The City of Gearhart ordains that the Gearhart Zoning Ordinance and the Gearhart Comprehensive Plan shall be modified, as follows:

§Section 1. ADD Section 1.030 (47) Development
Development is building a structure that requires a permit, making a material change in the use or appearance of a structure or land, also including grading, tree and vegetation removal that requires approval of an application or permit, dividing land into two or more parcels, including partitions and subdivisions, and creating or terminating a right of access.

§Section 2. AMEND SECTION 3.13: FW ZONE: FRESHWATER WETLAND AND LAKE OVERLAY ZONE to read:

Section 3.1310 Purpose
Section 3.1320 FW Zone Boundaries
Section 3.1330 FW Zone Boundary Refinement Procedures
Section 3.1340 Outright Allowed Activities
Section 3.1350 Conditional Use Activities
Section 3.1360 Prohibited Activities
Section 3.1370 FW Hardship Variance
Section 3.1380 FW Overlay Zone Standards

SECTION 3.1310 PURPOSE

The purpose of the Freshwater Wetland and Lake Overlay Zone is to conserve significant freshwater wetlands and lakes. Low intensity uses which do not result in major alterations are appropriate in the zone. Low to moderate intensity recreation is appropriate in lakes. The FW Zone does not replace the parent zone designated by the comprehensive plan; however, activities on lands identified as within the FW Zone are restricted to activities that are consistent with the FW Zone.

SECTION 3.1320 FW ZONE BOUNDARIES

The approximate boundaries of the Freshwater Wetland and Lake Overlay Zone (FW Zone) are identified by the City of Gearhart Local Wetlands Inventory (LWI) on file at Gearhart City Hall. Information shown on the Local Wetland Inventory is for planning purposes, represents the conditions that exist at the map date and is subject to change. The location and extent of wetlands and other waters is approximate. There may be unmapped wetlands and other waters present that are subject to regulation. You are advised to contact...
City Staff, the Oregon Department of State Lands and the US Army Corps of Engineers with any regulatory questions.

SECTION 3.1330 FW ZONE BOUNDARY REFINEMENT PROCEDURES

The FW Zone boundary is anticipated to be refined over time as information more specific than the Local Wetland Inventory is available. The FW Zone Boundary is refined as follows:

1. Consistent with any wetland delineation approved by the Oregon Department of State Lands for the time period within which the wetland delineation is considered valid.

2. Consistent with any removal-fill permit issued by the Oregon Department of State Lands where the freshwater wetland boundary is anticipated to be changed.

SECTION 3.1340 ACTIVITIES ALLOWED OUTRIGHT

Subject to FW Zone Standards, the following activities are allowed outright provided that a development permit is obtained from the City and provided that authorizations from state and federal agencies are obtained.

1. Low intensity recreation.
2. Passive restoration measures.
3. Wetland restoration and rehabilitation activities.
4. Restoration and enhancement of native vegetation.
5. Cutting and removal of trees that pose a hazard to life or property.
6. Removal of non-native vegetation, if suitably replaced with native plant species.
7. Replacement of existing structures, streets, driveways, and utilities in the same location that do not disturb additional wetland surface area.
8. Maintenance of drainage ways or ditches consistent with their original design capacity where sedimentation, adverse impacts to native vegetation, and placing spoils in wetlands or waterways is avoided.

SECTION 3.1350 CONDITIONAL USE ACTIVITIES

Subject to FW Zone standards, the following activities are allowed in the FW Zone provided a Conditional Use Permit is obtained, that a development permit is obtained from the City and that authorizations from state and federal agencies are obtained.

1. Active restoration.
2. A public park or recreation associated low intensity development such as docks, raised walkways, and foot paths.
3. Individual docks for recreation or fishing, including necessary piling.
SECTION 3.1360 PROHIBITED ACTIVITIES

1. Removal of vegetation except that associated with uses and activities allowed in Section 3.140 and 3.150

SECTION 3.1370 FW ZONE HARDSHIP VARIANCE

For lands demonstrated not buildable for the uses allowed by the parent zone, the Planning Commission may approve a hardship variance to reduce or remove the restrictions of the FW Zone. Applications for the review of hardship variances shall be conducted as set forth in Article 8 Variances following the criteria of Section 8.030. Site development shall comply with the standards of Section 3.1380, a development permit shall be obtained from the City and authorizations from state and federal agencies shall be obtained.

SECTION 3.1380 FW ZONE STANDARDS

In the FW Zone the following standards shall apply:

1. Development, construction or alteration within the FW Zone or within 25 feet of the FW zone boundary requires approval of a development permit from the City. The application for development permit shall include a site plan drawn to a measurable scale and a narrative describing the proposed site work. A wetland determination or delineation by a qualified professional wetland scientist shall be required by the City, if the wetland boundary cannot be determined without the information.

