Oregon State System of Higher Education

HE Oregon State System of Higher Education, as organized in 1932 by the State Board of Higher Education following a Federal survey of higher education in Oregon, includes all the state-supported institutions of higher learning. The several institutions are now elements in an articulated system, parts of an integrated whole. The educational program is so organized as to distribute as widely as possible throughout the state the opportunities for general education and to center on a particular campus specialized, technical, and professional curricula closely related to one another.

The institutions of the State System of Higher Education are the University of Oregon at Eugene, Oregon State College at Corvallis, the Oregon College of Education at Monmouth, the Southern Oregon College of Education at Ashland, and the Eastern Oregon College of Education at La Grande. The University of Oregon Medical School and the University of Oregon Dental School are located in Portland.

Each of the five institutions provides the general studies fundamental to a well-rounded education. At the three colleges of education general and professional studies are combined in the teacher-training curriculum; students who do not plan to become elementary-school teachers may devote their time exclusively to lower-division studies in the liberal arts and sciences or (at Southern Oregon and Eastern Oregon colleges of education) to approved lower-division programs in semiprofessional fields.

At the University and the State College two years of unspecialized work in liberal arts and sciences are provided on a parallel basis in the lower division. Major curricula, both liberal and professional, are grouped on either campus in accordance with the distinctive functions of the respective institutions in the unified State System of Higher Education.

EXECUTIVE FACULTY OF MEDICAL SCHOOL

PAUL C. PACKER, Chancellor of the State System of Higher Education; HARRY K. NEWBURN, President of the University of Oregon; DAVID W. E. BAIRD, Dean of the Medical School; JOSEPH B. BILDERBACK, GUY L. BOYDEN, NORMAN A. DAVID, HENRY H. DIXON, CHARLES N. HOLMAN, WARREN C. HUNTER, LYLE B. KINGERY, OLOF LARSELL, HOWARD P. LEWIS, WILLIAM K. LIVINGSTON, LEO S. LUCAS, EDWIN E. OSGOOD, HARRY J. SEARS, HOWARD C. STEARNS, KENNETH C. SWAN, ADOLPH WEINZIEL, EDWARD S. WEST, WILLIAM B. YOUMANS, WILLIAM A. ZIMMERMAN (SECRETARY, ex officio).

STANDING COMMITTEES

- Admission and Advanced Standing—Edward S. West (chairman), Charles Bradley, William B. Youmans, the Registrar of the Medical School (ex officio).
- Curriculum and Schedule—Howard P. Lewis (chairman), Olof Larsell, William K. Livingston, Homer P. Rush, Adolph Weinzirl, William B. Youmans, William A. Zimmerman (ex officio).
- Graduate Council—Olof Larsell (chairman), Matthew C. Riddle, Kenneth C. Swan, Edward S. West, William B. Youmans, Henrietta Doltz.
- Graduation-Lyle B. Kingery, William A. Zimmerman.
- Henry Waldo Coe Prise—HARRY J. SEARS (chairman), HANCE F. HANEY, WILLIAM K. LIVINGSTON.
- Internships—Warren C. Hunter (chairman), Hance F. Haney, Charles N. Holman, William A. Zimmerman.
- Jones Lectureship-Howard P. Lewis (chairman), HANCE F. HANEY.
- Library—Olof Larsell (chairman), Noble Wiley Jones, Frank R. Menne, Goodrich C. Schauffler, Kenneth C. Swan, Wilbert R. Todd, the Librarian of the Medical School (ex officio).
- Research—William B. Youmans (chairman), Harry J. Sears, Olof Larsell, Frank R. Menne, Edward S. West.
- Student Health-Norman A. David, (chairman), Hance F. Haney, Carl J. Hollingworth, Charles N. Holman, Harry J. Sears, Vinton D. Sneeden.
- Scholarships—Edward S. West (chairman), Feank R. Menne, Harry J. Sears, WILLIAM A. ZIMMERMAN, HENRIETTA DOLTZ (Department of Nursing Education).
- Dean's Advisory Committee for the Veterans Hospital—MATTHEW C. RIDDLE (chairman), CHARLES N. HOLMAN, HOWARD P. LEWIS, WILLIAM K. LIVING-STON, HAROLD J. NOYES, KENNETH C. SWAN.

ADMINISTRATIVE AND SERVICE DIVISIONS

ADMINISTRATION

DAVID W. E. BAIRD, M.D., Dean. WILLIAM A. ZIMMERMAN, B.S., Executive Secretary. MARY C. Goss, B.S., Secretary.

REGISTRAR'S OFFICE

CAROLINE H. POMMARANE, B.S., Registrar.

LIBRARY

BERTHA BRANDON HALLAM, B.A., Librarian.
ORA KIRSHNER GOODMAN, B.S., Catalog Librarian.
MARGARET ELIZABETH HUGHES, B.S., Circulation Librarian.

BUSINESS OFFICE

WILLIAM A. ZIMMERMAN, B.S., Business Manager. Amby Frederick, B.S., Assistant Business Manager.

F. ELIZABETH JACOBSEN, B.S., R.P.T.T., Physical Therapist.

MARY E. SNOOK, B.S., R.P.T.T., Physical Therapist.

MARGARET NARY, Accountant.

GERTRUDE LISTER, Secretary.

MARY BARTON, ESCORT WORKER.

The Medical School

THE University of Oregon Medical School has been in continuous operation since 1887, when it was granted a charter by the regents of the University of Oregon. Although the Medical School, because of its location in a different city from the other schools of the University, has administrative and faculty autonomy, the academic position of the school as an integral part of the University, established by its charter, is recognized under the organization plan of the Oregon State System of Higher Education.

On September 1, 1913, the Willamette University department of medicine was merged with the Medical School. Under the terms of the merger, the students of the Willamette University medical department were transferred to the University of Oregon Medical School, and upon graduation, received diplomas indicative of the consolidation. The alumni bodies of the two institutions were also merged.

The Medical School is organized into instructional divisions as follows: basic science departments, offering instruction in those sciences basic to medicine; clini-

cal departments, offering instruction in medicine with its various branches, surgery with its various branches, obstetrics, gynecology, and pediatrics; and the Department of Nursing Education.

Location

PORTLAND (population 371,011), situated on the Willamette River near its junction with the Columbia, is a modern city of diverse business and industrial activities. Although 100 miles from the Pacific, Portland is an important seaport. The city is known for its beautiful homes, parks, and boulevards, and for its equable climate. The foothills of the Cascade Mountains rise on the outskirts of the city. Mount Hood, one of the major peaks of the range, towers on the southeastern horizon.

As indicated elsewhere, concentration of a number of hospitals on the campus of the Medical School and articulation of the work of the school with various health and social agencies of the city afford superior opportunities for medical study.

Campus and Buildings

PRIOR to 1919 the Medical School was housed in a three-story frame building at Twenty-third and Lovejoy streets near the Good Samaritan Hospital. In 1919 the school was moved to a twenty-acre tract deeded to the regents of the University by the Oregon-Washington Railroad and Navigation Company in 1916, as a campus for future development of a center of medical teaching and research. The campus was enlarged in 1924 by the addition of Sam Jackson Park, an adjoining tract of eighty-eight acres, given by Mrs. C. S. Jackson and Mr. Philip Jackson in behalf and in memory of the late Mr. C. S. Jackson. The entire campus of one hundred and nine acres occupies a site of exceptional scenic grandeur, at an elevation overlooking the city and the Willamette River, isolated from noise and smoke but within one and one-half miles of the business center. It affords an ideal setting for Medical School buildings and affiliated hospitals. In 1920 the University conveyed to Multnomah County nine acres on the campus for the construction of a general charity hospital. In 1926 a tract of twenty-five acres was deeded to the United States government as a site for a veterans' hospital.

The First Medical Science Unit (1919) was financed through an appropriation of \$110,000 by the 1917 State Legislature and by cash donations amounting to \$25,000 from Portland citizens. The building is a three-story reinforced-concrete structure.

Mackenzie Hall (1922), second unit of the Medical Science Building, was financed by an appropriation of \$113,000 by the 1921 State Legislature, matched by an equal appropriation from the General Education Board of New York. It is named in honor of the late Dean Kenneth A. J. Mackenzie. The building is four stories high, similar in construction to the first unit but with twice its capacity. The General Education Board appropriated \$50,000 in addition for equipment.

The Doernbecher Memorial Hospital for Children (1926) was financed through a gift of \$200,000 by Mrs. E. W. Morse and Mr. Edward Doernbecher in memory of their father, the late Mr. F. S. Doernbecher. This fund was augmented

by other gifts totaling \$120,000. The hospital provides 63 beds, and has exceptional facilities for the care of sick and disabled children of the state of Oregon.

The Outpatient Clinic (1931), connecting with the Doernbecher Memorial Hospital for Children and the Multnomah Hospital, affords teaching facilities for the clinical branches of the Medical School. Funds for the construction of the building were provided through a gift of \$400,000 from the General Education Board of New York.

The Multnomah Hospital (1923, 1950), constructed by the commissioners of Multnomah County, has a capacity of 310 beds; it serves as one of the teaching units of the Medical School. The Multnomah Hospital group includes also the Nurses Home (1927) and the Heating Plant (1923).

The University State Tuberculosis Hospital (1939) has an 80-bed capacity and a large outpatient unit. Funds for the hospital were provided by a state appropriation of \$110,000, a Public Works Administration grant of \$130,900, and a gift from Mrs. Grace R. Meier. Mr. Jack Meier, Mrs. Joseph Ehrman, Jr., and Mrs. Frederick Ganz, in memory of Mr. Julius L. Meier, husband and father. The outpatient clinic of the hospital is called the Julius L. Meier Memorial Clinic.

The Library and the Auditorium (1939) were erected with funds provided through gifts of \$100,000 from Dr. John E. Weeks and \$100,000 from the Rockefeller Foundation, and through a grant of \$163,500 from the Public Works Administration. The Library stacks provide shelving space for 100,000 volumes, and may be expanded to accommodate an additional 100,000. The auditorium, with a seating capacity of 600, provides facilities for lectures and scientific meetings in the field of medicine for students in the Medical School and physicians of the state of Oregon and the Pacific Northwest.

The Nurses Dormitory (1943), formerly the Portland Medical Hospital. was purchased in 1943 to provide needed housing facilities for students in the Department of Nursing Education. The dormitory accommodates 95 students.

The Laboratory and Administration Building (1949) was financed through a state appropriation of \$663,000. The building, located between the Doernbecher Hospital and the Medical Science Building, provides additional facilities for the basic science departments, together with administrative offices for the Medical School.

Clinical and Special Facilities

LINICAL facilities are afforded by the Multnomah Hospital, the Doernbecher Memorial Hospital for Children, the Outpatient Clinic, the University State Tuberculosis Hospital, and extramural clinics. These facilities are effectively coordinated for the clinical needs of the Medical School.

