ATTEST:

I, Sherry Koppa, Recorder (Deputy Recorder) for the City of Klamath Falls, Oregon, do hereby certify that the foregoing is a true and correct copy of an Ordinance duly adopted by the Council of the City of Klamath Falls, Oregon at the meeting on the 1st day of May, 2006 and therefore approved and signed by the Mayor and attested by the City Recorder (Deputy Recorder).
Exhibit B
FINDINGS

A. The change of zone is in conformance with the Comprehensive Plan and all other provisions of Chapters 10 to 14 and any applicable street plans.

Response: The following Comprehensive Plan Policies relate to the proposed zone change:

Policy 197: The extent of continuous, impervious paved surfaces will be minimized, and large parking or paved areas will be subdivided with functional planting strips with exposed soil or proper drains.

Policy 225: The appropriate reuse of land which is underdeveloped or where structures are deteriorating will be encouraged.

Policy 235: More intensive land uses proposed for established residential areas will be subject to special site development standards which minimize the negative impact on abutting properties.

Policy 254: Allow growth to occur as naturally as possible without undue restrictions, or conversely, aggressive promotion.

Finding: The change of zone is in conformance with the Comprehensive plan and all other provisions of Chapters 10 to 14 and any applicable street plans, based on staff’s interpretation. This criterion is met.

B. Criterion The property affected by the change of zone is adequate in size and shape to facilitate those uses that are normally allowed in conjunction with such zoning.

Response: The minimum lot size for Light Industrial is 5,000 square feet. Storage facility is a non-conforming use for Medium Density zoning. This lot is approximately 3.18 acres in size and triangular in shape, which does not preclude any reasonable development of mini-storage units considering the property’s size.

Finding: The property affected by the change of zone is adequate in size and shape to facilitate the uses normally in conjunction with the proposed zoning. This criterion is met.

C. Criterion The property affected by the proposed change of zone is properly related to streets to adequately serve the type of traffic generated by such uses that may be permitted therein.

Response: The current use of the property is vacant with has been the same since the late 1970’s, and there is no anticipated change in use. The right-of-way adjacent to the property is Lakeport Blvd., which is 60’ wide with improved roads. There are no sidewalks or curbs along the sides of the right-of-way. The rights-of-way adequately serve the existing traffic generated from the site and there is no evidence that additional development would have negative impacts on either road.

Finding: The property affected by the proposed zone change is properly related to Lakeport Blvd. and has handled the amount of traffic for the current use for over 20 years. This criterion is met.

D. Criterion The proposed change of zone will have no adverse effect on abutting property or the permitted uses thereof.

Response: There is no evidence that the proposed Zone Change will have any adverse effect on abutting properties or the permitted uses thereof. It is not uncommon to have residential uses immediately adjacent to industrial property. While the adjacent residences have not lodged any complaints about these existing uses, the light industrial zone does permit uses that could cause a conflict with the adjacent residents, such as manufacturing and assembly, and repair and maintenance. The proposed development of mini-storage units should not have an adverse effect on neighboring properties given continued compliance with all City and other agency rules and regulations.

Finding: The proposed change of zone will have no adverse effect on abutting property or the permitted uses thereof. This criterion is met.
