 credits P/N) |
|--------|---------------------------|

Non-Thesis Option <sup>8</sup>

|        |                             |
|--------|-----------------------------|
| CS 609 | Terminal Project (Optional) |
|--------|-----------------------------|

### Total Credits: 54

- a CS 522 will fulfill an undergraduate major required course requirement (CIS 422) and a master's elective requirement.
- b A maximum of 8 credits of 5/60x courses, with some exclusions, may, with prior approval, be used toward CS major undergraduate requirements and M.S. requirements. CS 503 and other CS 60x courses (e.g., CS 601, 609), when taken for a master's thesis or project (9-16 credits), must be taken as a graduate student.

- c CS 500 and 600 level courses numbered 5/610 or higher and taken for a grade will meet undergraduate CS upper-division elective requirements when taken with a passing grade. CS 500 and 600 level courses numbered 5/610 or higher and taken for a grade and passed with a minimum grade of B will also meet graduate required or elective courses requirements.

<sup>1</sup> A grade of B- or better is required

<sup>2</sup> Cannot duplicate Depth course used

<sup>3</sup> Cannot duplicate Breadth course used

<sup>4</sup> A grade of C or better is required in graded elective credits

<sup>5</sup> Up to 8 graded credits from CS Department Accelerated M.S. may be used. See CS website.

<sup>6</sup> Up to twelve credits in courses outside department in area closely related to professional goals may be used. Courses must be approved by petition to the CS GEC; options include courses in linguistics, mathematics, physics, and psychology.

<sup>7</sup> Cannot include CS 609 Final Project. Note that the Thesis Option requires at least 8 graded elective credits, which may include 500 and 600 level elective courses taken as an undergraduate.

- <sup>8</sup> Optional CS 609 Final Project requirements: 8-12 credits; graded or P/NP. Note that the Non-Thesis Option requires at least 18 graded elective credits, which may include 500 and 600 level elective courses taken as an undergraduate.
- <sup>9</sup> No credit of CS 503 (Thesis) or CS 609 (Final Project) may count toward the elective credit requirements. Note that the DRP Option requires at least 8 graded elective credits, which may include 500 and 600 level elective courses taken as an undergraduate.

## Computer Science (PhD)

The doctor of philosophy in computer science is, above all, a high-quality degree that is not conferred simply for the successful completion of a specified number of courses or years of study. It is a degree reserved for students who demonstrate a comprehensive understanding of computer science and an ability to do creative research. Each PhD student produces a significant piece of original research, presented in a written dissertation and defended in an oral examination.

The PhD program is structured to facilitate the process of learning how to do research. Students begin by taking required courses to build a foundation of knowledge that is essential for advanced research. Early in the program the student gains research experience by undertaking a directed research project under the close supervision of a faculty member and the scrutiny of a faculty committee. In the later stages of the program, students take fewer courses and spend most of their time exploring their dissertation area to learn how to identify and solve open problems. The final steps are to propose an independent research project, do the research, and write and defend a dissertation.

### Admission

Application materials should be submitted by December 15 for the following fall term. Materials include everything required for admission to the master's program as well as a discussion of the anticipated research area.

Students who enter the UO with a master's degree may petition the Graduate Education Committee for credit toward the course requirements listed below, indicating how their prior graduate work corresponds to these courses. See the graduate coordinator for the petition.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Core Knowledge Breadth: Demonstrate a broad working knowledge of fundamental theories, research findings and methodological approaches in multiple content areas within Computer Science (Foundations, Systems, Data Science).
- Core Knowledge Depth: Demonstrate a deep working knowledge of advanced theories, research findings, and methodological approaches within one of the Computer Science areas of Foundations, Systems, and Data Science.
- Software Engineering: Demonstrate a working knowledge of software engineering and development techniques and related hands-on skills.
- Scientific Inquiry: Achieve a deep fluency in the scientific literature and the ability to ask and pursue compelling questions within a primary field of research, and achieve proficiency in relevant experimental design, methodology, and data analysis/statistical methods.

- Scientific Communication: Demonstrate effective oral and written scientific communication skills.

## PhD Course Requirements

| Code                                                                | Title                                             | Credits   |
|---------------------------------------------------------------------|---------------------------------------------------|-----------|
| <b>Breadth Requirement: 12 credits total <sup>1</sup></b>           |                                                   | <b>12</b> |
| CS 621                                                              | Algorithms and Complexity                         |           |

| <b>Total Credits</b>                                                |                                                   | <b>50</b> |

- <sup>1</sup> A grade of B- or better is required
- <sup>2</sup> Cannot duplicate Depth course used
- <sup>3</sup> Cannot duplicate Breadth course used
- <sup>4</sup> A grade of C or better is required in graded elective credits

## PhD Degree Requirements

PhD candidates who enter the program without a master's degree in computer science must take 48 credits in graduate course work including the core and cluster courses required for the MS program. Doctoral

students must earn a minimum grade of B– and an overall GPA of 3.50 in the six courses they use to satisfy the breadth and depth requirements.

## Minimum Annual Enrollment

PhD students are expected to enroll in at least 6 credits of 600-level course work each year until their advancement to candidacy. Research: [Topic] (CS 601), Dissertation (CS 603), and Reading Conference: [Topic] (CS 605) do not satisfy this requirement. After candidacy, PhD students are encouraged to continue participation in 600-level courses

## Directed Research Project

Complete a directed research project, which is supervised by a faculty member and evaluated by a faculty committee. The research project comprises the following:

1. The definition and expected results of the project in the form of a Directed Research Project Contract
2. Delivery of the materials constituting the results of the project and oral presentation of the results
3. A private oral examination by the committee members

## Status Change

PhD candidates are admitted conditionally. Successful completion of the directed research project leads to a change in the student's doctoral status from conditional to unconditional.

## Dissertation Advisory Committee

After successfully completing the directed research project, PhD students form a Dissertation Advisory Committee chaired by their research advisor. The main role of the committee is to advise the student between completion of the research project and mounting the dissertation defense. The committee takes primary responsibility for evaluating student progress. In addition, it approves the plan for the area examination, which in turn is approved by the graduate education committee. See the graduate coordinator for further instructions.

## Area Examination

The student chooses an area of research and works closely with an advisor to learn the area in depth by surveying the current research and learning research methods, significant achievements, and how to pose and solve problems. The student gradually assumes a more independent role and prepares for the area examination, which tests depth of knowledge in the research area. The examination contains the following:

1. A survey of the area in the form of a position paper and an annotated bibliography
2. A public presentation of the position paper
3. A private oral examination by committee members

## Advancement to Candidacy

After the area examination, the committee decides whether the student is ready for independent research work; if so, the student is advanced to candidacy.

## Dissertation and Defense

Identify a significant unsolved research problem and submit a written dissertation proposal to the dissertation committee. The dissertation committee, comprising three department members and one member from an outside department, is approved by the graduate education

committee. In addition to these four, the dissertation committee often includes a fifth examiner. This outside examiner should be a leading researcher in the candidate's field who is not at the University of Oregon. The outside member should be selected a year before the candidate's dissertation defense, and no later than six months before.

The student submits a written dissertation proposal to the committee for approval, and the proposal is then submitted to the graduate education committee. The proposal presents the research problems to be tackled, related research, methodology, anticipated results, and work plan. The committee may request an oral presentation, similar to the area exam, which allows the student to explain and answer question about the proposed research. The student then carries out the research.

The final stage is writing a dissertation and defending it in a public forum by presenting the research and answering questions about the methods and results. The dissertation committee may accept the dissertation, request small changes, or require the student to make substantial changes and schedule another defense

## Division of Graduate Studies Requirements

PhD students must meet the requirements set by the Division of Graduate Studies as listed in that section of this catalog

## Research Areas

It is important that a PhD student be able to work effectively with at least one dissertation advisor. Hence the student should identify, at an early stage, one or more areas of research to pursue. The student should also find a faculty member with similar interests to supervise the dissertation.

## Data Science

### Bill Cresko

*Executive Director for the Data Science Initiative*  
*Professor of Biology*  
 541-346-4779

The volume, rate, and importance of data is growing exponentially, with more data being created in the past two years than in all history combined. At the University of Oregon we're bringing our strengths as a liberal arts university to the field – to not only ask what can we do with data – but what should we do.

