Mark Your Calendar now for the ISSD’s 14th International Conference

Trauma, Dissociation, and Healing:
The Brink of a New Era

November 8-11, 1997 in Montréal, PQ, Canada

Highlights include:

* Dynamic speakers
  including Frank Putnam, MD, James Chu, MD, John Wilson, PhD and Judith Hermann, MD

* Exceptional value
  Members pay $270 for the 2 1/2 day conference

* Shared activities
  The ISSD has planned for a shared day of afternoon sessions on Sunday, November 9, 1997 with the International Society for Traumatic Stress Studies (ISTSS). Included in the activities is a joint plenary session featuring Alan W. Scheflin, JD.

Montréal

The hotel is located in the heart of Montréal and you can make reservations for the conference by calling or writing the hotel directly at:

LeCentre Sheraton Montréal
1201 Rene-Levesque Blvd. West
Montréal, PQ H3B 2L7
Canada
514/878-2000
514/878-2305 (fax)
INSTRUCTIONS FOR CONTRIBUTORS TO

DISSOCIATION: PROGRESS IN THE DISSOCIATIVE DISORDERS

Please submit four complete and clearly legible double-spaced printouts of the entire manuscript. If the manuscript is accepted for publication, it must then be submitted on an IBM-compatible 3.5" or Apple Macintosh 3.5" computer diskette.

The title page, abstract, reference list, footnotes, tables and figures must be clearly labeled and on separate pages. Please do not place author identifications anywhere besides the title page. Last minute copy corrections need to be made with a "non-repro" blue pen or pencil. Leave a SINGLE space after end-of-sentence periods. Mail disks and hard copy manuscripts to: Richard P. Kluft, M.D., Center for the Study of Dissociative States, P.O. Box 1185, Bala Cynwyd, PA 19004.

All authors must sign a letter assigning the copyright ownership of the article to DISSOCIATION DISORDERS RESEARCH PUBLICATIONS, LIMITED, contingent upon its acceptance.

The following guidelines apply to all submissions:

1. The title page should include the title of the article, the name(s) of the author(s), degree(s) of author(s), the academic or institution affiliation of the author(s), a running head (or abbreviated title), and the name and address for reprints. Authors without academic or institution affiliations should list instead the city and state in which they practice.

2. The abstract should be a brief summary of the article. It should be accurate, succinct, quickly comprehensible, and informative. It must not exceed 150 words. It should be formatted in italics.

3. The text should introduce the article's purpose and include a brief review of the relevant literature, describe its methods and subjects, indicate its results, and offer a discussion in which its conclusions are stated. An author who would like to submit an article (other than a case study) that differs considerably from this structure should contact the Editor-in-Chief to discuss the proposed submission. The text may require several levels of headings. Main heads should be typed in all caps, formatted in bold face (e.g., THE NEUROPSYCHOPHYSIOLOGY OF DISSOCIATION.) The second level should be typed in upper/lower case formatted in bold face (e.g., The Neuropsychophysiology of Dissociation.) For more complex sub-heading formats, consult the Publication Manual of the American Psychological Association.

4. References within the text should be made in the author-date format. Use the names of either one or two authors on each occasion. When there are more than two but fewer than six authors, use all in the first citations, and the surname of the first author followed by "et al." subsequently. When there are six or more authors, use the surname of the first author followed by "et al." on all occasions. For citations in parentheses, use an ampersand (&) before the name of the last author listed. All quotations cited must include page numbers.

5. References within the reference list are restricted to those cited in the text. They should be listed in alphabetical order on a separate page, headed REFERENCES. The authors' names are given surname first, followed by initials. Place an ampersand (&) before the last author's name. The names are followed by the publication date in parentheses, followed by a period. The title is italicized (underlined, if italic script is unavailable), then volume and issue number, if relevant, follow in roman text. And finally, list the page numbers. Use "pp." before the page numbers of publications other than scientific journal articles.

6. Sample references: (If italic script is unavailable, you may underline titles in submitted manuscripts.)
   For references other than those shown above, consult the Publication Manual of the American Psychological Association.

7. All artwork (photographs, illustrations, graphs or charts) accompanying articles must be approved by the editor. If the artwork is accepted for publication, camera-ready artwork must then be submitted to the editor. All artwork will be returned to the author immediately following publication of the journal.
The International Society for the Study of Dissociation

The International Society for the Study of Dissociation invites you to join us as we define and improve our understanding of the field of dissociation, including, dissociative states research, diagnosis and treatment.

ISSD brings together professionals dedicated to the search for answers to improve the quality of life for all patients with dissociative disorders.

Together we can and will make a Difference!

Please call (847/375-4718) or email (info@issd.org) the ISSD to be sent information concerning membership in the Society.
