Summarize the adopted amendment. Do not use technical terms. Do not write “See Attached”.

The applicants, Leo and Pauline Icenbice, Steve Shrifter, Joan Quinlan, Don and Vickie Dumbeck, Larry and Susan Snyder, and David Filippe propose to rezone approximately 0.68 acres (29,680 square feet) of land from Public Facility to Apartment Residential. The proposed zone change would eliminate the non-conforming residential uses on the parcels and make the zone more closely match the existing uses on the subject properties. All seven of the properties are used for single family homes. This proposal does not include any changes or modifications to the subject properties.

Does the Adoption differ from proposal? Please select one
☐ 2,400 square feet or .05 acres was added to the rezoned area. The additional property is owned by Larry and Susan Snyder, and David Filippe.

COUNTY OF KLAMATH } ss.  
CITY OF KLAMATH FALLS }

I, Elisa Olson, Recorder (Deputy Recorder) for the City of Klamath Falls, Oregon, do hereby certify that the foregoing is a true and correct copy of an Ordinance duly adopted by the Council of the City of Klamath Falls, Oregon at the meeting on the 3rd day of May, 2010 and therefore approved and signed by the Mayor and attested by the City Recorder.

City Recorder (Deputy Recorder)
11.415 Required Findings. Prior to making a recommendation on the proposed change of zone, the Commission shall analyze the following criteria and incorporate such analysis in their decision:

A. **Criterion** The change of zone is in conformance with the Comprehensive Plan and all other provisions of Chapters 10 to 14 and any applicable street plans.

**Staff Response:** The following Comprehensive Plan Policies relate to the proposed zone change:

Policy 224: Public facility capacity and expansion scheduling will be a key factor in land use planning. The proposed zone change will cause the zoning of the subject property to more closely match the existing uses of the property. Re-zoning the property from Public Facility to Apartment Residential will remove property that would otherwise be reserved for public facility related uses, thus supporting Comprehensive Plan Policy 224.

All seven houses were built prior to the adoption of the first City of Klamath Falls Zoning Ordinance #5095, which was adopted on November 2nd, 1959. While some of the houses have added small additions, porches, exterior sheds, garages, and fences over the years, the original primary residences all predate residential review permit requirements. Structures built before 1959 are more likely than structures built after 1959 to have current coverage or setback nonconformities. Below is a property breakdown:

- **414 North 9th Street:** House built in 1920. Planning Division address files have no building permit on file and the house predates residential review permit requirements. The house and garage cover approximately 1,284 sq ft or 26% of the 4,960 sq ft lot. All of the property which is 4,960 sq ft is currently zoned Public Facility.

- **410 North 9th Street:** House built in 1916. Planning Division address files have no building permit on file and the house predates residential review permit requirements. The house and garage cover approximately 1,194 sq ft or 24% of the 4,960 sq ft lot. All of the property which is 4,960 sq ft is currently zoned Public Facility.

- **406 North 9th Street:** House built in 1916. Planning Division address files have no building permit on file and the house predates residential review permit requirements. The house and garage cover approximately 2,200 sq ft or 44% of the 4,960 sq ft lot. All of the property which is 4,960 sq ft is currently zoned Public Facility.

- **332 North 9th Street:** House built in 1952. Planning Division address files have no building permit on file and the house predates residential review permit requirements. The house and garage cover approximately 2,240 sq ft or 18% of the 12,400 sq ft lot. The garage was built in 1994 with Residential Review Permit Number 84-94. A large portion of the property which is 9,800 sq ft is currently zoned Public Facility, while the remaining 2,600 sq ft is currently zoned Apartment Residential.

- **322/320 North 9th Street:** House built in 1927. Planning Division address files have no building permit on file and the house predates residential review permit requirements. The house (duplex) covers approximately 1,350 sq ft or 21% of the 6,400 sq ft lot. A small portion of the property which is 1,200 sq ft is currently zoned Public Facility, while the remaining 5,200 sq ft is currently zoned Apartment Residential.

- **310 North 9th Street:** House built in 1939. Planning Division address files have no building permit on file and the house predates residential review permit requirements. The house and garage cover approximately 1,462 sq ft or 46% of the 3,200 sq ft lot. A small portion of the property which is 600 sq ft is currently zoned Public Facility, while the remaining 2,600 sq ft is currently zoned Apartment Residential.
304 North 9th Street: House built in 1912. Planning Division address files have no building permit on file and the house predates residential review permit requirements. The house and garage cover approximately 1,211 sq ft or 38% of the 3,200 sq ft lot. A small portion of the property which is 600 sq ft is currently zoned Public Facility, while the remaining 2,600 sq ft is currently zoned Apartment Residential.

All seven properties are currently non-conforming according to use in Public Facility. While some of the properties will still have setback nonconformities even if the zone is changed to Apartment Residential the proposed change of zone would create use conformance for the entirety of all seven properties.

Finding: The change of zone is in conformance with the Comprehensive plan and all other provisions of Chapters 10 to 14 and any applicable street plans. All of the properties are considered legal non-conforming. Permitting the change of zone would create use conformance for the entirety of all seven properties. **This criterion is met.**

B. **Criterion** The property affected by the change of zone is adequate in size and shape to facilitate those uses that are normally allowed in conjunction with such zoning.

Staff Response: The minimum required lot size for Public Facility zones is 5,000 sq ft. The minimum required lot size for Apartment Residential is also 5,000 sq ft. Two of the subject properties are larger than 5,000 sq ft, which is larger than the minimum lot size required for new Apartment Residential lots. The other five subject properties do not meet the current minimum lot size requirements, but they do meet lot coverage requirements for Apartment Residential.

Finding: The property affected by the change of zone is adequate in size and shape to facilitate the uses normally allowed in conjunction with the proposed zoning. **This criterion is met.**

C. **Criterion** The property affected by the proposed change of zone is properly related to streets to adequately serve the type of traffic generated by such uses that may be permitted therein.

Staff Response: The properties are bordered by the street right-of-ways for North 9th Street and High Street. The Klamath Falls Urban Area Transportation System Plan (TSP) identifies North 9th Street as a major collector and High Street as a local street. These two streets are fully improved.

Finding: The properties affected by the proposed zone change appear to be properly related to streets that adequately serve the type of traffic generated by the uses permitted in the Apartment Residential zone. **This criterion is met.**

D. **Criterion** The proposed change of zone will have no adverse effect on abutting property or the permitted uses thereof.

Staff Response: Only two neighboring property owners contacted City staff by phone regarding the proposed change of zone. Neither of the adjacent property owners expressed concern with the proposed change of zone. Staff has not received any written comments from neighboring property owners regarding the proposed change of zone. Any future use of the subject property will require a review by City Planning. Future reviews will insure that the site is developed appropriately for the proposed use and any potential adverse effect on abutting properties will be diminished.

Finding: The proposed change of zone will have no adverse effect on abutting property or the permitted uses thereof. **This criterion is met.**