Multnomah Hospital. The Multnomah Hospital, opened in 1923, is a 310bed charity hospital, with facilities for general medical, surgical, and obstetrical patients.

Under the terms of a contractual agreement between the commissioners of Multnomah County and the University of Oregon, the Medical School has access. to the hospital for teaching purposes, and the director of the hospital is a University official. The director of the hospital appoints the professional staff, from

nominations by the Medical School. The arrangements provides a most successful affiliation for teaching, research, and the care of the sick.

The Doernbecher Memorial Hospital for Children affords every facility for teaching and research in the Department of Pediatrics and in other clinical divisions. Operating funds for the hospital are provided chiefly from state appro-

Outpatient Clinic. Admissions, medical records, X-ray, laboratory, physical medicine (physical therapy and occupational therapy), social service, and other such medical services are unified and coordinated in the Outpatient Clinic, housed in a unit connecting the Doernbecher Memorial Hospital and the Multnomah Hospital. Through this arrangement, duplication is eliminated, and the care of patients and the teaching of medical students are greatly facilitated. The history of the Outpatient Clinic began with the founding of the Portland Free Dispensary in 1907 by the Peoples' Institute, a private philanthropic institution. The dispensary became affiliated with the Medical School in 1909. It was located at Fourth and Jefferson streets until January 1, 1931, when it was merged into the Outpatient Clinic on the Medical School campus.

The budget for maintenance and operation of the clinic is provided by state appropriations, Multnomah County, and the Public Welfare Commission.

The University State Tuberculosis Hospital is an 80-bed hospital devoted to the care of patients suffering from tuberculosis. It provides medical and surgical facilities for teaching medical students, internes, residents, and nurses.

Extramural Clinics. Clinics and ward walks for small classes are conducted in a number of hospitals not situated on the Medical School campus-at Good Samaritan Hospital, Emanuel Hospital, St. Vincents Hospital, Veterans Hospital, Shriners Hospital for Crippled Children, and Albertina Kerr Nursery.

Autopsy Service and Pathological Museum. Under a contractual agreement with the Multnomah County commissioners, the Department of Pathology of the Medical School is designed to perform and record all coroner's autopsies. This arrangement materially augments the Pathological Museum and affords unusual opportunity for teaching in pathology and medical jurisprudence, besides assuring authoritative records for medicolegal purposes. The museum has gross and tissue specimens numbering many thousands. Approximately 1,100 autopsies are performed a year. A large and comprehensive kodachrome-slide library is available for instructional use.

Library

HE Medical School Library contains more than 46,000 volumes of books and bound periodicals and a large number of unbound periodicals. Approximately 800 current periodicals are received. Through the privileges of interlibrary loan and microfilm service, it is possible to obtain within a few days material not in this collection. The Oregon State Board of Medical Examiners, the Portland Academy of Medicine, and the Multnomah County Medical Society contribute part of the annual operating funds.

The Library collections have been enriched by many valuable gifts of books and periodicals from individuals and organizations. Books and objects of medical historical interest are being assembled through the aid of the Women's Auxiliary of the Oregon State Medical Society and other friends of the Medical School. Public acknowledgement of gifts to the Library is made by means of a printed list in the annual Commencement program.

During the first term of the school year, students in the first-year class and other interested students are given a brief survey of the resources of the Library and instruction in their use.

The following regulations govern fines and charges in connection with the use of Library facilities:

- (1) In general, no fines are assessed for failure to return seven-day or two-week books promptly; but a maximum fine of \$1.00 a day may be imposed in special cases, at the discretion of the librarian, for failure to return books urgently needed.
- (2) For failure to return reserve books when due, the following fines are assessed: 25 cents for the first hour; 5 cents for each additional hour or fraction thereof. The maximum fine is
- (3) A service charge of 10 cents is added to all fines reported to the Business Office for collection.
- (4) For lost books, the borrower is charged the list price, plus the amount of fines incurred up to the time the book is reported missing, and plus a service charge of 50 cents.
- (5) When a book, which has been reported lost and has been paid for by the borrower, is returned before a replacement has been ordered, a refund equal to the list price of the book is made. When replacements have been purchased for lost books, refunds may or may not be made, at the discretion of the Librarian.

Graduate Residency Program

NE of the important functions of a medical school is the training of physicians in the medical specialties. The demand for such training has greatly increased in recent years. In response, the Medical School residency program has been expanded to provide approximately 60 appointments. Residency training follows one year of interneship, and consists of two, three, or four years of study devoted entirely to one specialized field of medicine. Instruction is received both in clinical departments and in related basic science departments of the school.

All residencies have received the approval of the Council on Medical Education and Hospitals of the American Medical Association and of the respective American boards. Residencies are offered in anaesthesia, dermatology and syphilology, experimental medicine, general practice, internal medicine, obstetrics and gynecology, neurological surgery, opthalmology, orthopaedic surgery, otolarvngology, pathology, pediatrics, radiology, general surgery, thoracic surgery, and

The following Portland hospitals cooperate with the Medical School in the residency programs: Emanuel Hospital, Shriners' Hospital for Crippled Children, Providence Hospital, Good Samaritan Hospital, and Veterans Hospital.

Applications should be made to the Medical Director of the University of Oregon Medical School Hospitals and Clinics. Appointments are made approximately six months in advance of the beginning of the residency period, July 1.

Postgraduate Program

HE University of Oregon Medical School makes available its teaching and clinical facilities to physicians for continued postgraduate study. To meet the needs of these physicians, an extensive postgraduate program has been arranged, consisting of the following phases:

Informal Refresher Courses. For physicians wishing a review of particular phases of medicine, an informal program is offered. Instruction is given by means of clinics, demonstrations, ward walks, and observations. The physician may select the types of instruction he desires and the length of time he wishes to attend. Individual instruction is given by members of the faculty. This program may be started at any time and continued as long as desired. The fee is \$50.00 a month,

Short Intensive Courses. A series of short intensive courses, usually of five days duration, is offered for physicians who wish to pursue postgraduate studies by taking frequent short periods from their practice. These courses are devoted to special subjects and are scheduled throughout the year. Instruction is given by lectures and demonstrations, the method of presentation depending upon the subject covered. These courses are offered in the following fields: internal medicine. general surgery, orthopaedic surgery, radiology, malignant diseases, obstetrics and gynecology, and pediatrics. Fees charged are \$50.00 for the five-day courses and proportionately less for shorter courses.

Hospital Dietetics

HE course in hospital dietetics offered in the University of Oregon Medical School Hospitals and Clinics was approved by the American Dietetic Association in 1943. The course provides the one year's interneship in a hospital necessary to complete requirements for membership in the association.

The minimum admission requirement is graduation with a B.S. degree from

an accredited college with a major in foods or in institutional management.

During the twelve-month training period at the Medical School, the student pays no tuition but provides her own supplies, including uniforms. Students receive complete maintenance and an allowance of \$15.00 per month.

Appointments are made twice a year; applications should be submitted to the Medical Director, University of Oregon Medical School Hospitals and Clinics.

Medical Technology

RAINING in the field of medical technology is offered in the clinical laboratory of the University of Oregon Medical School. The course, established in 1933, is approved by the Registry of Medical Technologists of the American Society of Clinical Pathologists and by the Council on Medical Education and Hospitals of the American Medical Association.

The minimum admission requirements are: two years of college work, including 18 term hours in biology, of which 6 term hours must be in zoology, and 12 term hours of inorganic chemistry, of which 6 term hours must be in quantitative analysis. The applicant's credentials must be approved by the Registry prior to admission. At the present time, 18 students are admitted annually as vacancies

The period of training is twelve months; no tuition is paid, but the student

must provide his own books and supplies, including uniforms.

The course includes lectures and clinical experience in hematology, chemistry, bacteriology, immunology, parasitology, histology, urinalysis, basal-metabolic rate determinations, electrocardiography, and record keeping

A certificate is presented on the satisfactory completion of the course; a student completing the course is eligible for application for registration with the Registry

of Medical Technologists.

Application for admission should be submitted to the Director of Laboratories,

University of Oregon Medical School Hospitals and Clinics, at least six months' prior to the time of admission.

X-Ray Technique

HE Department of Radiology of the University of Oregon Medical School offers a twelve-month course of training for X-ray technicians. The course, which was established in 1930, is approved by the Council on Medical Education and Hospitals of the American Medical Association and by the American Registry of X-Ray Technicians.

The minimum admission requirement is graduation from an accredited high school with a high scholastic rating; however, preference is given applicants who have college training with credits in mathematics and physics.

No tuition is charged during the period of training, but the student must provide his own books, supplies, and uniforms.

The course includes lectures in anatomy, physiology, physics, and X-ray equipment; and lectures and clinical experience in dark-room chemistry and procedures, X-ray techniques, positioning of patients, hospital ethics, record keeping, department operation, and X-ray therapy. All instruction is under the direction of the head of the Department of Radiology, University of Oregon Medical School Hospitals and Clinics.

At the present time 9 students are admitted annually as vacancies occur. Applications should be submitted to the Department of Radiology, University of Oregon Medical School Hospitals and Clinics.

Upon successful completion of the course, a certificate is given by the University of Oregon Medical School. An additional two years of clinical experience must be completed before application for registration with the American Registry of X-Ray Technicians.

Admission and Requirements

DMISSION to the Medical School is based upon two types of qualifications. The applicant must present evidence of good character, proper attitude, and sincere interest in the study of medicine. He must also have demonstrated sufficient intellectual ability to undertake satisfactorily the study of medicine, as judged by his premedical scholastic record.

Applicants for admission are required to have completed satisfactorily four years in an accredited high school, or its equivalent, and collegiate preparation of not less than three years of full-schedule work in an accredited college or university.

(1) High-School Preparation. The following high-school course, which meets all the formal requirements, is strongly recommended:

	Units		Units
English	4	Latin	2
Algebra	11/2	HistoryGerman or French	ī
Geometry	1	German or French	Ž.
Physics	1	Electives	I 1/4
Chemistry	1	•	
Total			15

(2) Collegiate Preparation. The applicant must have completed satisfactorily 138 term bours (92 semester hours) of credit, exclusive of military science.

The following subjects and credits are prescribed as the minimum acceptable for admis-

Foreign language is not specifically required for admission to the Medical School, but some knowledge of a major modern foreign language (German, French, Russian, Spanish) is highly recommended as a part of the cultural training of the physician. Students anticipating research in the medical sciences should have a basic knowledge of German and French. The premedical student should keep in mind that some medical schools require credit in foreign language for admission.

The work in organic chemistry must include the chemistry of both aliphatic and aromatic compounds. Biochemistry will not be accepted toward meeting the requirement. Students electing additional work are advised to take a course in elementary physical chemistry. At least 25 per cent of all chemistry credit must be for laboratory work.

Human anatomy is not accepted toward meeting the minimum requirements in biology. Students electing additional work are advised to take courses in embryology, vertebrate anatomy, histological technique, or general physiology.

