EXHIBIT B
RESOLUTION NO. 1758

1. City of Cottage Grove has made an application to redesignate 3 parcels (or 20.86 acres) described as Map 21-03-05-10 TL 1401 (part), 32257 Cleveland Street (Map 21-03-04-20 TL 8600 (part)) and Map 21-03-04-20 TL 8601 from L Low Density Residential to M Medium Density Residential.

2. The City of Cottage Grove Comprehensive Plan, under “The Plan in General,” states that it contains broad generalized patterns of land use for those areas in which a given land use is best suited, where a land use is compatible to surrounding land uses and where the need for a given land use exists.

3. The City Comprehensive Plan also states that the plan is not complete. It is subject to revision to meet the many possible economic, political and technological events that might occur in the future. The plan must also remain flexible and responsive to the citizens in reflecting their desire and needs to remain current and reflect the changing form of the community.

4. The lands to be redesignated comprise a single family home at 32257 Cleveland Avenue, and two vacant parcels, currently used as pasture. The properties have been recently annexed into the City of Cottage Grove, and will be rezoned upon approval of this land use designation change from Lane Code Chapter 10 Exclusive Farm Use to R-2 Multiple Family Residential. Redesignation of this property as M Medium Density Residential will provide additional medium density residential lands in the City, and meet an identified need of the 2005 Buildable Lands Inventory.

5. Adequate public facilities, including water, sewer, storm water, and streets are or can be provided to the site. The property is accessed via Hwy 99 S, a State Highway. Local streets providing access include Cleveland Avenue, a Lane County street, and S. 4th Street, a City of Cottage Grove street. ODOT and Lane County have been apprised of this redesignation and has submitted comments confirming that the proposed redesignation does not constitute a significant impact upon the transportation facility.

6. The following Statewide Planning Goals are not applicable to the proposed redesignation: Goal 3 – Agricultural Lands; Goal 4 – Forest Lands; Goal 8 – Recreational Needs; Goal 9 – Economic Development; Goal 17 – Coastal Shorelands; Goal 18 – Beaches & Dunes; and Goal 19 – Ocean Resources.

7. The following Statewide Planning Goals are applicable and the amendment complies with them as noted below:

1. **Goal 1: Citizen Involvement**
The acknowledged Cottage Grove Comprehensive Plan (Plan) complies with Goal 1. This Plan designates the majority of the subject property for Medium Density Residential use. The zone change proposed for this portion of the site is consistent with the Plan. The Type IV Permit Application process used for the Plan amendment proposal is consistent with Goal 1. Adequate public notice of the proposed changes has been provided through the Type IV public notice process as specified in Section 14.4.1.500 of the Development Code. The Department of Land Conservation and Development was notified of the intended modification on June 16, 2010. Public hearings have been held at the Planning Commission and City Council levels to consider this redesignation/rezoning. Our process involves various forms of notification of the public in the immediate area, notification in local media, and notification of impacted governmental agencies and recognized neighborhood groups.

2. **Goal 2: Land Use Planning**
The land use planning process used by Cottage Grove to review this application is consistent with Goal 2. The City has established a land use planning process and policy framework as a basis for all decisions and actions related to use of land and to assure an adequate factual base for such decisions and actions. The proposed change followed the process established in Title
14 of the City of Cottage Grove Municipal Code and has been found compatible with the City’s Comprehensive Plan.

3. **Goal 3: Agricultural Lands**

   This goal does not apply to the application as land within acknowledged urban growth boundaries is not considered agricultural. The subject property is within the acknowledged urban growth boundary of Cottage Grove, and is within the city limits.

4. **Goal 4: Forest Lands**

   This goal does not apply to the application. Forest lands are those lands acknowledged as forest lands as of the date of adoption of this goal amendment. The subject property has never been acknowledged as forest lands.

