City Recorder (Deputy Recorder)
1. **Criterion**: The change of zone is in conformance with the Comprehensive Plan and all other provisions of Chapters 10 to 14 and any applicable street plans.

**Staff Response**: The following Comprehensive Plan Policies relate to the proposed zone change:

- **Policy 73**: Existing and planned commercial and industrial areas will be protected from encroachment by incompatible land uses.
- **Policy 239**: Lands designated for industrial use shall be preserved for that use and protected from incompatible uses.
- **Policy 254**: Allow growth to occur as naturally as possible without undue restrictions, or conversely, aggressive promotion.
- **Policy 259**: Public and private actions will result in a net benefit for existing City residents and will contribute to the improvement of the local economy.

Comprehensive Plan policies 73 and 239 are not intended to absolutely prohibit, under any circumstances, the rezoning of land zoned industrial and/or commercial; these policies are intended to require the City: a) to maintain an adequate inventory of industrial and commercial properties to support anticipated growth in the community, and b) to insure the integrity of commercial and industrial zones by enacting zoning regulations that prohibit uses within industrial and commercial zones that are incompatible with and would interfere with industrial and commercial uses.

**Finding**: The change of zone is in conformance with the Comprehensive plan and all other provisions of Chapters 10 to 14 and any applicable street plans, based on staff's interpretation. This criterion is met.

2. **Criterion**: The property affected by the change of zone is adequate in size and shape to facilitate those uses that are normally allowed in conjunction with such zoning.

**Staff Response**: The minimum lot size for both General Commercial and Light Industrial is 5,000 square feet. A storage facility is a non-conforming use for General Commercial zoning, and the zone change to Light Industrial will bring the property into conformance. This lot is approximately 32,032 square feet in size and triangular in shape, which does not preclude any reasonable development considering the property's size. The property is currently developed and no additional structures are proposed at this time.

**Finding**: The property affected by the change of zone is adequate in size and shape to facilitate the uses normally allowed in conjunction with the proposed zoning. This criterion is met.

3. **Criterion**: The property affected by the proposed change of zone is properly related to streets to adequately serve the type of traffic generated by such uses that may be permitted therein.

**Staff Response**: The current use of the property has been the same since the late 1970's, and there is no anticipated change in use. The right-of-way adjacent to the property is Esplanade Avenue, which is 80' wide with improved roads, sidewalks and curbs along both the southeast and northwest sides of the right-of-way. The right-of-way adequately serves the traffic generated from the site since the late 1970's and there is no evidence that this zone change would have negative impacts on the road.

**Finding**: The property affected by the proposed zone change is properly related to Esplanade Avenue and has handled the amount of traffic for the current use for over 20 years. This criterion is met.

4. **Criterion**: The proposed change of zone will have no adverse effect on abutting property or the permitted uses thereof.

**Staff Response**: There is no evidence that the proposed Zone Change will have any adverse effect on abutting properties or the permitted uses thereof. The proposed zone change should
not have an adverse effect on neighboring properties given the development's continued compliance with all City and other agency rules and regulations and the geographical location adjacent to the railroad, 'A' canal, and Crater Lake Parkway.

Finding: The proposed change of zone will have no adverse effect on abutting property or the permitted uses thereof. This criterion is met.
