Oregon State System of Higher Education

The Oregon State System of Higher Education, as organized in 1932 by the State Board of Higher Education following a Federal survey of higher education in Oregon, includes all the state-supported institutions of higher learning. The several institutions are now elements in an articulated system, parts of an integrated whole. The educational program is so organized as to distribute as widely as possible throughout the state the opportunities for general education and to center on a particular campus specialized, technical, and professional curricula closely related to one another.

The institutions of the State System of Higher Education are the University of Oregon at Eugene, Oregon State College at Corvallis, the Oregon College of Education at Monmouth, the Southern Oregon College of Education at Ashland, and the Eastern Oregon College of Education at La Grande. The University of Oregon Medical School and the University of Oregon Dental School are located in Portland.

Each of the five institutions provides the general studies fundamental to a well-rounded education. At the three colleges of education general and professional studies are combined in the teacher-training curriculum; students who do not plan to become elementary-school teachers may devote their time exclusively to lower-division studies in the liberal arts and sciences or (at Southern Oregon and Eastern Oregon colleges of education) to approved lower-division programs in semiprofessional fields.

At the University and the State College two years of un specialized work in liberal arts and sciences are provided on a parallel basis in the Lower Division. Major curricula, both liberal and professional, are grouped on either campus in accordance with the distinctive functions of the respective institutions in the unified State System of Higher Education.

**General Information**

The forty-second annual summer session of the University of Oregon will constitute a full summer quarter of approximately eleven weeks between June 18 and August 29, 1946, divided into two sessions of about five and one-half weeks each.

**A Postwar Summer Quarter.** Special attention will be given this summer to the needs of veterans. More than the usual number of lower-division courses will be offered; and these courses will be closely integrated with course sequences offered during the regular academic year, so that veterans and other students may make steady progress toward the completion of lower-division requirements. Certain courses are planned especially for students intending to enter medical or dental schools or schools of nursing.

Students who are nearing graduation will find in the summer sessions an excellent opportunity to complete all or part of their upper-division requirements for a degree. Persons planning to teach may continue their professional work for the high-school teacher's certificate or for the renewal of the emergency certificate. Graduate students will find substantial offerings in most schools and departments.

**Registration Procedure.** Students will register for the first session on Tuesday, June 18; classes will begin Wednesday morning, June 19. Students will register for the second session on Wednesday, July 24; classes will begin the following day. Registration will begin at 8 o'clock in the morning and continue until 4 o'clock in the afternoon.

Students not able to enroll on registration day should call at the Summer Session Office, 3 Oregon Hall.

**Admission and Degrees.** The only requirement for admission to the summer sessions is ability to do the work. However, students who wish to become candidates for a degree from the University must satisfy the regular University entrance requirements. As early as possible before the opening of the session, such students should file with the University Registrar complete official transcripts covering all school work taken above the eighth grade. Specific requirements are listed in the general University Catalog.

Further information concerning admission and graduation requirements may be obtained from the Registrar.

**Maximum Load.** Undergraduates may enroll for a maximum of 9 hours in each session. For graduate students the maximum is 8 hours in each session.

**Fees.** Registration and other fees applicable in the summer sessions are as follows:

- Registration fee for each session: $25.00
- Students registering for more than five hours of work pay this fee. There is no additional out-of-state tuition for the summer session.
- Late-registration fee: $1.00 to $3.00
  - Undergraduate and graduate students in the first session pay a late-registration fee if they register after 3:00 p.m. on June 20; students in the second session pay this fee if they register after 3:00 p.m. on July 26. The late-registration fee is $1.00 for the first day and $1.00 for each additional day until a maximum charge of $3.00 is reached.
- Part-time and auditor's fee, per term hour: $3.50
  - Part-time fee paid by student carrying five hours of work or less in either session.

Students who pay this fee are entitled to lockers, towels, use of swimming pools,
gymnasium and swimming suits, handball courts, and tennis courts.

Music Fees

Laboratory and special fees in connection with particular courses are indicated in the course descriptions.

Fee Refunds. Students who withdraw from either of the two sessions and who have complied with the regulations governing withdrawals are entitled to certain refunds of fees paid, depending on the time of withdrawal. The refund schedule is available in the Business Office and in the office of the Director of Summer Sessions.

Board and Room. Board and room for both men and women will be available during the summer sessions in University halls of residence. Students living in the halls during the summer must also board at the dormitory dining room.

