Oregon State System of Higher Education

THE Oregon state system of higher education, as organized in 1932 by the State Board of Higher Education following a Federal Survey of higher education in Oregon, includes all the state-supported institutions of higher learning. The several institutions, located at six different places in the state, are now elements in an articulated system, parts of an integrated whole. The educational program is so organized as to distribute as widely as possible throughout the state the opportunities for general education and to center on a particular campus specialized technical and professional curricula closely related to one another.

The institutions comprising the state system of higher education include the University of Oregon at Eugene, Oregon State Agricultural College at Corvallis, the University of Oregon Medical School at Portland, the Oregon Normal School at Monmouth, the Southern Oregon Normal School at Ashland and the Eastern Oregon Normal School at La Grande.

Except at the Medical School, which is on a graduate basis, each institution provides the general and disciplinary studies essential to a well-rounded education. At the three normal schools these general studies are combined with professional training in two-year curricula. At the University and the State College, however, opportunity is provided for full two years of unspecialized lower division work in liberal arts and sciences.

Beyond the lower division level the work of the two institutions is distinctly differentiated. At the University are centered the advanced work in arts, letters, and social sciences, and the professional schools most closely related to these fundamental fields of knowledge. At the State College are centered the advanced work in the physical and biological sciences and the technical and professional schools resting essentially on these natural sciences.

Organization and Facilities

STABLISHED by a charter from the regents of the University in 1887, the University of Oregon Medical School has been in continuous operation since that time. On September 1, 1913, the Willamette University department of medicine was merged with the University of Oregon Medical School, the former retiring permanently from the field of medical education, leaving the latter the sole medical school in the Pacific Northwest. Under the terms of the merger, the students of Willamette University medical department were transferred to the University of Oregon Medical School and upon graduation received diplomas indicative of the consolidation. The alumni bodies of the two institutions were also merged.

Location

PORTLAND (population 301,815), on the Willamette River near its junction with the Columbia, is a modern city of diverse business and industrial activities. Although 100 miles from the Pacific, Portland is an important seaport. Beautiful homes, parks, and boulevards, surrounding mountains, notably Mount Hood which towers on its southeastern horizon, and an equable climate make it an exceptionally desirable place for study. As indicated elsewhere, concentration of a number of hospitals on the campus of the Medical School and articulation of the work of the school with various health and social agencies of the city afford superior opportunity for medical study.

The Campus

RIOR to 1919 the Medical School was housed in a three-story frame building at Twenty-third and Lovejoy streets near Good Samaritan Hospital. In the spring of 1914 a tract of twenty acres was deeded to the regents of the University by the Oregon-Washington Railroad and Navigation Company as a campus for future development by the University of a center of medical teaching and research. The campus was enlarged in 1924 by the addition of an adjoining tract of eighty-eight acres, a gift of Mrs. C. S. Jackson and Mr. Philip Jackson in behalf and in memory of the late C. S. Jackson. It is named Sam Jackson Park. The entire campus of one hundred and eight acres occupies a site of exceptional scenic grandeur at an elevation overlooking the city and the Willamette River, isolated from noise and smoke but within one and one-half miles of the business center. It affords an ideal setting for medical school buildings and affiliated hospitals. In 1920 the University conveyed to the county of Multnomah nine acres on the campus for the construction of a general charity hospital. In 1926 a tract of twenty-five acres was deeded to the United States Government as a site for a new Veterans' Bureau hospital of three hundred beds.

Buildings

The First Medical School Unit (1919) was made possible by an appropriation of \$110,000 by the 1917 State Legislature and by cash donations amounting to \$25,000 from Portland citizens. The building is a three-story reinforced concrete structure, housing the preclinical departments.

MacKenzie Hall (second unit of Medical School Building) (1922), named in honor of the late Dean Kenneth A. J. MacKenzie, was made possible by an appropriation of \$113,000 by the 1921 State Legislature, matched by an equal appropriation from the General Education Board of New York. The building is four stories high, similar in construction to the first unit but twice its capacity. The General Education Board appropriated \$50,000 additional for equipment.

The Doernbecher Memorial Hospital for Children (1926) was made possible by a gift of \$200,000 in 1924 by Mrs. E. W. Morse and Mr. Edward Doernbecher in behalf and in memory of their father, the late F. S. Doernbecher, for the establishment and construction of a children's hospital. This gift was augmented by individual gifts totaling \$120,000. The hospital contains 80 beds for children. Located on the Medical School campus, the hospital provides exceptional facilities for the care of sick and disabled children committed to the Medical School by the counties of the state under the Children's Hospital Service law. The hospital affords every facility for teaching and research in the departments of pediatrics and other clinical divisions.

The Outpatient Clinic (1931). This unit, adjacent to the Doernbecher Memorial Hospital for Children and the Multnomah County General Hospital, affords teaching facilities for the clinical branches of the Medical School. The building was made possible by a gift from the General Education Board of New York amounting to \$400,000.

Clinical and Special Facilities

LINICAL facilities are afforded by the Multnomah County Hospital, the Doernbecher Memorial Hospital for Children, the Outpatient Clinic, and the Extramural Clinics.

Multnomah County Hospital. The commissioners of Multnomah county accepted the gift of nine acres on the medical school campus and constructed thereon the first unit of the Multnomah County Hospital, which was opened in 1923. The unit, built at a cost of approximately \$1,000,000, embodies the most modern conceptions of a teaching hospital. It accommodates 300 beds and is a general charity hospital. Contemplated additional units will increase the capacity to 500 beds.

