ORDINANCE 12-O-696

IN THE MATTER OF ORDINANCE 12-O-696, AN ORDINANCE AMENDING BROOKINGS MUNICIPAL CODE SECTION 17.170.100(E), REVERSE FRONTAGE, OF THE LAND DEVELOPMENT CODE.

Sections:

Section 1. Ordinance identified.
Section 2. Amending Section 17.170.100(E)

The City of Brookings ordains as follows:

Section 1. Ordinance Identified. This ordinance amends Brookings Municipal Code Section 17.170.100(E), Reverse Frontage, of the Land Development Code.

Section 2. Amends Section 17.170.100(E). Section 17.170.100(E) is amended to read as follows:

The City of Brookings Ordains as follows:

17.170.100(E) Reverse Frontage.

1. Residentally zoned lots that front on more than one street shall be required to locate motor vehicle accesses on the street with the lower functional classification, or lower average daily traffic, if both facilities have the same functional classification. Where safety or other concerns exist, the city will have final authority to permit appropriate access.

2. When a residential subdivision is proposed that would abut an arterial, it shall be designed to provide through lots along the arterial with access from a frontage road or interior local road, unless otherwise constrained by topography. Access rights of these lots to the arterial shall be dedicated to the city and shown on the recorded plat. A berm or buffer yard may be required at the rear of through lots to buffer residences from traffic on the arterial. The berm or buffer yard shall not be located within the public right-of-way.

Recommended Motion: Motion approving revisions as proposed for Section 17.170.100(E), Access Management, Reverse Frontage, Brookings Municipal Code (BMC).

Financial Impact: N/A.

Background/Discussion: Lots that front on more than one street (reverse frontage) are required by current Code language to take access from the street with the lower functional classification, or lower average daily traffic. Numerous lots in the downtown core area have reverse frontage. The downtown core is zoned Commercial and this limitation does not work well with development there. This restriction is appropriate in residential neighborhoods. A Code revision which states that “Residentially zoned lots” have this restriction, will clarify this. The Site Plan Committee reviewed this and supports this revision.

The draft language proposed is as follows:

17.170.100 Access Management.

E. Reverse Frontage.

1. Residentially zoned lots that front on more than one street shall be required to locate motor vehicle accesses on the street with the lower functional classification, or lower average daily traffic, if both facilities have the same functional classification. Where safety or other concerns exist, the city will have final authority to permit appropriate access.

2. When a residential subdivision is proposed that would abut an arterial, it shall be designed to provide through lots along the arterial with access from a frontage road or interior local road, unless otherwise constrained by topography. Access rights of these lots to the arterial shall be dedicated to the city and recorded with the deed. A berm or buffer yard may be required at the rear of through lots to buffer residences from traffic on the arterial. The berm or buffer yard shall not be located within the public right-of-way.

The Planning Commission reviewed this Code revision and recommended approval.

We've drafted a fix for the access issue we discussed in Site Plan:

17.170.100 Access Management
E. Reverse Frontage
   1. Residentially zoned lots that front on more than one street shall be required to locate motor vehicle
      accesses on the street with the lower functional classification or lower average daily traffic, if both
      facilities have the same functional classification. Where safety concerns exist, the City will have final
      authority to permit appropriate access.

To put this on April's agenda the Notice needs to go to the paper today, so if it looks good to you please let us
know and we'll move forward. Thanks
