401.05 PRIMARY USES ALLOWED ON LOW VALUE FARMLAND

[Amended by Ord. ZDO-224, 5/31/11; Repealed by Ord. ZDO-234, 6/7/12]

401.05 APPROVAL CRITERIA FOR SPECIFIC USES

The following criteria apply to some of the uses listed in Table 401-1. The applicability of a specific criterion to a listed use is established by Table 401-1.

A. General Criteria

1. Uses may be approved only where such uses:
 - a. Will not force a significant change in accepted farm or forest practices on surrounding lands devoted to farm or forest use; and
 - b. Will not significantly increase the cost of accepted farm or forest practices on surrounding lands devoted to farm or forest use.
2. The Natural Resources Conservation Service (NRCS) Internet Soils Survey for Clackamas County shall be used to determine the soil

classification and soil rating for a specific lot of record, except for purposes of approving a Lot of Record Dwelling application, the applicant may submit a report from a professional soils classifier whose credentials are acceptable to the Oregon Department of Agriculture that the soil class, soil rating or other soil designation should be changed; and submits a statement from the Oregon Department of Agriculture that the Director of Agriculture or the director's designee has reviewed the report and finds the analysis in the report to be soundly and scientifically based.

3. The landowner for the dwelling shall sign and record in the deed records for the County a document binding the landowner, and the landowner's successors in interest, prohibiting them from pursuing a claim for relief or cause of action alleging injury from farming or forest practices for which no action or claim is allowed under ORS 30.936 or 30.937.
4. An approval to construct a dwelling may be transferred to any other person after the effective date of the land use decision.
5. No enclosed structure with a design capacity greater than 100 people, or group of structures with a total design capacity of greater than 100 people, shall be approved in connection with the use within three miles of an urban growth boundary, unless an exception is approved pursuant to ORS 197.732 and OAR chapter 660, division 4, or unless the structure is described in a master plan adopted under the provisions of OAR chapter 660, division 34.
 - a. Any enclosed structures or group of enclosed structures described in Subsection 401.05(A)(5) within a tract must be separated by at least one-half mile. For purposes of Subsection 401.05(A)(5), "tract" means a tract as defined by Subsection 401.03(T) that was in existence as of June 17, 2010.
 - b. Existing facilities wholly within a farm use zone may be maintained, enhanced, or expanded on the same tract, subject to other requirements of law, but enclosed existing structures within a farm use zone within three miles of an urban growth boundary may not be expanded beyond the requirements of Subsection 401.05(A)(5).

B. Farm and Forest Uses

1. A facility for the processing of farm crops or the production of biofuel as defined in ORS 315.141 shall be located on a farm that provides at least one-quarter of the farm crops processed at the facility. The building established for the processing facility shall not exceed 10,000 square feet of floor area exclusive of the floor area designated for preparation, storage, or other farm use or devote more than 10,000 square feet to the

processing activities within another building supporting farm use. A processing facility shall comply with all applicable siting standards but the standards shall not be applied in a manner that prohibits the siting of the processing facility. Any division of a lot of record that separates a processing facility from the farm operation on which it is located is prohibited.

2. A facility for the primary processing of forest products shall not seriously interfere with accepted farming practices and shall be compatible with farm uses described in ORS 215.203(2). Such facility may be approved for a one-year period that is renewable and is intended to be only portable or temporary in nature. The primary processing of a forest product, as used in Subsection 401.05(B)(2), means the use of a portable chipper or stud mill or other similar methods of initial treatment of a forest product in order to enable its shipment to market. Forest products as used in Subsection 401.05(B)(2) means timber grown upon a tract where the primary processing facility is located.

C. Natural Resource Uses

1. The County shall provide notice of all applications for the propagation, cultivation, maintenance, and harvesting of aquatic species that are not under the jurisdiction of the Oregon Fish and Wildlife Commission to the Oregon Department of Agriculture. Notice shall be provided in accordance with Section 1302 but shall be mailed at least 20 calendar days prior to the issuance of the Planning Director's decision.