As a data science major at the UO, you will learn key computational, statistical, and inferential data science skills side-by-side with applied knowledge in one of 10 different areas: accounting analytics, biology, earth science, economics, geography, linguistics, marketing analytics, music technology, physics, and sociology. Our unique interdisciplinary program teaches you how to extract knowledge and insight from data, empowering you to make decisions earlier, faster, better. When you graduate, your understanding of applied data science techniques, framed within the liberal arts, will help launch you directly into the workforce.

Students may earn a bachelor of arts (BA) or a bachelor of science (BS) degree.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate the ability to assess data set quality, identifying and rectifying potential errors in such a way so as to lead to statistically meaningful derived information.
- Visualize complex data sets using descriptive statistics and graphs.
- Demonstrate understanding of basic regression, optimization, prediction, simulation, and visualization methods.
- Use critical thinking skills to translate substantive questions into well-defined statistical or probability problems and choose the appropriate graphical or numerical descriptive and/or inferential statistical techniques for a given problem, leading to actionable, valid, and meaningful conclusions.
- Develop successful strategies for formulating and testing hypotheses about data.
- Demonstrate an understanding of ethical, legal, societal, and economic concerns.
- Apply fundamental concepts of data science (data management, statistical prediction and inference, experimental design, etc.) to applications specific to the chosen specialization domain.

## Data Science Geography Concentration Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Exhibit a general understanding of the geographic and mathematical foundations of spatial data science and technologies.
- Demonstrate knowledge of the geographic context of technology infrastructure, geographic data needs, and technology interface design and therefore have the potential to contribute to the development of geospatial data and technologies.
- Understand the societal implications of geospatial data and technologies, including issues surrounding privacy and security of individual-level data containing locational information, the types of inequalities that certain geospatial technologies produce, and the role that geospatial technologies play in humanitarian crises.
- Utilize geospatial data and technologies for collecting data, employ analytical and visualization methods for interpreting such data, and communicate effectively to a range of audiences.

## Data Science Major Requirements

The data science curriculum combines general principles with domain-specific application. The curriculum is sub-divided into the following categories with the corresponding requirements:

| Code                                            | Title                                                               | Credits |
|-------------------------------------------------|---------------------------------------------------------------------|---------|
| <b>Data Science Core Courses</b>                |                                                                     |         |
| DSCI 101                                        | Foundations of Data Science I                                       | 4       |
| DSCI 102                                        | Foundations of Data Science II                                      | 4       |
| DSCI 311                                        | Principles and Techniques of Data Science                           | 4       |
| Data Science Capstone Project                   |                                                                     | 4       |
| <b>Foundations in Mathematics and Computing</b> |                                                                     |         |
| CS 210 & CS 211 & CS 212                        | Computer Science I and Computer Science II and Computer Science III | 12      |
| MATH 251 & MATH 252                             | Calculus I and Calculus II                                          | 8       |
| MATH 341 & MATH 342                             | Elementary Linear Algebra and Elementary Linear Algebra             | 8       |

|                                               |                                                                      |              |
|-----------------------------------------------|----------------------------------------------------------------------|--------------|
| <b>Probability</b>                            |                                                                      |              |
| DSCI/MATH 345M                                | Probability and Statistics for Data Science                          | 4            |
| <b>Modeling, Learning and Decision Making</b> |                                                                      |              |
| DSCI/CS 372M                                  | Machine Learning for Data Science                                    | 4            |
| <b>Ethics Course</b>                          |                                                                      |              |
| PHIL 223                                      | Data Ethics                                                          | 4            |
| <b>Computational and Inferential Depth</b>    |                                                                      |              |
| Select three courses from the list below:     |                                                                      | 12           |
| CS 314                                        | Computer Organization                                                |              |
| CS 322                                        | Introduction to Software Engineering                                 |              |

| <b>Domain Emphasis</b>                        |                                                                      | <b>22-28</b> |
| <b>Total Credits</b>                          |                                                                      | <b>90-96</b> |

### Domain Emphasis

The domain emphasis consists of completing 2-3 courses (8-12 credits) in the domain core, followed by a minimum of 4 courses (16 credits) of domain specialization. For each domain emphasis, a curated list of courses has been developed for both the core and specialization component. Please see the Concentrations tab (p. 232) for a detailed list of courses that satisfy each available domain emphasis.

An essential aspect of the degree in data science is that data science majors develop critical competencies in a domain emphasis of their choosing. The domain emphasis consists of completing 2-3 courses (8-12 credits) in the domain core, followed by a minimum of 3 courses (12 credits) of domain specialization. For each domain emphasis, a curated list of courses has been developed for both the core and specialization component.

Currently, domain emphases have been established for biology, geography, accounting analytics, marketing analytics, and linguistics. The curated list of domain core and domain specialization courses for each domain is outlined below.

- Accounting Analytics (p. 233)
- Biology (p. 233)
- Cultural Analytics (p. 233)
- Earth Sciences (p. 233)
- Economics (p. 234)
- Geography (p. 234)
- Linguistics (p. 234)
- Marketing Analytics (p. 234)

- Music Technology (p. 235)
- Physics (p. 235)
- Sociology (p. 235)

## Data Science Domain - Accounting Analytics

Data has proliferated in business as organizations generate large volumes of information within their day to day operations while increasingly having access to externally created information as well.

Data science applied to accounting data can help organizations understand the implications for decision-making and provide better insights. You might delve into company sales data, purchasing data, contracts, or company disclosures to help solve a variety of business problems.

In the data science domain area of accounting analytics, you will learn to search for relationships between different variables and outcomes they influence, driving business decisions and informing success.

## Data Science Domain - Biology

Recent technological breakthroughs in DNA sequencing mean that scientists can characterize an organism's entire genome in a matter of days. But a great challenge remains in translating that genomic sequence — nature's data set — into biology.

That translation is fundamentally changing how we study biology.

In the data science domain area of biology, you will find yourself on the cutting edge of the field, working in the acquisition, analysis, and interpretation of data and how it applies to gene function, disease, microbial ecology, and the assembly and characterization of new genomes.

## Data Science Domain - Geography

Spatial data is integrated into our everyday lives and employed in a range of professions. We are all integrated into a complex web of movement, place, and discovery, whether we're navigating across town or interpreting maps of election results.

UO geographers use spatial data technologies to focus on remote sensing of the changing environment, climate-change analysis, web-mapping, cartography and data visualization, spatial cognition, and spatial patterns in public health.

In the data science domain area of geography, you will be studying how spatial data can revolutionize business, nonprofit, and government worlds.

## Data Science Domain - Linguistics

Usage-based linguistics studies language as a dynamic, constantly changing system. Much of this work involves working with large collections of text or speech – referred to as “corpora.” Examples of readily available real-world corpora include Amazon product reviews and collections of Twitter messages.

Linguists use corpora to help identify patterns and structures in language, providing insights into how we both acquire and lose language skills, how language use varies across people and contexts, and how real-life speech and language evolve.

In the data science domain area of linguistics, you will learn methods to identify linguistic structures within corpora, glean new insights while using the best and latest practices in the field. These methods will allow you to answer basic science questions as well as questions that are of interest to marketing firms, political consulting groups, or other commercial enterprises. So, for example, you can use the knowledge you acquire in the linguistics domain to explore how the use of a word like “cool” has changed over time (a basic science question) or to identify linguistic strategies associated with leading positive product reviews for different product types (a marketing question).

## Data Science Domain - Marketing Analytics

Marketing analytics is the practice of measuring, managing, and analyzing marketing performance to maximize effectiveness and optimize return on investment. Data science applied to marketing data can help a business predict consumer behavior, improve decision-making, and gauge the success of marketing investments.

For example, machine learning and statistical techniques can be used to classify data and detect patterns that might predict a campaign's success.