Under the terms of a contractual agreement between the commissioners of Multnomah county and the University of Oregon, the medical school has access to the hospital for teaching purposes and the director of the hospital becomes a University official. The director of the hospital appoints the professional staff, seventy-five per cent of whom are appoint-

ed from nomination by the Medical School. The arrangement provides a most successful affiliation for teaching, research, and the care of the sick.

The Doernbecher Memorial Hospital for Children affords every detail for teaching and research in the departments of pediatrics and other clinical divisions. The Hospital is operated by state appropriations and private donations.

The Outpatient Clinic unit of the Medical School joins the Doernbecher Memorial Hospital for Children and the Multnomah County General Hospital, thus unifying admissions, medical records, X-ray, laboratory, social service, and other such special medical services, eliminating duplication, and facilitating the care of patients and the teaching of medical students. Formerly the Outpatient Clinic was situated at Fourth and Jefferson streets as a dispensary founded in 1907 by the People's Institute, a private philanthropic institution. The Portland Free Dispensary became affiliated with the Medical School in 1909. On January 1, 1931, it was merged into the Outpatient Clinic of the University of Oregon Medical School.

The budget for maintenance and operation of the Clinic is derived from the County of Multnomah, the City of Portland, the State Board of Health, the Medical School, the Oregon Tuberculosis Association, the Portland Community Chest, and the Junior League of Portland. Cooperative service is also furnished by the Junior League of Portland and the Visiting Nurses Association.

Extramural Clinics. Clinics and ward walks for small classes are conducted in a number of hospitals not situated on the Medical School campus. These classes are held at Good Samaritan Hospital, St. Vincent's Hospital, Portland Surgical Hospital, Emanuel Hospital, Portland Medical Hospital, the Portland Sanitarium, Waverly Baby Home, Albertina Kerr Nursery, Contagious Hospital, and the State Hospital for the Insane.

Autopsy Service and Pathologic Museum. Under a contractual agreement with the Multnomah county commissioners, the Department of Pathology of the Medical School is designated to perform and record all coroner's autopsies, an arrangement that affords approximately 400 autopsies per year and materially augments the museum of pathology, and enables unusual opportunity for teaching in pathology and medical jurisprudence.

The museum, under a curator, has many thousand gross and tissue specimens.

The plan also assures authoritative records for medicolegal purposes.

Library

THE Medical School library contains more than 18,000 volumes and receives 370 current journals. Through the privilege of interlibrary loans it is possible to procure within a few days volumes not contained in this collection. The library is supported from the general Medical School fund. In addition the Oregon State Board of Medical Examiners, the Portland Academy of Medicine, and the Portland City and County Medical Society contribute annually toward its maintenance.

General Information

Admission and Requirements

A PPLICATION for admission should be made not later than July 1. It is necessary to complete the list of matriculants early in July, making it thereafter impossible to conisder applications for admission.

Notice of acceptance of application is accompanied by matriculation card, to be presented on registration day, together with duplicate to be returned not later than ten days following receipt, with matriculation fee of \$5.00 and a deposit of \$20.00, in order to reserve a place in the entering class. The deposit of \$20.00 applies toward the tuition fee of the first term. It is not refundable after August 15.

Applicants for admission are required to have satisfactorily completed four years in an accredited high school, or its equivalent, and collegiate preparation covering not less than three years of study in an acceptable institution. Preparation for entrance to the Medical School must include the following:

I. High School Preparation. A minimum of fifteen units is required, acceptable toward collegiate matriculation, including the following:

	Units	U ₁	nits
Algebra		HistoryOne foreign languageAdditional in one of foregoing sub-	2
Laboratory Science	1	jects Elective Elective	1 5

Recommended High School Course. The following high school course, which meets all the formal requirements, is strongly recommended:

	ıit s		nits
Algebra		Latin History	
Geometry		German or French	2
Physics		Electives	. 1 🕏
Chemistry			15

II. Collegiate Preparation. At least 135 term hours (90 semester hours), exclusive of credit in military science, of collegiate preparation in an accredited institution, are required for admission. Included in this preparation the following work is prescribed:

	1 erm nours
Chemistry, inorganic (qualitative and quantitative may be included)	. 15
Chemistry, organic	8
Biology	20
Physics	12
English	-6
English	20
German of French	20

The subject-matter considered in the course in organic chemistry should be distributed over the aliphatic and aromatic compounds. Not less than twenty-five per cent of all chemistry credit must be for laboratory work.

Preparation in biology should be distributed between morphological and experimental courses in animal biology.

The course in physics should cover the subject subdivisions presented in the customary one-year college course, including not less than one laboratory period per week.

one-year college course, including not less than one laboratory period per week.

The German or French requirement may be satisfied by a statement certifying that the applicant possesses a ready sight-reading ability, submitted by an instructor granting credit in either subject in a standard college or university.

Candidates who are deficient in any of the minimum requirements indicated above will not be considered eligible for admission.

Recommended Elective Subjects. The student preparing for medicine is advised to consider carefully a balance in elective preparation between courses in the liberal arts and courses in subjects required for the study of medicine, above the stated minimal amounts. Subjects suggested are: history, economics, sociology, psychology, mathematics, advanced courses in English and literature.

Present facilities necessitate limiting each entering class to sixty. Many more than this number apply for admission. The selection is made upon the basis of scholarship, thoroughness of preparation, and personal fitness for the profession.

Aptitude Tests. All applicants for admission are expected to have taken the Aptitude Test conducted by the Association of American Medical Colleges at the various premedical institutions. Exceptions to this rule may be allowed in the case of those applicants who, because of legitimate reasons approved by the Committee on Admissions, have been unable to take the test.

