REGENERATIVE DESIGN
Community. Public space for public use and focusing on green spaces will enrich and enliven the community. Reclaiming and prosper, while a startup innovation center will spark ingenuity and focus, and foster immigrants in the heart of the city. Hope and opportunity can be made. By creating local markets andns, and reinvigorating an old working-class neighborhood now home to many young people and a transparent, open institution is crucial.

Youth unemployment in Greece is devastating an entire generation and dramatically altering the face of the nation. Poor waste management is just another daily fact for many in Greece, but it leads to a catastrophic failure of global economics has led to more and more consumption, but without the demand needed to sustain its levels in Athens. This catastrophe has been especially apparent in Greece, and the youth of the nation are paying the highest price. Youth unemployment in Greece is devastating an entire generation and dramatically altering the face of the nation.