The work in physics must include the divisions of mechanics, heat and sound, light and

The work in physics must include the divisions of mechanics, heat and sound, light and electricity. Students electing additional work are advised to take further courses in electricity or atomic physics.

The work in mathematics should be of standard college grade, and should include subjects such as algebra, elementary analysis, or trigonometry. Students electing additional mathematics are advised to take work in calculus.

The premedical student is advised very strongly against taking any medical courses in his preparation for the study of medicine. Rather, he should devote his efforts to obtaining the best possible general cultural education and, in addition, a thorough training in the basic sciences of chemistry, physics, and biology.

Recommended Elective Subjects. The student preparing to study medicine is advised to plan a balance in elective courses between courses in liberal arts and courses, beyond the minimum requirements, in subjects prescribed for admission to the Medical School. Subjects suggested are: history, economics, sociology, psychology, English, public speaking, and foreign language.

A fee of \$5.00 is charged for the evaluation of transcripts submitted with the application for admission. When an applicant is accepted for admission to the Medical School, a deposit of \$25.00 must be paid not later than two weeks following acceptance, in order to reserve a place in the entering class. This deposit of \$25.00 applies toward the tuition fee of the first term. It is not refundable after a period of thirty days following notice of acceptance.

Because of the large number of applications received from students in the Pacific Northwest region, it is seldom possible to accept applicants from other sections of the country.

Application for admission should be submitted between October 1 and December 31. Application forms may be obtained from the Registrar of the Medical School.

Aptitude Test. Applicants for admission are expected to have taken the aptitude test given for the Association of American Medical Colleges at the various institutions offering premedical curricula. Exceptions to this rule may be allowed in the case of applicants who, because of legitimate reasons approved by the Committee on Admissions, have been unable to take the test.

Bachelor's Degree. A student entering the University of Oregon Medical School without a Bachelor of Arts or Bachelor of Science degree must complete the work required for one of these degrees in the Oregon State System of Higher

Education, or in the institution at which he received his premedical preparation,

before entering upon the work of the third year in the Medical School.

The University of Oregon, Oregon State College, and most of the colleges and universities of the Pacific Northwest recognize credit earned by a student during his first year at the Medical School as credit earned in residence toward the bachelor's degree.

Special Students. Graduates in medicine may register as special students in any course. Graduates in medicine may not be candidates for the degree of Doctor of Medicine.

Students holding only academic degrees may be admitted as special students to certain courses in the Medical School upon recommendation by the head of the department concerned to the Committee on Admissions, subject to approval by the dean. Such students may not receive academic credit for work in clinical subjects.

Undergraduates may not be admitted to courses in the Medical School as special students.

Special students are required to submit credentials and secure the approval of the Committee on Admissions before registering.

Students who register for special work are charged tuition according to the amount of work undertaken and the nature of the course.

Advanced Standing. A student may be accepted for admission with advanced standing, provided his official credentials are accompanied by a statement from the registrar of the institution from which he is transferring to the effect that the applicant's scholarship in medical-school work ranks him in the upper fifty per cent of his class. An honorable dismissal and premedical preparation meeting the regular requirements for admission are also required. Students admitted with advanced standing must take at least the last year of work at the University of Oregon Medical School. In general, only transfer to the third-year class is feasible.

Scholastic Regulations

Grading System. A numerical gading system of I to V is used at the Medical School, I is the highest and V is the lowest in passing grade. If a course is not completed within the time allotted, the work must be finished satisfactorily within one year. A Condition in a course requires re-examination within one year. Failure in a course requires repetition of the course.

Elective Courses. If a student registers for an elective course, he must complete the course unless he officially withdraws. A student may not withdraw from an elective course later than two weeks after the beginning of the term without special permission of the dean.

Promotion. In order to be promoted from the first to the second year and from the second to the third year in the Medical School, the student must receive a passing grade in all subjects and an average grade of IV or better for the work of the entire year. The status of students failing to meet these requirements is determined by the Promotion Board. Third- and fourth-year students must receive satisfactory grades in all subjects.

Requirements for the Degree of Doctor of Medicine. A candidate for the degree of Doctor of Medicine must complete satisfactorily the curriculum prescribed by the faculty of the Medical School. All candidates for degrees are required to be present at the Commencement exercises to receive their diplomas in

person. The Doctor of Medicine degree is conferred by the University of Oregon upon the recommendation of the faculty of the Medical School.

Graduate Division

THE Medical School offers graduate instruction leading to the Master of Arts, Master of Science, and Doctor of Philosophy degrees. Graduate degrees earned at the Medical School are conferred by the University of Oregon, upon the recommendation of the faculty of the Medical School.

Instruction leading to the master's degree is offered in anatomy, bacteriology, biochemistry, pathology, pharmacology, and physiology. Candidates for the master's degree are required to present an acceptable thesis and to meet such other requirements as may be specified by the Graduate Council. A minimum of 45 terms

hours of graduate credit is required for the master's degree.

Instruction leading to the Doctor of Philosophy degree is offered in anatomy, bacteriology, biochemistry, pharmacology, and physiology. Candidates for the Ph.D. degree must present a thesis that represents a definite contribution to knowledge, and must meet such other requirements in a major subject and in one or two minors as are stipulated by the Graduate Council in each case. A minimum residence of three academic years or equivalent beyond the bachelor's degree is required for the Ph.D. degree. The candidate must demonstrate a reading knowledge of German and French at least one academic year prior to presentation of his thesis. By permission of the Graduate Council, on petition, another modern foreign language may in special cases be substituted for French. All candidates take a preliminary examination, which may be oral or written or both, one academic year prior to the expected completion of the thesis, and an oral examination after completion of the thesis. The thesis must be filed with the chairman of the Graduate Council not less than three weeks before the date of Commencement.

Fees and Deposits

EES and deposits paid by students at the University of Oregon Medical School ■are as follows:

REGULAR FEES

Tuition, per term	\$60.00
Laboratory and course fee, per term	55.00
Nonresident fee, per term (in addition to fees for resident students)	50.00
¹ Building fee, per term	4 50
² Incidental fee, per term	4.50

GRADUATE FEES⁸

For graduate students registered for 7 or more term hours of work pe	r term :
Tuition	\$10.00
Laboratory and course fee	12.50
¹ Building Fee	4.50
Incidental fee	4.30

Part-time special students (taking 6 hours of work or less) do not pay the building fee.

² The incidental fee is for student health service. Only those students pursuing programs of study toward the M.A., M.S., or Ph.D. degree are classified as graduate students. These students do not pay the nonresident fee.

For graduate students registered for 6 term hours of work or less
For graduate students employed as graduate or research assistants or fellows, per term:
¹ Building fee\$ 5.00
² Incidental fee 4.50

Evaluation fee \$ 5.00
The evaluation fee is charged for the evaluation of transcripts submitted with the application for admission; not refundable.
Late-registration fee
Registration is cancelled after one week, after which a \$2.00 fee is required for reinstatement.
Graduate qualifying-examination fee\$ 1.00 to \$15.00
MICROSCOPES
Medical students are expected to provide themselves with microscopes. Micro

Medical students are expected to provide themselves with microscopes. Microscopes are available for students who wish to rent them, for a fee of \$4.00 a term.

FEE REFUNDS

Students who withdraw from the Medical School and who have complied with the regulations governing withdrawals are entitled to certain refunds of fees paid, depending on the time of withdrawal. The refund schedule has been established by the Oregon State Board of Higher Education and is on file in the Business Office of the Medical School. All refunds are subject to the following regulations:

(1) Any claim for refund must be made in writing before the close of the term in which the

(2) Refunds in all cases are calculated from the date of application for refund and not from the date when the student ceased attending classes, except in unusual cases when formal withdrawal has been delayed through causes largely beyond the control of the student.

REGULATIONS GOVERNING NONRESIDENT FEE

The Oregon State Board of Higher Education has defined a nonresident student as a person who comes into Oregon from another state for the purpose of attending one of the institutions under the control of the Board.

In order to draw a clear line between resident and nonresident students, the board has ordered that all students in the institutions under its control who have not been domiciled in Oregon for more than one year immediately preceding the day of their first enrollment in the institution shall be termed nonresident students, with the following exceptions:

- (1) Students whose father (or mother, if the father is not living) is domiciled in the state of Oregon.
- (2) Children of regular employees of the Federal government stationed in the state of
- (3) Students holding a baccalaureate degree and working toward the M.A., M.S., Ph.D., or other graduate degree (the M.D. degree is classified as a professional, not a graduate degree.)

Fellowships, Scholarships, Loan Funds, Prizes

Noble Wiley Jones Pathology Research Fellowship. This fellowship, founded in 1919, consisting of the interest on \$5,000 held in trust, is the gift of Dr. Noble Wiley Jones of Portland. It is awarded annually to a medical student or resident on the basis of scholastic ability, training in pathology, and interest in research in this field.

Kenneth A. J. Mackenzie Memorial Scholarships. Five \$200 scholarships are awarded annually for the study of medicine, in accordance with the following plan: one \$200 scholarship is awarded each year to the outstanding premedical student at the University of Oregon in the last year of his premedical studies; if the student enters the University of Oregon Medical School and continues to maintain a high scholastic record, the scholarship is renewable for each of his four years of medical training; if the student does not maintain a high scholastic record at the Medical School, his scholarship is transferred to the outstanding member of his Medical School class who has taken his premedical work at the University of Oregon. The scholarships are a memorial to Dr. Kenneth A. J. Mackenzie, former dean of the Medical School; they are endowed through a bequest from the late Mrs. Mildred Anna Williams.

Pohl Memorial Scholarships. These scholarships were endowed in 1936 by a gift of \$5,000 from Dr. Esther Pohl Lovejoy, in memory of her husband, Dr. Emil Pohl, and her son, Frederick Clayson Pohl. The original gift has been supplemented by additional annual donations from Dr. Lovejoy, which have increased the endowment to about \$22,500. Awards are made to students of promise in the field of medicine. Two-thirds of the scholarships are given to men students, one-third to women students. Application should be filed with the office of the dean of the Medical School not later than April 1. Scholarships are awarded by the dean upon the recommendation of the Scholarship Committee of the Medical School.

State Scholarships. In accordance with special authorization from the Legislature, the State Board of Higher Education awards annually a limited number of

¹ Part-time students (taking 6 hours of work or less) do not pay the building fee.

² The incidental fee is for student health service.

⁸ See Admission and Requirements.
4 The cost of any damage done by a studnet to Medical School property is deducted from his deposit; in case the identity of the one responsible cannot be established, a pro-rata charge is made against the entire class of which he is a member.

scholarships to students in the institutions of the State System who are residents of Oregon, who rank high in scholastic attainment, and who need financial assistance. These scholarships cover tuition. Recipients must pay the building fee, the incidental fee, and special fees. Award of state scholarships to students at the Medical School is made upon recommendation of the dean and the Scholarship Committee of the Medical School. Applications should be sent to the dean of the Medical School not later than April 1.

