

**AN INDEX AND SUMMARY OF  
OREGON BUILDING INFORMATION IN THE  
*PORTLAND DAILY ABSTRACT***

**(1906-1910)**

Michael Shellenbarger

Historic Preservation Program  
School of Architecture and Allied Arts  
University of Oregon  
Eugene, Oregon

An Index and Summary of Oregon Building Information  
in the *Portland Daily Abstract* (1906-1910)

**INDEX/SUMMARY EIGHT -  
PORTLAND BUILDINGS SORTED BY SECTION AND SECOND STREET**

**Instructions:**

To facilitate the search for a particular Portland building by street location, the names of buildings in the database are sorted by street addresses and each of the five sections of Portland (N., NE, NW, SE, and SW). Address numbers and lot numbers were usually not reported in the *Portland Daily Abstract*, but when they were reported they are included in this index/summary. Building locations were usually reported only by a street name and the adjacent cross streets (for example, street "A" between streets "B" and "C"). This format lacks precision, but it is adequate to initiate a more precise determination of the location from the original building permit, directories, or other sources. Three separate index/summaries were printed to sort locations by each of these three street names. This index/summary is similar to Index/Summary Seven and Nine, except that the second street is sorted alphabetically. Its position here is indicated by a large asterisk. Current section designations and street names, which were converted from the reported old street names, are used in this index/summary for present-day convenience. For the old street names, more complete information and references, look up the building's name in Index/Summary Two (B). Appendix A is a list of Portland Street Names, converted from the reported historic names to the current names

**INDEX/SUMMARY EIGHT -  
PORTLAND BUILDINGS SORTED BY SECTION AND SECOND STREET**

*For old street names, references and information, look up the building's name in Index/Summary Two (B).*

Format: *Current address in North section (exceptions?)*

*Building's name*

**N. Ainsworth St.\***
