## President's Welcome

---

On behalf of the University of Oregon, I congratulate members of the class of 1978 and extend best wishes to their parents, families and friends here assembled.

The completion of your degree program marks the successful conclusion on one endeavor and the beginning of another. We salute each individual whose accomplishments are recognized during these ceremonies.

William Boyd, President

## The University

---

The University of Oregon opened its doors to 177 students on October 16, 1876. Today the University enrolls some 17,000 students. Its 932 faculty are engaged in teaching, research, and scholarship covering a broad range of humanistic, scientific, and professional knowledge.

The campus houses 35 departments and special programs in the liberal arts; nine professional schools and colleges; 12 research bureaus, institutes, and centers; and a graduate division.

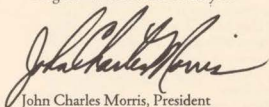

The University's more than 80,000 alumni include two graduates who have won the Nobel Prize: William Parry Murphy, co-winner of the prize in 1934 for a development in the treatment of anemia, and Walter Houser Brattain, who won it in 1956 for the co-invention of the transistor. Seventeen Rhodes Scholars call the University of Oregon their alma mater.

The University is one of only 23 public schools in the nation to be selected for membership in the prestigious Association of American Universities.

## Welcome to New Alumni

---

Congratulations and welcome to the University of Oregon Alumni Association. As graduates you may take part in any of the Association's activities, including foreign travel, reunions, vacation learning experiences, or one of the many alumni groups around the world. You also will receive copies of the alumni publications *Old Oregon* and *Oregon Today*. The Alumni Association is a great way to keep in touch with "Oregon." We're here to serve you.

John Charles Morris, President  
Alumni Association

## Academic Costume

The history of academic dress goes back several centuries, to the chilly universities where cap and gown and hood were needed for covering and warmth. Subsequently this has become a ceremonial costume, with certain standardized features. For example, sleeves in the bachelor's gown are pointed, in the master's gown are oblong, in the doctor's gown are bell-shaped. Only the doctor's gown has velvet facing. The hood is lined with the official colors of the degree-conferring institution; for the University of Oregon these are yellow and green. The outside trimming of the hood and the color of the tassel signify the subject in which the degree is conferred, as follows:

Maize/Agriculture  
White/Art, Letters, Humanities  
Drab/Commerce, Accountancy, Business  
Lilac/Dentistry  
Copper/Economics  
Light Blue/Education  
Orange/Engineering  
Brown/Fine Arts, including Architecture  
Russet/Forestry  
Crimson/Journalism  
Purple/Law  
Lemon/Library Science  
Green/Medicine  
Pink/Music  
Apricot/Nursing  
Silver Gray/Oratory, Speech  
Olive Green/Pharmacy  
Dark Blue/Philosophy  
Sage Green/Physical Education  
Peacock Blue/Public Administration,  
including Foreign Service  
Salmon Pink/Public Health  
Golden Yellow/Science  
Citron/Social Work  
Scarlet/Theology  
Gray/Veterinary Science

At the University of Oregon it is customary for master's candidates to wear their hoods in the academic procession. Doctoral candidates carry their hoods and are hooded during the ceremony. Traditionally, baccalaureate candidates change tassels on their cap from front right to the front left as the degree is conferred. Caps are removed during prayer, the playing of The Pledge Song and during the commencement address if desired.

## 1978 Awards for Distinguished Service

---

The Distinguished Service Award is given to persons who by their knowledge and skills have made a significant contribution to the cultural development of Oregon or society as a whole. The Award was established by faculty legislation in 1956. There have been 59 recipients of the Award since that time.

### Arthur Sutherland Bensell

His roots reach deeper into Oregon's history than those of any person ever to receive this award. Arthur Sutherland Bensell is a Mackanutunne Indian whose tribe became part of the Confederated Tribes of Siletz during the 19th century. After a long and distinguished career of civic and tribal service, he became Siletz Tribal Chairman in 1975. On November 18, 1977, President Carter signed the Siletz Restoration Act into law, thus repealing the disastrous Siletz Termination Act and reestablishing the Tribe's historic relationship with the United States. The Restoration Act stands as a tribute to Mr. Bensell's articulate, sensitive, and inspirational leadership. It also stands as a monument for all Oregon Indians who, like the Siletz and Mr. Bensell, are determined to preserve for future generations one of Oregon's richest resources: the traditions and culture of its native citizens.

### Ken Kesey

Universally recognized as the foremost author of the American Northwest, Ken Kesey is a son of Oregon. He attended public schools in Springfield and graduated from the University of Oregon. His chief works, *One Flew Over the Cuckoo's Nest* and *Sometimes a Great Notion*, have received both popular and critical acclaim nationally and internationally. Both novels are included in the American Literature courses taught in virtually every major university. His fiction, written in the tradition of James Joyce and William Faulkner, offers a new insight into the twentieth century American consciousness. Both of his novels present the theme of man's struggle to live free from the inevitable psychological distortions of human existence. Kesey's fictional technique for embodying the individual's inner struggle is generally recognized as a significant contribution to the novel-of-consciousness tradition.

## 1978 Ersted Award For Distinguished Teaching

---

This award was established in 1957 through a generous gift to the University from Mr. A. J. Ersted. The intent of the award is to recognize excellence in teaching. The award is normally given to younger faculty members who have demonstrated exceptional abilities to induce students to reason and not merely to memorize.

### Barbara Ann Clarke-Mossberg

Barbara Ann Clarke-Mossberg, whose fields are American and modern women's literature and creative writing, engages attention with her vivacious and enthusiastic classroom presentations. Her courses demand much of the students enrolled, for she requires quality effort from each. Her teaching style is both intense and personal. She seeks to find innovative approaches for presenting her subject matter. She willingly devotes large amounts of time to individual students in conferences and after class discussion. Recently appointed as a Danforth Foundation Associate, she is the author of a book on Emily Dickinson.

### Lorraine G. Davis

In the six years she has been a member of the faculty at the University of Oregon, Lorraine G. Davis has devoted her efforts to the development of research courses that enrich the Health Education curriculum. The quality of her course materials has attracted students from many disciplines. She invests large amounts of personal time in work with individual students, in helping them to understand the complexities of health education research and evaluation. Effective, dynamic and forceful presentations enliven her classroom teaching. She combines professional commitment with thoughtful appreciation of student needs.
