RE: State Board of Higher Education Dismissal of President Lariviere

We, the faculty and staff of the University of Oregon Libraries, express our support for President Lariviere’s leadership.

As a community dedicated to openness and public access to information, we are deeply concerned by the State Board of Higher Education’s decision, process, and timing.

We call on Oregon’s leaders to engage with the University community so that together we can build a vibrant future for the University of Oregon and higher education in the state.