In the data science domain area of marketing analytics, you will learn how to see the future, through the lens of both existing and new methods of predictive analytics.

| <b>Total Credits</b>           |                                            | <b>28</b> |

## Earth Sciences

### Samantha Hopkins, Department Head

541-346-5976  
100 Cascade Hall  
1272 University of Oregon  
Eugene, Oregon 97403-1272

### Faculty

Ilya N. Bindeman, professor (stable isotope geochemistry, volcanology). BS, 1988, Moscow; PhD, 1998, Chicago. (2004)

Edward B. Davis, associate professor (vertebrate paleontology). BS, 1999, Tennessee, Knoxville; PhD, 2005, California, Berkeley. (2013)

Rebecca J. Dorsey, professor (sedimentology, basin analysis). BS, 1983, Vermont; MA, 1986, PhD, 1989, Princeton. (1997)

Josef Dufek, professor (volcanology). BS, 2000, Chicago; MS, 2004, PhD, 2006, Washington (Seattle). (2017)

Brittany Erickson, assistant professor (computational science). PhD, 2010, Santa Barbara (2018)

Thomas Giachetti, assistant professor (volcanology). MS, 2006, PhD, 2010, Université Blaise Pascal, Clermont-Ferrand. (2015)

Emilie Hooft Toomey, associate professor (marine geophysics). BSc, 1990, Trinity College, Toronto; PhD, 1997, Massachusetts Institute of Technology and Woods Hole Oceanographic Institution. (1999)

Samantha Hopkins, associate professor (paleontology). See **Robert Donald Clark Honors College**.

Qusheng Jin, associate professor (biogeoscience). BS, 1994, Nanjing; MS, 1997, Chinese Academy of Sciences; PhD, 2003, Illinois, Urbana-Champaign. (2005)

Leif A. Karlstrom, assistant professor (volcanology, geomorphology, fluid mechanics). BS, 2006, Oregon; PhD, 2011, California, Berkeley. (2011)

Diego Melgar, assistant professor (earthquake seismology, tsunamis, geodetic imaging). BEng., 2009, Universidad Nacional Autonoma de Mexico; MS, 2010, PhD, 2014, Scripps College. (2017)

Marli B. Miller, senior instructor (structural geology). BA, 1982, Colorado College; MS, 1987, PhD, 1992, Washington (Seattle). (1997)

Matthew Polizzotto, associate professor (soil and environmental hydrogeochemistry). BS, BA, 2001, Rochester; PhD, 2007, Stanford. (2016)

Alan W. Rempel, professor (geomechanics and applied mathematics). BASc, 1991, MSc, 1995, British Columbia; PhD, 2001, Cambridge. (2004)

Gregory J. Retallack, professor (paleobotany, paleosols). BA, 1973, Macquarie; PhD, 1978, New England University, Australia. (1981)

Joshua J. Roering, professor (surface processes, geomorphology). BS, 1994, MS, 1995, Stanford; PhD, 2000, California, Berkeley. (2000)

Valerie Sahakian, assistant professor (tectonics, ground seismology, marine geophysics). BS, 2009, Rhode Island; MS, 2010, PhD, 2015, Scripps College. (2018)

David A. Sutherland, associate professor (physical oceanography). BA, 2001, North Carolina, Wilmington; PhD, 2008, Massachusetts Institute of Technology and Woods Hole Oceanographic Institution. (2011)

Amanda M. Thomas, associate professor (earthquake seismology and fault mechanics). BS, 2007, Georgia Institute of Technology; PhD, 2012, California, Berkeley. (2015)

Douglas R. Toomey, professor (seismology, tectonics, midocean ridges). BS, 1981, Pennsylvania State; PhD, 1987, Massachusetts Institute of Technology and Woods Hole Oceanographic Institution. (1990)

Meredith Townsend, assistant professor (volcanology). BS, 2011, Washington and Lee, PhD, 2017, Stanford (2019)

Paul J. Wallace, professor (igneous petrology, volcanology, geochemistry). BS, 1986, George Washington University; PhD, 1991, California, Berkeley. (2001)

James M. Watkins, associate professor (experimental petrology, geochemistry, volcanology). BS, 2005, Wisconsin, Eau Claire; PhD, 2010, California, Berkeley. (2012)

#### Research Staff

Andrew Hadlock, research assistant. BS, 2018, Florida (2019)

Sara Meyer, field technician. BS, 2010, California, Santa Cruz; IT specialist certification, 2015, Alaska, Fairbanks. (2017)

Leland O'Driscoll, seismic field technician. PhD, 2012, Oregon (2015)

James Palandri, research associate. PhD, 2000, Oregon. (2001)

Silas Thoms, research assistant. BS, 2019, Oregon State (2019)

Lucy Walsh, research assistant. MS, 2012, Oregon. (2017)

## Emeriti

Eugene D. Humphreys, professor (seismology, regional tectonics). BS, 1974, MS, 1978, California, Riverside; PhD, 1985, California Institute of Technology. (1985)

A. Dana Johnston, professor (experimental petrology, geochemistry). BS, 1976, Bates; MS, 1978, PhD, 1983, Minnesota. (1986)

M. Allan Kays, professor emeritus. BA, 1956, Southern Illinois; MA, 1958, PhD, 1960, Washington (St. Louis). (1961)

William N. Orr, professor emeritus. BS, 1961, Oklahoma; MA, 1963, California, Riverside and Los Angeles; PhD, 1967, Michigan State. (1967)

Mark H. Reed, professor (mineral deposits, aqueous geochemistry). BA, 1971, Carleton; MS, 1974, PhD, 1977, California, Berkeley. (1979)

Jack M. Rice, professor emeritus. AB, 1970, Dartmouth College; MS, 1972, PhD, 1975, Washington (Seattle). (1977)

Norman M. Savage, professor emeritus. BSc, 1959, Bristol; PhD, 1968, Sydney. (1971)

Ray J. Weldon, professor (neotectonics, structural and quaternary geology). BA, 1977, Pomona; PhD, 1986, California Institute of Technology. (1987)

*The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.*

## Undergraduate Programs

### Major - Bachelor's Degree

- Earth Sciences (BA/BS) (p. 236)

### Minor

- Earth Sciences (p. 246)

## Graduate Programs

### Major - Master's Degree

- Earth Sciences (MS) (p. 246)

### Major - Doctoral Degree

- Earth Sciences (PhD) (p. 247)

## Earth Sciences (BA/BS)

Students in the Department of Earth Sciences learn about the minerals, rocks, soils, and waters that make up the earth, and the processes that shape the earth from deep in its interior to the atmosphere. Earth science applies the basic sciences of physics, biology, chemistry, and mathematics to understanding processes that have shaped the earth and other planetary bodies. Earth scientists combine field investigations with laboratory experiments and theoretical studies to understand the physical, chemical and biological processes that govern the behavior and interactions of complex earth systems.

Earth science applications include natural hazards such as earthquakes, floods, landslides and volcanic eruptions that affect humans. Other subdisciplines investigate how humans alter the earth's environments, where we pollute rivers and ground water, cause rapid erosion, attempt

to re-engineer rivers and shorelines, and alter the earth's atmosphere, oceans, and global climate. Earth science research also includes the study of the deep earth to understand processes that drive the motions of tectonic plates and generate the earth's magnetic field.

## Environmental Geoscience Track

### Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate proficiency with modern quantitative tools that are used in the Earth sciences.
- When confronted with real-world Earth science problems, develop and test hypotheses in a systematic way while stating caveats and assumptions.
- Recognize, describe, and quantify dynamic processes that operate on the Earth's surface environments, as well as the interaction of humans with these environments. \

#### Geology Track

### Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate proficiency with modern quantitative tools that are used in the Earth sciences.
- When confronted with real-world Earth science problems, develop and test hypotheses in a systematic way while stating caveats and assumptions.
- Use techniques from modern earth science disciplines to solve complex problems across a diversity of scales through time and space that require consistent geological reasoning.

## Geophysics Track

### Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate proficiency with modern quantitative tools that are used in the Earth Sciences.
- When confronted with real-world Earth science problems, develop and test hypotheses in a systematic way while stating caveats and assumptions.
- Develop a foundation in mathematics and physics that enables them to quantitatively describe key aspects of fundamental Earth processes.