Bachelor's Degree. Students entering the University of Oregon Medical School without the Bachelor of Arts or Bachelor of Science degree shall become eligible for one of these degrees, either in the University of Oregon or Oregon State College, or in their respective institutions before entering upon the work of the third year in the School of Medicine.

Eligibility for the B.A. or B.S. degree in the University or the State College necessitates completion of 186 term hours including the satisfaction of the Lower Division group requirements and the requirements for a major subject in upper division work.

Special Students. Students who are not candidates for the degree of Doctor of Medicine may register in courses in the fundamental laboratory branches for which they are prepared, as special students; and graduates in medicine may register as special students in any course. No matriculants other than graduates in medicine are accepted as special students in clinical subjects. No graduates in medicine are accepted as candidates for the degree of Doctor of Medicine.

Special students who register for special work, and who are not candidates for the degree of Doctor of Medicine, are charged tuition according to the amount of work undertaken and the nature of the courses.

Admission with Advanced Standing. Students are not accepted for admission with advanced standing unless their official credentials are accompanied by a statement from the registrar to the effect that the applicant has carried his medical school work with scholarship sufficient to give him rank in the upper fifty per cent of his class. An honorable dismissal is required in addition to premedical preparation meeting with the requirements for admission.

Requirements for Degrees. The School of Medicine offers M.D., M.A., M.S., and Ph.D. degrees as follows:

M.D. Degree. A candidate for the degree of Doctor of Medicine must have completed satisfactorily the curriculum described, or in case of admission with advanced standing, the last year must be taken in this medical school. All candidates for degrees are expected to be present at the commencement exercises and receive the diploma in person.

M.A., M.S., and Ph.D. Degrees. The departments of Anatomy, Bacteriology and Hygiene, Biochemistry, Pathology, Pharmacology, and Physiology offer instruction leading to advanced degrees.

Fees

The regular tuition fees and special fees at the Medical School are as follows:

REGULAR FEES

Matriculation fee	\$5.00
Resident tuition fee	\$80.00 a term
Non-resident fee	\$20.00 a term (additional)
	ts\$16.00

MICROSCOPES AND LOCKERS

Medical students are expected to provide themselves with microscopes. Coat room and laboratory lockers are assigned and a deposit of \$1.00 must be made when a lock is received.

FEE REFUNDS

Students who withdraw and who have complied with the regulations governing withdrawals will be entitled to certain refunds of fees paid,

^{*}The cost of any damage done by a student to Medical School property is deducted from his deposit; and in case the identity of the one responsible cannot be established, a pro rata charge is made against the entire class of which he is a member. The remainder of this deposit is returned at the end of each school year.

depending on the time of withdrawal. In no case shall the amount retained by the institution be less than \$5.00. The amounts listed below will be refunded under the conditions indicated.

- (1) Any claim for refund must be made in writing before the close of the term in which said claim originated.
- (2) Refunds in all cases shall be calculated from the date of application for refund and not from the date when the student ceased attending classes, except that in the case of a student withdrawing on account of illness refunds shall be calculated from the date of last class attended, provided the claim for refund is accompanied by a certificate from the attending physician.
- (3) If withdrawal is requested after the student's registration has been filed, but before the close of the first week in which classes begin, \$5.00 shall be retained by the institution and any amount paid by the student above \$5.00 shall be refunded.
- (4) If withdrawal is requested after the close of the first week in which classes begin, but before the close of the second week, a refund of three-fourths of the term fees shall be granted.
- (5) If withdrawal is requested after the close of the second week of classes, but before the close of the fourth week, one-half of the term fees shall be refunded.
- (6) If withdrawal is requested after the close of the fourth week of classes, and before the close of the sixth week, one-fourth of the term fees shall be refunded.
- (7) After the close of the sixth week of classes no refunds shall be allowed.

REGULATIONS GOVERNING NON-RESIDENT TUITION

The Oregon State Board of Higher Education has defined a non-resident student as a person who comes into Oregon from another state for the purpose of attending one of the institutions under the control of the Board.

In order to draw a clear line between resident and non-resident students the Board has ordered that all students in the institutions under its control who have not been domiciled in Oregon for more than one year immediately preceding the day of their first enrollment in the institution shall be termed non-resident students, with the following exceptions:

- (1) Students whose fathers (or mothers, if the father is not living) are domiciled, as defined under (1) below, in the State of Oregon.
- (2) Children of regular employees of the Federal Government stationed in the State of Oregon.
- (3) Students holding bachelor's or higher degrees from higher educational institutions whose work is acceptable as preparation for graduate work.
- (4) Students in summer sessions.

The Board established the following rules to be observed in determining the resident status of students:

- Residence and domicile are synonymous and domicile shall be considered to be a fixed permanent residence to which, when absent, one has the intention of returning.
- (2) A student entering from another state or country is prima facie a non-resident, and to change this residence the burden of proof is upon the student.
- (3) Residence cannot be changed by mere declaration of intention so to change, and in addition to declaration of intention to change residence, must be supporting fact sufficiently strong to satisfy the authorities that the intention has actually been effected.
- (4) In case of minors, change of residence of parents or legal guardians will be closely examined.
- (5) In case of persons of legal age, such things as residence of parents, or nearest relatives, or wife, or children, or intimate friends to whom one would naturally go in case of illness or other distress, will be considered as factors entering into the matter of intent.
- (6) Actions will be considered as speaking louder than words in determining the weight of evidence, hence less weight will be given to a person's declarations than to his acts.
- (7) The length of time in the state will not alone determine residence.
- (8) Voting residence will not be a determining factor because of the Oregon constitutional provision, Art. II, Sec. 4, providing that a person shall not be held to have gained or lost a residence for the purpose of voting while a student at any institution of learning.
- (9) Two things, namely, (a) actual habitation and (b) intention of remaining, must exist simultaneously, and the intention to remain must be construed to mean remain permanently and not merely during school term or any other equally temporary time. It must be a bona fide permanent residence with no thought of change in the intent or residence when the school period shall have expired.
- (10) A non-resident at the time of his enrollment must be held to that classification throughout his presence as a student except in rare cases where it can be proved that his previous domicile has been abandoned and a new one established independent of the college or his attendance thereon.

