INTERNATIONAL SOCIETY FOR THE STUDY OF MULTIPLE PERSONALITY & DISSOCIATION

The International Society for the Study of Multiple Personality and Dissociation invites you to join us as we define and improve our understanding of the field of dissociation, including multiple personality/dissociative states research, diagnosis and treatment.

ISSMP&D brings together professionals dedicated to the search for answers to improve the quality of life for all patients with multiple personality disorder and other dissociative states.

Together we can and do make a difference!

Should you have any questions regarding membership in ISSMP&D please contact the national office at (708) 966-4322.

Vol. III, No. 3: September 1990

Application for Membership

Name and Title _____

Academic Degrees _____

Address _____

City/State/Zip _____

Country _____

Phone (work) _____

Phone (home) _____

Occupation _____

Professional Speciality _____

Please check membership category:

☐ Member\$65

☐ Affiliate Member\$25

☐ Associate Member\$55

☐ Student/Retired

☐ Library Subscription\$65

Member\$20

In addition I would like to donate \$_____ to assist ISSMP&D in achieving its goals. I am enclosing my check for \$_____ (total of membership dues plus a donation if you choose).

Membership fee and donation are tax deductible. Send check payable to ISSMP&D and membership application to International Society for the Study of Multiple Personality and Dissociation, 5700 Old Orchard Rd., First Floor, Skokie, IL 60077. (708) 966-4322.

Eastern Regional Conference on *Abuse and Multiple Personality* Training in Treatment

June 20-24, 1991

Radisson Plaza Hotel • Alexandria, Virginia
Barry M. Cohen, M.A., A.T.R., Conference Chairman

Conference Faculty:

Kerry P. Altman, Ph.D., T.E.P.
Eugene R. Boyd, Jr., R.N.C.S., M.S.N.
John Briere, Ph.D.
Ann W. Burgess, D.N.Sc.
Sandra A. Butler, M.A.

Sherry Sutherland, M.A., ADTR
Terri L. Sweig, M.A., A.T.R.
Joan A. Turkus, M.D.
Andrew H. Vachss, Esq.

PROGRAM HIGHLIGHTS

Pre-Conference Courses (full day):

- Introduction to the Diagnosis and Treatment of Multiple Personality Disorder (Ross and Turkus)
- Healing the Hurt Child: An Innovative Approach to Psychotherapy with Children and Adults Traumatized as Children (Donovan and McIntyre)
- Expressive Therapies in the Identification and Treatment of Dissociative Disorders (faculty of eleven specialists representing seven treatment modalities)

Master Classes (half day):

- The Hidden Child Phenomenon: An MPD Variant Among Abuse Survivors (Summit)
- Facilitating the Diagnosis of MPD Through Structured Interviews and Art (Ross, Cohen, and Mills)
- Working with Exacerbated Symptoms During Intensive Psychotherapy (Briere)
- The Management of Abreactions (Kluft)
- Cognitive Therapy for MPD (Fine)
- From Moment to Madness: The Nature of Very Intense Emotion (Nathanson)
- Group Therapy Approaches with Adult Survivors and with Offenders (Sgroi and Sargent)
- Issues in Satanic Cult Ritual Abuse: An Overview (Snowden)

Post-Conference Courses (full day):

- Hypnotic Techniques in the Treatment of MPD (Kluft and Fine)
- Therapeutic Strategies for Adult Survivors: An Interactive Workshop (Calof and Courtois)
- Anatomy and Treatment of Childhood Trauma (Burgess)

Continuing education credit available.

Multiple Personality Disorder: From the Inside Out

Available June 1991, approx. 200 pgs,
paperback, \$14.95

The Sidran Foundation, *Many Voices*, and the Eastern Regional Conference are pleased to introduce a unique collection of first person experiences written by individuals diagnosed with MPD and the people with whom they share their lives. Addressing the complex issues of diagnosis, therapy, and maintaining personal relationships, this accessible and practical book for therapists, clients, and significant others reveals the post-diagnosis journey "from the inside out."

