DEPARTMENTS.

The University comprises two departments—the Collegiate and the English Preparatory.

Collegiate Department.

This department furnishes three courses of study—the Classical, the Scientific and the English.

All candidates for admission to any of these courses will be required to pass an examination in the following studies:

Reading.	Latin Grammar.
Writing.	Latin Reader.
Orthography.	Sallust.
Mental Arithmetic.	Four books of Caesar.
Written Arithmetic.	Elementary Algebra.
English Grammar.	Plane Geometry.
Geography.	Higher Algebra (one term.)
History of the United States.	Elementary Rhetoric.

Students entering the Classical course, in addition to the above, will be examined in Greek Grammar and Reader, and four books of Xenophon's Anabasis.

Students entering the Scientific course will be examined in German Grammar, German Reader and Classic German, or an equivalent amount of French.

Students entering the English course will be examined in Whitney's English Grammar, Elements of English Literature, the works of Webster, Milton, Addison and Shakespeare, and in Whitney's Life and Growth of Language.

For the benefit of students not prepared to enter the

Classical, the Scientific or the English course, a two years Preparatory course has been arranged.

English Preparatory Department.

This department has been organized to supply the existing want of suitable preparatory schools in the State, and therefore may not become a permanent feature of the University.

For the present, candidates for admission to this department will be examined in the following studies:

Orthography.

Reading—Through the Fourth Reader.

Writing.

Elements of English Grammar.

Geography—Through Monteith's No. 3.

Mental Arithmetic—To Percentage.

Written Arithmetic—To Interest.

The course of study in this department will embrace those studies necessary to fit a student for the two years' Preparatory course.

All students not included in the English Preparatory Department will be under the *direct* supervision of the Faculty, and will be charged college tuition and incidentals.

APPARATUS.

The University has about \$2,000 worth of mathematical instruments.

Students in surveying and engineering, by means of the Solar Compass and Engineer's Transit, can become acquainted with practical field work in their department, and by means of the Sextant and other instruments they can learn the methods of finding the latitude and longitude of any place.

Students in Astronomy will have access for observatory practice to the Sidereal Clock, the 42-inch astronomical transit and the Sextant, and with these instruments the students will be able to find the latitude and longitude, as well as the exact solar time of the University building by the methods used by astronomers and navigators. Those students who wish to do so, can, by means of these instruments extend the range of their mathematical knowledge almost as far as they please.

The Apparatus belonging to the Department of Physics and Chemistry has cost the University more than \$3,000, and though such a collection of instruments can never be complete, it affords greater facilities for laboratory work and class illustrations than can be found elsewhere in the "Great Northwest."

The Departments of Geology, Mineralogy and Natural History, are provided with large and valuable collections to illustrate their teachings. Professor Condon's cabinet is already widely known on this coast, and is justly noted for its wonderful record of Oregon's former history.

To this collection, large additions of eastern and foreign minerals are yearly made, and the whole is freely used in illustrating truth to the classes taught in these departments.

THE LIBRARY.

The University Library, which last year contained about 800 volumes, has been steadily increasing, and now numbers over 2,000 volumes.

Reading Room.

The Reading Room is as liberally provided with the various prominent periodicals as the funds will allow.

NEW BUILDING.

One of the most pressing wants of the University was more room. This has been met, for the present, by the action of the last legislature, which appropriated \$30,000 for a new building. This will probably be ready for occupancy some time in 1886.

GENERAL INFORMATION.

There are two Literary Societies—the Eutaxian and the Laurean—connected with the University, having a common library of nearly one thousand volumes.

Expenses.

All bills of the University must be paid each term in advance.
Tuition, per year, in the College, \$40.00; in the Preparatory, \$30.00; Incidentals in College, \$10.00.

Board and room may be had in private families at \$4.00 per week; and in clubs at \$3.00.

Students are not allowed to board or room at hotels.

Examinations.

All classes will be examined at the close of each term.

Bachelors of Arts of three years standing may receive the degree of Master of Arts, provided, that since graduation, they have sustained a good moral character, and pursued some literary or scientific calling.

The degree of Doctor of Philosophy will be conferred upon all students who shall remain and pursue a two years' course of study under the direction of the Faculty after completing the Classical or Scientific course.

BY-LAWS.

Adopted by the Board of Regents defining the duties and liabilities of the Students.

Any student who shall in anywise injure or destroy any property of the University, shall be liable therefor, and upon neglect or refusal to make such compensation as the Faculty shall determine to be reasonable, may be suspended or expelled.

When a student holding a county scholarship absents himself or herself during the term, the scholarship shall be deemed vacant; provided, a scholar may be absent not longer than three months at a time, by obtaining the written consent of the Faculty.

When a student in the Collegiate or Preparatory department is necessarily absent from school on account of sickness ten weeks or more during any term, such student may be allowed one-half of the time on next term, on account of such sickness.

WHEREAS, The Constitution of this State, in Article 2, Section 4, provides that "For the purpose of voting, no person shall be deemed to have gained or lost a residence by reason of his presence or absence while a student of any Seminary of Learning;" therefore be it resolved, That any person attending the University upon a free scholarship, who shall vote at any local election in the city of Eugene, shall be expelled therefrom for such unlawful act by the faculty, and, in case any other student attending the University shall vote at any such election unlawfully, he shall be expelled by the Board of Regents; and it is hereby made the duty of the Faculty to admonish the students of this by-law; and see that it is duly enforced.

RESOLVED, That hereafter the Faculty shall select from the graduating class, the student to deliver the Valedictory Address, and in so doing, shall have due regard to the comparative merits and attainments of said student.

COUNTY SCHOLARSHIPS.

The Law in respect to County Scholarships.

Each county in this State is entitled to one scholarship in the Collegiate department of the University, and an additional scholarship therein for each member and joint member of the Legislative Assembly to which such county shall at the time be entitled.

Applicants for County Scholarships must apply in writing for the same, to the County Superintendent of Common Schools, at least one month before the commencement of the school year in which they seek to enter, and such superintendent must receive such applications, and present the same to the County Court of the county when sitting for the transaction of county business, which court shall, with the aid of the superintendent and such other person or persons as it may see proper to designate for that purpose, examine said applicants at a time appointed by it therefor, and the scholarships to which such county may then be entitled shall be awarded by such court, among the applicants found to possess the requisite qualifications, by lot. Whenever a vacancy occurs in a county scholarship during the course of any school year, application may be made for it, and the same awarded in the manner provided in this section; reasonable notice being first given of the time when the proceedings will take place.

A person entering the University upon a County Scholarship shall, at the commencement of the term next following such entry, be subject to an examination by the Faculty, and if found disqualified by reason of want of educational attainment, physical capacity, or moral character, such person shall be dropped from the roll of students, and the scholarship upon which he or she entered shall thereupon become vacant.

No person shall be eligible or entitled to the use of a County Scholarship in the University unless he or she has been an inhabitant of the county to which it belongs for one year immediately preceding the application therefor, nor unless such person possesses the qualifications, educational and otherwise, which the Board of Regents may prescribe for admission to the Collegiate Department thereof; nor shall any person who has been convicted of a crime involving moral turpitude, or who is notoriously of bad reputation or evil habits, ever be eligible to admission into said University, upon such Scholarship or otherwise.
