The design and placement on the site of buildings and other structural improvements shall provide compatibility in size, scale, and intensity of use between the proposed development and similar development on neighboring properties. The location, appearance and size of the proposed buildings shall be designed to properly serve anticipated users of the proposed improvements.

F. Provision of landscaping of the site including the planting of trees, street trees, shrubs and groundcovers so that the landscaping presents an attractive interface with adjacent land use and development and does not create any potential flood hazard.

G. Provision of visual or physical barriers around the property including the provision of site obscuring fencing or vegetative screening between a commercial and/or public use and adjacent residential properties.

H. Lighting sufficient to satisfy the intended use of the property but designed in such a manner as to not present an adverse impact (as measured by excessive brightness or glare) upon adjacent land uses or traffic movements.

I. The use is in compliance with the other development standards which are specified by Scio Zoning Code or public works design and construction specifications.

12.030 Conditions.

The planning commission, in granting approval, reserves the right to place additional conditions that are consistent with the intent and purpose of this title. These may include, but are not limited to buffers or screening, landscaping, location and design of parking areas, number of access points, security gates and fencing.

12.040 Time Limit on Approved Site Plan.

Approval of a site plan shall be void one year after the date of the Notice of Decision unless a building permit has been issued and substantial construction pursuant thereto has taken place. However, upon written request, the planning commission has the authority to grant an additional period, not to exceed one year, to complete the project.

12.050 Notice of Decision.

Notice of the planning commission decision to approve or deny an application shall be mailed to the applicant within seven (7) days of the decision.

12.060 Appeals.

The decision of the Planning Commission may be appealed to the city council as outlined in Section 11.010 of this ordinance.
