INTERNATIONAL SOCIETY FOR THE STUDY OF MULTIPLE PERSONALITY & DISSOCIATION

The International Society for the Study of Multiple Personality and Dissociation invites you to join us as we define and improve our understanding of the field of dissociation, including multiple personality/dissociative states research, diagnosis and treatment.

ISSMP&D brings together professionals dedicated to the search for answers to improve the quality of life for all patients with multiple personality disorder and other dissociative states.

Membership includes:

- Information about national and international conferences.
- ISSMP&D newsletter, published bimonthly
- *DISSOCIATION: Progress in the Dissociative Disorders*, the official journal of the ISSMP&D, published quarterly.
- Consultation regarding the formation of component groups.
- ISSMP&D membership directory.
- Comprehensive bibliographies and reference lists.

Together we can and do make a difference!

Should you have any questions regarding membership in ISSMP&D please contact the national office at (708) 966-4322.

INSTRUCTIONS FOR CONTRIBUTORS TO *DISSOCIATION: PROGRESS IN THE DISSOCIATIVE DISORDERS*

DISSOCIATION has established guidelines consistent with the *Publication Manual of the American Psychological Association*, Third Edition, 1983. For more refined questions of usage and grammar, *DISSOCIATION* relies upon *The Chicago Manual of Style*, Thirteenth Edition, 1982.

Please submit four complete and clearly legible double-spaced printouts of the entire manuscript. If the manuscript is accepted for publication, it must then be submitted on an IBM-compatible 3.5" or Apple Macintosh 3.5" computer diskette.

The title page, abstract, reference list, footnotes, tables and figures must be clearly labeled and on separate pages. Please do not place author identifications anywhere besides the title page. Last minute copy corrections need to be made with a "non-repro" blue pen or pencil. Leave a SINGLE space after end-of-sentence periods. Mail disks and hard copy manuscripts to: **Richard P. Kluff, M.D., 111 N. 49th Street, Philadelphia, PA 19139.**

All authors must sign a letter assigning the copyright ownership of the article to DISSOCIATION DISORDERS RESEARCH PUBLICATIONS, LIMITED, contingent upon its acceptance.

The following guidelines apply to all submissions:

1. The title page should include the title of the article, the name(s) of the author(s), degree(s) of author(s), the academic or institution affiliation of the author(s), a running head (or abbreviated title), and the name and address for reprints. Authors without academic or institution affiliations should list instead the city and state in which they practice.
2. The abstract should be a brief summary of the article. It should be accurate, succinct, quickly comprehensible, and informative. It must not exceed 150 words. It should be formatted in italic.
3. The text should introduce the article's purpose and include a brief review of the relevant literature, describe its methods and subjects, indicate its results, and offer a discussion in which its conclusions are stated. An author who would like to submit an article (other than a case study) that differs considerably from this structure should contact the Editor-in-Chief to discuss the proposed submission. The text may require several levels of headings. Main heads should be typed in all caps, formatted in bold face (e.g., **THE NEUROPSYCHOPHYSIOLOGY OF DISSOCIATION.**) The second level should be typed in upper/lower case formatted in bold face (e.g., ***The Neuropsychophysiology of Dissociation.***) For more complex sub-heading formats, consult the *Publication Manual of the American Psychological Association*.
4. References within the text should be made in the author-date format. Use the names of either one or two authors on each occasion. When there are more than two authors, use all in the first citations, and the surname of the first author followed by "et al." subsequently. When there are six or more authors, use the surname of the first author followed by "et al." on all occasions. For citations in parentheses, use an ampersand (&) before the name of the last author listed. All quotations cited must include page numbers.
5. References within the reference list are restricted to those cited in the text. They should be listed in alphabetical order on a separate page, headed REFERENCES. The authors' names are given surname first, followed by initials. Place an ampersand (&) before the last author's name. The names are followed by the publication date in parentheses, followed by a period. The title is italicized (underlined, if italics unavailable), then volume and issue number, if relevant, follow in roman text. And finally, list the page numbers. Use "pp." before the page numbers of publications other than scientific journal articles.
6. Sample references: (If italics is unavailable, you may underline in submitted manuscripts.)
