Updated December 22, 2009
ORDINANCE NO. 4924

An Ordinance adopting certain Federal Emergency Management Agency (FEMA) studies and maps as part of the McMinnville Comprehensive Plan; amending the McMinnville Comprehensive Plan and Zoning maps as necessary to incorporate updates to 100-year flood information; amending Chapter 17.48 (F-P Flood Area Zone) of the McMinnville Zoning Ordinance as necessary to satisfy federal floodplain management requirements and remain eligible in the National Flood Insurance Program; and declaring an emergency.

RECITALS

In 2007, the Federal Emergency Management Agency (FEMA) advised the City of McMinnville that they intended to review the 1982 Flood Insurance Rate Maps (FIRM) that cover lands within the City and provide updated maps for our use in administering the National Flood Insurance Program (NFIP). In summary, these maps provide the location and elevation of the floodplains and floodways associated with the various waterways within our jurisdiction. Staff uses this information to advise residents, lending institutions, and other interested parties of the floodplain's location and to ensure that development within this area is consistent with the City's F-P Flood Area zone requirements.

On March 2, 2010, the Federal Emergency Management Agency (FEMA) will begin using the updated Flood Insurance Rate Maps (FIRMs) and corresponding Flood Insurance Study (FIS) for Yamhill County. To maintain eligibility for participation in the NFIP, McMinnville must adopt the updated FIRMs and FIS by March 2, 2010, and reflect these boundary adjustments on both the Comprehensive Plan map and Zoning map. Also by this date, the City must amend its zoning ordinance consistent with new Federal floodplain code requirements if it wishes to continue to participate in the NFIP.

Staff has been working with FEMA since 2007 to help them update their flood maps in preparation for the March 2, 2010 date. This has involved providing FEMA with the City's elevation data, annexation and road map information, and several site-specific data sets. In April 2009, FEMA released their draft FIS and FIRM updates for City and public review. In May 2009, FEMA held an explanatory workshop for residents of Yamhill County at which staff was in attendance as well as an additional workshop for staff. The public voiced no concerns at that time. The official maps have been on file and available for public review at the Planning office since mid November 2009. During that time, there have been no inquiries from the public regarding the proposed amendments.

Based upon the NFIP Coordinator for Oregon's review of McMinnville's ordinance, certain amendments are necessary in order to bring the City's floodplain into compliance with these federal rules, and to maintain our eligibility in the flood insurance program. Consistent with this directive, City staff prepared amendments to Chapter 17.48 (F-P Flood Area Zone) of the McMinnville zoning ordinance and presented them to the McMinnville Planning Commission at a public hearing held on January 21, 2010. Notice of this hearing was provided in the local newspaper on January 13, 2010.

At said public hearing, after studying the draft amendments, and providing opportunity for public testimony, the Planning Commission voted unanimously to recommend to the City Council that Chapter 17.48 of the McMinnville Zoning Ordinance be amended as recommended by staff. In addition, the Commission recommended that FEMA's March 2, 2009 FIS and FIRM be adopted, thereby supplanting the existing floodplain boundary within McMinnville and
amending the McMinnville Comprehensive Plan Map and McMinnville Zoning Map accordingly.

The City of McMinnville's continuing participation in the National Flood Insurance Program is contingent upon the adoption of these changes. Now therefore;

THE CITY OF McMinnVILLE ORDAINS AS FOLLOWS:

Section 1. That the Federal Insurance Administration report entitled "The Flood Insurance Study (FIS) for Yamhill County, Oregon and Incorporated Areas" and accompanying Flood Insurance Rate Maps (FIRM), effective date March 2, 2010, are adopted.

Section 2. That the McMinnville Comprehensive Plan Map specific to "Floodplain" designated lands is amended as necessary to reflect the location of "Special Flood Hazard Areas" (100-year flood) as identified by the Federal Insurance Administration in the report entitled "The Flood Insurance Study (FIS) for Yamhill County, Oregon and Incorporated Areas" and accompanying Flood Insurance Rate Maps (FIRM) (effective date March 2, 2010).

