Enrollment and Degrees... 36

Oregon State System of Higher Education

The Oregon State System of Higher Education, as organized in 1932 by the State Board of Higher Education following a Federal survey of higher education in Oregon, includes all the state-supported institutions of higher learning. The several institutions are now elements in an articulated system, parts of an integrated whole. The educational program is so organized as to distribute as widely as possible throughout the state the opportunities for general education and to center on a particular campus specialized, technical, and professional curricula closely related to one another.

The institutions of the State System of Higher Education are the University of Oregon at Eugene, Oregon State College at Corvallis, the Oregon College of Education at Monmouth, the Southern Oregon College of Education at Ashland, and the Eastern Oregon College of Education at La Grande. The University of Oregon Medical School and the University of Oregon Dental School are located in Portland.

Each of the five institutions provides the general studies fundamental to a well-rounded education. At the three colleges of education general and professional studies are combined in the teacher-training curriculum; students who do not plan to become elementary-school teachers may devote their time exclusively to lower-division studies in the liberal arts and sciences or (at Southern Oregon and Eastern Oregon colleges of education) to approved lower-division programs in semiprofessional fields.

At the University and the State College two years of un-specialized work in liberal arts and sciences are provided on a parallel basis in the lower division. Major curricula, both liberal and professional, are grouped on either campus in accordance with the distinctive functions of the respective institutions in the unified State System of Higher Education.
University of Oregon
Dental School

Faculty

PAUL C. PACKER, Ph.D., Chancellor, Oregon State System of Higher Education.
HARRY K. NEWBURN, Ph.D., President, University of Oregon.
HAROLD J. NOYES, D.D.S., M.D., Dean of the Dental School; Professor of Dentistry.
TED RUSSELL, M.S., Business Manager and Registrar.
GEORGE E. BATTERSON, M.A., Educational Adviser.
THOMAS H. CAHALAN, M.S. in L.S., Librarian.

HERBERT C. COOPER, D.M.D., Professor Emeritus of Operative Dentistry.
HENRY K. NIXON, Ph.D., President, University of Oregon.

HERBERT C. COOPER, D.M.D., Professor Emeritus of Operative Dentistry.
HENRY K. NIXON, Ph.D., President, University of Oregon.

HERBERT C. COOPER, D.M.D., Professor Emeritus of Operative Dentistry.
HENRY K. NIXON, Ph.D., President, University of Oregon.

HERBERT C. COOPER, D.M.D., Professor Emeritus of Operative Dentistry.
HENRY K. NIXON, Ph.D., President, University of Oregon.

HERBERT C. COOPER, D.M.D., Professor Emeritus of Operative Dentistry.
HENRY K. NIXON, Ph.D., President, University of Oregon.

HERBERT C. COOPER, D.M.D., Professor Emeritus of Operative Dentistry.
HENRY K. NIXON, Ph.D., President, University of Oregon.

HERBERT C. COOPER, D.M.D., Professor Emeritus of Operative Dentistry.
HENRY K. NIXON, Ph.D., President, University of Oregon.

HERBERT C. COOPER, D.M.D., Professor Emeritus of Operative Dentistry.
HENRY K. NIXON, Ph.D., President, University of Oregon.

HERBERT C. COOPER, D.M.D., Professor Emeritus of Operative Dentistry.
HENRY K. NIXON, Ph.D., President, University of Oregon.

HERBERT C. COOPER, D.M.D., Professor Emeritus of Operative Dentistry.
HENRY K. NIXON, Ph.D., President, University of Oregon.

HERBERT C. COOPER, D.M.D., Professor Emeritus of Operative Dentistry.
HENRY K. NIXON, Ph.D., President, University of Oregon.

HERBERT C. COOPER, D.M.D., Professor Emeritus of Operative Dentistry.
HENRY K. NIXON, Ph.D., President, University of Oregon.

HERBERT C. COOPER, D.M.D., Professor Emeritus of Operative Dentistry.
HENRY K. NIXON, Ph.D., President, University of Oregon.

HERBERT C. COOPER, D.M.D., Professor Emeritus of Operative Dentistry.
HENRY K. NIXON, Ph.D., President, University of Oregon.

HERBERT C. COOPER, D.M.D., Professor Emeritus of Operative Dentistry.
HENRY K. NIXON, Ph.D., President, University of Oregon.

HERBERT C. COOPER, D.M.D., Professor Emeritus of Operative Dentistry.
HENRY K. NIXON, Ph.D., President, University of Oregon.
DAVIS, D.M.D., Instructor in Dentistry.

HAGER, D.M.D., Instructor in Dentistry.

D.M.D., In Charge of Operative Clinic.

D.M.D., Clinical Assistant in Dentistry.

Technician, Radiology Clinic.

B.B.A., Assistant to the Registrar.

HIJ.J., G.

D.M.D., Clinical Associate in Dentistry.

Technician.

D.M.D., Clinical Associate in Dentistry.

M. PHATAK, Ph.D., Associate Professor of Pharmacology; Head of Department of Pharmacology; Acting Head of Department of Physiology.

REESE, SWENSON, D.D.S., Professor of Dentistry; Head of Department of Prosthetics.

WALTER A. THOMPSON, D.M.D., Clinical Associate in Dentistry.

JOHN T. VAN BRUGGEN, Ph.D., Associate in Chemistry.