## Paleontology Track

### Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate proficiency with modern quantitative tools that are used in the Earth sciences.
- When confronted with real-world Earth science problems, develop and test hypotheses in a systematic way while stating caveats and assumptions.
- Demonstrate proficiency with the tools and techniques necessary to recognize geological evidence and reconstruct geological history

for biological processes that have driven the evolution of life, as preserved in fossils extracted from ancient rocks.

- Geology (p. 237)
- Geophysics (p. 238)
- Environmental Geoscience (p. 239)
- Paleontology (p. 240)

## Undergraduate Research

As many as 4 credits of research can be counted toward electives in any of the tracks. To receive such credit, students must

- submit a short letter, approved by the faculty research advisor and addressed to the head undergraduate advisor in earth sciences, stating the nature of the research and asserting that there is faculty supervision
- submit a final written report to the faculty advisor describing the results of the research

Students may earn credit in this category by registering for any of the following:

| Code     | Title                        | Credits |
|----------|------------------------------|---------|
| ERTH 401 | Research: [Topic]            | 1-21    |
| ERTH 406 | Field Studies: [Topic]       | 1-6     |
| ERTH 408 | Laboratory Projects: [Topic] | 1-6     |

Students who complete an honors thesis may not apply this option toward elective credits.

## Grade Options and Standards

Undergraduate majors must take for letter grades (the pass/no pass option is not acceptable) all the courses required in their degree program. Required courses must be completed with grades of C– or better. Exceptions for honors students are noted under Honors in Earth Sciences.

## Honors in Earth Sciences

Application for graduation with honors in earth sciences must be made no later than spring term of the student's junior year. To be eligible for graduation with honors, a student must

- maintain a grade point average (GPA) of 3.50 or better in geological sciences courses or a 3.00 or better in all science courses
- submit and orally present an acceptable honors thesis written under the supervision of a department faculty member and evaluated by a committee consisting of three faculty members including the supervisor. The thesis should be presented no later than three weeks before final examinations during the term the student plans to graduate

Honors students may register for 3 credits of Research: [Topic] (ERTH 401) the term before they intend to graduate, and 3 credits of Thesis (ERTH 403) the term of graduation. These credits may be applied toward electives.

## Four-Year Degree Plan

*The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.*

- Geology Track (p. 241)
- Geophysics Track (p. 243)
- Environmental Geoscience Track (p. 244)
- Paleontology Track (p. 245)

## Earth Sciences Minor

The undergraduate program in the Department of Earth Sciences provides an understanding of the materials that constitute the earth and the processes that have shaped the earth from deep in its interior to the surface environment—geology. Geology applies all the basic sciences—biology, chemistry, mathematics, and physics—to understanding earth processes in the historical context of geologic time. It is a science that explores problems by combining field investigations with laboratory experiments and theoretical studies.

Geology also addresses many natural hazards—earthquakes, flooding, and volcanic eruptions—that affect humans. It addresses the impact of humans on the earth’s surface environment, where we pollute rivers and ground water, cause rapid erosion and landslides, or attempt to re-engineer rivers and shorelines.

### Minor Requirements

|                                                     |                                                                                      |         |
|-----------------------------------------------------|--------------------------------------------------------------------------------------|---------|
| Code                                                | Title                                                                                | Credits |
| Choose one of the following three-course sequences: |                                                                                      | 12      |
| ERTH 101 & ERTH 102 & ERTH 103                      | Exploring Planet Earth and Exploring Earth’s Environment and Exploring Earth History |         |
| ERTH 201 & ERTH 202 & ERTH 203                      | Dynamic Planet Earth and Earth’s Surface and Environment and History of Life         |         |
| Choose from the following courses: <sup>1</sup>     |                                                                                      | 16      |
| ERTH 213                                            | Geology of National Parks                                                            |         |

|                     |    |
|---------------------|----|
| ERTH 300 - ERTH 499 |    |
| Total Credits       | 28 |

<sup>1</sup> 16 credits of earth sciences courses (exclusive of independent study courses) must be earned with course numbers greater than ERTH 299 (ERTH 213 is acceptable, however). No more than 8 credits may be applied to the minor from the following list: Geology of National Parks (ERTH 213), The Fossil Record (ERTH 304), Dinosaurs (ERTH 305), Volcanoes and Earthquakes (ERTH 306), Oceanography (ERTH 307), Geology of Oregon and the Pacific Northwest (ERTH 308), Earth Resources and the Environment (ERTH 310).

Undergraduate minors must take all required courses for letter grades and complete them with grades of C– or better.

## Earth Sciences (MS)

The Department of Earth Sciences offers programs of graduate study leading to master of science (MS) and doctor of philosophy (PhD) degrees with opportunity for research in a wide variety of specialty fields. Course work is designed to meet individual needs, and students may pursue independent research in geobiology, geochemistry, geodesy, geomechanics, geomorphology, geophysics, mineralogy, petrology, volcanology, paleontology, stratigraphy, sedimentary petrology, structural geology, and ore deposit geology. The master’s degree program requires two years or more for completion.

Graduate study in earth sciences is offered in five broad areas:

1. volcanology-petrology-geochemistry
2. stratigraphy–surface processes
3. paleontology-paleopedology-geobiology
4. structural geology–geophysics
5. economic geology (mineral deposits)

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate proficiency with modern quantitative tools that are used in the Earth sciences.
- When confronted with real-world Earth science problems, develop and test hypotheses in a systematic way while stating caveats and assumptions.
- Show familiarity with scientific understanding of topics that tie directly to their thesis research, as reflected by the current refereed literature.
- Organize and present their scientific results both in concise, well-reasoned technical writing and in front of scientific audiences at major conferences.
- Demonstrate understanding of ethical issues and responsibilities associated with working in a diverse, global community of scientists.

## Earth Sciences Major

|                               |       |         |
|-------------------------------|-------|---------|
| Code                          | Title | Credits |
| 500 or 600 level <sup>1</sup> |       | 24      |
| 600-699 level <sup>2</sup>    |       | 9       |
| Thesis <sup>3</sup>           |       | 9       |

|                                |           |
|--------------------------------|-----------|
| Remaining Credits <sup>4</sup> | 3         |
| <b>Total Credits</b>           | <b>45</b> |

*At least 30 credit hours in residence, in the major*

- <sup>1</sup> Only graded courses apply. Up to 15 credits may be taken in courses offered outside the department (with advisor approval)
- <sup>2</sup> May be taken graded or pass/no pass, but only graded courses can apply toward the 24 credits above.
- <sup>3</sup> GEOL 503. At least 3 thesis credits must be taken in the final term.
- <sup>4</sup> Can include research, readings, and seminars. Students are expected to register for and attend the department seminar and graduate student seminar (607) each term.

## Earth Sciences (PhD)

The Department of Earth Sciences offers programs of graduate study leading to master of science (MS), master of arts (MA), and doctor of philosophy (PhD) degrees with opportunity for research in a wide variety of specialty fields. Course work is designed to meet individual needs, and students may pursue independent research in geobiology, geochemistry, geodesy, geomechanics, geomorphology, geophysics, mineralogy, petrology, volcanology, paleontology, stratigraphy, sedimentary petrology, structural geology, and ore deposit geology. The master's degree program requires two years or more for completion.

Graduate study in earth sciences is offered in five broad areas:

1. volcanology-petrology-geochemistry
2. stratigraphy-surface processes
3. paleontology-paleopedology-geobiology
4. structural geology-geophysics
5. economic geology (mineral deposits)

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate proficiency with modern quantitative tools that are used in the Earth sciences.
- When confronted with real-world Earth science problems, develop and test hypotheses in a systematic way while stating caveats and assumptions.
- Show familiarity with scientific understanding of topics that tie directly to their thesis research, as reflected by the current refereed literature.
- Organize and present scientific results both in concise, well-reasoned technical writing and in front of scientific audiences at major conferences.
- Demonstrate understanding of ethical issues and responsibilities associated with working in a diverse, global community of scientists.
- Identify, define, and clearly argue the significance of a scientific problem, and execute the research necessary to advance scientific understanding of this problem.

