Summarize the adopted amendment. Do not use technical terms. Do not write “See Attached”.

Amend Tualatin Development Code (TDC) 2.060 to change the Tualatin Planning Advisory Committee (TPAC) by reducing the number of positions from 9 to 7 and easing term limits.

TPAC presently has 7 members and hasn’t attracted more; TPAC exists in place of a planning commission and serves to meet Statewide Planning Goal 1. The amendment follows TPAC and City Council direction. Because the TDC incorporates the Tualatin comp plan, this change is processed as a plan text amendment (PTA).

PTA-11-06 ATTACHMENT B:
ANALYSIS AND FINDINGS

The approval criteria of the Tualatin Development Code (TDC), Section 1.032, must be met if the proposed PTA is to be granted. The plan amendment criteria are addressed below:

1. Granteing the amendment is in the public interest.

Tualatin Development Code (TDC) 2.050, part of the City's comprehensive plan, designates the (Tualatin Planning Advisory Committee) TPAC as a citizen body responsible for fulfilling Goal 1 "Citizen Involvement."

The purpose of the amendment is to acknowledge a realistic number of potential TPAC members among the general public who are willing to attend meetings following Council appointment, to retain these members. The action is to decrease the number of positions from nine (9) to seven (7). (Of the 9 present positions, 7 are filled.) This action increases the ability of TPAC to conduct business regularly, a condition that is in and better serves the public interest. A second action is to remove the limit that a member may serve no more than two consecutive terms and allow the term of office to reside with Council's discretion. The City Council ultimately has the authority to approve new members and end the term of existing members as per the Tualatin Municipal Code Section 11-1-020(3).

Granting the amendment is in the public interest. Criterion "A" is met.

2. The public interest is best protected by granting the amendment at this time.

As examined for Criterion A, the purpose of the amendment is to acknowledge a realistic number of potential TPAC members among the general public who are willing to attend meetings following Council appointment, to retain these members. The action is to decrease the number of positions from nine (9) to seven (7). (Of the 9 present positions, 7 are filled.) This action increases the ability of TPAC to conduct business regularly.

A second action is to remove the limit that a member may serve no more than two consecutive terms. The City Council ultimately has the authority to approve new members and end the term of existing members. Eliminating term limits assists the Planning Advisory Committee with the ability to retain full membership, while keeping the ability to approve and remove members at Council discretion. In the past, members who are citizen volunteers and have shown great interest in land use issues affecting the community were forced to step down due to the current limit of terms that is three (3) years. This is a disservice to our community when there are
citizens who are interested in participating in decision making about the future of the City but are unable to participate. The public interest is in fact better protected through removal of the limit that a member may serve no more than two consecutive terms.

In 2010, primarily because of vacant positions TPAC failed to attain quorum for four meetings, including two consecutive meetings, delaying action items. The committee has attracted and retained seven (7) members though having nine (9) positions. These conditions make the amendment timely.

Granting the amendment at this time best protects the public interest.

3. The proposed amendment is in conformity with the applicable objectives of the Tualatin Community Plan.

In 1976 Tualatin Development Code (TDC) 2.050 designated TPAC as a citizen body responsible for fulfilling Goal 1 “Citizen Involvement.” The amendment does not interfere with the Plan objective of TPAC fulfilling Goal 1.

The proposed amendment conforms with the objectives of the Tualatin Community Plan. Criterion “C” is met.

4. The following factors were consciously considered:

   The various characteristics of the areas in the City.

   The factor is not relevant to the proposed amendment because it does not affect any planning district designation or related regulation.

   The suitability of the areas for particular land uses and improvements in the areas.

   The factor is not relevant to the proposed amendment because it does not affect any planning district designation or related regulation.

   Trends in land improvement and development.

   The factor is not relevant to the proposed amendment because it does not relate to trends in land improvement and development.

   The needs of economic enterprises and the future development of the area.

   The factor is not relevant to the proposed amendment because it does not relate to the needs of economic enterprises and the future development of the area.
Needed right-of-way and access for and to particular sites in the area.

The factor is not relevant to the proposed amendment because it does not relate to needed right-of-way and access for and to particular sites in the area.

Natural resources of the City and the protection and conservation of said resources.

The factor is not relevant to the proposed amendment because it does not relate to natural resources of the City and the protection and conservation of said resources.

Prospective requirements for the development of natural resources in the City.

The consideration of the previous factor applies here also.

And the public need for healthful, safe, aesthetic surroundings and conditions.

The factor is not relevant to the proposed amendment because it does not relate to the public need for healthful, safe, aesthetic surroundings and conditions.

Proof of change in a neighborhood or area

Neither the applicant nor staff assert proof of change in a neighborhood or area.

Mistake in the Plan Text or Plan Map.

Neither the applicant nor staff assert a mistake in the Plan Text or Plan Map.

5. The criteria in the Tigard-Tualatin School District Facility Plan for school facility capacity have been considered when evaluating applications for a comprehensive plan amendment or for a residential land use regulation amendment.

Because the amendment does not relate to residential use, the criterion is not applicable.

6. Granting the amendment is consistent with the applicable State of Oregon Planning Goals and applicable Oregon Administrative Rules.

Of the 19 statewide planning goals, the applicable one is Goal 1 “Citizen Involvement.”

The purpose of the amendment is to acknowledge a realistic number of potential TPAC members among the general public who are willing to attend meetings
following Council appointment, to retain these members, and allow TPAC a realistic quorum. Additionally, the purpose of the amendment is to remove the limit that a member may serve no more than two consecutive terms and change the terms of office to reside with Council's discretion. This action allows citizen volunteers the opportunity to continue serving the community as long as they and the City Council are willing.

The amendment does not interfere with the City Council designation of TPAC in Tualatin Development Code (TDC) 2.050 as a citizen body responsible for fulfilling Goal 1. The criterion is met.

7. Granting the amendment is consistent with the Metropolitan Service District's Urban Growth Management Functional Plan.

The Urban Growth Management Functional Plan (UGMFP), codified in Metro Code 3.07, neither precludes the amendment nor regulates how a local government constitutes its planning commission or equivalent. The criterion is met.

8. Granting the amendment is consistent with Level of Service F for the p.m. peak hour and E for the one-half hour before and after the p.m. peak hour for the Town Center 2040 Design Type (TDC Map 9-4), and E/E for the rest of the 2040 Design Types in the City's planning area.

Because the amendment does not relate to vehicle trip generation at a land use level, the criterion is not applicable.
