**Q:HELLO1**

Hello. Four Oregon state agencies have asked us to conduct a 15 to 20 minute omnibus survey with adult Oregonians [age 18 or older] about your opinions and experiences on a variety of issues. My name is \_\_\_\_\_, calling from the University of Oregon Survey Research Laboratory. I want to assure you that I am not selling a thing, and that this survey is completely anonymous and voluntary. [Please do not even tell me your name.]

PROBE: The interview's length depends on your answers. [If your answers are quick and short, it will go faster.] I can talk fast to make it go quickly.

PROBE: [The four state agencies are] Oregon Department of Transportation, Oregon Parks and Recreation Department, the Criminal Justice Commission, and the University of Oregon.

PROBE FOR 'OMNIBUS': An omnibus survey is about many different topics to learn what the public thinks [which makes it interesting]. [It saves money when different state agencies get together to buy one survey to ask all their questions, rather than buying four separate surveys.]

As you may know, the DMV grants drivers' licenses after testing drivers' knowledge and skills. The DMV can also suspend or revoke licenses when drivers break traffic laws or drive drunk, or when medical problems affect a driver's ability to drive safely. Medically impaired drivers have such problems as failing eyesight, difficulty remembering, dizziness or sleepiness from prescribed medicines, and decreased feeling or strength in their legs and feet. In your opinion, should medically impaired drivers be allowed to keep driving until they can no longer drive safely, should they not be allowed to drive at all, or should they be required to take tests to decide if they are still safe drivers?