Dormitory rates for each five and one-half week session are as follows: Board, $44.00. Room, $22.00 per occupant for a double room; $33.00 for a single room, if single rooms are available. Students not living in the halls may take their meals in the dormitory dining room for $8.50 per week. Prices for single meals will be: breakfast, 25 cents; lunch, 40 cents; dinner, 75 cents.

Room and Board in Private Houses. A number of excellent private boarding and rooming houses will be open to summer students. A few suites of rooms, flats, and furnished cottages suitable for light housekeeping may also be available. A list of such accommodations will be obtainable from the Housing Secretary after June 15. The office of the Housing Secretary will be open about this time to help students obtain satisfactory living quarters.

Housing for Veterans. Living accommodations for unmarried veterans will be available in the University dormitories; reservations should be made in advance as indicated above. The University operates 124 housing units for married veterans, but these are at present all occupied and there is a long waiting list. Married veterans seeking living quarters in Eugene for the summer sessions should consult the Housing Secretary at the time of registration or shortly before, and then make their own individual arrangements with householders or managers of apartments.

At the time this Catalog is printed there is no way of knowing how many such accommodations will be available. The Housing Secretary will make every effort to find quarters for married veterans.

Undergraduate Housing Rules. The rules regarding housing which prevail during the regular academic year are applicable to undergraduates during the summer sessions. Briefly, the procedure to be followed by students not living in a University residence hall is as follows:

(1) Secure from the Housing Secretary a list of approved rooms, and use this list in looking for rooms.

(2) When desirable quarters are found, fill out a housing petition and file it with the Housing Secretary. The Housing Committee will act promptly on all petitions.

(3) Registration may not be completed without the signature of the Housing Secretary on the registration card.

Be sure that you have conformed to the housing regulations before engaging a room.

Graduate Work. Many summer courses are especially planned for graduate students; all of the work for the master's degree may be completed in summer sessions.

Registration. A bachelor's degree from an accredited institution is prerequisite to registration as a graduate student.

Admission as Degree Student. To earn credits toward an advanced degree at the University of Oregon, the student must clear his admission with the Registrar's Office before registering, preferably before coming to the campus.

Preparation. For a graduate major, the equivalent of an undergraduate major in the same subject is required.

Credit Requirements. For the master's degree the University requires a program of study of not less than 45 term hours with a minimum of 30 term hours in the major subject (except for the M.A. in General Studies).

Grade Requirement. An average of B (GPA 3.00) is required on all course work for the master's degree.

Residence Requirement. Three terms of residence are required for the master's degree. A maximum of 15 term hours (one term) earned in other divisions of the Oregon State System of Higher Education is accepted toward the satisfaction of this requirement for the Master of Arts or Master of Science degree. For the M.Ed., 8 term hours of residence work at Eugene is the minimum requirement. The M.A. (General Studies) may be earned entirely in extension courses.

Transferred Credit. Not more than 15 term hours can be transferred from another institution toward the master's degree. Transferred credit is provisional until the qualifying examination is taken, and does not shorten the residence requirement except as noted above.

Time Limit. All work for the master's degree, including transferred credit, thesis, and final examination, must be completed within a period of seven years.

Qualifying Examination and Program. During the first term of work toward
the master's degree, the student must file a tentative program of work planned for the degree, and is expected to take the qualifying examination.

Maximum Registration. The maximum number of hours for a graduate student is eight for either session.

Thesis Registration. For all master's degrees except the M. Ed. 9 term hours on the thesis are required. A first draft of the thesis must be accepted by the adviser before the student can register for the last three hours of "Thesis."

Further information will be furnished at the Graduate Office, 202 Johnson Hall.

Health and Physical-Education Workshop. Attention is called to the two-week Health and Physical-Education Workshop (see page 33), which will be conducted between June 20 and July 2 for teachers who will be responsible for the new Oregon health and physical-education program in the public schools.

Forums and Lectures. Evening forums and lectures by visiting lecturers and prominent members of the University faculty will be scheduled as opportunity permits.

Murray Warner Collection of Oriental Art. The Museum of Art, housing the Murray Warner Collection of Oriental Art and the Museum of Art Library, a collection of 5,500 volumes on Oriental art and culture, will be open to students during part of the summer. Later announcements will indicate the days on which the museum may be visited.

