I. BACKGROUND

On January 24, 2011, Wilma Devries submitted to Clatsop County Transportation and Development Services an application for a zoning map amendment for 1.2-acres of land located adjacent to Westport Ferry Road in the rural community of Westport. (See maps below). The application was deemed complete on January 24, 2011. Clatsop County issued the required 45-day notice to the Department of Land
Conservation and Development on February 9, 2011. Mailed notice of hearing was issued to property owners within 250-feet and interested agencies on April 18, 2011.

At the time of the adoption of the current zoning ordinance in 1980 the property was being used as a boarding house and was zoned Rural Service Area-Multi Family Residential. In 1981, the current owner and applicant, Wilma Devries, applied and received a zone change to Tourist Commercial in order to operate the business as a restaurant. At some point the restaurant ceased to operate and the use converted to a bed and breakfast establishment. With the adoption of the rural community zoning in 2003 the zoning was changed to Rural Community Commercial. The structure is currently being used as multi-family residential housing (apartments) and the applicant wishes to amend the zoning map to ensure the use is conforming and to resolve issues with a mortgage company.

II. PROPERTY STATUS AND CONDITIONS

Lot of Record Status
The subject property was created by the recording of a Deed with the Clatsop County Clerk (Deed Records, Bk252, Pg 489) on October 7, 1959. The property meets the county's definition of “lot of record”. LWDUO §1.030.

III. SUMMARY OF STAFF CONCLUSIONS

This report contains a variety of staff analyses and findings, maps, technical information, policies, approval criteria, and several exhibits. The following table lists the main criteria that apply to the request, a summary of staff's conclusions pertaining to each criterion, and a reference to the page numbers of this report where the pertinent staff analysis can be found.

V. APPLICABLE CRITERIA

A. ZONING MAP AMENDMENT

The following criteria applies to the applicant's request for Clatsop County to adopt a zoning map amendment:

Clatsop County LWDUO 80-14, §5.412. Zone Change Criteria

VI. EVALUATION OF APPLICATION

As part of the land use application (Exhibit 1), the applicant evaluates the application against the applicable criteria of LWDUO § 5.412 and offers findings of fact for the County's consideration. In the following sections, staff examines the application versus the applicable criteria and proposes findings of fact for the Planning Commission's review and consideration.

A. ZONING MAP AMENDMENT

LWDUO 80-14, §5.412

Zone Change Criterion No. 1:
LWDUO §5.412(1) - Consistency with Comprehensive Plan

Goal 1 - Citizen Involvement

(2) The Planning Commission and active Citizen Advisory Committees shall hold their meetings in such a way that the public is notified in advance and given the opportunity to attend and participate in a meaningful fashion.

(7) Clatsop County shall use the news media, mailings, meetings, and other locally available means to communicate planning information to citizens and governmental agencies. Prior to public hearings regarding major Plan revisions, notices shall be publicized.

(8) Clatsop County shall establish and maintain effective means of communication between decision-makers and those citizens involved in the planning process. The County shall ensure that ideas and recommendations submitted during the planning process will be evaluated, synthesized, quantified, and utilized as appropriate.

(9) Public notices will also be sent to affected residents concerning zone and Comprehensive Plan changes, conditional uses, subdivisions and planned developments.

Analysis -
Documentation of published and public notice are attached as Exhibit 4.

Department Findings:
The application satisfies the applicable citizen involvement policies of the Goal 1 element of the Clatsop County Comprehensive Plan.
Goal 2 – Land Use Planning

1. Development
Development areas are those with a combination of physical, biological, and social/economic characteristics which make them necessary and suitable for residential, commercial, or industrial development and includes those which can be adequately served by existing or planned urban services and facilities.

In Clatsop County, the County has three types of such areas: cities and their urban growth boundaries; rural communities; and rural service areas, which are areas similar to cities (sewer and water) but lack size and a government structure.

c. Rural Communities. Clatsop County has identified and established boundaries for the following rural communities: Miles Crossing - Jeffers Gardens, Arch Cape, Svensen, Knappa, and Westport. Land use plans in these areas recognize the importance of communities in rural Clatsop County. These communities are established through a process that applies OAR 660 Division 22 requirements. Portions of land identified in the Miles Crossing and Jeffers Gardens rural community plan take an exception to Statewide Planning Goal 3 and Goal 4 for portions of land zoned EFU or AF. The exceptions documentation for a portion of the Miles Crossing and Jeffers Gardens rural community boundary is adopted as part of the Comprehensive Plan, and is located at the end of this section.

Analysis
The subject property is located within the Westport Rural Community and has a comprehensive plan designation of Development.

Department Finding:
The application is consistent with the applicable “Development” policies of the Goal 2 element of the Clatsop County Comprehensive Plan.

