SUBJECT: City of Cave Junction Plan Amendment DLCD File Number 001-09

The Department of Land Conservation and Development (DLCD) received the attached notice of adoption. A Copy of the adopted plan amendment is available for review at the DLCD office in Salem and the local government office.

Appeal Procedures*

DLCD ACKNOWLEDGMENT or DEADLINE TO APPEAL: Wednesday, August 26, 2009

This amendment was submitted to DLCD for review prior to adoption. Pursuant to ORS 197.830(2)(b) only persons who participated in the local government proceedings leading to adoption of the amendment are eligible to appeal this decision to the Land Use Board of Appeals (LUBA).

If you wish to appeal, you must file a notice of intent to appeal with the Land Use Board of Appeals (LUBA) no later than 21 days from the date the decision was mailed to you by the local government. If you have questions, check with the local government to determine the appeal deadline. Copies of the notice of intent to appeal must be served upon the local government and others who received written notice of the final decision from the local government. The notice of intent to appeal must be served and filed in the form and manner prescribed by LUBA, (OAR Chapter 661, Division 10). Please call LUBA at 503-373-1265, if you have questions about appeal procedures.

*NOTE: THE APPEAL DEADLINE IS BASED UPON THE DATE THE DECISION WAS MAILED BY LOCAL GOVERNMENT. A DECISION MAY HAVE BEEN MAILED TO YOU ON A DIFFERENT DATE THAT IT WAS MAILED TO DLCD. AS A RESULT, YOUR APPEAL DEADLINE MAY BE EARLIER THAN THE ABOVE DATE SPECIFIED.

Before the Common Council 
of the 
City of Cave Junction

Regarding: Zone Change -1400 N. Sawyer Ave. 
(Multiple Residential District to Public Uses District)

Property Owner: City of Cave Junction 
Applicant: City of Cave Junction

This request came before the Common Council of the City of Cave Junction on July 13, 2009 
and July 27, 2009 for a public hearing at the request of the City of Cave Junction who requested 
approval of a zone change from Multiple Residential (MR) to Public Uses (P) for 1400 N. 
Sawyer Ave., more particularly described as 39-08-16 TL 809.

There being no objection to the authority of the Council to hear the matter, the public hearing 
was opened.

1. CRITERIA FOR DECISION:

1.1. EVIDentiary CRITERIA: Section 17.14.510 (B) states that a decision to approve, 
approve with conditions or to deny an application for a quasi-judicial amendment shall be based 
on all of the following criteria:

1.1.1. Demonstration of compliance with all applicable comprehensive plan 
policies and map designations. Where this criterion cannot be met, a 
comprehensive plan amendment shall be a prerequisite to approval.

1.1.2. Demonstration of compliance with all applicable standards and criteria of 
this Code, and other applicable implementing ordinances.

1.1.3 Evidence of a change in the neighborhood or community or a mistake or 
inconsistency in the comprehensive plan or land use district map regarding the 
property which is the subject of the application; (and the provision of Section 
17.14.450 Transportation Planning Rule Compliance, as applicable).

1.2 APPROVAL CRITERIA

1.2.1 Municipal Code 17.18.010 - Purpose of the Public Uses District 
1.2.2 Municipal Code 17.18.020 - Permitted Uses 
1.2.3 Municipal Code 17.24.010 - Purpose of the Multiple Residential Dist 
1.2.4 Municipal Code 17.14.510 - Criteria for a Zone Change 
1.2.5 City of Cave Junction Comprehensive Plan 
ODOT Access Management Administrative Rule 734-051 
Illinois Valley Fire Protection District
2.0 EVIDENCE AND FACTS: The Common Council considered the following evidence and testimony:

2.1 TESTIMONY:
1.1 Written and oral testimony from staff, who discussed the salient aspects of the application from written staff report;
2.1. Oral testimony from John Bowler, PO Box 3151, Kerby 97531

3.0 JUSTIFICATION: The Council accepted the following findings to justify the decision:

3.1 CURRENT ZONING/COMPREHENSIVE PLAN
Current Zone: MR (Multiple Residential)
Comprehensive Plan: MR (Multiple Residential)

3.2 Proposed Zoning/Comprehensive Plan
Proposed Zone: P (Public Uses)
Proposed Comprehensive Plan: P (Public Uses)

3.3 Consistency with 2000 Comprehensive Plan

3.3.1 Goal #2 - Land Use Planning: The Comprehensive Plan Land Use Plan Map which indicates anticipated location of various Public uses, would be amended to accommodate the new Public Zoning. Even using the highest population estimates prepared for the sewer and water system improvements, the City has ample acreage to accommodate residential use, but it has not allocated significant acreage for multi-family development. The parcel’s proximity to the city’s sewer lagoon and its easement access across City property diminishes its desirability for residential use.