## Earth Sciences Major

| Code                                  | Title | Credits |
|---------------------------------------|-------|---------|
| 500 or 600 Level Courses <sup>1</sup> |       | 15      |
| Dissertation <sup>2</sup>             |       | 18      |

|                                 |           |
|---------------------------------|-----------|
| Additional Credits <sup>3</sup> | 48        |
| <b>Total Credits</b>            | <b>81</b> |

- <sup>1</sup> Must be taken for grade.
- <sup>2</sup> GEOL 603, with a minimum of 3 credits must be taken in the last term.
- <sup>3</sup> 3+ years of full-time study (at least 9 credits/term may include research or reading credits). Students are expected to register for and attend the department seminar and graduate student seminar (607) each term.

*Ph.D. students are required to take 15 graded classroom credits at the graduate-level (500-600 level). These courses must be approved by the guidance/dissertation committee chair to ensure that they are geared toward achieving balance between the increasing the breadth of their academic experience and maintaining focus on areas of relevance to their research. They must also take 18 hours of dissertation credits (GEOL 603).*

## Human Physiology

**Andrew Karduna, Department Head**

541-346-4107  
541-346-2841 fax  
181 Esslinger Hall

Human physiology is the science of the mechanical, physical, and biochemical function of humans, and serves as the foundation of modern medicine. As a discipline, it connects science, medicine, and health, and creates a framework for understanding how the human body adapts to stresses, physical activity, and disease.

Human physiology and anatomy are closely related—anatomy is the study of form, physiology is the study of function, and form and function are intrinsically linked. The study of human physiology integrates knowledge across many levels, including biochemistry, cell physiology, and organ systems. Contemporary research in human physiology explores new ways to maintain or improve the quality of life, the development of new medical therapies and interventions, and the unanswered questions about how the human body works. The Department of Human Physiology serves its students by providing strong training in human physiology and anatomy to prepare them for careers in medicine, allied health professions, and biomedical research.

## Faculty

Damien Callahan, assistant professor. BA, 2001, Boston; PhD, 2011, Massachusetts, Amherst. (2017)

Hans Dreyer, associate professor. BS, 1998, California State, Long Beach; MS, 2002, PhD, 2004, Southern California. (2009)

Grace Golden, senior lecturer. BS, 1989, MS, 1991, Oregon; PhD, 2007, Oregon State. (2009)

Ian Greenhouse, assistant professor. BA, 2004, Tufts; PhD, 2012, California, San Diego. (2017)

Michael Hahn, associate professor. BS, 1996, Colorado Mesa; MS, 2000, Iowa State; PhD, 2003, Oregon. (2012)

John Halliwill, professor. BS, 1991, Ohio State; PhD, 1995, Medical College of Virginia. (2002)

Robin Hopkins, senior instructor. BS, 2005, Simon Fraser; MS, 2009, Western Ontario; PhD, 2014, British Columbia. (2014)

Adrianne Huxtable, associate professor. BS, 2003, British Columbia; PhD, 2009, Alberta. (2015)

Andrew Karduna, professor. BS, 1989, Massachusetts Institute of Technology; MS, 1991, Johns Hopkins; PhD, 1995, Pennsylvania. (2002)

Andrew Lovering, professor. BS, 1995, PhD, 2003, Texas Tech. (2007)

Michelle Marneweck, assistant professor. BA, 2020, MS/PhD, 2014, Western Australia. (2020)

Philip Matern, senior instructor. BS, 2003, Gonzaga; MS, 2005, Central Washington. (2014)

Carrie McCurdy, associate professor. BS, 1998, Notre Dame; PhD, 2004, Wisconsin, Madison. (2013)

Christopher Minson, Kenneth and Kenda Singer Endowed Professor in Human Physiology. BS, 1989, Arizona; MA, 1993, San Diego State; PhD, 1997, Pennsylvania State. (2000)

Jon Runyeon, senior instructor. BS, 1996, MS, 2010, Oregon. (2012)

Elinor Sullivan, research associate professor. BA, 2000, Willamette; PhD, 2006, Oregon Health and Science. (2017)

Nicole Swann, assistant professor. BA, 2006, California, Berkeley; PhD, 2012, California, San Diego. (2017)

Ashley Walker, assistant professor. BS, 2003, Oregon State; PhD, 2010, Colorado, Boulder. (2017)

Yuta Suzuki, courtesy research associate professor. BS, 2006, MS, 2008, Kyoto; PhD, 2014, Tsukuba. (2021)

Jeffrey Tuman, courtesy associate clinical professor. BA, 2005, Virginia; MD, 2009, Drexel. (2021)

Brad Wilkins, courtesy instructor. BS, 1993, Oregon State; MS, 1996, Northern Michigan; PhD, 2003, Oregon. (2014)

## **Emeriti**

Barry Bates, professor emeritus. BSE, 1960, Princeton; MEd, 1971, East Stroudsburg; PhD, 1973, Indiana. (1974)

Gary Klug, professor emeritus. BS, 1970, MS, 1973, Wisconsin, La Crosse; PhD, 1980, Washington State. (1985)

Louis Osternig, professor emeritus. BS, 1965, MS, 1967, California State, Hayward; PhD, 1971, Oregon. (1971)

Richard Troxel, senior instructor emeritus. BS, 1975, MS, 1977, Oregon. (1976)

Marjorie Woollacott, professor emerita. BA, 1968, PhD, 1973, Southern California. (1980)

*The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.*

## **Undergraduate Program**

### **Major - Bachelor's Degree**

- Human Physiology (BA/BS) (p. 249)

## **Graduate Program**

### **Major - Doctoral Degree**

- Human Physiology (PhD) (p. 252)

## **Human Physiology (BA/BS)**

Human physiology is the science of the mechanical, physical, and biochemical function of humans, and serves as the foundation of modern medicine. As a discipline, it connects science, medicine, and health and creates a framework for understanding how the human body adapts to stresses, physical activity, and disease.

Undergraduate students in human physiology complete preparatory science courses in chemistry, biology, mathematics and physics that prepare them for upper level coursework in human anatomy and physiology as well as courses that explore the functional and structural mechanisms underlying human health and performance across the life span. The majority of our students aspire to be professionals in health-science fields such as medicine, physical therapy, nursing, dentistry, pharmacy, education, and research.

## **Program Learning Outcomes**

Upon successful completion of this program, students will be able to:

- **Content Intellectual Breadth:** Demonstrate content knowledge and understanding of terminology, concepts, and relationships in human anatomy and physiology.
- **Inquiry:** Utilize a broad foundation of anatomical relationships and physiological principles in analysis, application, and synthesis related to human physiology and pathophysiology.
- **Critical Thinking:** Critically evaluate scientific information to help make decisions with respect to personal health, clinical applications, and research in human physiology.
- **Life-long Learning:** Demonstrate life-long learning skills, which include deciding what needs to be learned, articulating a learning plan, and implementing this plan.
- **Communication:** Communicate effectively, to a variety of audiences, in various modes.
- **Ethics Professionalism:** Demonstrate knowledge of ethical and professional behavior related to academic integrity, communication with others, and during individual and cooperative work.

