Klamath County Assessor Map R-3809-17C as Tax Lot 00100;

is hereby annexed into the City of Klamath Falls

Passed by the Council of the City of Klamath Falls, Oregon, the 13th day of June, 2006.
Presented to the Mayor, approved and signed this 20th day of June, 2006.

Mayor

ATTEST:

City Recorder (Deputy-Recorder)
I, Recorder (Deputy Recorder) for the City of Klamath Falls, Oregon, do hereby certify that the foregoing is a true and correct copy of an Ordinance duly adopted by the Council of the City of Klamath Falls, Oregon at the meeting on the 19th day of June, 2006 and therefore approved and signed by the Mayor and attested by the City Recorder (Deputy Recorder).

City Recorder (Deputy Recorder)
EXHIBIT B
FINDINGS

1) The annexation will not encroach upon agricultural ground.
Response: This annexation will not encroach upon agricultural lands. The property is covered with native grasses, weeds, low-growth brush and sparsely scattered juniper trees. The 55 acre property is currently zoned for Urban Residential use within the County. The zoning on the adjacent properties are zoned as follows:
To the north is Low Density Residential (RL) in the County and is outside of the Urban Growth Boundary.
To the south is Apartment Residential and Campus PUD in the City.
To the east is Campus PUD in the City and High Density Residential (RH) in the County.
To the west is Light Industrial in the City.

2) The annexation will not encroach upon forestland.
Response: This annexation will not encroach upon forestland. This 55 acre property is zoned for Urban Residential use within the County, and is located within the Urban Growth Boundary. No forestry operations take place in the area.

3) The annexation will help conserve open space and protect natural resources.
Response: This annexation will help conserve open space. This annexation will make it possible to develop Mixed Use Residential and Neighborhood Commercial property within the Urban Growth Boundary. This “in-fill” will preserve lands dedicated to open space.

4) The annexation will not adversely affect the quality of the community’s air, water, and land resources.
Response: The mere act of annexation will not adversely affect the quality of the community’s air, water, and land resource. Before this property is developed, the developer must create and implement a storm water plan that meets the approval of City of Klamath Falls Public Works.

5) The annexation will not endanger life or property from natural disasters or hazards.
Response: This annexation will not endanger life or property from natural disaster or hazards. Nor will the proposed mixed residential and neighborhood commercial uses affect any natural disaster or hazard.

6) The annexation will help satisfy the citizen’s recreation needs.
Response: This annexation will not enhance nor distract from citizen’s recreation needs, therefore is not applicable.

7) The annexation will help satisfy the community’s housing need.
Response: The annexation of this property will help to facilitate the development of subdivisions providing the City of Klamath Falls with additional residential and neighborhood commercial lots.

8) The annexation will diversify and improve the community economy.
Response: This annexation will provide the community with available residential and neighborhood commercial lots. Development of these lots will provide economic opportunities for individuals in the building industry, and once developed, dwellings will be available. The annexation will increase the City’s tax base annually in real property tax revenue as well as increase local retail income.

9) The annexation will create a timely, orderly, and efficient arrangement of public facilities and services.
Response: The land is adjacent to other land within the City limits, and City and other District services. It will allow the development to hook up to City and other District services that currently are located adjacent to the area, and would be logical to expand and connect to these services.

10) The annexation will help provide a safe, convenient and economic transportation system.
Response: This annexation will help provide a safe, convenient and economic transportation system. The annexation reduces commercial and residential sprawl, as the area proposed for annexation could be served by College Way and Industrial Park Drive. Adjacent properties are developed and adequately served by Basin Transit Service.

11) The annexation will aid in conserving energy.
Response: This annexation will aid in conserving energy. Once developed, it will help create “in-fill” within the urban area, and therefore, use of existing public facilities and services.
12) The annexation will promote an orderly and efficient transition from rural to urban land uses.

Response: The 55 acre site in question is already zoned for Urban Residential use. The property to the north is zoned for Low Density Residential Use with a minimum lot size of 7,000 square feet. The proposed Planned Unit Development will provide a transition from the rural zoning outside of the UGB to the urban uses within the boundary. The proposed lot sizes range from 2,275 square feet on the southern property line to 10,540 square feet adjacent to the northern property line/UGB line. This promotes an efficient transition from rural to urban land uses.

Finding: Based on the analysis, this annexation conforms to the Comprehensive Plan. This criterion is met.
