ATTEST:

City Recorder

STATE OF OREGON
COUNTY OF KLAMATH  }  SS
CITY OF KLAMATH FALLS  }

I, ____________ , Recorder (Deputy Recorder) for the City of Klamath Falls, Oregon, do hereby certify that the foregoing is a true and correct copy of an Ordinance duly adopted by the Council of the City of Klamath Falls, Oregon at the meeting on the 2nd day of October, 2006 and therefore approved and signed by the Mayor and attested by the City Recorder.
Exhibit B
FINDINGS

A. The change of zone is in conformance with the Comprehensive Plan and all other provisions of Chapters 10 to 14 and any applicable street plans.

Response: The following Comprehensive Plan Policies relate to the proposed zone change:

Policy 100: The development of smaller, isolated vacant lands already available within the City limits will be encouraged.

Policy 225: The appropriate reuse of land which is underdeveloped or where structures are deteriorating will be encouraged.

Policy 227: All decisions on proposed land uses within the Urban Growth Boundary will be consistent with the Comprehensive Plan.

Policy 230: The density of residential land uses will be based upon the net land area of the site in conformance with the foregoing density ranges.

Policy 244: In-filling of developable lands will be encouraged to minimize sprawl and take advantage of existing facilities and services.

Policy 254: Allow growth to occur as naturally as possible without undue restrictions, or conversely, aggressive promotion.

These parcels are located within the Link River Estates subdivision. The vacation of the associated rights-of-way; Council Street, Addison Street, St. Francis Street, Stanford Street, and Bluff Street have been approved along with the tentative subdivision for Link River Estates.

Finding: The change of zone is in conformance with the Comprehensive Plan and all other provisions of Chapters 10 to 14 and any applicable street plans, based on staff’s interpretation. This criterion is met.

B. Criterion The property affected by the change of zone is adequate in size and shape to facilitate those uses that are normally allowed in conjunction with such zoning.

Response: This property is approximately 7.3 acres in size, adequate to accommodate the allowed residential use within this zone. The minimum lot size for Single Family Residential is 7,000 square feet. There are approximately 10 lots affected within the tentative subdivision that average 27,745 square feet (0.64 acres) in size. The property is somewhat irregular in shape, which does not preclude any reasonable development, considering the property’s size.

Finding: The property affected by the change of zone is adequate in size and shape to facilitate the uses normally allowed in conjunction with the proposed zoning. This criterion is met.

C. Criterion The property affected by the proposed change of zone is properly related to streets to adequately serve the type of traffic generated by such uses that may be permitted therein.

Response: The right-of-ways adjacent to the property are Stanford, Bluff, St. Francis Addison and Council Streets. However, these streets have been vacated to facilitate raw land to be developed into the approved tentative Link River Estates subdivision. There is no evidence that this zone change would have negative impacts on the future road (Link River Circle).

Finding: The property affected by the proposed zone change is properly related to the future Link River Circle, which can adequately serve the type of traffic generated by such uses that may be permitted therein. This criterion is met.

D. Criterion The proposed change of zone will have no adverse effect on abutting property or the permitted uses thereof.

Response: There is no evidence that the proposed Zone Change will have any adverse effect on abutting properties or the permitted uses thereof. The proposed zone change should not have an adverse effect on neighboring properties given the development’s continued compliance with all City and other agency rules and regulations. The other abutting properties are vacant, with single-family dwellings proposed within the Link River Estates subdivision.

Finding: The proposed change of zone will not have an adverse effect on abutting property or the permitted uses thereof. This criterion is met.