George H. Strowbridge Memorial Scholarship. This scholarship consists of the income from a bequest of \$5,000 from Mary S. Muellhaupt in memory of Dr. George H. Strowbridge, a graduate of the University of Oregon Medical School in the Class of 1897. Award is made to a student of the second-, third-, or fourth-year class upon the basis of scholastic attainment and need. Application should be filed in the office of the dean of the Medical School not later than April 1. Scholarships are awarded by the dean upon the recommendation of the Scholarship Committee of the Medical School.

Frank Ralston Research Student Assistantship. This assistantship was made available in 1946 through a gift of \$5,000 from Dr. Frank Ralston. The funds are devoted to research in glaucoma under the direction of the head of the Department of Ophthalmology.

Ben Selling Loan Fund. This fund, a bequest from the late Mr. Ben Selling, is administered by Dr. Laurence Selling. Applications for loans are made through the office of the dean of the Medical School.

W. K. Kellogg Loan Fund. In May 1942, the W. K. Kellogg Foundation established a \$10,000 loan fund at the University of Oregon Medical School for the financial assistance of medical students. Preference is given to first- and second-year students who have demonstrated scholastic ability, character, and need. The usual loan is \$250. Loans are administered through the office of the dean.

Leona M. Hickman Student Loan Fund. This fund, established in 1936, is available, by the terms of the trust, to young men who are actual residents of King County, state of Washington; the fund is administered by the Peoples National Bank of Washington in Seattle as trustee. Application should be made to the Trust Department of the Peoples National Bank of Washington, 1414 Fourth Avenue, Seattle, Washington.

Henry Waldo Coe Prize. This prize, founded in 1929, is awarded to a second-third-, or fourth-year student in the Medical School who presents an essay on a medical subject exhibiting superiority and originality in composition. The prize consists of the interest on a gift of \$1,000 from the late Dr. Henry Waldo Coe.

Joseph Lipshutz Memorial Essay Award. An award of \$50 is made annually to the fourth-year medical student writing and presenting the best paper in the field of pediatrics. The award is supported by a \$600 fund, contributed by private donors as a memorial to Dr. Joseph Lipschutz, graduate of the Medical School who gave his life for his country in World War II.

University of Oregon Loan Funds. Except in the case of a few funds which are specifically restricted to the University students at Eugene, students of the Medical School are eligible for loans from the University student loan funds on the same basis as students on the campus at Eugene. For loan regulations see the general University Catalog.

Endowment Funds

The Dorothy Strowbridge Jackson Memorial Fund (1935) was made available through a trust agreement provided in the will of Zola P. White. The trust, the income of which is to be devoted to instructional needs of the Department of Medicine, is administered by the First National Bank of Portland. The assets of the fund consist principally of real estate in Portland.

The Widmer Memorial Research Fund (1939) was made available through a gift from Gertrude E. and Margaret M. Widmer, residents of Eugene, in memory of their parents and brother. The invested capital amounts to \$16,000. The income from this fund is utilized for the purpose of research and treatment of cancer and heart disease.

The Kenneth A. J. Mckenzie Memorial Fund (1940), amounting to \$250,000, was given to the University of Oregon by the late Mildred A. Williams in memory of Dr. Kenneth A. J. Mackenzie. Of the annual income of this fund, \$1,000 is devoted to scholarships for premedical and medical students, and the remainder (approximately \$7,000) is devoted to the support of the Department of Surgery.

The Lola Norwood Diack Trust Fund (1938) was established by Dr. Samuel L. Diack and others in memory of Lola Norwood Diack. The income is available to the various departments of the Medical School for research.

Jones Lectureship in Medicine. The Jones Lectureship in Medicine, founded by Dr. Noble Wiley Jones of Portland, provides the income from a \$5,000 fund for a series of lectures by an authority in some branch of medical science. The first lectures were given in 1920 by Professor Ludwig Hektoen, professor of pathology, University of Chicago; the second in 1921, by Professor William Ophüls, professor of pathology, Stanford University; the third in 1922, by Sir Thomas Lewis of London; the fourth in 1925, by Dr. A. J. Carlson, University of Chicago; the fifth in 1926, by Dr. Martin H. Fisher, professor of physiology, University of Cincinnati; the sixth in 1928, by Dr. Julius Bauer of Vienna: the seventh in 1931, by Dr. E. T. Bell, professor of pathology, University of Minnesota Medical School: the eighth in 1932, by Dr. W. B. Cannon, professor of physiology, Harvard University; the ninth in 1933, by Dr. George H. Whipple, dean of the University of Rochester Medical School; the tenth in 1934, by Dr. John Farquhar Fulton, Sterling professor of physiology, Yale University School of Medicine; the eleventh in 1935, by Dr. Wilder Penfield, professor of neurology and neurosurgery, McGill University: the twelfth in 1938, by Dr. Eugene M. Landis, assistant professor of medicine, University of Pennsylvania; the thirteenth in 1938, by Dr. Arno B. Luckhardt, professor of physiology, University of Chicago; the fourteenth in 1940, by Dr. Herbert M. Evans, professor of anatomy and Herzstein professor of biology, University of California; the fifteenth in 1941, by Dr. Bradley M. Patten, professor and director of the Department of Anatomy, University of Michigan; and the sixteenth in 1946, by Dr. Fuller Albright, professor of medicine, Harvard University.

The Matie B. Train Research Fund (1944) was established under the will of the late Matie B. Train for research in diseases of the vascular system. The principal of the fund is now about \$5,400.

The David P. Mathews Research Fund (1945), approximately \$20,000, was made available under the will of the late David P. Mathews. The fund is to be

utilized in research and study of improved methods for the treatment and cure of asthma.

The Weeks Ophthalmology Fund (1945) was established through a gift of \$5,000 from Mrs. John E. Weeks and the late Dr. Weeks; the fund will be utilized to establish and maintain a clinic at the Medical School for the diagnosis and treatment of anomalies of binocular vision.

Andrew J. Browning Ophthalmologic Memorial Fund (1947) was established through a gift of \$3,000 to further the teaching of ophthalmology in the Medical School by purchase of outstanding art illustrating ophthalmic subjects.

The Thomas M. Joyce Memorial Fund (1947) was established by friends as a memorial to the late Dr. Thomas M. Joyce. The principal at present amounts to approximately \$16,000. The annual income is utilized to aid in the training of a fellow in surgery.

The Don McGraw Research Fund (1948) was established through a gift of \$5,000 from Mrs. Don McGraw and a gift of \$1,000 from Aubrey R. Watzek. The fund will be used to support research in cardiovascular disease and related disorders

The Watzek Ophthalmology Research Fund (1948) was established through a gift of \$1,000 from Aubrey R. Watzek; it will be used to finance preliminary work in new research projects in ophthalmology.

The Byron and Johanne Dorsey Endowment Fund (1949) was established through a gift of \$18,000; the income will be devoted to research on cancer.

Student Health

THE student health service program at the Medical School is carried on under the direction of a committee of the faculty. Service to the student is provided in the hospitals and clinics of the Medical School. In addition to the general service of the entire school, arrangement is made for obtaining the advice and service of the dean and heads of departments in all student health and welfare problems. All entering students are required to take a physical examination, and all graduating students are required to take a special chest examination. A fee of \$4.50 per term is charged each student for health service.

Fraternal and Honor Societies

HAPTERS of the following medical fraternities and honor societies are located at the Medical School: Alpha Epsilon Iota, Alpha Kappa Kappa, Nu Sigma Nu, Theta Kappa Psi, Alpha Omega Alpha (honorary medical society for both men and women).

Alumni Association

THE Medical School Alumni Association includes the graduates of the Medical School and of the Willamette University department of medicine, which was merged with the University of Oregon Medical School in 1913. A strong organization has been built up, devoted to the interests of students and graduates

and to the encouragement of scientific and professional progress among members of the association and in the medical profession generally. With the faculty of the Medical School, the association is cooperating to build up a great medical center in Portland. The officers of the Alumni Association for 1950-51 are:

Dr. Homer P. Rush, Portland	President
Dr. Hower P. Rush, Portland	Vice-President
DR. HOMER P. RUSH, POTURIO. DR. DRAN B. SEABROOK, Portland.	Vice President
Dr. John B. Long, Sacramento, Calif	Wine Persident

Dr. Koderick Begg, Portland	Treasurer

Curriculum in Medicine

HE curriculum in medicine requires a total of seven years' work beyond high school. The first three years must be satisfactorily completed before admission to the Medical School in Portland. Since facilities for instruction provide for the acceptance of only a limited number of applicants, completion of premedical studies does not guarantee admission to the Medical School.

The four years spent in the Medical School in Portland are devoted to the subjects of the regular four-year curriculum in medicine required by law.

The prescribed and recommended subjects for the three premedical years are described under Admission and Requirements. In the first, second, third, and fourth years at the Medical School there are 4,587 class hours of required work. Elective courses may be taken with the permission of the instructor in any term for which they are scheduled. Descriptions of courses are to be found under the several departmental headings.

PRESCRIBED WORK

The hours listed below to do not include examination periods.

Course-Numbering System

EDICAL School courses are numbered in accordance with the uniform course-numbering system of the Oregon State System of Higher Education. This numbering system, as it applies to the Medical School courses, is as follows:

- 400-499. Upper-division courses primarily for first-year students in medicine, but to which graduate students may be admitted on approval of the graduate adviser and department head concerned.
- 500-599. Courses primarily for students in basic medical science, but to which graduate students may be admitted on approval of graduate adviser and department head concerned.
- 600-699. Courses that are highly professional in nature and may count toward a professional degree, but cannot apply toward an advanced academic degree (M.A., M.S., or Ph.D.).

Certain numbers are reserved for courses that may be taken through successive terms under the same course number, credit being granted according to the amount of acceptable work done. These course numbers are as follows:

- 501. Research.
- 503. Thesis.
- 505. Reading and Conference.
- 507. Seminar.

Basic Science Departments

ANATOMY

Required Courses

First Year

An 411, 412, 413. Gross Anatomy. 5 hours fall, 7 hours winter, 3 hours spring.

Fall: lectures and quizzes, 2 hours; laboratory, 9 hours. Winter: lectures and quizzes, 3 hours; laboratory, 12 hours. Spring: lectures and quizzes, 2 hours; laboratory, 3 hours. 341 hours. Drs. Pearson, Stotler, and assistants.

An 414, 415. Microanatomy. 6 hours fall, 4 hours winter.

Fall: lectures and quizzes, 3 hours; laboratory, 9 hours. Winter: lectures and quizzes, 2 hours; laboratory, 6 hours. 220 hours. Drs. Larsell, Tunturi, and assistants.

An 511. Neurology and Organs of Special Senses. 4 hours spring.

Prerequisites: An 411, 415. Lectures, 2 hours; laboratory, 6 hours; 88 hours.

