BOARD OF COUNTY COMMISSIONERS
OF DOUGLAS COUNTY, OREGON

Chair

Commissioner

Commissioner
BEFORE THE DOUGLAS COUNTY PLANNING COMMISSION

Kruse Farms, request for Plan Amendment, Zone Change and Conditional Use Permit, Findings of Fact and Decision, Planning Department File No. 06-235.

This matter came on regularly before the Douglas County Planning Commission on October 19, 2006 in Room 216 of the Douglas County Courthouse.

The applicant was present at the hearing.

The Planning Commissioners present at the hearing were: Karen Gibbons, David Jaques, James Mast, Brian Parkinson, Rich Raynor and Ed Stratton.

The Planning Commission takes official notice of the following:

2. The records of the Planning Department of Douglas County concerning publication and mailing of notice.

PROCEDURAL FINDINGS OF FACT

1. At least 20 days prior to the October 19, 2006 Planning Commission hearing scheduled for this matter, notice of the Public Hearing was sent by mail to the applicant, to all property owners within 500 feet of the subject property, to service providers and governmental agencies and to the Callahan Planning Advisory Committee (PAC).

2. Notice of the hearing was given by publication in a newspaper of general circulation in the affected area at least 20 days prior to October, 2006.

3. At the hearing, we recognized the following parties in the matter: Kruse Farms Inc., titleholder; Harry Buckwalter, lessee and Ron Schofield, Schofield & Associates, Applicant’s Representative.

4. Staff entered Staff Exhibits 1 through 11, including the Staff Report, into the Record and gave the oral staff report, stipulating to the Record. Staff then clarified the nature of the mining of the site, stating that the application as submitted did not propose on-site processing. Staff continued by stating that approval of a CUP as part of this application would not be interpreted as authorizing an aggregate processing facility in another part of Douglas County to receive material from the proposed mining site. A Supplemental Staff Report, was entered as Staff Exhibit 12, designed to consolidate Staff’s recommended Conditions 2, 3 and 5 into a single, more effective condition of approval.

5. We heard testimony from the applicant’s representative with regard to staff’s recommended conditions of approval.

6. We considered the potential revisions to the conditions of approval as they were proposed by staff and by the applicant’s representative.
7. Seeing no opposition, we concluded that the application meets the criteria for a Plan Amendment to add a small-scale aggregate site to the Douglas County Mineral Resources Inventory, a Zone Change to apply the Mineral Resources Overlay to the proposed 3+ acre mining site, and a Conditional Use Permit to permit the mining of the site, and we moved to approve the application subject to five conditions as amended in our deliberation.

DECISION

The above-referenced Plan Amendment, Zone Change and Conditional Use Permit on the approximately 3 acre portion of the subject property designated as the mining site has been APPROVED, subject to following conditions:

1. The aggregate removal operation shall operate under active Department of Environmental Quality and Department of Geologic and Mineral Industries permits.

2. Water shall be applied to the peripheral areas of the site and on-site private haul roads, as necessary, to control dust.

3. The aggregate removal operation shall be limited to Monday through Saturday, between the hours of 8:00 a.m. to 5:00 p.m., with no mining activity allowed on Sundays or legal holidays as recognized by Douglas County.

4. The total amount of aggregate material excavated from the 3+ acre site shall not exceed the 500,000 ton limit imposed for a small scale site under OAR 660-023-0180(4).

5. The aggregate mining operation shall be conducted substantially in the manner described in the subject application.

Dated this 16th day of November, 2006.