Goal 3 – Agricultural Lands

Department Finding:
The Goal 3 element of the Clatsop County Comprehensive Plan does not contain applicable policies.

Goal 4 – Forest Lands

Department Finding:
The Goal 4 element of the Clatsop County Comprehensive Plan does not contain applicable policies.

Goal 5 – Open Spaces, Scenic & Historic areas and Natural Resources

Department Finding:
The Goal 5 element of the Clatsop County Comprehensive Plan does not contain applicable policies.

Goal 6 – Air, Water, and Land Quality:

To maintain and improve the quality of the air, water and land resources of the state.

Analysis:
The proposal does not conflict with the applicable plan policies of Goal 6. The Clatsop County Land and Water Development and Use Ordinance (LWDO) contains multiple development standards that would
apply to the future development of the subject property to assure the protection of air, water and land quality standards in accordance with Goal 6.

**Department Finding:**
The application does not conflict with the policies of the Goal 6 element of the Clatsop County Comprehensive Plan.

**Goal 7 – Natural Hazards**

**Goal:**
To protect life and property from natural disaster and hazards.

**Analysis:**
The subject property is located in FEMA designated special flood hazard area. Development standards will apply to any future development on the property or modification to the existing structures. These development standards assist in protecting life and property from natural disasters and hazards in the flood hazard area.

**Department Finding:**
The application does not conflict with the policies of the Goal 7 element of the Clatsop County Comprehensive Plan.

**Goal 8 – Recreational Lands**

**Department Finding:**
The Goal 8 element of the Comprehensive Plan does not contain applicable policies.

**Goal 9 – Economy**

**Department Finding:**
The Goal 9 element of the Comprehensive Plan does not contain applicable policies.

**Goal 10 – Population and Housing**

**Goal:**
To provide for the housing needs of citizens of the state.

**Population Policies:**
1. Community plans should provide for orderly growth, which reduces the cost of essential services while preserving the basic elements of the environment.
2. Promote population to locate in established service areas.
3. Promote the accommodation of growth within areas where it will have minimal negative impacts on the County’s environment and natural resources.
4. Utilize current vacant land found between developments or within committed lands.
5. Encourage development of land with less resource value.

**Analysis:**
The proposal seeks to rezone property in a manner that would encourage the most appropriate use of the land. The new multi-family zoning will be situated away from Highway 30. The request seeks to rezone the property that is currently being utilized for multi-family residential purposes and is no longer used for commercial activities.

**Department Finding:**
The application does not conflict with the Goal 10 element of the Clatsop County Comprehensive Plan.
Goal 11 - Public Facilities and Services

General Public Facilities Policies

9. When a Comprehensive Plan or Zone Change or both are requested that would result in a higher residential density, commercial or industrial development it shall be demonstrated and findings made that the appropriate public facilities and services (especially water, sanitation (septic feasibility or sewage) and schools) are available to the area being changed without adversely impacting the remainder of the public facility or utility service area.

Analysis:
The subject property is currently utilized for multi-family residential purposes and the site is served by a community water and sewer system. There will be no adverse impact on public facilities.

Department Finding:
The proposal satisfies the applicable plan policies of the Goal 11 element of the Clatsop County Comprehensive Plan.

Goal 12 - Transportation

Analysis:
The subject property currently used as multi-family housing. That use has not demonstrated any conflicts with the Goal 12 element or the Transportation System Plan. Any expansion of the current use will be subject to access approval by Clatsop County Public Works.

Department Finding:
The application satisfies the applicable plan policies of the Goal 12 Transportation element of the Comprehensive Plan.

Goal 13 - Energy Conservation

Department Finding:
The Goal 13 element of the Clatsop County Comprehensive Plan is not applicable to the application.

Goal 14 - Urbanization

Goal

To provide for an orderly and efficient transition from rural to urban land use.

Analysis:
Clatsop County Ordinance 03-10 adopted Rural Community zoning for Clatsop County. This proposal does not seek to change the rural community or comprehensive plan designation but to modify the zoning within the rural community to accurately reflect the current use of the property.

Department Finding:
The proposed map amendment does not conflict with Goal 14 element of the Clatsop County Comprehensive Plan.

Goals 16 and 17 - Estuarine Resources and Coastal Shorelands
Goal 16 and 17 elements of the Clatsop County Comprehensive Plan do not apply.

Goal 18 – Beaches and Dunes

Department Finding:
The Goal 18 elements of the Clatsop County Comprehensive Plan do not apply.

