In the event that it is not feasible to constitute a separate commission, either due to the lack of interested or qualified members or due to concerns by the Council regarding the administrative burden a separate commission might require, the Silverton Planning Commission shall assume the role of the Historic Landmark Commission for the City of Silverton.

As Historic Resources of Statewide Significance, all such properties are subject to the regulations in Section 18.13.035 and 18.13.040 of this ordinance regardless of their listing on the Designated Landmarks Register, pursuant to Oregon Administrative Rules. However, only properties listed on the Designated Landmarks Register shall be eligible for public incentives and code considerations pursuant to this ordinance.

B. Any individual or group, including the Commission acting on its own initiative, may nominate a historic resource for inclusion on or removal from the Designated Landmarks Register by submitting a complete application to the Commission. The burden of proof lies with the applicant. No property shall be so designated without the written consent of the owner or, in the case of multiple ownerships, a majority of the owners.

C. The Commission shall establish standards for a complete application. Upon acceptance of a complete application, the Commission shall schedule a public hearing pursuant to applicable state laws.

1. A property shall be used as it was historically or be given a new use that requires minimal change to its distinctive materials, features, spaces, and spatial relationships.
2. The historic character of a property shall be retained and preserved. The relocation of distinctive materials or alteration of features, spaces, and spatial relationships that characterize a property shall be avoided.
3. A property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or elements from other historic properties, shall not be undertaken.
4. Changes to a property that have acquired historic significance in their own right shall be retained and preserved.
5. Distinctive materials, features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved.
6. Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and, where possible, materials. Replacement of missing features shall be substantiated by documentary and physical evidence.
7. Chemical and physical treatments, if appropriate, shall be undertaken using the gentlest means possible. Treatments that cause damage to historic materials shall not be used.
8. Archeological resources shall be protected and preserved in place. If such resources must be disturbed, mitigation measures shall be undertaken.
9. New additions, exterior alterations, or related new construction shall not destroy historic materials, features, and spatial relationships that characterize the property. The new work shall be differentiated from the old and shall be compatible with the historic materials, features, size, scale and proportions, and massing to protect the integrity of the property and its environment.
10. New additions, exterior alterations, or related new construction shall be undertaken in such a manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

**Section 18.13.040 Historic Relocations and Demolitions**

A. Applications for the relocation or demolition of a designated landmark or historic resource of statewide significance shall be considered in a public hearing by the Landmark Commission. In order for the Commission to approve the relocation or demolition, it must find that:
1. No prudent and feasible alternative exists, or
2. The designated property is deteriorated beyond repair, or
3. The value to the community of the proposed use if the property outweighs the value of retaining the designated landmark or historic resource of statewide significance.

B. At the hearing for an application to relocate or demolish a designated landmark or historic resource of statewide significance the Commission may, in the interest of exploring reasonable alternatives, delay issuance of a demolition permit for up to 90 days from the date of the hearing. If, ten days prior to the expiration of the delay period the Commission finds that there are still reasonable alternatives to explore, it may apply to the Silverton City Council for permission to continue the delay for an additional period of up to 90 days.

1. Photographic, video, or drawn recordation of the property to be demolished, and/or

B. The provisions of this ordinance shall not effect any citation, complaint, prosecution, or other proceeding pending at the time this ordinance is passed.

C. Should any section, paragraph, sentence, or word of this ordinance be declared for any reason to be invalid, it is the intent of the Silverton City Council that it would have passed all other portions of this ordinance independent of the elimination of any portion as may be declared invalid.