## Program Learning Outcomes with Sub-Outcomes

1. Content & Intellectual Breadth: Demonstrate content knowledge and understanding of terminology, concepts, and relationships in human anatomy and physiology.
  - 1.1. Identify problems, articulate questions or hypotheses, and determine the need for information.
  - 1.2. Access and collect the needed information from appropriate primary and secondary sources.
  - 1.3. Use quantitative and qualitative methods, including the ability to recognize assumptions, draw inferences, make deductions, and interpret information to analyze problems in context and draw conclusions.
2. Inquiry: Utilize a broad foundation of anatomical relationships and physiological principles in analysis, application, and synthesis related to human physiology and pathophysiology.
  - 2.1. Recognize the complexity of problems and identify different perspectives from which problems and questions can be viewed.
  - 2.2. Evaluate and report on conclusions, including discussing the basis for and strength of findings, and identify areas where further inquiry is needed.
3. Critical Thinking: Critically evaluate scientific information to help make decisions with respect to personal health, clinical applications, and research in human physiology.
  - 3.1. Identify, analyze, and evaluate reasoning and construct and defend reasonable arguments and explanations.
4. Life-long Learning: Demonstrate life-long learning skills, which include deciding what needs to be learned, articulating a learning plan, and implementing this plan.
  - 4.1. Demonstrate in-depth knowledge and skills in Human Physiology.
  - 4.2. Identify the fundamental principles of Human Physiology.
  - 4.3. Apply the research methods and theoretical models of Human Physiology to define, solve, and evaluate problems.
  - 4.4. Transfer knowledge and skills gained from general and specialized studies to new settings and complex problems.
  - 4.5. Demonstrate life-long learning skills, including the ability to place problems in personally meaningful contexts, reflect on one's own understanding, demonstrate awareness of what needs to be learned, articulate a learning plan, and act independently on the plan using appropriate resources.
  - 4.6. Achieve success in Human Physiology, including applying persistence, motivation, interpersonal communications, leadership, goal setting, and career skills.
5. Communication: Communicate effectively, to a variety of audiences, in various modes.
  - 5.1. Demonstrate general academic literacy, including how to respond to needs of audiences and to different kinds of rhetorical situations, analyze and evaluate reasons and evidence, and construct research-based arguments using Standard Written English.
  - 5.2. Effectively use the common genres and conventions for writing within Human Physiology.
  - 5.3. Prepare and deliver effective oral presentations.
  - 5.4. Collaborate effectively with others to share information, solve problems, or complete tasks.
  - 5.5. Produce effective visuals using different media.
  - 5.6. Apply the up-to-date technologies commonly used to research and communicate within Human Physiology.

6. Ethics & Professionalism: Demonstrate knowledge of ethical and professional behavior related to academic integrity, communication with others, and during individual and cooperative work.
  - 6.1. Assembling and analyzing a set of sources that students have determined are relevant to the issue they are investigating.
  - 6.2. Acknowledging clearly when and how they are drawing on the ideas or phrasings of others.
  - 6.3. Learning the conventions for citing documents and acknowledging sources appropriate to the field they are studying.
  - 6.4. Examine various concepts and theories of ethics and how to deliberate and assess claims about ethical issues.
  - 6.5. Apply ethical concepts and theories to specific ethical dilemmas students will experience in their personal and professional lives.

## Human Physiology Major Requirements

| Code                                    | Title                                                                                                                                                                        | Credits   |

**Total Credits** **101**

<sup>1</sup> Should be taken in the first year.

<sup>2</sup> Must be taken in residence at the University of Oregon.

Courses required for the major must be taken for letter grades and passed with grades of C- or better. Additional requirements for the bachelor's degree are described in the **Bachelor's Degree Requirements** section of this catalog.

## Honors

To apply to graduate with departmental honors, a student must have a GPA of 3.50 or better in courses applied toward the human physiology degree requirements and complete an honors thesis under

the supervision of a human physiology thesis committee. In addition, human physiology majors enrolled in the Robert Donald Clark Honors College at the University of Oregon are eligible to complete an honors thesis through that program.

## Four-Year Degree Plan

*The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.*

*The bachelor of science is shown below. A bachelor of arts in human physiology may be earned by completing (or demonstrating proficiency in) two years of a foreign language.*

## Bachelor of Science in Human Physiology

| Course                                | Title                                     | Credits   | Milestones                                 |

**Total Credits** 45

- <sup>1</sup> Students not starting in Precalculus II: Trigonometry (MATH 112Z) may require additional terms to graduate.
- <sup>2</sup> To complete general-education requirements within eight courses, students must take arts and letters or social science group-satisfying courses that also satisfy multicultural requirements.
- <sup>3</sup> List A and List B options may be found online. (<https://cas.uoregon.edu/physiology/undergraduates/major-requirements/>)

# Human Physiology (PhD)

Our PhD program provides classroom and research experiences, helping students grow into professionals equipped with the experience to be great researchers. Providing students with an in-depth understanding of human physiology and advanced research skills is our hallmark. Our department houses state-of-the-art equipment, furthering our understanding of the physiological process.

## Program Learning Outcomes

- Upon successful completion of this program, students will be able to:
- Teaching and Mentoring: Demonstrate working knowledge of current teaching and mentoring best-practices.
  - Professional Ethics: Demonstrate knowledge of ethical and professional behavior related to academic and research integrity.
  - Career Development: Demonstrate proactive career planning and goal setting and participation in professional development activities.
  - Core Knowledge: Demonstrate broad working knowledge of content areas and detailed knowledge of a primary content area.
  - Scientific Inquiry: Demonstrate fluency in the scientific literature, current questions, and research methods in a primary content area.
  - Scientific Communication: Demonstrate effective oral and written scientific communication skills, including data presentation.

Key:

Program Learning Outcome

I = introduces outcome; D = develops outcome; A = assesses mastery of outcome

- <sup>1</sup> Statistical analysis courses covering the following topics: descriptive statistics, logic of hypothesis testing, elementary inferential statistics, confidence intervals, one-way analysis of variance, post hoc comparisons, a priori contrasts, within-subjects and between-subjects effects, two-way and higher-order designs, and interactions. For recent additions to these course options, check with the director of graduate studies for the department.
- <sup>2</sup> Determined in conjunction with program committee.
- <sup>3</sup> Must register for course every term of enrollment after advancing to candidacy.

The doctoral degree requires completion of a minimum of 81 graduate-level credits beyond the bachelor's degree; at least 60 of these credits must be completed through human physiology courses. Written and oral doctoral comprehensive examinations are taken after completing a substantial portion of the program of study. Upon passing these examinations, the student is advanced to candidacy. A final oral defense is held after completion of the dissertation and after all other degree requirements have been met. Required courses must be taken for letter grades and passed with grades of B– or better. Students must maintain at least a 3.00 grade point average for all courses. Additional university doctor of philosophy degree requirements are described under Doctoral Degrees in the **Division of Graduate Studies** section of this catalog

## Mathematics

## Nicholas Proudfoot, Department Head

541-346-4705

205 Fenton Hall

1222 University of Oregon

Eugene, Oregon 97403-1222

Courses offered by the Department of Mathematics are designed to satisfy the needs of majors and nonmajors interested in mathematics primarily as part of a broad liberal education. They provide basic mathematical and statistical training for students in the social, biological, and physical sciences and in the professional schools; prepare teachers of mathematics; and provide advanced and graduate work for students specializing in the field.

## Faculty

Nicolas Addington, associate professor (algebraic geometry). BS, 2004, Washington (Seattle); PhD, 2009, Wisconsin, Madison. (2015)

Shabnam Akhtari, associate professor (number theory). BA, 2002, Sharif University of Technology; PhD, 2008, British Columbia. (2012)

Arkadiy D. Berenstein, professor (quantum groups, representation theory). MS, 1988, Moscow Transport Institute; PhD, 1996, Northeastern. (2000)

Tricia H. Bevans, senior instructor. BA, 1995, MS, 1998, Oregon. (2013)

Boris Botvinnik, professor (algebraic topology). MS, 1978, Novosibirsk State; PhD, 1984, USSR Academy of Sciences, Novosibirsk. (1993)

Marcin Bownik, professor (harmonic analysis, wavelets). Magister, 1995, Warsaw, Poland; MA, 1997, PhD, 2000, Washington (St. Louis). (2003)

Jonathan Brundan, professor (Lie theory, representation theory). BA, 1992, Queens College, Cambridge; PhD, 1996, University of London. (1997)

Daniel K. Dugger, professor (algebraic topology and geometry, K-theory, commutative algebra). BA, 1994, Michigan, Ann Arbor; PhD, 1999, Massachusetts Institute of Technology. (2004)

Ellen E. Eischen, associate professor (number theory). BA, 2003, Princeton; PhD, 2009, Michigan, Ann Arbor. (2015)

Ben Elias, associate professor (representation theory, categorification). BA, 2005, Princeton; PhD, 2011, Columbia. (2014)

Cassandra Fisher, senior instructor. BS, 2010, George Fox; MS, 2012, Texas Tech. (2012)

Laura Fredrickson, assistant professor (geometric analysis and complex geometry). BS, 2010, California, Irvine; PhD, 2016, Texas, Austin. (2019)