Northeast Community Plan
Community Development
Rural Service Area
Policies

3. The existing commercial zone in Westport should be reduced in size that is more appropriate for the community.

Analysis:
The subject property is currently utilized for multi-family residential purposes. This zone change in conjunction with other pending zone changes in the Westport area the area of commercial zoning will be reduced.

Department Finding:
The Zoning Map Amendment application is consistent with the policies of the Northeast Community Plan.

Zone Change Criterion No. 2:
LWDO §5.412(2) - Consistency with Statewide Planning Goals

Analysis:
Clatsop County has a ratified comprehensive plan. Consistency with Statewide Planning Goals is determined through the consistency with the County's Comprehensive Plan.

Department Finding:
The Zoning Map amendment is consistent with Statewide Planning Goals.

Zone Change Criterion No. 3:
LWDO §5.412(3) - Adequacy of Public Facilities and Services

Analysis:
Adequate public facilities and services exist. The property is currently served by community water and sewer systems in addition to a rural fire protection district.

Department Finding:
The application satisfies Zone Change Criterion No. 3.

Zone Change Criterion No. 4:
LWDO §5.412(4) - Adequacy of Transportation Facilities

Analysis:
Access to the property is from Westport Ferry Road, a county facility. The applicant is not proposing any increase in activity and therefore the zone change will not have additional impact on the county road. Any further expansion of the multi-family house will require access approval from Clatsop County.

**Department Finding:**

Based on the analysis above, the application satisfies Zone Change Criterion No. 4.

**Zone Change Criterion No. 5:**

L.WDUO §5.412(5) - Over Intensive Use of the Land, Character of the Area, and Compatibility of Zoning Patterns

**Analysis:**

The adjacent parcels on the east side of Westport Ferry Road are zoned Multi-Family Residential providing continuity in the zoning pattern. As stated earlier in this report the current use is multi-family residential and would not change the character of the neighborhood or cause over intensive use of the land.

**Department Finding:**

Based on the analysis above, the application satisfies Zone Change Criterion No. 5.

**Zone Change Criterion No. 6:**

L.WDUO §5.412(6) - Peculiar Suitability of Site for Particular Uses

**Analysis:**

The extension of the MFR zone fits naturally along Westport Ferry Road and would make the zoning consistent with the adjacent properties to the east.

**Department Finding:**

Based on the analysis above, the application satisfies Zone Change Criterion No. 6.

**Zone Change Criterion No. 7:**

L.WDUO §5.412(7) - Zone Change Promotes Appropriate Use of Land in County

**Analysis:**

The application promotes the most appropriate use of the land by rezoning the property along Westport Ferry Road.

**Department Finding:**

Based on the analysis above, the application satisfies Zone Change Criterion No. 7.

**Zone Change Criterion No. 8:**

L.WDUO §5.412(8) - Health, Safety, and General Welfare

**Analysis:**

The application does not hinder the health, safety or welfare of Clatsop County residents.

**Department Finding:**

Based on the analysis above, the application satisfies Zone Change Criterion No. 8.
VII. PUBLIC COMMENT (Exhibit 5)

As of 1200 PM on May 3, 2011, no public comment was received.

VIII. CONCLUSION and RECOMMENDATION:

The department has evaluated the application materials against the appropriate criteria contained in the Clatsop County Comprehensive Plan and the Land and Water Development and Use Ordinance. The proposed zone change is consistent with the applicable criteria. The proposed amendments encourage the most appropriate use of the land.

The department recommends that the Planning Commission adopt the findings of fact contained in the staff report and recommend approval of the Zoning Map Amendment to the Board of Commissioners.

Respectfully Submitted,

Each of the following criteria and standards must be addressed by the applicant. The information needed to address these criteria should be submitted on separate 8.5" by 11" sheets of paper, typed.

1. The map change must be consistent with the Comprehensive Plan. The Comprehensive Plan includes the following elements:
   - Goal 1 - Citizen Involvement
   - Goal 2 - Land Use Planning
   - Goal 3 - Agricultural Lands
   - Goal 4 - Forest Lands
   - Goal 5 - Open Space
   - Goal 6 - Air, Water and Land Resources Quality
   - Goal 7 - Natural Hazards
   - Goal 8 - Recreational Needs
   - Goal 9 - The Economy
   - Goal 10 - Housing
   - Goal 11 - Public Facilities and Services
   - Goal 12 - Transportation
   - Goal 13 - Energy Conservation
   - Goal 14 - Urbanization
   - Goal 16 - Estuarine Resources
   - Goal 17 - Coastal Shorelands
   - Goal 18 - Beaches and Dunes
   - Southwest Coastal Community Plan
   - Northeast Community Plan
   - Elsie/Jewell Community Plan
   - Seaside Rural Community Plan
   - Lewis and Clark/Oliny/Willuksi Community Plan
   - Clatsop Plains Community Plan

Some of these elements of the Comprehensive Plan are not applicable to the proposed map amendment. County staff will help identify applicable plan elements and policies.