BEN VIDOFOF, M.D., Clinical Associate in Medicine.

C. HERBERT WALKERTH, D.M.D., Clinical Associate in Dentistry.

ROBERT L. WALSH, D.D.S., Lieutenant Colonel, Dental Corps; Professor of Military Science and Tactics.

NORTON M. WARY, D.D.S., Assistant Professor of Dentistry.

VINSON WEBER, D.D.S., Assistant Professor of Dentistry.

JOSEPH E. WETMORE, Lecturer in Practice Management.

THOMAS WILLIAMS, D.M.D., Instructor in Dentistry.

Clinics

KENNETH A. CANTWELL, D.M.D., In Charge of Operative Clinic.

HORACE M. MILLER, D.M.D., Head of Extraction Clinic.

HENRY C. FIXOTT, Jr., D.M.D., In Charge of Radiology Clinic.

MERRILL G. SWENSON, D.D.S., In Charge of Prosthetic Clinic.

RUDY H. DARRY, Assistant to Clinical Supervisor, Operative Clinic.

NAOMI B. O’NEAL, Technician, Radiology Clinic.

MARGARET M. CRESS, Clerk, Radiology Clinic.

JANE LEE FISHER, Cashier, Operative Clinic.

MARGARET HAACK, Cashier, Operative Clinic.

ALICE JORDAN, Clerk, Operative Clinic.

NANCY GRIFFIN, Clerk, Operative Clinic.

ROSETTA MARRION, Clerk, Operative Clinic.

HORACE M. MILLER, D.M.D., Professor of Dentistry; Head of Extraction Clinic.

RAY B. MUELLER, D.M.D., Instructor in Dentistry.

EDWIN G. PALMORE, M.D., Assistant in Pathology.

FRANK C. PEARN, D.M.D., Clinical Associate in Dentistry.

NILEKANTH M. PHATAK, Ph.D., Associate Professor of Pharmacology; Head of Department of Pharmacology; Acting Head of Department of Physiology.

GEORGE W. REDPATH, D.M.D., Clinical Associate in Dentistry.

DENTON J. REES, D.M.D., Clinical Associate in Dentistry.

DONALD G. REESE, D.M.D., Instructor in Dentistry.

WYNNE SAUNDERS, Instructor in Dental Science.

MARSHALL L. SNYDER, Ph.D., Professor of Bacteriology; Head of Department of Bacteriology.

Administrative and Service Divisions

ADMINISTRATIVE OFFICE

HAROLD J. NOYES, D.D.S., M.D., Dean.

TED RUSSELL, M.S., Business Manager and Registrar.

GEORGE E. BATTERSON, M.A., Educational Adviser.

VIOLET E. RUNTS, B.S., Assistant to the Registrar.

EUGENE WALTER BAUER, Assistant Office Manager.

MARY M. MUIR, Recorder.

TOKIKO KUNIYOSHI, Invoice and Payroll Clerk.

DOROTHY M. REESE, Secretary to the Dean.

September 27, Monday (p.m.)......................Sophomore registration
The Dental School Program

The University of Oregon Dental School was established through an act of the 1945 Oregon Legislature, which accepted the gift of the property of the North Pacific College of Oregon, located in Portland, and incorporated the college into the Oregon State System of Higher Education as a school of the University.

The North Pacific College of Oregon was the outgrowth of a merger in 1900 of the North Pacific Dental College (founded in 1893 as the Tacoma College of Dental Surgery) and the Oregon College of Dentistry (founded in 1898). The Tacoma school had moved to Portland from Tacoma, Washington in 1899.

In 1908 the scope of the college was expanded to include a curriculum in pharmacy; this was discontinued in 1941. In 1910 the college erected the present home of the Dental School, at Northeast Sixth and Oregon streets. A second unit was completed in 1921. In 1924 a new charter, granted by the state of Oregon, made the institution a public trust, administered by a Board of Trustees.

For many years, the late Dr. Herbert C. Miller, serving variously as president of the Board of Trustees and dean, played a leading role in the growth and development of the college.

History of the Dental School

In the third and fourth years, intensive practice of specialized therapeutic technics in the departmental clinics is supplemented by work in the General Clinic, where each student is responsible, under supervision, for the diagnosis and treatment of the entire oral health problem of a patient.

The program of the Dental School includes at present: (1) the undergraduate curriculum for the training of capable practitioners of general dentistry; (2) postgraduate courses to help graduate dentists keep abreast with the new concepts and skills of the progressing science of dentistry. When faculty and facility permit, the Dental School hopes to develop, in addition, a program of specialized advanced study and research in dentistry, as a part of the program of the Graduate School of the University of Oregon.

Advisory Council

HE ACT of the 1945 Oregon Legislature establishing the University of Oregon Dental School provided for the creation of an Advisory Council of five members to advise the State Board of Higher Education concerning the conduct of the school. The Advisory Council is appointed by the Governor of Oregon from the membership of the Oregon State Dental Association. The present Council members are:

<table>
<thead>
<tr>

<td>1953</td>
</tr>
</tbody>
</table>

The officers of the Advisory Council are: Dr. J. H. Rossman, chairman; Dr. A. T. Oberg, vice-chairman; Dr. M. Monte Bettman, secretary.