Hayden Harker, senior instructor II. BA, 1995, Oberlin College; MS, 2000, PhD, 2005, Oregon. (2011)

Weiyong He, professor (differential geometry, geometric analysis and partial differential equations). MS, 2004, Science and Technology of China; PhD, 2007, Wisconsin, Madison. (2009)

Kristen Henderson, senior instructor. BA, 2001, California, Berkeley; MS, 2003, Nevada, Reno. (2015)

Patricia Hersh, professor (combinatorics). BA, 1995, Harvard; PhD, 1999, Massachusetts Institute of Technology. (2019)

Alexander S. Kleshchev, professor (algebra, representation theory). BS, MS, 1988, Moscow State; PhD, 1993, Institute of Mathematics, Academy of Sciences of Belarus, Minsk. (1995)

Elina Kleshcheva, instructor. BS, 1987, MS, 1988, Moscow State. (1995)

David A. Levin, associate professor (probability theory and stochastic processes). BS, 1993, Chicago; MA, 1995, PhD, 1999, California, Berkeley. (2006)

Huaxin Lin, professor (functional analysis). BA, 1980, East China Normal, Shanghai; MS, 1984, PhD, 1986, Purdue. (1995)

Robert Lipshitz, professor (differential topology). AB, 2002, Princeton; PhD, 2006, Stanford. (2015)

Peng Lu, professor (differential geometry, geometric analysis). BSc, 1985, Nanjing; MSc, 1988, Nanki Mathematics Institute; PhD, 1996, State University of New York, Stony Brook. (2002)

Luca Mazzucato, assistant professor (computational neuroscience). Laurea, 2001, Padua; PhD, 2005, ISAS, Trieste. (2017)

James Murray, assistant professor (computational neuroscience). BS, Montana State; PhD, Johns Hopkins, 2013. (2020)

Maria Nemirovskaya, instructor. MS, 1996, Brigham Young; PhD, 2002, Massachusetts Institute of Technology. (2017)

Tammy Nezel, senior instructor. BA, 2004, BS, 2006, MS, 2008, Oregon. (2008)

Victor V. Ostrik, professor (representation theory). MS, 1995, PhD, 1999, Moscow State. (2003)

Liliana Pazdan-Siudeja, senior instructor. MS, 2010, Illinois, Urbana-Champaign. (2013)

N. Christopher Phillips, professor (functional analysis). AB, 1978, MA, 1980, PhD, 1984, California, Berkeley. (1990)

Alexander Polishchuk, professor (algebraic geometry). MS, 1993, Moscow State; PhD, 1996, Harvard. (2003)

Michael R. Price, senior instructor II; assistant department head. BS, 2003, MS, 2005, Oregon. (2005)

Nicholas J. Proudfoot, professor (algebraic geometry, combinatorics, topological groups). AB, 2000, Harvard; PhD, 2004, California, Berkeley. (2007)

Peter Ralph, associate professor (populations and evolution with genomic data). AB, 2002, PhD, 2009, California, Berkeley. (2016)

Hal Sadofsky, associate professor (algebraic topology, homotopy theory). BS, 1984, Rochester; PhD, 1990, Massachusetts Institute of Technology. (1995)

Bijan Shahir, instructor. MS, 1979, PhD, 1987, Oregon; MSEE, 1999, Washington (Seattle). (2011)

Yefeng Shen, assistant professor (algebraic geometry). BS, 2006, Zhejiang University; MS, 2009, Peking University; PhD, 2013, University of Michigan. (2017)

Christopher D. Sinclair, associate professor (random matrix theory, number theory). BS, 1997, Arizona; PhD, 2005, Texas, Austin. (2009)

Dev P. Sinha, associate professor (algebraic and differential topology). BS, 1993, Massachusetts Institute of Technology; PhD, 1997, Stanford. (2001)

David C Steinberg, senior instructor. BSc, 2004, Alberta; MA, 2006, State University of New York, Binghamton; PhD, 2012, British Columbia. (2013)

Jennifer Thorenson, senior instructor. BS, 2003, North Dakota State; MS, 2005, PhD, 2013, Montana State. (2013)

Craig Tingey, senior instructor. BA, BS, 1989, MS, 1991, Utah. (2001)

Kathy Trigueiro, senior instructor emerita

Arkady Vaintrob, associate professor (algebraic geometry, Lie theory and representation theory, mathematical physics). BA, 1976, Moscow Institute of Railway Engineering; MS, 1979, PhD, 1987, Moscow State. (2000)

Kai Shyang Wang, instructor. MA, 1985, California, Berkeley. (2009)

Micah Warren, associate professor (geometric analysis). BS, 2000, Pacific Lutheran; MS, 2006, PhD, 2008, Washington (Seattle). (2012)

Yuan Xu, professor (numerical analysis). BS, 1982, Northwestern (China); MS, 1984, Beijing Institute of Aeronautics and Astronautics; PhD, 1988, Temple. (1992)

Benjamin Young, associate professor (combinatorics). BS, 2001, MS, 2002, Carleton; PhD, 2008, British Columbia. (2012)

## Emeriti

Bruce A. Barnes, professor emeritus. BA, 1960, Dartmouth College; PhD, 1964, Cornell. (1966)

Richard B. Barrar, professor emeritus. BS, 1947, MS, 1948, PhD, 1952, Michigan. (1967)

Glenn T. Beelman, senior instructor emeritus. BS, 1938, South Dakota State; AM, 1962, George Washington. (1966)

Charles W. Curtis, professor emeritus. BA, 1947, Bowdoin; MA, 1948, PhD, 1951, Yale. (1963)

Micheal N. Dyer, professor emeritus. BA, 1960, Rice; PhD, 1965, California, Los Angeles. (1967)

Peter B. Gilkey, professor (global analysis, differential geometry). BS, MA, 1967, Yale; PhD, 1972, Harvard. (1981)

James A. Isenberg, professor (mathematical physics, differential geometry, nonlinear partial differential equations). AB, 1973, Princeton; PhD, 1979, Maryland. (1982)

William M. Kantor, professor emeritus. BS, 1964, Brooklyn; MA, 1965, PhD, 1968, Wisconsin, Madison. (1971)

Richard M. Koch, professor emeritus. BA, 1961, Harvard; PhD, 1964, Princeton. (1966)

Shlomo Libeskind, professor emeritus. BS, 1962, MS, 1965, Technion-Israel Institute of Technology; PhD, 1971, Wisconsin, Madison. (1986)

Theodore W. Palmer, professor emeritus. BA, 1958, MA, 1958, Johns Hopkins; AM, 1959, PhD, 1966, Harvard. (1970)

Kenneth A. Ross, professor emeritus. BS, 1956, Utah; MS, 1958, PhD, 1960, Washington (Seattle). (1964)

Gary M. Seitz, professor emeritus. AB, 1964, MA, 1965, California, Berkeley; PhD, 1968, Oregon. (1970)

Brad S. Shelton, professor emeritus. BA, 1976, Arizona; MS, PhD, 1982, Washington (Seattle). (1985)

Allan J. Sieradski, professor emeritus. BS, 1962, Dayton; MS, 1964, PhD, 1967, Michigan. (1967)

Stuart Thomas, senior instructor emeritus. AB, 1965, California State, Long Beach; MA, 1967, California, Berkeley. (1990)

Kathy Trigueiro, senior instructor emerita

Marie A. Vitulli, professor emerita. BA, 1971, Rochester; MA, 1973, PhD, 1976, Pennsylvania. (1976)

Jerry M. Wolfe, associate professor emeritus. BS, 1966, Oregon State; MA, 1969, PhD, 1972, Washington (Seattle). (1970)

Charles R. B. Wright, professor emeritus. BA, 1956, MA, 1957, Nebraska; PhD, 1959, Wisconsin, Madison. (1961)

Sergey Yuzvinsky, professor (representation theory, combinatorics, multiplication of forms). MA, 1963, PhD, 1966, Leningrad. (1980)

*The date in parentheses at the end of each entry is the first year on the University of Oregon faculty.*

## Undergraduate Programs

### Majors - Bachelor's Degree

- Mathematics (BA/BS) (p. 255)
- Mathematics and Computer Science (BA/BS) (p. 264)

### Minor

- Mathematics (p. 268)

## Graduate Programs

### Major - Master's Degree

- Mathematics (MS) (p. 268)

### Major - Doctoral Degree

- Mathematics (PhD) (p. 269)

## Mathematics (BA/BS)

The field of mathematics sits midway between the sciences and the humanities. Like the sciences, mathematical thought is very analytical, precise, and rigorous. But like the arts and humanities, mathematics is about exploring places of incredible grace and beauty, some of which can only be accessed through the power of imagination. You can explore geometry in ten-dimensional space, learn about advanced and exotic number systems, and study statistical techniques for finding patterns in data sets, all in a supportive and collaborative environment.

