For general use only; accuracy not guaranteed. This map is a graphic representation and does not supersede established State law or City ordinance. All properties within the corporate land limits of the City are zoned (i.e. with color). Those not colored are outside City land limits. City limits over water not shown. If a right-of-way is vacated, the zoning adjacent on either side will usually extend to the centerline of that right-of-way. Source: City of Saint Helens and Columbia County.