Facilities

The Dental School is housed in a fireproof building, located on Northeast Sixth Avenue between Oregon and Pacific streets in Portland. The clinics, laboratories, classrooms, offices, etc., occupy 66,554 square feet of floor space. The unusually extensive glass area of the facade provides an abundance of natural light in the clinics and laboratories. Recent large expenditures for instructional equipment have greatly improved the facilities of the school.

Library

The Dental School Library contains 4,772 volumes in the fields of dentistry, medicine, and allied sciences, and currently receives more than 120 medical and dental periodicals. The books and periodicals are arranged on freely accessible open shelves.

Dental School students also have the privilege of borrowing books from the 43,000-volume collection of the University of Oregon Medical School Library. All of the books in the several libraries of the Oregon State System of Higher Education are available through interlibrary loan.

The Dental School Library provides a reference and lending service for dentists in the Pacific Northwest area. The cost of postage is the only charge for this service.

The Library welcomes gifts from alumni and friends of the Dental School. Gifts of books and back files of periodicals frequently help to fill gaps in the Library's collections.

Admission

There are each year many more applicants than can be admitted to the entering class of the University of Oregon Dental School. In selecting those who are admitted, the Admissions Committee takes into account the following factors, in addition to satisfaction of the minimum entrance requirements:
ADMISSION REQUIREMENTS

For admission to the professional curriculum in dentistry, the University of Oregon Dental School requires the completion of a minimum of two academic years (90 term hours, 60 semester hours) of college preparation, with a grade-point average of 2.00 or higher. This college work must include:

1. English Composition—9 term hours.
2. General Chemistry, with laboratory—15 term hours.
3. Organic Chemistry, with laboratory—8 term hours.
4. Biology, with laboratory—12 term hours.
5. Physics, with laboratory—12-15 term hours.

Although this two-year program satisfies the minimum admission requirements of the Dental School, students are strongly advised to devote three years to their predental college education.

In selecting elective subjects to complete their predental college programs, students are advised to choose courses in the social sciences and the humanities and to avoid concentration in the physical and biological sciences. It is highly desirable that the student acquire as broad and liberal an educational background as possible, before entering upon the highly specialized professional work of the Dental School.

FOREIGN STUDENTS

A foreign student submitting credentials in a language other than English should present, with the original credentials, a literal translation signed by a consul of the country where the student's preparatory work was taken, and a full explanation, by the consul, of the educational status of the institution from which the credentials are submitted. Foreign credentials must satisfy not only the specific entrance requirements of the Dental School but also the general admission requirements of the University of Oregon. A foreign student is required to have a sufficient knowledge of the English language to enable him to understand lectures and demonstrations and to read and understand texts prescribed by the Dental School.

TRANSFER STUDENTS

A student transferring from another dental school may be granted advanced standing at the discretion of the Admissions Committee. Evidence of honorable dismissal from the dental school attended must be submitted. A minimum of two years of work in residence at the University of Oregon Dental School is required for eligibility for a degree.

SPECIAL STUDENTS

Any person who, for any reason, is allowed to follow a program of study which differs significantly from the regular curriculum of any classes is classified as a special student. Special students pay the same fees as regular undergraduate students.

Predental Curriculum

The two-year and three-year predental curricula offered by the University of Oregon at Eugene, which are shown below, may serve as useful guides to students preparing for admission to the Dental School at other institutions:

### Schwartship Regulations

The scholarship requirements of the Dental School conform to the general standards of the University of Oregon, and to the requirements of the Council on Dental Education of the American Dental Association.

#### Grading System

Satisfactory work by students in Dental School courses is graded in accordance with the following system: A, exceptional accomplishment; B, superior; C, average; D, inferior.

Unsatisfactory work may receive the following grades: Incomplete for work not completed for reasons satisfactory to the instructor; Condition, for work of a borderline quality; F, failure. Faculty regulations governing these grades are:

- **Incomplete.** The student is allowed one term for the satisfactory completion of the work, or its equivalent; an extension of time may be granted in special cases.
- **Condition.** The student is granted the privilege of re-examination or the opportunity to complete special assignments covering his deficiency, or both; in case the student fails in his re-examination, further re-examination is not allowed. D is the highest grade that may be given when a Condition is removed. If not removed within one academic year, a Condition automatically becomes an F.
- **Failure.** To continue toward the completion of his Dental School work, the student must repeat a course in which he has received a grade of F, or complete an acceptable substitute course with a satisfactory grade. Unless special permission for extension of time is granted, the student must comply with this regulation within one academic year.

A student's general scholastic standing is estimated in terms of his "grade-point average" (GPA). Grade points are computed on the basis of 4 points for each term hour of A grade, 3 points for each term hour of B, 2 points for each term hour of C, 1 point for each term hour of D, and 0 points for each term hour of F. Grades of Incomplete are disregarded in the computation of points. The grade-point average is the quotient of total points divided by total term hours in which grades of A, B, C, D, F, or Condition are received.

### Scholarship Requirements

Scholarship regulations are administered through the Scholarship Committee (for didactic subjects) and the Clinic Committee (for clinical subjects). These committees, at the end of each academic year, present reports to the faculty on the academic standing of all students, with recommendations for appropriate action in cases of unsatisfactory scholarship.