Drs. Larsell, Stotler, Tunturi, and assistants.

Elective Courses

An 416. Microscopic Technique. 2 hours spring.

Limited to 8 students. Registration only after consultation with instructor. Laboratory, 6 hours; 66 hours. Dr. Larsell and Mrs. Sceats.

An 501. Research. Any term, hours to be arranged.

Open to qualified students in any branch of anatomy upon approval of the instructors. Drs. Larsell, Pearson, Stotler, and Tunturi.

An 505. Reading and Conference. Any term, hours to be arranged. Drs. Larsell, Pearson, Stotler, Tunturi.

An 507. Seminar and Journal Club. Any term, hours to be arranged.

Anatomical staff and advanced students. Dr. Larsell and staff.

An 511. Advanced Histology. Winter, hours to be arranged.

Prerequisites: An 414, 415. Laboratory, 6 hours or less. Limited to 20 students. Dr. Larsell.

An 513. Topographical Anatomy. 1 or 2 hours spring.

Prerequisites: An 411, 412, 413. Limited to 15 students. Laboratory, 3 or 6 hours, 33 or 66 hours. Drs. Pearson and Stotler.

An 514. Special Dissections. Term and hours to be arranged.

Registration limited by available material. Prerequisites: An 411, 412, 413.

An 516. Mechanism of the Central Nervous System. 1 hour spring.

Lectures, reading assignments, and demonstrations of experiments on the central nervous system. Lecture, 1 hour; demonstration and reading to be arranged. Dr. Tunturi.

An 517. Comparative Neurology. Winter or spring, hours to be arranged. Lectures, conferences, and laboratory. Dr. Larsell.

An 611. Applied Anatomy. 2 hours spring.

Prerequisites: An 411, 412, 413. Lectures and demonstrations, 2 hours; 22 hours. Limited to 45 students. Dr. Warrington and assistants.

BACTERIOLOGY

Required Courses

Second Year

Bac 413, 414. Medical Microbiology and Immunology. 5 hours each term, fall and winter.

Lectures and recitations, 3 hours each term; laboratory, 6 hours each term; 198 hours. Drs. Sears, Frisch, and Veazie, and Miss Brownlee.

Elective Courses

Bac 501. Research in Bacteriology and Immunology. Hours to be arranged. Drs. Sears and Frisch.

Bac 505. Reading and Conference. Any term, hours to be arranged. Drs. Sears and Frisch.

Bac 507. Seminar in Bacteriology and Immunology. 1 hour any term.

Meetings of the departmental staff and assistants with a number of specially qualified students to discuss the newer developments in the science as they appear in the current periodical literature. Topics assigned and individual reports read at meetings of the class. Open to a limited number of students. Meetings held once each week for one hour. Dr. Sears.

Bac 508. Advanced Bacteriology and Immunology. Any term, hours to be arranged.

A course for medical, special, and graduate students who wish to pursue any phase of the subject beyond Bac 414. Drs. Sears and Frisch.

BIOCHEMISTRY

Required Courses

First Year

BCh 411, 412. Biochemistry. 6 hours each term, fall and winter.

Fall: lectures, 4 hours: laboratory, 6 hours. Winter: lectures, 3 hours: laboratory, 9 hours; 242 hours. Drs. West, Todd, and Van Bruggen, and assist-

Elective Courses

BCh 501. Biochemistry Research. Any term, hours to be arranged.

Drs. West, Todd, and Van Bruggen.

BCh 505. Reading and Conference. Any term, hours to be arranged.

Drs. West, Todd, and Van Bruggen.

BCh 507. Seminar. Any term, hours to be arranged.

BCh 512, Advanced Biochemistry. Spring, hours to be arranged.

The work consists of biochemical preparations, selected methods of analysis, assigned readings, and conferences. Prerequisites: BCh 411, 412. Drs. West, Todd, and Van Bruggen.

BCh 513. Selected Topics in Biochemistry. 1 hour fall.

Biochemical material presented in this course provides additional training in the field as related to clinical medicine; 1 hour; 11 hours. Drs. West, Todd, and Van Bruggen.

Laboratory Diagnosis. Required for second-year students; see Med 511.

PATHOLOGY

Required Courses

Second Year

Pth 511. General Pathology. 5 hours fall.

Study of prepared slides supplemented by experiments; fresh and museum specimens; kodachrome slides and scopicon orientation. Lectures and recitations: 3 hours: laboratory, 6 hours; 99 hours. Dr. Hunter, Sneeden, or Snyder.

Pth 512. General Pathology. 5 hours winter.

Lectures, 3 hours; laboratory, 6 hours; 99 hours. Dr. Hunter, Sneeden, or Snyder.

Third Year

Pth 514. Gynecological and Obstetrical Pathology. 11/2 hours fall or spring. Lectures, 1 hour; laboratory, 2 hours; 33 hours. Drs. Hunter, Queen, Sneeden, and Snyder.

Pth 515. Laboratory Neuropathology. 11/2 hours fall. Continuation of Ps 611; consists of laboratory work and demonstrations deal-

ing with inflammatory reactions and degenerative conditions, with emphasis on general paresis, tabes dorsalis, and brain tumors. Gross pathological specimens and demonstrations are used in illustrating the diseases studied. Lectures, 1 hour; laboratory, 2 hours; 33 hours. Drs. Queen and Raaf, and assistants.

Fourth Year

Pth 613. General Pathology Conference. 1/2 hour each term.

One hour a week throughout the year; 33 hours. Staffs of the departments of Pathology, Medicine, Surgery, and Obstetrics and Gynecology.

Pth 615. Tumor Clinic. 1/2 hour each term.

One hour a week throughout the year; 33 hours. Staffs of the departments of Pathology, Medicine, Surgery, Obstetrics, and Gynecology.

Pth 617. Surgical Pathology. 11/2 hours.

Four hours a week for 51/2 weeks; and two hours a week for 51/2 weeks; 33 hours. Drs. Hunter, Menne, Queen, and staff.

Pth 618, Oncology. 1 hour spring.

Systematic study of cancer. Historical development of knowledge; experimental development of cancer; characteristics of human cancer; statistical information; present cancer problems; recent developments; organizational attack; methods of diagnosis and therapy; patient's and physician's responsibilities. Round-table instruction, with illustrations. Lecture, 1 hour; laboratory, 1 hour; 22 hours. Dr. Queen.

Medical Jurisprudence. Required for fourth-year students; see Med 651.

Elective Courses

Pth 501. Research. Any term, hours to be arranged. Open to specially qualified students. Dr. Hunter or Dr. Sneeden.

Pth 505. Reading and Conference. Any term, hours to be arranged. Drs. Hunter and Sneeden.

Pth 516. Advanced Systematic Pathology. Any term, hours to be arranged. Study of the detached pathology of one system. Dr. Hunter or Dr. Sneeden.

Pth 517. Advanced Pathological Histology. Any term, hours to be arranged. Systematic study of microscopic sections of autopsy tissues. Open to students who have had at least one term's work in pathology. Drs. Hunter and Sneeden.

Pth 518. Special Pathology of Heart and Circulation. Spring, hours to be arranged.

Dr. Hunter.

Pth 614. Attendance at Autopsies. Fall or winter, hours to be arranged. Opportunity offered to students to elect autopsy attendance with instruction. Such students are required to assist and make detailed suggestions. Limited to 20 students. Drs. Hunter, Sneeden, and Synder, and assistants.

Pth 616. Tumor Clinic. 1/2 or 1 hour, one section each term. Attendance at tumor clinic at U. S. Veterans Hospital. Two hours a week for 51/2 weeks, 11 hours. Dr. Menne.

PHARMACOLOGY

Required Courses

Second Year

- Phc 511. Systematic Pharmacology and Prescription Writing. 4 hours winter. Lectures and quizzes, 3 hours; laboratory, 3 hours; 66 hours. Drs. David and McCawley.
- Phc 512. Systematic Pharmacology and Pharmacodynamics. 5 hours spring.

 Lectures and quizzes, 4 hours; laboratory, 3 hours; 77 hours. Drs. David and McCawley.

Elective Courses

Phc 501. Research. Any term, hours to be arranged.

Students who are properly qualified and who can devote an adequate amount of time to the work are encouraged to pursue original investigations of pharmacological problems. Dr. David.

Phc 505. Reading and Conference. Any term, hours to be arranged. Dr. McCawley.

Phc 507. Seminar. 2 hours spring.

Open to third- and fourth-year students; 2 hours; 22 hours. Dr. McCawley.

Phc 514. Toxicological Analysis. 2 hours spring.

(Second year.) Lectures and quizzes, 1 hour; laboratory, 3 hours; 44 hours. Limited to 16 students. Drs. David and McCawley.

PHYSIOLOGY

Required Courses

First Year

Phy 411. Human Physiology. 8 hours spring.

Introductory general physiology, digestive tract, endocrine glands, renal physiology, and circulation. Lectures, 5 hours; laboratory, 9 hours; 154 hours. Drs. Youmans, Brookhart, Griswold, Pitcairn, and Trainer.

Second Year

Phy 412. Human Physiology. 6 hours fall.

Respiratory system, nervous system, and senses. Lectures, 4 hours; laboratory, 6 hours; 110 hours. Drs. Youmans, Brookhart, Griswold, Pitcairn, and Trainer.

Elective Courses

Phy 414. History of Physiology. 1 hour winter.

One hour a week, Limited to 10 students

Phy 501. Research. Any term, hours to be arranged.

Drs. Youmans and Brookhart.

Phy 505. Reading and Conference. Any term, hours to be arranged.

Drs. Youmans and Brookhart.

Phy 507. Seminar. Any term, hours to be arranged.

Phy 511. Physiology of the Glands of Internal Secretion. 2 hours spring.

Prerequisites: Phy 411, 412. Lectures, 1 hour; laboratory, 3 hours; 44 hours.

Limited to 8 students.

Phy 513, Physiology of the Autonomic Nervous System, 1 hour fall.

Devoted primarily to problems concerning the physiology of the peripheral autonomic nervous system, including the transmission of impulses at autonomic synapses and neuroeffector junctions. Attention given to the production, action, and destruction of the neurohormones. Reports and discussion. Limited to 15 students. I hour; 11 hours.

MILITARY SCIENCE AND TACTICS

The Army Reorganization Act of June 4, 1920 provided for the establishment of units of the Reserve Officer's Training Corps in selected medical schools. An R. O. T. C. unit was established at the University of Oregon Medical School in 1920.

The courses offered are correlated with other courses taught in the Medical School. The organization, administration, and functions of the Army in war and peace are studied. Particular stress is laid on the place of the medical department in the military organization.

Instruction is given by lectures, demonstrations, and quizzes.

Required Courses

Mil 411, 412, 413. Military Medicine (First Year). I hour each term.

Mil 414, 415, 416. Military Medicine (Second Year). 1 hour each term.