2. All activities involving construction or alteration in wetlands or aquatic areas shall be reviewed by the Oregon Department of State lands and the US Army Corps of Engineers to determine whether they have jurisdiction over a proposed use or activity. If the Oregon Department of State lands and / or the US Army Corps of Engineers determine that they have jurisdiction over a proposed use or activity, no construction shall commence until authorizations from these agencies have been obtained. If mitigation is part of a permit authorization process, it shall satisfy city mitigation requirements.

3. When property proposed for development is wholly or partially within areas identified as wetlands within the City’s FW Zone boundary, the City shall file a wetland land use notification form with the Oregon Department of State Lands that identifies the proposed activity consistent with ORS 227.350.

4. When fill is permitted, a signed stamped report and plan review by a qualified professional such as a licensed engineer and / or a licensed engineering geologist shall be required that recommends that the fill shall cover no more area than the minimum necessary to accomplish the proposed activity, that the fill will not increase sedimentation or flooding to the site or downstream properties and cause adverse impacts to the site and surrounding area. Mitigation of impacts to replace native vegetation or lost wetland functions may be required. A development permit shall be obtained from the City and authorizations from state and federal agencies shall be obtained.

5. When excavation is permitted, a signed stamped report and plan review by a qualified professional such as licensed engineer and / or a licensed engineering geologist shall be required that recommends that the excavation shall cover no more area than the minimum necessary to accomplish the proposed activity, that the excavation will not increase sedimentation or flooding to the site or downstream properties, and that the activity will not cause adverse impacts to the site and surrounding area.

Section 25. Continued Effect. All other provisions of Gearhart Zoning Ordinance not specifically modified herein, shall continue unchanged and in full force and effect.

Section 26. Emergency. The City declares an emergency to exist and finds that immediate adoption of the Ordinance is necessary to protect the health, safety and welfare of its residents. This Ordinance shall become effective immediately after its adoption by the City Council and approval of the Mayor.

I. SUMMARY

On December 14, 2011, The Department of State Lands (DSL) approved the City of Gearhart Local Wetland Inventory (LWI) that was prepared by the Columbia River Estuary Study Taskforce (CREST). The LWI study area included all land within the city limits and urban growth boundary (UGB). The City of Gearhart, herein referred to as “the City”, adopted the LWI and associated land use ordinance and comprehensive plan amendments on June 6, 2012. Under the terms of Section 5(2) of the Clatsop County – City of Gearhart Urban Growth Management Agreement¹ (UGMA), amendments of the City’s Comprehensive Plan must be adopted by ordinance by both the City and the County. UGMA Section 5(2)(i) requires the county to hold a public hearing according to procedure established in the Land and Water Development and Use Ordinance (LWDUO). Under the provisions of L2.035 a Type IV procedure is appropriate. The Gearhart LWI, which identifies locally significant wetlands within the UGB will also be adopted as Appendix C of the County’s Comprehensive Plan Goal 5 Element. As with all land use activities The City of Gearhart will continue to be the lead agency to administer land use regulations with the City and UGB, including the newly adopted land use regulations related to the LWI.

¹ Clatsop County Ordinance 95-8
II. APPLICABLE CRITERIA

Unlike applications for development a legislative amendment does not require an evaluation against the applicable criteria but rather a determination of consistency with the County’s Comprehensive Plan. The Comprehensive Plan goals listed below contain applicable policies:

LWDUO 80-14
L2.035 Type IV Procedure.
L2.100 Public Deliberations and Hearings

COMPREHENSIVE PLAN
Goal 1 Citizen Involvement
Goal 2 Land Use Planning
Goal 5 Open Space, Scenic and Historic Areas and Natural Resources

III. EVALUATION

LWDUO 80-14
Section 2.010. Procedure Types and Determination of Proper Procedure.
Section 2.035 Type IV Procedure

(1) Type IV actions are legislative processes. They involve the creation, broad scale implementation or revision of public policy. These include amendments to the text of the Comprehensive Plan, Community Plans, or Zoning Code. Large scale changes in Community Development maps also may be characterized as legislative where a larger number of property owners are directly affected. The Type IV procedure is for use where indicated in this Ordinance.

(2) Under the Type IV procedure, the Director shall schedule a public hearing pursuant to Section 2.105 before the Planning Commission.

(3) The Director shall mail and publish a notice pursuant to Section 2.315.

(4) At the public hearing, the staff, the applicant, and interested persons may present testimony relevant to the proposal. If pertinent, they may give information on whether the proposal does or does not meet appropriate criteria and standards for approval or their proposals for modifications they consider would be necessary for approval. If criteria are involved, the Planning Commission shall have made a finding for each of the criteria applicable, including whether the proposal conforms to criteria found in the Comprehensive Plan. A written report and recommendation shall be submitted to the Board of Commissioners.