D. Residential Uses

1. Alteration, restoration, or replacement of a lawfully established dwelling.
 - a. A lawfully established dwelling is a single-family dwelling which has:
 - i. Intact exterior walls and roof structure;
 - ii. Indoor plumbing consisting of a kitchen sink, toilet, and bathing facilities connected to a sanitary waste disposal system;
 - iii. Interior wiring for interior lights; and
 - iv. A heating system.
 - b. In the case of replacement, the dwelling to be replaced shall be:
 - i. Removed, demolished, or converted to an allowable nonresidential use within three months of the completion of the replacement dwelling. A replacement dwelling may be sited on any part of the

same lot of record. A dwelling established under Subsection 401.05(D)(1) shall comply with all applicable siting standards. However, the standards shall not be applied in a manner that prohibits the siting of the dwelling. If the dwelling to be replaced is located on a portion of the lot of record not zoned for exclusive farm use, the applicant, as a condition of approval, shall execute and record in the deed records for the County a deed restriction prohibiting the siting of a dwelling on that portion of the lot of record. The restriction imposed shall be irrevocable unless a statement of release is placed in the deed records for the County. The release shall be signed by the County or its designee and state that the provisions of Subsection 401.05(D)(1)(b) regarding replacement dwellings have changed to allow the siting of another dwelling. The Planning Director shall maintain a record of the lots of record that do not qualify for the siting of a new dwelling under the provisions of Subsection 401.05(D)(1)(b), including a copy of the deed restrictions and release statements filed under Subsection 401.05(D)(1)(b); and

- ii. For which the applicant has requested a deferred replacement permit, is removed or demolished within three months after the deferred replacement permit is issued. A deferred replacement permit allows construction of the replacement dwelling at any time. If, however, the established dwelling is not removed or demolished within three months after the deferred replacement permit is issued, the permit becomes void. The replacement dwelling must comply with applicable building codes, plumbing codes, sanitation codes, and other requirements relating to health and safety or to siting at the time of construction. A deferred replacement permit may not be transferred, by sale or otherwise, except by the applicant to the spouse or a child of the applicant.
2. Lot of Record Dwelling when determined to be located on Low Value Farmland, subject to the following criteria:
- a. The lot of record on which the dwelling will be sited was lawfully created prior to January 1, 1985.
 - b. The lot of record has been under the continuous ownership of the present owner who either,
 - i. Acquired the lot of record prior to January 1, 1985, or
 - ii. Acquired the lot of record by devise or intestate succession from a person or persons who had continuously owned the property since January 1, 1985.

- c. The tract on which the dwelling will be sited does not include a dwelling;
 - d. The lot of record on which the dwelling will be sited was not part of a tract that contained a dwelling on November 4, 1993.
 - e. The proposed dwelling is not prohibited by, and will comply with, the requirements of the acknowledged Comprehensive Plan, this Ordinance and other provisions of law.
 - f. When the lot of record on which the dwelling will be sited is part of a tract, all remaining portions of the common ownership shall remain in common ownership as long as the dwelling remains as approved.
 - g. The dwelling either will not seriously interfere with the preservation of big game winter range areas identified on Comprehensive Plan Map III-2, *Scenic and Distinctive Resource Areas*, or can be adequately mitigated. Estimated impacts and appropriate mitigation measures shall be submitted by the applicant and based on the best available data and assessment methods from the appropriate agency. The Oregon Department of Fish and Wildlife (ODFW) suggests to the County that in the absence of mitigation measures, winter range is seriously impacted by residential densities which exceed one unit per 80 acres or one unit per 40 acres, if clustered within 200 feet.
3. Lot of Record Dwelling when determined to be located on High Value Farmland consisting predominantly of Class III and IV Soil, subject to the following criteria:
- a. The lot of record on which the dwelling will be sited was lawfully created prior to January 1, 1985.
 - b. The lot of record has been under the continuous ownership of the present owner who either,
 - i. Acquired the lot of record prior to January 1, 1985, or
 - ii. Acquired the lot of record by devise or intestate succession from a person or persons who had continuously owned the property since January 1, 1985.
 - c. The tract on which the dwelling will be sited does not include a dwelling.
 - d. The lot of record on which the dwelling will be sited was not part of a tract that contained a dwelling on November 4, 1993.