2. Also address the following from Section 5.412, Zone Change Criteria, of the Clatsop County Land and Water Development and Use Ordinance #80-14.
   - The proposed change is consistent with the policies of the Clatsop County Comprehensive Plan.
   - The proposed change is consistent with the statewide planning goals (ORS 197).
   - The property in the affected area will be provided with adequate public facilities and services including, but not limited to:
     1. Parks, schools and recreational facilities
     2. Police and fire protection and emergency medical service
     3. Solid waste collection
     4. Water and wastewater facilities
   - The proposed change will ensure that an adequate and safe transportation network exists to support the proposed zoning and will not cause undue traffic congestion or hazards.
   - The proposed change will not result in over-extensive use of the land, will give reasonable consideration to the character of the area, and will be compatible with the overall zoning pattern.
   - The proposed change gives reasonable consideration to peculiar suitability of the property for particular uses.
   - The proposed change will encourage the most appropriate use of land throughout Clatsop County.
   - The proposed change will not be detrimental to the health, safety, and general welfare of Clatsop County.
3. The property in the affected area must be presently provided with adequate public facilities, services and transportation networks to support the use; or the governing body by condition requires their provision by condition attached to any approval of use.
Summary:

The subject property is located in the rural community of Westport at 91240 Westport Ferry Road, Westport Oregon 97016. The subject property is approximately 1.2 acres, it lies north of the ODOT owned railroad right of way. Plympton Creek is along the east side of the property. The property was originally developed when Westport became a community in the mid 1800's. According to local lore [current and deceased residents of Westport and the Clatsop County Historical Society, and the Oregon Historical Society] John West, the founder of Westport built the original structure around 1868 as a bunkhouse for Chinese cannery workers. The building served as a boarding house after 1900. It later became derelict in 1940's and was purchased in 1946 or 47 to be used as a hunting / fishing lodge by Ralph Williams. Mr. Williams named it the King Salmon Lodge. The lodge became private home in mid 1950's, it served as the Westport Lumber Company's mill manager's home.

The lodge is approximately +/- 7000 sq. ft. Two apartments were constructed on the lodge the late 1950's after adjacent 3 story "4L" building burned, damaging the north end of the lodge.

The applicant purchased the lodge in 1979. She opened a restaurant in Oct 1980, a Bed and Breakfast 1982. The restaurant closed in 1993 the lodge became adult foster care facility.

This property is a significant historical and tourist benefit for the community of Westport, it has been featured on historic tours of Clatsop County offered by the Oregon Historical Society and draws visitors to Westport. Allowing the applicant to continue to use the property, and maintain it, will continue to draw tourists and visitors to Westport and Clatsop County.

Currently the property is a multi-family dwelling consisting of the owner's residence and the two apartments, and accessory structures, all constructed prior to zoning regulations.

As described below the proposed zone change of the subject property is consistent with the Clatsop County Land and Water Development and Use Ordinance (LWDUO) and the Clatsop County Comprehensive Plan (Comp. Plan).

Westport is a designated Rural Community under the LWDUO; the subject property is currently zoned Rural Community Commercial (RCC). The applicant/owner proposes to rezone the property Rural Community - Multi-Family Residential (RC-MFR). The subject property is served by the Westport Sewer District and the Westport Water Association, and is kitty-corner from the Wauna-Westport Fire Station.

The reason for this change is so that the applicant/owner can comply with other national trends. The national financial crisis, specifically the national mortgage meltdown, has caused banking policy throughout the United States to
become much more restrictive. Although the property is the applicant's residence, it is not technically "zoned" residential and thus under the more restrictive national financial climate the applicant no longer qualifies for home financing. She is asking for this zone change so that she can qualify for such financing. Denial of this zone change would cause a significant hardship upon the applicant.

Criteria and Standards:

As requested by Jennifer Bunch, Clatsop County Planner, in her pre-application memorandum dated November 10, 2010 (attached) we have addressed the requested criteria from the LWDUO and the Comp. Plan below.

LWDUO 80-14

Section 3.120 Rural Community – Multi Family Residential

The RC-MFR zone is intended to provide areas suitable for various types of residential development at a rural community density in areas where public facilities such as sewer, fire protection and water are available, or were historically developed with mobile home parks, manufactured home parks and multi-family housing.

