

UNIVERSITY OF OREGON BULLETIN

Supplement to Vol. III, No. 3.

ANNOUNCEMENT

SUMMER SESSION

OF THE

University of Oregon.

July 2 to July 27, 1906

SCHOOL OF LITERATURE, SCIENCE, AND THE ARTS

P. L. CAMPBELL, A. B.,
President.

WILLIAM PINGRY BOYNTON, Ph. D.,
Professor of Physics.

EDGAR EZEKIEL DECOU, M. S.,
Professor of Mathematics.

BENJAMIN JAMES HAWTHORNE, A. M.,
Professor of Psychology.

HERBERT CROMBIE HOWE, A. B.,
Professor of English Literature.

FREDERICH GEORGE G. SCHMIDT, Ph. D.,
Professor of Modern Languages.

HENRY DAVIDSON SHELDON, Ph. D.,
Professor of Philosophy and Education.

ORIN FLETCHER STAFFORD, A. B.,
Professor of Chemistry.

ALBERT RADDIN SWEETSER, A. M.,
Professor of Biology.

A. R. TIFFANY, A. B.,
Registrar and Secretary of the Faculty.

LIBRARY TRAINING SCHOOL

CORNELIA MARVIN,
Secretary Oregon Library Commission, Director of the Library
Training School.

HARRIET HASSLER,
Children's Librarian, Portland Public Library, Lecturer in Library
Training.

CAMILLA LEACH,
Librarian.

THE SUMMER SESSION

GENERAL INFORMATION

The summer session of the University of Oregon begins July 2nd and closes July 27th.

PURPOSE

The aim of the summer session is to place the valuable equipment of the University at the service of persons who cannot attend at other times. The work will be for high school and upper grade teachers who wish further preparation. Two library courses will be given, one for high school and public school teachers, and the other for professional librarians.

REQUIREMENT FOR ADMISSION

In the course for professional librarians, applicants must hold a library position or be under appointment to one. Other than this, there will be no formal entrance requirements.

REGISTRATION

Students should present themselves at the Registrar's office in Villard Hall, on Saturday, June 30th, between the hours of 8 a. m. and 4 p. m. Lectures will begin at 8 o'clock, on Monday, July 2nd. It is important that every student be present on the opening day of the session. Prospective students are urgently requested to notify the Registrar of their intention at an early date.

TEXT-BOOKS

A list of the text-books used in each course will be found under the statement of courses. They may be procured at the Eugene book stores, or ordered directly from the publisher by the student.

LIBRARY

The University library contains over 15,000 bound volumes and several thousand pamphlets. The general library will be kept open all day. Direct access to the shelves is permitted all students. Reference books will also be furnished by the Portland Public Library.

SPECIAL COURSES

Attention is especially called to the courses in Library Training, given by Miss Cornelia Marvin, Secretary of the Oregon Library Commission. The University is extremely fortunate in being able

to secure Miss Marvin for the Summer Session. A full announcement is found on page 8.

LOCATION AND ENTERTAINMENT

The University is well located to afford a cool and pleasant place in which to pursue summer work. The mill-race affords an ideal place for boating and picnicking. There are excellent tennis courts on the campus, in addition to gymnasium, baseball field, etc. The Eugene golf links are only a short distance away.

The Southern Pacific usually runs excursions to Newport each Saturday.

BOARD AND ROOM

Good board and room can be secured at from \$3.50 to \$4.00 per week. A list of desirable rooms and boarding places may be secured at the Registrar's office.

TUITION

A registration fee of one dollar (\$1.00) will be charged. The Library Course will be free to those registering from Oregon; to all those from outside the state, the charge will be ten dollars (\$10.00). For each other course offered, a charge of ten dollars (\$10.00) for the course will be made.

COURSES OF STUDY

BIOLOGY

Professor Sweetser

Nature Study.—The course in Nature Work comprises a study of as many typical plant and animal forms as time will allow. It will consist of lectures, laboratory and field work. It will be a flexible course, modified to fit the needs of each individual whether beginner or more advanced.

CHEMISTRY

Professor Stafford

Upon application of ten or more students, a course in General Chemistry will be organized. The work will consist of a lecture extending from 7:30 to 9:00 A. M. and laboratory work lasting from 9:00 A. M. to 12:00 M. each day, Saturday included. The afternoons

are to be devoted to study, as students enrolling in this course will not have time for any other work. Entrance to the course will not be permitted after the second day of the course.

In addition to the regular fee for enrollment in the Summer School, a laboratory fee of \$7.50 will be required of students taking the Chemistry work.

ENGLISH LITERATURE

Professor Herbert Crombie Howe

The Nineteenth Century Poets.—Wordsworth, Byron, Shelley, Keats, Robert Browning, Tennyson, Matthew Arnold, Rossetti, Wm. Morris and Swinburne will be treated of in lectures and illustrative readings by the teacher, with collateral reading by the class. Page's "British Poets of the Nineteenth Century" is recommended as a convenient text.

