Planning Commission Recommendation: Approval
Staff Report Date: September 15, 2006

REPORT PREPARED BY: William A. Holmstrom, AICP, Associate Planner

I. GENERAL INFORMATION:

Request: To change the zoning and comprehensive plan designation on the subject property from Pacific City/Woods Low Density Urban Residential (PCW-R1) to Pacific City/Woods Medium Density Urban Residential with a Planned Development Overlay (PCW-R2/PD).

Location: The subject property is located within the Unincorporated Community of Pacific City/Woods between Cape Kiwanda Drive, Nestucca Boulevard and Ella Street. The lot is designated as Tax Lot 2100 in Section 19CC of Township 4 South, Range 10 West, Willamette Meridian, Tillamook County, Oregon. (Exhibit A).

Current Zone: Pacific City/Woods Low Density Urban Residential (PCW-R1)

Proposed Zone: Pacific City/Woods Medium Density Urban Residential with a Planned Development Overlay (PCW-R2/PD)

Applicant: Howard Goodman, PO Box 880, Pacific City, OR 97135

Property Owner: Goodman Group, LLC, 642 Webster Street, Palo Alto, CA 94301

II. APPLICABLE LAND USE ORDINANCE PROVISIONS:

A. Section 9.020: Map Amendment Procedure and Criteria
B. Section 3.080: Planned Development Overlay Zone (PD)
III. ANALYSIS:

A. Section 9.020: Map Amendment Procedure and Criteria

1. Section 9.020(1): Map Amendment Notice Procedure:

   Findings: Notice of the proposed amendment was mailed to 49 property owners and agencies on July 5, 2006. Notice of the proposal was also placed in the Headlight-Herald. Only one response, from Tillamook County Public Works, has been received to date (Exhibit D).

   Conclusion: Staff concludes this requirement is met.

2. Section 9.020(2): Map Amendment Analysis:

   (a) Size shape and orientation of the subject parcel: The parcel is approximately 0.36 acres in size, and triangular in shape. The site is generally oriented north/south. The parcel boundaries are defined by the three surrounding streets of Cape Kiwanda Drive, Nestucca Boulevard and Ella Street.

   (b) Surrounding Parcel Sizes: Parcelization in the vicinity is urban in nature, with lot sizes generally near 5,000 square feet (Exhibit C).

   (c) Topography, Drainage, Hazards and Other Physical Site Characteristics: The site is generally flat. It is located within the regulatory floodplain in flood zone A6, FIRM panel 4101960315A.

   (d) Parcel Ownership and Current Use: The parcel is vacant.

   (e) Economic and Population Data for the affected area that may be contained in the Comprehensive Plan: The Pacific City Woods Community Plan does not contain detailed Economic or Population data. In general, the economy and population of the Pacific City/Woods area specifically, and the county in general, has been growing.

   (f) Traffic Circulation: The property is surrounded by three public streets: Cape Kiwanda Drive, Nestucca Boulevard and Ella Street. The proposed development is to be accessed from Nestucca Boulevard.

   (g) Zoning History of the subject parcel: The property has been zoned PCW-R1 since the Pacific City/Woods Community Plan of 1999. Prior to 1999, it was zoned Low Density Residential (R-1).

   (h) Compatibility of proposed new zone with the surrounding zoning and land uses: The existing and proposed zones are both residential. The site is surrounded on the north and south by the PCW-R1 zone and to the east and west by the PCW-R2 zone. Both zones are present in the area. The existing development in the area is residential at urban densities.

   (i) Availability and feasibility for development of nearby properties in the proposed zone: Nearby properties in both PCW-R1 and PCW-R2 zones have been developed with residential uses at urban densities.
(j) **Aesthetics:** The proposed zone change should not adversely impact the aesthetics of the area. The property will still be residentially zoned. The height limit of 35 feet will remain unchanged.

(k) **Availability of public facilities and services:** The site is well served by public facilities. Cape Kiwanda Drive, Nestucca Boulevard and Ella Street surround the property. The Pacific City Joint Water/Sewer Authority provides public water and sewer service. The Tillamook People’s Utility District provides electrical service.

(l) **Land use objectives of both the applicable and proposed zoning:** The objectives of each zone are to provide for residential uses. The proposed PCW-R2 zone allows for a greater range of residential building types with higher allowed density.

3. **Section 9.020(3): Map Amendment Criteria:**

(a) **The proposed new zone is consistent with applicable Comprehensive Plan policies.**

**Findings:** The Pacific City/Woods Community Plan contains several relevant policies:
- Policy 2.2 prohibits growth of the Unincorporated Community Boundary due to the availability of land within the boundary. This proposal allows several more housing units to be placed on the subject parcel. This leaves other parcels open longer, delaying the need to reopen the community boundary.
- Policy 5.1 encourages diversity in housing. The proposed development of townhomes will add diversity to the housing stock in the immediate vicinity.

**Conclusion:** Staff concludes this criterion is met.

(b) **The proposed new zone shall not result in the conversion of resource lands to non-resource use without an approved exception to applicable state resource protection goals.**

**Findings:** Both the existing and proposed zones are residential. The site is located within the Urban Unincorporated Community of Pacific City/Woods. The site is surrounded by urbanized, developed areas. Denser development within the existing boundary delays the need to extend the community boundary into resource lands.

**Conclusion:** Staff concludes this criterion is met.

(c) **The site under consideration is better suited to the purposes of the proposed zone than it is to the purposes of the existing zone.**

**Findings:** The site is approximately 0.37 acres in size, larger in size than many neighboring parcels (Exhibit C). It also is surrounded by three streets. The existing zone would not permit the development of the proposed Master Plan. The existing neighborhood has a variety of housing stock. The PCW-R2 zone currently exists directly to the west of the property.

**Conclusion:** Staff concludes this criterion is met.
(d) Development anticipated to result from the proposed zone shall not impair the actual or the legally designated uses of surrounding properties.

Findings: The proposed development is residential in nature (Exhibit C). Surrounding zones and development are also residential.

Conclusion: Staff concludes that this proposed zone change will not impair the actual or legally designated uses of adjacent properties. This criterion is met.

B. Section 3.080: Planned Development Overlay Zone (PD)

1. Section 3.080(4) Establishing a New Planned Development Overlay Zone

Findings: This section requires the applicant to submit a conceptual development plan including a scale drawing of the entire site showing proposed land uses, road ways, pedestrian ways, drainage patterns, common areas, recreation facilities, natural features, residential lots and the approximate location of structures other than single family residences. The applicant has submitted a plan meeting these requirements (Exhibits B & C). This plan has been approved by the Tillamook County Planning Commission pending a successful Zone Change.

Conclusion: Staff concludes this requirement is met, or can be met through the application of a Master Plan.

IV. CONCLUSIONS AND RECOMMENDATION:

Staff concludes that all the zone change criteria have been met for this request and based on the findings of fact and other relevant information contained within this report.

On July 27, 2006, the Tillamook County Planning Commission held a public hearing on this matter. The Planning Commission chose to recommend approval of Zone Change and Comprehensive Plan Amendment ZC-06-02 to the Board of County Commissioners.
