Summarize the adopted amendment. Do not use technical terms. Do not write "See Attached".

The applicant, James Chambers, proposes to rezone 11,761 sq ft of land from Public Facility (PF) to Neighborhood Commercial (NC). The proposed zone change would eliminate the non-conforming residential use on the property and make the zone more closely match the existing use. The applicant wants to build a deck on the west side of the existing house if the change of zone is approved.

Does the Adoption differ from proposal? NO

Subject Property

Ordinance No. 10-09, Page 3
11.415 Required Findings. Prior to making a recommendation on the proposed change of zone, the Commission shall analyze the following criteria and incorporate such analysis in their decision:

A. **Criterion** The change of zone is in conformance with the Comprehensive Plan and all other provisions of Chapters 10 to 14 and any applicable street plans.

**Staff Response:** The following Comprehensive Plan Policies relate to the proposed zone change:

Policy 224: Public facility capacity and expansion scheduling will be a key factor in land use planning.

The proposed zone change will cause the zoning of the subject property to more closely match the existing uses of the property. Re-zoning the property from Public Facility to Neighborhood Commercial will remove property that would otherwise be reserved for public facility related uses, thus supporting Comprehensive Plan Policy 224.

The house at 950 Front Street was built in 1976. The structures are setback 32’ from the front yard, 17’ from the west side yard, 23’ from the east side yard, and 9’ from the rear yard. All setbacks meet Neighborhood Commercial standards. The rear yard setback does not meet Public Facility standards of 10’ rear yard setback. The house has a footprint of approximately 1,104 square feet (second story 1,104 square feet), the attached garage is 483 square feet, and the two existing decks are 606 square feet. An additional deck that is 186 square feet is approved for installation. With the addition of the new deck, the structures cover approximately 2,379 sq ft or 20% of the 11,761 sq ft lot.

The property is currently non-conforming according to use in Public Facility and does not meet the rear yard setback requirement of 10 feet. If the zone is changed to Neighborhood Commercial the subject property would meet all setback standards and have use conformance.

**Proposed Finding:** The change of zone is in conformance with the Comprehensive plan and all other provisions of Chapters 10 to 14 and any applicable street plans. The subject property is considered legal non-conforming. Permitting the change of zone would create use conformance for the subject property. **This criterion is met.**

B. **Criterion** The property affected by the change of zone is adequate in size and shape to facilitate those uses that are normally allowed in conjunction with such zoning.

**Staff Response:** The minimum required lot size for Public Facility zones is 5,000 sq ft. The minimum required lot size for Neighborhood Commercial is also 5,000 sq ft. The subject property is 11,761 sq ft which is larger than 5,000 sq ft, which is larger than the minimum lot size required for new Neighborhood Commercial lots.

**Proposed Finding:** The property affected by the change of zone is adequate in size and shape to facilitate the uses normally allowed in conjunction with the proposed zoning. **This criterion is met.**

C. **Criterion** The property affected by the proposed change of zone is properly related to streets to adequately serve the type of traffic generated by such uses that may be permitted therein.

**Staff Response:** The properties are bordered by the street right-of-way for Front Street. The Klamath Falls Urban Area Transportation System Plan (TSP) identifies Front Street as a minor collector street. Front Street is improved, but does not have sidewalks.
Proposed Finding: The properties affected by the proposed zone change appear to be properly related to streets that adequately serve the type of traffic generated by the uses permitted in the Neighborhood Commercial zone. **This criterion is met.**

D. **Criterion** The proposed change of zone will have **no adverse effect on abutting property or the permitted uses thereof.**

**Staff Response:** Staff has not received any written or verbal comments from neighboring property owners regarding the proposed change of zone. Any future use of the subject property will require a review by City Planning. Future reviews will insure that the site is developed appropriately for the proposed use and any potential adverse effect on abutting properties will be diminished.

Proposed Finding: The proposed change of zone will have **no adverse effect on abutting property or the permitted uses thereof.** **This criterion is met.**