Student Health

A committee of the faculty has special charge of student health. In addition to the general service of the entire School, arrangement is made for securing the advice and service of the Dean, Associate Dean, and heads of departments in all student health and welfare problems.

All entering students are required to take a physical examination:

Fellowships and Prizes

The Jones Lectureship in Medicine, founded by Dr. Noble Wiley Jones of Portland, provides the income from a \$5,000 fund for a series of lectures by an authority in some branch of medical science. These lectures are presented in conjunction with the annual meetings of the alumni association. The first lectures were given in 1920 by Professor Ludwig Hektoen, professor of pathology of the University of Chicago; the second, in 1921, by Professor William Ophüls, professor of pathology, Leland Stanford University; the third, in 1922, by Sir Thomas Lewis of London; the fourth, in 1925, by Dr. A. J. Carlson, University of Chicago; the fifth, in 1926, by Dr. Martin H. Fisher, professor of physiology, University of Cincinnati; the sixth, in 1928, by Dr. Julius Bauer of Vienna; the seventh,

in 1931, by Dr. E. T. Bell, professor of pathology, University of Minnesota Medical School; the eighth, in 1932, by Dr. W. B. Cannon, professor of physiology, Harvard University; and the ninth in 1933 by Dr. George H. Whipple, Dean of the University of Rochester Medical School.

Noble Wiley Jones Pathology Research Fellowship. This scholarship consisting of the interest on \$5,000 held in trust, is the gift of Dr. Noble Wiley Jones of Portland and is awarded annually to a medical student on the basis of scholastic ability, training in pathology and interest in work.

Henry Waldo Coe Prize. This prize is awarded annually to a second-, third-, or fourth-year student in the School of Medicine who shall have presented an essay on a medical subject exhibiting superiority and originality in composition. The amount is represented by the interest on a gift of \$1,000 from the late Dr. Henry Waldo Coe.

Surgical Essay Prize. A surgical essay prize is given each year to the fourth-year student writing the best essay on a surgical subject. The presentation is made by Dr. J. Earl Else, Clinical Professor of Surgery.

Fraternities and Honor Societies

Chapters of the following medical fraternities and honor societies are located at the Medical School:

Alpha Epsilon Iota.

Alpha Kappa Kappa.

Nu Sigma Nu.

Phi Delta Epsilon.

Theta Kappa Psi.

Alpha Omega Alpha (honorary medical society for both men and women).

Alumni Association

The Medical School Alumni Association includes the graduates of the Medical School and those of the Willamette University Medical School, which was merged with the University of Oregon Medical School in 1913. A strong organization has been built up, devoted to the interests of students and graduates and the encouragement of scientific and professional progress among its members and the medical profession generally. With the faculty of the Medical School, the Association is cooperating to build up in Portland a great medical center. The officers of the alumni association for 1933-34 are:

Dr. Wilford H. Belknap	********	President
Dr. Arthur C. Jones		
Dr. John LeCocq (Seattle)		
Dr. Earl D. DuBois	Third	Vice-President
Dr. Russell Keizer (North Bend)	Fourth	Vice-President
Dr. Carl J. Hollingworth		Treasurer
Dr. B. A. Van Loan		Secretary

Instruction

INSTRUCTION in the University of Oregon Medical School is organized under the Basic Science departments, comprising those sciences basic to medicine; the Clinical departments, comprising medicine and surgery and the various divisions of each, obstetrics, and pediatrics; and the Nursing Education department (see page 55).

Curriculum in Medicine

THE curriculum in medicine comprises a total of seven years beyond high school. The first three years, as indicated above, must be satisfactorily completed before admission to the Medical School (Portland). It has been found necessary for the present to limit the number of first-year students at the Medical School; consequently, completion of the third premedical year does not guarantee admission to the Medical School.

The four years spent in the Medical School at Portland are devoted to the subjects of the regular four-year curriculum in medicine required by law.

The prescribed and recommended subjects for the first, second, and third undergraduate years—i.e., premedical instruction—are described under Requirements for Admission. In the first, second, third, and fourth years at the Medical School there are 4,279½ hours of required work. In addition to this, 12 term hours must be earned from the list of elective courses offered. Elective courses may be taken with the permission of the instructor in any term for which they are scheduled. Students should consult the instructor in charge in each case. Descriptions of courses are to be found under the several department headings.

ELECTIVE WORK

Twelve units of work in elective subjects are required of the candidate for the degree of Doctor of Medicine, four of which shall be taken during the first two years.

Summer Courses

BOTH preclinical and clinical courses are offered at the Medical School during the summer open to students registered in the Medical School.

Preclinical courses for medical students or others qualified for the work are offered during the summer at the Medical School, provided a sufficient number is enrolled to warrant. Because of the cost of laboratory supplies and equipment, tuition for these courses is based on the number of credit hours given for each course, the rate being \$4.50 per term hour. Courses begin at 8:00 and laboratory work follows lecture work.