To qualify for advancement or graduation, the student is required to maintain a grade-point average of 2.00 or higher for each year's work. For failure to maintain this minimum satisfactory average, the student may be dis-

With a proper choice of predental electives, students completing the three-year curriculum may qualify for the Bachelor of Arts or Bachelor of Science degree from the University of Oregon, after one or more years of Dental School work. The University accepts a maximum of 48 term hours of basic sciences, taken at the Dental School, may be counted toward the satisfaction of major requirements in biology or general science.

A student who completes a three-year predental program at another accredited college or university may find it possible to qualify for a bachelor's degree, under similar conditions, at his own institution.

### Registration Procedure

Two days at the opening of the fall term are devoted to the registration of students entering the first-year class. During this period, in addition to formal enrollment, the student takes a series of aptitude tests, and receives a preliminary introduction to the facilities of the school and to his responsibilities in relation to its ideals and regulations.

The aptitude tests, prepared by the Council on Dental Education of the American Dental Association, are intended to provide data which may make possible more-reliable selection of Dental School students in the future. At the present time, the tests are entirely exploratory; no student who has been accepted for admission will be prevented from enrolling or from continuing Dental School work because of scores on these tests.
Fees and Expenses

UNDERGRADUATE students at the Dental School pay uniform regular fees each term during the four years of the professional curriculum. These fees total $115.00 per term for residents of Oregon and $135.00 for nonresidents. Regular fees, special fees, deposits, and other instructional expenses are listed below:

REGULAR FEES

</tr>
</tbody>
</table>

REFUND OF FEES AND DEPOSITS

Fee Refunds. Students who withdraw from the Dental School and who have complied with the regulations governing withdrawals are entitled to certain refunds of fees paid, depending on the time of withdrawal. The refund schedule has been established by the State Board of Higher Education, and is on file in the Dental School Business Office. All refunds are subject to the following regulations:

1. Any claim for refund must be made in writing before the close of the term in which the claim originated.

2. Refunds in all cases are calculated from the date of application for refund and not from the date when the student ceased attending classes, except in unusual cases when formal withdrawal has been delayed through causes largely beyond the control of the student.

Deposit Refunds. The $10.00 general deposit and the auditor's $5.00 breakage deposit, less any deductions which may have been made, are refunded when the student's enrollment is terminated.

The $25.00 entrance deposit, paid by entering students on acceptance of application, applies on first-term tuition. If the applicant does not enter the Dental School, the deposit will be refunded if the Registrar is notified within one month before the scheduled registration day.

REGULATIONS GOVERNING NONRESIDENT FEE

The Oregon State Board of Higher Education has defined a nonresident student as a person who comes into Oregon from another state for the purpose of attending one of the institutions under the control of the Board. In order to draw a clear line between resident and nonresident students, the Board has ordered that all students in the institutions under its control who have not been domiciled in Oregon for more than one year immediately preceding the day of their first enrollment in the institution shall be termed nonresident students, with the following exceptions:

1. Students whose father (or mother, if the father is not living) is domiciled in the state of Oregon.
2. Children of regular employees of the Federal government in the state of Oregon.
3. Students holding bachelor's or higher degrees from higher educational institutions whose work is acceptable as preparation for graduate work.
4. Students in summer sessions.

Residence may not be established through enrollment in an Oregon public or private college or university for one or more years immediately preceding application for admission into the Dental School.

BOOKS, EQUIPMENT, AND SUPPLIES

The estimated cost of books, equipment, and supplies during the four years of the dental curriculum is shown below:

<table>
<thead>
<tr>

LIVING EXPENSES

Single rooms may be obtained in Portland for about $20.00 a month; two- and three-room apartments rent for about $60.00 a month; the rate for room and board averages $35.00 a month. The Dental School has no dor-
Student Health Service

The Student Health Service provides physical examinations, diagnostic service, and emergency care for Dental School students. The service does not include medical or surgical treatment beyond diagnosis and emergency attention.

Nursing and first aid are provided during school hours by members of the Dental School staff; at other times emergency care is available for students through an arrangement with physicians on the faculty of the University of Oregon Medical School.

All entering freshmen are given a physical examination, including a chest X-ray. All seniors are given a similar examination before graduation. Any student may obtain a free physical examination on application at the Health Service. The school may require a student to take a physical examination at any time.
Postgraduate Study

The Dental School's program of postgraduate study is designed to provide, for the graduate dentist, an opportunity to continue his professional education during his years of practice. The program includes: (1) short refresher courses, and (2) longer sequences of instruction in special phases of dental practice. Short courses are also offered for dental assistants, to improve their efficiency and widen their sphere of useful service to the dentist.

Plans for the development of the postgraduate program call for courses in: (1) standard clinical methods and technics (refresher); (2) new technics and procedures; (3) methods of diagnosis; (4) applied basic science; (5) office procedures and practice management; (6) socio-economic aspects of dental practice, including public health and industrial dentistry; (7) technics and procedures in special fields, such as children's dentistry, periodontia, oral surgery, etc.—with differentiated instruction for the general practitioner and for the specialist; (8) methods, objectives, and technics of dental pedagogy.

Special facilities for postgraduate study include a fully equipped nine-chair postgraduate clinic, with an adjoining classroom; a laboratory adjacent to the clinic for casting, investing, and other clinical laboratory procedures; and a laboratory for instruction in dental technics. The science laboratories, Library, and other facilities of the school are also available to postgraduate students.

The postgraduate faculty includes regular members of the Dental School faculty, members of the dental profession in the Portland area, and visiting clinical instructors from other areas.