A zone change to this use is consistent with the LWDUO. The existing zoning is Rural Community – Commercial (RCC), a higher use both in density and purpose. This proposal is to lower the allowed intensity of the zoning. This property is in a historically developed area of the county, with public facilities available. The fire station is kitty-corner from the property, and the property has public sewer and water (Westport Sewer District and the Westport Water Association). The property has served as multi-family housing since its development, it was originally built as a boarding house for the employees of the cannery built by John West, Westport's founder, in the mid 1800's. It over its hundred years it has served as a boarding house, a residence, a bed and breakfast, a restaurant, and a home for handicapped people (adult foster care facility), uses more in conformance with the proposed zone, however also falling in the current zone.

Section 3.117. Conditional Development and Use.

The following developments and their accessory developments may be permitted under a Type II procedure and Sections 5.000 to 5.030 subject to applicable criteria and development standards and site plan review.

(1) Multi-family dwelling.

The property's current use is Multi-family dwelling; this zone change simply brings the zone into conformance with the current reality. Multifamily dwelling is not specifically allowed in the existing RCC zoning; the current use is an existing non conforming condition.

Section 3.118. Development and Use Standards.

The following standards are applicable to permitted and conditional developments in this zone:

(1) and (2) Not applicable
Lot size for conditional developments shall be based upon:

(A) The site size needed of the proposed use,

(B) The nature of the proposed use in relation to the impacts on nearby properties, and

(C) Consideration of state sanitation requirements, potable water, local setback and other criteria and standards of this ordinance.

This application is to rezone the existing property as-is to the RC-MFR zone. The existing use has been in operation for many years, this change simply brings the zone into conformance with the existing reality. There will be no impacts on the adjoining properties; this use has been in existence since the inception of the community Westport. This is a case where the zoning regulations do not reflect the realities of the history of the property for more than a century. The property is already served by a state approved sanitation system (Westport Sewer District) and potable water (Westport Water Association).

Section 3.118 (4) through (15)

The lot 1.2 acre is irregular in shape, roughly 380 ft. long and 160' deep. The applicant is not proposing any new structures, all structures are existing built prior to zoning regulations but all are in general conformance with the minimum setback requirements.

Section 5.000 Zone Changes

Section 5.412. Zone Change Criteria.

The governing body shall approve a non-legislative zone designation change if it finds compliance with Section 1.040, and all of the following criteria:

(1) The proposed change is consistent with the policies of the Clatsop County Comprehensive Plan.

(2) The proposed change is consistent with the statewide planning goals (ORS 197).

(3) The property in the affected area will be provided with adequate public facilities and services including, but not limited to:

   (A) Parks, schools and recreational facilities
   (B) Police and fire protection and emergency medical service
   (C) Solid waste collection
   (D) Water and wastewater facilities

(4) The proposed change will insure that an adequate and safe transportation network exists to support the proposed zoning and will not cause undue traffic congestion or hazards.

(5) The proposed change will not result in over-intensive use of the land, will give reasonable consideration to the character of the area, and will be compatible with the overall zoning pattern.

(6) The proposed change gives reasonable consideration to peculiar suitability of the property for particular uses.

(7) The proposed change will encourage the most appropriate use of land throughout Clatsop County.

(8) The proposed change will not be detrimental to the health, safety and general welfare of Clatsop County.
This application is in conformance with the above zone change criteria. It is consistent with the Clatsop County Comprehensive Plan and Statewide Planning Goals ORS 197 as described below.

This property was developed beginning in the mid 1860's when it was built by John West, the founder of Westport. Before zoning was imposed in Clatsop County this property was a boarding house, a private residence, and a multi-family residence. Since the applicant has owned the property it has been a bed and breakfast, a restaurant, and a residence for handicapped individuals (adult foster care facility); it is currently a multi-family dwelling.

The property is served with adequate public facilities; the fire station is kitty-corner from the property, the Westport school is two blocks away, the property is connected to both public sewer and public water. Adequate transportation serves the property, the road to the Westport ferry fronts the property and US Highway 30 is two blocks away. The zone change is suitable and consistent with the historic use of the property for more than 100 years prior to zoning in Clatsop County and will not be detrimental to the health, safety and general welfare of Clatsop County.

Clatsop County Comprehensive Plan – Goals and Policies and Statewide Planning Goals (ORS 197)

Goal 1 – Citizen Involvement
This application is being processed pursuant to the Clatsop County Comprehensive Plan and Clatsop County Land and Water Development and Use Ordinance. Per those ordinances and per Oregon Law citizens will be notified and will be given a chance to comment on the proposed zone change at a public hearing in front of the Planning Commission and the Clatsop County Board of Commissioners.

Goal 2 – Land Use Planning
This application is being processed pursuant to applicable land use planning procedures and state law. The subject property is in the community of Westport, a designated rural community and an area designated for development on the Clatsop County Comprehensive Plan Designation Map [Comp. Plan p. 9]. The County has taken exception to Goal 3 and Goal 4 (below) pursuant to OAR 660 Division 22 [Comp. Plan p. 8] because Westport is an already developed but unincorporated area outside the urban growth boundary.