Books may be purchased at the conference.
For more information write or phone:

211 Southway
Baltimore, MD 21218
301/889-2702

INSTRUCTIONS FOR CONTRIBUTORS TO DISSOCIATION: PROGRESS IN THE DISSOCIATIVE DISORDERS

DISSOCIATION has established guidelines consistent with the *Publication Manual of the American Psychological Association, Third Edition, 1983*. For more refined questions of usage and grammar, *DISSOCIATION* relies upon *The Chicago Manual of Style, Thirteenth Edition, 1982*.

Please submit four complete and clearly legible double-spaced typewritten sets of the entire manuscript. If the manuscript is computer-generated, please also submit manuscripts in one of the following manners:

- 1) **Apple Macintosh 3.5" floppy disk.** Compatible word processing programs are *Word* or *MacWrite*. Also include four hard copy sets for reference.
- 2) **IBM MS-DOS floppy disk.** Compatible word processing program is *Word Perfect*. If you use an MS-DOS program other than *Word Perfect*, also save file as an ASCII or text-only file. Also include four hard copy sets for reference.

The title page, abstract, reference list, footnotes, tables, and figures must be clearly labeled and on separate pages. Please do not place author identifications anywhere besides the title page. Last minute copy corrections need to be made with a "non-repro" blue pen or pencil. Leave a single space after end-of-sentence periods. Mail disks and hard copy manuscripts to: **Richard P. Kluft, M.D., 111 N. 49th Street, Philadelphia, PA 19139.**

All authors must sign a letter assigning the copyright ownership of the article to DISSOCIATIVE DISORDERS RESEARCH PUBLICATIONS LIMITED, contingent upon its acceptance.

The following guidelines apply to all submissions.

1. The title page should include the title of the article, the name(s) of the author(s), the academic or institutional affiliation of the author(s), the running head (or abbreviated title), and the name and address for reprints. Authors without academic or institutional affiliations should list instead the city and state in which they practice.
2. The abstract should be a brief summary of the article. It should be accurate, succinct, quickly comprehensible, and informative. It must not exceed 150 words.
3. The text should introduce the article's purpose and include a brief review of the relevant literature, describe its methods and subjects, indicate its results, and offer a discussion in which its conclusions are stated. An author who would like to submit an article (other than a case study) that differs considerably from this structure should contact the Editor-in-Chief to discuss the proposed submission. The text may require several levels of headings. All should be typed in upper and lower case letters (e.g., *The Neuropsychophysiology of Dissociations*). The first level of headings should be centered, but not underlined. The second level should begin at the left margin and be underlined. The third level should be indented from the left margin and underlined. For more complex sub-heading formats, consult the *Publication Manual of the American Psychological Association*.
4. References within the text should be made in the author-date format. Use the names of either one or two authors on each occasion. When there are more than two authors, use all in the first citations, and the surname of the first author followed by "et al." subsequently. When there are six or more authors, use the surname of the first author followed by "et al." on all occasions. For citations in parentheses, use an ampersand (&) before the name of the last author listed. All quotations cited must include page numbers.
5. References within the reference list are restricted to those cited in the text. They should be listed in alphabetical order on a separate page, headed References. The authors' names are given surname first, followed by the initials. Place an ampersand (&) before the last author's name. The names are followed by the publication date in parentheses, followed by a period. The title (and the volume number, when relevant) is italicized (underlined, if italics unavailable), then list the page numbers. Use "pp." before the page numbers of publications other than scientific journal articles.
6. Sample references: (The italicized words should be underlined in submitted manuscripts.)

Book
Ellenberger, H.F. (1970). *The discovery of the unconscious*. New York: Basic Books.

Article
Putnam, F.W. (1984). The study of multiple personality disorder: General strategies and practical considerations, *Psychiatric annals*, 14, 58-61.

Article or chapter in an edited book
