ORDINANCE NO. 2014-29
MEDICAL MARIJUANA DISPENSARIES

EXHIBIT A - FINDINGS

A. Statewide Planning Goals

(1) Goal 1: Citizen Involvement

"To develop a citizen involvement program that insures the opportunity for citizens to be involved in all phases of the planning process."

All documents relating to this proposal were made available for public review and purchase, and were posted on the city's website. Staff was available to interpret and explain the technical information. The city sent notice to all affected property owners regarding the public hearings on the proposed zoning ordinance amendments and the local newspaper published hearing notices in accordance with notice requirements. The planning commission and the city council each held a public hearing at which citizens were invited to participate. Therefore, the amendments are consistent with Goal 1.

(2) Goal 2: Land Use Planning

"To establish a land use planning process and policy framework as a basis for all decisions and actions related to use of land and to assure an adequate factual base for such decisions and actions."

The City Council of Lincoln City adopted the Lincoln City Comprehensive Plan and its implementation measure, the Lincoln City Zoning Ordinance, after public hearing and has reviewed them on a periodic cycle to take into account changing public policies and circumstances. Citizens and affected governmental units had opportunities for review and comment during preparation, review, and revision of the plan and implementing ordinances. The City Council considered the proposed amendments to the Lincoln City Zoning Ordinance in accordance with the process and based on the criteria provided in the Municipal Code. Therefore the amendments are consistent with Goal 2.

(3) Goal 3: Agricultural Lands

"To preserve and maintain agricultural lands."

The area affected by the proposed zoning ordinance amendments is located within the city's urban growth boundary. The area currently is designated and zoned for urban development. There is no agricultural land in Lincoln City. The amendment does not affect agricultural lands. Goal 3 is not applicable.

(4) Goal 4: Forest Lands

Exhibit A – Ordinance 2014-29
"To conserve forest lands by maintaining the forest land base and to protect the state’s forest economy by making possible economically efficient forest practices that assure the continuous growing and harvesting of forest tree species as the leading use on forest land consistent with sound management of soil, air, water, and fish and wildlife resources and to provide for recreational opportunities and agriculture."

The area affected by the proposed zoning ordinance amendment is within the city’s urban growth boundary. The affected area does not include any designated forest lands; therefore, Goal 4 is not applicable.

(5) Goal 5: Natural Resources, Scenic and Historic Areas, and Open Spaces

"To protect natural resources and conserve scenic and historic areas and open spaces."

The amendments affect only areas already committed to urban commercial development. They do not by themselves permit development in any areas of protected natural resources, scenic or historic areas, or open spaces. The amendments are consistent with Goal 5.

(6) Goal 6: Air, Water and Land Resources Quality

"To maintain and improve the quality of the air, water and land resources of the state."

The amendments will not adversely affect the quality of the air or water. They do not by themselves permit development that might affect water or air quality. The existing ordinance and plan requirements relating to water and air quality will continue to apply to all properties that might be affected. Therefore, the amendments are consistent with Goal 6.

(7) Goal 7: Areas Subject to Natural Disasters and Hazards

"To protect people and property from natural hazards."

The amendments do not by themselves allow development within any natural hazard area. The existing ordinance and plan requirement relating to natural hazards will continue to apply to all properties that might be affected by natural hazards. Therefore, they are consistent with Goal 7.

(8) Goal 8: Recreational Needs

"To satisfy the recreational needs of the citizens of the state and visitors and, where appropriate, to provide for the siting of necessary recreational facilities, including destination resorts."
The proposed ordinance amendments do not relate to recreation and do not adversely affect the provision of or ability to site recreational areas in the City. By requiring a 1,000 foot buffer around parks the proposed amendments help to ensure that the recreational facilities are usable and safe, thus helping to meet the recreational needs of residents and their guests. Therefore, the amendments are consistent with Goal 8.

(9) Goal 9: Economic Development

“To provide adequate opportunities throughout the state for a variety of economic activities vital to the health, welfare, and prosperity of Oregon’s citizens.”