Goal 3 – Agricultural Lands Not applicable see above.
Goal 4 – Forest Lands Not applicable see above.

Goal 5 - Open Spaces, Scenic & Historic Areas and Natural Resources
Not applicable

This is an existing developed property within a designated rural community. The existing development has been in existence for more than 100 years. The existing development is along Plympton Creek so riparian setbacks may be imposed with any new development, however this application is not for new development, it is to bring the zoning into conformance with existing and historical use of the property.
Goal 6 – Air, Water and Land Quality
This application is in conformance with Goal 6. This property is served by an Oregon certified public waste water system, Westport Sewer District, and a public water system, the Westport Water Association. As an existing developed site, this zone change will not cause any increased demand or affect air, water, or land quality.

Goal 7 – Natural Hazards
Flood Hazard Policies:
This application is in conformance with Goal 7. The Clatsop County LWDUO is in conformance with FEMA regulations pertaining to Flood Hazard Areas and has adopted FEMA's Flood Insurance Rate Maps (FIRMs) and FEMA's recommended policies and ordinances (LWDUO, Section 4.000 Flood Hazard Overlay District - FHO).

General Mass Movement Policies:
Not applicable. The subject property is not in an identified area of general mass movement (slide area).

Streambank Erosion and Deposition
As described above in 2008 FEMA removed obstructions (the applicant's bridge) and dredged Plympton Creek to reduce flooding dangers and stabilize the streambank.

Goal 8 – Recreational Needs
Not applicable. This zone change does not affect the County's recreational lands inventory nor does it create an increased demand for additional recreational lands in the County.

Goal 9 – The Economy
Not directly applicable, however this zone change is requested because of the effects national economic trends. Because of the national mortgage crisis, national mortgage policy has become significantly more restrictive. The applicant uses the existing multi-family dwelling as her home. Under the current zone the subject property does not qualify for new more restrictive mortgage policies. Denial of this zone change would cause a significant hardship upon the applicant.

Forrest Products Not applicable
Marine Resources Not applicable
Travel Industry Not directly applicable, however this property has been a bed and breakfast and a restaurant. This property is a significant historical and tourist benefit for the community of Westport, it has been featured on historic tours of Clatsop County and draws visitors to Westport. Allowing the applicant to continue to use the property, and maintain it, will continue to draw tourists and visitors to Westport and Clatsop County.
Goal 10 – Population and Housing
This application conforms to the Population and Housing Goals and Policies. This use promotes population in established serviced areas and does not affect the County's environment and natural resources. This zone change will not result in the loss of lands zoned or designated for agriculture or forestry and will not interfere with surrounding agricultural or forestry activities. The proposal is consistent with the "demonstrated need to accommodate long-range urban population growth requirements consistent with LCDC goals" and the "Need for housing, employment opportunities, and livability." (Comp Plan, p. 69) The subject property is currently being used as multifamily housing and has done so since it was originally built long before zoning. This application promotes the retention of the current housing stock.

Goal 11 – Public Facilities and Services
This application is in conformance with Goal 11. The subject property is in the Westport Rural Community, is connected to public water and sanitary sewer services. Other public facilities are within walking distance, the local fire station is kitty-corner from the property, and the Westport school is two blocks away.

Goal 12 – Transportation
This application conforms to the County’s Transportation Goals and Policies. Although the Westport Ferry Road is listed on the Transportation Plan as a "local road", for the community of Westport it is really an arterial that connects Highway 30 to the Westport Ferry Terminal and Highway 4, the Ocean Beach Highway, in Washington State. This zone change creates no additional traffic loads the Westport Ferry Road nor the transportation facilities of Clatsop County. This proposal is consistent with encouraging development in already developed areas of the county to limit the need for additional transportation facilities.

Goal 13 – Energy Conservation
This application does not apply to any specific goal or policy relative to Energy Conservation written into the Clatsop County Comprehensive Plan. However, by allowing and encouraging existing development to be used the County fulfills the broad goal of conserving energy. By allowing continued use of existing development, additional energy and resources are not expended to develop undeveloped lands and build new buildings. Energy is not expended converting raw materials into new construction and building materials and not expended transporting these new materials to new development sites. The embodied energy of an existing development is retained.

