Subject: Amendment to Hood River Municipal Code: Non-conforming Structures and Affordable House Extensions

Background: The proposed amendments to Title 17 would allow a nonconforming telecommunications tower that provides emergency communications to relocate on a different part of the parcel on which the tower sits and would allow for two additional two year extensions for permits for affordable housing projects.

Currently, any nonconforming structure cannot be rebuilt on a different area of land on the parcel on which it is located. With respect to telecommunications towers, this would require disabling the communications provided by the tower while it is rebuilt in the same location. This is not feasible, nor is it safe, for telecommunications that provide emergency communications. The existing language regarding movement of nonconforming structures did not anticipate such a situation. The proposed amendment would allow the tower to be reconstructed on a different part of the parcel on which the tower sits without disabling the emergency communications and without losing nonconforming status. A tower to which this provision would apply is the 100 foot tower located at the City’s Fire Station.

With respect to affordable housing permits, currently such land use permits (site plan review or PUD) are eligible for only one 2 year extension. Because of the City’s interest in encouraging affordable housing, staff is proposing that such permits be eligible for 2 additional 2 year extensions.

Planning Commission Recommendation: The Planning Commission heard this proposal on July 6, 2009. They received no testimony and voted unanimously to recommend approval of the proposed changes.

Suggested Motion: I move that read Ordinance 1975 for the first time by title only during tonight’s regular meeting.

Alternatives:
1. Amend the proposed changes.
2. Reject proposed changes.

Fiscal Impact: The City has a contractual agreement with Verizon under which Verizon will be replacing the City’s nonconforming telecommunications tower, which provides emergency services. The ability to move the tower may affect the lease due to the Fire Department’s plans to redevelop the property.

Environmental Impact: None.