Clinical. A limited amount of clinical work at the Outpatient Clinic is open during the summer months to medical students of junior and senior standing. The full time required for work—in each case fall, winter, and spring terms—is required for summer work. Clinics, for which required or elective credit may be given, are conducted in medicine, surgery, dermatology, urological disease, ophthalmology, otology, rhinology, laryngology, gynecology, and obstetrics.

Graduate Work

HE department of anatomy, bacteriology and hygiene, biochemistry, pathology, pharmacology and physiology offer instruction leading to the master's degree as an integral part of the Graduate Division of the Oregon State System of Higher Education and subject to the rules and regulations which are published by the Graduate Division.

Course Numbering System

400-499. Upper division courses primarily for seniors but which may be taken for graduate credit provided a more exacting standard is met.

- 500-599. Courses primarily for graduate students but to which seniors of superior scholastic achievement may be admitted on approval of instructor and department head concerned.
- 600-699. Courses that are highly professional or technical in nature and may count toward a professional degree only but cannot apply toward an advanced academic degree such as M.A., M.S., or Ph.D.

Certain numbers are reserved for courses that may be taken through successive terms under the same course number, credit being granted according to the amount of acceptable work done. These course numbers are as follows:

- 401, 501. Research or other original work.
- 403, 503. Thesis. Reading or research reported in writing.
- 405, 505. Reading and Conferences. Independent reading reported orally to instructor.
- 407, 507. Seminar. Independent or assigned reading on current problems reported to groups, using material that never duplicates subject-matter previously covered in course.

Basic Science Departments

ANATOMY

REQUIRED COURSES

FIRST YEAR

- An 411, 412, 413. Gross Anatomy. Three terms, 6 hours each term.

 Lectures and quizzes, 3 hours; laboratory, 9 hours; 396 hours.

 Drs. Larsell and Straumfjord, and assistants.
- An 414. Histology and Organology. First term, 6 hours.

 Lectures and quizzes, 3 hours; laboratory, 9 hours; 132 hours. Dr.

 Larsell and assistants.
- An 415. Embryology. Second term, 4 hours.

 Lectures, 2 hours: laboratory, 6 hours: 88 h

Lectures, 2 hours; laboratory, 6 hours; 88 hours. Dr. Allen and assistants.

SECOND YEAR

An 511. Neurology and Organs of Special Senses. First term, 4 hours.

Prerequisites: An 411-415. Lectures, 2 hours; laboratory, 6 hours;
88 hours. Dr. Allen and assistant.

THIRD YEAR

An 611. Applied Anatomy. Third term, 2 hours.

Prerequisites: An 411, 412, 413. Lecture, 1 hour; laboratory 3 hours; 44 hours. Drs. Foster and Straumfjord.

ELECTIVE COURSES

An 416. Microscopic Technique. Second term, 2 hours.

Limited to twelve students after consultation with instructor. Laboratory, 6 hours; 66 hours. Dr. Larsell and Mrs. Mitchelson.

- An 503. Research. Any term, hours to be arranged.
 - In any branch of anatomy, research is open to qualified students upon approval of the instructors. Drs. Allen and Larsell.
- An 507. Seminar and Journal Club. Any term, hours to be arranged.
 Anatomical staff and advanced students, Dr. Allen.
- An 512. Advanced Histology. Second term, hours to be arranged.

 Prerequisites: An 414, 415. Laboratory, 6 hours or less. Dr. Larsell.
- An 513. Topographical Anatomy. Third term, 1 or 2 hours.

 Prerequisites: An 411, 412, 413. Limited to fifteen students. Laboratory, 3 or 6 hours; 33 or 66 hours. Dr. Allen and assistant.
- An 514. Special Dissections. Term and hours to be arranged. Limited to available material. Prerequisites: An 411, 412, 413.
- An 515. Applied Osteology. Any term, 2 hours.

 Lectures and demonstrations, 1 hour; laboratory, 3 hours; 44 hours. Dr. Straumfjord.
- An 516. Mechanism of the Central Nervous System Studied from Lesions.

 Third term, hours to be arranged.

 Prerequisite: An 511. Laboratory, 3 to 6 hours. Dr. Allen.
- An 517. Comparative Neurology. Second or third term, hours to be arranged.

 Lectures, conferences, and laboratory. Dr. Larsell.

BACTERIOLOGY, HYGIENE, AND PUBLIC HEALTH

REQUIRED COURSES

FIRST YEAR

Bac 411. Medical Bacteriology and Immunology. Third term, 8 hours. Lectures, 4 hours; laboratory, 12 hours; 176 hours. Drs. Sears and Levin.

THIRD YEAR

Bac 511. Principles of Public Health. Second term, 3 hours.

The general principles of public health activities. Control of communicable diseases. Organization of federal, state, local, and other health agencies. Elements of infant, school, and industrial hygiene and vital statistics. Lectures, recitations, and discussions, 3 hours; 33 hours. Drs. Sears and Stricker.

Bac 512. Community Health Problems. Summer, 3 hours.

A course consisting chiefly of a community health survey carried out under the direction of the department staff. Sixty-six hours. Dr. Sears.

Elective Courses

- Bac 503. Research in Bacteriology and Immunity. Hours to be arranged. Dr. Sears.
- Bac 507. Seminar in Bacteriology and Immunity. Any term, 1 hour each term.

Meetings of the departmental staff and assistants with a number of specially qualified students to discuss the newer developments in the science as they appear in the current periodical literature. Topics are assigned and individual reports read at meetings of the class. Open to a limited number of students. Meetings held once each week for one hour. Dr. Sears.