The refresher program will have several phases: (1) Ten-week courses providing 70 hours of instruction in each of several special subjects; each class meets for 7 hours one day a week; a postgraduate student may take one or as many as five subjects during the ten-week period. (2) Two-week courses, meeting 7 hours a day, five days a week for the two-week period. (3) Evening courses given in a series of ten sessions.

The first of the series of longer sequences of postgraduate instruction will be a full-year course in dental care for children; the program will include instruction and clinical experience at the Dental School, hospital intern experience, and field work arranged in cooperation with the Oregon State Department of Public Health.

Information concerning the postgraduate schedule of courses and concerning fees will be provided, on request, by the Registrar of the Dental School.

Child Study Clinic

The Child Study Clinic will be established in the summer of 1948, for the study of the oral health problems of children in relation to the growth, development, and physical health of the whole child. Children registered in the clinic are received for periodic observation, and for the systematic recording of individual physical growth, regional and systemic disturbance, oral health, and dento-facial development. The child's record is documented by physical measurements, roentgenographic records, photographs, oral casts, and detailed information on general and oral health.
1. **Description of Courses**

   **DENTAL ORIENTATION**

   **First Year**
   - DO 311. Dental Orientation. 1 hour.
   
   **Second Year**
   - DO 312. Journal Club. 2 hours.
   
   **Third Year**
   - OP 419. Oral Physiologic Clinic. 3 hours.
   - OP 420. Laboratory Clinic. 3 hours.
   - OP 421. Operative Clinic. 3 hours.
   - OP 422. Oral Pathology. 3 hours.
   - OP 423. Clinical Pathology. 3 hours.
   - OP 424. Pathology Conference. 3 hours.
   
   **Fourth Year**
   - DO 444. Dental Economics. 4 hours.
   - DO 445. Dental Ethics. 4 hours.
   - DO 446. Dental Jurisprudence. 4 hours.
   - DO 447. Dental Research. 4 hours.
   
2. **TABLE OF COURSES, TIME, AND CREDIT**

   **First Year**
   - DO 311. Dental Orientation. 11 hours.
   - DO 312. Journal Club. 22 hours.
   - OR 420. Clinical Prosthodontics. 11 hours.
   
   **Second Year**
   - DO 312. Journal Club. 22 hours.
   - PH 420. Pathology. 33 hours.
   
   **Third Year**
   - OP 419. Oral Physiologic. 55 hours.
   - OP 420. Laboratory. 55 hours.
   
   **Fourth Year**
   - DO 444. Dental Economics. 33 hours.
   - DO 445. Dental Ethics. 33 hours.
   - DO 446. Dental Jurisprudence. 33 hours.
   - DO 447. Dental Research. 33 hours.

3. **RECAPITULATION**

   **First Year**
   - 253 hours.
   
   **Second Year**
   - 118 hours.
   
   **Third Year**
   - 176 hours.
   
   **Fourth Year**
   - 117 hours.
with particular reference to the writing of technical notes, laboratory
exercises, examinations, and original compositions. Lectures, 11 hours;
lectures supplemented by Journal Club, first and second years, 33 hours.
Mr. Batterson.

DO 401. Special Studies. Hours to be arranged.

DO 407. Seminar. Hours to be arranged.

Fourth year. Lectures and informal discussions designed to assist the
student in his adjustment to the practice of dentistry, and to direct his
attention to professional and civic responsibilities and opportunities for
service. Dr. Noyes.

DO 411. Dental Economics and History. 1 hour.

Fourth year. Lectures and conferences to develop critical thinking on
contemporary socio-economic trends related to the dental profession,
and to develop the ability to evaluate current professional points of view
in the light of dental history. 11 hours. Mr. Batterson.

DO 442. Dental Ethics and Jurisprudence. 1 hour.

Fourth year. Intended to develop considered judgment on matters re­
lating to dental ethics, and an attitude of responsibility toward moral
obligations incurred by members of the dental profession. Phases of
law and jurisprudence related to the practice of dentistry. Lectures, 11
hours. Mr. Denecke.

DO 445. Practice Management. No credit.

Elective. Practical consideration of methods and problems associated
with operating and maintaining a dental office; fiscal, personnel, and
property management. Lectures, 11 hours. Mr. Wetmore.

ANATOMY

Department Head: Dr. Jump.

Professor: Ellis B. Jump, Associate: C. Herbert Walrath.

Assistant Professors: Lois Douglas, Vinson Weber.

Instructors: Ralph Hill, Donald G. Reese.

An 401. Special Studies. Hours to be arranged.

An 420, 421. General Anatomy. 4, 3 hours.

First year. General anatomy of the trunk and extremities. Conducted by
means of lectures, demonstrations, and dissection of the human body.
The systemic and functional approach is emphasized, rather than the
traditional regional approach. The sequence presents the fundamental
facts about the body on which other preclinical and clinical sciences,
such as physiology, biochemistry, pathology, and pharmacology, depend.
Lectures, 33 hours; laboratory, 132 hours. Drs. Jump, Hill.

An 422. General Anatomy. 2 hours.

First year. Anatomy of the head and neck. Intensive study of the head
and neck, from both regional and systemic points of view. Clinical applica­
tions stressed. Lectures, 11 hours; laboratory, 33 hours; conferences,
11 hours. Drs. Jump, Hill.