Section 3. That the McMinnville Zoning Map specific to "Flood Area (F-P) zoned lands is amended as necessary to reflect the location of "Special Flood Hazard Areas" (100-year flood) as identified by the Federal Insurance Administration in the report entitled "The Flood Insurance Study (FIS) for Yamhill County, Oregon and Incorporated Areas" and accompanying Flood Insurance Rate Maps (FIRM) (effective date March 2, 2010).

Section 4. That Chapter 17.48 F-P Flood Area Zone) of the McMinnville Zoning Ordinance (No. 3380) is amended as follows (deletions; additions):

A. That section 17.48.010 is amended to read as follows:

17.48.010 Established—Area included. In accordance with Section 17.09.010, all property within the corporate limits of the City lying within Special Flood Hazard Areas (100-year flood) identified by the Federal Insurance Administration in the report entitled "The Flood Insurance Study for Yamhill County, Oregon and Incorporated Areas," (effective date March 2, 2010), and accompanying Flood Insurance Rate Maps (FIRM) at or below the 100-year flood level as established by the Federal Emergency Management Agency for the National Flood Insurance program is declared to be flood area zone property and subject to the requirements of this Chapter. (Ord. 4128 (part), 1981; Ord. 3380 (part), 1968).

B. That Section 17.48.025 (B) is amended to read as follows:

"B. "Floodway" – The floodway is the channel of the river or watercourse stream—plus any adjacent floodplain areas that must be kept free from encroachment in order that the 100-year flood may be carried without substantial increases in flood heights without increasing the water surface elevation more than one foot;"

C. That Section 17.48.040 is amended to read as follows:

That Section 17.48.040 (D) is amended as follows:

"D. Landfill or diked land, including culvert and bridge installations,
subject to the following procedures:

That Section 17.48.040 (D) is amended by adding the following new text; subsections that follow are renumbered accordingly:

"2. The City shall provide written notice to the City Recorder's office in adjacent communities, Yamhill County, and the Oregon Department of Land Conservation and Development prior to any alteration or relocation of a watercourse (i.e. stream channel), and shall submit a copy of that notification to the Federal Insurance Administration."

The renumbered Section 17.48.040 (D)(3) is amended as follows:

"3. The Planning Department shall prescribe the form and information required for applications made for any fill-or-dike-conditional use listed in this subsection."

D. That Section 17.48.060 is amended to read as follows:

Section 17.48.060 (B) is deleted in its entirety; subsections that follow are renumbered accordingly:

B. The first-floor elevation of any structure for the shelter of humans shall be situated at least three feet above the established water crest elevation for a flood with a probability rate of one percent;

The renumbered Section 17.48.060 (C) is amended to read as follows:

"C. Within the floodway and flood fringe, no encroachment will be allowed which causes any increase in the flood height or which would result in hazardous velocities (see floodway schematic). To demonstrate compliance with this requirement, the applicant shall submit an engineering certification stating the proposed development will not impact the pre-project base floodway and flood fringe elevations. The certification shall be signed and sealed by a professional engineer and be supported by the appropriate technical data and studies, which are typically based upon the standard step-backwater computer model utilized to develop the 100-year floodway and flood fringe shown on the appropriate Federal Insurance Rate Map (FIRM) and tabulated in the adopted Flood Insurance Study. (Ord. 4684 §3, 1998; Ord. 4128 (part), 1981; Ord. 3380 (part), 1968)."

E. That a new Section 17.48.070 is added to read as follows:

"17.48.070 Use of other base flood data. When base flood elevation data has not been provided (FIRM zones A), the applicant shall provide alternative base flood elevation as available from a Federal, State, or other source in order to comply with this chapter."

Section 5. It is imperative to the public welfare that the City maintain its eligibility to participate in NFIP. In order to do so, this ordinance must become effective March 2, 2010. Therefore, an emergency is hereby declared to exist and this ordinance shall be in full force and effect on March 2, 2010.