Bac 508. Advanced Bacteriology and Immunology. Any term, hours and credits to be arranged.

A course for medical, special and graduate students who wish to pursue any phase of the subject beyond course 411. Dr. Sears.

Bac 513. Parasitology. First term, 3 hours.

A brief course in general parasitology consisting of lectures presenting the clinical and hygienic importance of human parasites and laboratory studies of morphology and diagnostic technic. Laboratory, 6 hours; lectures, 1 hour; 77 hours. Dr. Livingston and assistant.

Bac 514. Immunology and Serum Technic. Second term, 3 hours.

Lectures on the fundamentals of immunology and laboratory exercises in the technic of serum reactions. Laboratory, 3 hours; lectures and demonstrations, 2 hours; 55 hours. Dr. Sears.

BIOCHEMISTRY

REQUIRED COURSE

FIRST YEAR

BCh 411, 412. Biochemistry. First and second terms, 11 hours.

Three lectures and 6 hours laboratory; three lectures and 9 hours laboratory; 231 hours. Dr. Haskins and assistants.

ELECTIVE COURSES

- BCh 503. Biochemistry Research. Any term, hours to be arranged. Dr. Haskins.
- BCh 511. Advanced Biochemistry. Second term, 2 hours.

 Lecture, 1 hour; laboratory, 3 hours; 44 hours. Dr. Haskins and assistant.

Laboratory Diagnosis, course required for second year students; see Med 511.

PATHOLOGY

The pathological museum is comprehensive. Gross and microscopic tissues are received from surgical clinics of the several affiliated hospitals and from the autopsies of the coroner's office and other autopsies. See Pathological Museum in this catalog.

REQUIRED COURSES

SECOND YEAR

Pth 511. General Pathology. First term, 6 hours.

A course in general pathology, comprising the study of prepared slides supplemented by experiments, fresh and museum specimens. Lectures and recitations, 3 hours; laboratory, 9 hours; 132 hours. Dr. Menne and assistants.

Pth 512. General Pathology. Second term, 6 hours.

Lectures, 3 hours; laboratory, 9 hours; 132 hours. Dr. Hunter and assistants.

THIRD YEAR

Pth 513. Surgical Pathology. Three terms, ½ hour each term.

One hour throughout the year, in sections; 11 hours. Drs. Manlove and Martzloff.

Pth 514. Gynecological and Obstetrical Pathology. First term, 2 hours.

Lecture, 1 hour; laboratory, 2 hours; 33 hours. Drs. Wilson,
Adams and assistant.

Pth 515. Laboratory, Neuropathology, First term, 1 hour.

This is a continuation of course Ps 611 and consists of laboratory work and demonstrations dealing with inflammatory reactions and degenerative conditions, with emphasis on general paresis and tabes dorsalis and brain tumors. MILITARY SCIENCE AND TACTICS

The Army Reorganization Act of Congress, June 4, 1920, provided for the establishment of units of the Reserve Officers' Training Corps in selected medical schools. An R. O. T. C. unit was established in the Medical School during 1920, and was among the first ten units established in Class A medical schools at the invitation of the surgeon general.

The subjects in the course serve as corollaries to other subjects taught in the school, in addition to which the organization, administration, and functions of the army, in both peace and war, are taught, particular stress being laid on the organization, administration, and functions of the medical department of the army.

Instruction is given by lectures, quizzes, and demonstrations. No drill is required, nor are uniforms worn during the school year. During the advanced course (third and fourth years) students are paid a commutation of subsistence amounting to more than \$200.00.

ELECTIVE COURSE

Mil 417, 418, 419, 420, 421, 422; Advanced Course. Six terms, 1 hour each term.

Open to students of the third and fourth years who will be eligible on graduation to accept a commission in the Officers' Reserve Corps; 1 hour a week for 6 terms, and one summer camp of six weeks. Work during the school year consists of lectures, quizzes, and demonstrations covering hygiene, sanitation, control of communicable diseases, history and development of hospitals, hospitalization, school of the officer, military psychiatry and allied subjects. A summer camp of six weeks at Camp Lewis, Washington, immediately following the school year, is part of the course. It may be taken after the second or third years. The student receives 70 cents a day, transportation to and from camp, rations, uniforms, shelter, and medical treatment free at the camp. The student company functions in turn as medical detachment of a regiment, collecting company, ambulance company, and hospital company. Instruction is chiefly by demonstrations and practical exercises. Afternoons are devoted to athletics, equitation and recreation. Several trips are taken, the most interesting being the trip to Mount Rainier. At graduation those who have completed the course receive commissions as first lieutenants in the medical section of the Officers' Reserve Corps of the United States Army. Major Moore.

Organization and Requirements

URSING education is organized on a collegiate basis and leads to a Junior Certificate and Bachelor of Arts or Science degree. It prepares the student for state registration and is given in affiliation with hospital schools of nursing in Portland which meet the requirements for such education.

DEGREES AND CERTIFICATES

The Department of Nursing Education of the University of Oregon Medical School offers curricula as follows:

Degree Curriculum. A five-year Degree Course in Nursing, the first two years of which are given at the University of Oregon, Eugene, in the School of Physical Education, or at the Oregon State College, Corvallis, in the School of Science. This course leads to the bachelor of arts or the bachelor of science degree from the University and a diploma in nursing from the hospital school, prerequisites to State Board examination for registered nurses.

Advanced Courses for Graduate Nurses. A four-term curriculum in Public Health Nursing, leading to a Certificate in Public Health Nursing.

