WHEREAS the City of Hermiston and Umatilla County have
previously entered into a Joint Management Agreement applying to
lands within the City Urban Growth Area, and pursuant to the
agreement, amendments to the City of Hermiston Comprehensive Plan
and Implementing Ordinances for application to the Urban Growth
Area, are referred to Umatilla County for adoption;

WHEREAS on March 27, 2006, the Hermiston City Council adopted
Ordinance No. 2118, to amend the Comprehensive Plan Map and convert
certain lands from Urbanizable status to Urban status;

WHEREAS, at its May 25, 2006 meeting, continued to June 22,
2006, the Umatilla County Planning Commission reviewed the
ordinance and recommended that the Board of Commissioners co-adopt
the ordinance;

WHEREAS the Board of Commissions held a public hearing on
August 30, 2006, to consider the co-adoption of the ordinance;

WHEREAS at its meeting of August 30, 2006, the Board of
Commissioners voted unanimously to co-adopt the ordinance;

WHEREAS the Board of Commissioners, as part of its separate
findings, found that there was substantial evidence in the record
demonstrating that the City has adequate conveyance and treatment
capacity for the sanitary sewer system to accommodate this

ATTEST:

Robert D. Holley
CITY RECORDER
Applicant/Owner: American Development

Property Location: The property is located on the south side of E Theater Lane and directly east of the Pheasant Run Subdivision. The property is described as 4N 28 02D Tax Lots 400, 500 and 600.

Existing Use: The property contains one single family dwelling and the remaining area is vacant undeveloped land.

Surrounding Uses: To the north lies vacant undeveloped land. To the west lies the Pheasant Run Subdivision. To the east lies the Vista Park Mobile Home Park. To the south lie several industrial users.

Comp Plan Designation: The land proposed for conversion lies within the urbanizable portion of the urban growth boundary and has a Future Residential comprehensive plan map designation.

Surrounding Comp Plan Designations: Land to the north, east has a Future Residential comprehensive plan map designation. Land to the west has a Low Density Residential comprehensive map designation. Land to the south has an Industrial comprehensive plan map designation.

Existing Zoning: The land proposed for conversion has a zoning designation of Future Urban 10-Acre Minimum (FU-10).

Surrounding Zoning: Land to the north and east has a zoning designation of Future Urban 10-Acre Minimum (FU-10). Land to the west has a zoning designation of Duplex Residential (R-2). Land to the south has a zoning designation of Light Industrial (M-1).

Requested Comp Plan Map Designation and Requested Zoning: Medium Density Residential (M) and Multi-Family Residential (R-3).
Requirements

§157.226 of the Hermiston Code of Ordinances provides the method and approval criteria for granting or denying an amendment to the zoning map. The proposed amendment has been deemed a quasi-judicial change in that it involves the map and does not have widespread and significant impact beyond the immediate area of the proposed amendment. The following criteria as cited in §157.226(E) must be followed in deciding upon a quasi-judicial proceeding:

1. The burden in all land use proceedings is upon the applicant, whether a zone change, conditional use or variance is the subject of the hearing.

2. The requested zone change must be justified by proof that:
   a. The change is in conformance with the comprehensive plan and also the goals and policies of the plan.
   b. The showing of public need for the rezoning and whether that public need is best served by changing the zoning classification on that property under consideration.
   c. The public need is best served by changing the classification of the subject site in question as compared with other available property.
   d. The potential impact upon the area resulting from the change has been considered.

3. The courts will require a “graduated burden of proof” depending upon the more intensive land use that will occur as a result of the proposed rezoning.

4. Procedural process for a quasi-judicial hearing:
   a. Parties at a public hearing must have an opportunity to be heard, to present and rebut evidence.
   b. There must be a record which will support the findings made by the city council or planning commission.

Notice of the proposed action for a comprehensive plan map amendment or zoning map amendment shall be submitted to the Department of Land Conservation and Development 45 days prior to the date set for the initial hearing.

After the close of the initial evidentiary hearing, the planning commission shall make findings of fact and recommend to the city council adoption, revision or denial of the proposed amendments. Notice of the hearing before the city council shall be by one publication in the local newspaper. After the close of the public hearing, the city council shall make findings of fact and adopt, adopt with changes, or deny the proposed amendments.