Military organization, history of military medicine, theoretical schools of the soldier and company, first aid, organization and administration of the medical department, map reading, tactics, and the use of medical units in peace and war. Lieutenant Colonel Smith.

Elective Courses

Mil 417, 418, 419. Advanced Military Medicine (Third Year). 1 hour each term.

Mil 420, 421, 422. Advanced Military Medicine (Fourth Year). 1 hour each term. Completion of the elementary course or its equivalent is a prerequisite. Students who complete the work of the advanced course will be eligible, on graduation, for a commission in the Officers' Reserve Corps. Work during the school year covers hygiene, santation, control of communicable diseases, history and development of military hospitals and hospitalization, school of the officer, medical and surgical diseases peculiar to war, aviation medicine, and allied subjects. A summer camp of six weeks' duration is required as part of the advanced course. Veterans may take a clinical clerkship at the nearest Army general hospital in lieu of regular camp. While in attendance at camp, students receive the pay of recruits of the U. S. Army, and are furnished uniforms, shelter, subsistence, medical service, and transportation to and from camp. Commutation of subsistence amounting to approximately \$513 is now paid during the period of the advanced course. Lieutenant Colonel Smith.

Clinical Departments

MEDICINE

INTERNAL MEDICINE

Required Courses

First Year

Med 411, 412, 413. Introduction to Clinical Medicine. 1 hour each term.

An introductory course, consisting of lectures and clinical demonstrations to

orient the student in medicine and correlate the basic sciences with clinical problems. Lecture, 1 hour; 33 hours. Drs. Lewis and Livingston.

Second Year

Med 511. Laboratory Diagnosis. 5 hours spring.

Lectures, 3 hours; laboratory, 6 hours; 99 hours. Dr. Grondahl and assistants.

Med 612, 613, 614. Physical Diagnosis. 3 hours each term.

Lectures, 2 hours; demonstrations, 2 hours; 132 hours. Drs. Lewis, Haney, Kulasavage, Lindgren, Philip Selling, and Speros.

Third Year

Med 617, 618. Clinical Clerkship. 6½ hours each term.

Students are assigned to the medical service in the Multnomah Hospital and Veterans Hospital for two terms, in sections; 99 hours each term, 198 hours. Drs. Baker, Crommelin, Field, Forster, Gilmore, Gould, Griswold, Krygier, Labby, Lodmell, McCutchan, McMahon, Joseph Miller, Mills, and Welch.

Med 620, 621. Medical Clinic. ½ hour each term.

Multnomah Hospital. One hour for two terms, in sections; 11 hours each term, 22 hours. Drs. Forster and Perlman.

Med 668, 669, 670. Practice of Medicine. 6 hours each term.

Systematic study of various medical disorders. The subject is divided into natural groups according to systems, each field being discussed separately with emphasis on anatomy, physiology, clinical manifestations, and therapy. Lectures, 6 hours; 198 hours. Drs. Lewis, Adams, Crommelin, Dow, Fitzgibbon, Goldsmith, Griswold, Haney, Heller, Holcomb, Hollenbeck, Krygier, Labby, Long, Moore, Osgood, Riddle, Rush, Schwartz, Underwood, and Weinzirl.

Fourth Year

Med 624, 625, 626. Medical Outpatient Clinic. 2 hours each term.

Four hours throughout the fourth year; 132 hours. Drs. Allen, Alleman, Bergman, Cohen, Grossman, Haney, Harding, Horenstein, Kammer, Kulasavage, Lindgren, MacDaniels, Malbin, Maurice, Murphy, Nudelman, Peterson, Robins, Rosenbaum, Saward, Scott, Seaman, Taylor, Vidgoff, and Voth.

Med 627, 628, 629. Medical Clinic. 1/2 hour each term.

Tuberculosis Hospital. Diseases of the chest. One hour throughout the year; 33 hours. Drs. Conklin, Speros, and Tuhy.

Med 635. Tuberculosis Clinic. 1 hour, one section each term.

Outpatient Clinic. Four hours a week for 5½ weeks, throughout the year, in sections; 22 hours. Drs. Cohen, Speros, and Tuhy.

Med 636 Diabetes and Metabolism Division, Outpatient Clinic. 1 hour, one section each term.

Outpatient Clinic, clinical conference. Two hours a week for one term; throughout the year, in sections; 22 hours. Drs. Holcomb, Crommelin, Grossman, Haney, Horenstein, Kammer, and Power.

Med 645. Cardiovascular-Renal Disease Division, Outpatient Clinic. 1 hour, one section each term.

Outpatient Clinic, clinical conference. Two hours a week for one term; throughout the year, in sections; 22 hours. Drs. Rush, Underwood, Berger, Brill, Coffen, Davis, Goldsmith, Griswold, Haney, Pierson, Riddle, Edward Rosenbaum, Schwartz, Philip Selling, Stenzel, Swett, Welch, and Wilson.

Med 651. Medical Jurisprudence. ½ hour spring.

Eleven hours. Dr. Richardson.

Med 658. Allergy Clinic. 1 hour spring.

Clinic, 1 hour a week; 11 hours. Dr. Benson.

Med 661. Medical Economics. 1/2 hour.

Lectures on medical economics; 11 hours.

Med 664. Tuberculosis Clerkship. 1/2 hour, one section each term.

Tuberculosis Hospital. One hour a week for 5½ weeks, throughout the year, in sections; 5½ hours. Dr. Conklin.

Med 671. Occupational Medicine and Toxicology. 1 hour fall.

Disorders arising from exposure to various toxic substances encountered in industry, and disorders resulting from the use of poisons. Lectures, 11 hours. Dr. David.

Med 672, 673, 674. Medical Clinics. 1/2 hour each term.

Multnomah Hospital. Demonstrations, one hour a week, throughout the year, in sections, 33 hours. Drs. Lewis and Sears.

Med 678, 679. Tropical Medicine. 1 hour each term, winter and spring.

Diagnosis and clinical and therapeutic aspects of tropical diseases. One hour a week for 22 weeks; 22 hours. Dr. Riddle.

Med 680. Gastroenterology Division, Outpatient Clinic. 1 hour, one section each term.

Outpatient Clinic, clinical conference. Two hours a week for one term; throughout the year, in sections; 22 hours. Drs. Fitzgibbon, Hollenbeck, Boylston, DuBois, Field, Keane, Krygier, Labby, Littlehales, Lodmell, Long, Mills, and Woods.

Med 681. Endocrinology Division, Outpatient Clinic. 1 hour, one section each term.

Outpatient Clinic, clinical conference. Two hours a week for one term; throughout the year, in sections; 22 hours. Drs. Heller, Aumann, Harvey, Hibbs, McGovern, Power, and Rogers.

Med 682. Chest Diseases Division, Outpatient Clinic. 1 hour, one section each

Outpatient Clinic, clinical conference. Two hours a week for one term; throughout the year, in sections; 22 hours. Drs. Conklin, Speros, Cohen, Samuel Diack, Goodman, Maurice, Tuhy, and Welch.

Med 683. Hematology Division, Outpatient Clinic. 1 hour, one section each term.

Outpatient Clinic, clinical conference. Two hours a week for one term; throughout the year, in sections; 22 hours. Drs. Osgood, Kulasavage, Li, Joseph Miller, and Seaman.

Med 684. Allergy Division, Outpatient Clinic. 1 hour, one section each term.

Outpatient Clinic, clinical conference. Two hours a week for one term; throughout the year, in sections; 22 hours. Drs. Benson, Matteri, Moore, and Perlman.

Elective Courses

Med 501. Research in Hematology. Any term, hours to be arranged. Dr. Osgood.

Med 505. Reading and Conference. Any term, hours to be arranged. For third- and fourth-year students. Dr. Osgood.

Med 601. Research. Any term, hours to be arranged.

Med 649. Tuberculosis-Control Clinic for Children. ½ hour any term. (Fourth year.) 11 hours. Limited to 4 students. Dr. Speros.

Med 659. Electrocardiography. ½ hour fall.

Lectures on electrocardiography. 11 hours. Drs. Rush and Haney.

Med. 660. Outpatient Clinic. Any term, hours to be arranged in accordance with the requirements in the regular Outpatient Clinic course.

(Fourth year.) Elective credit for completion of clinical work in the department in addition to that required in the regular Outpatient Clinic course.

NEUROLOGY

Required Courses

Fourth Year

Neu 614. Neurology Division, Outpatient Clinic. 1 hour, one section each term.

Outpatient Clinic, clinical conference. Two hours a week for one term; throughout the year, in sections; 22 hours. Drs. Margason, Burns, Carter, and Dow.

Neu 615. Clinic. ½ hour, one section each term.

Sections of the fourth-year class are assigned to the neurological service of the Multnomah Hospital. Throughout the year, in sections; 11 hours. Drs. Laurence Selling and Dow.

PSYCHIATRY

Required Courses

Second Year

PS 611. Lectures: Neuropathology and Psychopathology. 1 hour winter.

A series of lectures covering: (1) organic diseases of the central nervous system; (2) the fundamentals of psychopathology, including anxiety, mental depression, obsessions, compulsions, pathological sleep, false belief, sensory imagination, pathological sex, pathological memory, etc.; 11 hours. Drs. Coen, Dickel, Dixon, and Haugen.

Third Year

Ps 613, 614. General Psychiatric Lectures. ½ hour each term, winter and spring. Lectures. Psychopathology and symptoms of various mental reaction types and behavior disorders of children. One hour a week for two terms for entire class; 22 hours. Drs. Coen, Dickel, Dixon, Evans, Haugen, and Morrison.

Laboratory Neuropathology. (See Pth 515).

Fourth Year

Ps 615. Psychiatry Division, Outpatient Clinic. 1 hour, one section each term.

Outpatient Clinic, clinical conference. Two hours a week for one term; throughout the year, in sections; 22 hours. Drs. Burkes, Campbell, Coen, Dickel, Evans, Haugen, Hutchens, Jens, Kenin, McNutt, Miller, Morrison, and Thompson.

Ps 619. Psychoses. 1/2 hour fall.

Lectures and demonstrations of various psychoses from the viewpoint of mental mechanism, etiology, symptomology, diagnosis, and treatment; 11 hours. Drs. Campbell, Coen, Dickel, Dixon, Evans, and Haugen.

Elective Course

Ps 618. Demonstration Course in Prepsychotic Cases. 1 hour any term.

(Fourth year.) One hour a week for one term; 11 hours. Limited to 8 students.

Dr. Dixon.

DERMATOLOGY AND SYPHILOLOGY

Required Courses

Third Year

Der 611, 612, 613. Dermatology and Syphilology Clinic. ½ hour each term.

One hour each week devoted to presentation of clinical cases with detailed discussion of etiology, symptomology, and differential diagnosis. One hour a week throughout the year; 33 hours. Drs. Kingery, Dahl, Davis, Illge, Ray, and Saunders.

Fourth Year

Der 615. Clinical Lecture and Conference Course. 1½ hours, one section each term.