The amendments do not relate directly to economic development other than by allowing another type of business to be sited within Lincoln City. The proposed amendments are consistent with Goal 9.

(10) Goal 10: Housing

“To provide for the housing needs of citizens of the state.”

The amendments do not relate directly to the housing needs of the people of Lincoln City. Goal 10 therefore, is not applicable.

(11) Goal 11: Public Facilities and Services

“To plan and develop a timely, orderly and efficient arrangement of public facilities and services to serve as a framework for urban and rural development.”

The amendments do not relate directly to public facilities and services. Goal 11 is not applicable.

(12) Goal 12: Transportation

“To provide and encourage a safe, convenient and economic transportation system.”

The amendments do not relate directly to transportation. Goal 12 is not applicable.

(13) Goal 13: Energy Conservation

“To conserve energy.”

The amendments do not relate directly to energy conservation. Goal 13 is not applicable.

(14) Goal 14: Urbanization
“To provide for an orderly and efficient transition from rural to urban land use, to accommodate urban population and urban employment inside urban growth boundaries, to ensure efficient use of land, and to provide for livable communities.”

The amendments do not relate directly to urbanization. Goal 14 is not applicable.

(15) Goal 15: Willamette River Greenway

“To protect, conserve, enhance and maintain the natural, scenic, historical, agricultural, economic and recreational qualities of lands along the Willamette River as the Willamette River Greenway.”

The affected area is not located within the Willamette River Greenway; therefore, Goal 15 is not applicable.

(16) Goal 16: Estuarine Resources

“To recognize and protect the unique environmental, economic, and social values of each estuary and associated wetlands; and to protect, maintain, where appropriate develop, and where appropriate restore the long-term environmental, economic, and social values, diversity and benefits of Oregon’s estuaries.”

The amendments by themselves do not allow development in areas adjacent to the city’s designated estuarine resource (i.e., Siletz Bay). All development in such areas already is controlled by existing ordinance and comprehensive plan standards and these standards would be applied to any medical marijuana dispensary developments that might be developed in areas affecting the estuary. The amendments, therefore, are consistent with Goal 16.

(17) Goal 17: Coastal Shorelands

“To conserve, protect, where appropriate, develop and where appropriate restore the resources and benefits of all coastal shorelands, recognizing their value for protection and maintenance of water quality, fish and wildlife habitat, water-dependent uses, economic resources and recreation and aesthetics. The management of these shoreland areas shall be compatible with the characteristics of the adjacent coastal waters; and to reduce the hazard to human life and property, and the adverse effects upon water quality and fish and wildlife habitat, resulting from the use and enjoyment of Oregon’s coastal shorelands.”

The city’s coastal shorelands include all land west of Highway 101, land within 500 feet of the ordinary high-water elevation of Devils Lake and Spring Lake, and land within 1,000 feet of the shoreline mean higher-high-water elevation of Schooner Creek, Drift Creek, and Siletz Bay estuaries. The shorelands include some areas in which medical marijuana dispensary development might be proposed. All development in such areas already is controlled by existing ordinance and comprehensive plan standards and these
standards would be applied to any dispensaries that might be developed in areas affecting the coastal shorelands. The amendments, therefore, are consistent with Goal 17.

(18) Goal 18: Beaches & Dunes

"To conserve, protect, where appropriate develop, and where appropriate restore the resources and benefits of coastal beach and dune areas; and to reduce the hazard to human life and property from natural or man-induced actions associated with these areas."

Lincoln City has a large amount of coastal beach. Inventory maps show active dunes and deflation plains on the Salishan spit, but not within Lincoln City, with the possible exception of a few isolated spots in Cutler City. For Roads End, inventory maps show older, stabilized dunes. The amendments do not, by themselves, allow any development in or near beach and dune areas. All development in such areas already is controlled by existing ordinance and comprehensive plan standards and these standards would be applied to any medical marijuana dispensary developments that might be developed in areas affecting beaches and dunes. The amendments are consistent with Goal 18.