5. **Goal 5: Natural Resources, Scenic and Historic Areas, and Open Spaces**

   No known wetlands or historic areas are located on the subject property. Riparian habitat along the Coast Fork of the Willamette River will be protected during future development phases through Title 14 Development Code protections for riparian setbacks. Any scenic features on the site are associated with the Coast Fork of the Willamette River Greenway and will be addressed by Goal 15.

6. **Goal 6: Air, Water and Land Resources Quality**

   When the subject property was annexed to Cottage Grove in 2008, it was determined that there were no anticipated capacity problems with the existing and planned stormwater facilities in the area to accommodate planned Medium and High Density Residential uses. Any development taking place outside of the Willamette Greenway boundaries but within identified wetlands or riparian areas close to the river are required to address the provisions of Section 3.7.300 of the City Development Code (Riparian Development).

7. **Goal 7: Areas Subject to Natural Disasters and Hazards**

   The portion of the subject property that is adjacent to the river is subject to flooding hazards, as identified in FIRM maps 2087 and 2090. All development within areas subject to flooding will be required to comply with the provisions of Section 3.7.200 of the Cottage Grove Development Code (Floodplain Development).

8. **Goal 8: Recreational Needs**

   No specific recreational facilities have been identified on the subject property. The river would provide the greatest recreational potential on the site, and its characteristics are addressed in Goal 15.

9. **Goal 9: Economic Development**

   This goal is not applicable as the Plan amendment and rezoning request is limited to residential Plan designations and zoning districts.

10. **Goal 10: Housing**

    The Plan Amendment and concurrent rezoning will permit the eventual development of the subject property in a manner that is consistent with the City’s 2005 Buildable Lands Analysis, as described in this application. The Plan amendment increases the amount of Medium Density Residential land on the subject property by 1/3 (34.7%) and allows the construction of 30 additional dwelling units. The 2005 Buildable Lands Analysis recommends conversion of Low Density Residential lands to Medium and High Density Residential to meet projected housing mix. As the Buildable Lands Analysis’s recommendations are designed to ensure Cottage Grove’s compliance with Statewide Planning Goal 10, Housing, compliance with BLA recommendations brings this request into alignment with Goal 10.

11. **Goal 11: Public Facilities and Services**

    During the annexation of the subject property to the city, it was determined that improvements are planned for the water and sanitary sewer systems that serve the surrounding area. These improvements will accommodate development allowed by the existing and proposed Plan designations and appropriate zoning districts.
12. Goal 12: Transportation
The Traffic Impact Analysis developed by Access Engineering LLC has found that the proposed Plan amendment and zone change is consistent with the functional classification, capacity, and performance transportation standards of Cottage Grove, Lane County, and the Oregon Department of Transportation. A more detailed traffic analysis to address safety and operations, permitting, and potential roadway improvements, if warranted, will be necessary at time of planning approval for any subdivision or master planned development. Lane County and ODOT will be given opportunity to review all such further studies.

The Plan amendment to increase the amount of Medium Density Residential land on the subject property will promote more energy efficient development. Higher densities of development require less energy for space heating as attached dwelling units, which are typical for higher densities, have fewer exterior walls. Less energy is required for transportation as well, since multiple family dwellings have fewer trips per unit than single family dwellings.

14. Goal 14: Urbanization
The entire subject property has been annexed to the City of Cottage Grove and is inside the City’s acknowledged Urban Growth Boundary.

15. Goal 15: Willamette River Greenway
Any development on the subject property within the Willamette Greenway boundaries will be required to address the provisions of Section 3.7.400 of the City Development Code (Willamette River Greenway). The Plan amendment to increase the amount of Medium Density Residential land on the subject property may encourage the creation of longer riverside bike paths and improved public access, as specified in Code Section 3.7.400(D)(8), by creating a more uniform development type on the site which would simplify the design of public access facilities along the entire riverfront.

8. The property owner of the lands involved in the Plan Amendment is in favor of the redesignation.
9. The proposed changes are in the public’s interest; are in keeping with the development pattern in this area of the city; are in keeping with the intent of the City Comprehensive Plan; and serve the public’s health, safety and welfare.
