

Meeting of the Department and Program Heads
College of Arts and Sciences

Wednesday, November 23, 2011

MOTION: The department and program heads of the College of Arts and Sciences at the University of Oregon express their unequivocal support for the leadership of President Lariviere and strongly urge that he be retained as President of the University of Oregon

We are deeply concerned that this decision regarding Richard Lariviere's presidency was made without input or prior communication with the UO community.

We are similarly concerned with the message this sends to students, faculty, alumni, donors, and citizens of the state about the future governance of the UO campus and the UO's role in state higher education.

[Motion brought forward by Bruce Blonigen, Department Head, Economics; and approved by the following]

Alan Dickman	Alan Dickman	Environmental Studies Program Pres.