- e. The proposed dwelling is not prohibited by, and will comply with, the requirements of the acknowledged Comprehensive Plan, this Ordinance and other provisions of law.
 - f. When the lot of record on which the dwelling will be sited is part of a tract, all remaining portions of the common ownership land shall remain in common ownership as long as the dwelling remains as approved.
 - g. The tract is no more than 21 acres.
 - h. The tract is bordered on at least 67 percent of its perimeter by tracts that are smaller than 21 acres, and at least two such tracts had dwellings on January 1, 1993; or, the tract is bordered on at least 25 percent of its perimeter by tracts that are smaller than 21 acres, and at least four dwellings existed on January 1, 1993, within one-quarter mile of the center of the subject tract. Up to two of the four dwellings may lie within an urban growth boundary, but only if the subject tract abuts an urban growth boundary.
 - i. The dwelling either will not seriously interfere with the preservation of big game winter range areas identified on Comprehensive Plan Map III-2, *Scenic and Distinctive Resource Areas*, or the impacts can be adequately mitigated so as not to interfere. Estimated impacts and appropriate mitigation measures shall be submitted by the applicant and based on the best available data and assessment methods from the appropriate agency. ODFW suggests to the County that in the absence of impact mitigation measures, winter range is seriously considered impacted by residential densities which exceed one unit per 80 acres or one unit per 40 acres, if clustered within 200 feet.
4. Lot of Record Dwelling when determined to be located on High Value Farmland consisting predominantly of Prime, Unique, Class I or II Soils if a Hearings Officer review pursuant to Subsection 1300 finds the following:
- a. The lot of record on which the dwelling will be sited was lawfully created prior to January 1, 1985.
 - b. The lot of record has been under the continuous ownership of the present owner who either,
 - i. Acquired the lot of record prior to January 1, 1985, or

- ii. Acquired the lot of record by devise or intestate succession from a person or persons who had continuously owned the property since January 1, 1985.
- c. The tract on which the dwelling will be sited does not include a dwelling;
- d. The lot of record on which the dwelling will be sited was not part of a tract that contained a dwelling on November 4, 1993.
- e. The proposed dwelling is not prohibited by, and will comply with, the requirements of the acknowledged Comprehensive Plan, this Ordinance and other provisions of law.
- f. When the lot of record on which the dwelling will be sited is part of a tract, all remaining portions of the common ownership land shall remain in common ownership as long as the dwelling remains as approved.
- g. The lot of record cannot practicably be managed for farm use, by itself or in conjunction with other land, due to extraordinary circumstances inherent in the land or its physical setting that do not apply generally to other land in the vicinity. Extraordinary circumstances include very steep slopes, deep ravines, rivers, streams, roads, railroads or utility lines or other similar natural or physical barriers that by themselves or in combination, separate the subject property from adjacent agricultural land and prevent it from being practicably managed for farm use by itself or together with adjacent or nearby farms. A parcel that has been put to farm use despite the proximity of a natural barrier or since the placement of a physical barrier shall be presumed manageable for farm use.
- h. The dwelling will not materially alter the stability of the overall land use pattern in the area.
- i. The dwelling either will not seriously interfere with the preservation of big game winter range areas identified on Comprehensive Plan Map III-2, *Scenic and Distinctive Resource Areas*, or can be adequately mitigated. (Estimated impacts and appropriate mitigation measures shall be submitted by the applicant and based on the best available data and assessment methods from the appropriate agency. ODFW suggests to the County that in the absence of mitigation measures, winter range is seriously impacted by residential densities which exceed one unit per 80 acres or one unit per 40 acres, if clustered within 200 feet).