Utilization of outpatient material; clinical and microscopic diagnostic procedures; general therapy. Three hours a week for each section for one term; 33 hours. Drs. Kingery, Dahl, Davis, Illge, Labadie, Ray, and Saunders.

Der 616. Syphilis Outpatient Clinic. ½ hour, one section each term.

One hour a week for 5½ weeks; 5½ hours. Drs. Dahl, Ilge, and Saunders.

RADIOLOGY

Required Course

Third Year

Rad 611, 612, 613. Radiographic Diagnosis. 1/2 hour each term.

Lectures and quizzes. Consideration of the interpretation of pathology as depicted on the radiograph and the fluorescent screen; the medical, surgical, and dental application of roentgenology in diagnosis; the uses, the limitations, and the dangers; 33 hours. Drs. Burton, Edmison, Hunter, Milton Hyman, Selma Hyman, and Raines.

Elective Course

Rad 614. Radiographic Technique. 1/2 hour any term.

(Third year.) Lectures of a practical nature; the principles of radiography, and actual demonstration of technique; 11 hours. Limited to 20 students. Mr. Johnson.

PUBLIC HEALTH AND PREVENTIVE MEDICINE

Required Courses

First Year

PH 411. Statistical Methods as Applied to Medicine. 2 hours spring.

Introduction to the principles of medical statistics, with reference to analysis of vital statistics and to statistical analytical methods in all branches of medicine. Lecture, 1 hour; laboratory, 3 hours; 44 hours. Drs. Weinzirl, Hopkins, and staff.

Second Year

PH 512. Epidemiology. 1 hour winter.

Clinical and epidemiologic aspects of communicable diseases. Correlated with bacteriology. Lecture and recitation, 1 hour; 11 hours. Dr. Weinzirl.

PH 513. Epidemiology. 3 hours spring.

Principles of epidemiology illustrated by clinical and epidemiologic aspects of common communicable and other diseases. Lectures and recitations, 2 hours; laboratory or clinic, 3 hours; 55 hours. Dr. Weinzirl and staff.

Third Year

PH 511. Principles of Public Health. 3 hours winter.

The general principles of public health activities; control of communicable diseases; organization of Federal, state, local, and other health agencies; elements of infant, school, and industrial hygiene; vital statistics. Lectures, recitations, and discussions, 3 hours; 33 hours. Dr. Weinzirl.

Elective Courses

PH 501. Research. Any term, hours to be arranged.

PH 505. Reading and Conference. Any term, hours to be arranged.

PH 507. Seminar. Hours to be arranged.

DENTAL AND ORAL MEDICINE

Required Course

Third Year

DM 612. Dental Facial Growth and Oral Pathology. 1 hour.

The course is designed to give the medical student an appreciation of significant growth and developmental changes in dentition; the nature and systemic relation of oral disease; and the reciprocal relation of systemic disturbance upon the oral tissues. A survey of oral disease is provided by textbook reading; the lectures give special emphasis on dental caries, oral foci of infection, periodental disease, inflammatory conditions of the oral mucosa, and diagnostic method, including oral radiography. One hour a week for one term; 11 hours. Dr. Noyes.

SURGERY

GENERAL SURGERY

Required Courses

Second Year

Sur 610, 611. Introduction to Surgery. 1 hour each term, winter and spring.

Designed to give the student an appreciation of surgery, the history of its achievments and its limitations, the principles underlying surgical techniques, and the application of the basic sciences to surgical practice. Lectures, 2 hours; 22 hours. Dr. Livingston.

Sur 612. Healing Processes. 1 hour spring.

The reaction of soft parts and bone to injury, infection, and tumors; the principles of surgical treatment. Lecture, 1 hour; 11 hours. Dr. Wiley.

Third Year

Sur 613, 614. Minor Surgery, I hour each term, fall and winter.

Lectures and demonstrations concerning minor surgical conditions and their treatment. Lectures, 2 hours; 22 hours. Dr. Johnsrud.

Sur 615. Physiotherapy. ½ hour spring.

Lectures and demonstrations; 11 hours. Dr. Jones.

Sur 640. Clinical Clerkship. 3 hours.

Students are assigned to the surgical service in the Multnomah Hospital and Veterans Hospital for one term in sections; 66 hours. Drs. Caniparoli, Clisby, Coffey, Edward Davis, Joe Davis, Arch Diack, Herren, Higginson, O. N. Jones, Kenneth Livingston, Morris, Reiner, Ross, Warrington, and Wise.

Sur 643. Surgical Clinic. 3 hours.

Multnomah Hospital and Veterans Hospital, one term in sections, in connection with clinical clerkships; 66 hours. Drs. Berg, Joe Davis, Gardner, Gill, Herren, Howard, O. N. Jones, Martzloff, McKelvey, Raaf, and Swinney.

Sur 646, 647, 648. Clerkship Clinic. ½ hour each term.

Conference course, covering surgical clerkship and assignments. One hour throughout the year; 33 hours. Dr. Gius.

Fourth Year

Sur 617. Outpatient Clinic. 1½ hours.

Two hours a week for one term and two hours a week for 5½ weeks; 33 hours. Drs. Bollam, Clisby, Cooke, Arch Diack, Edelson, Harpole, Lockitch, Mc-Kirdie, Munroe, Nisbet, Packard, Reiner, Ross, Shields, Smalley, South, Tinker, Warrington, and Zeller.

Sur 620, 621, 622. Surgical Conference. ½ hour each term.

One hour a week throughout the year, in sections; 33 hours. Drs. Adams, Bettman, Boyden, Brunkow, Bueerman, Chauncey, Dodson, Gambee, Hardwick, Laird, William Livingston, McKirdie, Nichols, Peterson, Rockey, Rosenblatt, Seabrook, Swinney, Warrington, and Wise.

Sur 623,624, 625. General Surgical Clinic. 1 hour each term.

Multnomah Hospital. Two hours a week throughout the year; 66 hours. Dr. Peterson

Elective Courses

Sur 601. Research. Any term, hours to be arranged.

Sur 627. Proctology Lectures. ½ hour spring.

(Third year.) Prerequisite to Sur 628: 11 hours. Dr. Laird.

Sur 628. Proctology. 1/2 hour, one section each term.

(Fourth year.) A clinic of diseases of rectum and colon. Prerequisite: Sur 627. 11 hours. Limited to four students.

Sur 630. Surgical Lesions of the Gastro-Intestinal Tract. 1/2 hour spring.

(Third year.) Lecture and demonstration course on diagnosis, pathology, and treatment; 11 hours.

Sur 631. Surgery of the Visceral Nervous System. 1/2 hour winter.

(Fourth year.) Lectures and demonstration; 11 hours.

Sur 633. Pain: Its Relation to Diagnosis. ½ hour winter. (Fourth year.) 11 hours.

Sur 635. Differential and Regional Neurosurgical Diagnosis and Therapeutics.

1/2 hour winter.

(Fourth year,) Lectures and demonstrations: 11 hours, Dr. Raaf.

Sur 636. Acute Abdominal Lesions, 1/2 hour spring.

(Fourth year.) Lectures, 11 hours, Dr. Gambee.

Sur 660. Outpatient Clinic. Any term, hours to be arranged in accordance with the requirements in the regular Outpatient Clinic course.

(Fourth year.) Elective credit for completion of clinical work in the department in addition to that required in the regular Outpatient Clinic course.

ORTHOPAEDIC SURGERY

Required Courses

Third Year

Orp 611. Orthopaedic Surgery. 1 hour fall.

Lectures, 2 hours a week; 22 hours. Dr. Frank Smith.

Orp 612, 613. Surgery of the Extremeties. I hour each term, winter and spring. Systematic lectures and demonstrations dealing chiefly with fractures and other traumatic disorders of the extremities. The upper extremity is covered in one term, the lower in the other. Lectures and clinics, 2 hours; 44 hours. Drs. Blair and Carlson.

Fourth Year

Orp 616. Orthopaedic Outpatient Clinic. 11/2 hours each term.

One hour three times a week for 11 weeks; throughout the year, in sections; 33 hours. Drs. Abele, Begg, Berg, Cherry, H. Davis, J. Davis, Gill, Hafner, Hiestand, Jones, Kimberley, McKelvey, Mason, Noall, Short, and Smith.

Elective Course

Orp 615. Orthopaedic Ward Walk. I hour any term.

(Fourth year.) Shriners Hospital for Crippled Children. General ward rounds in the hospital, with discussion of the cases and methods of orthopaedic treatment in deformities of children; 2 hours; 22 hours. Dr. Lucas.

UROLOGY

Required Courses

Third Year

Ur 611. Diseases Affecting the Genito-Urinary Tract, 1/2 hour spring.

Lectures, 1 hour; 11 hours. Dr. Hodges.

Fourth Year

Ur 612, 613. Urological Clinic. ½ hour each term, fall and winter. Lectures and clinics: 1 hour. 22 hours. Dr. McDougall.

Ur 614. Outpatient Clinic. 1½ hours, one section each term.

Six hours a week for 5½ weeks throughout the year, in sections; 33 hours. Drs. Hodges, Catlow, T. Davis, Deur, Gardner, J. Larsell, McDougall, and Nielsen.

ANAESTHESIOLOGY

Required Courses

Third Year

Sur 661, 662. Lectures on Anaesthesia. ½ hour each term, winter and spring.

Lectures on anaesthesia, with demonstration and description of equipment employed; discussion of history, physiology, signs, and methods of anaesthesia; the various agents. Lecture, 1 hour; 22 hours. Dr. Haugen.

Fourth: Year

Sur 663. Clerkship in Anaesthesia. 1/2 hour, one section each term.

Observation of anaesthetic procedures in the operating room, and directed supervision in assisting the administration of the various types of anaesthesia. Four hours a day for 3 days; 11 hours. Dr. Haugen.

Elective Course

Sur 607. Anaesthesia Seminar. 1/2 hour spring.

(Third year.) Discussion of special methods, such as regional anaesthesia and diagnostic blocks; actual case histories from the standpoint of anaesthetic procedures; experimental reports and reading assignments. Limited to 12 students. One hour a week for one term; 11 hours. Dr. Haugen.

OPHTHALMOLOGY

Required Courses

Third Year

Eve 611. Eye. 1/2 hour spring.

Lectures and quizzes, 1 hour; 11 hours. Dr. Swan.

Fourth Year

Eve 612. Eye Outpatient Clinic. 11/2 hours, one section each term.

Six hours a week for 5½ weeks; throughout the year, in sections; 33 hours. Drs. Swan, Browning, Butler, Fixott, Talbot, Hill, and U'Ren.

Eye 613. Eye. 1/2 hour fall.

Lectures, demonstrations, and quizzes at each lecture and operative clinic; 11 hours. Dr. Swan.

Elective Courses

Eye 601. Research. Any term, hours to be arranged.

Dr. Swan.