An 423. General Histology. 4 hours.

First year. The structural elements of tissues and organs considered
systematically, with special attention to criteria of normality, in prepara­
tion for later courses in pathology. Lectures, 22 hours; laboratory, 66
hours. Dr. Jump, Mrs. Douglas.

BACTERIOLOGY

Department Head: Dr. Snyder.

Professor: Marshall L. Snyder, Associate: Robert Landis.

Instructor: Richard Evans. Assistant: Margery Clarke.

Bac 401. Special Studies. Hours to be arranged.

Bac 420. Disease Resistance. 1 hour.

Second year. Fundamental concepts of infection by and resistance to
microbic agents of disease, as a basis for understanding pathological
principles. Lectures and demonstrations covering the classification of
agents of disease, the problems of virulence and invasion, nonspecific
and specific defense mechanisms, and hypersensitivity. 11 hours. Dr.
Snyder.

Bac 435. Bacteriology. 6 hours.

Third year. The principles of bacteriology, with special attention to dis­
ees associated with the mouth. Utilization of the general principles
of bacteriology in clinical practice. Laboratory exercises on: methods of
pure culture; morphology, physiology, and serology as a basis for classi­
fication; problems of sterilization and disinfection; diagnostic procedures
ordinarily used by the dentist in practice; representative pathogenic
bacteria. Lectures, 33 hours; laboratory, 66 hours. Drs. Snyder, Landis,
Evans.

BIOCHEMISTRY

Associate Professor: Howard M. Hackendon, Associate: John T. Van Bruggen.

BCh 401. Special Studies. Hours to be arranged.

BCh 414, 415, 416. Biochemistry. 2 hours each term.

First year. Chemical reactions that take place in the regulation of nor­
mal body functions, maintenance of general health, and formation of the
teeth. Food, its digestion, assimilation, and elimination in health and
disease. Vitamins and their relation to growth and health. Quantitative
and qualitative blood and urine examinations, calcium determination,
tissue analysis, etc., performed in preparation for clinical application in the third and fourth years. Lectures, 33 hours; laboratory, 99 hours. Drs. Van Bruggen, Hackett, Ancient.

GENERAL CLINICAL PRACTICE

CP 443, 444, 445. General Clinical Practice. Hours to be arranged.

Provides clinical experience in the treatment of oral disease. The entire oral health problem of each patient is determined by examination, laboratory aids, and departmental consultation. A treatment program is prepared and, after approval, executed under supervision by the student who has the care of the patient. Treatment and observation of the patient continues to be the responsibility of the student until graduation. General Clinic staff.

CP 443, 444, 445. General Clinical Practice. Hours to be arranged.

For description, see CP 433, 434, 435.

MILITARY SCIENCE AND TACTICS

Professor: Lt. Col. Robert L. Walsh.

Mil 411, 412, 413. Reserve Officers Training (First Year). 1 hour each term.

Mil 421, 422, 423. Reserve Officers Training (Second Year). 1 hour each term.

Mil 431, 432, 433. Reserve Officers Training (Third Year). 1 hour each term.

Mil 441, 442, 443. Reserve Officers Training (Fourth Year). 1 hour each term.

Elective. Emphasis on the organization and methods used by the United States Army Medical Department in the treatment and evacuation of battle casualties. Lectures, 1 hour a week throughout the four years of the dental curriculum. Lt. Col. Walsh.

NUTRITION

Associate Professor: Nilkanth M. Phatak.

Nu 401. Special Studies. Hours to be arranged.

OPERATIVE DENTISTRY

Acting Department Head: Dr. Cantwell.

Op 401. Special Studies. Hours to be arranged.

First year. Principles and methods of mouth hygiene and prophylaxis.
ORAL DIAGNOSIS

OD 401. Special Studies. Hours to be arranged.

OD 430, 431. Oral Diagnosis and Treatment. 1 hour each term.

Third year. Case histories, detailed clinical examination, use of laboratory diagnostic aids. Pain of dental origin; application of applied therapy and therapeutic techniques to the treatment of oral disease. Lectures, 22 hours; clinical conferences, 33 hours. Drs. Bender, Noyes, Snyder, Everett, Fixott, Manlove.

OD 432. Clinical Diagnostic Methods. 1 hour.

Third year. Performance of laboratory diagnostic tests. Laboratory, 22 hours. Drs. Snyder, Bender, Manlove, Mrs. Douglas.

OD 443. Diagnostic Clinic. 2 hours.

Fourth year. Application of knowledge gained in OD 430, 431, OD 432 to clinical practice. Drs. Bender, Snyder.

ORAL SURGERY

OS 401. Special Studies. Hours to be arranged.

OS 421. Local Anaesthesia and Exodontia. 1 hour.

Second year. Evaluation of the patient's individual problem; the hazards of anaesthesia; selection of the proper local anaesthetic and instruments; sterile technic in local anaesthesia; technic of tooth removal. Lectures, demonstrations, and clinical practice, 11 hours. Drs. Miller, Brandon, Burns, Mrs. Child.

OS 430, 431, 432. Oral Surgery. 1, 2, 1 hours.

Third year. Fundamental principles of oral surgery, and the application of these principles to the practice of dentistry. Instruction in the diagnosis of surgical disorders found in the oral cavity and in the treatment of these conditions. Lectures and demonstrations, 33 hours; clinic, 22 hours. Drs. Brandon, Miller, Davis, Burns, Mrs. Child.

