Vol. I, No. 2: June 1988

CONTENTS

1 Editorial - David Caul, M.D.
   An Appreciation and Farewell
   Richard P. Kluft, M.D.

2 Toward a Psychobiological Theory of Borderline Personality Disorder:
   Is Irritability the Red Thread That Runs Through Borderline Conditions?
   Michael H. Stone, M.D.

16 The BASK Model of Dissociation:
   Clinical Applications
   Bennett G. Braun, M.D.

24 Determining the Prognosis in the Treatment of Multiple Personality Disorder
   David Caul, M.D.

27 Diagnosis of Covert and Subtle Forms of Multiple Personality Disorder Through Dissociative Signs
   Jean Franklin, M.D.

34 Some Aspects of Resistance in the Treatment of Multiple Personality Disorder
   James A. Chu, M.D.

39 Multiple Personality Disorder Patients with a Prior Diagnosis of Schizophrenia
   Colin A. Ross, M.D. and G. Ron Norton, Ph.D.

43 The Core Self: A Developmental Perspective on the Dissociative Disorders
   David L. Fink, M.D.

48 A Case of Concurrent Multiple Personality Disorder and Transsexualism
   Pearl G. Schwartz, M.Ed.

52 Book Review: Coping with Loss: The Therapeutic Use of Leave Taking Rituals
   Edited by: Onno van der Hart, Ph.D.
   Reviewed by: Richard P. Kluft, M.D.

INSTRUCTIONS FOR CONTRIBUTORS

DISSOCIATION: PROGRESS IN THE DISSOCIATIVE DISORDERS

DISSOCIATION has established guidelines consistent with the PUBLICATION MANUAL OF THE AMERICAN PSYCHOLOGICAL ASSOCIATION, THIRD EDITION, 1983. For more refined questions of usage and grammar, DISSOCIATION relies upon THE CHICAGO MANUAL OF STYLE, THIRTEENTH EDITION, 1982.

We request that manuscripts be submitted on an IBM MS-DOS or Macintosh disk. If this is not possible, please submit four complete and clearly legible double-spaced copies of the entire manuscript. Because the manuscripts will be optically scanned for computerized handling, please refer to the attached printer guidelines for your specifications. The title page, abstract, reference list, and any footnotes, tables, and figures must be on separate pages. Please do not place author identifications anywhere else besides the title page. Last minute copy corrections need to be made with a non-repro blue pen or pencil, so as to not interfere with the scanning process.

All authors must sign a letter assigning the copyright ownership of the article to DISSOCIATIVE DISORDERS RESEARCH PUBLICATIONS LIMITED, contingent upon its acceptance.

The following guidelines apply to all submissions.

1. The title page should include the title of the article, the name(s) of the author(s), the academic or institutional affiliation of the author(s), the running head (or abbreviated title), and the name and address for reprints. Authors without academic or institutional affiliations should list instead the city and state in which they practice.

2. The abstract should be a brief summary of the article. It should be accurate, succinct, quickly comprehensible, and informative. It must not exceed 150 words.

3. The text should introduce the article's purpose and include a brief review of the relevant literature, describe its methods and subjects, indicate its results, and offer a discussion in which its conclusions are stated. An author who would like to submit an article (other than a case study) that differs considerably from this structure should contact the Editor-in-Chief to discuss the proposed submission. The text may require several levels of headings. All should be typed in upper and lower case letters (e.g., The Neuropsychophysiology of Dissociations). The first level of headings should be centered, but not underlined. The second level should begin at the left margin and be underlined. The third level should be indented from the left margin and underlined. For more complex sub-heading formats, consult the PUBLICATION MANUAL OF THE AMERICAN PSYCHOLOGICAL ASSOCIATION.

4. References within the text should be made in the author-date format. Use the names of either one or two authors on each occasion. When there are more than two authors, use all in the first citations, and the surname of the first author followed by "et al." subsequently. When there are six or more authors, use the surname of the first author followed by "et al" on all occasions. For citations in parentheses, use an ampersand (&) before the name of the last author listed. All quotations cited must include page numbers.

5. References within the reference list are restricted to those cited in the text. They should be listed in alphabetical order on a separate page, headed References. The authors' names are given surname first, followed by the initials. Place an ampersand (&) before the last author's name. The names are followed by the publication date in parentheses, followed by a period. The title (and the volume number, when relevant) is italicized (underlined, if italics unavailable), then list the page numbers. Use "pp." before the page numbers of publications other than scientific journal articles.

6. Sample references: (The italicized words should be underlined in submitted manuscripts.)

DISSOCIATION
PROGRESS IN THE DISSOCIATIVE DISORDERS

The International Society for the Study of Multiple Personality and Dissociation invites you to join us as we define and improve our understanding of the field of dissociation, including multiple personality/dissociative states research, diagnosis and treatment.

ISSMP&D brings together professionals dedicated to the search for answers to improve the quality of life for all patients with multiple personality and other dissociative states.

Together we can and do make a difference!

Should you have any questions regarding membership in ISSMP&D please contact the national office at (312) 475-7532.

Please check membership category:

☐ Member $65
☐ Associate Member $50

☐ Affiliate Member $25
☐ Student/Retired Member $20

☐ Library Subscription $65

In addition I would like to donate $ to assist ISSMP&D in achieving its goals.

I am enclosing my check for $ (total of membership dues plus a donation if you choose)

Membership fees and donations are tax-deductible. Send check payable to ISSMP&D and membership application to International Society for the Study of Multiple Personality and Dissociation, 2506 Gross Point Rd., Evanston, IL 60201. For more information, phone 312/475-7532.
Tentative Contents of DISSOCIATION, Volume 1, Number 3, September, 1988

Editorial: Ubi sumus? Quo Vademus?
Richard P. Klugt, M.D.

Open Trial of Clonazepam in the Treatment of Posttraumatic Stress Symptoms in Multiple Personality Disorder
Richard J. Loewenstein, M.D., Nancy Hornstein, M.D., and Barbara Farber, Ph.D.

Observations on Fantasy in the Formation of Multiple Personality Disorder
Walier C. Young, M.D.

The Dissociative Experiences Scale: A Replication Study –
Colin A. Ross, M.D., G.R. Norton, Ph.D., and Geri Anderson, R.P.N.

On Giving Consultations to Therapists Treating Multiple Personality Disorder: Fifteen Years' Experience: Part 1 –
Richard P. Klugt, M.D.

On Giving Consultations to Therapists Treating Multiple Personality Disorder: Fifteen Years' Experience: Part 2 –
Richard P. Klugt, M.D.

A Reexamination of Freud's Basic Concepts from Studies of Multiple Personality Disorder
Eugene L. Bliss, M.D.

The Development of Symptoms of Multiple Personality Disorder in a Child of Three
Richard L. Riley, M.D., and John Mead, M.D.