Goal 14 – Urbanization
The subject property is inside the Westport rural community, an area that has already been developed with a mix of uses. This proposal promotes the goal of "orderly and efficient transition from rural to urban land use" by keeping development within the already developed area and not infringing on undeveloped agricultural or forest lands. As a residentially zoned property it promotes the availability of housing and the "demonstrated need to accommodate long-range urban population growth requirements consistent with LCDC goals" and the "Need for housing, employment opportunities, and livability." (Comp Plan, p. 69) This
The proposal is in conformance with Clatsop County's Goal 14 Policy because it does not "adversely effect agricultural and forest operations" nor "interfere with the efficient functioning of urban growth boundaries". (Comp Plan, p. 70)

Goal 16 - Estuarine Resources: Not applicable. The subject property is within an already developed rural community, and this application does not propose any alterations to Estuarine Resources. This application is continue to use the property as it has been used for more than 100 years.

Goal 17 - Coastal Shorelands: Not applicable. The subject property is not near costal shorelines.

Goal 17 - Coastal Beaches and Dunes: Not applicable. The subject property is not near costal beaches or dunes.

Northeast Community Plan:

This application conforms to the provisions of the Northeast Community Plan. This application is continue to use the property as it has been used for more than 100 years. It is within an already developed area of the county, inside the boundaries the rural community of Westport; it does not affect undeveloped forest, agriculture, or other natural resource lands. The property is already provided with necessary community services [fire protection, public sewer system, and public water system]. This proposal specifically promotes the Northeast Community Plan - Rural Service Area Policy #3 "The existing commercial zone in Westport should be reduced to a size that is more appropriate for the community." (Comp Plan p. 178). The proposal reduces the amount of commercially zoned land in Westport.

The other policies of the Northeast Community Plan that this proposal promotes have already been addressed in Goals 1 through 18 above. In the spirit of sustainability we shall not waste paper and restate them here.

You are receiving this notice because you either own property within 250 feet of the property that serves as the subject of the land use application described in this letter or you are considered to be an affected state or federal agency, local government, or special district. A vicinity map for the subject property is attached.

NOTICE IS HEREBY GIVEN that the Clatsop County Transportation & Development Services has received the land use application described in this letter. Pursuant to Section 2.035 of the Clatsop County Land and Water Development and Use Ordinance (LWDUO), the Department Director has scheduled a public hearing on this matter before the Planning Commission at 10:00 AM on Tuesday, May 10, 2011 at the Judge Guy Boyington Building, 857 Commercial Street, Astoria, OR.

All interested persons are invited to testify in person by attending the hearing, or they may testify in writing by addressing a letter to the Clatsop County Planning Commission, 800 Exchange Street, Suite 100, Astoria, OR 97103. Written comments may also be sent via FAX to 503-338-3666 or via email to jbunch@co.clatsop.or.us. Written comments must be received in this office no later than 5PM on Monday, May 9, 2011 in order to be considered at the May 10, 2011 public hearing.

NOTE: Failure of an issue to be raised in a hearing, in person or by letter, or failure to provide statements or evidence sufficient to afford the decision maker an opportunity to respond to the issue precludes an appeal based on that issue.
THE LAND USE APPLICATION DESCRIBED:
The applicant, Wilma Devries, proposes a zoning map amendment on 1.20 acres of land located to the north of Hwy 30 on Westport Ferry Road in the unincorporated Westport area of Clatsop County. The subject property identified as T8N, R06W, Sec 36CA - TL 2400 and 91240 Westport Ferry Rd, Westport.

The applicant proposes changing the zoning on the subject property from Rural Community Commercial (RCC) to Rural Community Multi-family Residential (RC-MFR).

The following criteria apply to the request:

- Land & Water Development & Use Ordinance 80-14
- §2.035 Type IV Procedures for Land Use Applications
- §2.105-2.125 Notice Requirements for Public Hearings

Exhibit 5
Public Comment
Chairperson Johnson called the meeting to order at 1004.

The election of officers was deferred to a later date.

Business from the Public:

Jennifer Bunch, Planner, introduced Bill Johnston, Oregon Dept of Transportation Area Planner, Astoria. Mr. Johnston presented a report on the US 101: Camp Rilea Road to Surf Pines Lane Facility Plan, which is just getting underway. There are some safety and operational issues associated with this stretch of Highway 101 from Patriot Way in the north and Surf Pines Lane in the south.

Mr. Johnston touched on several issues, including:

- Included in a facility plan is function of the facility over the long term (20 years), improvements to address safety and mobility issues for all, meeting both ODOT and community needs.
- The process begins with identifying promising improvements, comparing promising improvements and selecting projects, designing projects and preparing for construction and construction and operation. Mr. Johnston emphasized that advancing to the next step relies on identifying funding.
- Description of a time table, the decision-making process
- Existing traffic conditions
- Future traffic conditions, with volume to capacity ratios
- Safety issues, including geometric and congestion-related. Mr. Johnston reported that 50% of crashes involved turning movements.
- Community concerns and environmental considerations
- Importance of public participation
- Description of some specific problem areas

In answer to a question from PC Harper-Vellutini, Mr. Johnston explained that the 20-year planning horizon involves the analysis and numbers, but solutions, especially involving minor fixes, could be done sooner rather than later, dependent on funding.