The Summer Sun, a four-page weekly newspaper devoted exclusively to summer-session news, is published by the journalism classes and is distributed free to the faculty and students during the first session.

Recreation. It is hoped that everyone who enjoys the outdoors will come prepared to take part in the recreational program sponsored by the University. There will be hikes and picnics on week ends, golf, tennis, pingpong, outdoor volleyball, playground baseball, indoor evening games, swimming, and social dancing. It is suggested that students bring tennis rackets and golf clubs. There are excellent opportunities for these sports on the University campus and nearby courses.

By paying a gymnasium and recreation fee of $2.00, summer students during the first session may have the use of the gymnasium, swimming pools, and tennis courts*, together with gymnasium and swimming suits, lockers, towels, and soap.

Chorus, Orchestra, and Band. A chorus, an orchestra, and a band will be organized for the first session if enrollment is sufficient. Membership in these organizations will be open to all summer-session students, whether or not they are enrolled in music courses. Students who play orchestral or band instruments are urged to bring their instruments and take part. Concerts will be given by these organizations during the final week of the session. The purpose of these organizations is recreation and enjoyment as well as professional and cultural training.

Employment Service. The University maintains an employment service for students desiring part-time work while in attendance at the University. This service is available to summer-session students. Those interested in learning of opportunities for part-time work should write to Employment Secretary, University of Oregon, Eugene.

* Since the tennis courts have been built on a partial-payment plan, it is necessary that the courts bring in a certain amount of income. Students who do not hold a receipt for the $2.00 gymnasium and recreation fee will be charged 10 cents per hour per player for the use of the courts.

ARCHITECTURE AND ALLIED ARTS

Professor: Vincent. Associate Professors: Baldinger, Brown, Frasier, Hayden.
Instructors: Sutherland, Wilkinson. Assistant: Bogen.
Visiting Faculty: Alexander.

FIRST SESSION

For many years the summer sessions of the University of Oregon have included courses planned especially for the teachers of art, as a part of the program sponsored by the Education Committee of the American Institute of Architects, and financed through a grant from the Carnegie Corporation. This is the fifteenth year that the University of Oregon has been selected as one of the centers for this summer work in art. The purpose of the grant is to stimulate the appreciation of art, and to improve the quality of art teaching. Fellowships have been awarded, under the grant, to carefully selected teachers and supervisors of art.

The courses offered this year have been chosen to meet the needs of the teachers of art, as well as the needs of students interested in painting, design, and applied design.

Professor Andrew Vincent is director of the Art Center. For information concerning Carnegie A. I. A. scholarships, apply to Professor Vincent of the School of Architecture and Allied Arts.

Entrance examinations are not required for registration in summer art courses. Courses are open to both men and women. Students pay the regular summer-session fee of $25.00. Certain courses carry an additional laboratory fee of $5.00 to cover cost of materials and equipment.

Principles of orthographic projection or descriptive geometry; applications to the construction of plans and elevations, projections of points, lines, and planes, and correct location of shades and shadows. Daily, 8:00. 119 Architecture. Bogen.

AA 114s. Survey of the Visual Arts. 3 hours.
Introductory study of architectural, interior, landscape, and civic design, and of pottery, painting, and sculpture. Designed to serve as a foundation for specialization in one or more of the arts or for developing active appreciation and patronage. No studio work required. Daily, 8:00. 107 Architecture. Bogen.

AA 223. Interior-Design Elements. 3 hours.
Modern introduction to the scope, aims, and technique of interior design, with emphasis on interior planning, color theory, and furnishings. Daily, 9:00-12:00. 200 Architecture. Frasier.

SECOND SESSION

If there is sufficient demand, courses will be offered in architecture and art during the second session.

BIOLOGY

Professor: Risley. Assistant Professor: Soderwall.

Bi 501. Research. Hours to be arranged.
Bi 505. Reading and Conference. Hours to be arranged.

Note: Students interested in other upper-division courses in biology are invited to consider the opportunities for six weeks of study at the Institute of Marine Biology, operated jointly by the University of Oregon and Oregon State College. The Institute is located on Coos Bay, and provides unusual facilities for the collection and observation of living materials. The experience to be gained will be of great value for prospective teachers and graduate students. Consult the special Institute bulletin for further information.

BUSINESS ADMINISTRATION