MATHEMATICS

Professor De Cou

Dr. Boynton

Courses will be given in one or more of the following subjects, as conditions may warrant, viz:

Solid Geometry.

Algebra, Quadratics and beyond.

Plane Trigonometry.

Plane Analytical Geometry.

MODERN LANGUAGES

Professor F. G. G. Schmidt

The following courses will be offered:

Elementary German.—Five times a week; 9:00 a. m. Text-book: Joynes-Meissner's German Grammar (D. C. Heath & Co., Boston, Mass.).

Elementary French.—Five times a week; 10:00 a. m. Text-book: Fraser and Squair's French Grammar (D. C. Heath & Co., Boston, Mass.).

Elementary Spanish.—Five times a week; 11:00 a. m. Text-

book: Hill's and Ford's Spanish Grammar (D. C. Heath & Co., Boston, Mass.).

Advanced Courses in German and French, according to demand.

Students are requested to provide themselves with the text-books above mentioned before they arrive, as the books can not be had in Eugene, if not ordered at least two or three weeks before the session begins.

PHILOSOPHY AND EDUCATION

Professor Sheldon

1. *Education in the Nineteenth Century*.—A study of modern educational problems in their genesis and growth with particular attention to practical aspects at the present time. Twelve lectures will be given to the internal problems, of aim, method and discipline, and twelve of external problems of organization, administration and social relationship. The collection of books available, while not extensive, includes all English and American works of importance published in the last ten years. The work in this course will consist of lectures, private readings and papers. Particular attention will be paid to bibliography. This course is intended for librarians, teachers and others interested in the work of education. Lecture every day at 11 o'clock.

The following courses will be given if the registration warrants it:

2. *Philosophy of Education and Educational Criticism*.—Treats of educational aims and values. Reviews the recent work of Horne, O'Shea, Search, Eliot, Hall, Briggs, Wilson, and others.

3. *Growth and Administration of the American Systems of Education*, with special attention to secondary and higher education.

PHYSICS

Professor Boynton

Elementary Physics.—Lectures and Laboratory. About twenty lectures will be given on selected topics in Physics. These will present a few of the fundamental principles of the science and some suggestions as to methods of presentation; experimental illustrations will be used freely.

The laboratory will be open three hours daily for the perform-

ance of typical experiments illustrative of important fundamental principles.

This course is especially designed to give practical help to teachers of Physics in the high schools of the state. It may be taken, however, by those who have no previous acquaintance with the subject.

Qualified students may be permitted to undertake laboratory work of a more advanced character, and will be given such direction and instruction as they need.

In addition to the regular tuition fee, a deposit of one dollar (\$1.00), will be required of each person taking the course. Any balance unexpended after paying for breakage and for supplies actually consumed will be returned at the end of the course.

PSYCHOLOGY

Professor Hawthorne

Lectures, discussions, readings, and text-book. The class will use Titchener's Primer of Psychology as a text.

One-hour lecture, 10:00 a. m., five times a week. A full course of laboratory experiments will be offered, with the free use of all the apparatus in the laboratory. One hour laboratory, 11:00 a. m., five times a week. Session four weeks.

This course will be offered, provided that ten applicants present themselves for the work, and pay ten dollars each tuition.

LIBRARY SUMMER SESSION

Miss Corneia Marvin

Miss Harriet Hassler

There will be a practical course for librarians, requiring full time for four weeks, covering essentials in administration of small libraries, with lessons in elementary cataloguing, classification, book-buying, and the general technical work. This course will be open only to those holding library positions or under appointment to them. There will be no tuition for Oregon librarians, but the charge will be \$10.00 for those outside of the state. The cost of supplies will not exceed \$5.00.

Course for Teachers.—One hour each day during the session will be given to the course for teachers, and the time will be devoted to the first principles in the use of books and care of school libraries. The work may be modified to meet the needs of those in attendance. The course on the use of books includes lectures on the bibliographies of subjects in the high school curriculum, on reference books, public documents, library ready reading courses for schools, selection of books for school libraries, and use of books in schools.

The lessons on the care of libraries are planned to cover the essentials in the proper organization of school libraries, classification, cataloguing, etc. Talks will also be given on book buying, story telling, use of pictures in school work, aids for debating societies, children's works in public libraries, the modern library movement, the teacher's professional library, current topics in the school room, library opportunities in Oregon. There will be no tuition charged for this course. The Secretary of the Library Commission will be the director of both courses, and the special lectures will be given by Miss Harriet Hassler, Children's Librarian of the Portland Public Library, and the members of the Faculty of the University.