5. Dwelling in conjunction with a farm use on High Value Farm Land: A primary farm dwelling for the farm operator may be allowed subject to the following criteria:
 - a. The subject tract is currently employed in farm use on which the farm operator earned at least \$80,000 in gross annual income from the sale of farm products in each of the last two years or three of the last five years, or in an average of three of the last five years;
 - b. Lots of record in Eastern Oregon shall not be used to qualify a dwelling under this criterion.
 - c. The lot of record on which the dwelling will be sited was lawfully created;
 - d. Except as permitted in Subsection 401.05(D)(12), there is no other dwelling on the subject tract;
 - e. The dwelling will be occupied by a person or persons who produced the commodities which generated the income;
 - f. In determining the gross income requirement, the cost of purchased livestock shall be deducted from the total gross annual income attributed to the tract.
 - g. Only gross income from land owned, not leased or rented, shall be counted.
 - h. An irrevocable deed restriction shall be recorded with the County Clerk's Office acknowledging that all future rights to construct a dwelling on other properties used to qualify the primary farm dwelling is precluded except for accessory farm dwellings, accessory relative farm dwellings, temporary hardship dwelling or replacement dwellings, and that any gross farm income used to qualify the primary farm dwelling cannot be used again to qualify any other parcel for a primary farm dwelling.
 - i. Only a lot of record zoned for farm use in Clackamas County or a contiguous county may be used to meet the gross income requirements.
6. Dwelling in conjunction with a farm use on Low Value Farmland: A primary farm dwelling for the farm operator may be allowed on low value farmland subject to the following criteria:

- a. The subject tract is currently employed in farm use on which the farm operator earned at least \$32,500 in gross annual income from the sale of farm products in each of the last two years or three of the last five years, or in an average of three of the last five years;
 - b. Lots or record in Eastern Oregon shall not be used to qualify a dwelling under this criterion.
 - c. Except as permitted in Subsection 401.05(D)(12), there is no other dwelling on the subject tract;
 - d. The lot of record on which the dwelling will be sited was lawfully created;
 - e. The dwelling will be occupied by a person or persons who produced the commodities which generated the income;
 - f. In determining the gross income, the cost of purchased livestock shall be deducted from the total gross income attributed to the tract.
 - g. Only gross income from land owned, not leased or rented, shall be counted.
 - h. Gross farm income earned from a lot of record which has been used previously to qualify another lot of record for the construction or siting of a primary farm dwelling may not be used.
 - i. Only lots of record zoned for farm use in Clackamas County or a contiguous county may be used to meet the gross income requirements.
 - j. An irrevocable deed restriction shall be recorded with the County Clerk's Office acknowledging that all future rights to construct a dwelling on other properties used to qualify the primary farm dwelling is precluded except for accessory farm dwellings, accessory relative farm dwellings, temporary hardship dwelling or replacement dwellings, and that any gross farm income used to qualify the primary farm dwelling cannot be used to qualify any other parcel for a primary farm dwelling.
7. A dwelling customarily provided in conjunction with a commercial dairy farm, which is a dairy operation that owns a sufficient number of producing dairy animals capable of earning the gross annual income required by OAR 660-033-0135(3)(a) or (4)(a), whichever is applicable, from the sale of fluid milk, if;

- a. The subject tract will be employed as a commercial dairy; and
 - b. The dwelling is sited on the same lot of record as the buildings required by the commercial dairy; and
 - c. Except for a replacement of a lawfully established dwelling, there is no other dwelling on the subject tract; and
 - d. The dwelling will be occupied by a person or persons who will be principally engaged in the operation of the commercial dairy farm, such as the feeding, milking or pasturing of the dairy animals or other farm use activities necessary to the operation of the commercial dairy farm; and
 - e. The building permits, if required, have been issued for and construction has begun for the buildings and animal waste facilities required for a commercial dairy farm; and
 - f. The Oregon Department of Agriculture has approved the following:

 - ii. A Producer License for the sale of dairy products under ORS 621.072.
8. 160 Acre Test, subject to the following criteria:
- a. The parcel on which the dwelling will be located is at least 160 acres.
 - b. The subject tract is currently employed in a farm use.
 - c. The dwelling will be occupied by a person or persons who will be principally engaged in the farm use of the land, such as planting, harvesting, marketing or caring for livestock at a commercial scale.
 - d. Except as permitted in Subsection 401.05(D)(12), there is no other dwelling on the subject tract; or
9. Capability Test, subject to the following criteria:
- a. The subject tract is at least as large as the median size of those commercial farm or ranch tracts capable of generating at least \$10,000 in annual gross sales that are located within a study area which includes all tracts wholly or partially within one mile from the perimeter of the subject tract.

- b. Lots of record in Eastern Oregon shall not be used to qualify a dwelling under this criterion.
 - c. The subject tract is capable of producing at least the median level of annual gross sales of county indicator crops as the same commercial farm or ranch tracts used to calculate the tract size in Subsection 401.05(D)(9)(a).
 - d. The subject tract is currently employed for a farm use at a level capable of producing the annual gross sales required in Subsection 401.05(D)(9)(a).

 - h. If no farm use has been established at the time of application, land use approval shall be subject to a condition that no building permit may be issued prior to the establishment of the farm use required by Subsection 401.05(D)(9)(a).
10. Dwelling not in Conjunction with a Farm Use: A dwelling for a nonfarm use may be allowed subject to the following criteria:
- a. The dwelling or activities associated with the dwelling will not force a significant change in or significantly increase the cost of accepted farming or forest practices on nearby lands devoted to farm or forest use;
 - b. The dwelling will be sited on a lot of record that is predominantly composed of Class IV through Class VIII soils that would not, when irrigated, be classified as prime, unique, Class I or Class II soils;
 - c. The dwelling will be sited on a lot of record lawfully created before January 1, 1993.
 - d. The dwelling is situated upon a parcel, or a portion of a parcel, that is generally unsuitable land for the production of farm crops and livestock or merchantable trees, considering the terrain, adverse soil or land conditions, drainage and flooding, vegetation, location and size of

the tract. A parcel shall not be considered unsuitable solely because of size or location if it can reasonably be put to farm or forest use in conjunction with other land. A parcel is not generally unsuitable because it is too small to be farmed profitably by itself. If the parcel can be sold, leased, rented or otherwise managed as a part of a commercial farm it is considered suitable.

- e. If the parcel is under forest deferral, the dwelling shall be situated upon generally unsuitable land for the production of merchantable tree species considering the terrain, adverse soil or land conditions, drainage and flooding, vegetation, location and size of the parcel. If a lot of record is under forest deferral, the area is not generally unsuitable simply because it is too small to be managed for forest production profitably by itself. If a parcel can be sold, leased, rented or otherwise managed as a part of a forestry operation, it is not generally unsuitable.
- f. The dwelling shall not materially alter the stability of the overall land use pattern of the area. The County shall consider the cumulative impact of possible new nonfarm dwellings and on other lots of record in the area similarly situated, subject to Oregon Administrative Rules (OAR) 660-033-0130(4)(a)(D)(i) through (iii).
- g. Identify a study area for the cumulative impacts analysis. The study area shall include at least 2,000 acres or a smaller area not less than 1,000 acres, if the smaller area is a "distinct agricultural area" based on topography, soils types, land use pattern, or the type of farm operations or practices that distinguish it from other adjacent agricultural areas. Findings shall describe the study area, its boundaries, and the location of the subject parcel with this area, why the selected area is representative of the land use pattern surrounding the subject parcel and is adequate to conduct the analysis required by this standard. Lands zoned for rural residential or other urban or nonresource uses shall not be included in the study area; and to the extent OAR 660-033-0130(4)(a)(D)(ii) is applicable.
- h. Determine whether approval of the proposed nonfarm dwelling together with existing nonfarm dwellings will materially alter the stability of the land use pattern in the area. The stability of the land use pattern will be materially altered if the cumulative effect of existing and potential nonfarm dwellings will make it more difficult for the existing types of farms in the area to continue operation due to diminished opportunities to expand, purchase or lease farmland, acquire water rights or diminish the number of tracts or acreage in farm use in a manner that will destabilize the overall character of the study area.