Students majoring in mathematics can choose a track from three areas: applied mathematics, pure mathematics, and secondary teaching. Applied mathematics studies physical, biological, and sociological aspects; pure mathematics focuses on the development of mathematical principles for their own sake; and secondary teaching prepares students to teach math. Regardless of your focus, the mathematics major will teach you the art of disciplined and logical thought, skills that are very valuable to future employers. A mathematics degree prepares you for work in fields like engineering, computer programming, information technology, financial planning, data management, business, and education.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate proficiency with the calculational techniques and applications of calculus, including the ability to show that limits and derivatives do or do not exist.
- Demonstrate a familiarity with the breadth of mathematics, including linear algebra and at least one area from modern algebra, basic analysis, and number theory.
- Read and write mathematical proofs, producing arguments that are logically and syntactically correct.
- Demonstrate an in-depth understanding of some area of mathematics.
- For students on the secondary education track only: Pass the licensure examination in mathematics.

The department offers undergraduate preparation for positions in government, business, and industry and for graduate work in

mathematics and statistics. Each student's major program is individually constructed in consultation with an advisor.

Upper-division courses used to satisfy major requirements must be taken for letter grades, and only one D grade (D+ or D or D–) may be counted toward the upper-division requirement. At least 12 credits in upper-division mathematics courses must be taken in residence at the university.

Statistical Methods I (MATH 425) cannot be used to satisfy requirements for a mathematics major or minor.

To qualify for a bachelor's degree with a major in mathematics, a student must satisfy the requirements for one of three options: the standard track, pure mathematics, or secondary teaching. In each option, most courses require calculus as a prerequisite, and in each option some of the courses require satisfying the bridge requirement.

- Standard Track (p. 256)
- Pure Mathematics (p. 257)
- Secondary Teaching (p. 257)

## Mathematics Major - Standard Track

|               |                                            |    |
|---------------|--------------------------------------------|----|
| MATH 394–395  | Geometries from an Advanced Viewpoint I–II | 8  |
| MATH 397      | History and Applications of Calculus       | 4  |
| Total Credits |                                            | 60 |

<sup>1</sup> For students who have completed Calculus with Theory I–III (MATH 261–263) with grades of mid-C or better, the department will waive the requirement for Fundamentals of Analysis I–II (MATH 316–317).

## Four-Year Degree Plan

The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.

To enroll with courses that have prerequisites, students must complete the prerequisite course with grades of C– or better or P. All upper-division mathematics courses must be taken for letter grades to count toward a mathematics major or minor, and only one D grade (D+ or D or D–) may be counted toward the upper-division requirements for the major or minor.

- Standard Track
- Pure Mathematics (p. 260)
- Secondary Teaching (p. 262)

## Bachelor of Arts in Mathematics: Standard Track

| Course                                             | Title                               | Credits | Milestones |
|----------------------------------------------------|-------------------------------------|---------|------------|
| First Year                                         |                                     |         |            |

## Mathematics and Computer Science (BA/BS)

### Arkady Vaintrob and Christopher B. Wilson, Advisors

Students who want training in both mathematics and computer science can declare a joint mathematics and computer science major. This allows them to develop skills and knowledge in both fields. The program develops team players prepared for information-based jobs. MACS students graduate with the tools to analyze complex problems and to compute the answers to them.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate proficiency in the main areas of computer science, including data structures and algorithms, computer systems, programming languages, and software development.
- Draw on broad knowledge of computer science to design, implement, and test software solutions to problems in a variety of areas.
- Demonstrate in-depth understanding of some area of computer science (theoretical foundations, computer systems, software development).
- Demonstrate proficiency with the calculational techniques and applications of calculus and linear algebra.
- Read and write mathematical proofs, producing arguments that are logically and syntactically correct.
- Demonstrate an in-depth understanding of some area of mathematics.
- Communicate and collaborate with others and express ideas orally and in writing.

## Mathematics and Computer Science Major Requirements

The requirements for the mathematics and computer science (MACS) major fall into four categories: mathematics, computer science, writing, and science, with 44 credits taken in mathematics, 40 credits in computer science, and 16 credits (science and writing) in other departments.

Computer Science I (CS 210), Computer Science II (CS 211), Computer Science III (CS 212), Elements of Discrete Mathematics I (MATH 231), and Elements of Discrete Mathematics II (MATH 232) must be passed with grades of B– or better before students can take the upper-division core courses. Courses required for the major must be taken for a letter grade. Upper-division courses must be passed with a grade of C– or better.

| <b>Chemistry <sup>3</sup></b>                    |                                                         |         |

CH 111 Introduction to Chemical Principles  
or CH 113 The Chemistry of Sustainability  
or CH 221 General Chemistry I  
or CH 224H Advanced General Chemistry I

CH 221–223 General Chemistry  
or CH 224H-Honors General Chemistry 226H

### Geography

GEOG 141 The Natural Environment

Select two of the following:

GEOG 321 Climatology

GEOG 322 Geomorphology

GEOG 323 Biogeography

### Earth Sciences

ERTH 201 Dynamic Planet Earth

ERTH 202 Earth's Surface and Environment

ERTH 203 History of Life

### Physics <sup>3</sup>

PHYS 201–203 General Physics

or PHYS 25 Foundations of Physics I 253

### Psychology

PSY 201 Mind and Brain

Select two of the following:

PSY 301 Scientific Thinking in Psychology

PSY 304 Biopsychology

PSY 305 Cognition

PSY 348 Music and the Brain

**Total Credits** **96**

<sup>1</sup> Excludes Statistical Methods I (MATH 425)

<sup>2</sup> Special Studies: [Topic] (CS 399) and Experimental Course: [Topic] (CS 410) courses used as electives must have a prerequisite of Intermediate Data Structures (CS 313) and have regular class meetings and homework assignments. At least one course must be numbered 410 or above.

<sup>3</sup> Students are encouraged to complete the accompanying lab courses.

## Additional Requirements

Students must earn no grade below a B– in required lower-division mathematics and computer science courses—Computer Science I (CS 210), Computer Science II (CS 211), Computer Science III (CS 212), Elements of Discrete Mathematics I (MATH 231), Elements of Discrete Mathematics II (MATH 232)—for automatic advancement to upper-division computer science courses. At least 12 of the mathematics upper-division credits applied to the degree must be taken in residence at the university. The science courses may be taken pass/no pass (P/N) or for letter grades.

## Major Progress Review and Major in Good Standing

Each major must meet with a CS advisor to file a Major Progress Review form after completing 12 credits of the upper-division core, including at least one course from each department. Mathematics and computer science courses and at least 8 credits of upper-division CS courses

used to satisfy upper-division major requirements must be taken for letter grades and passed with grades of C– or better. At least 12 of the upper-division mathematics credits and 12 of the upper-division computer science credits applied to the degree must be taken in residence at the university. A student who receives two grades below C– in the upper-division core or three grades below C– in any upper-division courses may be removed from the major.

| Code                  | Title                               | Credits |
|-----------------------|-------------------------------------|---------|
| MATH 316              | Fundamentals of Analysis I          | 4       |

| CS 420                | Automata Theory                     | 4       |
| CS 422                | Software Methodology I              | 4       |

Honors Program

Both of the cooperating departments offer departmental honors programs to their undergraduate majors. After obtaining advance approval from both of their advisors, students in the joint degree program are eligible to attain honors in mathematics and computer science by meeting the honors requirements of either department, including writing a thesis.

Four-Year Degree Plan

The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them.
