City of Cannon Beach, Ordinance 10-03, Page 1 of 1
FINDINGS OF FACT
ZO 10-01, CITY OF CANNON BEACH, ZONING CODE TEXT AMENDMENT, PERMITTING GOVERNMENTAL OR MUNICIPAL STRUCTURES IN THE PARK MANAGEMENT ZONE

BACKGROUND

The City of Cannon Beach is proposing an amendment to the Zoning Code, Section 17.32.020 Park Management (PK) Zone, Uses permitted outright to permit governmental or municipal structures as an outright use in the PK Zone. Presently, the PK Zone permits only park uses. With very few exceptions, City zoning districts permit governmental and municipal structures within a specific zone. The immediate reason for the proposed amendment is that the City is in the process of locating three emergency supply caches in the City, one on the Northside, one in Midtown and one in Tolovana Park. To order to effectively perform its function in the broadest range of emergencies, the emergency cache needs to be sited at a location that is outside of the the 99% tsunami inundation zone, as determined by the recent tsunami inundation study completed by the Oregon Department of Geology and Mineral Industries (DOGAMI). In the Tolovana Park area there is only one site, in City ownership, that has a site elevation such that it is located outside of the tsunami inundation zone. That parcel is located east of Highway 101 and north of the Tolovana Mainline Road. That property is zoned PK. In order to locate an emergency cache on this property, the Zoning Code must be amended to provide for a municipal structure.

The Planning Commission held a public hearing on the proposed amendment at its January 28, 2010, meeting. The Planning Commission recommended that the PK Zone be amended to permit governmental or municipal structures as a conditional use.

The Council held a public hearing on the proposed text amendment on February 2, 2010.

ANALYSIS/INFORMATION

CRITERIA - ZONING CODE

A. Section 17.86.070 Criteria provides that “before an amendment to the text of the ordinance codified in this title is approved, findings will be made that the following criteria are satisfied”:

1. “The amendment is consistent with the comprehensive plan.”

Finding: Generally, City zoning districts make specific provision for governmental and municipal structures. The Park Management (PK) Zone is an exception in that it only permits park uses. The proposed amendment will bring the Park Management Zone into conformance with how municipal and governmental structures are treated in other City zones. Given the limited availability of publicly owned land in Cannon Beach, it may be necessary to site a given governmental or municipal structure within a Park Management Zone. The proposed amendment will permit such a facility siting to occur in the PK Zone when such a siting is determined to be necessary. For example, the City is presently seeking to site an emergency supply cache to serve the Tolovana Park area. The key design criterion in siting the cache is a site that is located outside of...
the most conservative tsunami inundation zone estimates. The site that best fits this
criterion is a City owned property designated PK located on the eastside of
Highway 101, north of the Tolovana Mainline. Providing a Zoning Code use
standard in the PK Zone that permits the implementation an element of the City’s
emergency preparedness plan is consistent with a comprehensive plan’s objective of
providing for a safe community.
**Conclusion:** This standard is met.

2. “The amendment will not adversely affect the ability of the city to satisfy land and water
use needs.”

**Finding:** Through the use of the conditional use process, the City can ensure that the
utilization of a portion of a property designated as Park Management for municipal and
governmental structures that are not park related will not adversely affect the ability of
the City to meet park needs. It is anticipated that the need to utilize park land for non-
park governmental uses will be limited both in occurrence and scope. For example, the
need to site a structure to house an emergency supply cache will occupy approximately
1,080 square feet on a 2.3 acres site.
**Conclusion:** This standard is met.

**CONCLUSION**

The proposed amendment to the text of the Zoning Code meets the relevant criteria.
