17.144.030 Annexation impact analysis.

The following criteria shall apply to all annexation requests:

A. The proposed use for the site complies with the Brookings Comprehensive Plan and with the designation on the Brookings Comprehensive Plan map. If a redesignation of the Plan map is requested concurrent with annexation, the uses allowed under the proposed designation must comply with the Brookings Comprehensive Plan.

B. An adequate level of urban services and infrastructure to accommodate anticipated future development either is available, or can reasonably be made available. An adequate level of urban services shall be defined as: municipal sanitary sewer, storm drainage, and water service meeting the requirements enumerated in the Brookings Public Facilities Plan and the Land Development Code for provision of these services. The adequacy of these services shall be considered in relation to annexation proposals. If any substandard infrastructure exists within the boundaries of the area proposed for annexation, the City may deny an annexation application.

C. Documentation of impacts on existing streets within the annexation area and adjacent transportation facilities by future development of the area. The adequacy of the transportation facilities shall be considered in relation to annexation proposals.
D. As development occurs within the annexed area new streets shall be constructed to the standards of the Brookings Transportation System Plan and Land Development Code. While it is preferred that public streets located within the City limits be a part of the City maintained street system, streets within the annexed area shall remain in the County's jurisdiction until such time as they are improved to the City street standards. If the proposed annexation includes the transfer of County maintained roads to the City maintained street system, said streets located within the annexation area shall be improved to City standards prior to annexation approval, or the formation of a Local Improvement District to fund said street improvements shall accompany the annexation application.

E. Documentation of the availability and adequacy to serve the proposed annexation with police, fire, parks, and school facilities and services.

F. Improvements for needed infrastructure shall be secured by a funding mechanism that will place the economic burden on the territory proposed for annexation and not on the City of Brookings. [Ord. 05-O-446.UU § 2; Ord. 91-O-446.G § 2; Ord. 89-O-446 § 1. Formerly 17.144.040.]

17.144.040 Zoning of annexed property.

A request for a City zoning designation for the territory proposed to be annexed shall be considered at the time of the annexation proposal; however, the City Council will ultimately determine the zoning to be applied. The zoning designation of annexed territory shall be specified in the annexation ordinance and shall become effective upon acceptance of the annexation by the Secretary of State. [Ord. 05-O-446.UU § 2; Ord. 89-O-446 § 1. Formerly 17.144.050.]

17.144.050 Hearing Process

A. The Planning Commission will conduct a public hearing to consider the application request. The Commission will review the materials submitted and analyze how the application relates to the criteria stipulated in 17.144.040, BMC. A recommendation from the Planning Commission will be forwarded to the City Council.

B. The City Council will consider the Planning Commission's recommendation and whether the application meets the appropriate criteria. The Council will make a decision to approve or deny the requested annexation.

CITY OF BROOKINGS

COUNCIL AGENDA REPORT

Meeting Date: March 8, 2010

Originating Dept: Planning

Subject: A hearing on File LDC-20-09 for consideration and possible adoption of revisions to Chapter 17.144, Annexations, Brookings Municipal Code (BMC).

Recommended Motion: Motion approving revisions to Chapter 17.144, Annexations, BMC

Financial Impact: None

Background/Discussion: The Land Development Code (LDC) Committee reviewed Chapter 17.144, Annexations.

Some of the more significant revisions are as follows:

- 17.144.020 (I), Application Materials – In the current version of this Chapter there was no requirement to state what the proposed uses would be in the annexed area. This is very important to analyze impacts.

- 17.144.020 (J) (5), Application Materials – This change makes it clear the City will provide written information to the Applicant regarding the existing infrastructure to be sure all parties know what costs will be involved in serving the area to be annexed.

- 17.144.030 (D), Annexation Impact Analysis. It is problematic for the City to annex a street that doesn’t meet City standards. The proposed language offers a possible resolution to that situation, while still leaving the option of allowing the County to continue ownership and maintenance of existing streets within the annexed area.

- 17.144.050, Hearing Process – In the current version of this Chapter there was no statement about the need for the two hearing process, with the City Council as the decision-making body. This proposed language corrects that omission.

The Planning Commission reviewed this Chapter and recommended approval to the City Council.

Following this report is the draft version of Chapter 17.144 (Attachment A).
