I, _____________________, Recorder (Deputy Recorder) for the City of Klamath Falls, Oregon, do hereby certify that the foregoing is a true and correct copy of an Ordinance duly adopted by the Council of the City of Klamath Falls, Oregon at the meeting on the 16th day of August, 2010 and therefore approved and signed by the Mayor and attested by the City Recorder.

City Recorder (Deputy Recorder)
Exhibit B
FINDINGS

11.415 Required Findings. Prior to making a recommendation on the proposed change of zone, the Commission shall analyze the following criteria and incorporate such analysis in their decision:

A. Criterion The change of zone is in conformance with the Comprehensive Plan and all other provisions of Chapters 10 to 14 and any applicable street plans.

Staff Response: The following Comprehensive Plan Policies relate to the proposed zone change:

Policy 164: The City will make land use decisions that minimize distance to goods and services.

Policy 244: In-filling of developable lands will be encouraged to minimize sprawl and take advantage of existing facilities and services.

The proposed zone change will cause the zoning of the subject properties to more closely match the existing uses of the properties. Re-zoning the properties from Medium Density Residential to Neighborhood Commercial will create use conformance for Mi Nuevo Nayarit and Collier’s Cleaners. The zone change would also allow for future commercial development of the property that is not allowed without use conformance, thus supporting Comprehensive Plan Policy 244.

The first City of Klamath Falls Zoning Ordinance #5095, was adopted on November 2nd, 1959. Structures built before 1959 are more likely than structures built after 1959 to have current coverage or setback nonconformities. While two of the three properties have no identified year built, it is safe to assume they were all built prior to 1959. Below is a property breakdown:

314 East Main Street: There is no information on year built for the Mi Nuevo Nayarit building. Klamath County Building Department files show no building permit on file and the City of Klamath Falls Planning Division address files have no residential review permit on file. Staff calculates that the commercial structure covers approximately 3,171 sq ft of the approximately 3,171 sq ft lot. A portion of the property (portion of lot 26) which is approximately 986 sq ft is zoned MD.

316 East Main Street: House built in 1930. Klamath County Building Department files show no building permit on file and the house predates residential review permit requirements. According to assessor information the house covers approximately 994 sq ft of the approximately 5,400 sq ft lot. A portion of the property (portions of lots 26 and 25) which is approximately 2,641 sq ft is zoned MD.

318 East Main Street: There is no information on year built for the Colliers Cleaners building. Klamath County Building Department files show no building permit on file and the City of Klamath Falls Planning Division address files have no residential review permit on file. According to assessor information the commercial structure covers approximately 1,631 sq ft of the approximately 4,918 sq ft lot. A portion of the property (portions of lots 26 and 25) which is approximately 3,721 sq ft is zoned MD.

Two of the three properties are currently non-conforming according to use in Medium Density Residential. While some of the properties will still have setback and lot coverage nonconformities even if the zone is changed to Neighborhood Commercial, the proposed change of zone would create use conformance for all properties involved.

Proposed Finding: The change of zone is in conformance with the Comprehensive plan and all other provisions of Chapters 10 to 14 and any applicable street plans. All of the properties are considered legal non-conforming. Permitting the change of zone would create use conformance for the entirety of all three properties. This criterion is met.
B. **Criterion**: The property affected by the change of zone is adequate in size and shape to facilitate those uses that are normally allowed in conjunction with such zoning.

**Staff Response**: The minimum required lot size for Medium Density Residential zones is 5,000 sq ft. The minimum required lot size for Neighborhood Commercial is also 5,000 sq ft. Based on staff approximations, 316 East Main Street is larger than 5,000 sq ft, and 318 East Main Street is only approximately 82 sq ft smaller than 5,000 sq ft. The other property, being 314 East Main Street is approximately 3,171 sq ft which is smaller than 5,000 sq ft; however, the property is entirely covered with a structure that has a permitted retail business. The existing business, Mi Nuevo Nayarit, uses an adjacent property (308 East Main Street) for off-street parking and adjacent streets for on-street parking. While some setback requirements are not met for all three properties, and lot coverage is not met for 314 East Main Street, all three properties are legal non-conforming properties.

**Proposed Finding**: The properties affected by the change of zone are adequate in size and shape to facilitate the uses normally allowed in conjunction with the proposed zoning. **This criterion is met.**

C. **Criterion**: The property affected by the proposed change of zone is properly related to streets to adequately serve the type of traffic generated by such uses that may be permitted therein.

**Staff Response**: The properties are bordered by the street right-of-ways for Richmond Street and Owens Street. The Klamath Falls Urban Area Transportation System Plan (TSP) identifies Richmond Street and Owens Street as local streets. These two streets are fully improved, but Richmond Street only has sidewalks on the west side of the right-of-way as it is only 40 feet wide.

**Proposed Finding**: The properties affected by the proposed zone change appear to be properly related to streets that adequately serve the type of traffic generated by the uses permitted in the Neighborhood Commercial zone. **This criterion is met.**

D. **Criterion**: The proposed change of zone will have no adverse effect on abutting property or the permitted uses thereof.

**Staff Response**: Staff has not received any written or verbal comments from neighboring property owners regarding the proposed change of zone. Any future use of the subject property will require a review by City Planning. Future reviews will insure that the sites are developed appropriately for the proposed use and any potential adverse effect on abutting properties will be diminished.

**Proposed Finding**: The proposed change of zone will have no adverse effect on abutting property or the permitted uses thereof. **This criterion is met.**