A three-term curriculum in Obstetrics leading to a Certificate in Obstetrical Nursing.

A three-term curriculum in Orthopaedics leading to a Certificate in Orthopaedic Nursing.

A three-term curriculum in Pediatrics leading to a Certificate in Pediatric Nursing.

Junior Certificate Course. A three-year Junior Certificate Course in Nursing offered in affiliation with the St. Vincent's, Good Samaritan and Multnomah County hospitals, leading to the Junior Certificate, and diploma from the hospital school, prerequisites to State Board examination for registered nurses.

REGULATIONS AND REQUIREMENTS

Placement Examination in English. All students registering as freshmen are required to take a preliminary examination for the purpose of demonstrating their preparation in English. The examination covers the fundamental principles of grammar and requires evidence of the student's ability to apply these principles in writing. Students failing to obtain a satisfactory grade in this examination are required to pass satisfactorily English K before registering for work in English Composition.

Grades and Points. The quality of student work is measured by a system of grades and grade points.

Grades. The grading system consists of four passing grades, A, B, C, D; failure, F; incomplete, Inc. Students ordinarily receive one of the four passing grades or failure. When the quality of the work is satisfactory, but the course has not been completed, for reasons acceptable to the instructor, a record of incomplete is made and additional time is granted; this additional time is only to the end of the next subsequent term that the student is registered in the institution. Students are officially withdrawn (W) from a course on filing the proper blanks with the registrar's office.

Exceptional accomplishment is denoted by the grade of A, superior by B, average by C, inferior by D, unsatisfactory by F.

Points. Grade points are computed on the basis of 3 points for each term hour of A grade, 2 for each term hour of B, 1 for each term hour of C, 0 for each term hour of D, and —1 (minus one) for each term hour of F. Marks of Inc. and W are disregarded in the computation of points. The grade point average (GPA) is the quotient of total points divided by total term hours, total term hours being the number of term hours in which grades (A, B, C, D, and F) are received.

LOAN FUND

A loan fund of \$1,250, bequeathed by the late Mrs. Fannie Frank for the purpose of educating graduate nurses, is available to those taking the Public Nursing curriculum. The fund is administered by the dean of the Medical School.

FEES

Fees* in Nursing Education are as follows: in degree curricula and Public Health Certificate curricula, per term, \$30.00; junior certificate curricula, per term, \$11.00; non-resident tuition fee, per term (additional), \$20.00; pre-nursing curriculum, per term, \$30.00; laboratory fees, per term hour, \$1.50; diploma fee, for each degree taken, \$6.50.

Penalties for late registration and late payment of fees are as follows: Students who are not registered on or before the official registration day will be charged a fee of \$1 for late registration during the first week after which time they will not be permitted to register except by special petition.

Students who have not paid their fee at the time of registration will be permitted to pay during the first week of school without penalty when they appear in person at the business office of the Medical School. Those who do not pay during the first week of school will be assessed a penalty of 25 cents a day (accumulative each day) during the second week, after which time their registration is subject to cancellation.

Curricula in Nursing Education

DEGREE CURRICULUM IN NURSING

As there are many opportunities in nursing for the woman who is well prepared, and as such preparation means professional education of a high order, the Medical School offers a five-year curriculum in nursing which leads to the bachelor of arts or science degree and prepares the student for nurse registration. The first two years of this course are given in the School of Physical Education on the campus at the University or in the School of Science on the campus at the State College. Prior to entering the hospital school one term is taken in the Department of Nursing Education of the University of Oregon Medical School, Portland, followed by two years in a hospital school of nursing with the theoretical work given in the Department of Nursing Education. In the senior year the student specializes in public health nursing, hospital administration, or some other special type of nursing education, offered at the University of Oregon Medical School in Portland or in the School of Social Science, Eugene.

The first two years are designed to accomplish two things. First, the courses have been selected with a view to their cultural value, equal to that of the customary freshman and sophomore years. Second, they have been arranged to provide the student with that special preparation which enables her to complete her hospital training in two years instead of three, as in the usual hospital course of study leading to nurse registration.

The student then enters one of the schools of nursing in Portland which is affiliated with the Department of Nursing Education of the University of Oregon Medical School and in that school she has courses which

^{*}Students enrolled in the first two years of the degree curriculum, given at the State College at Corvallis and at the University of Oregon at Eugene, pay the fees required by these institutions.

require the hospital as a laboratory and theoretical courses in the Department of Nursing Education.

At the present time the University of Oregon grants a forty-five term hour credit only for theory and practice given in a school of nursing, on a transcript of record from the hospital school signed by the Director of Nursing Education. A student to be given this credit must be a graduate of a standard school of nursing which admits only high school graduates.

ADVANCED COURSES IN NURSING EDUCATION

Public Health Nursing. The Department of Nursing Education in the University of Oregon Medical School offers a four-term curriculum in public health nursing which prepares the student as a public health nurse in urban or rural communities and leads to a certificate in public health nursing. Prerequisites for entrance are college matriculation with the addition of graduation from an accredited school for nurses and nurse registration, or senior standing in the degree curriculum in nursing. Admission is further conditioned upon formal acceptance of the candidate for admission by the Director of the Department of Nursing Education after consideration of previous academic work, record of experience, age, personality and other evidences of probable success as a public health nurse.

If the student is a candidate for the bachelor's degree she may be allowed forty-five term hours of academic credit for three years of nursing education if the school for nurses meets the requirements of the standard curriculum for schools of nursing.

A second year in public health nursing is offered. In this the student is allowed considerable latitude in her choice of subjects.