3.3.2 Goal #6 - Air, Water, & Land Resources Quality: Air pollution is not cited in the Plan as a significant issue, although automobiles are noted to be a source of pollution. Water resources are adequate for current population levels and normal development within the city limits, but the City is concerned about depletion of groundwater in rural residential developments, forcing annexation when supplies are diminished.

The City also participates in regional planning programs for the Illinois River basin. The only land resource issue in the Plan is recognition of the Kerby solid waste transfer station. Providing additional land for wastewater treatment facilities protects Cave Junction’s future.

3.3.3 Goal #8 - Recreation: The site is adjacent to the Illinois Valley Golf Course. Other existing amenities in Cave Junction include Jubilee Park and coordinated use of school district playground facilities. The Forks State Park is immediately south of the city, across the Illinois River. The City intends through zoning to provide an adequate supply of land for privately owned recreation-oriented and tourist-oriented businesses. The proposed Public zone will provide a buffer between more intensive urban uses and the golf course.
3.3.4 Goal #9 - Economy of the State: The property has a Multiple Residential Comprehensive Plan designation, having been changed from a Commercial designation that reflected its past use as a radio station. The radio station was abandoned and the property has not been actively used since, and has alternated between commercial and residential zoning. Through the State-mandated periodic review process, the City updated various elements of the Comprehensive Plan, including an analysis of the effect that creation of an employment zone would have on residential land supply. The updated Housing Element states:

*Approximately 1524 acres are included in the city and urban growth boundary. Nearly 1000 acres are vacant or have room for additional dwellings where one already exists. Oregon’s handbook for developing buildable lands inventories suggests subtracting between 23 and 31 percent for future streets and public facilities. Even subtracting the highest percentage leaves 644 acres available for residential development. The City anticipates a density of six units per acre, resulting in a capacity of 3864 homes. At a rate of 2.13 persons per household, more than 8230 additional residents could be accommodated on available land, for a total population of 9645 residents in the urban growth boundary. This is more than five times the projected 2017 population of 1800 shown in the transportation system plan.*

The previous finding is made without consideration of additional densities that could be realized through development of high-density residential uses. It is clear that applying a Public Uses zoning designation to the property will not significantly reduce the city’s 20-year housing potential.

3.3.5 Goal #11 - Public Facilities and Service - Government, Civic, Social Organizations and Churches. The City’s expanded water and sewage treatment facilities were completed in the late 1990s. Tax Lot 809 is adjacent to the sewage treatment lagoons and can be used in conjunction with the treatment plant. A 6-inch water line crosses the property.

The Illinois Valley Fire District provides Fire Protection and has no concerns at this time. The urban area has a fire insurance rating of 5. Police protection is provided through a contract with the Josephine County Sheriff’s Office.

3.3.6 Goal #12 - Transportation - The property does not front on a State Highway, but because the request is for a comprehensive plan amendment, the applicant requested comment from ODOT. In a September 29, 2006, comment, ODOT stated that it had no concerns with the proposal for multi-family housing. The Public zone wastewater treatment use will generate less traffic than residential uses.

3.3.7 Goal #14 - Land Use and Urbanization - Land Use Designation
Even using the highest population estimates prepared for the sewer and water system improvements, the City has ample acreage to accommodate residential use, but it has not allocated significant acreage for multi-family development, but the parcel’s proximity to the city’s sewer lagoon and its easement access across City property diminishes its desirability for residential use.
3.4 Consistency with the Zoning Ordinance

3.4.1 Section 17.24.010 states that the purpose of the Multiple Residential zoning district is to provide a quality environment for medium and high density, urban residential uses, together with other compatible uses.

3.4.2 Section 17.18.010 states that the purpose of the Public Uses District is to provide for the uses of various units of government as they serve the public interest. Generally, the land and waters of the Public Uses district will be in Public ownership. Uses in the P district are to operate with buffering or other mitigating measures so they are compatible with adjacent residential and commercial areas and special features of the environment.

3.4.3 Section 17.14.490 establishes the criteria for an amendment, which are listed in Section 2 and addressed in Section 3 of this report.

4. CONCLUSION: The proposed comprehensive plan amendment and zone change is the result of the applicant’s desire to bring the zoning of the property into compliance with the actual use.

5. DECISION: Therefore, based on the staff report, evidence submitted into the record and testimony from witnesses, the Common Council of the City of Cave Junction, upon a motion by Margaret Miller and a vote of 5-0, approved the request for the zone change from Multiple Residential (MR) to Public Uses (P) for the property located at 1400 N. Sawyer Ave., more particularly described as (Assessor’s Map 39-08-16 Tax Lot 809).