(5) If the Planning Commission has recommended against a proposal or has failed to act on a proposal, the Board of Commissioners may terminate further consideration of the proposal. For a proposal on which the Planning Commission has made a favorable recommendation and for other proposals that have not been terminated, the Board of Commissioners shall conduct a public hearing. The Director shall set a date for the hearing, pursuant to Section 2.105. The form of notice and persons to receive notice are as required by the relevant sections of this Ordinance. At the public hearing, the staff shall review the report of the Planning Commission and provide other pertinent information, and interested persons shall be given the opportunity to present new testimony and information relevant to the proposal that was not heard before the Planning Commission and make final arguments why the matter should or should not be approved, and if approved, the nature of the provisions to be contained in approving action.
To the extent that a finding of fact is required, the Board of Commissioners shall make a finding for each of the criteria applicable and in doing so may sustain or reverse a finding of the Planning Commission. The Board of Commissioners may delete, add or modify any of the provisions pertaining to the proposal or attach certain development or use conditions beyond those warranted for compliance with standards in granting an approval if the Board of Commissioners determines the conditions are appropriate to fulfill the criteria for approval.

To the extent that a policy is to be established or revised, the Board of Commissioners shall make its decision after information from the hearing has been received. The decision shall become effective by passage of an Ordinance. Type IV actions are made through the adoption of County Ordinances on an area wide basis involving text or map change amendments.

Unless specifically provided otherwise, the procedures of this Article do not apply to legislative action which shall be adopted in accordance with the Clatsop County Charter and State Law.

ANALYSIS and FINDING:
In accordance with the terms of Section 5(2) of the Clatsop County – City of Gearhart Urban Growth Management Agreement (UGMA), amendments of the City’s Comprehensive Plan must be adopted by ordinance by both the City and the County. UGMA Section 5(2)(i) requires the County to hold a public hearing according to procedure established in the Land and Water Development and Use Ordinance (LWDUO). Under the provisions of L2.035 a Type IV procedure is appropriate for legislative matters. The criteria in L2.101 will be met.

COMPREHENSIVE PLAN
Goal 1 – Citizen Involvement
Goal
To have continuity of citizen participation consisting of a seven member Planning Commission, with each member representing diverse geographic areas of the County, thus providing a method of ensuring communication between the citizens, administrative departments and the Board of County Commissioners.

Policies

2. The Planning Commission and active Citizen Advisory Committees shall hold their meetings in such a way that the public is notified in advance and given the opportunity to attend and participate in a meaningful fashion.

5. Citizens shall be provided the opportunity to be involved in the phases of the planning process as set forth and defined in the goals and guidelines for Land Use Planning, including Preparation of Plans and Implementation Measures, Plan Content, Plan Adoption, Minor Changes and Major Revisions in the Plan and Implementation Measures.

9. Public notices will also be sent to affected residents concerning zone and Comprehensive Plan changes, conditional uses, subdivisions and planned developments.

2 Clatsop County Ordinance 95-8
ANALYSIS and FINDING:
Mailed and published notice has been issued as required by the LWDUO. The matter does not conflict with Goal 1.

Goal 2 - Land Use Planning

The County’s land and water have been placed in one of six (6) Plan designations:

1. Development
Development areas are those with a combination of physical, biological, and social/economic characteristics which make them necessary and suitable for residential, commercial, or industrial development and includes those which can be adequately served by existing or planned urban services and facilities.

In Clatsop County, the County has three types of such areas: cities and their urban growth boundaries; rural communities; and rural service areas, which are areas similar to cities (sewer and water) but lack size and a government structure.

b. Urban Growth Boundaries. See land use plans of Astoria, Cannon Beach, Gearhart, Seaside and Warrenton. Clatsop County has adopted each of the city’s land use plans for areas outside of the city limits and inside the urban growth boundary. The cities and the County have adopted Urban Growth Boundary Management Agreements. Currently, all cities administer and enforce land use regulations in their respective urban growth areas.

ANALYSIS and FINDING:
The proposal is the adoption of the Gearhart LWI and associated amendments to the City of Gearhart Comprehensive Plan and Ordinance in accordance with the Urban Growth Boundary Management Agreement between the County and the City. The matter does not conflict with Goal 2.

Goal 5 - Open Spaces, Scenic & Historic Areas and Natural Resources

Goal
To conserve open space and protect natural and scenic resources.

Wetlands

1. The County will protect identified significant freshwater wetlands, for which no conflicting uses have been identified, from incompatible uses.

ANALYSIS and FINDING:
The purpose of the City’s Freshwater Wetland Overlay Zone is to “conserve significant freshwater wetlands and lakes”. The City of Gearhart has adopted outright and conditional uses, along with development standards, that will reduce any new impacts to the wetlands identified in the LWI, including wetlands within the UGB. The LWI is also being adopted as Appendix C of the County’s Goal 5 Element of the Comprehensive Plan. The comprehensive plan and ordinance amendments are consistent with Goal 5.

IV. PUBLIC AND AGENCY COMMENT

None received.
V. RECOMMENDATION:

Recommendation:
Staff recommends that the Planning Commission adopt the analysis and findings contained in the staff report and recommend approval of Ordinance 12-08 to the Clatsop County Board of Commissioners.

Respectfully Submitted,
