Note: This list contains all the variables in the NWAf Data Set generated using the "File Info" function in SPSS 10.1. The same information has been included in the second spreadsheet in the Excel version of the NWAf Data Set. This document is designed to serve as a reference for variable names and categories. OSRL advises researchers who are encountering this data for the first time refer to the "Survey Instrument with Embedded Topline Results" before analyzing this data. Additional information on selected variables (marked with an asterisk) can be found in the following section, "Variable Notation and Weighting Information".*