PROPOSED FINDINGS

CONVERSION
THE CHANGE IS IN CONFORMANCE WITH THE COMPREHENSIVE PLAN AND ALSO THE GOALS AND POLICIES OF THE PLAN

1. The City of Hermiston’s comprehensive plan allows owners within the urban growth boundary to exercise their rights of development in a manner consistent with statewide goals and applicable comprehensive plan policies, as well as to provide efficient and orderly provision of public services and facilities.

2. The City’s application process allows for citizen involvement by way of public hearings before the planning commission and city council (Policy 1). Testimony was received from adjacent property owners.

3. City services are available to the property within the existing Pheasant Run Subdivision adjacent to the property. Upon annexation and development, city services can readily be extended into the property and the costs associated with this extension, excepting any required major facilities to facilitate future growth, can be borne by the developer (Policy 5).

4. The comprehensive plan identifies the land as Future Residential.

5. The proposed change to Medium Density Residential allows a mix of low and high density residential uses. The development’s goal is to blend the existing low density residential development to the west and the industrial uses to the south. The plan will be to mix low density residential and multi-family developments mixed with the existing adjacent developments.

DESCRIBE THE PUBLIC NEED FOR THE COMPREHENSIVE PLAN AMENDMENT AND WHETHER THAT PUBLIC NEED IS BEST SERVED BY THE CHANGING THE ZONING CLASSIFICATION ON THE PROPERTY UNDER CONSIDERATION

6. The current comprehensive plan designation allowed for and anticipated a future need for residential development in this area. The proposed change will fulfill the intent of the current designation.

7. Adjacent residential development has reached completion and it is necessary to expand the city boundaries and designate specific residential uses to all for the future housing demands of the City of Hermiston.

EXPLAIN HOW THE PUBLIC NEED IS BEST SERVED BY CHANGING THE CLASSIFICATION OF THE SITE IN QUESTION AS COMPARED WITH OTHER AVAILABLE PROPERTY

8. The proposed amendment will not change the overall residential designation of the property, but will define and specify how the existing zone shall be developed.
9. The site will be developed as proposed with a mixed use residential development which provides a reasonable transition between the neighboring single family, multi-family, industrial and manufactured housing uses that surround the project.

EXPLAIN HOW THE POTENTIAL IMPACT UPON THE AREA RESULTING FROM THE CHANGE HAS BEEN CONSIDERED

10. The proposed development will require additional utility and road infrastructure improvements. The impacts have been considered and analyzed for maximum efficiency and the best mitigation of traffic and utility demands.

11. In accordance with OAR 660-012-0060, the applicant has hired a traffic engineer to look at the traffic impacts of the proposed map amendments. The traffic engineer has submitted a report demonstrating that the proposed map amendments will not change the functional classification of any street or intersection impacted by the development.

12. The City states that utilities have the capacity to service the proposed development without major upgrades.

The County finds that substantial evidence in the whole record demonstrates that the City has adequate conveyance and treatment capacity for the sanitary sewer system to accommodate this conversion area and still accommodate existing and planned City areas. The evidence consists of the acknowledged Public Facilities Plan ("PFP") as required by Statewide Planning Goal 11, "Public Facilities and Service." The Department of Land Conservation and Development ("DLCD") has acknowledged the PFP as consistent with Goal 11. The record contains an acknowledgement letter from DLCD. The PFP concludes that the City has adequate conveyance and treatment capacity to handle all development within the City's Urban Growth Boundary, including urban and urbanizable areas.

Additionally, the City's Utility Engineer Al Shewey has testified that the treatment plant has adequate capacity to accommodate the expected residential development from this conversion area.

The County notes the lack of substantial evidence to the contrary regarding sanitary sewer treatment capacity. Therefore, the County finds as noted above that there is adequate sanitary sewer treatment capacity to accommodate the proposed residential development in this conversion area.
CO-ADOPTION OF HERMISTON ORDINANCE #2118 IS APPROVED:
