Oregon State System of Higher Education

The Oregon State System of Higher Education, as organized in 1932 by the State Board of Higher Education following a survey of higher education in Oregon by the U. S. Office of Education, includes all the state-supported institutions of higher education. The several institutions are elements of an articulated system, parts of an integrated whole. The educational program is so organized as to distribute as widely as possible throughout the state the opportunities for general education and to center on a particular campus specialized, technical, and professional curricula closely related to one another.

The institutions of the state system of higher education are Oregon State University at Corvallis, the University of Oregon at Eugene, Portland State College at Portland, Oregon College of Education at Monmouth, Southern Oregon College at Ashland, Eastern Oregon College at La Grande, and Oregon Technical Institute at Klamath Falls. The University of Oregon Medical School and the University of Oregon Dental School are located in Portland. The General Extension Division, representing all the institutions, has headquarters in Portland and offices in Ashland, Corvallis, Eugene, La Grande, Monmouth, and Salem.

At Oregon College of Education, Southern Oregon College, and Eastern Oregon College, students may complete major work in teacher education or general studies or enroll in a pre-professional program.

Portland State College offers major work in general studies and selected liberal arts and professional fields as well as certain preprofessional programs.

At the University of Oregon and Oregon State University, major curricula, both liberal and professional, are grouped on either campus in accordance with the distinctive functions of the respective institutions in the unified state system of higher education.

Terminal courses in technical and semi-professional areas are offered at Oregon Technical Institute.

An interinstitutional booklet, *Your Education*, which outlines the curricula of the several institutions and contains other information, is available. For a copy, write to Division of Information, Board of Higher Education, P. O. Box 5175, Eugene, Oregon.

General Information

It is the responsibility of General Extension Division to make available to Oregonians for off-campus study the resources of all units in the State System of Higher Education.

One of the important ways in which this is accomplished is through Correspondence Instruction. By pursuing their studies at home, thousands of persons in our state, and many in other states, are able to carry on work toward a high school goal, a technical education or a college degree. Many others seek only the satisfaction of life-long learning.

All in General Extension Division are interested in making available the best possible educational services to the citizens of Oregon. We believe that successful extension work moves along a two-way street. As you consider your experiences in correspondence instruction or other extension work, please do not hesitate to communicate to our offices any suggestions you may have for improving this service.

What is correspondence instruction?

Correspondence instruction is an arrangement for earning college or high school credit by study at home. Under the Oregon plan, the student receives the entire course when he enrolls. Completed lessons are mailed directly to the instructor, who reads the student's work carefully and makes whatever comments he feels are necessary to help the student. *Lesson reports should be sent to the instructor one at a time as they are completed so that a student may benefit from comments and corrections in working out subsequent lessons. Instructors may refuse to accept lesson reports which indicate the student is hurrying his work unduly.* Lessons are returned from the instructor directly to the student. At the close of most courses, the student takes a proctored examination. The final grade *may* be determined largely by this examination. However, the instructor usually gives considerable weight to lesson grades unless there is too much difference between these and the final examination score. In some courses it is not necessary to send written lessons to the instructor ; instead, a number of proctored examinations, usually equivalent to the number of credit hours in the course, are required.

Why does the Oregon State System of Higher Education offer correspondence courses?

Correspondence courses are designed for those who wish to continue their education under supervision but are unable to enroll as resident students. Some desire to earn undergraduate credit toward academic

degrees or to complete professional requirements; others want to complete their high school work or meet college entrance requirements; many adults wish to study specific subjects for personal enjoyment and betterment without concern for credit. All such persons are served by correspondence courses.

Courses are prepared and graded by faculty members of institutions in the State System of Higher Education in close cooperation with General Extension Division.

Enrollment Restrictions

Any person of sufficient maturity and preparation to undertake a course may enroll *at any time*. A student wishing to earn credit must meet the requirements of the institution accepting this credit. The prerequisites listed for certain courses apply only in cases where a student intends to submit the credits he earns through correspondence instruction to an institution in partial fulfillment of his degree requirements.

College Credit

Credit earned in correspondence courses is acceptable at all Oregon State System of Higher Education campus institutions and elsewhere subject to individual campus requirements. A student wishing college credit should consult the registrar of the institution at which he wishes to use the credit or the head of the organization to which he wishes to submit the credit. This person will be able to advise the student as to selection of the proper course or courses.

The University of Oregon, Oregon State University and Portland State College will accept a maximum of 60 quarter hours of credit earned by correspondence instruction. Southern Oregon College, Eastern Oregon College and Oregon College of Education accept 24 quarter hours. The above named schools do not accept correspondence instruction for graduate credit.

Technical Institute Credit

Before enrolling as a correspondence student, anyone wishing technical institute credit should consult the registrar of the technical institute where he wishes to use the credit for assistance in the selection of proper courses to achieve his objective. Technical institute credit should not be confused with college credit.

High School Credit

The Office of Correspondence Instruction offers courses accredited by the Oregon State Department of Education for application toward high school graduation.

Regardless of his age or present high school enrollment status a student wishing to apply correspondence instruction toward high school

graduation should consult the principal of the high school from which he wishes to graduate for approval and for assistance in the selection of courses. The Office of Correspondence Instruction does not grant high school diplomas. Upon request, a transcript of the credits earned is sent to the high school of the student's choice.

A high school senior who wishes to use a correspondence course for spring graduation must enroll before March 1 of the year in which he expects to graduate and must complete all work *six weeks* before the date of his graduation.

Enrollment Procedure

Fill out one of the application blanks provided in the back of this catalog and mail it with a check, money order, or bank draft for the entire fee to the Office of Correspondence Instruction, General Extension Division, 124 Education Hall, 16th and Alder, Eugene, Oregon.

Time Limit

The original enrollment period is one year. Students are permitted to renew their enrollment for one year by paying a renewal fee of \$2.00. Only one renewal is permitted. *Maximum time allowed on any course is two years.*

Examinations

Final examinations must be taken within six weeks after the return of the last graded lesson report if the student wishes credit for his course. Students not living near a General Extension Division office or a State System campus will take their examinations under the supervision of an approved proctor. Instructions for making arrangements for an examination are included with each course. *General Extension Division reserves the right to select the proctor.*

Fees

Fees for each course in this catalog are listed following course title and number. Fees for courses offered by General Extension Division correspond to fees in effect on campuses in the State System of Higher Education. A special charge will be made to the student who desires his lessons and reports handled by *air mail*. The fee per course for this service is \$2.50 in the United States and its possessions and \$5.00 for foreign countries. This special air mail fee must accompany the registration. No refunds will be made except as stated under the course refund rule.

Onionskin or other tissue-type writing paper must be used for all lessons and examinations handled by air mail.

Textbooks

The student supplies his own texts and other equipment. If he wishes, he may order these from the University of Oregon Cooperative Store, Eugene, Oregon. Text prices are furnished with the course outline.

It is the aim of the General Extension Division to keep its correspondence courses up to date, and new textbook editions are adopted as soon as possible when new or reorganized material is introduced. For this reason, *a student should obtain the texts for a course only after he has enrolled and has received confirmation of the books currently in use.*

Income-Tax Deductions

Under Section 162-5 of the Income Tax Regulations (adopted April 3, 1958), costs of tuition and textbooks are tax-deductible if the education is undertaken primarily to:

(1) Maintain or improve skills required in business, provided that members of that business customarily undertake such education, or

(2) Meet the minimum requirements set forth by law, regulation, or employer as necessary for retention of the taxpayer's salary, status, or employment. In the case of teachers, a written statement to this effect from an authorized school official will be accepted by tax authorities as adequate substantiation. Educational expenditures made primarily for advancement in salary or position, for meeting the requirements of a new position, or for personal reasons are not tax-deductible.

For further information consult your tax adviser or district Internal Revenue office.

Refunds

A student may request and receive a refund provided application for such refund is made within three months of the date of registration. *No course fee will be refunded after a student has submitted lesson reports.* When refunds are made, \$2.00 of the fee for each course will be retained to cover the cost of registration.

Transfers

A student may transfer from one correspondence course to another any time during the first three months of his enrollment, provided the original course is returned to the Office of Correspondence Instruction. Fee for this service is \$2.00 plus any necessary fee adjustment and \$1.25 for each assignment which has been corrected in the original course. Not more than one transfer will be allowed. *No refunds are made on transfer courses.*

Grading System

The quality of student work is measured by a system of grades consisting of: *A, B, C, D, F, Inc.* The grade *A* denotes exceptional accomplishment; *B*, superior; *C*, average; *D*, inferior; *F*, failure; *Inc*, incomplete.

Teacher Certification

It is recommended in all cases that a student check with the department of education in his state. That office will indicate to a student the courses which he needs for certification and will also call his attention to any limitations concerning the manner in which those courses may be taken.

Service Personnel—USAFI

The General Extension Division has a contract with the United States Armed Forces Institute. Under the terms of this contract, the Government pays instruction costs and the student pays nominal enrollment fees plus the cost of the text or texts. Most of the courses listed in this bulletin are available under the USAFI contract. For complete information concerning fees and courses, consult your unit Education Officer or write to USAFI, Madison 3, Wisconsin.

Veterans

The Oregon State System of Higher Education offers courses under Public Law 550 (Korean Bill). If a veteran is qualified under this law, he should contact his local Veterans Administration immediately and apply for a Certificate of Education and Training, to be made out to the Office of Correspondence Instruction, General Extension Division, and submit this to the Office of Correspondence Instruction, 124 Education Hall, 16th and Alder, Eugene, Oregon. Also, he should obtain from the institution from which he expects to receive a degree a letter certifying that the courses he wishes to take will apply toward that degree. General Extension Division cannot issue such a letter.

A veteran may enroll in correspondence courses under Public Law 550 during any period when he is not registered in a residence program; that is, residence and correspondence instruction cannot be pursued concurrently under Public Law 550. Public Law 550 provides for reimbursement for tuition and books for correspondence instruction but does not provide for any subsistence allowance.