OS 434. Anaesthesia. 1 hour.

OS 440. Clinical Surgery. 1 hour.

Fourth year. A lecture course dealing with procedures in maxillofacial surgery. Lectures, 11 hours.

OS 444. Anaesthesia Clinic. 1 hour.

ORTHODONTIA

Ord 401. Special Studies. Hours to be arranged.

Ord 429, 430. Orthodontia. 3, 2 hours.

Second and third years. Etiology; classification of malocclusions; indications for treatment and for time of initiation of treatment; tissue changes incident to tooth movement; the nature of tooth movement. Nature and mechanism of tooth-moving appliances and orthodontic retention. Diagnosis. Laboratory training in techniques includes impression taking, model forming, freehand soldering, wire bending, band forming, and construction of simple appliances. Lectures, 22 hours; laboratory, 77 hours; clinical, 11 hours. Drs. Stoffel, Noyes, Cooper, Hill, Rees.

Ord 431. Orthodontia. 1 hour.

Third year. A demonstration course, conducted with groups of between ten and twenty students. Principles developed in Phy 430 and Ord 429, 430 are illustrated; demonstrations of diagnostic methods and appliance therapy in orthodontic treatment and retention. Demonstrations, 11 hours. Physiology and orthodontia staffs.

Ord 432. Orthodontia-Pedodontia Conference. 1 hour.

Third year. Consideration of children's oral health problems from the standpoint of pedodontic and orthodontic concepts, including the physical growth and systemic background of the child. Students present their own patients with analyses and recommendations, for conference discussion and criticism. Conference groups limited to between ten and twenty students. 11 hours. Orthodontia and pedodontia staffs.

PATHOLOGY

Acting Department Head: Dr. Manlove.

Pth 401. Special Studies. Hours to be arranged.

Pth 420, 421. General Pathology. 4, 2 hours.

Second year. Principles of pathological processes, including tissue injury and repair, inflammation, circulatory disturbances. Degenerative changes, cysts, benign and malignant tumor formation. Tissue, organ, and organ-system response to specific disease processes. The class is divided into sections for autopsy examinations and discussion of necropsy reports. Lectures, 33 hours; conference, 11 hours; laboratory, 99 hours. Drs. Manlove, Landis, Palmrose, Mrs. Douglas.

Pth 423. Oral Pathology. 2 hours.

Second year. Study of general pathological conditions occurring in the mouth, such as inflammation, edema, degenerative changes in the oral tissues. Laboratory work consists of observation and description of gross and microscopic evidence of these processes. Lectures, 11 hours; laboratory, 22 hours. Drs. Everett, Williams.

Pth 434. Oral Pathology. 2 hours.

Third year. Study of specific lesions commonly occurring in the oral tissues. Special consideration of manifestations and characteristics. Cor-
drugs in medicine. Posology; factors modifying drug action and mechanisms. Study of systemic effects of drug action on various body functions. Action and use of general and local anesthesia. Toxicology. Prescription writing. Laboratory work develops a scientific attitude in the handling of pharmacological data and in the appraisal of therapeutic procedures. Lectures, 44 hours; laboratory, 44 hours. Drs. Phatak, Griffith, Mrs. Case.

Phc 445. Dental Materia Medica. 1 hour.
Fourth year. Study of the medicinal substances and pharmaceutical preparations used in dentistry; active principles; nature of action. Lectures, 11 hours. Dr. Griffith.

Phc 446. Applied Therapeutics. 1 hour.
Fourth year. Application of the science of pharmacology and the knowledge of specific medicinal substances to the treatment of specific oral-dental diseases. Lectures, 11 hours. Dr. Griffith.

PHYSIOLOGY

Acting Department Head: Dr. Phatak.

Phy 401. Special Studies. Hours to be arranged.

Phy 420, 421, 422. Physiology. 3, 4, 3 hours.
Second year. Fundamental mechanisms governing human body functions. Normal and abnormal deviations of the functions. Detailed study of the circulatory, respiratory, digestive, metabolic, excretory, nervous, muscular, and psychic activities of the body. Lectures, 66 hours; laboratory, 132 hours. Dr. Phatak, Mrs. Case.

Phy 430. Growth and Development. 1 hour.
Second year. Growth, development, and function of the structural mechanism of the human face from birth to senescence. Designed to provide an understanding of oral physiology, and of the coordination and interrelation of facial structure; the clinical significance of this knowledge. Lectures, 11 hours. Dr. Noyes.

Phy 435. Applied Physiology Conference. 1 hour.
Third year. Study of specific principles and concepts from physiology and biochemistry that relate to oral tissues. Consideration of secretions and enzymatic processes of significance in clinical dental problems. 11 hours. Dr. Phatak.

PRINCIPLES OF MEDICINE

Med 401. Special Studies. Hours to be arranged.

Med 439, 440, 441. Principles of Medicine. 1 hour each term.
Third and fourth years. The nature of systemic disease due to infection, degenerative processes, endocrine dyscrasias, allergic and nutritional disorders. Consideration given to pathological entities identified with organs and organ systems. Emphasis on the oral manifestations of systemic disease and on the relation of oral disease to systemic disturbance. Lectures, 33 hours. Drs. Noyes, Vidgoff, Meador, Herd.