(19) Goal 19: Ocean Resources

"To conserve marine resources and ecological functions for the purpose of providing long-term ecological, economic, and social value and benefits to future generations."

The amendments do not, by themselves, affect any ocean resources and, therefore, are consistent with Goal 19.

B. Comprehensive Plan Goals

(1) Planning Goal

"To establish a land use planning process and policy framework as a basis for all decisions and actions related to use of land and to assure an adequate factual base for such decisions and actions."

The City Council of Lincoln City adopted the Lincoln City Comprehensive Plan and its implementation measure, the Lincoln City Zoning Ordinance after public hearing and has reviewed it on a periodic cycle to take into account changing public policies and circumstances. The city provided opportunities for review and comment by citizens and affected governmental units during their preparation, review, and revision. Review of the proposed amendment was in accordance with the Lincoln City Comprehensive Plan and the applicable zoning ordinance provisions and, therefore, in conformance with this goal.
(2) Citizen Involvement Goal

“Develop a Citizen Involvement Program which ensures the continued participation of citizens in the land use planning process.”

The City has developed a citizen involvement program. In addition, the public hearing process, with notice to the public and property owners and review of the amendments by the Planning Commission (a citizen board) and the City Council (comprised of elected citizen representatives,) establishes conformance with this goal.

(3) Public Services and Utilities Goal

“To plan and develop a timely, orderly, and efficient arrangement of public facilities and services, which compliment the area and serve as a framework for urban and rural development.”

The proposed amendments do relate directly to public services and utilities. This goal is Not applicable.

(4) Urbanization Goal

“To promote an orderly and efficient transition of land uses from rural to urban.”

The amendments do not relate directly to urbanization. This goal is not applicable.

(5) Natural Hazard Goal

“The City shall control development in hazardous areas to protect life and property from natural disasters and hazards.”

The amendments, by themselves, do not allow development in hazardous areas. Development in such areas is controlled by existing comprehensive plan and zoning ordinance standards, as well as building code requirements. The amendments are consistent with this goal.

(6) Housing Goal

“To provide for the housing needs of all citizens.”

The amendments do not relate directly to the housing needs of the people of Lincoln City. The housing goal does apply.
(7) Economy Goal

“To support the tourist industry and achieve a degree of diversity in the community, which will allow a balanced economy that will, in turn, support an adequate level of services for all members of the area.”

The amendments do not relate directly to economic development other than by allowing another type of business to be sited within Lincoln City. These amendments, therefore, are consistent with this goal.

(8) Aesthetic Goal

“To develop a livable and pleasing city which enhances man’s activities while protecting the exceptional aesthetic quality of the area.”

The amendments do not relate directly to aesthetics. This goal is not applicable.

(9) Transportation Goal

“To provide a safe, convenient and rapid transportation network to facilitate the movement of goods and people.”

The amendments do not relate directly to transportation. This goal is not applicable.

(10) Energy Goal

“To conserve energy.”

The amendments do not relate directly to energy conservation. This goal is not applicable.

(11) Overall Environmental Goal

“To achieve a balance between the need to provide housing and services and the need to protect and enhance the natural environment of the city.”

The amendments, by themselves, do not allow development in sensitive natural resource areas. The existing ordinance and plan requirement relating to protecting the natural environment will continue to apply to all properties that might be affected. These amendments contribute to this goal.

(12) Shoreland, Beaches, Dunes, Estuary and Ocean Resources Goal

“To conserve, to protect, to enhance the coastal resources of the city.”

Exhibit A – Ordinance 2014-29
The amendments by themselves do not allow development in areas adjacent to the city’s designated estuarine resource (i.e., Siletz Bay), in the city’s coastal shorelands, beach and dune areas, or in ocean resource areas. To the extend these areas might be proposed for development of medical marijuana dispensary developments, the existing ordinance and comprehensive plan standards and these would be applied, thereby protecting these resources. The amendments are consistent with this goal.