No other business from the public.
while because she knew that two more zoning map amendments were coming in and
1 wanted to process them all at the same time.

2

3 Prior to the rural community zoning in 2003, the subject property was zoned RSA-MFR
4 because the property was improved with a single-family dwelling, an allowed use in the
5 MFR zoning.

6

7 In 2004, the property owner demolished the dwelling and applied for permits to establish
8 a commercial use, a drive through espresso stand, on the property. In 2006, it was
9 discovered that staff misinterpreted the zoning on the property and the espresso stand
10 permit should not have been issued. The commercial use on residentially zoned land
11 has been allowed to continue as a non-conforming use. In 2010 Mr. Egaas inquired
12 about expanding his commercial use. Because of delays in the zoning map amendment
13 application, staff issued permits for the construction of the new commercial structure as
14 an accessory use to the adjacent restaurant.

16 Ms. Bunch continued with a PowerPoint presentation stating that the zone change is
17 consistent with the eight (8) applicable criteria, and asked the Planning Commission to
18 recommend approval to the Clatsop County Board of Commissioners.

19

20 Following a question from PC Autio, Ms. Bunch explained that the properties
21 immediately behind the Berry Patch Restaurant have been multi-family residential for
22 quite some time.

23

24 Following questions from PC Pogue, Ms. Bunch stated that the only comment received
25 was from ODOT, and that in her opinion, this is the best use of the property.

41 Ms. Bunch presented the staff report. The applicant submitted the application in January
42 of 2011. At the time of the adoption of the current zoning ordinance in 1980 the property
43 was being used as a boarding house and was zoned Rural Service Area-Multi Family
44 Residential. In 1981, the current owner and applicant applied and received a zone
45 change to Tourist Commercial in order to operate a restaurant. At some point the
46 restaurant ceased to operate and the use converted to a bed and breakfast. With the
47 adoption of the rural community zoning in 2003 the zoning was changed to Rural
48 Community Commercial. The structure is currently being used as a primary residence
49 and 2 or 3 apartments and the applicant wishes to amend the zoning map to ensure the
50 use is conforming and to resolve issues with a mortgage company.
Ms. Bunch continued with a PowerPoint presentation, describing the eight (8) applicable criteria, and asked the Planning Commission to recommend approval to the Clatsop County Board of Commissioners.

In answer to a question from PC Autio, Ms. Bunch stated that unless the applicant wants to make structural changes, there is no issue with the flood plain. If they were to make changes, they would have to comply with the new flood ordinance that was adopted last year.

Following a question from PC Pogue regarding the down-zoning, Ms. Bunch explained in the northeast community plan, it recommends the existing commercial zone in Westport should be reduced in size that is more appropriate for the community.

PC Autio and Chairperson Johnson expressed concern about "spot-zoning." Ms. Bunch replied that the County tends to shy away from spot-zoning.

No one from the public asked to speak.

PC Pogue moved and PC Malkowski seconded to adopt the findings of fact contained in the staff report and recommend approval of the Zoning Map Amendment [to the Clatsop County Board of Commissioners]. Motion passed unanimously.

The applicant, Clatsop County, requests a Zoning Map Amendment from Rural Community Commercial-Multi Family Residential to Rural Community Commercial-Light Industrial for the subject property owned by the Morisse Living Trust.

No ex parte contacts or conflicts of interest were reported.

Ms. Bunch presented the staff report. This zoning map amendment is a correction. In 1980 with the adoption of our current ordinance this property was part of a larger parcel which was the Westport Trailer Park. At that time, the Westport Market was not there.

The property was zoned RA-1 in 1980. In 1984, in order to facilitate the community sewer system, the rural service area zoning needed to be adopted. This property was undeveloped and part of the trailer park, zoned rural service area, multi-family residential. The next year, the current property owner, Mr. Morrisey, applied for a zone change for a small portion to Tourist Commercial in order to construct the Westport Market.

In 2003, Clatsop County adopted rural community zoning in several areas of the county and it was during this process this property was mistakenly zoned Rural Community Commercial-Multi Family Residential. This was not discovered until late in 2010 when Mr. Morrisey inquired about the expansion of commercial activities on the property.

Since the property is adjacent to a parcel that is already rural Community Commercial-Light Industrial zone the request is to correct the zoning and apply the same designation to ensure continuity in zoning patterns in the Westport area.