- i. The dwelling shall comply with such other conditions as the County considers necessary.
- j. Prior to Planning Director approval for issuance of a building or manufactured dwelling permit, the applicant shall notify the County Assessor that the lot of record is no longer being used for farmland and; request the County Assessor to disqualify the lot of record for special assessment under ORS 308.370, 308.765, 321.257 to 321.381, 321.730 or 321.815 and; pay any additional tax imposed upon disqualification from special assessment. A lot of record that has been disqualified pursuant to Subsection 401.05(D)(10)(j) shall not requalify for special assessment unless, when combined with another contiguous lot of record, it constitutes a qualifying parcel.

11. Accessory Farm Dwelling – Relative: An accessory farm dwelling for a relative, and their immediate family unless otherwise specified, of the farm operator may be allowed subject to the following criteria:

- c. The accessory farm dwelling shall be occupied by child, parent, stepparent, grandchild, grandparent, stepgrandparent, sibling, stepsibling, niece, nephew or first cousin, of the farm operator or the farm operator's spouse, whose assistance in the management and farm use, such as planting, harvesting, marketing or caring for livestock, is or will be required by the farm operator.
- d. The size, type, and intensity of the farm operation shall be used to evaluate the need for the dwelling.
- e. The net income derived from the farm products shall be significant and products from the farm unit shall contribute substantially to the agricultural economy, to agricultural processors and farm markets.
- f. The accessory farm dwelling shall be occupied by a person or persons whose assistance in the management and farm use of the existing commercial farming operation is required by the farm operator. The farm operator shall continue to play the predominant role in the management of the farm use of the farm unit. A farm operator is a person who operates a farm, doing the work and making the day-to-day decisions about such things as planting, harvesting, feeding and marketing;

- g. There are no other dwellings on the lot of record that are vacant or currently occupied by persons not working on the subject farm unit that could reasonably be used as an accessory farm dwelling.
 - h. At any time the accessory farm dwelling is not used for farm help or the farm management plan is not implemented and maintained as approved in the land use application, the dwelling shall be removed, demolished or if not a manufactured dwelling, converted to a nonresidential accessory structure (change of occupancy permit) within 90 days.

 - b. The accessory farm dwelling shall be located on a lawfully created lot of record;
 - c. The accessory farm dwelling shall be located:
 - i. On the same lot of record as the primary farm dwelling; or
 - ii. On the same tract as the primary farm dwelling when the lot of record on which the accessory farm dwelling will be sited is consolidated into a single parcel with all other contiguous lots of record in the tract; or
 - iii. On a lot of record on which the primary farm dwelling is not located, when the accessory farm dwelling is a manufactured dwelling and a deed restriction is filed with the County Clerk. The deed restriction shall require the manufactured dwelling to be removed when the lot of record is conveyed to another party. The

manufactured dwelling may remain if it is re-approved pursuant to Section 401; or

- iv. On any lot of record, when the accessory farm dwelling is limited to only attached multi-unit residential structures allowed by the applicable state building code or similar types of farmworker housing as that existing on the farm operation registered with the Department of Consumer and Business Services, Oregon Occupational Safety and Health Division under ORS 658.750. of the last two years or three of the last five years or in an average of three of the last five years.

- i. In determining the gross annual income, the cost of purchased livestock shall be deducted from the total gross income attributed to the tract.
- j. Only gross annual income from land owned, not leased or rented, shall be counted.
- k. Any proposed land division or property line adjustment of a lot of record for an accessory farm dwelling approved pursuant to Subsection 401.05(D)(12) shall not be approved. If it is determined that an accessory farm dwelling satisfies the requirements for a dwelling in conjunction with a farm use under Subsection 401.05(D)(5) or (6), a parcel may be created consistent with the minimum parcel size requirements in Subsection 401.07(A).