Eye 615. Advanced Ophthalmology. Any term, hours to be arranged. (Fourth year.) Injuries and diseases, Limited to 4 students. Dr. Swan.

Eye 660. Outpatient Clinic. Any term, hours to be arranged in accordance with the requirements of the regular Outpatient Clinic course.

(Fourth year.) Elective credit for completion of clinical work in the department in addition to that required in the regular Outpatient Clinic course.

OTOLOGY, RHINOLOGY, AND LARYNGOLOGY

Required Courses

Third Year

Ent 611. Ear, Nose, and Throat, 1/2 hour fall.

Lectures, recitations, and quizzes, 11 hours, Drs. Bailey, DeWeese, and Jones.

Fourth Year

Ent 612. Ear. Nose and Throat Outpatient Clinic, 11/2 hours, one section each

Practical instruction in examination and treatment of cases. Six hours a week for 5½ weeks; throughout the year, in sections; 33 hours. Drs. Adix, Beattie, Bolton, Brodhead, Chamberlain, DeWeese, Hansen, Kuhn, Miller, Saunders, Scovis, Simons, Titus, and Westfall.

Ent 613. Ear, Nose, and Throat. 1/2 hour winter.

Lectures, demonstrations, and quizzes at each lecture and operative clinic: 11 hours. Drs. Bailey, DeWeese, and Jones.

Elective Courses

Ent 614. Advanced Otology. 1/2 hour spring.

(Fourth year.) 11 hours. Limited to 6 students. Drs. Davis and Titus.

Ent 615. Advanced Rhinology. 1/2 hour fall.

(Fourth year.) One hour a week; 11 hours, Limited to 4 students, Dr. Davis.

Ent 660. Outpatient Clinic. Any term, hours to be arranged in accordance with the requirements in the regular Outpatient Clinic course.

(Fourth year.) Elective credit for completion of clinical work in the department in addition to that required in the regular Outpatient Clinic course.

OBSTETRICS AND GYNECOLOGY

OBSTETRICS

Required Courses

Third Year

Obs 611. Introductory Obstetrics. 1 hour fall.

Lectures, recitations, and demonstrations in obstetrics. The anatomy and physiology of the female pelvis and genitals; diagnosis of pregnancy; the management of normal pregnancy; physiology of and clinical course in normal labor and puerperium. One hour, twice a week; 22 hours. Drs. Fearl, Kulasavage, and Ronald Neilson.

Obs 612. Lecture and Demonstration Course in Obstetrics, 1 hour winter.

Mechanism of normal and abnormal presentation; manikin demonstration; care of the newborn child. Obstetrical technique; forceps, version, pubiatomy, cesarean section, and embryotomy. One hour, twice a week; 22 hours. Drs. Fearl, Kulasavage, Ronald Neilson, and Nelson.

Obs 613. Pathology of Pregnancy, Labor, and the Puerperium, 1 hour spring. Lecture and demonstration. One hour, twice a week; 22 hours. Drs. Fearl, Kulasavage, Duncan Neilson, and Ronald Neilson.

Obs 614. Attendance at Deliveries. 1/2 hour any term.

Multnomah Hospital. Each student required to be in attendance and observe deliveries for a period of seven days in Multnomah Hospital; prerequisite: Obs 611: 11 hours. Dr. Stearns.

Obs 615. Manikin. 1 hour, one section each term.

Lectures and demonstrations. Two hours a week for one term throughout the year, in sections, 22 hours. Drs. Duncan Neilson and Ronald Neilson.

Obstetrical Pathology. (See Pth 514).

Fourth Year

Obs 616. Clinical Obstetrics. 1 hour, one section each term.

Outpatient Clinic. Examination of pregnant women, pelvimetry, and instructions in prenatal and postpartem care. Two hours twice a week, 51/2 weeks; throughout the year, in sections; 22 hours. Drs. Baker, Bischoff, Greene, Kinzel, Kulasavage, Lage, Langley, McCall, Nelson, Parrott, and Thomas.

Obs 617. Outpatient Service. 11/2 hours any term.

Delivery of patients in the home and hospital, and attendance upon mother and child after delivery. Each student required to be in attendance at all deliveries in hospital and home during an assigned period of twelve days; prerequisite: Obs 614; 33 hours. Dr. Stearns.

Obs 618. Postnatal Clinic. 1/2 hour, one section each term.

Outpatient Clinic. Two hours a week for 51/2 weeks; 11 hours. Drs. Baker, Breese, Lage, Duncan Neilson, and Ronald Neilson.

Obs 619, 620, 621. General Clinic. 1/2 hour each term.

Multnomah Hospital. One hour each week throughout the year; 33 hours. Drs. Breese, Frazier, and Duncan Neilson.

Obs 622. Clerkships. 1/2 hour, one section each term.

Multnomah Hospital. Two hours a week for 51/2 weeks; 11 hours. Dr. Ronald Neilson.

Elective Courses

Obs 601. Research. Any term, hours to be arranged.

Obs 660. Outpatient Clinic. Any term, hours to be arranged in accordance with the requirements in the regular Outpatient Clinic course.

(Fourth year.) Elective credit for completion of clinical work in the department in addition to that required in the regular Outpatient Clinic course.

GYNECOLOGY

Required Courses

Third Year

Gyn 611. Gynecology. 1 hour winter.

Lectures, demonstrations, and recitations, 2 hours; 22 hours. Dr. Stearns.

Gyn 612. Gynecology. 1 hour spring.

Lectures and recitations, 2 hours; 22 hours. Dr. Stearns.

Gyn 613. Clinical Clerkships. 11/2 hours, one section each term.

Multnomah Hospital. In sections; 33 hours. Dr. Duncan Neilson.

Gynecological Pathology. (See Pth 514.)

Fourth Year

Gyn 614. Practical Gynecology. 1 hour, one section each term.

Outpatient Clinic. Four hours a week, 51/2 weeks; throughout the year, in sections; 22 hours. Drs. Stearns, Dowsett, Fearl, James, Lage, Langley, Duncan Neilson, and Ronald Neilson.

Gyn 615. Operative Clinic. 1/2 hour, one section each term.

Multnomah Hospital. One two-hour ward walk each week for 5½ weeks, throughout the year, in sections; 11 hours. Dr. Stearns.

Elective Courses

Gyn 601. Research. Any term, hours to be arranged.

Gyn 618. Postoperative and Gynecological Endocrinology. 1 hour any term.

(Fourth year.) Outpatient Clinic. Attendance at Outpatient Clinic one two-hour period each week; 22 hours. Limited to 14 students. Drs. Baker, Fearl, Lage, Duncan Neilson, and Ronald Neilson.

Gyn 660. Outpatient Clinic. Any term, hours to be arranged in accordance with the requirements in the regular Outpatient Clinic course.

(Fourth year.) Elective credit for completion of clinical work in the department in addition to that required in the regular Outpatient Clinic course.

PEDIATRICS

Required Courses

Third Year

Ped 611, 612, 613. Anatomy, Physiology, Hygiene of Infancy and Childhood. 1/2 hour each term.

Lectures, clinics, and bedside instruction on diseases of the newly born and diseases of nutrition. Practical work in infant feeding. Albertina Kerr Nursery, spring term, Lectures, 22 hours; clinic, 11 hours; 33 hours. Dr. Wert.

Ped 614, 615, 616, Diseases of Infancy and Childhood, 1/2 hour each term.

A comprehensive study of diseases of children. Recitations, lectures, and clinical demonstrations. One amphitheater clinic each week throughout the entire school year, with cases selected from the wards of the Doernbecher Hospital; 33 hours, Drs. Bilderback, Benward, Goodnight, Goss, and Griswold.

Ped 617. Clerkships. 1 hour, one section each term.

Doernbecher Hospital. Throughout the year, in sections; 22 hours. Dr. Bilderback.

Ped 618. Physical Diagnosis in Children, ½ hour, one section each term.

Lectures, clinics, and demonstrations at the Doernbecher Hospital. One hour a week, throughout the year, in sections; 11 hours. Dr. Bridgeman.

Psychopathology and Symptoms of Various Mental Reaction Types and Behavior Disorders of Children. (See Ps 613, 614.)

Fourth Year

Ped 619. Outpatient Clinic. 11/2 hours, one section each term.

Five and one-half weeks; 6 hours a week, throughout the year, in sections; 33 hours. Drs. Babson, Bridgeman, Goodnight, Goss, Hart, Larrabee, May, Rector, Walliker, Wert, and Whittemore.

Ped 622, 623, 624. Diseases of Infancy and Childhood. ½ hour each term.

A comprehensive study of diseases of children. Recitations, lectures, and clinical demonstrations. One amphitheater clinic each week throughout the entire school year on cases selected from the wards of the Doernbecher Hospital; 33 hours. Drs. Bilderback, Bradley, Bridgeman, Goss, and Griswold.

Elective Courses

Ped 601, Research. Any term, hours to be arranged.

- Ped 620. Infant Feeding Clinic. ½ hour, one section each term.
 Outpatient Clinic; 11 hours. Limited to 10 students. Dr. May.
- Ped 660. Outpatient Clinic. Any term, hours to be arranged in accordance with the requirements in the regular Outpatient Clinic course.

 (Fourth year.) Elective credit for completion of clinical work in the department in addition to that required in the regular Outpatient Clinic course.

Demonstration Course in Prepsychotic Cases. (See Ps 618.)

Department of Nursing Education

HENRIETTA DOLTZ, M.N., R.N., Director of Department of Nursing Education.

THE Department of Nursing Education at the University of Oregon Medical School is organized on a collegiate basis; the department offers (1) an undergraduate curriculum designed to prepare young women for service as professional nurses in the care of the sick and in the promotion of community health; and (2) advanced programs of study for graduate nurses in the special fields of public health nursing, supervision, teaching, and medical and surgical staff nursing.

The student in the undergraduate four-year degree curriculum takes the first five terms of her work at the University of Oregon, at Oregon State College, or at another accredited college or university. The prenursing curriculum is completed with one term of work on the campus of the Medical School, and is followed by a ten-term professional curriculum coordinated with clinical instruction in the hospitals and clinics of the Medical School. The teaching units in which clinical experience is received are the Multnomah Hospital, the Doernbecher Memorial Hospital for Children, the University State Tuberculosis Hospital, and the Outpatient Clinic.

The programs for graduate nurses are planned to provide: (1) opportunities for building a strong educational foundation through work in written and spoken English, history, socio-economic problems, literature and the fine arts, and biological and physical science; (2) a thorough preparation in one or more of the following broad nursing fields: (a) public health nursing, (b) supervision, (c) teaching, and (d) medical and surgical staff nursing. The programs are open both to nurses who desire to complete work towards a Bachelor of Science degree with a major in nursing and to nurses who wish preparation in a particular area of professional nursing.

A separate Catalog containing detailed information on organization, faculty, facilities, requirements, and curicula of the Department of Nursing Education may be obtained on request.

Degrees Conferred, June 16, 1950