Through the cooperation of Portland health and social agencies, the public health nurse student during the first two terms has an opportunity for practice in the urban field and in the spring term by an arrangement made with the Bureau of Public Health Nursing of the State Department of Health and through the cooperation of the Multnomah County Public Health Nursing Association practice is given in rural districts in the vicinity of Portland.

Regular students in the one-year certificate curriculum in Public Health Nursing carry at least sixteen hours of work each term for four terms. This includes fifteen hours of field work per week (five term hours per term) in addition to theoretical courses outlined. Second-year students are allowed considerable latitude in electives so that they may have special work in that field of public health nursing in which they may wish to specialize.

Orthopaedic Nursing. The Department of Nursing Education of the University of Oregon Medical School offers a three-term course in Nursing in Orthopaedics which leads to a certificate. The entrance requirements are the same as those for the Public Health Nursing course and in addition an examination in Anatomy and in Orthopaedic Nursing as outlined in the Standard Curriculum for Schools of Nursing. Only applicants making a satisfactory grade will be accepted.

Through the cooperation of the Doernbecher Memorial Hospital, the Shriners' Hospital for Crippled Children, and the Outpatient Department

of the University of Oregon Medical School, the student will have experience in ward management and care of the patient suffering from orthopaedic conditions, in hospital, clinic and home.

Obstetrical Nursing. The Department of Nursing Education of the University of Oregon Medical School offers a three-term course in Nursing in Obstetrics which prepares the student for employment as head nurse in an obstetrical department in a hospital or for specialization in obstetrical nursing service in home, clinic or hospital and leads to a Certificate in Obstetrical Nursing. Prerequisites for entrance are the same as those required for the Public Health Nursing course with the addition of a preliminary examination which will be given all entering students covering the course in obstetrics as outlined in the Standard Curriculum for Schools of Nursing. Only those making a satisfactory grade will be accepted.

Through the cooperation of the Multnomah County Hospital and the Outpatient Clinic, the student in this course will have experience in ward management, delivery room, home nursing deliveries, prenatal service in clinic and field, mothers' classes and post-partem care in clinic and field. The standards and technique in the outpatient department and home are based on those used by the Maternity Center Association of New York City. The student will be required to live where she can receive telephone calls day or night while she is on call for home deliveries.

Pediatric Nursing. The Department of Nursing Education of the University of Oregon Medical School offers a three-term curriculum in nursing in pediatrics which prepares the student for employment as a head nurse in a pediatric department in a hospital or for specialization in pediatric nursing in home, clinic or hospital, and leads to a Certificate in Pediatric Nursing. Prerequisites for entrance are the same as those required for Public Health nursing with the addition of a preliminary examination covering the course in pediatrics as outlined in the standard curriculum for schools of nursing. Only those making a satisfactory grade will be accepted.

Through the cooperation of the Outpatient Clinic and Doernbecher Hospital the student in this course will have experience in ward management and care of children from both the social and physical standpoint in hospital, clinic and home.

ADVANCED COURSES IN NURSING EDUCATION

PUBLIC HEALTH NURSING COURSES

Nur 216, 217, 218. General Psychology. Three terms, 2 hours each term.

An introductory course in general psychology designed to furnish the student a sufficient knowledge of psychology for general cultural purposes and to serve as a basis for advanced work.

Nur 310. Principles of Publicity. Summer term, 3 hours.

A practical course for social workers, teachers, ministers, and others who handle their own publicity in a non-professional way. Training will not only include the methods for securing adequate and effective newspaper cooperation, but will cover the various other media that may be used to reach the public. Lectures, 3 hours; 30 hours.

Nur 311. Bacteriology and Public Health. Third term, 2 hours.

The causes and prevention of communicable diseases. Lectures, illustrated with the microscope, lantern slides, charts, and bacterial cultures. The course is designed especially for social workers, nurses, and teachers. It is given without formal laboratory period. Small fee required for syllabus material. Lectures, 2 hours; 22 hours; Dr. Sears.

Nur 312, 313. Methods in Teaching Health. Summer or second term, 4 hours; or second and third terms, 2 hours each term.

This course presents methods which are being developed in the field of health education with special relation to the public health nurse. Lectures, 4 hours; 44 hours. Miss Morris.

Nur 314. Field Work in Social Case Work. First or third term, 5 hours.

The first term of field work will be spent in the Social Service Department of the University of Oregon Medical School in family case work, since experience in the solution of family problems is basic to all fields of public health nursing. Field work, 165 hours. Miss Feary.

Nur 315, 316, 317. Introduction to Public Health Nursing. Three terms, 1 hour each term.

This course presents the history and development of public health nursing and its relation to other fields of community service. Lectures, 33 hours. Miss Thomson, Miss Wheelock.

Nur 318, 319, 320. Methods in Public Health Nursing. Three terms, 2 to 3 hours each term.

This course presents the methods which have been devised to give service to individuals through public health nursing, generalized and specialized, and will, therefore, be closely allied to the field experience of the student. The technique which has been developed in each field of public health nursing will be critically studied in relation to its application to individuals served. Lectures, reports on assigned reading, and discussion. Lectures, 2-3 hours; 66-99 hours. Miss Thomson, Miss Wheelock.

Nur 321. Field Work in Public Health Nursing. Second or summer term, 5 hours.

Experience will be obtained in pre-natal and post-natal nursing with the Outpatient Clinic; infant welfare, tuberculosis, bedside and industrial nursing with the Portland Visiting Nurse Association; and school nursing with the school nursing division of the City Health Bureau.