In addition to federal benefits, the State of Oregon affords educational assistance to veterans. Benefits under this program have been approved for Oregon veterans enrolled in correspondence study. To determine eligibility for state aid, Oregon veterans should write to the State Department of Veterans Affairs, State Finance Building, 1225

Ferry Street, Salem, Oregon. If eligibility previously has been established, application may be made through the Office of Correspondence Instruction.

Group Study

Courses have been prepared so that persons registering for them may study together if they wish. Small-group study through correspondence is specially appropriate in isolated areas or in larger communities where there are not enough persons interested in a particular course to organize an evening class. All courses listed as *examination* courses are specially designed for small-group study.

Preparation for Citizenship

Textbooks prepared by the United States Government to assist in preparation for the citizenship examination are available free of charge through the Office of Correspondence Instruction. To obtain these free textbooks write to Office of Correspondence Instruction, 124 Education Hall, 16th and Alder, Eugene, Oregon.

Those wishing to have the help of an instructor may enroll in a correspondence course in Preparation for Citizenship, planned for persons who have a fair knowledge of English. Fee for the course is \$7.00. To register, fill out one of the application blanks in the back of this catalog and mail it with the registration fee to the Office of Correspondence Instruction, 124 Education Hall, 16th and Alder, Eugene, Oregon.

Other Colleges and Universities Offering Correspondence Courses

If you are interested in a particular course that is not listed in this correspondence study bulletin, you may find it available through the correspondence study division of some other university or college. For a list of correspondence courses offered by accredited American colleges and universities, please consult the *Guide to Correspondence Study* which may be obtained for twenty-five cents from: National University Extension Association, c/o University of Minnesota, Minneapolis 14, Minnesota.

College Correspondence Courses

The courses in this catalog are numbered in accordance with the course-numbering system of the Oregon State System of Higher Education. Lower-division (freshman and sophomore) courses are numbered from 50 through 299. Upper-division (junior and senior) courses are numbered from 300 through 499. A number below 50 indicates a noncredit course.

The number of quarter hours (q.h.) of credit, type of course (W or E), the number of lessons and the enrollment fee are indicated on the line following the course title and number. A letter *W* stands for *Written* and indicates that the course is to be completed by submitting each lesson in writing. A letter *E* stands for *Examination* and indicates that in lieu of submitting each lesson in writing the student is required to take a series of proctored examinations. In most cases the number of such proctored examinations required is equivalent to the number of credit hours in the course. Proctored *final* examinations are required in *all* courses of both types.

For the convenience of students using this catalog, the Oregon State System of Higher Education campus institution from which the course originated is indicated by the letters on the right following course title and number. The letters *UO* refer to University of Oregon, *OSU* to Oregon State University, *PSC* to Portland State College, *OCE* to Oregon College of Education, *EOC* to Eastern Oregon College, *SOC* to Southern Oregon College and *OTI* to Oregon Technical Institute. Many of the courses are common to all State System campus institutions.

High School Courses

These courses are offered in cooperation with the office of the State Superintendent of Public Instruction and, when approved by the student's high school principal, may be applied for credit toward graduation. General Extension Division does not grant diplomas; this is done by the local high school. Regardless of his age, the student wishing to graduate from high school through the use of correspondence instruction should consult his high school principal who will advise him in the selection of courses. Credit earned through General Extension Division may be transferred to the high school at which it is to be used.

These courses also may be used by students who wish to clear college entrance deficiencies.

College credit will not be given for any of the high school courses listed below, but college entrance credit will be granted for satisfactory completion of any of them.

One-half unit of credit is the equivalent of five recitations, not less than forty minutes each, in one branch of study, once each week for not less than eighteen weeks.

The number of units (u.) of high school or college entrance credit and the enrollment fee are indicated after each course title. A number followed by the letter *W* indicates the number of written lesson assignments.

High school seniors who expect to use any of these courses for spring graduation must enroll before March 1 of the year in which they expect to graduate and must complete all lesson assignments and the final examination at least six weeks prior to the date of graduation.

General Extension Division

In Oregon, tax-supported institutions of higher education are integrated into a unified State System of Higher Education. The important function of extending resources of campus institutions on an off-campus basis is the responsibility of the Extension Division of the State System. It is an innovator, developer and expeditor of off-campus educational and cultural programs for many of Oregon's citizens who are unable to attend regularly-scheduled classes on campus.

General Extension Division fulfills this function through undergraduate and graduate college-credit courses which include evening classes, correspondence instruction, telecourses, workshops, institutes and consultant services to business and professional groups. Also offered to Oregonians are special interest non-credit courses, lecture and concert series, discussion groups, educational radio and television programs, films and sound tapes.

Credit courses offered through the Division are drawn from the catalogs of State System campus institutions and generally are taught by State System faculty members. The Division is responsible for maintaining campus standards of instructional quality. General Extension Division does not grant degrees. However, a student may consult with the institution from which he wishes to receive a degree and work out a program of courses offered through General Extension Division which may be applied to his particular degree program.

The Division serves not only students working for degrees or seeking professional advancement through further education, but also those who find pleasure in study and continuing formal instruction.