PERIODONTIA

Per 401. Special Studies. Hours to be arranged.

Per 438, 439, 440. Periodontia. 1 hour each term.
Third and fourth years. Review of the gross and microscopic anatomy, pathology, and physiology of the tissues that support the teeth. Diagnosis of periodontal diseases; etiology, prevention, and treatment of these diseases. Lectures and demonstrations, 33 hours. Dr. Bettman.

Per 441. Periodontia Clinic. 1 hour.

PHARMACOLOGY

Department Head: Dr. Phatak.
Associate Professor: Nilkanth M. Phatak. Associate: H. Lawrence Griffith. Instructor: Loretta F. Case.

Phc 401. Special Studies. Hours to be arranged.

Phc 438, 439, 440. Pharmacology. 2 hours each term.
Third and fourth years. History and development of the rational use of
Med 443, 444, 445. Hospital Clinics. 1 hour each term.

Fourth year. A series of clinical clerkships utilizing local hospitals and health agencies, where the resident and nonresident staffs provide supervision and instruction in the integration of dental care with other health services; observation of patients at the bedside and in outpatient clinics. Clinic, 33 hours. Dr. Noyes, hospital staffs.

**PROSTHESIS**

**Department Head:** Dr. Swenson.

**Professor:** Merrill G. Swenson. **Associate Professor:** Kenneth P. Austin, Associates: Glenn Larrett, Herbert A. Krumbein, John Kuratli, Ruth E. Krumbein, Assistant Professor: James Burkhardt. **Instructors:** George Barkdoll, Donald Eland, Richard Evans, Kenneth J. Hopkins, Alfred H. Kasmeyer, Donald G. Reeser, George A. Stahl, Warren Swanson. **Assistants:** George E. Gulick, Donald P. Hager.

Pr 401. Special Studies. Hours to be arranged.

Pr 411. Materials. 2 hours.
First year. Physical properties, manipulation, uses, and manufacture of the various materials used in dentistry. Lectures and demonstrations, 11 hours; laboratory, 44 hours. Drs. Swenson, Austin.

Pr 412, 413, 414. Prosthetic Technic and Clinic. 3, 5, 2 hours.
First year. Instruction in the primary principles concerned in rendering complete-denture service. Manipulation of prosthetic materials; technical laboratory procedures in preparation for the application of these technics in the oral cavity. The student works in the clinic during the third term. Lectures, 33 hours; laboratory, 165 hours; clinic, 66 hours. Drs. Austin, Krumbein, Hager, Gulick.

Pr 418. Prosthetic Technic. 3 hours.
First year. Instruction in the primary principles and technics of partial-denture construction. Lectures, 11 hours; laboratory, 66 hours. Drs. Krumbein, Hager, Gulick.

Pr 420, 421, 422. Prosthetic Technic. 2 hours each term.
Second year. Crown and bridge prosthesis. Laboratory procedures of fixed restorations; project assignments cover the principles of various types of replacements and their relation to biological needs. Lectures, 33 hours; laboratory, 121 hours. Drs. Kuratli, Swenson, Kasmeyer, Eland.

Pr. 424, 425, 426. Prosthetic Clinic. 1 hour each term.

Pr 428. Clinical Prosthesis. 1 hour.
Second year. Theory of clinical prosthesis, providing a background for Pr 424, 425, 426. Lectures, 11 hours. Dr. Swenson.

Pr 430. Clinical Prosthesis. 1 hour.
Third year. Lectures coordinating the theory of crown, bridge, partial-denture, and complete-denture prosthesis with clinical applications in Pr 433, 434, 435. 11 hours. Dr. Swenson.

Pr 433, 434, 435. Prosthetic Clinical Practice. Hours to be arranged.
Third year. The clinical aspects of crown and bridge, partial-denture, and complete-denture prosthesis, and the primary correlation of these phases. Drs. Swenson, Austin, Stahl, Hopkins, Swanson.

**PUBLIC HEALTH**

**Professor:** Marshall L. Snyder. **Associate:** Thomas L. Meador.

PH 401. Special Studies. Hours to be arranged.

PH 440, 441. Public Health. 1 hour each term.
Fourth year. Introduction to public health; principles of preventive medicine. Use of vital statistics. Public health programs in the community. Study of programs in industry, schools, Federal and local governmental agencies. Lectures, 22 hours. Drs. Meador, Snyder.

PH 442. Public Health. 1 hour.
Fourth year. Public health aspects of diseases important to the daily health problems encountered in dental practice, with special reference to the agents causing oral and respiratory infection. Lectures, 11 hours. Dr. Snyder.

**RADIOLOGY**

**Department Head:** Dr. Fixott.

**Associate:** Henry C. Fixott, Jr. **Instructor:** Winnie Saunders. **Technician:** Naomi B. O'Neal.

Rad 401. Special Studies. Hours to be arranged.

Rad 420, 421. Dental Radiology. 1 hour each term.
Second year. Physical principles involved in the production of Roentgen rays. Technic of making radiographs of the teeth and oral cavity. Processing, interpretation, and care of films. Diagnostic and therapeutic applications of radiolucent in dentistry. 2 hours. Dr. Fixott, Mrs. Saunders.

Rad 435. Dental Radiology Clinic. 1 hour.
Third year. Clinical application of radiodontia. Clinic, 11 hours. Dr. Fixott, Mrs. Saunders.
